1. Successful completion of ENG-121 fully satisfies the English composition general education requirement.
2. Students may satisfy the computer competency requirement simultaneously with their computer technology requirement. Students who have otherwise demonstrated competence in computing and information technology must select a general education mathematics course, a general education computer technology course or a general education interdisciplinary course.
3. No more than 3 credits of physical activity courses may be used as electives.
4. Select 12 credits from a single discipline. The three letters used in a course designation (i.e., BIO, ENG, GSS) indicate the discipline to which it belongs. Physical activities courses may not be counted toward an option in physical education.
