COURSES/REQUIREMENTS FOR YOUR PROGRAM OF STUDY

CATALOG YEAR: 2016-2017

PROGRAM CODE: AAS.HUS.HUS
PROGRAM NAME: Human Services

FACULTY CONTACT: Elizabeth Appel
PROGRAM SCHOOL: Health Sciences

AACC faculty developed the following charts to encourage greater success in your program of study. Why take classes in this order? The courses in the first column are designed to prepare you for courses in the second column and so on. Students with no developmental requirements in English or reading may register for a total of 18 credits per term. If you are a part-time student, you may take fewer credits by dividing the recommended courses across multiple terms to accommodate your schedule.

SOC-111		D	3	HUS-141			3	Mathematics GER			3-4	PSY-214	*	D	3

1. Successful completion of ENG-121 fully satisfies the English composition general education requirement.

Where course choices exist within programs, transfer students should consult with an advisor and use transfer resources to make course choices consistent with the requirements of their intended transfer school.

(*) This course has a credit course prerequisite. Specific course prerequisite information can be obtained by looking at the course description in the Credit Courses of Instruction section of the College Catalog or in the Schedule of Classes.

(D) This course meets the diversity requirement or the diversity requirement can be met simultaneously as you satisfy this requirement. Only one diversity class is required to meet the diversity requirement. Courses which meet the diversity requirement can be found in General Education Requirements section of the College Catalog or by looking for the diversity symbol placed next to course descriptions in the Credits Courses of Instruction section of the College Catalog or in the Schedule of Credit Classes.

(GER) Information on courses that meet General Education Requirements (GER) can be found in General Education Requirements section of the College Catalog or by looking for the open book symbol for each General Education Category placed next to course descriptions in the Credits Courses of Instruction section of the College Catalog or in the Schedule of Credit Classes.

HEALTH SCIENCES ADMISSIONS REQUIREMENTS
FOR YOUR PROGRAM OF STUDY
CATALOG YEAR: 2016-2017

Entrance Requirements

Demonstrated eligibility for ENG 111 or ENG 115 or ENG 121.

Health Sciences Programs

Application to the college and application to the health sciences programs are separate procedures. Admission to the following programs is competitive: EMT bridge option, EMT Intermediate, EMT-Paramedic, geriatric nursing assistant, health information technology, LPN to RN upward mobility option, medical assisting, medical coding, medical laboratory technician, nursing (RN), patient care technician, pharmacy technician, phlebotomy, physical therapist assistant, physician assistant, practical nursing, radiologic technology and surgical technology. Consult the Admissions and Enrollment Development office or the School of Health Sciences for information on eligibility requirements and selection procedures, www.aacc.edu/healthsciences.

Criminal Background Checks and Drug Screening

All health sciences students who are offered admission and/or clinical placement will be required to submit to a complete criminal background check and urine drug screen. All student applicants' final acceptance in the program shall be contingent upon satisfactory completion of a criminal background check and of a urine drug screen.*
All letters of acceptance shall state that the acceptance is conditional and contingent on submission to a criminal background check and urine drug screen - as may be required by the program - that results in satisfactory reports. If an accepted student tests positive for an illegal or un-prescribed drug, the student shall be denied admission or terminated from any health sciences program.

Separate, additional criminal background checks and urine drug screens may be required by clinical sites prior to placements. Students with an unsuccessful background check or urine screening who are denied by a clinical site that is required to meet program competencies shall be dismissed from the program and their registrations shall be withdrawn from courses related to the program of study. If the student tests positive for an illegal or un-prescribed drug, the student shall be denied admission or terminated from any health sciences program even if a denied placement was not required to meet program competencies. Successful reports of criminal background checks and urine drug screens do not assure eligibility for specific clinical site placement, program completion, and/or eligibility to sit for professional licensure/board examinations.
Students are reminded that licensing boards for certain health care occupations and professions may deny, suspend, or revoke a license or may deny the individual the opportunity to sit for an examination even if the individual has completed all program course work if it is determined that an applicant has a criminal history or has been convicted of, or pleads guilty, or pleads nolo contendere or the like to a felony or other serious crime.

Successful completion of a health sciences program of study at Anne Arundel Community College does not guarantee licensure, the opportunity to sit for a licensure examination, certification or employment in the relevant health care occupation.
Students may be automatically denied admission or, if enrolled, dismissed from the program if they have not been truthful or have provided inaccurate information on the application or on any other form or submission. Students who have questions or concerns are encouraged to contact the Health Sciences Admissions Office at healthsciencesadmissions@aacc.edu.

* Notwithstanding the statements herein regarding urine drug screens, as of September 2010, only certain programs will be requiring drug screening. AACC shall inform students which programs presently require them. However, AACC, at any time, has the right, upon notice, to require any and all students in any and all programs to comply with drug screening.
