Majors and Programs

Addiction Counseling (A.A.S.)

Official Title of Major: Addiction Counseling, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.HUS.ADD-CNSL

Total Credit Hours: A minimum of 60

Visit www.aacc.edu to learn more about the Addiction Counseling Degree Program

Purpose: Prepares students for careers in addiction counseling and enhances knowledge and skills of those already working in the field. Skills include individual, family and group counseling techniques, as well as assessment, treatment planning, prevention, and other topics related to addiction. Coursework includes 250 hours of clinical fieldwork. The degree provides the necessary academic coursework to attain certification as a certified supervised counselor-alcohol and drug (CSC-AD) by the Maryland Board of Professional Counselors. Students should contact the Maryland Board of Professional Counselors for all licensure and certification requirements at **410-764-4732** or <https://health.maryland.gov/bopc/> for requirements.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Additional Program Requirements

Students must earn a grade of C or better in all human services courses. 250 hours of unpaid clinical fieldwork in a community addiction agency is required in order to complete the program.

Range of Occupations

- Addiction counselor

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Entrance/Admission Requirements

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see the Health Sciences section of this catalog.

General Education Requirements: 25 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 4 credits

- BIO 101 - Fundamentals of Biology 4 *credit hours* **OR**
- BIO 230 - Structure and Function of the Human Body 4 *credit hours*

Mathematics: 3 credits

Must choose a general education 3 credit hour math course. See General Education Mathematics Requirements for a list of approved courses. If planning to transfer to the University of Maryland Baltimore County social work program you should take MAT 135.

Social and Behavioral Sciences: 3 credits

- PSY 111 - Introduction to Psychology 3 *credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** 3 *credit hours*

Must select from:

- CTA 100 - Computing and Information Technology
- CTP 103 - Theories and Applications of Digital Technology

- **Wellness Requirement** 3 *credit hours*

See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 35 credits

- PSY 214 - Abnormal Psychology 3 *credit hours*
This course meets a General Education Requirement while simultaneously meeting a Program Requirement for this degree. This course is required for Fast Track students.
- HUS 101 - Human Service and Addiction Counseling Ethics in Practice 3 *credit hours*
- HUS 102 - Physiological Aspects of Chemical Dependence 3 *credit hours*

- HUS 114 - Counseling, Assessment and Case Management 3 credit hours
- HUS 115 - Fieldwork: Counseling, Assessment and Case Management 3 credit hours
- HUS 130 - Introduction to Family Counseling 3 credit hours
- HUS 140 - Topics in Alcohol and Drug Counseling: Co-occurring Disorders 3 credit hours
- HUS 141 - Group Dynamics 3 credit hours
- HUS 200 - Addiction Treatment Delivery 3 credit hours
- HUS 216 - Theories of Counseling 3 credit hours
- HUS 217 - Fieldwork: Theories of Counseling 3 credit hours
- HUS 234 - Trauma Informed Care 2 credit hours

Diversity Requirement

Satisfied by HUS 101.

Technology Requirement

Satisfied by CTA 100 or CTP 103.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Summarize the field of human services and addiction professional's obligations to adhere to legal, ethical and behavioral standards of conduct in the helping relationship.
2. Demonstrate basic counseling and case management skills and techniques in order to facilitate client services.
3. Design a plan to assess clients, design and implement specific and measurable goals.
4. Describe the administrative aspects of service delivery.
5. Develop interpersonal skills with clients and team members and demonstrate professional behaviors.
6. Examine how their own values, personalities, reaction patterns, interpersonal styles, limitations and self-care practices impact their role as a human services professional.
7. Analyze the importance of family, social networks, and community systems in the treatment process.
8. Students will identify community resources.
9. Students will demonstrate effective group facilitation skills.
10. Identify and explain a variety of models and theories of addiction.
11. Describe the behavioral, psychological, physical health, and social effects of psychoactive substances on the person using and significant others
12. Describe the philosophies, practice, and policies of models of treatment, recovery, relapse prevention, and continuing care for addiction and co-occurring disorders.
13. Employ screening instruments to gather initial data about substance use and co-occurring disorders from the client that is sensitive to age, gender, race, ethnicity, religion, and disabilities.
14. Students will have knowledge of individual therapeutic modalities that facilitate behavioral change.

15. Complete required fieldwork with the Human Services Department and apply meaningful connections between classroom learning and experiences in the field.

This program aligns with all the college's core competencies.

Addiction Counseling (certificate)

Official Title of Certificate: Addiction Counseling, Certificate

Award: Certificate

Code: CRT.HUS.ADD-CNSL

Total Credit Hours: 24

Visit www.aacc.edu to learn more about the Addiction Counseling Certificate program

Purpose: Prepares students for careers in addiction counseling and enhances knowledge and skills of those already working in the field. Skills include individual, family and group counseling techniques, as well as assessment, treatment planning, prevention, and other topics related to addiction. Coursework includes 125 hours of clinical fieldwork. Successful completion of the course work meets the educational requirements to pursue an Alcohol Drug Trainee (ADT) status. Students should contact the Maryland Board of Professional Counselors for all licensure and certification requirements at **410-764-4732** or <https://health.maryland.gov/bopc/> for requirements.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Range of Occupations

- Addiction counselor

Additional Program Requirements

Students must earn a grade of C or better in all human services courses. 125 hours of unpaid clinical fieldwork in a community addiction agency is required in order to complete the program.

Entrance/Admission Requirements

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see the Health Sciences section of this catalog.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 24 credits

- HUS 101 - Human Service and Addiction Counseling Ethics in Practice *3 credit hours*
- HUS 102 - Physiological Aspects of Chemical Dependence *3 credit hours*
- HUS 114 - Counseling, Assessment and Case Management *3 credit hours*
- HUS 115 - Fieldwork: Counseling, Assessment and Case Management *3 credit hours*
- HUS 130 - Introduction to Family Counseling *3 credit hours*
- HUS 140 - Topics in Alcohol and Drug Counseling: Co-occurring Disorders *3 credit hours*
- HUS 141 - Group Dynamics *3 credit hours*
- HUS 200 - Addiction Treatment Delivery *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Have knowledge of a variety of models and theories of addiction.
2. Describe the behavioral, psychological, physical health, and social effects of psychoactive substances on the person using and significant others.
3. Describe the philosophies, practice, and policies of models of treatment, recovery, relapse prevention, and continuing care for addiction and co-occurring disorders.
4. Recognize the importance of family, social networks, and community systems in the treatment process.
5. Identify established diagnostic criteria for substance use disorders, and describe treatment modalities and placement criteria within the continuum of care.
6. Understand diverse cultures, and incorporate the relevant needs of culturally diverse groups, as well as people with disabilities, into clinical practice.
7. Outline the addiction professional's obligations to adhere to legal, ethical and behavioral standards of conduct in the helping relationship.
8. Use screening instruments to gather initial data about substance use and co-occurring disorders from the client.
9. Select and use a comprehensive assessment process that is sensitive to age, gender, race, ethnicity, religion, and disabilities.
10. Develop treatment plans.
11. Have knowledge of community resources and will make appropriate referrals.
12. Demonstrate case management and service coordination as part of an interdisciplinary treatment team.
13. Have knowledge of individual therapeutic modalities that facilitate behavioral change.
14. Understand group counseling modalities for substance use disorders.
15. Demonstrate knowledge of accepted principles of client record management.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Administrative Medical Assistant (lor)

Official Title of Letter of Recognition: Administrative Medical Assistant, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: 8 credit hours after completion of prerequisites or equivalent.

Purpose: This short, three-course sequence is designed for persons who wish to prepare themselves for the administrative role in the medical office. Upon completion of this course of study, students will demonstrate ability in:

- Filing medical insurance claims and writing accurate appeals.
- Applying the principles of basic medical law to the daily operations of the medical office.
- Applying office management principles to the daily operation of the office.
- Managing the front office in a medical setting: preparing professional documents and patient scheduling.

Students completing the Administrative Medical Assistant Letter of Recognition from AACC are eligible to take the National Healthcareer Association Certified Medical Administrative Assistant (CMAA) exam.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Entrance/Admission Requirements

Entrance Requirements

1. Eligibility for ENG 101 / ENG 101A
2. MDA 113 - Medical Terminology *3 credit hours*

Degree/Award Requirements

Degree Requirements

Completion of the required courses with a grade of C or better.

Award Requirements

Students apply to the Records and Registration office for the letter of recognition after they complete the program requirements.

Requirements: 8 credits

- MDA 111 - Laws and Ethics for Health Professionals 2 *credit hours*
- MDA 115 - Administrative Medical Assisting 1 3 *credit hours*
- MDA 117 - Administrative Medical Assisting 2 3 *credit hours*

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Advanced Digital Forensics (certificate)

Official Title of Certificate: Advanced Digital Forensics, Certificate

Award: Certificate

Code: CRT.CIS.DIGIT-FRSC-A

Total Credit Hours: 25

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: Perform forensic investigations, incident handling, and conduct incident investigations. Gain the knowledge and skills necessary to execute forensic investigations of networks, hosts, and mobile devices, including the use of standard computer forensics and evidence handling techniques to collect, process, review, analyze and produce electronic evidence. Successful completion of the courses in this certificate prepares a student for the Cyber Incident Responder exam sponsored by the Defense Cyber Crime Center (DC3), National Centers of Digital Forensics Academic Excellence (CDFAE) program.

Related Industry Certifications

This program provides full or partial foundation for the following industry recognized certificates and certifications: Department of Defense Cyber Crime Center (DC3) certificate and Magnet Certified Forensic Examiner (MCFE), Network+ (CompTIA) and the Security+ (CompTIA) industry certification exams.

Range of Occupations

- Computer forensics technician
- Digital forensics specialist
- Digital forensics investigator
- Forensic support specialist
- Incident response analyst

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 25 credits

- CJS 111 - Introduction to Criminal Justice 3 *credit hours*
- CTS 107 - Cyber Essentials 3 *credit hours*
- CTS 110 - Network Essentials 4 *credit hours*

- CTS 120 - Introduction to Linux 4 *credit hours*
- CTS 170 - Digital Forensics 1 3 *credit hours*
- CTS 207 - Digital Forensics 2 4 *credit hours*
- CTS 209 - Digital Forensics 3 4 *credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Plan and perform digital forensic investigations including preservation, handling, analysis, and documentation of evidence
2. Use industry standard tools to access digital evidence and conduct forensic analysis
3. Relate the functionality of operating systems and networks to digital evidence
4. Apply Constitutional and case law to digital forensics investigations
5. Effectively communicate technical information

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Information Assurance and Cybersecurity (A.A.S.)
- Digital Forensics (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Advanced Network Security (certificate)

Official Title of Certificate: Advanced Network Security, Certificate

Award: Certificate

Code: CRT.CIS.NET-SEC-ADV

Total Credit Hours: 16

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics department

Purpose: Provides students with the hands-on skills and knowledge to protect cyber computer networks. Skills covered include the design and implementation of firewalls, IDS, wireless security, cryptography, Linux security, Windows security, among others. In addition to network security fundamentals students will learn valuable defense and countermeasures.

Related Industry Certificates

This program provides partial foundation for the following industry recognized certifications: Security+ (CompTIA) and Linux+ (CompTIA) industry certification exams.

Range of Occupations

- Internet security specialist
- IT compliance specialist
- IT manager
- Network administrator
- Network analyst
- Systems analyst

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 16 credits

- CTS 140 - Network Security Fundamentals *4 credit hours*
 - CTS 240 - Advanced Network Defense *4 credit hours*
 - CTS 242 - Network Intrusion Detection and Penetration Testing *4 credit hours*
 - CTS 222 - UNIX/LINUX System Administration *4 credit hours*
- OR**
- CTS 234 - Windows Server *4 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Perform TCP/IP addressing, routing, and packet filtering.
- Install proxy servers, firewalls, and virtual private networks (VPNs).
- Secure network perimeters and harden network infrastructure.
- Identify the priorities and processes used to protect computer and network systems.
- Identify network vulnerabilities, implement network defense strategies and develop alternate solutions based upon cost and level of security required.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Information Assurance and Cybersecurity (A.A.S.)
- Network Security (certificate)

American Sign Language (A.A.)

Official Title of Major: American Sign Language, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ASL.ASL

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the American Sign Language program

Purpose: The American Sign Language transfer degree will provide students a thorough and rigorous preparation to complete bachelors and masters-level training for careers as case managers, residential counselors, teaching assistants, job coaches, and administrative assistants. Graduates can choose to pursue further training to become ASL interpreters, or go on to graduate degree programs in social work, Deaf education, audiology, speech pathology, and business administration.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement
- ENG 102 - Academic Writing and Research 2 3 *credit hours*

Arts and Humanities: 6 credits

- One arts and humanities general education course other than ASL - 3 *credit hours*
- ASL 111 - American Sign Language 1 3 *credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Transfer students are recommended to consult a transfer advisor on mathematics courses accepted by their desired transfer institution.

Choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics 3 credit hours
 - OR**
 - MAT 135 - Statistics 3 credit hours
- Or more advanced level if qualified from the list below:
- MAT 137 - College Algebra 3 credit hours
 - MAT 145 - Precalculus 1 3 credit hours
 - MAT 146 - Precalculus 2 3 credit hours
 - MAT 151 - Accelerated Precalculus 4 credit hours
 - MAT 191 - Calculus and Analytic Geometry 1 4 credit hours
 - MAT 192 - Calculus and Analytic Geometry 2 4 credit hours
 - MAT 202 - Linear Algebra 4 credit hours
 - MAT 230 - Elementary Calculus (For Business and Social Sciences) 3 credit hours

Social and Behavioral Sciences: 6 credits

Choose two courses from two different disciplines. See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 6 credits

- **Technology Requirement** 3 credit hours
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 26 credits

Students with prior ASL knowledge are encouraged to meet with the ASL coordinator to determine placement into higher level courses.

Required Courses: 21 credits

- ASL 112 - American Sign Language 2 3 credit hours
- ASL 113 - American Sign Language 3 3 credit hours
- ASL 114 - Fingerspelling and Numbers 3 credit hours
- ASL 120 - Introduction to the American Deaf Community 3 credit hours
- ASL 121 - Deaf Culture 3 credit hours
- ASL 140 - Introduction to Interpreting 3 credit hours
ASL 120 fulfills the Diversity Requirement.
- ASL 211 - American Sign Language 4 3 credit hours

Electives: 5 credits

Recommend students check with an advisor before selecting electives. No more than 3 credits of physical activity courses may be used as electives.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate effectively at an intermediate level in American Sign Language with diverse audiences on academic and personal topics.
2. Compare the linguistic systems of American Sign Language and English.
3. Apply an awareness of social diversity and the ways in which cultural values are historically and socially situated.
4. Assess the intersection of Deaf culture and identity with hearing American society.
5. Develop technological and electronic media skills.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

American Sign Language (lor)

Official Title of Letter: American Sign Language, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: A minimum of nine

Visit www.aacc.edu to learn more about the American Sign Language program

Purpose: An American Sign Language (ASL) Letter of Recognition provides a basic foundation of ASL and an appreciation of Deaf history and culture or an understanding of ASL interpretation. This makes it possible for learners in any area of study to serve the Deaf and Hard of Hearing population. These courses integrate basic ASL conversations adhering to ASL linguistic structures and cultural norms with introductory history and culture of the

American Deaf community or the theoretical processes and ethics of interpreting. *Note: This letter of recognition does not qualify recipients as interpreters.*

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Degree/Award Requirements

Award Requirements

Completion of the required courses with a grade of C or better. Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 9 credits

- ASL 111 - American Sign Language 1 3 *credit hours*
- ASL 112 - American Sign Language 2 3 *credit hours*

And at least one (1) of the following: 3 credits

- ASL 113 - American Sign Language 3 3 *credit hours*
- ASL 120 - Introduction to the American Deaf Community 3 *credit hours*
- ASL 140 - Introduction to Interpreting 3 *credit hours*

Architecture and Interior Design - Landscape Design (A.A.S.)

Official Title of Major: Architecture and Interior Design - Landscape Design, A.A.S.

Award: Associate of Applied Science degree, A.A.S

Code: AAS.ACH.LAND-DSGN

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: The option serves as an introduction to Landscape Architecture while developing essential workforce skills for use in the profession. The program focuses on the creation of the outdoor environments using a design process that incorporates aspects of ecological systems and human behavioral design strategies. Diverse landscape typologies are explored to acquire analytical skills inclusive of environmental, socio-political, health and safety, and sustainable influences. An emphasis on the utilization of technical design skills, methods of construction, and industry technologies is implemented to construct oral, written and visual presentations integral to the Landscape Architecture Profession.

Range of Occupations

- Landscape Design Intern
- Landscape Design CAD operator
- Site Surveyor
- Map Developer
- Garden and Nursery Assistant
- Sustainability Officer
- Sustainability Specialist
- Water Resource Specialist

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

Choose one from the following courses:
- ACH 265 - Digital Studio *3 credit hours*
- ACH 270 - Building Information Modeling *3 credit hours*
- ACH 271 - Advanced Building Information Modeling *3 credit hours*

Diversity Requirement

General educational requirement SOC 111 meets this requirement.

Technology Requirement

General education requirement CTA 100 or CTP 103 meets this requirement.

Wellness Requirement

Satisfied by ACH 242

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this degree program, students will be able to:

1. Define and apply a design process for solving design problems.
2. Demonstrate analytical skills inclusive of environmental, socio-political, health and safety, and sustainable influences and relationships.
3. Use technical skills, methods, and technologies common to the Landscape Architecture Profession.
4. Construct oral, written, and visual communications common to the Landscape Architecture Profession.
5. Express Landscape Architecture as a profession with regards to practices, values, and ethics.
6. Identify and use Landscape Architecture Historical precedents, theory, and research.

This program aligns with the college's core competencies.

Related Offerings

Architecture and Interior Design (A.A.S.)

Official Titles of Major: Architecture and Interior Design - Architecture, A.A.S. *and* Architecture and Interior Design - Interior Design, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: The degree prepares students for further study in the field of architecture and interior design while also preparing students to enter the workforce directly. There are two areas of concentration; Architecture and Interior Design.

Areas of Concentration: This degree requires that students choose a concentration in one of two areas. A concentration is a structured plan of study within a degree program. The number of credit hours and particular course requirements for a concentration may vary, as listed below. To achieve a concentration, students must receive credit for every course requirement listed under that concentration.

Two Concentrations:

1. Architecture (code AAS.ACH.ID-ARCH):

Specific skills are developed in preparation of contract documents, theory analysis and design presentation, computer-aided drafting and design (CAD), building information modeling (BIM), building materials and techniques of construction. Includes specific study in sustainable and high performance design based on the LEED (Leadership in Energy and Environmental Design) system through the United States Green Building Council. The concentration teaches how to apply technology to the design process and enables graduates to seek employment within the architectural design and the construction industries. Credits may be transferred to schools offering bachelors and master's degrees in architecture. See department chair regarding specific architecture school requirements and departmental transfer agreements.

Range of Occupations

- Architect's field representative
- Architectural designer
- Architectural drafter
- CAD (computer-aided design) operator
- Construction manager
- Estimator
- Manufacturer's representative
- Specification writer

2. Interior Design (code AAS.ACH.ID-INT-DSGN):

Prepares students in the field of interior design while developing essential skills required in the workforce. Program focuses on both residential and commercial aspects of design and construction such as, illustration, color, lighting, textiles, finishes and furnishings. Equips students with employable skills in research, client relations, programming, contract documentation, design analysis, presentation, CAD (computer aided design), BIM (building information modeling) and interior material specifications. In addition to both the creative and functional aspects of design the program focuses on health, safety and welfare issues required by the industry. These issues include sustainable design based on the LEED system (Leadership in Energy and Environmental Design), ADA (The Americans with Disability Act) and human factors in design such as anthropometrics, ergonomics and color psychology. See department chair regarding specific college and university requirements and department transfer agreements. Program satisfies the minimum credit requirements for ASID (American Society of Interior Designers) allied or professional membership. Also satisfies the minimum educational requirement for NCIDQ (National Council for Interior Design Qualification) certification. Provides pathways to industry required internships, entry level positions and the advanced certificate options.

Range of Occupations

- Interior design intern
- Entry level staff designer
- Furniture designer
- Interior construction or remodeling consultant
- Industry sales representative
- Facilities planner
- Architectural representative
- Interior/Architectural CAD operator
- Specialty interiors consultant
- Marketing and promotion

- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
AND
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

Architecture Area of Concentration:

This 3-credit Arts and Humanities General Education Requirement is satisfied by ACH 221 or ACH 222 .

Interior Design Area of Concentration:

This 3-credit Arts and Humanities General Education Requirement is satisfied by ART 125.

Biological and Physical Sciences: 3 credits

Recommend PHY 111 - Fundamentals of Physics 1 for Architecture students and PHY 120 - Sound and Light - An Interdisciplinary Approach for Interior Design students. See General Education Biological and Physical Sciences Requirements for a list of other approved courses.

Mathematics: 3 credits

Architecture Area of Concentration:

- MAT 145 - Precalculus 1 3 *credit hours*

Interior Design Area of Concentration:

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- SOC 111 - Introduction to Sociology 3 *credit hours*

Additional General education electives: 3 credits

- CTA 100 - Computing and Information Technology 3 *credit hours*

- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*

Program Requirements: 39 credits

These are common program requirements for both areas of concentration.

- ACH 111 - Graphic Communication 1: Composition and Delineation *3 credit hours*
- ACH 121 - Construction Technology 1 *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 112 - Graphic Communication 2: Design and Representation *3 credit hours*
- ACH 242 - Environmental Systems for Design *3 credit hours*
- ACH 245 - Digital Technologies 1 *3 credit hours*

Students must select one Area of Concentration in Architecture or Interior Design as specified below: 24 credit hours

Architecture Area of Concentration Requirements: 24 credits

Degree Awarded: Architecture and Interior Design - Architecture

(AAS.ACH.ID-ARCH)

- ACH 122 - Construction Technology 2 *3 credit hours*
 - ACH 211 - Architectural Studio 1: Form, Space and Order *4 credit hours*
 - ACH 212 - Architectural Studio 2: Design and Synthesis *4 credit hours*
 - ACH 221 - History of World Architecture 1 *3 credit hours* *
 - OR**
 - ACH 222 - History of World Architecture 2 *3 credit hours* *
- *ACH 221 or ACH 222 is a program requirement for Fast Track Students. These courses simultaneously satisfy the Arts and Humanities and Program Requirements.
- ACH 231 - Professional Practices in Architecture *3 credit hours*
 - ACH 240 - Construction Documentation *4 credit hours*
 - CAD Elective (chosen from list below)
 - ACH History Elective (chosen from list below)

CAD Elective (computer-aided design)

Choose one from the following courses:

- ACH 255 - Digital Technologies 2 *3 credit hours*
- ACH 265 - Digital Studio *3 credit hours*
- ACH 270 - Building Information Modeling *3 credit hours*
- ACH 271 - Advanced Building Information Modeling *3 credit hours*
- ART 154 - 3D Computer Graphics *3 credit hours*
- ENT 242 - Advanced Computer-Aided Drafting and Design *3 credit hours*

ACH History Elective

Required for both regular and Fast Track students. Choose one of the following courses:

- ACH 221 - History of World Architecture 1 *3 credit hours*

- If not used for program requirement above
- ACH 222 - History of World Architecture 2 3 *credit hours*
If not used for program requirement above
- ACH 262 - Architectural Travel Study 1 3 *credit hours*
- ACH 263 - Architectural Travel Study 2 3 *credit hours*

Interior Design Area of Concentration Requirements: 24 credits

Degree Awarded: Architecture and Interior Design, A.A.S. - Interior Design Concentration

(AAS.ACH.ID-INT-DSGN)

- ACH 100 - Introduction to Interior Design 1 *credit hour*
- ACH 101 - Kitchen and Bath Fundamentals 1 *credit hour*
- ACH 104 - Interior Finishes and Applications 3 *credit hours*
- ACH 105 - Textiles and Textile Applications 3 *credit hours*
- ACH 106 - Interior Design Studio 3 *credit hours*
- ACH 201 - History of Interior Design 3 *credit hours*
- ACH 202 - Space Planning 3 *credit hours*
- ACH 204 - Interior Construction Detailing 3 *credit hours*
- Interior Design Capstone Studio (chosen from list below)

Interior Design Capstone Studio

Choose one course from the list below:

- ACH 203 - Commercial Design Studio 4 *credit hours*
- ACH 205 - Residential Studio 4 *credit hours*
- ACH 206 - Kitchen and Bath Design 4 *credit hours*

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Satisfied by CTA 100 or CTP 103.

Wellness Requirement

Satisfied by ACH 242

Fast Track Option

These associate degree programs have Fast Track Options for those holding a college degree.

Program Outcomes

Upon successful completion of the Architecture Area of Concentration, students will be able to:

1. Design an architectural solution using principles and elements of design such as proportion, scale, movement, pattern, rhythm, symmetry, balance, contrast, theme, and unity.
2. Present design solutions visually and orally and be able to defend decisions to individuals and groups.
3. Assemble building materials and systems.
4. Apply the architectural design and construction process.
5. Use industry appropriate software and apply technology such as two and three dimensional design software.
6. Identify and apply regulatory requirements relevant to planning and executing architectural design and construction.
7. Respond effectively to environmental, health, safety and welfare issues during the architectural design and construction process.

Upon successful completion of the Interior Design Area of Concentration, students will be able to:

1. Design an interior space using the principles of design such as scale, proportion, balance, rhythm, emphasis and harmony.
2. Design an interior space using the elements of design such as space, shape, form, mass, line, texture, pattern, light and color.
3. Implement the principles and elements of design when addressing preset client criteria.
4. Apply stylistic elements to period design.
5. Present design solutions visually and orally and be able to defend decisions to individuals and groups.
6. Develop interior design presentations using a variety of formats.
7. Discuss how interior designer professionals develop design solutions.
8. Use industry appropriate software and apply technology such as two and three dimensional design software.
9. Identify and apply regulatory requirements relevant to planning and executing the interior design process.
10. Respond effectively to environmental, health, safety and welfare issues during the interior design process.

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Architecture and Interior Design - Landscape Design (A.A.S.)
- Architecture and Interior Design - Architectural CAD (certificate)
- Architecture and Interior Design - Architectural Illustration (certificate)
- Architecture and Interior Design - Advanced Interior Design (certificate)
- Architecture and Interior Design - Interior Design (certificate)
- Production Design (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Architecture and Interior Design - Advanced Interior Design (certificate)

Official Title of Certificate: Architecture and Interior Design - Advanced Interior Design, Certificate

Award: Certificate

Code: CRT.ACH.INT-DSN-ADV

Total Credit Hours: 33-34

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: Prepares students working in the field of interior design by further developing essential skills required in the workforce. Builds on the Interior Design AAS degree by addressing advanced design aspects of interior design. Strengthens aesthetic, analytical and technical skills within the design process. Advances knowledge through concentrated studies in design history, structural and nonstructural materials, sustainable design, construction drawings, codes, regulations, business practices, lighting and illustration. Includes specific studies in sustainable and high performance design based on the LEED (Leadership in Energy and Environmental Design) system through the USGBC (United States Green Building Council) and its role in the built environment. Projects focus on research, writing and graphic presentation skills with a strong emphasis on real-life design experiences as well as theory.

Offers an NKBA (National Kitchen and Bath Association) directed pathway for kitchen and bath design. Provides specific coursework that can benefit those already in the workforce. Prepares students to qualify as candidates for certification as an interior designer in the state of Maryland through NCIDQ (National Council for Interior Design Qualification) certification preparation. This certificate is not a substitute for state certification. Credits may be transferred to schools offering a bachelor's degree in interior design.

Range of Occupations

- Commercial designer
- Facilities design and management
- Hospitality designer
- Interior design manager
- Kitchen and bath designer
- Project manager
- Sustainable designer

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 33-34 credits

- ACH 202 - Space Planning *3 credit hours*
- ACH 205 - Residential Studio *4 credit hours*
- ACH 206 - Kitchen and Bath Design *4 credit hours*
- ACH 207 - Portfolio and Visual Presentation for Interior Design *3 credit hours*
- ACH 208 - History of Ornament, Textiles and Color *3 credit hours*
- ACH 209 - Lighting for Interior Design *3 credit hours*
- ACH 213 - Sustainable Interiors *3 credit hours*
- ACH 214 - Professional Practices in Interior Design *3 credit hours*

Option (Advanced Interior Design or Kitchen and Bath): 7-8 credits

Advanced Interior Design option courses:

- ACH 210 - Advanced Commercial Studio *4 credit hours*
- ACH 215 - Interior Design Standards *3 credit hours*

Kitchen and Bath option courses:

- ACH 226 - Advanced Kitchen and Bath Design *4 credit hours*
- ACH 235 - Computer Applications for Kitchen and Bath Design *1 credit hour*
- ACH 275 - Internship in Architecture and Interior Design *1 3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Assemble interior design materials and/or systems.
- Use appropriate technology.
- Follow building codes.
- Address environmental, health safety and welfare issues.
- Present visually and orally.
- Apply legal and professional requirements to interior design.
- Simulate the interior design and installation process.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Architecture and Interior Design - Interior Design (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Architecture and Interior Design - Architectural CAD (certificate)

Official Title of Certificate: Architecture and Interior Design, Architectural CAD, Certificate

Award: Certificate

Code: CRT.ACH.CAD

Total Credit Hours: 27-28

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: Training for employment as a computer-aided design (CAD) operator and architectural technician. Emphasizes computer delineation of building materials as they pertain to the detailing of residential and commercial buildings.

Range of Occupations

- Architectural technician
- CAD (computer-aided design) operator

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 27-28 credits

- ACH 111 - Graphic Communication 1: Composition and Delineation *3 credit hours*
ACH 111 and ACH 121 are co-requisites
- ACH 121 - Construction Technology 1 *3 credit hours*
ACH 111 and ACH 121 are co-requisites
- ACH 104 - Interior Finishes and Applications *3 credit hours* **OR**
- ACH 122 - Construction Technology 2 *3 credit hours*
- ACH 240 - Construction Documentation *4 credit hours* **OR**
- ACH 204 - Interior Construction Detailing *3 credit hours*
- ACH 245 - Digital Technologies 1 *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*

Electives (CAD): 9 credits

Choose from

- ACH 255 - Digital Technologies 2 *3 credit hours*
- ACH 265 - Digital Studio *3 credit hours*
- ACH 270 - Building Information Modeling *3 credit hours*
- ACH 271 - Advanced Building Information Modeling *3 credit hours*
- ART 154 - 3D Computer Graphics *3 credit hours*
- ENT 242 - Advanced Computer-Aided Drafting and Design *3 credit hours*

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Architecture and Interior Design - Architectural Illustration (certificate)

Official Title of Certificate: Architecture and Interior Design - Architectural Illustration, Certificate

The Maryland Higher Education Commission records the title of this certificate as Architectural Illustration, Certificate.

Award: Certificate

Code: CRT.ACH.ILLUSTRATION

Total Credit Hours: 28

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: Teaches presentation techniques used in professional architectural rendering. Emphasizes the artistic side of architecture with an emphasis on various drawing techniques.

Range of Occupations

- Architectural draftsman
- Architectural renderer
- Illustrator

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 29 credits

- ACH 111 - Graphic Communication 1: Composition and Delineation *3 credit hours*
- ACH 112 - Graphic Communication 2: Design and Representation *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 121 - Construction Technology 1 *3 credit hours*
- ACH 122 - Construction Technology 2 *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 211 - Architectural Studio 1: Form, Space and Order *4 credit hours*
- ACH 245 - Digital Technologies 1 *3 credit hours*
- ART 103 - Color *3 credit hours*
- ART 125 - Drawing 1 *3 credit hours*

- CTA 100 - Computing and Information Technology *3 credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Apply a wide variety of techniques associated with delineating architectural design including the use of appropriate tools and technology.
- Apply common symbols, materials, scales, and terminology used in architectural design and illustration.
- Create architectural designs and models using a variety of techniques and technologies.
- Deliver written and oral presentations that explain and justify architectural plans or models to a professional audience.
- Apply construction technology concepts to the development of architectural plans and models.
- Describe environmental and regulatory factors affecting building design.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Architecture and Interior Design - Construction Management (certificate)

Official Title of Certificate: Architecture and Interior Design - Construction Management, Certificate

Award: Certificate

Code: CRT.ACH.CSTN-MGMT

Total Credit Hours: 36

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: Teaches skills in the area of construction project management, construction estimating, materials and methods of construction and construction documentation. Credits may be transferred toward an Associate of Applied Science degree in architecture and interior design, or to schools offering a bachelor's degree in building construction or construction management. See advisors regarding specific requirements.

Range of Occupations

- Construction manager
- Estimator
- Foreman
- Inspector
- Owner's field representative
- Project manager
- Superintendent

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 36 credits

- ACH 111 - Graphic Communication 1: Composition and Delineation *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 121 - Construction Technology 1 *3 credit hours*

- ACH 122 - Construction Technology 2 3 *credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 216 - Construction Management 4 *credit hours*
- ACH 218 - Construction Operations 4 *credit hours*
- ACH 219 - Construction Contract Administration 3 *credit hours*
- ACH 230 - Cost Estimating for Construction 4 *credit hours*
- ACH 242 - Environmental Systems for Design 3 *credit hours*
- ACH 245 - Digital Technologies 1 3 *credit hours*
- BPA 142 - Principles of Management 3 *credit hours*
- CTA 100 - Computing and Information Technology 3 *credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology 3 *credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Interpret single and multi-view drawings.
- Explain aspects of the construction process in written, graphic, and oral form.
- Assemble building materials and/or systems.
- Practice appropriate technology used in the construction process.
- Apply building codes and regulations in the construction process.
- Assess environmental, health, safety, and welfare issues in different construction contexts.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Construction Management (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Architecture and Interior Design - Construction Management Entrepreneurship (certificate)

Official Title of Certificate: Architecture and Interior Design - Construction Management Entrepreneurship, Certificate

Award: Certificate

Code: CRT.ACH.CSTN-ENTREP

Total Credit Hours: 35

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: This certificate is designed to prepare students to launch and operate their own construction venture or take a leadership role in an existing construction firm or related business. The construction industry is one of the four critical workforce areas identified by the Maryland Department of Labor. A certificate in construction management

entrepreneurship provides you with the skills to start your own construction venture, work with others to identify business opportunities, join entrepreneurial ventures, or work for an established construction firm or related business. Construction Management Entrepreneurship students are often in demand by growth-oriented companies wanting to incorporate entrepreneurial vision and innovation in their construction related organizations and by companies seeking individuals who have the ability to solve problems creatively and improve productivity. Regardless of size, all businesses need managers who can identify opportunities, obtain resources, plan, organize, direct and control work to accomplish business objectives.

Topics covered during course work include: entrepreneurial thinking and opportunity recognition, developing a business plan, obtaining resources, managing finances, strategic planning, selecting managers and employees, organizing and designing the business, identifying and capitalizing on opportunities, managing technology, successfully dealing with managerial challenges and knowledge of the construction field. In addition, this program will provide students with essential skills and content in construction management, construction operations, construction materials and methods/building assemblies, construction document reading and interpretation, estimating, bidding, contract award/negotiation, construction contract administration, mobilization and procurement of construction resources, scheduling, risk management, project closeout and turnover. Students will learn to use this knowledge as it relates to operating a successful and profitable business.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 35 credits

- ACH 111 - Graphic Communication 1: Composition and Delineation *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 121 - Construction Technology 1 *3 credit hours*
- ACH 122 - Construction Technology 2 *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 216 - Construction Management *4 credit hours*
- ACH 218 - Construction Operations *4 credit hours*
- ACH 230 - Cost Estimating for Construction *4 credit hours*
- ESI 103 - Introduction to Entrepreneurship *3 credit hours*
- ESI 104 - Entrepreneurship: Sales & Marketing for Small Business *3 credit hours*
- ESI 270 - Entrepreneurship: New Venture Planning *3 credit hours*
- BPA 217 - Small Business Accounting *3 credit hours*
(formerly listed as ESI 217 - Small Business Accounting)
- LGS 250 - Legal Issues for Business *3 credit hours*
(formerly crosslisted as ESI 250 - Legal Issues for Business)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Architecture and Interior Design - Interior Design (certificate)

Official Title of Certificate: Architecture and Interior Design - Interior Design, Certificate

Award: Certificate

Code: CRT.ACH.INT-DSGN

Total Credit Hours: 35

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: Develop both aesthetic vision and technical skills to formulate design solutions for residential and commercial interior environments. The program provides an understanding of the design process from client needs, programming, schematic design, design development and product specification, through final presentation. Develops basic knowledge of codes, regulations, health, safety and welfare issues affecting the human environment. Provides pathways toward entry-level positions in interior design or allied fields. Program is ideal for students seeking ASID (American Society of Interior Designers) allied membership. Credits earned may be applied to the Interior Design associate of applied science degree or the advanced interior design certificate.

Range of Occupations

- Artwork and accessory representative
- Consultant for home decorating center
- Design assistant for residential or architectural studios
- Event planner
- Home staging
- Interior color consultant
- Interior decorator
- Manufacturer's representative for interior industry
- Sales representative for furniture and fabrics

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 35 credits

- ACH 100 - Introduction to Interior Design *1 credit hour*
- ACH 104 - Interior Finishes and Applications *3 credit hours*
- ACH 105 - Textiles and Textile Applications *3 credit hours*
- ACH 106 - Interior Design Studio *3 credit hours*
- ACH 111 - Graphic Communication 1: Composition and Delineation *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 121 - Construction Technology 1 *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 201 - History of Interior Design *3 credit hours*
- ACH 202 - Space Planning *3 credit hours*

- ACH 203 - Commercial Design Studio *4 credit hours*
- ACH 204 - Interior Construction Detailing *3 credit hours*
- ACH 245 - Digital Technologies 1 *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*

Related Offerings

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 25 credits

- ACH 111 - Graphic Communication 1: Composition and Delineation *3 credit hours*
- ACH 112 - Graphic Communication 2: Design and Representation *3 credit hours*
- ACH 113 - Analysis of the Built Environment *3 credit hours*

- ACH 115 - Introduction to Landscape Architecture *4 credit hours*
- OR**
- ACH 116 - Landscape Architecture: System and Design *4 credit hours*

- ACH 121 - Construction Technology 1 *3 credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 245 - Digital Technologies 1 *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours*
- OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*
- BIO 215 - Restoration Ecology *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Identify and apply a design process to solve design problems.
2. Discuss the influence of environmental, socio-political, health and safety, and sustainability issues on the Landscape Architecture Profession.
3. Use technical skills, methods, and technologies common to the Landscape Architecture Profession.
4. Construct oral, written, and visual communications common to the Landscape Architecture Profession.
5. Express Landscape Architecture as a profession with regards to practices, values, and ethics.
6. Recognize and apply Landscape Architecture Historical precedents, theory, and research.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Architecture and Interior Design - Landscape Design (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Art History and Museum Studies - Visual Arts Transfer (A.A.)

Official Title of Major: Visual Arts Transfer - Art History and Museum Studies, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.VSL.ART-HIS-ME

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Department of Visual Arts and Humanities

Purpose: Prepares students for transfer to a four-year program in art history, museum studies or education. Upon completion of the bachelor's degree, students with teaching certification will be eligible for a job as an art history teacher at a secondary institution (middle or high school). Those who wish to teach at a post-secondary institution (college or university) or work at a museum should pursue at minimum a master's degree after graduation from the four year school.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Transfer Program Core Courses

The program core for this degree consists of ART 100 (satisfied through the Arts & Humanities General Education Requirement as listed below); ART 106 (satisfied through the Technology Requirement as listed below); and ART 125 (satisfied through the Studio Art requirement as listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 31 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- ART 100 - Two-Dimensional Design 3 credit hours
- **One elementary or intermediate course in French, German, Italian, Russian or Spanish 3 credit hours**
See Arts and Humanities General Education courses for a list of approved world language courses.

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 6 credits

Must select two different disciplines. See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 3 credits

- **Wellness Requirement 3 credit hours**
See General Education Wellness Requirement for approved list of courses.

Area of Concentration: 29 credits

Art History Courses: 12 credits

Required courses:

- ART 209 - History of Western Art 1 3 credit hours
- ART 210 - History of Western Art 2 3 credit hours

And, choose two of the following:

- ART 180 - Introduction to Film 3 credit hours
- ART 181 - Introduction to American Film 3 credit hours
- ART 212 - History of Photography 3 credit hours
- ART 219 - History of American Art 3 credit hours
- ART 220 - History of Modern Art 3 credit hours
- ART 221 - History of World Architecture 1 3 credit hours
- ART 222 - History of World Architecture 2 3 credit hours
- ART 223 - History of American Architecture 3 credit hours
- ART 224 - Introduction to Historic Preservation 3 credit hours
- ART 227 - Asian Art 3 credit hours
- ART 228 - African American Art 3 credit hours
- ART 229 - Art of Traditional and Tribal Cultures 3 credit hours
- HUM 151 - American Folk Arts 3 credit hours
- HUM 210 - Images of Women 3 credit hours

Studio Art Courses: 9 credits

Required course:

- ART 125 - Drawing 1 3 credit hours

And, choose two of the following:

- ART 102 - Three-Dimensional Design 3 credit hours
- ART 120 - Digital Photography 1 3 credit hours
- ART 121 - Black and White Photography 3 credit hours
- ART 131 - Painting 1 3 credit hours
- ART 135 - Sculpture 1: Clay Modeling and Mixed Media 3 credit hours
- ART 145 - Ceramics 1 3 credit hours
- ART 160 - Video 1 3 credit hours
- ART 166 - Graphic Design 1 3 credit hours
- ART 200 - Drawing 2 3 credit hours
- ART 202 - Life Drawing 3 credit hours
- ART 236 - Digital Photography 2 3 credit hours
- ART 245 - Ceramics 3 3 credit hours
- ART 246 - Screen Printing 3 credit hours
- ART 247 - Lithographic Printmaking 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Electives: 5 credits

Recommend students check on transfer institution's requirements. No more than 3 credit hours of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Art History & Museum Studies Concentration, students will be able to:

1. Describe the evolution of art over time.

2. Analyze the ways that culture and technology impact art.
3. Compare and contrast different ways that art is virtually and physically presented.
4. Apply principles of art curation and criticism in written and verbal formats.
5. Create original works of art analysis.
6. Apply aesthetic theories in the evolution of art.
7. Describe the role of Art Historians in society today.

This program aligns with the college's core competencies.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 33 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 *credit hours*
- Sophomore Literature course 3 *credit hours*

Biological and Physical Sciences: 8 credits

- PHY 211 - General Physics 1 4 *credit hours* **AND**
- AST 112 - Stars and Stellar Systems 4 *credit hours*
OR
- AST 114 - The Solar System 4 *credit hours*

Mathematics: 4 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) 3 *credit hours* **AND**
Students must choose one History course from the following:
 - HIS 111 - Ancient and Medieval Western Civilizations 3 *credit hours*
 - HIS 112 - Early Modern and Modern Western Civilizations 3 *credit hours*
 - HIS 211 - United States History through the Civil War 3 *credit hours*
 - HIS 212 - United States History Since the Civil War 3 *credit hours*

Additional General Education Requirements: 3 credits

- **Wellness Requirements** 3 *credit hours*
See General Education Wellness Requirements for list of approved courses.

Area of Concentration Requirements: 27 credits

- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*
- MAT 201 - Calculus and Analytic Geometry 3 4 *credit hours*
- MAT 202 - Linear Algebra 4 *credit hours*
OR
- MAT 212 - Differential Equations 4 *credit hours*

- PHY 212 - General Physics 2 4 credit hours
- PHY 213 - General Physics 3 4 credit hours
- **Electives (consult with an advisor) 7 credit hours**
One of the electives must be used to satisfy the technology requirement if it has not been demonstrated otherwise. See Technology Requirement for a list of approved courses. Other recommended courses include additional AST courses.
No more than 3 credits of physical activity courses may be used as electives.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline-specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

This program aligns with the college's core competencies.

Related Offerings

Baking and Pastry Arts (certificate)

Official Title of Certificate: Baking and Pastry Arts

Award: Certificate

Code: CRT.HRM.BAK-PASTRY

Total Credit Hours: 21

Visit www.aacc.edu to learn more about the Hotel, Culinary Arts and Tourism Institute

Purpose: Prepares students for employment in the hospitality industry such as in a restaurant or hotel bakery, or in a bakeshop setting such as a privately owned bakery or wholesale club or grocery store bakery. This certificate builds toward Hotel/Restaurant Management degree, Baking and Pastry Arts Option.

Range of Occupations

- Bread Baker
- Cake Decorator
- Restaurant Pastry cook
- Confectioner

Additional Program Requirements

Students are required to wear an approved chef uniform for production classes. See course description for specifics.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 21 credits

- HRM 201 - Intermediate Bread Production *3 credit hours*
- HRM 202 - Intermediate Cake Production *3 credit hours*
- HRM 232 - World Culture and Cuisine: A Social Science Perspective *3 credit hours*
- HRM 226 - Advanced Pastry Production *3 credit hours*
- HRM 227 - Chocolates, Confections, and Entremet *3 credit hours*
- HRM 260 - Purchasing and Cost Controls *3 credit hours*
- HRM 275 - Internship in Hotel/ Restaurant Management *3 credit hours*

Program Outcomes

1. Introduction to the Hospitality and Baking and Pastry Industry: Develop an understanding of the hospitality industry and career opportunities in the field. Investigate trade publications and professional organizations appropriate for continuing education. Become familiar with the organizational structure and basic functions of departments within hospitality and food service establishments.
2. Food Safety: Apply and evaluate safe, sanitary procedures, habits, and behaviors in hotel and restaurant facilities.
3. Business and Math Skills: Perform mathematical functions related to food service operations.
4. Basic Baking: Apply the fundamentals of baking science to the preparation of a variety of products. Use and care for equipment normally found in bake shop or baking areas.
5. Advanced Baking: Develop skills in more advanced decorating techniques and more complex preparations of pastry, confections, and dessert products.
6. Purchasing and Receiving: Apply concepts to lower costs and improve quality of ingredients. Reduce risk and ensure the security of supply and manage relationships with purveyors and improve quality of ingredients.
7. Nutrition: Describe the characteristics, functions, and food sources of major nutrients and how to maximize nutrient retention in food preparation and storage. Apply the principles of nutrient needs throughout the life cycle to menu planning and food preparation.
8. Customer Service: Identify customer service and guest relations standards and policies that must be in place for the successful operation of a hotel and restaurant.
9. Environmental Sustainability: Use knowledge of best practices to further sustainability (economic, environmental, and cultural/social) in the industry (sustainability)
10. Leadership and Human Relationships: Demonstrate knowledge and skills in a practical event environment.
11. Multicultural Perspectives: Demonstrate knowledge of multicultural perspectives to meet the needs of the guest and employees (customer service)

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 35 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course *3 credit hours*
Strongly recommend COM 111 or COM 116
- Sophomore Literature course *3 credit hours*

Biological and Physical Sciences: 8 credits

- BIO 103 - General Botany *4 credit hours*
- BIO 105 - General Zoology *4 credit hours*

Mathematics: 3 credits

- MAT 145 - Precalculus 1 *3 credit hours*
OR
More advanced level if qualified from the list below.
- MAT 146 - Precalculus 2 *3 credit hours*
- MAT 151 - Accelerated Precalculus *4 credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*

- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*
- MAT 202 - Linear Algebra 4 *credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) 3 *credit hours*

Social and Behavioral Sciences: 6 credits

- SOC 111 - Introduction to Sociology 3 *credit hours* **AND**
Students must choose one History course from the following:
- HIS 111 - Ancient and Medieval Western Civilizations 3 *credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations 3 *credit hours*
- HIS 211 - United States History through the Civil War 3 *credit hours*
- HIS 212 - United States History Since the Civil War 3 *credit hours*

Additional General Education Requirements: 6 credits

- CTA 100 - Computing and Information Technology 3 *credit hours*
If appropriate, a different CTA or CTP course that also meets the General Education Technology Requirement may be selected.
- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirement for a list of approved courses.

Area of Concentration Requirements: 25 credits

- BIO 220 - Genetics with Laboratory 4 *credit hours*
- BIO 221 - Molecular Biotechniques 4 *credit hours*
- BIO 223 - General Microbiology 4 *credit hours*
- CHE 111 - General Chemistry 1 4 *credit hours*
- CHE 112 - General Chemistry 2 4 *credit hours*
- MAT 146 - Precalculus 2 3 *credit hours*
- **Electives** (consult with an advisor) 2 *credit hours*

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Satisfied by CTA 100.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline-specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

This program aligns with all the college's core competencies.

Business Administration Transfer (A.S.)

Official Title of Major: Business Administration Transfer, A.S.

Award: Associate of Science degree, A.S.

Total Credit Hours: 60

Code: AS.BPA.ADM

Visit www.aacc.edu to learn more about the Business Administration Department

Purpose: Provides the first two years of coursework for students planning to transfer to a bachelor's degree program at a four-year college or university majoring in business. Students with a bachelor's degree who are preparing for the Maryland CPA exam should note requirements under the Financial Accounting (certificate) (CPA preparation) program.

Additional Program Requirements

A program consisting of a core of courses essential for all business transfer students. Students are expected to work with their advisors to tailor a suitable mix of electives in order to meet the requirements of their intended transfer college.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A -ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*
- Arts and humanities general education course (except COM)

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

- MAT 230 - Elementary Calculus (For Business and Social Sciences) 3 *credit hours*
Note: Students who do not test directly into MAT 230 may use the prerequisite math course to satisfy an elective.

Social and Behavioral Sciences: 6 credits

- ECO 211 - Principles of Economics 1 3 *credit hours*

- Social and Behavioral Sciences general education course (except ECO)
See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education requirements: 6 credits

- **Technology Requirement** 3 credit hours

CTA 100 is recommended. This requirement may also be satisfied by CLEP exam.

- **Wellness Requirement** 3 credit hours

See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 26 credits

- BPA 111 - Introduction to Business 3 credit hours
- BPA 201 - Financial Accounting 3 credit hours
- BPA 202 - Managerial Accounting 3 credit hours
- ECO 212 - Principles of Economics 2 3 credit hours
- ECO 232 - Business Statistics 3 credit hours
(formerly listed as BPA 232)
- LGS 253 - Business Law 1 3 credit hours
(formerly listed as BPA 253)
- **BPA, ECO or ESI Elective** 8 credit hours
Note: Students who do not test directly into MAT 230 may use the prerequisite math course to satisfy an elective. Also, ECO 233 is a recommended elective.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Describe the components of a changing global business environment.
2. Apply analytical and critical thinking skills to develop quantitative and ethically-based accounting decisions.
3. Apply economic information to business decisions.
4. Demonstrate the use of analytical tools and technology that supports business practices.
5. Identify, evaluate, and analyze contractual disputes utilizing legal theories.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

- ECO 211 - Principles of Economics 1 *3 credit hours*
 - **BPA Elective** (consult with an advisor) *3 credits*

Area of Concentration Requirements: 12 credits

- BPA 125 - Marketing Principles *3 credit hours*
- BPA 126 - Advertising and Sales Promotion *3 credit hours*
- BPA 127 - eMarketing *3 credit hours*

And choose one of the following:

- ART 106 - Introduction to Digital Design *3 credit hours*
- BPA 132 - Sales and Sales Training *3 credit hours*
- BPA 135 - Customer Service *3 credit hours*
- BPA 275 - Internship in Business 1 *3 credit hours*
- ESI 104 - Entrepreneurship: Sales & Marketing for Small Business *3 credit hours*

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of the advertising/marketing area of concentration, students will be able to:

1. Describe the dynamics of the changing global business environment.
2. Apply information from financial statements for decision-making purposes.
3. Present ideas and communicate in a professional manner.
4. Apply economic information for decision-making purposes.
5. Apply current business concepts and laws to develop legal & ethical business practices.

6. Apply marketing practices to create measurable results and meet marketing objectives.
7. Develop revenue enhancement solutions by employing appropriate marketing strategies.

This program aligns with the college's core competencies.

Business Management - Leadership (certificate)

Official Title of Certificate: Business Management - Leadership, Certificate

Award: Certificate

Code: CRT.BMT.LEADER

Total Credit Hours: A minimum of 18

Visit www.aacc.edu to learn more about the Business Management Department

Purpose: To enhance and upgrade managerial and communication skills and prepare for careers in the 21st century including today's technologically advanced workplace. Because the program is carefully tailored to job-related skills, full-time students can complete it in two terms.

Additional Program Requirements

Two core courses that provide a business-related background and a four-course concentration that allows the student to specialize in leadership.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Program Requirements: 6 credits

- BPA 111 - Introduction to Business *3 credit hours*
- BPA 162 - Business Communications *3 credit hours*

Area of Concentration Requirements: 12 credits

- BPA 138 - Business and Professional Ethics *3 credit hours*

Business Management - Supply Chain Management (certificate)

Official Title of Certificate: Business Management - Supply Chain Management, Certificate

Award: Certificate

Code: CRT.BMT.SPLYCHN.MGMT

Total Credit Hours: A minimum of 18

Visit www.aacc.edu to learn more about the Business Management Department

Purpose: To enhance and upgrade managerial and communication skills and prepare for careers in the 21st century including today's technologically advanced workplace. Because the program is carefully tailored to job-related skills, full-time students can complete it in two terms.

Additional Program Requirements

Two core courses that provide a business-related background and a four-course concentration that allows the student to specialize in supply chain management.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Program Requirements: 6 credits

- BPA 111 - Introduction to Business 3 *credit hours*

- BPA 162 - Business Communications *3 credit hours*

Area of Concentration Requirements: 12 credits

- BPA 235 - Introduction to Transportation and Logistics *3 credit hours*
- BPA 237 - Supply Chain Management *3 credit hours*

And choose two of the following:

- BPA 119 - Global Business *3 credit hours*
- BPA 236 - Introduction to Airport and Seaport Operations *3 credit hours*
- BPA 238 - Domestic and International Freight Operations *3 credit hours*
- BPA 246 - Business Operations and Logistics *3 credit hours*
- BPA 275 - Internship in Business 1 *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Apply logistics and purchasing concepts to improve supply chain operations.
- Apply quality management tools for process improvement.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Business Management - Supply Chain Management (A.A.S.)
- Transportation, Logistics, and Cargo Security (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Chemistry - Arts and Sciences Transfer (A.S.)

Official Title of Major: Arts and Sciences Transfer - Chemistry, A.S.

Award: Associate of Science degree, A.S.

Code: AS.ARTS-SCI.CHE

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Chemistry Department

Purpose: Prepares students for transfer to four-year institutions offering Bachelor of Science degrees in various professional disciplines including chemistry and pharmacy.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 33 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course *3 credit hours*
- Sophomore Literature course *3 credit hours*

Biological and Physical Sciences: 8 credits

- CHE 111 - General Chemistry 1 *4 credit hours*
- CHE 112 - General Chemistry 2 *4 credit hours*

Mathematics: 4 credits

- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**

Students must choose one History course from the following:

- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 3 credits

- **Wellness Requirements** 3 credit hours
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration Requirements: 27 credits

- CHE 213 - Organic Chemistry 1 4 credit hours
- CHE 214 - Organic Chemistry 2 4 credit hours
- MAT 192 - Calculus and Analytic Geometry 2 4 credit hours
- PHY 211 - General Physics 1 4 credit hours
- PHY 212 - General Physics 2 4 credit hours
- **Electives** (consult with an advisor) 7 credit hours
One of the electives must be used to satisfy the technology requirement if it has not been demonstrated otherwise. See Technology Requirement for a list of approved courses. Other recommended courses include BIO 101 and PHY 213.
No more than 3 credits of physical activity courses may be used as electives.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline-specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Astronomy - Arts and Sciences Transfer (A.S.)
- Biology - Arts and Sciences Transfer (A.S.)
- Earth Science - Arts and Sciences Transfer (A.S.)
- Environmental Science - Arts and Sciences Transfer (A.S.)
- Nursing Transfer - Arts and Sciences Transfer (A.S.)
- Nutrition - Arts and Sciences Transfer (A.S.)
- Physics - Arts and Sciences Transfer (A.S.)
- Plant Science - Arts and Sciences Transfer (A.S.)
- Premedical Professional - Arts and Sciences Transfer (A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Cisco Certified Network Associate (CCNA) Preparation (certificate)

Official Title of Certificate: Cisco Certified Network Associate (CCNA) Preparation, Certificate

Award: Certificate

Code: CRT.CIS.CCNA

Total Credit Hours: 12

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: Learn to install, configure, operate, and troubleshoot medium-size router and switched networks, including implementation and verification of connections to remote sites in a WAN. Includes basic mitigation of security threats, introduction to wireless networking concepts, and hands-on, performance-based skills. Further, it prepares students for the Cisco Certified Network Associate (CCNA) certification.

Related Industry Certifications

This program provides partial foundation for the following industry recognized certificates and certifications: Cisco CCNA certification exam.

Range of Occupations

- Field support technician
- Network administrator
- Network associate
- Network support technician

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 12 credits

- CTS 130 - Networking 1 4 *credit hours*
- CTS 131 - Networking 2 4 *credit hours*
- CTS 230 - Networking 3 4 *credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Use the command line interface (CLI) to configure a switch with security, virtual LANs (VLANs), trunking, and link aggregation.
- Demonstrate advanced IP addressing techniques and services such as dynamic host configuration protocol (DHCP).
- Configure a router with security, static routing and intermediate routing protocols.
- Apply Network Address Translation (NAT/PAT), access control lists (ACLs), and backups to manage networks and increase network security.
- Identify wide area network (WAN) technologies.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Information Assurance and Cybersecurity (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Cisco Certified Network Professional (CCNP) Preparation (certificate)

Official Title of Certificate: Cisco Certified Network Professional (CCNP) Preparation, Certificate

Award: Certificate

Code: CRT.CIS.CCNP

Total Credit Hours: 12

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: Plan, implement, verify and troubleshoot local and wide-area enterprise networks. Use advanced IP addressing and routing in implementing scalable and highly secure Cisco routers that are connected to LANs, WANs, and IPv6. Plan, configure, and verify the implementation of complex enterprise switching solutions that use the Cisco Enterprise Campus Architecture. Plan and perform regular maintenance on complex enterprise routed and switched networks. Use technology-based practices and a systematic ITIL-compliant approach to perform network troubleshooting.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 12 credits

- CTS 265 - CCNP ROUTE: Implementing IP Routing *4 credit hours*
- CTS 266 - CCNP SWITCH: Implementing IP Switching *4 credit hours*
- CTS 267 - CCNP TSHOOT: Maintaining and Troubleshooting IP Networks *4 credit hours*

Program Outcomes

Upon successful completion of this certificate, students will be able to:

- Plan, implement, verify and troubleshoot local and wide-area enterprise networks.
- Use advanced IP addressing and routing in implementing scalable and highly secure Cisco routers that are connected to LANs, WANs, and IPv6.
- Plan, configure, and verify the implementation of complex enterprise switching solutions that use the Cisco Enterprise Campus Architecture.
- Plan and perform regular maintenance on complex enterprise routed and switched networks.
- Use technology-based practices and a systematic ITIL-compliant approach to perform network troubleshooting.

This program aligns with the college's core competencies.

Communications - Arts and Sciences Transfer (A.A.)

Official Title of Major: Arts and Sciences Transfer - Communications, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ARTS-SCI.COMM

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Communications Program

Purpose: Anne Arundel Community College's (AACC) Arts and Sciences Transfer Degree with a concentration in Communication is designed to help students transfer to colleges and universities that offer a baccalaureate degree with a major in speech communication, human communication, or mass communication.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Arts and Sciences Transfer Program Core Course Requirements

The core courses for this degree are simultaneously satisfied by three of General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 *credit hours*
- Sophomore Literature course 3 *credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics 3 *credit hours*
- MAT 135 - Statistics 3 *credit hours*
OR More advanced level if qualified from the list below:

- MAT 137 - College Algebra *3 credit hours*
- MAT 145 - Precalculus 1 *3 credit hours*
- MAT 146 - Precalculus 2 *3 credit hours*
- MAT 151 - Accelerated Precalculus *4 credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*
- MAT 202 - Linear Algebra *4 credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**

Students must choose one History course from the following:

- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** *3 credit hours*
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** *3 credit hours*
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration: 26 credits

Students should check the requirements of their transfer school before selecting the courses listed below.

Required Courses: 9 credits

Choose an additional three courses (beyond the COM course used to satisfy the General Education Requirement) from the following list:

- COM 110 - Introduction to Interpersonal Communication *3 credit hours*
- COM 111 - Fundamentals of Oral Communication *3 credit hours*
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers *3 credit hours*
- COM 141 - Group Communication and Leadership *3 credit hours*
- COM 200 - Intercultural Communication *3 credit hours*
- COM 230 - Persuasive Message Strategies *3 credit hours*

Choose one course from the following: 3 credits

- COM 101 - Introduction to Mass Media *3 credit hours*
- COM 102 - Writing for News Media 1 *3 credit hours*
- COM 110 - Introduction to Interpersonal Communication *3 credit hours*
- COM 111 - Fundamentals of Oral Communication *3 credit hours*

- COM 112 - Newspaper Editing and Production 3 credit hours
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 credit hours
- COM 130 - Current Events in Global Context 3 credit hours
- COM 141 - Group Communication and Leadership 3 credit hours
- COM 200 - Intercultural Communication 3 credit hours
- COM 202 - Writing for the News Media 2 3 credit hours
- COM 230 - Persuasive Message Strategies 3 credit hours
- COM 240 - Introduction to Communication Theory 3 credit hours

Electives: 14 credits

Recommend students check on transfer institution's requirements. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate complex messages through writing, speaking, and using technology.
2. Locate, organize, analyze, and appropriately cite information from credible sources in order to develop informed, well-reasoned, and substantiated arguments.
3. Exhibit effective listening skills and critically evaluate verbal and nonverbal messages.
4. Demonstrate knowledge of communication theory.
5. Recognize the influence of culture on messages and exhibit an awareness of ethics, diversity, inclusiveness, and equity.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Creative Writing - Arts and Sciences Transfer (A.A.)
- Dance - Arts and Sciences Transfer (A.A.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Computer Information Systems - Database Administration (certificate)

Official Title of Certificate: Computer Information Systems -Database Administration, Certificate

Award: Certificate

Code: CRT.CIS.DATA-ADMN

Total Credit Hours: A minimum of 21

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Prepares students for employment in the field of database administration by acquiring or updating database administrator skills. This option develops skills in the SQL language syntax and usage, Microsoft Access, Oracle, the roles and responsibilities of a database administrator, and provides experience in designing and implementing a production level, industrial grade database.

Range of Occupations

- Database administrator
- Database analyst
- Software developer

Additional Program Requirements

Students must complete each of the required CTA, CTS, or CTP courses with a grade of C or better.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 21 credits

- CTP 145 - Relational Databases and SQL *4 credit hours*
- CTP 147 - PL-SQL Programming *3 credit hours*
- CTP 245 - Database Administration 1 *3 credit hours*
- CTP 247 - Database Administration 2 *3 credit hours*
- CTS 110 - Network Essentials *4 credit hours*
- CTS 120 - Introduction to Linux *4 credit hours*

**CTP 103 is a prerequisite for courses included in this program. Students entering the program with technical expertise beyond the level of CTP 103 should meet with the department chair to waive the requirements for this course.*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Review database concepts and data models.
- Apply normalization of databases.
- Employ design and implementation using structured query language.
- Discuss distributed database management systems.
- Explain the use of database warehousing.
- Distinguish database connectivity with web services.
- Examine database administration and security.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Database Administration - Database Management Systems (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Computer Information Systems - Information Systems Technology (A.A.S.)

Official Title of Major: Computer Information Systems - Information Systems Technology, A.A.S.

Award: Associate of Applied Science

Code: AAS.CIS.INF-SYS

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Computer Information Systems Department

Purpose: Prepares students for careers requiring a strong background in computer technology and information systems. Covers fundamental concepts in database administration, computer technology, networking and information systems. The students may be eligible to sit for the following certifications: MOS (Microsoft Office Specialist) Word 2016, MOS Excel 2016, MOS Access 2016, and MOS Outlook 2016.

Range of Occupations

- Applications programmer
- Application software designer
- Database administrator
- Database analyst
- Database programmer

- Help desk specialist/analyst
- Help desk technologist
- Information manager for office or small business
- Information systems technician
- Office and administrative support specialist
- Personal computer software specialist
- Software developer

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 24 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- CTP 194 - Ethics and the Information Age 3 *credit hours*
OR
- COM 111 - Fundamentals of Oral Communication 3 *credit hours*
OR
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

- MAT 137 - College Algebra 3 *credit hours*
Or more advanced level if qualified.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education requirements: 6 credits

- CTA 100 - Computing and Information Technology
This course meets the General Education Technology Requirement.
- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 36 credits

Required Courses: 29 credits

- CTA 111 - Personal Computer Word Processing Applications 4 credit hours
- CTA 115 - Personal Computer Database Management Systems 4 credit hours
- CTA 116 - Personal Computer Spreadsheet Applications 4 credit hours
- CTA 120 - Help Desk Concepts 3 credit hours
- CTA 105 - Theory and Troubleshooting Microcomputers 1 3 credit hours
- CTS 110 - Network Essentials 4 credit hours
- CTP 200 - Systems Analysis and Design 4 credit hours
- CTA 100 - Computing and Information Technology 3 credit hours
- CTS 107 - Cyber Essentials 3 credit hours

Choose from BPA/CTA/CTP/CTS/STM elective courses: 7 credits

Recommended choices include:

- BPA 111 - Introduction to Business 3 credit hours
- BPA 120 - Small Business Management 3 credit hours
- CTA 112 - Personal Computer Presentation Graphics Applications 4 credit hours
- CTA 113 - Personal Computer Information Management Applications 4 credit hours
- CTP 110 - Internet Fundamentals 3 credit hours
- CTS 140 - Network Security Fundamentals 4 credit hours
- CTA 205 - Theory and Troubleshooting Microcomputers 2 3 credit hours
****Note: Take CTA 205 if seeking preparation for the A+ Certification.*
- STM 213 - Professional Skills for STEM 1 credit hour

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTA 100.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Use proper computer system terminology.
2. Perform help desk functions to answer user questions.
3. Provide user training on application software, including word processing, spreadsheets, and database management software.
4. Install platform appropriate operating systems on a PC.
5. Explain the components of computer networks including protocols, topologies, hardware and network operating systems.
6. Install and use DOS and Windows operating environments and DOS, UNIX/LINUX command structures, and Windows graphic user interface.
7. Perform assembly, maintenance, and repair task involving microcomputer systems.
8. Design basic database systems by incorporating problem-solving techniques used in developing business computer information systems.
9. Apply critical thinking skills to resolve troubleshooting issues.
10. Recommend and implement appropriate solutions in the workplace.

This program aligns with the college's core competencies.

Computer Information Systems - Microsoft Office Specialist (certificate)

Official Title of Certificate: Computer Information Systems - Microsoft Office Specialist, Certificate

Award: Certificate

Code: CRT.CIS.MICROSOFT-OS

Total Credit Hours: 23

Visit www.aacc.edu to learn more about the Computer Information Systems Department

Purpose: To prepare students for employment in businesses that have a demand for personnel with personal computer skills. Students receive a general background in computer operations and extensive training using productivity software necessary to support the electronic office and business.

The Microsoft Office Specialist emphasizes the development and expertise in Microsoft Office applications of Word, Excel, Access, PowerPoint and Outlook. This certificate can be used as a stepping stone to the Help Desk and Technical Support Certificate or the Information Systems Technology AAS degree program. *Note: Students can earn the Office Applications Specialist Letter of Recognition along with this certificate.*

Range of Occupations

- Applications software designer
- Office Manager
- Administrative Assistant
- Microsoft Office Certified Application Specialist trainer
- Personal computer specialist

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 23 credits

- BPA 162 - Business Communications *3 credit hours*
- CTA 111 - Personal Computer Word Processing Applications *4 credit hours*
- CTA 112 - Personal Computer Presentation Graphics Applications *4 credit hours*
- CTA 113 - Personal Computer Information Management Applications *4 credit hours*
- CTA 115 - Personal Computer Database Management Systems *4 credit hours*
- CTA 116 - Personal Computer Spreadsheet Applications *4 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Use Microsoft Word at a proficient level.
- Use Microsoft Excel at a proficient level.
- Use Microsoft Access at a proficient level.

- Use Microsoft PowerPoint at a proficient level.
- Provide user training in Microsoft Word.
- Provide user training in Microsoft Excel.
- Provide user training in Microsoft Access,
- Provide user training in Microsoft PowerPoint.
- Manage and analyze effectively office automation requirements.
- Analyze and design basic database systems by incorporating problem-solving techniques used in developing business computer information systems.
- Build and Analyze spreadsheets, add charts, conduct What-If Analysis.
- Prepare dynamic presentations.
- Use extensive word processing features such as MailMerge, Document Tracking features.
- Link and embed objects across applications software programs.
- Recommend and implement appropriate solutions in the workplace.

This program aligns with the college's core competencies.

Computer Information Systems - Personal Computer Specialist, Help Desk Specialist Option (certificate)

Official Title of Certificate: Computer Information Systems - Personal Computer Specialist - Help Desk Specialist Option, Certificate

Award: Certificate

Code: CRT.CIS.HELP-DESK

Total Credit Hours: A minimum of 29

Visit www.aacc.edu to learn more about the Computer Information Systems Department

Purpose: To prepare students for employment in businesses that have a demand for personnel with personal computer skills. Students receive a general background in computer operations and applications using software to support the electronic office and business.

Options

1. The Help Desk Specialist Option (code CRT.CIS.HELP-DESK) emphasizes microcomputer support services and Help Desk analysis for end users. *Note: Students can earn the Microsoft Office Certifications Certificate and the Office Applications Specialist Letter of Recognition along with this certificate.*
2. The Microsoft Office Certifications Option (code CRT.CIS.MCAS) emphasizes the development and expertise in Microsoft Office applications. This option incorporates the Microsoft Office Specialist (MOS) industry certification testing in Word, Excel, PowerPoint, Access and Outlook. *Note: Students can earn the Office Applications Specialist Letter of Recognition along with this certificate.*

Range of Occupations

- Applications software designer
- Help desk specialist/analyst
- Help desk technologist

- Microsoft Office Certified Application Specialist trainer
- Personal computer specialist

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 29 credits

- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*
- CTA 111 - Personal Computer Word Processing Applications *4 credit hours*
- CTA 115 - Personal Computer Database Management Systems *4 credit hours*
- CTA 116 - Personal Computer Spreadsheet Applications *4 credit hours*
- CTA 112 - Personal Computer Presentation Graphics Applications *4 credit hours*
- CTA 113 - Personal Computer Information Management Applications *4 credit hours*
- CTA 120 - Help Desk Concepts *3 credit hours*
- CTS 105 - Microcomputer Operating Systems *3 credit hours*

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Computer Information Systems - Scientific Programming Option (certificate)

Official Title of Certificate: Computer Information Systems - Scientific Programming Option, Certificate

Award: Certificate

Code: CRT.CIS.SCI-PROG

Total Credit Hours: A minimum of 22

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Acquire or update software design and programming skills. Develop skills in software engineering, programming languages and the UNIX/LINUX operating system. Experienced computer programmers and technicians may gain skills in advanced high-level languages and programming environments.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 22-24 credits

- CTP 115 - Introductory Object-Oriented Program Analysis and Design *4 credit hours*
Students entering the option with technical expertise beyond the level of this course are encouraged to meet with the CTP department chair to select a more appropriate course.
- CTS 120 - Introduction to Linux *4 credit hours*
- CTP 150 - Computer Science 1 *4 credit hours*
Students who have completed CSI 161 and CSI 162 are not required to take CTP 150. CSI 161 and CSI 162 will not be offered after spring 2015.
- CTP 250 - Computer Science 2 *4 credit hours*
- CTP electives (approval of CTP department chair) *6-8 credit hours*
Students may want to consider technology areas such as: UNIX/LINUX, mobile device programming, the Internet and data communications/networking or programming in Java.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Computer Network Management - UNIX/LINUX System Administrator (certificate)

Official Title of Certificate: Computer Network Management-UNIX/LINUX System Administrator, Certificate

Award: Certificate

Code: CRT.CIS.UNX-LNX-SYS

Total Credit Hours: 16

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: An approved option under the computer network management associate degree program. Prepares students for employment as administrators of UNIX/LINUX system installations. Provides an introduction to computing, programming, data communications, security and other principal aspects of a typical UNIX/LINUX system administrator's job. Includes extensive hands-on training.

Related Industry Certifications

This program provides partial foundation for the following industry recognized certifications: Network+ (CompTIA), Security+ (CompTIA), and Linux+ (CompTIA) industry certification exams.

Range of Occupations

- UNIX/LINUX applications system designer/development
- UNIX/LINUX programmer
- UNIX/LINUX system administrator

Additional Certificate Requirements

Students must satisfy the prerequisites for each course in the certificate or have permission from the academic chair to take each course.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 16 credits

- CTS 110 - Network Essentials *4 credit hours*
- CTS 120 - Introduction to Linux *4 credit hours*
- CTS 140 - Network Security Fundamentals *4 credit hours*
- CTS 222 - UNIX/LINUX System Administration *4 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Install UNIX/LINUX servers.
2. Configure UNIX/LINUX operating systems.
3. Maintain UNIX/LINUX operating systems.
4. Manage and monitor UNIX/LINUX servers.
5. Troubleshoot UNIX/LINUX servers.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Information Assurance and Cybersecurity (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Computer Science - Computer Science Transfer (A.S.)

Official Title of Major: Computer Science Transfer - Computer Science, A.S.

Award: Associate of Science degree, A.S.

Total Credit Hours: 60

Code: AS.CPS.COMP-SCI

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: This transfer program provides a solid computer science and mathematics foundation for those students transferring to four-year colleges and universities to pursue a bachelor's degree in computer science. Students who have already selected a transfer college/university should consult with the Computer Science Department Chair to plan their program and to keep abreast of program changes and updates to the articulation agreements between Anne Arundel Community College and the transfer institutions.

Additional Degree Requirements

A grade of C or better is required in each Computer Science Transfer course requirement.

Related Major

Students may wish to also review requirements for the similar major linked below.

- Information Systems - Computer Science Transfer (A.S.)

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 33 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*

- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement

Arts and Humanities: 6 credits

Two different disciplines required. See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 8 credits

Two lab sciences required. See General Education Biological and Physical Sciences Requirements for a list of approved courses. Students should check with their transfer institutions for specific course requirements.

Mathematics: 4 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*

Social and Behavioral Sciences: 6 credits

Two different disciplines required. See General Education Social and Behavioral Sciences Requirements for a list of approved courses. Students should check their transfer institutions for specific course requirements.

Additional General Education Requirements: 3 credits

It may be necessary to take additional general education courses to meet the total credit requirements for this program. Courses may be selected from any general education category including arts and humanities, social and behavioral sciences, biological and physical sciences, english composition, technology, and wellness. These general education courses may simultaneously meet the diversity requirements. A list of all general education courses can be found at General Education and Diversity, Technology and Wellness Requirements.

- **Wellness General Education course** 3 *credit hours*
See General Education Wellness Requirement for list of approved courses.

Program Requirements: 12 credits

Transfer institutions require a B or better in both CTP 150 and CTP 250.

- CTP 115 - Introductory Object-Oriented Program Analysis and Design 4 *credit hours*
- CTP 150 - Computer Science 1 4 *credit hours*
- CTP 250 - Computer Science 2 4 *credit hours*

Area of Concentration Requirements: 15 credits

- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*
- MAT 202 - Linear Algebra 4 *credit hours*
- MAT 250 - Introduction to Discrete Structures 3 *credit hours*
- **Elective** 4 *credit hours, see the Computer Science Department Chair for recommendations*

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTP 115.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Design, correctly implement, and document solutions to computational problems
2. Analyze a problem, and identify the computing requirements appropriate to its solution.
3. Use current techniques, skills, and tools necessary for computing practice.
4. Apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of software.
5. Explain the complete System Development Lifecycle from planning and problem analysis through implementation and documentation.
6. Design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Information Systems - Computer Science Transfer (A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Computer Science - Database Development (certificate)

Official Title of Certificate: Computer Science - Database Development,Certificate

Award: Certificate

Code: CRT.CPS.DATA-DEV

Total Credit Hours: A minimum of 26

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Prepares students for employment in the field of database development by acquiring or updating database development skills. This option develops skills in the SQL language syntax and usage, Microsoft Access, Oracle and provides experience in designing and implementing a production level, industrial grade database.

Additional Program Requirements

A grade of C or better is required in each Database Development certificate course requirement

Range of Occupations

- Database administrator
- Database analyst
- Software developer

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 26 credits

- CTA 115 - Personal Computer Database Management Systems *4 credit hours*
- CTP 115 - Introductory Object-Oriented Program Analysis and Design *4 credit hours*
- CTP 118 - Web Development using HTML/CSS *4 credit hours*
- CTP 130 - Programming in PHP/MySQL *3 credit hours*
- CTP 145 - Relational Databases and SQL *4 credit hours*
- CTP 147 - PL-SQL Programming *3 credit hours*
- CTP 150 - Computer Science 1 *4 credit hours*

Students entering the program with technical expertise beyond the level of CTP 103 and/or CTP 115 should meet with the Computer Science Department Chair.

Program Outcomes

Upon successful completion of this program, students will be able to:

- Review database concepts and data models.
- Apply normalization of databases.
- Employ design and implementation using structured query language.
- Distinguish database connectivity with web services.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Database Development - Database Management Systems (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Construction Management (A.A.S.)

Official Title of Major: Construction Management, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.ACH.CONSTR-MGT

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Architecture and Interior Design Department

Purpose: Training in the organization and management of both large and small construction projects. Develop skills in the areas of project management, construction estimating, materials and methods of construction, and construction documentation. Teaches and integrates principles of business management as applied to construction technology.

Range of Occupations

- Construction manager
- Estimator
- Foreman
- Inspector
- Owner's field representative
- Project manager
- Superintendent

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*

Biological and Physical Sciences: 3 credits

Recommend PHY 111 - Fundamentals of Physics 1 for those students transferring. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

- MAT 145 - Precalculus 1 3 *credit hours*

Social and Behavioral Sciences: 3 credits

- SOC 111 - Introduction to Sociology 3 *credit hours*

Additional General Education requirements: 3 credits

- CTA 100 - Computing and Information Technology 3 *credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology 3 *credit hours*

Program Requirements: 39 credits

- ACH 111 - Graphic Communication 1: Composition and Delineation 3 *credit hours*
- ACH 121 - Construction Technology 1 3 *credit hours*
ACH 111 and ACH 121 are corequisites.
- ACH 122 - Construction Technology 2 3 *credit hours*
- ACH 216 - Construction Management 4 *credit hours*
- ACH 218 - Construction Operations 4 *credit hours*
- ACH 219 - Construction Contract Administration 3 *credit hours*
- ACH 230 - Cost Estimating for Construction 4 *credit hours*
- ACH 242 - Environmental Systems for Design 3 *credit hours*
- ACH 245 - Digital Technologies 1 3 *credit hours*
- BPA 162 - Business Communications 3 *credit hours*

Please choose 2 BPA electives from the list below:

- BPA 106 - Introduction to Project Management 3 *credit hours*
- BPA 120 - Small Business Management 3 *credit hours*
- BPA 142 - Principles of Management 3 *credit hours*

- BPA 235 - Introduction to Transportation and Logistics 3 *credit hours*
- LGS 253 - Business Law 1 3 *credit hours*
(formerly crosslisted as BPA 253 - Business Law I)

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Satisfied by CTA 100 or CTP 103.

Wellness Requirement

Satisfied by ACH 242.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Interpret single and multi-view drawings.
2. Illustrate visually and orally.
3. Assemble building materials and/or systems.
4. Generate the construction process.
5. Employ appropriate technology.
6. Apply building codes and regulations.
7. Assess environmental, health, safety and welfare issues.

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Creative Writing (lor)

Official Title of Letter: Creative Writing, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: A minimum of nine

Purpose: This course sequence is designed for students who plan on majoring in another subject but wish to display a concentrated interest in creative writing, or who are interested in personal enrichment in this area.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Degree/Award Requirements

Award Requirements

Completion of each of the required courses with a grade of C or better. Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 9-11 credits

- ENG 200 - Introduction to Creative Writing *3 credit hours*
- List A *6 credit hours*
- List B (optional) *1-2 credit hours*

List A

- ENG 201 - Creative Writing: Beginning Fiction Workshop *3 credit hours*
- ENG 202 - Creative Writing: Beginning Poetry Workshop *3 credit hours*
- ENG 203 - Creative Writing: Writing for the Stage and Screen Workshop *3 credit hours*
- ENG 204 - Creative Writing: Beginning Creative Nonfiction Workshop *3 credit hours*

List B (Optional)

- ENG 275 - Creative Writing: Literary Publishing Practicum - Working on Amaranth *1 credit hour*

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Creative Writing - Arts and Sciences Transfer (A.A.)

Official Title of Major: Arts and Sciences Transfer - Creative Writing, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ARTS-SCI.CREAT-W

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Creative Writing Program

Purpose: Designed to provide students with an opportunity to develop as readers and writers. Prepares students for advanced study in creative writing. Students completing this degree will have developed a portfolio of original work (fiction, poetry or creative non-fiction) for submission to baccalaureate level (BA and/or BFA) writing programs as well as reputable journals. The comprehensive core of general education courses and specialized courses in creative writing will also prepare students for transfer to programs in related disciplines.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 credit hours
- Sophomore Literature course 3 credit hours

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics *3 credit hours*
- OR**
- MAT 135 - Statistics *3 credit hours*
- OR**
- More advanced level if qualified from the list below:
- MAT 137 - College Algebra *3 credit hours*
 - MAT 145 - Precalculus 1 *3 credit hours*
 - MAT 146 - Precalculus 2 *3 credit hours*
 - MAT 151 - Accelerated Precalculus *4 credit hours*
 - MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
 - MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*
 - MAT 202 - Linear Algebra *4 credit hours*
 - MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**
- Students must choose one History course from the following:
- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
 - HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
 - HIS 211 - United States History through the Civil War *3 credit hours*
 - HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** *3 credit hours*
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** *3 credit hours*
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration: 26 credits

Required Courses: 5 credits

- ENG 200 - Introduction to Creative Writing *3 credit hours*
- ENG 205 - Creative Writing: Portfolio Development *2 credit hours*

Choose courses from the following list: 9 credits

Students should check the requirements of their transfer school before selecting the courses listed below.

- ENG 201 - Creative Writing: Beginning Fiction Workshop *3 credit hours*
- ENG 202 - Creative Writing: Beginning Poetry Workshop *3 credit hours*
- ENG 203 - Creative Writing: Writing for the Stage and Screen Workshop *3 credit hours*
- ENG 204 - Creative Writing: Beginning Creative Nonfiction Workshop *3 credit hours*
- ENG 275 - Creative Writing: Literary Publishing Practicum - Working on Amaranth *1 credit hour*

- ENG 276 - Creative Writing: Literary Publishing Practicum - Working on Amaranth 2 *credit hours*
- ENG 277 - Creative Writing: Literary Publishing Practicum - Working on Amaranth 3 *credit hours*

Choose two courses from the following: 6 credits

Students should check the requirements of their transfer school before selecting the courses listed below.

- ENG 211 - World Literature 1 3 *credit hours*
- ENG 212 - World Literature 2 3 *credit hours*
- ENG 213 - British Literature 1 3 *credit hours*
- ENG 214 - British Literature 2 3 *credit hours*
- ENG 215 - Early American Literature: Colonial to 1865 3 *credit hours*
- ENG 216 - American Literature, 1865-1945: Realism to Modernism 3 *credit hours*
- ENG 217 - Contemporary American Literature: 1945-present 3 *credit hours*
- ENG 220 - The Bible as Literature 3 *credit hours*
- ENG 221 - Introduction to Shakespeare 3 *credit hours*
- ENG 222 - The American Novel 3 *credit hours*
- ENG 223 - The British Novel 3 *credit hours*
- ENG 224 - Modern American Poetry 3 *credit hours*
- ENG 225 - African American Literature 3 *credit hours*
- ENG 226 - Ethnic American Literature 3 *credit hours*
- ENG 227 - Literary Nonfiction 3 *credit hours*
- ENG 228 - Literature in English by Women 3 *credit hours*
- ENG 235 - Modern Drama 3 *credit hours*
- ENG 250 - Literature of the Chesapeake Bay 3 *credit hours*

Electives: 6 credits

Students should check the requirements of their transfer school before selecting elective courses. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the diversity requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

The following Sophomore Literature courses satisfy the diversity requirement:

ENG 225 - African American Literature

ENG 226 - Ethnic American Literature

ENG 228 - Literature in English by Women

See Diversity Courses for a complete list of approved courses.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

1. Writing Creatively

Students will write imaginative literature, including poetry, fiction, stage and screen, creative nonfiction, and portfolio.

2. Employing Literary Craft

Students will employ a range of literary techniques appropriate to the genre: point of view, narrative pace, dialogue, figures of speech, metrical line, sound devices, etc.

3. Working Through the Writing Process

Students will draft, edit, revise and implement critiques from classmates and faculty into the revision process.

4. Peer Review

Students will critique peer work in a constructive and professional manner and employ a range of literary terms and techniques in discussion of their own writing and the writing of their peers.

5. Understanding the Writer's Profession

Students will establish disciplined writing habits, and attend or participate in literary events within the college and/or the larger community.

6. Complete Portfolios

Students will complete comprehensive portfolios that could include poetry, fiction, stage and screen or creative nonfiction.

7. Journal Production

Students will read, review, discuss, debate and select poetry, fiction, plays, nonfiction and artwork for the college journal of creative writing.

This program aligns with the college's core competencies.

Related Offerings

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Culinary Arts (certificate)

Official Title of Certificate: Culinary Arts

Award: Certificate

Code: CRT.HRM.CUL-ART

Total Credit Hours: 21

Visit www.aacc.edu to learn more about the Hotel, Culinary Arts and Tourism Institute

Purpose: Prepares students for employment in the hospitality industry such as in a restaurant or hotel. The Culinary Arts Certificate prepares students for intermediate-level food preparation positions in a variety of hospitality industries, such as hotels, clubs, airlines, cruise ships, or restaurants.

Range of Occupations

- Banquet cook
- Cook
- Lead cook

Additional Program Requirements:

Students are required to wear an approved chef uniform for production classes. See course description for specifics.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 21 credits

- HRM 205 - Cooking Techniques 2 *3 credit hours*
- HRM 220 - Garde Manger *3 credit hours*
- HRM 223 - International Cuisine *3 credit hours*
- HRM 225 - Restaurant Production and Simulation *3 credit hours*
- HRM 232 - World Culture and Cuisine: A Social Science Perspective *3 credit hours*
- HRM 260 - Purchasing and Cost Controls *3 credit hours*
- HRM 275 - Internship in Hotel/ Restaurant Management *3 credit hours*

Program Outcomes

1. Introduction to the Hospitality and Baking and Pastry Industry: Develop an understanding of the hospitality industry and career opportunities in the field. Investigate trade publications and professional organizations appropriate for continuing education. Become familiar with the organizational structure and basic functions of departments within hospitality and food service establishments.
2. Food Safety: Apply and evaluate safe, sanitary procedures, habits, and behaviors in hotel and restaurant facilities.
3. Business and Math Skills: Perform mathematical functions related to foodservice operations.
4. Food Preparation: Develop skills in knife, tool, and equipment handling and apply principles of food preparation/basic baking of a variety of products. Operate equipment safely and correctly, to apply knowledge of laws and regulations relating to safety and sanitation.
5. Advanced Food Preparation: Develop skills in producing a variety of cold food products. Prepare items appropriate for buffet presentation, including decorative pieces. Apply the principles of menu planning and layout to the development of menus for a variety of types of facilities and services.
6. Purchasing and Receiving: Apply concepts to lower costs and improve quality of ingredients. Reduce risk and ensure the security of supply and manage relationships with purveyors and improve quality of ingredients.
7. Nutrition: Describe the characteristics, functions, and food sources of major nutrients and how to maximize nutrient retention in food preparation and storage. Apply the principles of nutrient needs throughout the life cycle to menu planning and food preparation.
8. Customer Service: Identify customer service and guest relations standards and policies that must be in place for the successful operation of a hotel and restaurant.
9. Environmental Sustainability: Use knowledge of best practices to further sustainability (economic, environmental, and cultural/social) in the industry (sustainability)
10. Leadership and Human Relationships: Demonstrate knowledge and skills in a practical event environment.
11. Multicultural Perspectives: Demonstrate knowledge of multicultural perspectives to meet the needs of the guest and employees (customer service)

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Cyber Technology (certificate)

Official Title of Certificate: Cyber Technology, Certificate

Award: Certificate

Code: CRT.CIS.CYBER-TECH

Total Credit Hours: 27

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Additional Program Requirements

A grade of C or better is required in each Cyber Technology certificate course requirement.

Purpose: Prepares students for entry-level jobs in Customer Service and Technical Support. Gain the skills and knowledge to perform basic troubleshooting of computer systems and networks. Acquire in-depth knowledge of TCP/IP, Cisco IOS, and experience configuring Cisco routers and switches.

Created by five member colleges of the National STEM (Science, Technology, Engineering and Mathematics) Consortium with funding from a U.S. Department of Labor Trade Adjustment Assistance Community College and Career training (TAACCCT) grant.

Related Industry Certifications

This program provides partial foundation for the following industry recognized certifications: A+ (CompTIA), Network+ (CompTIA), Security+ (CompTIA) and CCNA (Certified Cisco Network Associate).

Range of Occupations

- Computer User Support Specialist
- Help Desk Representative
- Technical Support Specialist
- Network Technician

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 27 credits

- CTA 105 - Theory and Troubleshooting Microcomputers 1 3 *credit hours*
- CTA 205 - Theory and Troubleshooting Microcomputers 2 3 *credit hours*
- CTS 110 - Network Essentials 4 *credit hours*
- CTS 140 - Network Security Fundamentals 4 *credit hours*
- CTS 130 - Networking 1 4 *credit hours*
- CTS 131 - Networking 2 4 *credit hours*
- CTS 230 - Networking 3 4 *credit hours*
- STM 213 - Professional Skills for STEM 1 *credit hour*
- **OR**
- CYB 270 - Cyber Capstone 1 *credit hour*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Demonstrate knowledge of "knowledge base" capabilities in identifying the solutions to less common and more complex system problems [Knowledge Management].
2. Demonstrate knowledge of disaster recovery and continuity of operations plans [Incident Management].
3. Demonstrate knowledge of measures or indicators of system performance and availability [Information Technology Performance Assessment].
4. Demonstrate knowledge of systems administration concepts [Operating Systems].

5. Demonstrate knowledge of the operations and processes for diagnosing common or recurring system problems [Systems Life Cycle].
6. Demonstrate knowledge of the type and frequency of routine maintenance needed to keep equipment functioning properly [Systems Life Cycle].
7. Conduct open source research for troubleshooting novel client-level-problems [Knowledge Management].
8. Identify possible causes of degradation of system performance or availability and initiating actions needed to mitigate this degradation [System Life Cycle].
9. Test and configure network workstations and peripherals [Network Management].
10. Demonstrate skill in the basic operation of computers [Computer Skills].
11. Use the appropriate tools for repairing software, hardware, and peripheral equipment of a system [Computers and Electronics].
12. Demonstrate knowledge of basic physical computer components and architectures, including the functions of various components and peripherals (e.g., central processing units (CPUs), network interface cards (NICs), data storage) [Computers and Electronics].
13. Demonstrate knowledge of electronic devices (e.g., computer systems/components, access control devices, digital cameras, electronic organizers, hard drives, memory cards, modems, network components, printers, removable storage devices, scanners, telephones, copiers, credit card skimmers, facsimile machines, global positioning systems (GPSs)) [Hardware].
14. Demonstrate knowledge of network security architecture concepts, including topology, protocols, components, and principles (e.g., application of defense in-depth) [Information Systems/Network Security].
15. Identify the risks and threats to an organization's data and providing a structured way of addressing how to safeguard these critical electronic assets.
16. Demonstrate a systems approach to critical thinking.
17. Demonstrate effective professional communication.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Cybercrime (A.A.S.)

Official Title of Major: Cybercrime, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.LEN.CYBR-CRME

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

Purpose: Prepares students for careers in the area of criminal investigation and cybercrime or to meet requirements for promotion and additional career responsibility. Provides students with an educational opportunity to earn an Associate of Applied Science degree in cybercrime. Prepares students with a continuous and thorough accumulation of knowledge in cybercrime prevention, criminal investigation and evidentiary presentation.

Students who have career interests in an area of criminal justice should consult with one of the Homeland Security and Criminal Justice Institute faculty to assure specific career goals are met.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 24 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- CTP 194 - Ethics and the Information Age 3 *credit hours*

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

- MAT 133 - Finite Mathematics 3 *credit hours*
OR
- MAT 135 - Statistics 3 *credit hours*

Social and Behavioral Sciences: 3 credits

- SOC 111 - Introduction to Sociology 3 *credit hours* **OR**
- PSY 111 - Introduction to Psychology 3 *credit hours*
SOC 111 satisfies the diversity requirement.

Additional General Education requirements: 6 credits

- CTP 103 - Theories and Applications of Digital Technology
This course meets a General Education Technology Requirement.
- **Wellness Requirement** 3 *credit hours*

See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 36 credits

- CJS 111 - Introduction to Criminal Justice 3 credit hours
- CTS 107 - Cyber Essentials 3 credit hours
- CJS 170 - Digital Forensics 1 3 credit hours
- CTS 110 - Network Essentials 4 credit hours
- CTS 140 - Network Security Fundamentals 4 credit hours
- CJS 206 - Cybercrime 3 credit hours
- CJS 207 - Digital Forensics 2 4 credit hours
- CTS 240 - Advanced Network Defense 4 credit hours **OR**
- CTS 242 - Network Intrusion Detection and Penetration Testing 4 credit hours
- CJS 222 - Investigation and Criminalistics 4 credit hours
- **CJS, CTA, CTP, CTS or HLS elective** 4 credit hours

Diversity Requirement

Students may satisfy the diversity requirement simultaneously as they satisfy the social and behavioral sciences (with SOC 111) or biological and physical sciences or wellness general education requirements.

Technology Requirement

Satisfied by CTP 103.

Wellness Requirement

All students in associate degree programs must satisfy the wellness requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

- Describe and explain the foundational theoretical concepts and history of cybercrime in the U.S. and abroad.
- Explain cybercrime techniques used to compromise government and private networks.
- Describe the basic components of computer technology, to include hardware, software, and network systems.
- Explore and develop career paths in the field of cybercrime and cybersecurity.
- Outline a computer forensic investigation.
- Examine the interconnected roles between federal, state, and local law enforcement to investigate and apprehend cybercriminals.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Cybercrime (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Cybercrime (certificate)

Official Title of Certificate: Cybercrime, Certificate

Award: Certificate

Code: CRT.LEN.CYBR-CRME

Total Credit Hours: 31

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

Purpose: Prepares students for careers in the area of criminal investigation and cybercrime or to meet requirements for promotion and additional career responsibility. Provides students with an educational opportunity to earn a certificate in cybercrime. Prepares students with a continuous and thorough accumulation of knowledge in cybercrime prevention, criminal investigation and evidentiary presentation.

Students who have career interests in an area of criminal justice should consult with one of the Homeland Security and Criminal Justice Institute faculty to assure specific career goals are met.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 31 credits

- CJS 111 - Introduction to Criminal Justice *3 credit hours*
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*
- CTS 107 - Cyber Essentials *3 credit hours*
- CTS 110 - Network Essentials *4 credit hours*
- CTS 140 - Network Security Fundamentals *4 credit hours*
- CJS 170 - Digital Forensics 1 *3 credit hours*
- CJS 206 - Cybercrime *3 credit hours*
- CJS 207 - Digital Forensics 2 *4 credit hours*
- CJS 222 - Investigation and Criminalistics *4 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Describe and explain the foundational theoretical concepts and history of cybercrime in the U.S. and abroad.
- Explain cybercrime techniques used to compromise government and private networks.
- Describe the basic components of computer technology, to include hardware, software, and network systems.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Arts and Sciences Transfer Program Core Course Requirements

The core courses for this degree are simultaneously satisfied by three of the General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirements, and (3) one of the History courses in the Social and Behavioral Sciences general education requirement (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course *3 credit hours*
- Sophomore Literature course *3 credit hours*

Biological and Physical Sciences: 7 credits

At least one laboratory science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics *3 credit hours*
OR
- MAT 135 - Statistics *3 credit hours*
Or more advanced level if qualified.

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**
Students must choose one History course from the following:
 - HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
 - HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
 - HIS 211 - United States History through the Civil War *3 credit hours*
 - HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** *3 credit hours*
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** *3 credit hours*
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration: 26 credits

Required Courses: 14 credits

- DAN 100 - Dance History 3 *credit hours*
- DAN 125 - Improvisation 2 *credit hours*
- DAN 240 - Dance Production 3 *credit hours*
- MUS 101 - Music Fundamentals 3 *credit hours*
- THA 122 - Introduction to Stage Design and Lighting 3 *credit hours*

Choose four courses from the following: 8 credits

At least two courses must be selected from the 200 level.

- DAN 105 - Beginning Tap Dance 1 2 *credit hours*
- DAN 106 - Beginning Tap Dance 2 2 *credit hours*
- DAN 111 - Beginning Ballet 1 2 *credit hours*
- DAN 112 - Beginning Ballet 2 2 *credit hours*
- DAN 121 - Beginning Modern Dance 1 2 *credit hours*
- DAN 122 - Beginning Modern Dance 2 2 *credit hours*
- DAN 131 - Beginning Jazz Dance 1 2 *credit hours*
- DAN 132 - Beginning Jazz Dance 2 2 *credit hours*
- DAN 205 - Intermediate Tap Dance 1 2 *credit hours*
- DAN 206 - Intermediate Tap Dance 2 2 *credit hours*
- DAN 211 - Intermediate Ballet 1 2 *credit hours*
- DAN 212 - Intermediate Ballet 2 2 *credit hours*
- DAN 221 - Intermediate Modern Dance 1 2 *credit hours*
- DAN 222 - Intermediate Modern Dance 2 2 *credit hours*
- DAN 231 - Intermediate Jazz Dance 1 2 *credit hours*
- DAN 232 - Intermediate Jazz Dance 2 2 *credit hours*

World Language: 3 credits

See list of approved courses.

Elective: 1 Credit

Recommend students check on transfer institution's requirements. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate complex ideas and information through writing, speaking, presenting, and using technology.
2. Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
3. Explain the value of tradition, innovation, and creativity in artistic expression.
4. Apply mathematical skills, critical analysis, and logical thinking to solve problems and interpret quantitative information.
5. Apply an awareness of social diversity and the ways in which cultural values are historically and socially situated.
6. Demonstrate a kinesthetic sense of awareness.
7. Describe using examples and/or demonstrations how dance is as an effective form of non-verbal communication.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Communications - Arts and Sciences Transfer (A.A.)
- Creative Writing - Arts and Sciences Transfer (A.A.)
- English - Arts and Sciences Transfer (A.A.)
- Film Studies - Arts and Sciences Transfer (A.A.)
- Gender and Sexuality Studies - Arts and Sciences Transfer (A.A.)
- Liberal Arts - Arts and Sciences Transfer (A.A.)
- Music - Arts and Sciences Transfer (A.A.)
- Psychology - Arts and Sciences Transfer (A.A.)
- Theater - Arts and Sciences Transfer (A.A.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Data Literacy (certificate)

Official Title of Certificate: Data Literacy, Certificate

Award: Certificate

Code: CRT.ECO.DATA-LTRCY

Total Credit Hours: 18

Visit www.aacc.edu to learn more about the Economics Department

Purpose: Provides functional skills and literacies in simple data analysis within a common statistical software package. Introduces advanced techniques such as binary variables and logistic regression and prepares students to read

and interpret results using those techniques. Major emphasis is on the work before and after an analysis, such as proposing a question, collecting data, interpreting results, and applying findings to improve decision making.

This program is intended for students already possessing an Associate's or Bachelor's degree who seek a career-boosting credential in the growing field of analytics. Data science training has grown and become very specific, so most certificates, including this one, introduce the field. They are unlikely to lead to a position with the title "data scientist" or "analyst." However, as data has become a more important piece of nearly all business decisions, the exposure to this element provides competencies and training that provide an edge over other job candidates, such as for acquiring or advancing in managerial positions.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credits

- CTA 115 - Personal Computer Database Management Systems *4 credit hours*
- ECO 232 - Business Statistics *3 credit hours*
- ECO 233 - Data, Sampling, and Analytics *3 credit hours*
- ECO 270 - Data and Analysis Project Seminar *2 credit hours*

Electives

Choose two courses (6 credit hours) from the following list. Substitutions allowed with permission of the department chair of economics. Students are advised to choose courses related to their career goals. Students should work with current employers or faculty members to choose beneficial courses from this list.

- BPA 126 - Advertising and Sales Promotion *3 credit hours*
- BPA 127 - eMarketing *3 credit hours*
- BPA 142 - Principles of Management *3 credit hours*
- BPA 171 - Principles of Supervision *3 credit hours*
- BPA 172 - Human Resource Management *3 credit hours*
- CJS 113 - Penology *3 credit hours*
- CJS 135 - Organized Crime *3 credit hours*
- CJS 260 - Terrorism/Counterterrorism *3 credit hours*
- COM 141 - Group Communication and Leadership *3 credit hours*
- COM 230 - Persuasive Message Strategies *3 credit hours*
- ECO 211 - Principles of Economics 1 *3 credit hours*
- ECO 212 - Principles of Economics 2 *3 credit hours*
- ESI 231 - Introduction to Social Entrepreneurship and Nonprofit Management *3 credit hours*

- HLS 111 - Introduction to Homeland Security *3 credit hours*
- HLS 112 - National Security Law *3 credit hours*
- HLS 113 - Drugs, Addiction, Corruption and Crime *3 credit hours*
- HLS 114 - Maryland and Terrorism *3 credit hours*
- HLS 211 - Intelligence Analysis and Security Management *3 credit hours*
- HLS 212 - Survey of Weapons of Mass Destruction *3 credit hours*
- HLS 213 - Transportation and Border Security *3 credit hours*
- HRM 251 - Food and Beverage Operations Management *3 credit hours*
- HRM 253 - Catering Management *3 credit hours*
- HRM 256 - Hotel Property Management *3 credit hours*
- HRM 260 - Purchasing and Cost Controls *3 credit hours*
- PBH 101 - Introduction to Public Health *3 credit hours*
- PBH 102 - Introduction to Epidemiology *3 credit hours*
- PBH 105 - Essentials of Health Behavior *3 credit hours*
- PBH 202 - Emerging Public Health Issues *3 credit hours*

Program Outcomes

Upon successful completion of this certificate, students will be able to:

- Compose questions about an action or process that can be answered with the help of data and data analysis.
- Determine necessary characteristics of a data set and its variables to address a given question related to the chosen elective coursework.
- Determine what questions related to the chosen elective courses could be addressed with a given data set.
- Manage data sets as needed to calculate descriptive statistics, construct tables or graphs, and perform hypothesis tests.
- Use statistical software to perform hypothesis tests and estimate linear regression models.
- Apply results of reports including hypothesis tests, multivariate regressions, and logistic regressions to situations related to the chosen elective coursework.

Database Administration (lor)

Official Title of Letter: Database Administration, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours:

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Prepares students for employment in the field of database administration by acquiring or updating database administrator skills. This option develops skills in the SQL language syntax and usage, primary roles and responsibilities of a database administrator, and provides some experience in designing and implementing a production level, industrial grade database.

Range of Occupations

- Database Administrator
- Database Analyst
- Software Developer

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Degree/Award Requirements

Award Requirements

Students must complete each of the required CTA, CTP or CTS courses with a grade of C or better. At least 50 percent of the total credit hours in the letter of recognition must be earned at AACC. Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 10 credits

- CTP 145 - Relational Databases and SQL *4 credit hours*
- CTP 147 - PL-SQL Programming *3 credit hours*
- CTP 245 - Database Administration 1 *3 credit hours*

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Database Administration - Database Management Systems (A.A.S.)

Official Title of Major: Database Management Systems - Database Administration, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Total Credit Hours: 60

Code: AAS.CPS.DATABASE-ADM

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Prepares students for careers requiring a strong background in computer technology and information systems. Covers fundamental concepts in database administration, computer technology, networking, and security. The students are eligible to sit for the following certifications: MOS Access 2013, Oracle PL/SQL Developer Certified Associate (comprised of the Oracle Database SQL Fundamentals exam and the Oracle Database Program with PL/SQL exam) and Oracle Database Administrator Certified Associate Certification (comprised of the Oracle Database SQL Fundamentals exam and the Oracle Administration exam).

Emphasizes the development of expertise in SQL syntax and usage, the development of both large and small scale databases, the roles and responsibilities of a database administrator, and the experiences in designing, implementing,

monitoring, and maintaining a production level, industrial grade database. *Note: Students have the option of learning either Windows or LINUX/UNIX operating systems.*

Range of Occupations

- Database administrator (DBA)
- Database analyst
- Database manager
- Database architect
- Database engineer

Related Major

Students may wish to also review requirements for the similar major linked below.

- Database Development - Database Management Systems (A.A.S.)

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- CTP 194 - Ethics and the Information Age *3 credit hours*
OR
- COM 111 - Fundamentals of Oral Communication *3 credit hours*
OR
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers *3 credit hours*

Biological and Physical Sciences: 3 credits

- BIO 135 - Principles of Nutrition *3 credit hours*

Mathematics: 3 credits

- MAT 137 - College Algebra *3 credit hours*
Or more advanced level if qualified.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 3 credits

- CTP 103 - Theories and Applications of Digital Technology 3 credit hours
This course meets the General Education Technology Requirement.

Program Requirements: 18 credits

These are the common program requirements for both areas of concentration. Students must complete all of these courses with a grade of C or better.

- CTS 107 - Cyber Essentials 3 credit hours
- CTA 115 - Personal Computer Database Management Systems 4 credit hours
- CTP 145 - Relational Databases and SQL 4 credit hours
- CTP 147 - PL-SQL Programming 3 credit hours
- CTP 200 - Systems Analysis and Design 4 credit hours

Area of Concentration Requirements: 21 credits

- CTP 245 - Database Administration 1 3 credit hours
- CTP 247 - Database Administration 2 3 credit hours
- CTS 110 - Network Essentials 4 credit hours
- CTS 120 - Introduction to Linux 4 credit hours
- **Electives** 7 credit hours

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTP 103.

Wellness Requirement

Satisfied by BIO 135.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of the Database Administration Area of Concentration, students will be able to:

1. Review database concepts and data models.

2. Apply normalization of databases.
3. Design and implement a production level, industrial grade database using structured query language.
4. Discuss distributed database management systems.
5. Explain the use of database warehousing.
6. Examine database administration and security.

This program aligns with all the college's core competencies.

Database Development - Database Management Systems (A.A.S.)

Official Title of Major: Database Management Systems - Database Development, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Total Credit Hours: 60

Code: AAS.CPS.DATABASE-DEV

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Prepares students for careers requiring a strong background in computer technology and information systems. Covers fundamental concepts in database administration, computer technology, networking, and security. The students are eligible to sit for the following certifications: MOS Access 2016, Oracle PL/SQL Developer Certified Associate (comprised of the Oracle Database SQL Fundamentals exam and the Oracle Database Program with PL/SQL exam) and Oracle Database Administrator Certified Associate Certification (comprised of the Oracle Database SQL Fundamentals exam and the Oracle Administration exam).

Emphasizes the development of expertise in SQL syntax and usage, the development of both large and small scale databases, the experiences in designing and implementing a production level database, and the development of applications in a variety of settings that rely on back-end data stored in a database.

Range of Occupations

- Database developer
- Database architect

- Database application programmer
- Database application software designer
- Back-end developer

Related Major

Students may wish to also review requirements for the similar major linked below.

- Database Administration - Database Management Systems (A.A.S.)

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- CTP 194 - Ethics and the Information Age 3 *credit hours*
OR
- COM 111 - Fundamentals of Oral Communication 3 *credit hours*
OR
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*

Biological and Physical Sciences: 3 credits

- BIO 135 - Principles of Nutrition 3 *credit hours*

Mathematics: 3 credits

- MAT 137 - College Algebra 3 credit hours
Or more advanced level if qualified.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 3 credits

- CTP 103 - Theories and Applications of Digital Technology 3 credit hours
This course meets the General Education Technology Requirement.

Program Requirements: 18 credits

- CTS 107 - Cyber Essentials 3 credit hours
- CTA 115 - Personal Computer Database Management Systems 4 credit hours
- CTP 145 - Relational Databases and SQL 4 credit hours
- CTP 147 - PL-SQL Programming 3 credit hours
- CTP 200 - Systems Analysis and Design 4 credit hours

Area of Concentration Requirements: 21 credits

- CTP 115 - Introductory Object-Oriented Program Analysis and Design 4 credit hours
- CTP 118 - Web Development using HTML/CSS 4 credit hours
- CTP 130 - Programming in PHP/MySQL 3 credit hours
- CTP 150 - Computer Science 1 4 credit hours
- **Electives** 6 credit hours

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTP 103.

Wellness Requirement

Satisfied by BIO 135.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of the Database Development Area of Concentration, students will be able to:

1. Review database concepts and data models.
2. Apply normalization of databases.
3. Design and implement a production level database using structured query language.
4. Distinguish database connectivity with web services.

This program aligns with all the college's core competencies

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Database Administration - Database Management Systems (A.A.S.)
- Computer Information Systems - Database Administration (certificate)
- Computer Science - Database Development (certificate)

Digital Forensics (certificate)

Official Title of Certificate: Digital Forensics, Certificate

Award: Certificate

Code: CRT.CIS.DIGITAL-FRSC

Total Credit Hours: 18-19

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: Perform forensic investigations, incident handling and conduct incident investigations. Gain the knowledge and skills necessary to execute forensic investigations of networks, hosts and mobile devices including collecting, processing, review, analysis and production of electronic evidence using standard computer forensics and evidence handling techniques.

Range of Occupations

- Computer forensics technician
- Digital forensics specialist
- Digital forensics investigator
- Forensic support specialist
- Incident response analyst

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18-19 credits

- CTS 170 - Digital Forensics 1 3 *credit hours*

- CTS 207 - Digital Forensics 2 4 *credit hours*
- CTS 209 - Digital Forensics 3 4 *credit hours*
- Elective courses (chosen from below) 7-8 *credit hours*

Elective Course Selection

Two electives must be selected from the following:

- CJS 111 - Introduction to Criminal Justice 3 *credit hours*
- CTS 110 - Network Essentials 4 *credit hours*
- CTS 120 - Introduction to Linux 4 *credit hours*
- CTS 240 - Advanced Network Defense 4 *credit hours*
- CTS 242 - Network Intrusion Detection and Penetration Testing 4 *credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Plan and perform digital forensic investigations including preservation, handling, analysis, and documentation of evidence
2. Use industry standard tools to access digital evidence and conduct forensic analysis
3. Relate the functionality of operating systems and networks to digital evidence
4. Apply Constitutional and case law to digital forensics investigations
5. Effectively communicate technical information

Related Offerings

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Digital Marketing (certificate)

This program is pending approval by the Maryland Higher Education Commission.

Official Title of Certificate: Digital Marketing

Award: Certificate

Code: Contact Records Office

Total Credit Hours: 18 credit hours

Purpose: Participants will be trained in the basics of digital marketing. They will learn how to develop a marketing strategy for the digital realm, including web, mobile, email, search, and social media, based on consumer insight and data.

This certificate is stackable into the A.A.S. Business Management--Business Communications and A.A.S. Business Management--Advertising/Marketing areas of concentration.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credit hours

- ART 106 - Introduction to Digital Design *3 credit hours*
- BPA 125 - Marketing Principles *3 credit hours*
- BPA 126 - Advertising and Sales Promotion *3 credit hours*
- BPA 127 - eMarketing *3 credit hours*
- BPA 135 - Customer Service *3 credit hours*
- BPA 162 - Business Communications *3 credit hours*

Program Outcomes

1. Leverage social media and other digital platforms to achieve organizational marketing objectives and sales goals;
2. Recognize how digital marketing tools drive consumer behavior
3. Utilize digital marketing tools to develop an integrated digital marketing campaign
4. Measure the effectiveness of digital marketing campaigns through the use of data

Early Childhood Development (A.A.S.)

Official Title of Major: Early Childhood Development, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.EDU.ECD

Total Credit Hours: A minimum of 60

Visit www.aacc.edu to learn more about the Teacher Education and Child Care Institute (TEACH)

Purpose: The Associate of Applied Science (A.A.S.) degree in Early Childhood Development fulfills the state educational requirements for employment in a child care center as a teacher (senior staff), school-age staff member, and/or director. The program emphasizes the study of child development, early childhood curriculum/strategies, and administrative responsibilities, as well as requires passing a background check and completing field-based experiences in the early childhood learning environment. Individuals must meet additional state requirements regarding age and experience for employment.

Range of Occupations

- Director/teacher of before- and after-school program
- Director of child care center
- Teacher in child care center

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Satisfied by EDU 135.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Describe the theories and principles of child development and learning, and apply the theories and principles to classroom teaching.
2. Identify the policies, issues, trends, and historical events in the field of early childhood education and its impact on how we work with young children today.
3. Use systematic observations, documentation, and other effective assessment techniques to inform decisions when working with young children.
4. Demonstrate knowledge of supporting, empowering and communicating with families and communities through building respectful, reciprocal relationships.
5. Demonstrate understanding of content areas and apply developmentally appropriate approaches and instructional strategies to enhance children's learning and development.
6. Identify and explain effective and developmentally appropriate models of classroom and behavior management in the early childhood classroom.
7. Identify and implement ethical guidelines and National Association for the Education of Young Children standards related to early childhood practices as an early childhood professional who advocates for sound educational practices and policies.
8. Identify the roles and responsibilities of childcare providers for children infancy-12 years old focusing on planning, curriculum, age appropriate materials and instructional methods
9. Understand and identify the leadership skills, management practices and supervisory functions required for effective administration of a childcare facility.
10. Articulate the historical, philosophical, and legal basis of services for young children with special needs and identify ways to accommodate children with diverse needs in the classroom.
11. Explain the role language plays in the acquisition of reading development and identify foundational skills to support the emergent/early reader

This program aligns with all the college's core competencies. For a full list of Core Competencies, [click here](#).

Related Offerings

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Early Childhood Education/Early Childhood Special Education (A.A.T.)

Official Title of Major: Early Childhood Education/Early Childhood Special Education, A.A.T.

Award: Associate of Arts in Teaching (A.A.T.)

Code: AAT.EDU.ECE

Total Credit Hours: 63

Visit www.aacc.edu to learn more about the Teacher Education and Childcare Institute (TEACH)

Purpose: The Associate of Arts in Teaching (A.A.T.) degree is designed for students preparing to transfer to a four-year institution to obtain a baccalaureate degree and earn Maryland state teacher certification. The program incorporates foundation coursework in teacher education, content coursework in a selected certification area, and a field-based experience at the appropriate level of teacher certification.

This curriculum prepares students to transfer to an early childhood education or generic special education program at a four-year college or university in the state of Maryland. The Associate of Arts in Teaching (A.A.T.) degree has been articulated with all of the transfer programs in early childhood education and generic special education in the state of Maryland. Upon completion of the A.A.T. degree, students are eligible to be admitted as an early childhood education or generic special education major at a Maryland transfer institution. The courses in this degree are not sufficient to meet all special education or inclusion course requirements for four-year teacher education programs.

Additional Degree Requirements

To earn the degree and be eligible for seamless transfer within Maryland, students must complete all required coursework and the following additional requirements:

- Students must submit either a 3.0 cumulative grade point average on a 4.0 scale; or a 2.75-2.99 cumulative grade point average on a 4.0 scale and qualifying scores on the basic skills assessment for teacher licensure as established by the State Superintendent of Schools and as approved by the State Board of Education;
- Students must complete fieldwork requirements as indicated by the Teacher Education and Child Care Institute. Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.
- Students must earn a C or better in all coursework required for the degree.

Students may be required to meet additional admittance requirements at the chosen transfer institution.

The A.A.T. degrees parallel the Maryland State Department of Education grade bands:

Early Childhood Education	PreK-grade 3
Elementary Education	Grades 1-6
Secondary Academic Areas	Grades 7-12

Entrance/Admission Requirements

Criminal Background Check

Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- HUM 101 - Introduction to Fine Arts 3 *credit hours*
- HIS 211 - United States History through the Civil War 3 *credit hours*
OR
- HIS 212 - United States History Since the Civil War 3 *credit hours*

Biological and Physical Sciences: 8 credits

- PHS 100 - General Physical Science 4 *credit hours*
- BIO 100 - Introduction to Biology 4 *credit hours*

Mathematics: 8 credits

- MAT 221 - Fundamental Concepts of Mathematics 1 4 *credit hours*
- MAT 222 - Fundamental Concepts of Mathematics 2 4 *credit hours*

Social and Behavioral Sciences: 6 credits

- PSY 111 - Introduction to Psychology 3 credit hours
- GEO 102 - World Regional Geography 3 credit hours

Program Requirements: 29 credits

- EDU 132 - Introduction to Early Childhood Development 3 credit hours
- EDU 133 - Growth and Development 3 credit hours
- EDU 135 - Children's Health, Nutrition and Safety 3 credit hours
- EDU 214 - Introduction to Special Education 3 credit hours
The Introduction to Special Education course required by Anne Arundel Community College is a necessary requirement of the college's Early Childhood A.A.T. degree, but is not sufficient to meet all special education or inclusion course requirements for four-year teacher education programs.
- EDU 242 - Foundations of Reading and Language Arts 3 credit hours
OR
- EDU 242H - Foundations of Reading and Language Arts - Honors 3 credit hours

- EDU 247 - Early Childhood: Methods and Materials 3 credit hours
- MAT 223 - Fundamental Concepts of Mathematics 3 4 credit hours
- PHS 200 - Earth and Space Science 4 credit hours
- PLS 111 - American Government 3 credit hours

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Satisfied by EDU 135.

Program Outcomes

Upon successful completion of this program, students will be able to:

LO 1 Child Development and Learning in Context

Describe the theories and principles of child development and learning and apply the theories and principles to their classroom teaching in multiple cultural and societal contexts.

LO 2 Family-Teacher Partnerships and Community Connections

Demonstrate knowledge of supporting and empowering diverse families and communities through respectful, reciprocal relationships.

LO 3 Child Observations, Documentation and Assessment

Use systematic observations, documentation, and other effective assessment strategies in a responsible way to positively influence children's learning and development.

LO 4 Developmentally, Culturally, and Linguistic Appropriate Teaching Practices

Identify and practice strategies for working and advocating for families of culturally and linguistically diverse students and students with disabilities in order to facilitate a child's educational program.

LO 5 Understanding Content and Developmental Approaches

Demonstrate an understanding of content areas, including literacy, and apply developmentally appropriate approaches to enhance children's learning and development.

LO 6 Professionalism as an Early Childhood Educator

Identify and conduct themselves as early childhood professionals who model self-care and use ethical guidelines and National Association for the Education of Young Children standards related to early childhood practice, and who are advocates for sound educational practices and policies.

This program aligns with all the college's core competencies.

General Education Requirements: 33 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 *credit hours*
- Sophomore Literature course 3 *credit hours*

Biological and Physical Sciences: 8 credits

- CHE 111 - General Chemistry 1 4 *credit hours*
- PHS 113 - Physical Geology 4 *credit hours*

Mathematics: 4 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) 3 *credit hours* **AND**
Students must choose one History course from the following:
 - HIS 111 - Ancient and Medieval Western Civilizations 3 *credit hours*
 - HIS 112 - Early Modern and Modern Western Civilizations 3 *credit hours*
 - HIS 211 - United States History through the Civil War 3 *credit hours*
 - HIS 212 - United States History Since the Civil War 3 *credit hours*

Additional General Education Requirements: 3 credits

- **Wellness Requirements** 3 *credit hours*
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration Requirements: 27 credits

- MAT 192 - Calculus and Analytic Geometry 2 4 credit hours
 - PHS 109 - General Oceanography 3 credit hours
 - PHY 211 - General Physics 1 4 credit hours
 - PHY 212 - General Physics 2 4 credit hours
 - **Electives** 12 credit hours
Suggested electives include:
 - MAT 202 - Linear Algebra 4 credit hours
 - MAT 212 - Differential Equations 4 credit hours
 - PHS 119 - Fundamentals of Weather 4 credit hours
 - PHY 213 - General Physics 3 4 credit hours
- One of the electives must be used to satisfy the technology requirement if it has not been demonstrated otherwise. See Technology Requirement for a list of approved courses.*

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline-specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

This program aligns with the college's core competencies.

Total Credit Hours: 65

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: The ASE in Electrical Engineering degree was developed to facilitate the transfer of students from two-year to four-year electrical engineering programs, and is not considered as a terminal degree in engineering. This program is designed to transfer as a degree, rather than on a course-by-course basis, into parallel four-year electrical engineering programs in Maryland. Although this does not guarantee admission into a four-year engineering program, most Maryland universities have expressed support for the ASE. To receive the block transfer benefit of this degree, all of the ASE degree requirements must be completed.

The first two years include foundation courses such as math, physics and chemistry, as well as introductory engineering courses. There are no technical electives within this program. All program requirements are mandatory.

Range of Occupations

- Leads to occupation of electrical engineer

Additional Degree Requirements

To complete the program in two years it is necessary to take calculus (MAT 191) in the first term. Those not ready for calculus should take pre-calculus math (MAT 151), possibly in the summer before the first regular term.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 35 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 3 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A or ENG 101 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

See General Education Arts and Humanities Requirements for a list of approved courses. These courses must be from two different disciplines and have different course prefixes.

Biological and Physical Sciences: 12 credits

- CHE 111 - General Chemistry 1 4 *credit hours*
- PHY 211 - General Physics 1 4 *credit hours*
- PHY 212 - General Physics 2 4 *credit hours*

Mathematics: 8 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*

Social and Behavioral Sciences: 6 credits

- PSY 111 - Introduction to Psychology 3 *credit hours*
- Social and Behavioral Sciences general education course (except PSY) 3 *credit hours*
See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Program Requirements: 30 credits

See the department chair for the recommended program sequence.

- EGR 120 - Introduction to Engineering Design 3 *credit hours*
- EGR 235 - Circuit Theory 4 *credit hours*
- EGR 241 - Systems and Signals 4 *credit hours*
- EGR 244 - Digital Logic Design 4 *credit hours*
- EGR 250 - Intermediate Programming for Engineers 3 *credit hours*
- MAT 201 - Calculus and Analytic Geometry 3 4 *credit hours*
- MAT 212 - Differential Equations 4 *credit hours*
- PHY 213 - General Physics 3 4 *credit hours*

Diversity Requirement

All students in associate degree programs must satisfy the diversity requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement. See Diversity Requirement for a list of approved courses.

Technology Requirement

Satisfied by EGR 120

Program Outcomes

Upon successful completion of this program, students will be able to:

- Function as a productive member of an engineering design team.
- Explain the relevance of professional and ethical responsibilities for engineering practice.
- Identify, formulate, and solve engineering problems.
- Use techniques, skills, and modern engineering tools necessary for engineering practice.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Electronics Engineering Technology (A.A.S.)
- Engineering Transfer (A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Electrocardiogram and Intravenous Therapy (Ior)

Official Title of Letter of Recognition: Electrocardiogram and Intravenous Therapy, Letter of Recognition

Award: Letter of Recognition

Purpose: Prepares student for employment in physician's offices, hospitals, clinics, surgical centers, and wherever basic electrocardiogram and intravenous therapy skills are required. Persons who are already employed in health care may enroll in this program for career development.

Students completing the Electrocardiogram and Intravenous Therapy Technician Letter of Recognition from AACC are eligible to take the National Healthcareer Association Certified EKG Technician (CET) exam.

Entrance Requirements

1. Attendance at program information session is required or call **410-777-7310** for schedule. Detailed information regarding program, profession and academic requirements will be discussed.
2. 18 years of age or older.
3. Eligibility for ENG 101 /ENG 101A .

Program Requirements

All Electrocardiogram and Intravenous (ECG/IV) Therapy Technician students must receive a minimum grade of C in each ECG/IV Therapy Technician course. Students who receive a final grade below C in any ECG/IV Therapy

Technician course will be awarded a grade of F in that course. Students practice selected procedures on each other and perform manual and automated procedures in the college laboratory.

Award Requirements

Students apply to the Records and Registration office for the Letter of Recognition after they complete the program requirements.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Requirements: 6 Credits

- MDA 118 - Intravenous Therapy 3 *credit hours*
- MDA 119 - Electrocardiography and Cardiac Diagnostics 3 *credit hours*

Electrocardiogram and Intravenous Therapy Technician (certificate)

Official Title of Certificate: Electrocardiogram and Intravenous Therapy Technician, Certificate

Award: Certificate

Code: CRT.MDA.ECG-IV

Total Credit Hours: A minimum of 16

Visit www.aacc.edu to learn more about the Electrocardiogram & Intravenous Therapy Technician Certificate program

Purpose: Prepares student for employment in physician's offices, hospitals, clinics, surgical centers, and wherever basic electrocardiogram and intravenous therapy skills are required. Persons who are already employed in health care may enroll in this program for career development.

Students completing the Electrocardiogram and Intravenous Therapy Technician Certificate from AACC are eligible to take the National Healthcareer Association Certified EKG Technician (CET) exam.

Occupational Goal: Electrocardiogram and Intravenous Therapy Technician.

Additional Program Requirements

All Electrocardiogram and Intravenous (ECG/IV) Therapy Technician students must receive a minimum grade of C in each ECG/IV Therapy Technician course. Students who receive a final grade below C in any ECG/IV Therapy Technician course will be awarded a grade of F in that course. Students practice selected procedures on each other and perform manual and automated procedures in the college laboratory.

Entrance/Admission Requirements

Entrance Requirements

1. Attendance at program information session is required or call **410-777-7310** for schedule. Detailed information regarding program, profession and academic requirements will be discussed.
2. 18 years of age or older.
3. Eligibility for ENG 101 /ENG 101A.
4. Must have a minimum adjusted grade point average (GPA) of 2.0 at this college.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 16 credits

Fall Term

- MDA 110 - Professionalism in Health Care *1 credit hours*
- MDA 111 - Laws and Ethics for Health Professionals *2 credit hours*
- MDA 113 - Medical Terminology *3 credit hours*
- MDA 112 - Pharmacology for Health Professions *3 credit hours*
- ACA 100 - Student Success Seminar *1 credit hour*

Total credit hours: 10

Spring Term

- MDA 118 - Intravenous Therapy *3 credit hours*
- MDA 119 - Electrocardiography and Cardiac Diagnostics *3 credit hours*

Total credit hours: 6

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Effectively utilize medical terminology in communicating health information.
2. Describe state law related to healthcare operations.
3. Describe federal law related to healthcare operations.
4. Discuss basic concepts of ethical standards for healthcare entities.
5. Discuss strategies for infection control.
6. Describe anatomical landmarks/sites utilized for intravenous access.
7. Diagram heart anatomy.
8. Describe heart physiology related to electrical conductivity.
9. Discuss cardiac pathology.
10. Perform electrocardiogram procedures.
11. Discuss pharmacology related to body systems.
12. Describe pharmacokinetics related to body systems.
13. Identify equipment utilized in initiating and maintaining intravenous access.
14. Articulate the purpose of a halter monitor recording.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Electronics Engineering Technology (A.A.S.)

Official Title of Major: Electronics Engineering Technology, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.EGR.ELECTRONICS

Total Credit Hours: 61

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: Electronics technicians assemble, install, maintain, calibrate, and repair electronic devices and equipment. Positions available for Electronics Technology program completers are vast and wide including: defense contractors, biomedical equipment companies, electronic component assemblers, and home automation companies, to name a few.

Graduates of the program are fully-prepared to enter the workforce as an entry-level electronics technicians. Topics covered in the coursework include the fundamentals of AC and DC circuits, semiconductors, digital logic, and electronic communication circuits. Students are introduced to the topics via lecture and reinforced through hands on labs utilizing various electronic equipment necessary for the trade including: oscilloscopes, digital multi-meters, function generators and spectrum analyzers.

Range of Occupations Include:

- Electronics communications technician
- Electronics technician
- Field service technician
- Instrumentation and control technician
- Electronics assembler
- Biomedical equipment technician
- Calibration technician

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 25-26 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- COM 110 - Introduction to Interpersonal Communication 3 *credit hours*
OR
- COM 111 - Fundamentals of Oral Communication 3 *credit hours*
OR
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*
OR
- COM 141 - Group Communication and Leadership 3 *credit hours*

Biological and Physical Sciences: 4 credits

- PHY 111 - Fundamentals of Physics 1 4 *credit hours*
OR
- PHY 211 - General Physics 1 4 *credit hours*

Mathematics: 3-4 credits

- MAT 145 - Precalculus 1 3 *credit hours*
OR
- MAT 151 - Accelerated Precalculus 4 *credit hours*
OR
- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education requirements: 6 credits

- **Technical Requirement** 3 *credit hours*
 - *Must choose one from:*
 - CTA 100 - Computing and Information Technology
 - CTP 103 - Theories and Applications of Digital Technology
 - CTS 107 - Cyber Essentials
 - EGR 120 - Introduction to Engineering Design
- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirements for list of approved courses.

Program Requirements: 35-36 credits

- EET 118 - Electronic Hardware and Assembly Techniques 4 *credit hours*
- EET 130 - Introduction to Electronic Circuits 4 *credit hours*

- EET 150 - Semiconductors and Linear Circuits *4 credit hours*
- EET 231 - Digital-Electronic Circuits *4 credit hours*
- EET 255 - Metrology and Calibration *4 credit hours*
- EET 260 - Electronic Communication Systems *4 credit hours*
- EET 265 - Electronics Technician Capstone *3 credit hours*
- STM 213 - Professional Skills for STEM *1 credit hour*

Technical Electives: 7-8 credits

Students must choose Technical Electives from the list below. Students taking MAT-145 must complete 8 credits of Technical Electives. Students taking MAT-151 or MAT-191 must complete 7 credits of Technical Electives.

- CTA 105 - Theory and Troubleshooting Microcomputers 1 *3 credit hours*
 - CTA 205 - Theory and Troubleshooting Microcomputers 2 *3 credit hours*
 - CTS 110 - Network Essentials *4 credit hours*
 - EET 140 - Introduction to Telecommunications *3 credit hours*
 - EET 141 - Telecommunications Wiring Laboratory *1 credit hour*
 - EET 240 - Fiber Optic Communications *3 credit hours*
 - EET 250 - Microprocessors and Microcontrollers *4 credit hours*
 - MAT 146 - Precalculus 2 *3 credit hours*
 - MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
 - MEC 110 - Mechanical Systems *4 credit hours*
 - MEC 120 - Pneumatics and Hydraulics *4 credit hours*
 - MEC 130 - Programmable Logic Controllers *4 credit hours*
 - MEC 140 - Introduction to Robotics *4 credit hours*
 - MEC 230 - Electric Motor Fundamentals *3 credit hours*
 - PHY 112 - Fundamentals of Physics 2 *4 credit hours*
 - PHY 212 - General Physics 2 *4 credit hours*

 - ENT 241 - Computer-Aided Drafting *3 credit hours*
 - **OR**
 - ENT 260 - Solid Modeling with SolidWorks *3 credit hours*
- With approval of the engineering department chair, one technical elective may be selected from the following areas: CTP or CTS.*

Diversity Requirement

Students may satisfy the diversity requirement simultaneously as they satisfy general education requirements for arts and humanities or social and behavioral sciences. See Diversity Requirement for a list of approved courses.

Technology Requirement

Satisfied by CTA 100 or CTP 103 or CTS 107 or EGR 120.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Apply appropriate safety standards and protocols.
2. Build and analyze electronic circuits using schematic diagrams and circuit simulation software.
3. Troubleshoot electronic circuits using appropriate test equipment.
4. Perform basic soldering operations.
5. Demonstrate professional and critical thinking skills essential to workplace success.

This program aligns with all the college's core competencies.

Related Offerings

Electronics Technology (certificate)

Official Title of Certificate: Electronics Technology, Certificate

Award: Certificate

Code: CRT.EGR.ELEC-TECH

Total Credit Hours: A minimum of 22

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: This is a flexible option that offers basic competence in electronics for those who desire to enter the job market in two terms with six courses. It also provides formal recognition to those who are already working in the electronics industry and wish to upgrade their job skills. All credits earned in the option will apply toward an Electronics Option Associate of Applied Science degree.

Range of Occupations

- Electronics communications technician
- Electronics technician
- Instrumentation and control technician
- Upgraded electronic technician

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 22-23 credits

- EET 118 - Electronic Hardware and Assembly Techniques *4 credit hours*
- EET 130 - Introduction to Electronic Circuits *4 credit hours*
- EET 150 - Semiconductors and Linear Circuits *4 credit hours*
- EET 231 - Digital-Electronic Circuits *4 credit hours*

Electives (2): 6-7 credits

- MAT 145 - Precalculus 1 *3 credit hours* **OR**
- Any EET courses

Related Offerings

- Mechatronics Technology (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Elementary Education/Elementary Special Education (A.A.T.)

Official Title of Major: Elementary Education/Elementary Special Education, A.A.T.

Code: AAT.EDU.ELEM-ESE

Total Credit Hours: 63

Visit www.aacc.edu to learn more about the Teacher Education and Child Care Institute

Purpose: The Associate of Arts in Teaching (A.A.T.) degree is designed for students preparing to transfer to a four-year institution to obtain a baccalaureate degree and earn Maryland state teacher certification. The program incorporates foundation coursework in teacher education, content coursework in a selected certification area, and a field-based experience at the appropriate level of teacher certification.

This curriculum prepares students to transfer to an elementary education or generic special education program at a four-year college or university in the state of Maryland. The Associate of Arts in Teaching (A.A.T.) degree has been articulated with all of the transfer programs in elementary education and generic special education in the state of Maryland. Upon completion of the A.A.T. degree, students are eligible to be admitted as an elementary education or generic special education major at a Maryland transfer institution. The courses in this degree are not sufficient to meet all special education or inclusion course requirements for four-year teacher education programs.

Additional Degree Requirements

To earn the degree and be eligible for seamless transfer within Maryland, students must complete all required coursework and the following additional requirements:

- Students must submit either a 3.0 cumulative grade point average on a 4.0 scale; or a 2.75-2.99 cumulative grade point average on a 4.0 scale and qualifying scores on the basic skills assessment for teacher licensure as established by the State Superintendent of Schools and as approved by the State Board of Education;
- Students must complete fieldwork requirements as indicated by the Teacher Education and Child Care Institute. Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.
- Students must earn a C or better in all coursework required for the degree.

Students may be required to meet additional admittance requirements at the chosen transfer institution.

The A.A.T. degrees parallel the Maryland State Department of Education grade bands:

Early Childhood Education	PreK-grade 3
Elementary Education	Grades 1-6
Secondary Academic Areas	Grades 7-12

Entrance/Admission Requirements

Criminal Background Check

Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.
- ENG 102 - Academic Writing and Research 2 3 *credit hours*

Arts and Humanities: 6 credits

- HUM 101 - Introduction to Fine Arts *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours* **OR**
- HIS 212 - United States History Since the Civil War *3 credit hours*

Biological and Physical Sciences: 8 credits

- PHS 100 - General Physical Science *4 credit hours*
- BIO 100 - Introduction to Biology *4 credit hours*

Mathematics: 8 credits

- MAT 221 - Fundamental Concepts of Mathematics 1 *4 credit hours*
- MAT 222 - Fundamental Concepts of Mathematics 2 *4 credit hours*

Social and Behavioral Sciences: 6 credits

- PSY 111 - Introduction to Psychology *3 credit hours*
- GEO 102 - World Regional Geography *3 credit hours*

Program Requirements: 29 credits

- EDU 111 - Foundations of Education *3 credit hours*
 - EDU 133 - Growth and Development *3 credit hours*
 - EDU 135 - Children's Health, Nutrition and Safety *3 credit hours*
 - EDU 211 - Educational Psychology *3 credit hours*
 - EDU 214 - Introduction to Special Education *3 credit hours*
 - EDU 242 - Foundations of Reading and Language Arts *3 credit hours*
- OR**
- EDU 242H - Foundations of Reading and Language Arts - Honors *3 credit hours*
 - MAT 223 - Fundamental Concepts of Mathematics 3 *4 credit hours*
 - PHS 200 - Earth and Space Science *4 credit hours*
 - PLS 111 - American Government *3 credit hours*

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Satisfied by EDU 135.

Program Outcomes

Upon successful completion of this program, students will be able to:

LO 1 Learner Development

Identify and analyze the psychological, cognitive, emotional, and physical characteristics of typically developing children and adolescents, with specific consideration to disabilities and cultural and linguistic diversity.

LO 2 Learning Differences

Identify the current and inclusive philosophies for differentiating instruction to analyze, improve, and facilitate instruction for diverse learners.

LO 3 Learning Environments

Describe and model the use of learning environments that support and empower collaboration and learning through respectful, reciprocal relationships.

LO 4 Content Knowledge

Demonstrate the mastery of diverse content areas and apply developmentally appropriate approaches to enhance children's learning and development.

LO 5 Skill Development for Connections

Develop excellent written, verbal, critical thinking, and problem solving skills, which will allow the elementary educator to effectively make connections between prior knowledge/experience and new learning for their students.

LO 6 Identify Types and Purposes of Assessment

Identify types and purposes of assessment and begin to interpret student data to plan instruction.

LO 7 Professionalism

Identify and conduct themselves as elementary educators who model self-care and use reflection and ethical guidelines to advocate for sound educational practices and policies.

LO 8 Leadership

Demonstrate leadership as elementary educators who collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Early Childhood Development (A.A.S.)
- Early Childhood Education/Early Childhood Special Education (A.A.T.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Emergency Medical Technician-Paramedic (A.A.S.)

Special Admission Requirements - Rolling Admission (*admits twice a year: January & August*)

Official Title of Major: Emergency Medical Technician-Paramedic, A.A.S.

Award: Associate of Applied Science degree, A.A.S. and eligibility for the National Registry Paramedic (NRP) written and practical exams.

Code: AAS.EMT.EMT

Total Credit Hours: A minimum of 63

Visit www.aacc.edu to learn more about the Paramedic Degree Program

Purpose: Prepares students for state and national certification as a Paramedic (NRP). There is a fee for the national exam.

The AACC Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), and approved as a Maryland EMS Educational Program by the Maryland Emergency Medical Services Board (MEMSB) upon the recommendation of the Maryland Institute for Emergency Medical Services Systems (MIEMSS).

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Additional Program Requirements

Students must meet academic and admission requirements prior to admission. Students will be expected to practice certain skills on each other in the college lab. Mandatory attendance requirements apply to all classes in the EMT areas of study. A minimum grade of C is required in all EMT curriculum courses required in the program.

Range of Occupations

- Paramedic in local emergency medical services system, industry or health care setting.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

To view all entrance/admission details, please go to the Apply & Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Articulation Agreement

Students may transfer up to 60 credits to the University of Maryland Baltimore County (UMBC) Emergency Health Services curriculum and up to a maximum of 64 credits to the Towson University Allied Health program in pursuit of an advanced degree. For information call the EMT department at **410-777-7310**.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Emergency Medical Technician-Paramedic Course Sequence

All prerequisite courses require a grade of C or better.

Prerequisites: 5 credits

- ACA 100 - Student Success Seminar *1 credit hour*
OR
- ACA 110 - Achieving Success in the Online Classroom *1 credit hour*
OR evidence of completion of 27 academic credits with a cumulative GPA of 2.0
AND
- BIO 230 - Structure and Function of the Human Body *4 credit hours* **OR**
- BIO 232 - Human Biology 2 *4 credit hours* **OR**
(BIO 231 is a prerequisite for BIO 232.)
- BIO 234 - Anatomy and Physiology 2 *4 credit hours*
(BIO 101 and BIO 233 are prerequisites for BIO 234.)

General Education Requirements: 18 credits

Courses may be taken prior to, concurrently or following the Paramedic course sequence.

- COM 111 - Fundamentals of Oral Communication *3 credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers *3 credit hours* **OR**
- COM 110 - Introduction to Interpersonal Communication *3 credit hours* **OR**
- COM 141 - Group Communication and Leadership *3 credit hours*

- CTA 100 - Computing and Information Technology *3 credit hours* **OR**

- CTP 103 - Theories and Applications of Digital Technology 3 credit hours
- SOC 111 - Introduction to Sociology 3 credit hours

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours **AND**
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Mathematics: 3 credits

- MAT 135 - Statistics 3 credit hours

Program Requirements: 40 credits

All EMT courses require a grade of C or better. This course sequence meets diversity course requirements.

- EMT 115 - Introduction to Paramedic 2 credit hours
- EMT 118 - Paramedic 1 13 credit hours
- EMT 119 - Paramedic 2 13 credit hours
- EMT 215 - Paramedic 3 5 credit hours
- EMT 270 - Paramedic Capstone 7 credit hours

Diversity Requirement

Satisfied by SOC 111 or EMT sequence of courses.

Technology Requirement

Satisfied by CTA 100 or CTP 103.

Fast Track

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Define the roles and responsibilities of a paramedic within an EMS system.
2. Create, document, communicate, and apply treatment plans for patients experiencing medical emergencies and traumatic injuries.
3. Demonstrate effective team leadership in proper extrication and treatment modalities for patients experiencing medical emergencies and traumatic injuries.
4. Use a variety of advanced life support equipment to implement an appropriate prehospital treatment plan for patients experiencing medical emergencies and traumatic injuries across the age spectrum.

5. Discuss current health issues and preventative measures as they relate to self, stress management, and medicine.
6. Apply professional ethical and legal frameworks to work within the paramedic scope of practice.
7. Provide quality direct patient care for a culturally diverse group of patients.
8. Integrate pathophysiological and psychosocial principles and cultural competency to adapt the assessment and treatment plan for diverse patients facing varied challenges or situations.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

Award: Associate of Science degree, A.S.

Code: AS.EGR.EGR

Total Credit Hours: A minimum of 63

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: Offers an opportunity to complete the first two years of a four-year engineering degree. Engineers design, analyze, build, and test technological hardware, such as electronic systems and computers, automobiles and aircraft, communication equipment, roads and bridges.

This Engineering Transfer, AS, degree program should be selected by individuals who look to pursue a four-year degree in mechanical, civil, aerospace, computer, biomedical, environmental, or chemical engineering. This degree is primarily comprised of foundation courses in mathematics, physics, and chemistry. Through a selection of technical electives, this degree will become more focused in whatever engineering discipline the student chooses to pursue. Technical course requirements of transferring colleges vary so it is important to discuss course selection with an engineering transfer advisor.

Related programs offered at AACC include Electronics Engineering Technology (A.A.S.), and Mechatronics Engineering Technology (A.A.S.).

Additional Degree Requirements

To complete the program in two years it is necessary to take calculus (MAT 191) in the first term. Those not ready for calculus should take pre-calculus math (MAT 145 and MAT 146 or MAT 151), possibly in the summer before the first regular term.

Range of Occupations

- Leads to occupation of Engineering

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 38 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 3 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A or ENG 101 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

See General Education Arts and Humanities Requirements for a list of approved courses. These two courses must be from two different disciplines and have different course prefixes.

Biological and Physical Sciences: 12 credits

- CHE 111 - General Chemistry 1 4 *credit hours*
- PHY 211 - General Physics 1 4 *credit hours*
- PHY 212 - General Physics 2 4 *credit hours*

Mathematics: 8 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*

Social and Behavioral Sciences: 6 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses. These two courses must be from two different disciplines and have different course prefixes.

Additional General Education Requirements: 3 credits

- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 25 credits

- EGR 120 - Introduction to Engineering Design 3 credit hours
- MAT 201 - Calculus and Analytic Geometry 3 4 credit hours
- MAT 212 - Differential Equations 4 credit hours

Technical electives (see list below): 14 credits

Students must complete technical elective courses from the following list. At least one course must be a 200-level EGR course.

- BIO 107 - Environmental Science 4 credit hours
- CHE 112 - General Chemistry 2 4 credit hours
- CHE 134 - Chemistry Topics for Engineering 1 credit hour
- CHE 213 - Organic Chemistry 1 4 credit hours
- CHE 214 - Organic Chemistry 2 4 credit hours
- EGR 209 - Statics 3 credit hours
- EGR 211 - Mechanics of Materials 3 credit hours
- EGR 222 - Dynamics 3 credit hours
- EGR 235 - Circuit Theory 4 credit hours
- EGR 241 - Systems and Signals 4 credit hours
- EGR 244 - Digital Logic Design 4 credit hours
- EGR 250 - Intermediate Programming for Engineers 3 credit hours
- EGR 268 - Thermodynamics 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
- MAT 202 - Linear Algebra 4 credit hours
- MAT 250 - Introduction to Discrete Structures 3 credit hours
- PHY 213 - General Physics 3 4 credit hours

Diversity Requirement

Students may satisfy the diversity requirement simultaneously as they satisfy the arts and humanities, social and behavioral sciences or biological and physical sciences general education requirements. See Diversity Requirement for a list of approved courses.

Technology Requirement

Satisfied by EGR 120

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Function as a productive member of an engineering design team.
2. Explain the relevance of professional and ethical responsibilities for engineering practice.
3. Identify, formulate, and solve engineering problems.
4. Use techniques, skills, and modern engineering tools necessary for engineering practice.

Related Offerings

English - Arts and Sciences Transfer (A.A.)

Official Title of Major: Arts and Sciences Transfer - English, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ARTS-SCIENG

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the English Program

Purpose: Anne Arundel Community College's Arts and Science Transfer Degree with a concentration in English is designed to help students transfer to colleges and universities that offer a baccalaureate degree with a major in English and will transfer to all Maryland four-year public colleges. Students who study English at AACC will be challenged with taking a position and defending it with logic and reason. They will be taught to read analytically--to ask why--and to think critically and write persuasively. Since all of these skills transfer well to the job market, students who choose to pursue AACC's Arts and Sciences Transfer Degree with a concentration in English set themselves up not only for transfer to four-year schools but for eventual careers across a wide range of occupations including publishing, journalism, media, advertising, marketing, public relations, education, technical communication, government, human services, public policy, research, law, and business.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Arts and Sciences Transfer Program Core Course Requirements

The core courses for this degree are simultaneously satisfied by three of General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 credit hours
- Sophomore Literature course 3 credit hours

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics 3 credit hours
- MAT 135 - Statistics 3 credit hours
Or more advanced level if qualified from the list below:
- MAT 137 - College Algebra 3 credit hours
- MAT 145 - Precalculus 1 3 credit hours
- MAT 146 - Precalculus 2 3 credit hours
- MAT 151 - Accelerated Precalculus 4 credit hours
- MAT 191 - Calculus and Analytic Geometry 1 4 credit hours
- MAT 192 - Calculus and Analytic Geometry 2 4 credit hours
- MAT 202 - Linear Algebra 4 credit hours
- MAT 230 - Elementary Calculus (For Business and Social Sciences) 3 credit hours

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**

Students must choose one History course from the following:

- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** *3 credit hours*
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** *3 credit hours*
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration: 26 credits

Required courses: 12 credits

From the following, choose an additional four courses in addition to the Sophomore Literature Course used to satisfy the Core Course Requirement. Students should check the requirements of their transfer school before selecting the courses listed below:

- ENG 211 - World Literature 1 *3 credit hours*
- ENG 212 - World Literature 2 *3 credit hours*
- ENG 213 - British Literature 1 *3 credit hours*
- ENG 214 - British Literature 2 *3 credit hours*
- ENG 215 - Early American Literature: Colonial to 1865 *3 credit hours*
- ENG 216 - American Literature, 1865-1945: Realism to Modernism *3 credit hours*
- ENG 217 - Contemporary American Literature: 1945-present *3 credit hours*
- ENG 220 - The Bible as Literature *3 credit hours*
- ENG 221 - Introduction to Shakespeare *3 credit hours*
- ENG 222 - The American Novel *3 credit hours*
- ENG 223 - The British Novel *3 credit hours*
- ENG 224 - Modern American Poetry *3 credit hours*
- ENG 225 - African American Literature *3 credit hours*
- ENG 226 - Ethnic American Literature *3 credit hours*
- ENG 227 - Literary Nonfiction *3 credit hours*
- ENG 228 - Literature in English by Women *3 credit hours*
- ENG 235 - Modern Drama *3 credit hours*
- ENG 250 - Literature of the Chesapeake Bay *3 credit hours*

For any one course in the list above, students may substitute one course from the following:

- ENG 160 - The Art and Science of Grammar *3 credit hours*
- ENG 161 - Introduction to Linguistics *3 credit hours*
- ENG 207 - Writing for Professionals *3 credit hours*
- ENG 208 - Fundamentals of Editing *3 credit hours*

Electives: 14 credits

Students are recommended to check on transfer institution's requirements before selecting electives. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the diversity requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

The following Sophomore Literature courses satisfy the diversity requirement:

ENG 225 - African American Literature

ENG 226 - Ethnic American Literature

ENG 228 - Literature in English by Women

See Diversity Requirements for a list of approved courses.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate complex ideas and information through writing, speaking, presenting, and using technology.
2. Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
3. Explain the value of tradition, innovation, and creativity in understanding various forms of writing and communication.
4. Apply mathematical skills, critical analysis, and logical thinking to solve problems and interpret quantitative information.
5. Apply an awareness of social diversity and the ways in which cultural values are historically and socially situated.
6. Closely read, critically analyze, and interpret literary texts, with attention to language, form, convention, technique, and thematic content.
7. Analyze literature in its historical, cultural, and intellectual context.
8. Articulate the ways literature expands our understanding of abstract concepts, enduring questions, and the human experience.
9. Apply critical thinking skills, secondary source material, and methodologies appropriate to the field of literary studies.
10. Communicate reactions to and analyses of literature both orally and in writing.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Entrepreneurship (A.A.S.)

Official Title of Major: Entrepreneurship, A.A.S.

Award: Associate of Applied Sciences degree, A.A.S.

Code: AAS.ESI.ENTREP

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Entrepreneurial Studies Institute

Purpose: A degree in entrepreneurship provides you with the skills to start your own venture, work with others to identify business opportunities, join entrepreneurial ventures or work for an established organization. Entrepreneurship graduates are often in demand by growth-oriented companies wanting to incorporate entrepreneurial vision and innovation in their firms and by companies seeking individuals who have the ability to solve problems creatively and improve productivity. Regardless of size, all businesses need managers who can identify opportunities, obtain resources, plan, organize, direct and control work to accomplish business objectives.

Topics covered during coursework include entrepreneurial thinking and opportunity recognition, developing a business plan, obtaining resources, managing finances, strategic planning, selecting managers and employees, organizing and designing the business, identifying and capitalizing on international opportunities, managing technology, and successfully dealing with managerial challenges.

Range of Occupations

Graduating students may obtain employment by launching their own business venture or working for any business in any industry including: construction, architecture, child care, personal care, food services, technology, engineering, accounting, financial services and more.

Where course choices exist within this program, transfer students should consult with the department to make course choices consistent with the requirements of their intended transfer school.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 24 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

See *General Education Arts and Humanities Requirements* for a list of approved courses.

Biological and Physical Sciences: 3 credits

See *General Education Biological and Physical Sciences Requirements* for a list of approved courses.

Mathematics: 3 credits

See *General Education Mathematics Requirements* for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- ECO 116 - Inside the Global Economy 3 *credit hours*
OR
- ECO 121 - Introduction to Economics 3 *credit hours*
OR
- ECO 211 - Principles of Economics 1 3 *credit hours*
Work with your academic advisor to select an appropriate course for your transfer institution.

Additional General Education requirements: 6 credits

- **Technology Requirement** 3 *credit hours*
CTA 100 or CTP 103 are recommended. This requirement may also be met by CLEP exam.

- **Wellness Requirement** 3 credit hours

See General Education Wellness Requirement for a list of approved courses.

Program Requirements: 36 credits

- BPA 111 - Introduction to Business 3 credit hours
 - BPA 120 - Small Business Management 3 credit hours

 - BPA 127 - eMarketing 3 credit hours
 - OR**
 - ESI 104 - Entrepreneurship: Sales & Marketing for Small Business 3 credit hours
 - BPA 162 - Business Communications 3 credit hours
 - BPA 200 - Foundations of Accounting 3 credit hours
 - OR**
 - BPA 201 - Financial Accounting 3 credit hours
 - *
 - OR**
 - BPA 217 - Small Business Accounting 3 credit hours
 - BPA 275 - Internship in Business 1 3 credit hours
 - ESI 103 - Introduction to Entrepreneurship 3 credit hours
 - ESI 270 - Entrepreneurship: New Venture Planning 3 credit hours
 - LGS 250 - Legal Issues for Business 3 credit hours
 - OR**
 - LGS 253 - Business Law 1 3 credit hours
 - *
- Electives** (chose any BPA, ECO, ESI or LGS course): 9 credits
 *Courses marked with an asterisk are recommended if you plan to transfer to a business degree program at a 4-year university.

Diversity Requirement

Students may satisfy the diversity requirement simultaneously as they satisfy the arts and humanities, social and behavioral sciences, biological and physical sciences general education requirements or through ESI electives of BPA 174 or BPA 105.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track Option

This program has a *Fast Track Option* for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Identify and analyze entrepreneurial opportunity, assess and evaluate risk, and plan for small business ventures.
2. Develop a comprehensive business plan, including a marketing plan, to launch an entrepreneurial venture.
3. Compile and prepare accurate financial information for tax compliance and informed business decisions using appropriate software.
4. Use research methods and evaluation skills to enhance business decision making.
5. Apply current business concepts and laws to develop legal and ethical business practices.

This program aligns with all the college's core competencies.

Entrepreneurship (certificate)

Official Title of Certificate: Entrepreneurship, Certificate

Award: Certificate

Code: CRT.ESI.ENTREP

Total Credit Hours: 18

Visit www.aacc.edu to learn more about the Entrepreneurial Studies Institute

Purpose: A certificate in entrepreneurship provides you with the basic skills to start your own venture, work with others to identify business opportunities, join entrepreneurial ventures, or work for an established organization. Regardless of size, all businesses need managers who can identify opportunities, obtain resources, plan, organize, direct, and control work to accomplish business objectives. Topics covered during coursework include entrepreneurial thinking and opportunity recognition, developing a business plan, small business accounting, sales and marketing for small business, and legal issues.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credits

- BPA 120 - Small Business Management *3 credit hours*
(formerly listed as ESI 120)

- BPA 127 - eMarketing *3 credit hours*
or
- ESI 104 - Entrepreneurship: Sales & Marketing for Small Business *3 credit hours*

- BPA 200 - Foundations of Accounting *3 credit hours*
or
- BPA 201 - Financial Accounting *3 credit hours*
or
- BPA 217 - Small Business Accounting *3 credit hours*

- ESI 103 - Introduction to Entrepreneurship *3 credit hours*
- ESI 270 - Entrepreneurship: New Venture Planning *3 credit hours*

- LGS 250 - Legal Issues for Business *3 credit hours*
(formerly listed as ESI 250)
or
- LGS 253 - Business Law 1 *3 credit hours*

Construction Management Entrepreneurship Certificate Program

*The college also offers a **Construction Management Entrepreneurship certificate program** which prepares students to launch and operate their own ventures or to take a leadership role in an existing business or organization. For information, call **410-777-2442**.*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Use communication skills appropriate for a business environment.
2. Use research methods to support business decision making.
3. Identify and compare various forms of business ownership.
4. Construct financial statements.
5. Use financial information to make more informed business decisions.
6. Apply current business concepts and laws to ensure legal and ethical business practices.

This program aligns with the college's core competencies.

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Entrepreneurship for Licensed Professions (certificate)

This program is pending approval by the Maryland Higher Education Commission.

Title of Certificate: Entrepreneurship for Licensed Professions, Certificate

Award: Certificate

Code: Provided by Registrar

Total Credit Hours: 12

Purpose: Participants in licensed professions will be trained in the basics of entrepreneurship and business ownership. Participants will learn and apply innovative problem solving techniques which are valuable to skilled trades and licensed professionals who wish to transition from being employees to business owners.

All credits earned in the certificate are stackable and apply towards requirements of the Entrepreneurship Certificate and the Entrepreneurship AAS degree if the student decides to pursue them.

Range of Occupations

- Unlimited = depending on the vision and goals of participants

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Scholarships

Participants in this program may qualify for scholarships funded by sources other than the U.S. Department of Education. Specifically, the Entrepreneurs Scholarship funded by the Ratcliffe Foundation will support this certificate. For more information, visit <https://www.aacc.edu/about/schools-of-study/business-and-law/entrepreneurial-studies-institute/ratcliffe-scholarship/>.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101 or ENG 101A. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 12 Credits

Students must complete the four core courses in Entrepreneurial Studies to earn a certificate in Entrepreneurship for Licensed Professions.

- BPA 120 - Small Business Management *3 credit hours*
- ESI 103 - Introduction to Entrepreneurship *3 credit hours*
- ESI 104 - Entrepreneurship: Sales & Marketing for Small Business *3 credit hours*
- ESI 270 - Entrepreneurship: New Venture Planning *3 credit hours*

Program Outcomes

Upon successful completion of this course, the student will be able to:

1. Use idea generation methods to identify and analyze ideas for a business venture.
2. Design and develop a comprehensive business plan to launch an entrepreneurial venture.
3. Design and develop a marketing plan to launch an entrepreneurial venture.
4. Use research methods, financial statements, and analytical skills to enhance business management and strategic decision-making.
5. Apply current business concepts and laws to develop legal and ethical business practices.

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 35 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course *3 credit hours*
- Sophomore Literature course *3 credit hours*

Biological and Physical Sciences: 8 credits

- BIO 103 - General Botany *4 credit hours*
- BIO 107 - Environmental Science *4 credit hours*

Mathematics: 3 credits

- MAT 145 - Precalculus 1 *3 credit hours*
OR
More advanced level if qualified from the list below:
- MAT 146 - Precalculus 2 *3 credit hours*
- MAT 151 - Accelerated Precalculus *4 credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*
- MAT 202 - Linear Algebra *4 credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- SOC 111 - Introduction to Sociology *3 credit hours* **AND**

Students must choose one History course from the following:
- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 6 credits

- CTA 100 - Computing and Information Technology *3 credit hours*
If appropriate, a different CTA or CTP course that also meets the General Education Technology Requirement may be selected.

- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirement for a list of approved courses.

Area of Concentration Requirements: 25 credits

- BIO 105 - General Zoology 4 credit hours
- BIO 210 - Ecological Principles and Environmental Assessment 4 credit hours
- BIO 211 - Estuarine Biology 4 credit hours
- **OR**
- BIO 214 - Ecology 3 credit hours
- BIO 215 - Restoration Ecology 3 credit hours
- CHE 111 - General Chemistry 1 4 credit hours
- CHE 112 - General Chemistry 2 4 credit hours
- **Electives** (consult with an advisor) 2-3 credit hours

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Satisfied by CTA 100.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline-specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Astronomy - Arts and Sciences Transfer (A.S.)
- Biology - Arts and Sciences Transfer (A.S.)
- Chemistry - Arts and Sciences Transfer (A.S.)
- Earth Science - Arts and Sciences Transfer (A.S.)
- Nursing Transfer - Arts and Sciences Transfer (A.S.)

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Event Planning and Catering (certificate)

Official Title of Certificate: Event Planning and Catering, Certificate

Award: Certificate

Code: CRT.HRM.EVT-PLN-CAT

Total Credit Hours: 19

Visit www.aacc.edu to learn more about the Hotel, Culinary Arts and Tourism Institute

Purpose: For students interested in working in the event planning and catering industry or who are currently employed in the food services industry. This certificate builds toward a Hotel/Restaurant Management degree, Culinary Arts or Hospitality Business Management Option. This award is Workforce Investment Act eligible.

Range of Occupations

- Small catering business assistant manager
- Banquet assistant
- Event planner

Additional Program Requirements

Students are required to wear an approved chef uniform for production classes. See course description for specifics.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 19 credits

- HRM 111 - Introduction to the Hospitality Industry *3 credit hours*
- HRM 119 - Certification in Sanitation *1 credit hour*
- HRM 121 - Introduction to Cooking *3 credit hours*
- HRM 140 - Event Planning *3 credit hours*
- HRM 240 - Meeting and Conference Planning *3 credit hours*
- HRM 251 - Food and Beverage Operations Management *3 credit hours*
- HRM 253 - Catering Management *3 credit hours*

Program Outcomes

1. Food Safety: Apply and evaluate safe, sanitary procedures, habits, and behaviors in hotel and restaurant facilities.
2. Customer Service: Identify customer service and guest relations standards and policies that must be in place for a successful event.
3. Multicultural Perspectives: Demonstrate knowledge of multicultural perspectives to meet the needs of the guest and employees (customer service)
4. Sustainability: Use knowledge of best practices to further sustainability (economic, environmental, and cultural/social) in the event planning industry (sustainability)
5. Management: Identify and incorporate the appropriate event elements and services to meet the goals and objectives of an event.
6. Leadership and Human Relationships: Demonstrate knowledge and skills in a practical event environment.
7. Marketing: Practice effective sales techniques and procedures including marketing, public relations, and entrepreneurship (Marketing)
8. Application of skills and Major Concepts: Examine the planning, space, and equipment elements necessary to support the logistics of an event
9. Technology Integration: Integrate current industry technologies in all aspects of hospitality management (Hospitality Technology)

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 31 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
 - ENG 102 - Academic Writing and Research 2 3 credit hours
- ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.*

Arts and Humanities: 6 credits

- Communications course 3 credit hours
- Sophomore Literature course 3 credit hours

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

- Students must choose one Mathematics course from the following:
- MAT 133 - Finite Mathematics 3 credit hours

- MAT 135 - Statistics *3 credit hours*
Or more advanced level if qualified from the list below:
- MAT 137 - College Algebra *3 credit hours*
- MAT 145 - Precalculus 1 *3 credit hours*
- MAT 146 - Precalculus 2 *3 credit hours*
- MAT 151 - Accelerated Precalculus *4 credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*
- MAT 202 - Linear Algebra *4 credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**

Students must choose one History course from the following:
- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 3 credits

- **Wellness Requirement** *3 credit hours*
See General Education Wellness Requirement for a list of approved courses.

Area of Concentration 29 credits

Required Courses: 18 credits

- ART 160 - Video 1 *3 credit hours*
- ART 161 - Video Editing *3 credit hours*
- ART 180 - Introduction to Film *3 credit hours*
- ART 181 - Introduction to American Film *3 credit hours*
- ART 218 - Creative Writing: Writing for the Stage and Screen Workshop *3 credit hours*
- ART 215 - Notable Film Directors *3 credit hours*
OR
- ART 216 - Independent Film *3 credit hours*

Choose one of the following: 3 credits

- ART 121 - Black and White Photography *3 credit hours*
- ART 125 - Drawing 1 *3 credit hours*
- ART 209 - History of Western Art 1 *3 credit hours*
- ART 210 - History of Western Art 2 *3 credit hours*
- ART 212 - History of Photography *3 credit hours*

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Electives: 5 credits

Recommend students check on transfer institution's requirements. No more than 3 credits of physical activity courses may be used as elective.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate complex ideas and information through writing, speaking, presenting, and using technology.
2. Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
3. Explain the value of tradition, innovation, and creativity in understanding and participating in expression through film.
4. Apply mathematical skills, critical analysis, and logical thinking to solve problems and interpret quantitative information.
5. Discuss social diversity and the ways in which cultural values are historically and socially situated.
6. Produce and refine audio and visual components of timed media through the use of current production technology.
7. Analyze the form and content of timed media and express it in writing.
8. Discuss the aesthetic and cultural history of timed media.

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- LGS 253 - Business Law 1 3 credit hours
(formerly listed as BPA 253)
 - ECO 121 - Introduction to Economics 3 credit hours
 - **Electives** (accounting) 9 credit hours

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Diversity Requirement

SOC 111 satisfies the diversity requirement.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

- Prepare to obtain a para-professional accounting position or to advance in a current accounting career.
- Perform bookkeeping and entry-level accounting work which includes but is not limited to general ledger preparation, financial statement preparation and managerial reporting.
- Create and deliver appropriate written and oral communications required of business professionals.
- Apply technology to business situations to enhance productivity.
- Apply accounting, economic, and legal principles to business and related situations.
- Apply analytical and critical thinking skills to business situations that require accounting expertise.
- Participate in the business community as a valued individual.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Financial Accounting (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Financial Accounting (certificate)

Title of Certificate: Financial Accounting, Certificate

Award: Certificate

Code: CRT.BPA.FIN-ACCT

Total Credit Hours: A minimum of 51

Visit www.aacc.edu to learn more about the Business Administration Department

Purpose: Intended for students who already have earned a bachelor's degree or higher and who wish to complete the individual course requirements to sit for the Maryland Certified Public Accountant (CPA) exam.

CPA Exam Requirements

Those initially applying to sit for the CPA exam in Maryland must qualify by (1) holding a bachelor's degree in any discipline from an accredited college or university; (2) completing 150 credit hours; and (3) completing a minimum of 51 credit hours in accounting and related business subjects, including certain required courses.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Entrance/Admission Requirements

Entrance Requirements

Since the state requirements are subject to change and since many of the courses are offered only once each year because of limited demand, the student should meet with the chair of the business administration department before starting this study.

Certificate Requirements: 51 credits

- BPA 138 - Business and Professional Ethics *3 credit hours*
- BPA 201 - Financial Accounting *3 credit hours*
- BPA 202 - Managerial Accounting *3 credit hours*
- BPA 241 - Intermediate Accounting 1 *3 credit hours*
- BPA 242 - Intermediate Accounting 2 *3 credit hours*
- BPA 261 - Cost Accounting *3 credit hours*
- BPA 262 - Tax Accounting *3 credit hours*
* *Minimum requirement mandated by state Board of Public Accountancy; however, BPA 264 - Advanced Tax Accounting, is strongly recommended for sufficient coverage of material tested on the CPA examination.*
- BPA 263 - Auditing *3 credit hours*

Choose two of the following

Plus additional accounting electives to be approved in the future.

- BPA 217 - Small Business Accounting 3 credit hours
- BPA 245 - Advanced Accounting 3 credit hours
- BPA 264 - Advanced Tax Accounting 3 credit hours

Choose seven of the following

In at least five of the following nine (9) subjects: statistics, economics, corporation or business finance, management, business law, marketing, quantitative methods, computer science/information systems and business communication:

- BPA 125 - Marketing Principles 3 credit hours
 - BPA 142 - Principles of Management 3 credit hours
 - BPA 162 - Business Communications 3 credit hours
 - ECO 232 - Business Statistics 3 credit hours
(formerly listed as BPA 232)
- OR
- MAT 135 - Statistics 3 credit hours
 - BPA 256 - Financial Management 3 credit hours
 - ECO 211 - Principles of Economics 1 3 credit hours
 - ECO 212 - Principles of Economics 2 3 credit hours
 - ECO 233 - Data, Sampling, and Analytics 3 credit hours
 - LGS 253 - Business Law 1 3 credit hours
(formerly listed as BPA 253)
- * Minimum requirement mandated by state Board of Public Accountancy; however, LGS 254 - Business Law 2 or BPA 254 - Business Law 2, is strongly recommended for sufficient coverage of material tested on the CPA examination.*
- LGS 254 - Business Law 2 3 credit hours
(formerly listed as BPA 254)

Program Outcomes

Upon successful completion of this program, students will be able to:

- Apply appropriate accounting terminology, principles and framework to organizations.
- Organize and prepare professional accounting communications in written form.
- Solve complex accounting problems.
- Apply analytical and critical thinking skills to business decisions.
- Apply ethical reasoning to business decisions.

This program aligns with the college's core competencies.

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Apply analytical and critical thinking skills in the context of criminal, civil and administrative investigations.
2. Implement forensic laboratory techniques.
3. Apply the law in gathering, analyzing, preserving, and interpreting evidence.
4. Demonstrate ethical and professional standards of conduct and performance.
5. Integrate forensic applications with diversity issues, civil liberties, and constitutional rights.
6. Use technology and forensic analysis methods to gather, compose, appraise, and interpret evidence.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Forensic Studies - Forensic Police Science (A.A.S.)

Full-Stack Web Development (certificate)

This program is pending approval by the Maryland Higher Education Commission.

Official Title of Certificate: Full-Stack Web Development, Certificate

Award: Certificate

Code: Records will create

Total Credit Hours: 27

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Develop and apply web design, database manipulation, programming, and server-side scripting skills to create interactive websites. Learn skills needed to master both front-end and back-end technologies.

Range of Occupations

- Website application developer
- Full stack web developer
- PHP Developer
- Web Content Manager

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 27 credits

- CTP 115 - Introductory Object-Oriented Program Analysis and Design *4 credit hours*
- CTP 118 - Web Development using HTML/CSS *4 credit hours*
- CTP 135 - Programming in JavaScript and jQuery *4 credit hours*
- CTP 140 - Database Foundations, SQL/NoSql *3 credit hours*
- CTP 130 - Programming in PHP/MySQL *3 credit hours*
- CTP 236 - Advanced JavaScript *3 credit hours*
- CTP 220 - Content Management Systems *3 credit hours*
- CTP 237 - Server-Side Development *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Summarize the process of serving a webpage and how the browser renders code
2. Build front-end websites with static and dynamic Web pages
3. Create back-end server with routes to support full-stack applications
4. Implement user authentication schemes needed to incorporate different types of databases

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Fundamentals of Cooking and Baking Option (certificate)

Official Title of Certificate: Fundamentals of Cooking and Baking Option

Award: Certificate

Code: CRT.HRM.COOK-BAKING

Total Credit Hours: 19

Visit www.aacc.edu to learn more about the Hotel, Culinary Arts and Tourism Institute

Purpose: Prepares students for entry level employment in the hospitality industry such as in a restaurant, hotel or bakery. This certificate builds toward Hotel/Restaurant Management degree, in either the Baking and Pastry Arts concentration or the Culinary Arts concentration. This certificate also contains prerequisite courses for either the Culinary Arts certificate or the Baking and Pastry certificate.

Range of Occupations

- Line Cook
- Prep Cook
- Baker
- Pastry cook

Additional Program Requirements

Students are required to wear an approved chef uniform for production classes. See course description for specifics.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Requirements: 19 credits

- HRM 111 - Introduction to the Hospitality Industry *3 credit hours*
 - HRM 119 - Certification in Sanitation *1 credit hour*
 - HRM 121 - Introduction to Cooking *3 credit hours*
 - HRM 124 - Introduction to Baking and Pastry *3 credit hours*
 - HRM 190 - Food Science and Nutritional Cooking *3 credit hours*
 - HRM 251 - Food and Beverage Operations Management *3 credit hours*
 - HRM 123 - Cooking Techniques 1 *3 credit hours*
- OR**
- HRM 203 - European Pastry, Torte and Gateau *3 credit hours*

Program Outcomes

1. Introduction to the Hospitality and Baking and Pastry Industry: Develop an understanding of the hospitality industry and career opportunities in the field. Investigate trade publications and professional organizations appropriate for continuing education. Become familiar with the organizational structure and basic functions of departments within hospitality and food service establishments.
2. Food Safety: Apply and evaluate safe, sanitary procedures, habits, and behaviors in hotel and restaurant facilities.
3. Business and Math Skills: Perform mathematical functions related to food service operations.
4. Food Preparation: Develop skills in knife, tool, and equipment handling and apply principles of food preparation/basic baking of a variety of products. Operate equipment safely and correctly, to apply knowledge of laws and regulations relating to safety and sanitation.
5. Application of skills and Major Concepts: Identify and explain common hotel and restaurant management terms, procedures, policies, processes, standards, business practices, and performance calculations and formulas
6. Purchasing and Receiving: Apply concepts to lower costs and improve quality of ingredients. Reduce risk and ensure the security of supply and manage relationships with purveyors and improve quality of ingredients.
7. Nutrition: Describe the characteristics, functions, and food sources of major nutrients and how to maximize nutrient retention in food preparation and storage. Apply the principles of nutrient needs throughout the life cycle to menu planning and food preparation.
8. Customer Service: Identify customer service and guest relations standards and policies that must be in place for the successful operation of a hotel and restaurant.
9. Environmental Sustainability: Use knowledge of best practices to further sustainability (economic, environmental, and cultural/social) in the industry (sustainability)
10. Leadership and Human Relationships: Demonstrate knowledge and skills in a practical event environment.
11. Multicultural Perspectives: Demonstrate knowledge of multicultural perspectives to meet the needs of the guest and employees (customer service)

Game Art and Design - Visual Arts Transfer (A.A.)

Official Title of Major: Visual Arts Transfer - Game Art and Design, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.VSL.GAME.ART-DSGN

Total Credit Hours: 60

Visual Arts and Humanities

Purpose: Prepares students for transfer to a four year game art or game design program. After graduation from a transfer institution, students will be eligible for entry level positions in the game industry as artists and designers. It is recommended that students work closely with the game faculty to determine what specific jobs within game art and design are of particular interest, and then identify potential transfer programs that would provide the necessary training to secure an entry level job in that specific area. Students with existing degrees, wishing to focus specifically on developing game skills, or wishing to enter the game industry after completing an associate degree should also check out the Visual Arts Professional Game Development AAS area of concentration, and the Game Development Certificate. Students interested in game programming and game engineering should consider the Computer Science Transfer AS or Internet and Mobile Device Software Development AAS degrees and related certificates.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Transfer Program Core Courses

The program core for this degree consists of ART 100 (satisfied through the Arts & Humanities General Education Requirement as listed below); ART 106 (satisfied through the Technology Requirement as listed below); and ART 125 (satisfied through the additional Art Course requirement as listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 31 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- ART 100 - Two-Dimensional Design 3 credit hours
- AND**
- ART 209 - History of Western Art 1 3 credit hours
- OR**
- ART 210 - History of Western Art 2 3 credit hours

Biological and Physical Sciences: 7

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 6 credits

Must select two different disciplines. See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Wellness: 3 credits

Must select from list of approved General Education Wellness Courses.

Area of Concentration Requirements: 29 credits

Students must complete all of these courses with a grade of C or better.

Required Courses: 13 credits

- ART 155 - 2D Game Prototyping 3 credit hours
- ART 157 - 3D Game Prototyping 3 credit hours
- ART 250 - Digital Portfolio Development 1 credit hour
- ART 255 - Game Development 3 credit hours

And, choose one of the following:

- ART 154 - 3D Computer Graphics 3 credit hours
- ART 156 - 3D Game Graphics 3 credit hours
- ART 158 - Game History 3 credit hours
- ART 159 - Game Interface Design 3 credit hours
- ART 258 - Game Character Design 3 credit hours
- ART 259 - Gaming Practicum 3 credit hours

Additional Art Courses: 9 credits

- ART 125 - Drawing 1 3 credit hours

And, choose two of the following:

- ART 102 - Three-Dimensional Design 3 credit hours

- ART 103 - Color 3 credit hours
- ART 120 - Digital Photography 1 3 credit hours
- ART 121 - Black and White Photography 3 credit hours
- ART 131 - Painting 1 3 credit hours
- ART 135 - Sculpture 1: Clay Modeling and Mixed Media 3 credit hours
- ART 137 - Illustration 3 credit hours
- ART 145 - Ceramics 1 3 credit hours
- ART 160 - Video 1 3 credit hours
- ART 166 - Graphic Design 1 3 credit hours
- ART 170 - Web Design 1 3 credit hours
- ART 251 - Animation 1 3 credit hours
- ART 252 - Animation 2 3 credit hours
- ART 262 - Image & Design 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Electives: 4 credits

Recommend students check on transfer institution's requirements. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Effectively communicate visual ideas and concepts.
2. Produce game assets using industry standard hardware and software.
3. Discuss game development history, testing, and interactivity.
4. Identify game disciplines.
5. Apply the game development process.

6. Discuss historical trends as they relate to game art and design.
7. Evaluate visual objects using design and art theories and principles.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Art History and Museum Studies - Visual Arts Transfer (A.A.)
- Graphic and Web Design - Visual Arts Transfer (A.A.)
- Photography - Visual Arts Transfer (A.A.)
- Studio Arts - Visual Arts Transfer (A.A.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Game Development (certificate)

Official Title of Certificate: Game Development, Certificate

Award: Certificate

Code: CRT.ART.GAME-DEV

Total Credit Hours: 18

Visual Arts and Humanities

Purpose: The game development certificate is intended for professionals already holding a degree who wish to make a career change or update skills, or those who wish to gain skills in creating independent games. Credits earned for the certificate may be applied to the Visual Arts Professional AAS Game Development Area of Concentration. The program allows the student to choose from a range of gaming courses enabling the student to focus on his or her particular area of interest in game production. This certificate is not a substitute for a degree in game development.

Several degrees in gaming are available including Visual Arts Transfer AA Game Art and Design Area of Concentration, and the Visual Arts Professional AAS Game Development Area of Concentration. Look under ART for specific course listings.

Range of Occupations

- Independent game developer
- Game artist
- Game designer

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credits

Required Courses: 12 credits

- ART 155 - 2D Game Prototyping *3 credit hours*
- ART 157 - 3D Game Prototyping *3 credit hours*
- ART 159 - Game Interface Design *3 credit hours*
- ART 255 - Game Development *3 credit hours*

Choose two from the following: 6 credits

- ART 154 - 3D Computer Graphics *3 credit hours*
- ART 156 - 3D Game Graphics *3 credit hours*
- ART 158 - Game History *3 credit hours*
- ART 258 - Game Character Design *3 credit hours*
- ART 259 - Gaming Practicum *3 credit hours*

Program Outcomes

Upon successful completion of the Game Development Area of Concentration, students will be able to:

1. Produce and design game assets;
2. Evaluate game software and hardware;
3. Apply knowledge of game development, history, and testing in creation of game concepts and prototypes;
4. Collaborate with others professionally on game development.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Game Development - Visual Arts Professional (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Game Development - Visual Arts Professional (A.A.S.)

Official Title of Major: Visual Arts Professional - Game Development, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.VSL-P.GAME-DEV

Total Credit Hours: 60

Visual Arts and Humanities

Purpose: Designed to provide students with basic skills necessary to become independent game developers. It provides first-hand experience in designing game levels, producing original game art, and prototyping game concepts using both 2D and 3D game engines.

Students interested in working for a large AAA game company are encouraged to consider the Visual Arts Transfer AA-Game and Art Design area of concentration. The transfer degree will better prepare a student for developing a more focused set of skills necessary to get an entry-level job in this highly competitive industry, by allowing students to more easily transfer to a four year school to complete a bachelor degree. There is also a Game Development Certificate available for students who wish for a more focused study of the subject.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Professional Degree Core Courses

The following courses make up the core for the Visual Arts Professional degree programs: ART 100 (satisfied by the Arts and Humanities general education requirement listed below), ART 106, (satisfied by the Technology Requirement listed below), ART 250 and ART 275 (satisfied by the Area of Concentration requirement listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
 - ENG 102 - Academic Writing and Research 2 3 credit hours
- ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.*

Arts and Humanities: 3 credits

- ART 100 - Two-Dimensional Design 3 credit hours

Biological and Physical Sciences: 3 credits

A lab science is acceptable. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirement: 3 credits

- **Wellness Requirement** 3 credit hours

See General Education Wellness Requirements for a list of approved courses.

Area of Concentration: 39 credits

Students must complete all of these courses with a grade of C or better.

Required Courses: 19 credits

- ART 155 - 2D Game Prototyping 3 credit hours
- ART 157 - 3D Game Prototyping 3 credit hours
- ART 158 - Game History 3 credit hours
- ART 159 - Game Interface Design 3 credit hours
- ART 255 - Game Development 3 credit hours
- ART 250 - Digital Portfolio Development 1 credit hour
- ART 275 - Digital Arts Internship 3 credit hours
Students may substitute ART 259 for ART 275.

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Choose two courses from the following: 6 credits

- ART 154 - 3D Computer Graphics 3 credit hours
- ART 156 - 3D Game Graphics 3 credit hours
- ART 258 - Game Character Design 3 credit hours
- ART 259 - Gaming Practicum 3 credit hours

Art Electives: 6 credits

Choose two of the following:

- ART 103 - Color 3 credit hours
- ART 120 - Digital Photography 1 3 credit hours
- ART 121 - Black and White Photography 3 credit hours
- ART 125 - Drawing 1 3 credit hours
- ART 135 - Sculpture 1: Clay Modeling and Mixed Media 3 credit hours
- ART 137 - Illustration 3 credit hours
- ART 160 - Video 1 3 credit hours

- ART 166 - Graphic Design 1 3 credit hours
- ART 170 - Web Design 1 3 credit hours
- ART 251 - Animation 1 3 credit hours
- ART 252 - Animation 2 3 credit hours
- ART 262 - Image & Design 3 credit hours

Electives: 5 credits

No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Game Development Area of Concentration, students will be able to:

1. Produce and design game assets;
2. Evaluate game software and hardware;
3. Apply knowledge of game development, history, and testing in creation of game concepts and prototypes;
4. Collaborate with others professionally on game development.

This program aligns with the college's core competencies.

Gender and Sexuality Studies (certificate)

Official Title of Certificate: Gender and Sexuality Studies, Certificate

Award: Certificate

Code: CRT.GSS.STDS

Total Credit Hours: 15

Visit www.aacc.edu to learn more about the Gender and Sexuality Studies Program

Purpose: The certificate in Gender and Sexuality Studies is offered for students who desire concentrated study in the field of Gender and Sexuality Studies for career purposes, personal enrichment, or as a pathway to the Associate of Arts degree in Transfer Studies or a more advanced degree in Gender and Sexuality Studies.

Multidisciplinary in nature, Gender and Sexuality Studies focuses on the role of gender and sexuality in the construction of individual identities, interpersonal relationships and social institutions. Courses promote an understanding of power and privilege in a social context. Students are encouraged to develop critical thinking skills by analyzing the ways in which gender and sexuality intersect with other social variables like class, race, ethnicity and disability.

Credits earned for the certificate may be applied to the Associate of Arts degree in Transfer Studies. The certificate also enables students to prepare for employment that focuses on the role of gender and sexuality in fields such as health, law, psychology, social work, education, public policy and business, and provides a credential offering evidence of concentrated study in the field of Gender and Sexuality Studies.

Additional Program Requirements

Completion of the required courses with a grade of C or better in each course.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 15 credits

- GSS 101 - Introduction to Women's Studies *3 credit hours*
- Four additional GSS courses *12 credit hours*

Gender and Sexuality Studies - Arts and Sciences Transfer (A.A.)

Official Title of Major: Arts and Sciences - Gender and Sexuality Studies, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ARTS-SCI.GSS

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Gender and Sexuality Studies Program

Purpose: To provide concentrated study of gender and sexuality within a larger liberal arts focus. This option is suitable for students who want to pursue a profession where the demonstration of specialized training in issues related to gender and sexuality is an asset, and/or for students who intend to transfer to a 4-year institution, but who have not decided on a specific major or career path and so prefer a interdisciplinary/multidisciplinary field of study. Because Gender and Sexuality Studies courses teach widely-applicable skills like critical thinking, problem solving, understanding other viewpoints, effective communication, and ethical decision making, this option is strong preparation for many career fields and for students who plan to pursue graduate or professional school degrees. The focus on issues of equity and inclusion make this option particularly useful for those who wish to work on social justice issues.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of the General Education Requirements listed below: (1) the Communication Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*

ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course *3 credit hours*
- Sophomore Literature course *3 credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics *3 credit hours*
OR
- MAT 135 - Statistics *3 credit hours*
OR
More advanced level if qualified from the list below:
- MAT 137 - College Algebra *3 credit hours*
- MAT 145 - Precalculus 1 *3 credit hours*
- MAT 146 - Precalculus 2 *3 credit hours*
- MAT 151 - Accelerated Precalculus *4 credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*
- MAT 202 - Linear Algebra *4 credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**

Students must choose one History course from the following:

- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Courses: 6 credits

- **Technology Requirement** *3 credit hours*
See General Education Technology Requirements for a list of approved courses.
- GSS 113 - Women's Health *3 credit hours*
This course meets the Wellness Requirement.

Area of Concentration: 26 credits

Required courses: 6 credits

- GSS 101 - Introduction to Women's Studies *3 credit hours*
- **OR**
- GSS 102 - Introduction to Masculinity Studies *3 credit hours*

- GSS 212 - Introduction to Lesbian, Gay, Bisexual and Transgender Studies *3 credit hours*

Choose one course from the following: 3 credits

- GSS 169 - Music, Power and Gender *3 credit hours*
- GSS 210 - Images of Women *3 credit hours*
- GSS 211 - Gender and Mass Media in the United States *3 credit hours*
- GSS 228 - Literature in English by Women *3 credit hours*

Choose one course from the following: 3 credits

- GSS 213 - Marriage and the Family *3 credit hours*
- GSS 215 - Psychology of Relationships *3 credit hours*
- GSS 216 - Human Sexuality *3 credit hours*
- GSS 221 - Psychology of Men *3 credit hours*
- GSS 222 - Psychology of Women *3 credit hours*
- GSS 223 - Philosophy and Gender *3 credit hours*

GSS Electives: 6 credits

Students should check with GSS Coordinator to determine which course is most appropriate depending on the student's chosen transfer institution.

Electives: 8 credits

Students should check with GSS Coordinator to determine which course is most appropriate depending on the student's chosen transfer institution. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

Satisfied by GSS 101 or GSS 102.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Satisfied by GSS 113.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate complex ideas and information through writing, speaking, presenting, and using technology.
2. Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
3. Apply mathematical skills, critical analysis, and logical thinking to solve problems and interpret quantitative information.
4. Explain the significance of social diversity and the ways in which cultural values are historically and socially situated.
5. Explain the ways in which gender and sexuality intersect with race, ethnicity, class, dis/ability, religion, and other variables of identity.
6. Apply the concepts of structural inequality, power, privilege, and oppression to explain difference.
7. Explain the role of gender and sexuality in the construction of individual identities, interpersonal relationships, and social institutions.

Related Offerings

Graphic and Web Design - Visual Arts Transfer (A.A.)

Official Title of Major: Visual Arts Transfer - Graphic and Web Design, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.VSL.GRPH-WEB

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Visual Arts and Humanities Department

Purpose: Prepares students for transfer to a four-year web or graphic design program at a traditional or art school. After graduation from a transfer institution, students will be eligible for an entry level position in the web or graphic design industry. Students should work closely with the Graphic Design and Web Design faculty to identify potential transfer schools. Students who already have a degree, wish to get a job after completion of only an associate degree, or wish to focus on just visual design, should check out the Visual Arts Professional A.A.S. Graphic Design, and Visual Arts Web Design Area of Concentrations and Certificates.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Transfer Degree Program Requirements

The program core for this degree consists of ART 100 (satisfied through the Arts & Humanities General Education Requirement as listed below); ART 106 (satisfied through the Technology Requirement as listed below); and ART 125 (satisfied through the area of concentration requirement as listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 31 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- ART 100 - Two-Dimensional Design 3 *credit hours*
- ART 209 - History of Western Art 1 3 *credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 6 credits

Must select two different disciplines. See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Wellness: 3 credits

Must select from list of approved General Education Wellness Courses.

Area of Concentration: 29 credits

Required Courses: 13 credits

- ART 120 - Digital Photography 1 3 credit hours
- ART 125 - Drawing 1 3 credit hours
- ART 210 - History of Western Art 2 3 credit hours

- ART 166 - Graphic Design 1 3 credit hours
OR
- ART 170 - Web Design 1 3 credit hours

- ART 230 - Art Portfolio Development 1 credit hour
OR
- ART 250 - Digital Portfolio Development 1 credit hour
Please see department chair for ART 230 or ART 250 class recommendation.

Choose three courses from the following: 9 credits

Students transferring to UMBC should consider ART 160 as an elective.

- ART 102 - Three-Dimensional Design 3 credit hours
- ART 103 - Color 3 credit hours
- ART 121 - Black and White Photography 3 credit hours
- ART 137 - Illustration 3 credit hours
- ART 160 - Video 1 3 credit hours
- ART 161 - Video Editing 3 credit hours
- ART 166 - Graphic Design 1 3 credit hours
- ART 170 - Web Design 1 3 credit hours
- ART 200 - Drawing 2 3 credit hours
- ART 236 - Digital Photography 2 3 credit hours
- ART 264 - Fundamentals of Typography 3 credit hours
- ART 266 - Graphic Design 2 3 credit hours
- ART 269 - Responsive Web Design 3 credit hours
- ART 270 - Web Design 2 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Electives: 4 credits

Recommend students check on transfer institution's requirements. No more than 3 credit hours of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Visual Arts Transfer - Graphic & Web Concentration, students will be able to:

1. Apply elements and principles of design to the creation of original design and art projects.
2. Use a variety of media to solve design problems.
3. Examine both personal and client points of view in digital and print designs.
4. Effectively use industry standard technologies to express visual ideas.
5. Evaluate and apply the primary historical periods and cultural trends in art and design.
6. Develop a portfolio of design work that demonstrates quality in concept, vision, and execution.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Art History and Museum Studies - Visual Arts Transfer (A.A.)
- Game Art and Design - Visual Arts Transfer (A.A.)
- Photography - Visual Arts Transfer (A.A.)
- Studio Arts - Visual Arts Transfer (A.A.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Graphic Design (certificate)

Title of Certificate: Graphic Design, Certificate

Award: Certificate

Code: CRT.ART.GRPH-DSGN

Total Credit Hours: 25

Visual Arts and Humanities

Purpose: The graphic design certificate is intended for professionals already holding a degree who wish to make a career change or update skills in the graphic design industry. Credits earned for the certificate may be applied to the Visual Arts Professional AAS Graphic Design Area of Concentration. The program provides an introduction to the design process from concept to completion. This certificate is not a substitute for a degree in graphic design.

Range of Occupations

- Entry-level graphic designer
- Freelance graphic designer
- Graphic artist
- Junior print designer
- Junior graphic designer

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 25 credits

- ART 100 - Two-Dimensional Design *3 credit hours*
- ART 106 - Introduction to Digital Design *3 credit hours*
- ART 262 - Image & Design *3 credit hours*
- ART 120 - Digital Photography 1 *3 credit hours*
- ART 166 - Graphic Design 1 *3 credit hours*
- ART 170 - Web Design 1 *3 credit hours*
- ART 250 - Digital Portfolio Development *1 credit hour*
- ART 264 - Fundamentals of Typography *3 credit hours*
- ART 266 - Graphic Design 2 *3 credit hours*

Program Outcomes

Upon successful completion of the Graphic Design Area of Concentration, students will be able to:

1. Apply elements and principles of design to the creation of original design and art projects
2. Apply conceptual and production techniques in the creation of a wide variety of design projects
3. Use industry tools to solve design problems on a personal and client level
4. Analyze primary historical periods and cultural trends in art and graphic design
5. Develop a professional portfolio of work that demonstrates knowledge of type, color, form and layout

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Graphic Design - Visual Arts Professional (A.A.S.)
- Media Production (certificate)
- Photography (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Graphic Design - Visual Arts Professional (A.A.S.)

Official Title of Major: Visual Arts Professional - Graphic Design, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.VSL-P.GRPH-DSGN

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Visual Arts and Humanities Department

Purpose: Prepares students for an internship or entry-level position in the field of graphic design and enhances knowledge and skills of those already working in the industry. This concentration may also allow professionals in a related industry to make a career change or supplement an existing degree.

Students will develop fundamental skills in graphic design, including drawing, typography, digital imaging, photography and page design and layout. Students will gain professional experience while working on client-based projects and completing a graphic design internship.

This is not intended as a transfer degree. Students who wish to obtain a bachelor's degree in Graphic Design should consider the Graphic and Web Design - Visual Arts Transfer (A.A.). There is also a Graphic Design (certificate) for those who wish for a more focused course of study.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Professional Degree Core Courses

The following courses make up the core for the Visual Arts Professional degree programs: ART 100 (satisfied by the Arts and Humanities general education requirement listed below), ART 106, (satisfied by the Technology Requirement listed below), ART 250 and ART 275 (satisfied by the Area of Concentration requirement listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- ART 100 - Two-Dimensional Design 3 credit hours

Biological and Physical Sciences: 3 credits

A lab science is acceptable. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirement: 3 credits

- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration: 39 credits

Required Courses: 25 credits

- ART 120 - Digital Photography 1 3 credit hours
- ART 125 - Drawing 1 3 credit hours
- ART 166 - Graphic Design 1 3 credit hours
- ART 170 - Web Design 1 3 credit hours
- ART 262 - Image & Design 3 credit hours
- ART 264 - Fundamentals of Typography 3 credit hours

- ART 266 - Graphic Design 2 3 credit hours
- ART 250 - Digital Portfolio Development 1 credit hour
- ART 275 - Digital Arts Internship 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Choose two courses from the following: 6 credits

- ART 103 - Color 3 credit hours
- ART 137 - Illustration 3 credit hours
- ART 161 - Video Editing 3 credit hours
- ART 236 - Digital Photography 2 3 credit hours
- ART 246 - Screen Printing 3 credit hours
- ART 268 - User Experience Design for the Web 3 credit hours
- ART 269 - Responsive Web Design 3 credit hours
- ART 270 - Web Design 2 3 credit hours
- BPA 127 - eMarketing 3 credit hours
- ESI 103 - Introduction to Entrepreneurship 3 credit hours

Electives: 5 credits

No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Graphic Design Area of Concentration, students will be able to:

1. Incorporate knowledge of design history into original design work;
2. Apply conceptual techniques (sketching, storyboarding, etc.) as a preliminary process in the design of original work;
3. Utilize principles and elements of design to respond to specific graphic design problems;
4. Use mainstream technological tools to solve design problems and communicate complex information in a clear and creative format;

5. Apply knowledge of production processes in the creation of a wide variety of design projects;
6. Apply knowledge of typography, color, form, and layout, and apply this knowledge in a variety of design projects;
7. Collaborate with local businesses, organizations, and non-profits to produce real-world, portfolio-ready design projects;
8. Discuss primary historical periods and cultural trends in art and graphic design;
9. Develop a professional portfolio of work, suitable to present at interviews for both transfer and job-related activities;
10. Communicate with design instructors, peers and clients about select design projects.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Media Production - Visual Arts Professional (A.A.S.)
- Web Design - Visual Arts Professional (A.A.S.)

- Graphic Design (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Histotechnician (A.A.S.)

Title of Major: Histotechnician, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.HTC.HISTOTECH

Total Credit Hours: 60

Purpose: Prepares the student for employment as a histotechnician to meet the current and the increasing demands for histotechnicians in hospitals and clinical settings. Histotechnicians are members of the laboratory team who prepare specimens for research or medical diagnosis by pathologists. Histotechnicians work with fragile, delicate tissue specimens, laboratory instruments, knives, chemicals and glass slides, all of which require mastery of skills and competency.

Range of Occupations

- Histotechnician

Additional Program Requirements

A grade of C or better in each histotechnician and general education course is required to progress in the program. Students will be assessed on performing laboratory skills and procedures. Students must successfully complete two clinical courses designed for practical experience in a laboratory/clinical setting.

Entrance/Admission Requirements

1. Attendance at a program information session or call **410-777-7310** for schedule. You may also view the online information session. Detailed information regarding program, profession, admission and academic requirements and selection criteria will be discussed.
2. Submit a completed program application by the application deadline.
3. Eligibility for ENG 101 / ENG 101A .
4. Eligibility for MAT 137 .
5. Must have a minimum adjusted grade point average (GPA) of 2.0 at this college.
6. Foreign educated students: must have their college and high school transcripts evaluated by one of the following credential evaluators: ECE (Educational Credential Evaluators) at www.ece.org, WES (World Education Services) at www.wes.org, SpanTran: The Evaluation Company at www.spantran.com.
7. Foreign educated students: must successfully pass the TOEFL (Test of English as a Foreign Language) with a minimum score of 550 (213 is the equivalent computer score and 79 is the equivalent Internet based score) OR must have completed the ENG 101/ENG 101A and ENG 102 course sequence with grades of C or better prior to applying to the Medical Laboratory Technician program. Anne Arundel Community College's code for TOEFL is 5019.

Selection Criteria

Students will be admitted to the Histotechnician course sequence each fall as the number of students permit. Applications received by deadline will be assured consideration based on space availability. Applications received after the deadline will be considered on a space-available basis. Applications will be available on the college website after Dec. 1 for fall. To be considered for conditional acceptance, applicants must meet the following criteria:

- Must satisfactorily complete all academic and admission requirements.
- Final acceptance into the program shall be contingent upon satisfactory completion of a criminal background check, health examination record, and submission of current American Heart Association Basic Life Support (BLS) CPR certification card. Information and deadline for completion will be sent in applicant's conditional acceptance packet. These are **not** to be completed prior to acceptance notification.

Technical Standards

Students who are conditionally accepted to this program of study will be required to submit a health examination record completed by a physician, nurse practitioner or physician assistant validating that the student meets the technical standard of good physical and mental health as established by the School of Health Sciences, and verifying that the student is free of communicable diseases as evidenced by required immunizations/titers.

CPR

Students must successfully complete the American Heart Association Basic Life Support (BLS) CPR course by designated deadline.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see the Health Sciences section of this catalog.

Enrollment Restrictions

Limitations of hospital, clinical or laboratory facilities necessitate certain enrollment restrictions.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

First Year - Term 1

- BIO 230 - Structure and Function of the Human Body *4 credit hours*
- HTC 100 - Introduction to Histology Safety and Techniques *4 credit hours* Credits / Units: 4 credit hours
- MAT 137 - College Algebra *3 credit hours*

English Composition: 3 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Total credit hours: 14

First Year - Term 2

- CHE 111 - General Chemistry 1 *4 credit hours*
- HTC 101 - Basic Histotechnology *4 credit hours* Credits / Units: 4 credit hours
- MAT 135 - Statistics *3 credit hours*
- MDA 110 - Professionalism in Health Care *1 credit hours*

English Composition: 3 credits

- ENG 102 - Academic Writing and Research 2 *3 credit hours*

Total credit hours: 15

Second Year - Term 1

- COM 111 - Fundamentals of Oral Communication *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours*
- HTC 201 - Advanced Histotechnology *4 credit hours* Credits / Units: 4 credit hours
- HTC 204 - Genetics, Microbiology and Pathogenic Diseases of the Body *3 credit hours*
- PSY 111 - Introduction to Psychology *3 credit hours*

Total credit hours: 16

Second Year - Term 2

- HEA 111 - Personal and Community Health *3 credit hours*
- HTC 202 - Histotechnology Laboratory Clinical 1 *3 credit hours* Credits / Units: 3 credit hours
- HTC 203 - Histotechnology Laboratory Clinical 2 *3 credit hours* Credits / Units: 3 credit hours

- HTC 205 - Histotechnology Review *3 credit hours* Credits / Units: 3 credit hours
- SOC 111 - Introduction to Sociology *3 credit hours*

Total credit hours: 15

Diversity Requirement

Satisfied by SOC 111

Technology Requirement

Satisfied by CTA 100

Wellness Requirement

Satisfied by HEA 111

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Utilize technical, critical thinking, and problem-solving skills in their didactic and clinical experiences in the histotechnician program.
2. Recognize factors that affect procedures and results, and take appropriate action within predetermined limits when corrections are indicated.
3. Recognize the responsibilities of other laboratory and healthcare professionals and interacting with them with respect for their jobs and patient care.
4. Recognize and act upon individual needs for continuing education as a function of growth and maintenance of professional competence.
5. Exercise principles of management, safety, and supervision, as the primary analyst making specimen-oriented decisions on predetermined criteria, including a working knowledge of criteria values related to specimen processing, information processing, training, and quality control monitoring.
6. Apply ethical values and appropriate legal standards in histotechnology laboratory practice.
7. Promote advocacy of the profession through affiliations with professional organizations, marketing of professional skills, and by becoming vital members of the health care delivery system.
8. Apply knowledge of cultural and socioeconomic differences to the practice of histotechnology.
9. Participate in continuing education and the development of new knowledge and skills.
10. Obtain eligibility to sit for national certification as a histotechnician offered by the American Society for Clinical Pathology Board of Certification.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Homeland Security Management - Homeland Security Management (A.A.S.)

Official Title of Major: Homeland Security Management, A.A.S.

Type of Award: Associate of Applied Science degree, A.A.S.

Code: AAS.HLS.HMLD.SEC-MGT

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

Purpose: In the aftermath of the September 11, 2001, terrorist attacks, the Office of Homeland Security was created to strategically coordinate government agencies in order to better forecast, prevent, and defend against future terrorist threats. Six key operational areas are now the focus of Homeland Security: intelligence and warning, border and transportation security, domestic counterterrorism, protecting critical infrastructure, defending against catastrophic threats, and emergency preparedness and response.

The Homeland Security Management area of concentration prepares students for careers in the homeland security industry. Students will examine a span of local, national, and international issues and operations from terrorism to disaster planning and response.

Range of Occupations

- U.S. Secret Service
- Transportation Security officer
- Customs and Border Patrol officer
- Federal Law Enforcement officer
- Emergency Management specialist
- Immigration Services officer

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 24 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement

Arts and Humanities: 3 credits

- AMS 100 - Introduction to American Studies 3 credit hours

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- GEO 102 - World Regional Geography 3 credit hours

Additional General Education Requirements: 6 credits

- **Technology Requirement** 3 credit hours

CTP 103 is recommended. This requirement may also be satisfied by CLEP exam. See General Education Technology Requirements for list of additional approved courses.

- **Wellness Requirement** 3 credit hours

EMT 104 - Emergency Medical Care, CPR & AED 3 credit hours

OR

HEA 150 - Advanced First Aid, CPR and AED 3 credit hours

These courses satisfy the General Education Wellness Requirement.

Program Requirements: 18 credits

- CJS 260 - Terrorism/Counterterrorism 3 credit hours
(formerly listed as HLS 260)
- HLS 111 - Introduction to Homeland Security 3 credit hours
- HLS 112 - National Security Law 3 credit hours
- HLS 212 - Survey of Weapons of Mass Destruction 3 credit hours
- HLS 213 - Transportation and Border Security 3 credit hours
- SOC 111 - Introduction to Sociology 3 credit hours

Area of Concentration Requirements: 18 credits

- CJS 206 - Cybercrime 3 credit hours

- ECO 116 - Inside the Global Economy *3 credit hours*
- HLS 114 - Maryland and Terrorism *3 credit hours*
- HLS 211 - Intelligence Analysis and Security Management *3 credit hours*
- HLS 265 - Homeland Security, Emergency Management and Response Seminar *3 credit hours*
- **Elective** (consult with an advisor) *3 credit hours*

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Students must satisfy the Technology Requirement. Can be satisfied by CTP 103 (recommended) or by CLEP exam.

Wellness Requirement

Satisfied by EMT 104 or HEA 150.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Differentiate between ethical and unethical actions regarding homeland security practices.
2. Demonstrate effective verbal communications skills.
3. Identify ethnic, cultural, national, religious, and political ideologies.
4. Examine and interpret forensic evidence to reconstruct terrorist events.
5. Outline the myriad weapons of mass destruction/disruption, as well as critical land and water vulnerabilities.
6. Develop strategies to generate intelligence.
7. Apply key principles in border control and transportation security to solve problems related to homeland security.
8. Write clear, concise, and accurate reports.

This program aligns with all the college's core competencies.

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- AMS 100 - Introduction to American Studies 3 *credit hours*

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- GEO 102 - World Regional Geography 3 *credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** 3 *credit hours*

CTP 103 is recommended. This requirement may also be satisfied by CLEP exam. See General Education Technology Requirements for list of additional approved courses.

- **Wellness Requirement** 3 *credit hours*

EMT 104 - Emergency Medical Care, CPR & AED 3 *credit hours*

OR

HEA 150 - Advanced First Aid, CPR and AED 3 *credit hours*

These courses meet the General Education Wellness Requirement

Program Requirements: 18 credits

- CJS 260 - Terrorism/Counterterrorism 3 *credit hours*
- HLS 111 - Introduction to Homeland Security 3 *credit hours*
- HLS 112 - National Security Law 3 *credit hours*
- HLS 212 - Survey of Weapons of Mass Destruction 3 *credit hours*

- HLS 213 - Transportation and Border Security *3 credit hours*
- SOC 111 - Introduction to Sociology *3 credit hours*

Area of Concentration Requirements: 18 credits

- CJS 206 - Cybercrime *3 credit hours*
- HLS 211 - Intelligence Analysis and Security Management *3 credit hours*
- **OR**
- HLS 220 - Intelligence and U.S. National Security *3 credit hours*
- HLS 225 - Introduction to Intelligence Analytics *3 credit hours*
- HLS 230 - Intelligence Support to the Policy Maker and Military *3 credit hours*
- HLS 240 - National Security Challenges of the 21st Century *3 credit hours*
- **Elective (consult with an advisor) 3 credit hours**

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Students must satisfy the Technology Requirement. Can be satisfied by CTP 103 (recommended) or by CLEP exam.

Wellness Requirement

Satisfied by EMT 104 or HEA 150.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Differentiate between ethical and unethical actions regarding homeland security practices.
2. Demonstrate effective verbal communications skills.
3. Identify ethnic, cultural, national, religious, and political ideologies.
4. Examine and interpret forensic evidence to reconstruct terrorist events.
5. Outline the myriad weapons of mass destruction/disruption, as well as critical land and water vulnerabilities.
6. Develop strategies to generate intelligence.
7. Apply key principles in border control and transportation security to solve problems related to homeland security.
8. Write clear, concise, and accurate reports.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Homeland Security Management - Homeland Security Management (A.A.S.)
- Homeland Security Management - Transportation and Border Security (A.A.S.)

Homeland Security Management - Transportation and Border Security (A.A.S.)

Official Title of Major: Homeland Security Management - Transportation and Border Security, A.A.S.

Award: Associate of Applied Science, A.A.S.

Code: AAS.HLS.TPT-BDR-SEC

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

Purpose: In the aftermath of the September 11, 2001, terrorist attacks, the Office of Homeland Security was created to strategically coordinate government agencies in order to better forecast, prevent, and defend against future terrorist threats. Six key operational areas are now the focus of Homeland Security: intelligence and warning, border and transportation security, domestic counterterrorism, protecting critical infrastructure, defending against catastrophic threats, and emergency preparedness and response.

The Transportation and Border Security area of concentration provides students with concepts and practices in local, state, federal and international law enforcement specifically related to securing and defending land and water boundaries in the U.S. against terrorist and criminal activities and other natural disasters.

Range of Occupations

- Port Security personnel
- Transportation Security Administration officers
- U.S. Immigration and Customs Enforcement personnel
- U.S. Customs and Border Protection personnel

Hospitality Management (certificate)

Official Title of Certificate: Hospitality Management, Certificate

Award: Certificate

Code: CRT.HRM.HSP.MGMT

Total Credit Hours: 18

Visit www.aacc.edu to learn more about the Hotel, Culinary Arts and Tourism Institute

Purpose: Prepares students for entry-level supervisory positions in the hospitality industry or for specialized industry management training programs in the lodging industry. An overview of lodging departments, technology, as well as management functions is included. A range of specialty courses provide knowledge in entry level positions across the hospitality industry.

Range of Occupations

- Assistant purchasing manager
- Concierge
- Food and beverage shift supervisor
- Front desk agent
- Front desk supervisor
- Guest service agent
- Sales coordinator
- Restaurant Manager

Additional Requirements for this Program

Demonstrated eligibility for ENG 101/ENG 101A and MAT 100.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credits

- BPA 171 - Principles of Supervision *3 credit hours*
- BPA 125 - Marketing Principles *3 credit hours*
or
- BPA 127 - eMarketing *3 credit hours*
- HRM 232 - World Culture and Cuisine: A Social Science Perspective *3 credit hours*
- HRM 256 - Hotel Property Management *3 credit hours*
- HRM 260 - Purchasing and Cost Controls *3 credit hours*
- HRM 275 - Internship in Hotel/ Restaurant Management *3 credit hours*

Program Outcomes

1. **Food Safety:** Apply and evaluate safe, sanitary procedures, habits, and behaviors in hotel and restaurant facilities.
2. **Customer Service:** Identify customer service and guest relations standards and policies that must be in place for the successful operation of a hotel and restaurant.
3. **Multicultural Perspectives:** Demonstrate knowledge of multicultural perspectives to meet the needs of the guest and employees (customer service)
4. **Sustainability:** Use knowledge of best practices to further sustainability (economic, environmental, and cultural/social) in the industry (sustainability)
5. **Management:** Identify and define important concepts related to the successful management and operation of hotels and restaurants.
6. **Leadership and Human Relationships:** Identify and incorporate the appropriate event elements and services to meet the goals and objectives of an event.
7. **Marketing:** Practice effective sales techniques and procedures including marketing, public relations, and entrepreneurship (Marketing)
8. **Application of Skills and Major Concepts:** Identify and explain common hotel and restaurant management terms, procedures, policies, processes, standards, business practices, and performance calculations and formulas
9. **Technology Integration:** Integrate current industry technologies in all aspects of hospitality management (Hospitality Technology)

Career and Educational Advancement Resources

Hotel/Restaurant Management - Culinary Arts, Baking & Pastry, Hospitality Management (A.A.S.)

Total Credit Hours: Minimum of 61

Visit www.aacc.edu to learn more about the Hotel, Culinary Arts and Tourism Institute

Accreditation: The Hotel/Restaurant Management Culinary Arts Concentration Associate of Applied Science degree and the Hotel/Restaurant Management Baking and Pastry Arts Concentration Associate of Applied Science degree is accredited by the American Culinary Federation Education Foundation Accrediting Commission (ACFEFAC). The Hotel/Restaurant Management Hospitality Management Concentration Associate of Applied Science degree is accredited by the Accrediting Commission for Programs in Hospitality Administration (ACPHA).

Purpose: Prepares students for entry-level supervisory positions in the hospitality industry or for specialized industry management training programs. An internship course and a range of hotel and restaurant operation management courses provide students with the opportunity to gain knowledge and specialty experience in restaurants, hotels, health care facilities or meeting and conference planning.

Uniform: Students are required to wear an approved chef uniform for production classes. See course description for specifics.

Areas of Concentration: This degree requires that students choose a concentration in one of three areas. A concentration is a structured plan of study within a degree program. The number of credit hours and particular course requirements for a concentration may vary, as listed below. To achieve a concentration, students must receive credit for every course requirement listed under that concentration.

Three Areas of Concentration

1. Hotel/Restaurant Management - Culinary Arts (AAS.HRM.CULINARY-A): The Culinary Arts area of concentration prepares students for employment in the hospitality industry with essential skills and content in culinary operations. The student will learn to use that knowledge as it relates to operating a successful and profitable business. The Culinary Arts area of concentration requires 18 credit hours within the chosen concentration.

Range of Occupations

- Cook, Pastry Cook
- Manager-in-training
 - Catering and sales
 - Food and beverage
 - Food service manager in assisted living facility or nursing home
 - Bakery
 - Kitchen
 - Restaurant
 - Hotel

2. Hotel/Restaurant Management - Baking and Pastry Arts (AAS.HRM.BAK-PASTRY): The Baking and Pastry Arts area of concentration prepares students for employment in the hospitality industry with essential skills and content in baking and pastry operations. The student will learn to use that knowledge as it relates to operating a successful and profitable business. The Baking and Pastry Arts area of concentration requires 18 credit hours within the chosen concentration.

Range of Occupations

- Pastry Cook
- Manager-in-training
 - Catering and sales
 - Food and beverage
 - Food service manager in assisted living facility or nursing home
 - Bakery
 - Kitchen
 - Restaurant
 - Hotel

3. Hotel/Restaurant Management - Hospitality Management (AAS.HRM.HOSPITALITY): The Hospitality Management area of concentration prepares students for employment in the hospitality industry with essential skills and content in hospitality operations. This concentration will integrate major business segments of the hospitality industry. This area of concentration offers the student essential courses both in hotel and food and beverage operations

management. The Hospitality Management area of concentration requires 18 credit hours within the chosen concentration.

Range of Occupations

- Hotel/Restaurant Operations
- Manager-in-training
 - Catering and sales
 - Food and beverage
 - Food service manager in assisted living facility or nursing home
 - Restaurant
 - Hotel

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- COM 111 - Fundamentals of Oral Communication *3 credit hours* **OR**

- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 credit hours

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Technology: 3 credits

- CTA 100 - Computing and Information Technology 3 credit hours

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- HRM 232 - World Culture and Cuisine: A Social Science Perspective 3 credit hours

Program Requirements: 16 credits

These are common program requirements for all three areas of concentration.

- HRM 111 - Introduction to the Hospitality Industry 3 credit hours
- HRM 119 - Certification in Sanitation 1 credit hour
- HRM 121 - Introduction to Cooking 3 credit hours
- HRM 251 - Food and Beverage Operations Management 3 credit hours
- HRM 260 - Purchasing and Cost Controls 3 credit hours
- HRM 275 - Internship in Hotel/ Restaurant Management 3 credit hours

Students must select one Area of Concentration in Culinary Arts, Baking and Pastry Arts or Hospitality Business Management as specified below: 24 credits

Culinary Arts Area of Concentration Requirements: 24 credits

Degree Awarded: Hotel and Restaurant Management - Culinary Arts

- HRM 123 - Cooking Techniques 1 3 credit hours
- HRM 124 - Introduction to Baking and Pastry 3 credit hours
- HRM 190 - Food Science and Nutritional Cooking 3 credit hours
- HRM 205 - Cooking Techniques 2 3 credit hours
- HRM 220 - Garde Manger 3 credit hours
- HRM 223 - International Cuisine 3 credit hours
- HRM 225 - Restaurant Production and Simulation 3 credit hours
- **HRM Elective** 3 credit hours

Baking and Pastry Arts Area of Concentration Requirements: 24 credits

Degree Awarded: Hotel and Restaurant Management - Baking and Pastry Arts

- HRM 124 - Introduction to Baking and Pastry *3 credit hours*
- HRM 190 - Food Science and Nutritional Cooking *3 credit hours*
- HRM 201 - Intermediate Bread Production *3 credit hours*
- HRM 202 - Intermediate Cake Production *3 credit hours*
- HRM 203 - European Pastry, Torte and Gateau *3 credit hours*
- HRM 226 - Advanced Pastry Production *3 credit hours*
- HRM 227 - Chocolates, Confections, and Entremet *3 credit hours*
- **HRM Elective** *3 credit hours*

Hospitality Management Area of Concentration Requirements: 24 credits

Degree Awarded: Hotel and Restaurant Management - Hospitality Management

- BPA 171 - Principles of Supervision *3 credit hours*
- BPA 125 - Marketing Principles *3 credit hours*
- **OR**
- BPA 127 - eMarketing *3 credit hours*
- HRM 140 - Event Planning *3 credit hours*
- HRM 240 - Meeting and Conference Planning *3 credit hours*
- HRM 253 - Catering Management *3 credit hours*
- HRM 256 - Hotel Property Management *3 credit hours*
- **HRM or ESI Elective** *3 credit hours*
- **Wellness requirement** *3 credit hours*
This area of concentration requires a general education wellness course.

Diversity Requirement

Satisfied by HRM 232.

Technology Requirement

Satisfied by CTA 100.

Wellness Requirement

Wellness Requirement satisfied throughout the program by the combination of HRM 119, HRM 190 and HRM 232 or General Education Wellness Requirement course.

Program Outcomes

Upon successful completion of this program, students will be able to:

- **PROFESSIONALISM:** Apply personal skills, including, but not limited to, adherence to accepted professional standards and codes of conduct. Apply hospitality and culinary terminology.
- **SERVICE:** Analyze methods of service and management principles for all hospitality operations.
- **TECHNOLOGY:** Use computer technology appropriately in hospitality and culinary operations. Apply technology to hospitality and culinary operations.

- **INCLUSIVENESS:** Explain the dynamics of the changing global business environment. Discuss food and dietary issues from cultural, religious, historical and geographical perspectives.
- **SAFETY & SANITATION:** Operate commercial kitchen equipment in a safe and efficient manner. Apply proper cooking and sanitation techniques. Obtain ServSafe® Sanitation Certificate.
- **LEADERSHIP:** Develop and meet the highest standards of professional competence, ethical behavior, technical excellence, and decision making.
- **MARKETING:** Examine strategies to serve the current needs of the hospitality industry. Discuss contemporary hospitality and culinary trends.
- **NUTRITION:** Apply accepted nutrition standards that lead to positive health benefits.
- **INDUSTRY MATH:** Apply appropriate math skills to culinary arts operations and business environments.
- **PURCHASING AND COST CONTROLS:** Apply principles of effective purchasing and of cost control, related to the hospitality and culinary industry.

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Baking and Pastry Arts (certificate)
- Culinary Arts (certificate)
- Fundamentals of Cooking and Baking Option (certificate)
- Event Planning and Catering (certificate)
- Hospitality Management (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Human Services (A.A.S.)

Official Title of Major: Human Services, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.HUS.HUS

Total Credit Hours: A minimum of 60

Visit www.aacc.edu to learn more about the Human Services Degree Program

Purpose: To train graduates to work as human services generalists in a variety of entry-level positions in mental health, social work, human services administration, addictions and other human services occupations. Graduates can transfer into various social work and/or human services Bachelor degree programs. To view articulation agreements go to the Transfer Partners webpage.

The A.A.S. degree in Human Services is accredited through the Council for Standards in Human Service Education. This accreditation assures that the program meets the required 20 standards. Accreditation allows human services graduates to apply to become a Nationally Certified Human Services Professional through the National Organization for Human Services (NOHS). For more information about NOHS and the Certified Human Services Professions visit www.nationalhumanservices.org.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to

determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Range of Occupations

- Child care worker
- Counselor aide
- Geriatrics worker
- Health department worker
- Human services worker
- Juvenile services probation worker
- Mental health associate
- Substance abuse counselor

Additional Program Requirements

Students are strongly encouraged to start in the fall term and follow the prescribed program in order to finish in two years. Students must maintain a grade of C or better in all human services and fieldwork courses. They also must perform satisfactorily in the fieldwork area in order to graduate. Two fieldwork courses include 125 clinical (unpaid) hours within each term.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

Entrance Requirements

Demonstrated eligibility for ENG 101/ENG 101A.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see the Health Sciences section of this catalog.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Human Services Program Sequence

Program Requirements

First Year - Term 1

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.
- HUS 100 - Introduction to Human Services 3 *credit hours*
- HUS 101 - Human Service and Addiction Counseling Ethics in Practice 3 *credit hours*
- HUS 141 - Group Dynamics 3 *credit hours*
- SOC 111 - Introduction to Sociology 3 *credit hours*

Total credit hours: 15

First Year - Term 2

- ENG 102 - Academic Writing and Research 2 3 *credit hours*
- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*

Total credit hours: 15-16

Second Year - Term 2

- HUS 216 - Theories of Counseling 3 *credit hours*
- HUS 217 - Fieldwork: Theories of Counseling 3 *credit hours*
- PSY 214 - Abnormal Psychology 3 *credit hours*
This course meets a General Education Requirement while simultaneously meeting a Program Requirement for this degree. This course is required for Fast Track students.

Technology: 3 credits

- CTA 100 - Computing and Information Technology *3 credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*

Wellness: 3 credits

General education requirement, see General Education Wellness Requirements .

Total credit hours: 15

Fast Track

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

By the end of the program, students will be able to:

1. Demonstrate basic counseling and case management skills and techniques in order to facilitate client services.
 - a. Client Intervention and Strategies (Standard 16)
 - b. Interpersonal Skills (Standard 17)
2. Design a plan to assess clients, design and implement specific and measurable goals.
 - a. Program Evaluation and Planning (Standard 15)
3. Describe the administrative aspects of service delivery.
 - a. Human Services Delivery (Standard 13)
 - b. Client Intervention and Strategies (Standard 16)
4. Develop interpersonal skills with clients and team members and demonstrate professional behaviors.
 - a. Interpersonal Skills (Standard 17)
 - b. Client Related Values and Attitudes (Standard 18)
 - c. Self-Development (Standard 19)
5. Examine how their own values, personalities, reaction patterns, interpersonal styles, limitations and self-care practices impact their role as a human services professional.
 - a. Interpersonal Skills (Standard 17)
 - b. Client Related Values and Attitudes (Standard 18)
 - c. Self-Development (Standard 19)
6. Analyze the importance of family, social networks, and community systems in the treatment process
 - a. Client Intervention and Strategies (Standard 16)

7. Student will identify community resources.
 - a. Client Intervention and Strategies (Standard 16)
8. Students will demonstrate effective group facilitation skills.
 - a. Human Systems (Standards 12)
 - b. Client Intervention and Strategies (Standard 16)
9. Examine diverse cultures, and incorporate the relevant needs of culturally diverse groups, as well as people with disabilities, into clinical practice.
 - a. Interpersonal Skills (Standard 17)
 - b. Client Related Values and Attitudes (Standard 18)
10. Summarize the field of human services and addiction professional's obligations to adhere to legal, ethical and behavioral standards of conduct in the helping relationship.
 - a. Interpersonal Skills (Standard 17)
 - b. Client Related Values and Attitudes (Standard 18)
11. Identify and explain historical development of Human Services.
 - a. History (Standard 11)
12. Assess the conditions which promote or limit human functioning within the human system.
 - a. Human Systems (Standard 12)
 - b. Human Services Delivery (Standard 13)
 - c. Program Planning and Evaluation (Standard 15)
13. Complete required fieldwork with the Human Services Department and apply meaningful connections between classroom learning and experiences in field.
 - a. Field Experience (Standard 20)

This program aligns with all the college's core competencies.

Human Services (certificate)

Official Title of Certificate: Human Services, Certificate

Award: Certificate

Code: CRT.HUS.HUS

Total Credit Hours: 30

Visit www.aacc.edu to learn more about the Human Services Certificate Program

Purpose: To give employees and volunteers associated with helping agencies knowledge and upgrading of skills in the human services area. This certificate is also appropriate for students to test their interest in the field before committing to a degree program. Students may subsequently apply these credits toward the Associate of Applied Science degree in human services.

Range of Occupations

- Geriatrics worker
- House parent in group home
- Personnel assistant
- Public housing counselor
- Worker with developmentally disabled

Additional Program Requirements

Students must earn a grade of C or better in all human services and fieldwork courses.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Entrance/Admission Requirements

Criminal Background Checks and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see the Health Sciences section of this catalog.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 30 credits

General Course Requirements

- PSY 111 - Introduction to Psychology *3 credit hours*
- SOC 111 - Introduction to Sociology *3 credit hours*

Human Services Core Course Requirements

- HUS 101 - Human Service and Addiction Counseling Ethics in Practice *3 credit hours*

- HUS 114 - Counseling, Assessment and Case Management *3 credit hours*
- HUS 115 - Fieldwork: Counseling, Assessment and Case Management *3 credit hours*
- HUS 141 - Group Dynamics *3 credit hours*
- HUS 216 - Theories of Counseling *3 credit hours*
- HUS 217 - Fieldwork: Theories of Counseling *3 credit hours*
- Electives approval of advisor *6 credit hours*

Information Assurance and Cybersecurity (A.A.S.)

Award: Associate of Applied Science degree, A.A.S.

Total Credit Hours: a minimum of 61

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: Provides training in computer security disciplines with three specific focus areas: security, digital forensics and networking. These degrees prepare students for entry level positions in information assurance and cybersecurity.

Additional Program Requirements

A grade of C or better is required in each Information Assurance and Cybersecurity program course requirement.

Areas of Concentration: This degree requires that students choose a concentration in one of three areas. A concentration is a structured plan of study within a degree program. The number of credit hours and particular course requirements for a concentration varies, as listed below. To achieve a concentration, students must receive credit for every course requirement listed under that concentration.

Three Concentrations:

1. Information Assurance and Cybersecurity - Security (code AAS.CIS.SECURITY): This program emphasizes computer security and information assurance concepts augmented with current accepted industry practices. Topics cover threats and vulnerabilities, prevention at the technical (hardware and software) and human levels, detection, response, and management aspects of security. This program fully maps to the requirements of DHS/NSA Centers of Academic Excellence in Cyber Defense Education.

Range of Occupations

- Security specialist
- Information assurance security specialist
- Information systems security analyst
- Manager of network and data security
- Applications security specialist
- Operating system security specialist

2. Information Assurance and Cybersecurity - Digital Forensics (code AAS.CIS.DIGITAL-FRSC): The program emphasizes the proper handling of digital evidence; tools and techniques utilized in forensics analysis, importance of proper documentation and report generation; and the laws and ethics governing evidence handling. The program fully maps to the eight knowledge domains currently specified by the Department of Defense Cyber Crime Center (DC3) and fully prepares students for the Magnet Certified Forensic Examiner (MCFE) exam. Upon completion of the Digital

Forensics area of concentration degree, students are eligible for DoD/DC3 National Centers of Digital Forensics Academic Excellence program certificates.

Range of Occupations

- Computer forensic investigator
- Corporate forensic investigator
- Incident Handler
- Incident Responder
- Law enforcement investigator
- Legal investigator
- Private investigator
- Financial investigator
- Loss prevention agent
- Computer forensic analyst
- Counterintelligence agent
- Policy analyst
- eDiscovery specialist
- eDiscovery project manager
- Data restoration specialist
- Forensics analyst
- Forensics consultant
- Forensic science technician
- Technology risk management professional

3. Information Assurance and Cybersecurity - Networking (code AAS.CIS.NETWORK): This program emphasizes installing, repairing and administering local and wide area networks. The program incorporates a study of data communication fundamentals together with an in-depth study of current networking architectures and protocols. Client/server and peer networks are studied together with hands-on laboratory time working with Microsoft, Linux and Cisco systems.

Range of Occupations

- LAN system administration
- Network installation
- Network management
- WAN Management Technology
- Linux administrator
- Windows Server administrator
- System administrator

Related Industry Certifications: These programs also provide the foundation for the following industry recognized certifications: CompTIA Network+ and CompTIA Security+.

Graduates in these fields will find positions available in industry, education and government.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
 - ENG 102 - Academic Writing and Research 2 3 credit hours
- ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.*

Arts and Humanities: 3 credits

- CTP 194 - Ethics and the Information Age 3 credit hours

Biological and Physical Sciences: 3 credits

- BIO 135 - Principles of Nutrition 3 credit hours
- BIO 135 satisfies the college Wellness Requirement.
If you have already satisfied the college Wellness Requirement, you may elect to take any Biological and Physical Sciences General Education Requirement course. Please contact the academic chair for more information.

Mathematics: 3 credits

- MAT 135 - Statistics 3 credit hours
 - OR MAT 137 - College Algebra 3 credit hours
- Or more advanced level if qualified.*

Social and Behavioral Sciences: 3 credits

Student should select a course that satisfies the college Diversity requirement. See General Education Social and Behavioral Sciences and Diversity Requirements for a list of approved courses.

Additional General Education Requirement: 3 credits

- CTS 107 - Cyber Essentials 3 credit hours
- This course meets the General Education Technology Requirement.*

Program Requirements: 40 credits

These are the 17 credits of common program requirements for all three areas of concentration. Students must complete all of these courses with a grade of C or better.

- CTS 110 - Network Essentials 4 credit hours
- CTS 120 - Introduction to Linux 4 credit hours
- CTS 140 - Network Security Fundamentals 4 credit hours
- CTS 234 - Windows Server 4 credit hours
- CYB 270 - Cyber Capstone 1 credit hour

Students must select one Area of Concentration in Security, Digital Forensics, or Networking:

Security Area of Concentration Requirements: 23 credits

Degree Awarded: Information Assurance and Cybersecurity - Security Concentration (AAS.CIS.SECURITY). Students must complete all of these courses with a grade of C or better.

- CTS 130 - Networking 1 4 credit hours
- CTS 131 - Networking 2 4 credit hours
- CTS 240 - Advanced Network Defense 4 credit hours
- CTS 242 - Network Intrusion Detection and Penetration Testing 4 credit hours

Security Area of Concentration Electives 7 credit hours

Must choose 7 credit hours from the following list to achieve the 61 total credits required for the award of this degree:

- CTP 114 - Python for Everyone 2 credit hours
- CTP 115 - Introductory Object-Oriented Program Analysis and Design 4 credit hours
- CTP 130 - Programming in PHP/MySQL 3 credit hours
- CTS 170 - Digital Forensics 1 3 credit hours
- CTS 216 - Network Forensics 4 credit hours
- CTS 222 - UNIX/LINUX System Administration 4 credit hours
- CTS 236 - Virtualization & Cloud 4 credit hours
- STM 213 - Professional Skills for STEM 1 credit hour

Digital Forensics Area of Concentration Requirements: 23 credits

Degree Awarded: Information Assurance and Cybersecurity - Digital Forensics Concentration (AAS.CIS.DIGITAL-FRSC). Students must complete all of these courses with a grade of C or better.

- CJS 111 - Introduction to Criminal Justice 3 credit hours
- CTS 170 - Digital Forensics 1 3 credit hours
- CTS 207 - Digital Forensics 2 4 credit hours
- CTS 209 - Digital Forensics 3 4 credit hours
- CTS 242 - Network Intrusion Detection and Penetration Testing 4 credit hours

Digital Forensics Area of Concentration Electives 5 credit hours

Must choose 5 credit hours from the following list to achieve the 61 total credits required for the award of this degree.

- CTS 216 - Network Forensics 4 credit hours
- CTS 236 - Virtualization & Cloud 4 credit hours
- CTS 240 - Advanced Network Defense 4 credit hours
- STM 213 - Professional Skills for STEM 1 credit hour

Networking Area of Concentration Requirements: 23 credits

Degree Awarded: Information Assurance and Cybersecurity - Networking Concentration (AAS.CIS.NETWORK). Students must complete all of these courses with a grade of C or better.

- CTP 114 - Python for Everyone 2 credit hours
- CTS 130 - Networking 1 4 credit hours
- CTS 131 - Networking 2 4 credit hours
- CTS 230 - Networking 3 4 credit hours
- CTS 233 - Network Programming 4 credit hours

Networking Area of Concentration Electives 5 credit hours

Must choose 5 credit hours from the following list to achieve the 61 total credits required for the award of this degree.

- CTS 170 - Digital Forensics 1 3 credit hours
- CTS 216 - Network Forensics 4 credit hours
- CTS 222 - UNIX/LINUX System Administration 4 credit hours
- CTS 236 - Virtualization & Cloud 4 credit hours
- STM 213 - Professional Skills for STEM 1 credit hour

Diversity Requirement

Students may satisfy the diversity requirement simultaneously as they satisfy the Social and Behavioral Sciences general education requirement. Refer to Diversity Requirement for a list of approved courses.

Technology Requirement

Satisfied by CTS 107.

Wellness Requirement

Satisfied by BIO 135. If you have already satisfied the Biological and Physical Sciences General Education Requirement, you may elect to take any Wellness Requirement course. Refer to General Education Courses Wellness Requirement for a list of approved courses.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of the Information Assurance and Cybersecurity Associate of Applied Science degree, students will be able to:

1. Analyze a broadly-defined security problem and apply principles of cybersecurity to the design and implementation of solutions.
2. Apply security principles and practices to maintain operations in the presence of risks and threats.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in cybersecurity practice based on legal and ethical principles.
5. Function effectively as a member of a team engaged in cybersecurity activities.

Additionally, upon successful completion of the Digital Forensics Area of Concentration, students will also be able to:

1. Plan and perform digital forensic investigations including preservation, handling, analysis, and documentation of evidence.
2. Use industry standard tools to access digital evidence and conduct forensic analysis.

3. Relate the functionality of operating systems and networks to digital evidence.
4. Explain the characteristics of computer crime offenses and offenders.
5. Apply Constitutional and case law to digital forensics investigations.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Network Security (certificate)
- Cisco Certified Network Associate (CCNA) Preparation (certificate)
- Advanced Network Security (certificate)
- Digital Forensics (certificate)
- Server Administration and Security (certificate)
- Advanced Digital Forensics (certificate)
- Computer Network Management - UNIX/LINUX System Administrator (certificate)
- Cyber Technology (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Information Systems - Computer Science Transfer (A.S.)

Official Title of Major: Computer Science Transfer - Information Systems, A.S.

Award: Associate of Science, A.S.

Total Credit Hours: 60

Code: AS.CPS.INFO-SYS

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: This transfer program provides a solid computer science and mathematics foundation for those students transferring to four-year colleges and universities to pursue a bachelor's degree in computer science. Students who have already selected a transfer college/university should consult with the Computer Science Department Chair to plan their program and to keep abreast of program changes and updates to the articulation agreements between Anne Arundel Community College and the transfer institutions.

Additional Degree Requirements

A grade of C or better is required in each Computer Science Transfer course requirement.

Related Major

Students may wish to also review requirements for the similar major linked below.

- Computer Science - Computer Science Transfer (A.S.)

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 32 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

Two different disciplines required. See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 8 credits

Two lab sciences required. See General Education Biological and Physical Sciences Requirements for a list of approved courses. Students should check with their transfer institutions for specific course requirements.

Mathematics: 3 credits

- MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

Two different disciplines required. See General Education Social and Behavioral Sciences Requirements for a list of approved courses. Students should check their transfer institutions for specific course requirements.

Information Systems students are encouraged to take ECO 211.

Additional General Education Requirements: 3 credits

- **Wellness General Education course** 3 credit hours

See General Education Wellness Requirement for list of approved courses.

Program Requirements: 12 credits

Transfer institutions require a B or better in both CTP 150 and CTP 250.

- CTP 115 - Introductory Object-Oriented Program Analysis and Design 4 credit hours
- CTP 150 - Computer Science 1 4 credit hours
- CTP 250 - Computer Science 2 4 credit hours

Area of Concentration: 16 credits

- BPA 201 - Financial Accounting 3 credit hours
- BPA 202 - Managerial Accounting 3 credit hours
- CTP 160 - Python 3 credit hours
- CTP 200 - Systems Analysis and Design 4 credit hours
- **Elective** 3 credit hours, *see the Computer Science Department Chair for recommendations*

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTP 115

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Design, correctly implement, and document solutions to computational problems
2. Analyze a problem, and define the computing requirements appropriate to its solution.
3. Use current techniques, skills, and tools necessary for computing practice.
4. Apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of software.
5. Apply the complete System Development Lifecycle from planning and problem analysis through implementation and documentation.
6. Design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Intelligence Analytics (certificate)

Official Title of Certificate: Intelligence Analytics, Certificate

Award: Certificate

Code: CRT.HLS.INTEL-ANYL

Total Credit Hours: 16

About Homeland Security and Criminal Justice Institute

Purpose: This program is designed to provide students with a critical understanding of the complex nature of the intelligence community and its role in supporting U.S. national security. The intended audience is students who wish to explore a future career in the intelligence community; current intelligence community employees desiring to advance their career in the intelligence community; and companies and firms who wish to advance employees' skills in the field of analytics.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 16 credits

- HLS 211 - Intelligence Analysis and Security Management *3 credit hours* **OR**
- HLS 220 - Intelligence and U.S. National Security *3 credit hours*
HLS 220 has prerequisite of eligibility for ENG 101/ENG 101A and PLS 111 or HIS 212 or permission of Institute director.

- HLS 225 - Introduction to Intelligence Analytics *3 credit hours*
- HLS 230 - Intelligence Support to the Policy Maker and Military *3 credit hours*
- HLS 240 - National Security Challenges of the 21st Century *3 credit hours*
- HLS 245 - Intelligence Analytics Seminar *4 credit hours*

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Homeland Security Management - Intelligence Analytics (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Juvenile Justice (A.A.S.)

Official Title of Major: Juvenile Justice, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.CJS.JUV-JUST

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

This degree is part of the Homeland Security and Criminal Justice Institute.

Purpose: Produces qualified practitioners with thorough knowledge and skills to assess, treat and manage children and youth offenders in both the juvenile and adult criminal justice systems. Students compare and contrast historical and current day philosophies of the juvenile justice system, to include social and psychological causations to delinquency and crime. Students study the legal and therapeutic distinctions between children and adults regarding legal representation and protection, due process of law, custody, sentencing, residential and at-home placements, treatment, education and community reintegration.

Additional Degree Requirements

Students are expected to participate with their advisor in tailoring a mix of electives that will satisfy their own needs with respect to immediate and long-term employment.

Range of Occupations

- Case manager I, II or III
- Juvenile counselor
- Law enforcement
- Correctional officer
- Community and family advocacy
- Social services
- Parole and probation
- Juvenile and family counseling

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 24 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101 -ENG 102 or ENG 101 - ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- PSY 111 - Introduction to Psychology 3 *credit hours*

Additional General Education requirements: 6 credits

- **Technology Requirement** 3 *credit hours*
CTP 103 recommended. This requirement may also be satisfied by CLEP exam.
- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 36 credits

- CJS 111 - Introduction to Criminal Justice 3 *credit hours*
- CJS 113 - Penology 3 *credit hours* **OR**
- SOC 224 - Criminology 3 *credit hours*

- CJS 225 - Criminal Justice Ethics 3 *credit hours*
- CJS 228 - Practices in Social Work and Counseling with Inmate Populations 3 *credit hours*
- CJS 231 - Juvenile Justice 3 *credit hours*
- CJS 232 - Juvenile Law 3 *credit hours*

- CJS 233 - Forensic Psychology and Victimology 3 *credit hours* **OR**

- EDU 111 - Foundations of Education *3 credit hours*
- HUS 102 - Physiological Aspects of Chemical Dependence *3 credit hours*
- PSY 205 - Child Psychology *3 credit hours* **OR**
- PSY 211 - Developmental Psychology *3 credit hours*
- SOC 122 - Social Problems *3 credit hours*
- SOC 132 - Juvenile Delinquency *3 credit hours*
- Elective (consult with an advisor) *3 credit hours*

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze pertinent issues regarding juvenile justice
2. Compare and contrast law governing adult and juvenile offenders
3. Perform valid and reliable research
4. Exhibit comprehension of juvenile justice purpose/operations
5. Analyze emerging trends in juvenile justice
6. Observe punishment policies regarding juvenile offending
7. Outline legal influences and public policy on children's lives
8. Implement effective steps for case management
9. Properly select and correctly use valid research sources

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Kinesiology (A.S.)

This program is pending approval by the Maryland Higher Education Commission.

Official Title of Major: Kinesiology, A.S.

Award: Associate of Science degree, A.S.

Code: Contact Records Office

Total Credit Hours: A minimum of 60

Visit www.aacc.edu to learn more about the Department of Health, Fitness, and Exercise Studies

Purpose: This program is for students to pursue career options in the health fitness industry including commercial/corporate fitness, personal training, kinesiology, sports medicine, sports conditioning, sport management, health promotion and recreation and parks. Student may transfer to a four-year institution in exercise science, kinesiology, sport management, sports medicine, health promotion, human performance, physical education and recreational fitness.

Range of Occupations

- Personal trainer
- Fitness specialist for corporate/commercial, private, or municipal and community recreation
- Health coach
- Health promotions coordinator
- Sport management
- Strength and conditioning coach
- Fitness club/studio management
- Physical education
- Recreation and parks

Additional Program Requirements

Students must earn a grade of C or better in all program requirements. Consult with an academic advisor to ensure the most effective choice of courses to prepare for transferring to a four-year institution. Elective credits must be chosen with the approval of the academic chair or faculty adviser.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 35 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

Select one course from COM and select one course from a different Arts and Humanities.

Biological and Physical Sciences: 8 credits

- BIO 101 - Fundamentals of Biology 4 *credit hours*
- BIO 233 - Anatomy and Physiology 1 4 *credit hours*

Mathematics: 3 credits

(Must choose a general education mathematics course. See General Education Mathematics Requirements for a list of approved courses. Transfer students should consult with an academic advisor or with their transfer school before choosing a math course.)

Social and Behavioral Sciences: 6 credits

Select PSY 111 and one SOC from SOC 111, 105 or 150.

- PSY 111 - Introduction to Psychology 3 *credit hours*
AND
- SOC 111 - Introduction to Sociology 3 *credit hours*
OR
- SOC 105 - Exploring the Future 3 *credit hours*
OR
- SOC 150 - Introduction to Aging Studies 3 *credit hours*

Additional General Education Requirements: 6 credits

- HEA 100 - Assessment and Theory of Fitness and Health 3 *credit hours*

This course meets the General Education Wellness Requirement.

- **Technology Requirement** 3 *credit hours*

See General Education Technology Requirements for list of approved courses.

Program Requirements: 25 credits

- BIO 234 - Anatomy and Physiology 2 4 *credit hours*
- HEA 101 - Foundations of Health, Exercise and Sport 3 *credit hours*
- HEA 111 - Personal and Community Health 3 *credit hours*
- HEA 230 - Personal Trainer Fundamentals 4 *credit hours*

Program Electives (consult with an advisor): 8 credits

Must be chosen from the following (due to a variety of transfer requirements at four-year schools, students should consult with an academic advisor or with their transfer school before choosing their electives):

- HEA 113 - Women's Health 3 credit hours **OR**
- GSS 113 - Women's Health 3 credit hours
- HEA 117 - Healthy Aging For Women 3 credit hours **OR**
- GSS 117 - Healthy Aging for Women 3 credit hours
- HEA 137 - Weight Management: Utilizing Healthy Approaches to Diet and Physical Activity 1 credit hour **OR**
- BIO 137 - Weight Management: Utilizing Healthy Approaches to Diet and Physical Activity 1 credit hour
- HEA 138 - Nutrition for Fitness and Sport 1 credit hour **OR**
- BIO 138 - Nutrition for Fitness and Sport 1 credit hour
- HEA 231 - Health Coach 3 credit hours
- BIO 135 - Principles of Nutrition 3 credit hours
- SPT 123 - Sports in America 3 credit hours
- SPT 232 - Sport Psychology 3 credit hours
- ESI 103 - Introduction to Entrepreneurship 3 credit hours
- HEA 150 - Advanced First Aid, CPR and AED 3 credit hours
- PBH 101 - Introduction to Public Health 3 credit hours
- PHE 215 - Cardio Fitness 1 credit hour
- PHE 233 - Weight Training 1 credit hour
- PHE 234 - Hatha Yoga 1 credit hour

Diversity Requirement

Satisfied by SOC 111 or SOC 105 or SOC 150.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Satisfied by HEA 100.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Design and instruct individualized exercise programs for healthy adults and special populations.
2. Apply current technology in the health, fitness and exercise industry.
3. Identify and apply aspects of diversity as they relate to health and wellness.
4. Identify and critique health-related lifestyle behaviors including national fitness and nutritional guidelines, as they relate to the dimensions of wellness.
5. Apply legal and ethical issues and professional responsibilities within their scope of practice.
6. Demonstrate basic injury prevention techniques.

7. Identify how the skeletal and neuromuscular structures of the human body adapt and contribute to human performance.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Law and Jurisprudence (A.A.)

Official Title of Major: Law and Jurisprudence, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.LGS.JURIS-TRANS

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Legal Studies Institute

Purpose: This transfer program provides a law and liberal arts foundation for those students transferring to four-year colleges and universities to pursue a bachelor's degree in jurisprudence and, ultimately, attend law school. Prospective lawyers should develop proficiency in writing, speaking, reading, researching, analyzing and thinking logically. A multidisciplinary background is critical; therefore, this program provides a core of courses considered essential to the pre-law/jurisprudence student.

Range of Occupations

The skills and knowledge acquired in this program can be applied to a variety of occupations, including: lawyer, law clerk, paralegal, legal assistant, mediator, arbitrator, title examiner, abstractor, judge, magistrate and other judicial workers.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 31 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*
- PHL 141 - Introduction to Logic 3 *credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

- MAT 133 - Finite Mathematics 3 *credit hours* **OR**
- MAT 135 - Statistics 3 *credit hours*

Social and Behavioral Sciences: 6 credits

- SOC 111 - Introduction to Sociology 3 *credit hours* **AND**
- HIS 211 - United States History through the Civil War 3 *credit hours*

Additional General Education Requirements: 3 credits

- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirement for a list of approved courses.

Program Requirements: 29 credits

- HIS 212 - United States History Since the Civil War 3 *credit hours*
- LGS 111 - Introduction to Paralegal Studies 3 *credit hours*
- LGS 112 - Law Office Practice and Technology 3 *credit hours*
- LGS 141 - Electronic Legal Research 1 *credit hour*
- LGS 143 - Legal Research and Writing 1 3 *credit hours*
- LGS 144 - Legal Research and Writing 2 3 *credit hours*
- LGS 210 - Legal Ethics 3 *credit hours*
- LGS 217 - Constitutional Law 3 *credit hours*
- PHL 142 - Ethics 3 *credit hours*

Electives: 4 *credit hours*; List of suggested electives below:

- ECO 121 - Introduction to Economics 3 *credit hours*
- HIS 227 - History of Medieval and Renaissance England 3 *credit hours*
- LGS 215 - Criminal Law 3 *credit hours*
- LGS 253 - Business Law 1 3 *credit hours*

- PLS 111 - American Government 3 credit hours
- PLS 113 - State and Local Government 3 credit hours

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Satisfied by LGS 112.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Explain basic legal concepts, issues, and terminology in subject matter areas that are essential to the practice of law
2. Apply critical thinking skills to identify, analyze, and interpret legal and factual issues and effectively interface with clients and attorneys
3. Demonstrate effective legal research, writing, and oral communication skills.
4. Apply general principles of ethical and professional responsibility to the role of paralegals and attorneys in the practice of law
5. Apply practical legal skills and legal theory to assist attorneys in the practice of law

This program aligns with the college's core competencies.

Law Enforcement and Criminal Justice (certificate)

Official Title of Certificate: Law Enforcement and Criminal Justice, Certificate

Award: Certificate

Code: CRT.LEN.LEN

Total Credit Hours: 18

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

Purpose: For students who are either preparing for or are currently employed in the field of criminal justice. The required courses are appropriate for all students of criminal justice. Elective courses allow students to specialize in a particular area of criminal justice, depending on their interests and career goals. The fields of specialization include police administration or law enforcement and corrections or juvenile services. Students may pursue the certificate option on a full- or part-time basis in either a day or evening schedule.

Range of Occupations

- Police officer, agent or cadet
- Police technician or laboratory assistant
- Prison, jail or detention facility officer
- Private security officer or private investigator
- Probation officer or juvenile services officer
- Sheriff's deputy or investigator

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credits

- CJS 111 - Introduction to Criminal Justice *3 credit hours*
- CJS 113 - Penology *3 credit hours*
- LGS 215 - Criminal Law *3 credit hours*
(formerly listed as CJS 215)
- HLS 111 - Introduction to Homeland Security *3 credit hours* **OR**
- CJS 260 - Terrorism/Counterterrorism *3 credit hours*

Elective (CJS or HLS) 3 credit hours

Elective (CJS or HLS or social science) 3 credit hours

Note: Social science elective must be selected from PSY 111, SOC 111, SOC 132 or SOC 224.

Program Outcomes

Upon successful completion of this program, students will be able to:

- Apply critical thinking and analytical skills in a crime enforcement and public safety context.
- Conduct qualitative and quantitative research.
- Analyze, differentiate, and interpret varying data.
- Articulate concepts and theories of criminology, sociology, psychology as they pertain to the criminal justice system.
- Gather, analyze, preserve, and interpret information, artifacts and evidence.
- Apply the law in crime enforcement and public safety contexts.
- Describe the critical phases of the criminal justice system.
- Recall the U.S. Constitution Bill of Rights.
- Identify diversity and human rights issues pertaining to criminal justice.
- Articulate ethical and professional standards of conduct and performance as they pertain to criminal justice.

- Communicate verbally and in writing in law enforcement and criminal justice contexts.
- Use technology to gather, compose, appraise and apply information.

This program aligns with the college's core competencies.

Law Enforcement and Criminal Justice - Law Enforcement and Criminal Justice (A.A.S.)

Official Title of Major: Law Enforcement and Criminal Justice, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Total Credit Hours: 60

Code: AAS.LEN.LEN

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

This degree is part of the Homeland Security and Criminal Justice Institute.

Purpose: Provides students with the opportunity to develop the basic theoretical and technical skills needed for an entry-level position into various areas of the criminal justice profession. Enhances the opportunities of in-service police officer students for promotion to higher levels of supervision and responsibility. Provides a transfer basis for students who are seeking entry into police and criminal justice agencies having a four-year degree requirement.

Additional Program Requirements

Students who have career interests in a particular criminal justice agency, especially federal agencies, should consult with one of the criminal justice faculty to plan a program which is transferable to a four-year institution.

Range of Occupations

- Correctional officer
- Federal law enforcement officer
- Investigative assistant
- Jail or detention facility officer
- Juvenile services officer
- Police dispatcher
- Police officer or cadet
- Private investigator
- Retail store security officer
- School resource officer
- Victim rights advocate

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 24 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101 -ENG 102 or ENG 101A -ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirement for a list of approved courses.

Mathematics: 3 credits

Students planning to transfer to the University of Baltimore should select MAT 135. See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- PLS 111 - American Government *3 credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** *3 credit hours*

CTP 103 is recommended. This requirement may also be satisfied by CLEP exam. See General Education Technology Requirement for list of additional approved courses.

- **Wellness Requirement** 3 credit hours

Choose one course from list below:

- HEA 150 - Advanced First Aid, CPR and AED
- EMT 104 - Emergency Medical Care, CPR & AED

Program Requirements: 15 credits

- CJS 111 - Introduction to Criminal Justice 3 credit hours
- CJS 113 - Penology 3 credit hours
- CJS 225 - Criminal Justice Ethics 3 credit hours
- LGS 215 - Criminal Law 3 credit hours
(formerly listed as CJS 215)
- SOC 111 - Introduction to Sociology 3 credit hours

Area of Concentration Requirements: 21 credits

- CJS 112 - Police Operations 3 credit hours
 - CJS 222 - Investigation and Criminalistics 4 credit hours
 - CJS 121 - Police Administration 3 credit hours
 - CJS 260 - Terrorism/Counterterrorism 3 credit hours
- OR**
- HLS 111 - Introduction to Homeland Security 3 credit hours

Elective (criminal justice or social science: CJS, PSY or SOC) 3 credit hours
Elective (criminal justice or consult with an advisor) 5 credit hours

Diversity Requirement

Satisfied by SOC 111 requirement.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Fast Track Option

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Apply analytical and critical thinking skills in a law enforcement context.
2. Conduct qualitative and quantitative research related to criminal justice and law enforcement.
3. Analyze, differentiate, and interpret varying data.
4. Articulate concepts and theories of criminology, sociology, psychology as they pertain to the criminal justice system.
5. Gather, analyze, preserve, and interpret information, artifacts and evidence.
6. Apply the law properly in contexts related to criminal justice and public safety.
7. Describe the critical phases of the criminal justice system.
8. Recall and apply the U.S. Constitution Bill of Rights to investigations and cases.
9. Identify diversity and human rights issues pertaining to criminal justice.
10. Articulate ethical and professional standards of conduct and performance.
11. Communicate effectively both verbally and in writing in law enforcement situations.
12. Use technology to gather, compose, appraise and apply information.

This program aligns with the college's core competencies.

Related Offerings

Law Enforcement and Criminal Justice - Police Academy (A.A.S.)

Official Title of Major: Law Enforcement and Criminal Justice - Police Academy, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.LEN.POLICE.ACAD

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

This degree is part of the Homeland Security and Criminal Justice Institute.

Purpose: Provides students with the opportunity to develop the basic theoretical and technical skills needed for an entry-level position into various areas of the criminal justice profession. Enhances the opportunities of in-service police officer students for promotion to higher levels of supervision and responsibility. Provides a transfer basis for students who are seeking entry into police and criminal justice agencies having a four-year degree requirement.

Additional Program Requirements

Students who have career interests in a particular criminal justice agency, especially federal agencies, should consult with one of the criminal justice faculty to plan a program which is transferable to a four-year institution. In addition, students enrolled in the Police Academy Option must meet specific admission requirements needed for police certification. Most police departments have specific requirements as to health, character and vision for entry-level

employment. Students must determine if they meet these requirements before they enter the Law Enforcement and Criminal Justice degree program.

Range of Occupations

- Correctional officer
- Federal law enforcement officer
- Jail or detention facility officer
- Juvenile services officer
- Police officer or cadet
- Private investigator
- Retail store security officer

Entrance/Admission Requirements

Entrance Requirements

Students must meet with the program coordinator for advisement and eligibility approval before enrolling in the police academy. Please call **410-777-7319** or **410-777-7063** or email dmhammel@aacc.edu to set up a meeting. The police academy segment of the degree program begins in the summer semester of every year with an orientation course, and ends May 31 in the following year. Students must be 21 years of age by May 31 to enroll in the police academy segment of the degree program.

Criminal Background Check

Participating in this program requires the satisfactory completion of a criminal background check.

Academic and Integrity Standards

The police academy segment of the degree program reflects entrance-level training objectives, mandated by the Maryland Police Training Commission (MPTC), the Director of the Academy and by Anne Arundel Community College. Students are required to complete academy examinations with a score of 75 percent or better on each exam. Students may not fail any course within the police academy segment of the degree program and must complete the police academy segment of the degree program with an overall GPA of 2.0 or better. Students are strongly encouraged to maintain at least the same GPA for all other non-academy courses in the degree program. Students must be eligible to take ENG 101 or ENG 101A by the end of the police academy segment of the degree program. While enrolled in the police academy segment of the degree program, students are required to maintain the highest ethical, academic and professional standards - during and outside of scheduled classes. Failure to adhere to these and other standards established by the Academy Director, the college and/or by the MPTC, will lead to academy dismissal.

Following successful completion of the police academy segment of the degree program, the student will receive a certificate from the Maryland Police Training Commission, documenting successful completion of the mandated police entry-level curriculum in all areas except firearms training. Graduates hired as police officers within two years may be eligible for a waiver of certain entrance-level training requirements to become a certified police officer.

Degree Requirements

Students are required to complete criminal background checks. Students are also required to obtain medical waivers that qualify the student's fitness to perform various physical activities throughout the police academy segment of the degree program. The police academy segment of the degree program is a 10-month program, approved by the Maryland Police Training Commission. Students must be able to adhere to a full-time course schedule set by the

Director of the Police Academy. Students are required to purchase and wear authorized uniforms; attend meetings; physical and academic trainings; examinations; and other workshops outside of regularly scheduled classes. Students also are required to complete an off campus training in Emergency Vehicle Operations in Sykesville, Md.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Law Enforcement and Criminal Justice - Police Academy (certificate)

Official Title of Certificate: Law Enforcement and Criminal Justice - Police Academy, Certificate

Award: Certificate

Code: CRT.LEN.POLICE-ACAD

Total Credit Hours: 45

Visit www.aacc.edu to learn more about the Homeland Security and Criminal Justice Institute

Range of Occupations

Maryland local law enforcement; various federal security and law enforcement; various business sector security professions; adult and juvenile correctional occupations; court security jobs.

Academic and Integrity Standards

Anne Arundel Community College's Police Academy is certified by the Maryland Police Training Commission. With the exception of Firearms training, graduates must meet the minimal regulation, standard instruction, and testing requirements mandated by the Commission, as well as others required by the Director of the Academy and by Anne Arundel Community College. The Academy is a full-time program, requiring students to begin with an orientation course, generally offered in the summer, and additional courses in the subsequent fall, winter, and spring

semesters. Students may not fail any police academy course and must complete the police academy with an overall GPA of 2.0 or better. Students must be eligible to take ENG 101 or ENG 101A by the end of their academy training. Before graduating, students must comply with all financial, academic, ethical, and conduct-related policies established by the MPTC, the Institute for Homeland Security and Criminal Justice, and AACC. Within 2 years from completing the academy, students are eligible for immediate hire by any local law enforcement agency in the state of Maryland.

Additional Degree Requirements

To gain admittance into the police academy, students must first enroll in the college, take a college placement test (if required), and interview with a Police Academy Advisor. Once found eligible, the Academy Advisor will issue a Letter of Eligibility to the student. The Letter of Eligibility must be presented to Records and Registration before enrolling in the Police Academy Orientation course. Students will also be required to complete criminal and motor vehicle background checks; and a physical fitness examination. Students must be 21 years of age at the time of graduating from the academy. Students must be able to adhere to a rigorous, full-time course schedule set in advance by the Director of the Police Academy. Students must be willing to adhere to a para-military command structure. Students are required to purchase and wear authorized uniforms; attend academy meetings; successfully complete course assignments, assessments, and academy comprehensive examinations; and public service projects. Students will attend off-campus training such as an Emergency Vehicle Operations course and Standardized Field Sobriety Test Training. Many of our Recruit Officers remain employed, serve in the National Guard, or meet their obligations as parents, caregivers and business owners while attending the academy.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Entrance/Admission Requirements

Entrance Requirements

Students must meet with the program coordinator for advisement and eligibility approval before enrolling in the police academy. Please call **410-777-7319** or **410-777-7063**; or email dmhammel@aacc.edu to set up a meeting. The police academy begins in the summer semester of every year with an orientation course, and ends May 31 in the following year. Students must be 21 years of age by May 31 to enroll in the police academy.

Criminal Background Check

Participating in this program requires the satisfactory completion of a criminal background check.

Certificate Requirements: 45 credits

Summer Term

- CJS 109 - Police Discipline and Organization *1 credit hour*

Fall Term

- CJS 111 - Introduction to Criminal Justice *3 credit hours*
- CJS 226 - Traffic and Public Safety *3 credit hours*
- CJS 214 - Physical Conditioning for Law Enforcement and Firefighter/Rescue Service Personnel *1 credit hour*
- LGS 215 - Criminal Law *3 credit hours*
(formerly listed as CJS 215)
- LGS 216 - Criminal Evidence and Procedure *3 credit hours*
(formerly listed as CJS 216)

Winter Term

- CJS 127 - Police Tactics 1 *5 credit hours*
- CJS 128 - Police Tactics 2 *5 credit hours*
- CJS 219 - Advanced Patrol Operations *3 credit hours*

Spring Term

- CJS 112 - Police Operations *3 credit hours*
- CJS 218 - Criminal Justice Communications *3 credit hours*
- CJS 220 - Emergency Vehicle Operations Course (EVOC) *2 credit hours*
Emergency Vehicle Operations is scheduled and coordinated through the Police Academy Program Coordinator.
- CJS 222 - Investigation and Criminalistics *4 credit hours*
- CJS 225 - Criminal Justice Ethics *3 credit hours*
- EMT 104 - Emergency Medical Care, CPR & AED *3 credit hours*
- OR**
- HEA 150 - Advanced First Aid, CPR and AED *3 credit hours*
Students who are graduates of recognized police academies, current employees with fire departments, or current employees with EMT/emergency response agencies may request to have HEA 150 or EMT 104 waived. To do so, students should provide to the Records and Registration office an official (department letterhead) letter stating that they are graduates or employees of one of the above agencies. Courses or training that is not approved by a commission on higher education approved by the United States Department of Education will not be accepted for transfer credit or as meeting the waiver. A minimum of 45 credits must be completed to earn this certificate.

Program Outcomes

Upon successful completion of this program, academy students will be in full compliance with:

- The Maryland Police Training Commission's regulations and standards.
- The American Red Cross Association's First Responders Training standards.
- Maryland Police Emergency Vehicle Operations Course.
- ASP Baton Training regulations.
- NHTSA's DWI Detection and Standardized Field Sobriety Testing regulations.

Upon successful completion of this program, academy students will be able to:

- Apply critical thinking skills in law enforcement and public safety contexts.
- Conduct qualitative and quantitative research.
- Analyze, differentiate, and interpret varying data.
- Articulate concepts and theories of criminology, sociology, psychology as they pertain to the criminal justice system.
- Correctly gather, analyze, preserve, and interpret information, artifacts and evidence.
- Apply relevant law in police and public safety contexts.
- Describe the critical phases of the criminal justice system.
- Recall the U.S. Constitution Bill of Rights.
- Properly identify diversity and human rights issues pertaining to criminal justice.
- Articulate ethical and professional standards of conduct and performance pertaining to criminal justice.
- Communicate verbally and in writing in crime enforcement and public safety-related contexts.
- Use electronic communication devices appropriately.
- Correctly use technology to gather, compose, appraise and apply information.
- Demonstrate tactical skills in defensive training, employing chemical agents, making suspect arrests, maintaining street survival, operational communications, etc...
- Document and describe scientific processes.
- Use scientific methods to solve problems.
- Practice sound laboratory skills, meeting scientific standards of precision and care.
- Describe the criminal justice system and the rules of evidence.

This program aligns with the college's core competencies.

6. Apply the law properly in contexts related to criminal justice and public safety.
7. Describe the critical phases of the criminal justice system.
8. Recall and apply the U.S. Constitution Bill of Rights to investigations and cases.
9. Identify diversity and human rights issues pertaining to criminal justice.
10. Articulate ethical and professional standards of conduct and performance.
11. Communicate effectively both verbally and in writing in law enforcement situations.
12. Use technology to gather, compose, appraise and apply information.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Law Enforcement and Criminal Justice - Law Enforcement and Criminal Justice (A.A.S.)
- Law Enforcement and Criminal Justice - Police Academy (A.A.S.)

Career and Educational Advancement Resources

Liberal Arts - Arts and Sciences Transfer (A.A.)

Official Title of Major: Arts and Sciences Transfer - Liberal Arts, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ARTS-SCI.LIBERAL

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the School of Liberal Arts

Purpose: To provide a liberal arts education to students who wish to transfer to a four-year university or college and seek a baccalaureate degree. The Liberal Arts area of concentration provides a strong foundation in literature, philosophy, world languages, social science, and analytical and critical thinking skills, all of which prepare students for lifelong learning and social, cultural, and technological change. This area of concentration is designed to provide students with a broad-based liberal arts experience, enriching students' understanding of the physical and social world. It is also a good preparation for students who aim, eventually, for graduate or professional schools. Students who want to broaden and enrich their education also will find the liberal arts area of concentration rewarding.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 credit hours
- Sophomore Literature course 3 credit hours

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics 3 credit hours
OR
- MAT 135 - Statistics 3 credit hours
OR
More advanced level if qualified from the list below:
- MAT 137 - College Algebra 3 credit hours

- MAT 145 - Precalculus 1 3 *credit hours*
- MAT 146 - Precalculus 2 3 *credit hours*
- MAT 151 - Accelerated Precalculus 4 *credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*
- MAT 202 - Linear Algebra 4 *credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) 3 *credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) 3 *credit hours* **AND**

Students must choose one History course from the following:

- HIS 111 - Ancient and Medieval Western Civilizations 3 *credit hours*
 - HIS 112 - Early Modern and Modern Western Civilizations 3 *credit hours*
 - HIS 211 - United States History through the Civil War 3 *credit hours*
 - HIS 212 - United States History Since the Civil War 3 *credit hours*
- Students planning to transfer to the B.A. in Humanities program at UMUC should take HIS 111 or HIS 112*

Additional General Education Requirements: 6 credits

- **Technology Requirement** 3 *credit hours*
See General Education Technology Requirement for a list of approved courses.
- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirement for a list of approved courses.

Technology Requirement: 3 credits

All students in associate degree programs must satisfy the technology requirement. See Technology Requirement for a list of approved courses.

Area of Concentration: 26 credits

World Languages Sequence: 6 credits

A World Languages Sequence is 111 & 112 or 112 & 211 or 211 & 212 of the same language.

This area of concentration requires 6 credit hours in the same language. Students who have completed two or more years of a language in high school and plan to continue that language must submit high school transcripts to World Languages department chair to determine proper placement into a World Language Sequence and to provide guidance on transferability to four-year institutions.

Choose two courses in the same sequence:

- ARB 111 - Elementary Arabic 1 3 *credit hours*
- ARB 112 - Elementary Arabic 2 3 *credit hours*
- ARB 211 - Intermediate Arabic 1 3 *credit hours*
- ARB 212 - Intermediate Arabic 2 3 *credit hours*
- CHI 111 - Elementary Chinese 1 3 *credit hours*

- CHI 112 - Elementary Chinese 2 3 *credit hours*
- FRE 111 - Elementary French 1 3 *credit hours*
- FRE 112 - Elementary French 2 3 *credit hours*
- FRE 211 - Intermediate French 1 3 *credit hours*
- FRE 212 - Intermediate French 2 3 *credit hours*
- GER 111 - Elementary German 1 3 *credit hours*
- GER 112 - Elementary German 2 3 *credit hours*
- GER 211 - Intermediate German 1 3 *credit hours*
- GER 212 - Intermediate German 2 3 *credit hours*
- GRK 111 - Elementary Greek 1 3 *credit hours*
- GRK 112 - Elementary Greek 2 3 *credit hours*
- HEB 111 - Elementary Hebrew 1 3 *credit hours*
- HEB 112 - Elementary Hebrew 2 3 *credit hours*
- ITA 111 - Elementary Italian 1 3 *credit hours*
- ITA 112 - Elementary Italian 2 3 *credit hours*
- ITA 211 - Intermediate Italian 1 3 *credit hours*
- ITA 212 - Intermediate Italian 2 3 *credit hours*
- JPN 111 - Elementary Japanese 1 3 *credit hours*
- JPN 112 - Elementary Japanese 2 3 *credit hours*
- KOR 111 - Elementary Korean 1 3 *credit hours*
- KOR 112 - Elementary Korean 2 3 *credit hours*
- LAT 111 - Elementary Latin 1 3 *credit hours*
- LAT 112 - Elementary Latin 2 3 *credit hours*
- PRT 111 - Elementary Portuguese 1 3 *credit hours*
- PRT 112 - Elementary Portuguese 2 3 *credit hours*
- RUS 111 - Elementary Russian 1 3 *credit hours*
- RUS 112 - Elementary Russian 2 3 *credit hours*
- RUS 211 - Intermediate Russian 1 3 *credit hours*
- RUS 212 - Intermediate Russian 2 3 *credit hours*
- SPA 111 - Elementary Spanish 1 3 *credit hours*
- SPA 111H - Elementary Spanish - Honors 3 *credit hours*
- SPA 112 - Elementary Spanish 2 3 *credit hours*
- SPA 211 - Intermediate Spanish 1 3 *credit hours*
- SPA 212 - Intermediate Spanish 2 3 *credit hours*
- URD 111 - Elementary Urdu 1 3 *credit hours*
- URD 112 - Elementary Urdu 2 3 *credit hours*

Art History: 3 credits

- ART 209 - History of Western Art 1 3 *credit hours*

Music: 3-4 credits

Choose one of the following:

- MUS 100 - Music Appreciation 3 *credit hours*
- MUS 101 - Music Fundamentals 3 *credit hours*
- MUS 113 - Music Theory and Ear Training 1 4 *credit hours*

- MUS 114 - Music Theory and Ear Training 2 4 *credit hours*
- MUS 160 - History of Popular Music 3 *credit hours*
- MUS 165 - Highlights of Music History: Jazz 3 *credit hours*
- MUS 169 - Music, Power and Gender 3 *credit hours*
- MUS 213 - Music Theory and Ear Training 3 4 *credit hours*
- MUS 214 - Music Theory and Ear Training 4 4 *credit hours*
- MUS 260 - History of Music 1 3 *credit hours*
- MUS 261 - History of Music 2 3 *credit hours*
- MUS 262 - World Music: Music as Culture 3 *credit hours*

Philosophy: 6 credits

- PHL 111 - Introduction to Philosophy 3 *credit hours*
- PHL 146 - Contemporary Moral Problems 3 *credit hours*
PHL 146 simultaneously satisfies the Diversity Requirement for this degree.

Electives: 7-8 credits

No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

Satisfied by PHL 146.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Plan, communicate, and implement coherent and justifiable practices that improve human conditions
2. Analyze ideas critically and defend recommendations for improving the conditions of society
3. Act in a personally and socially responsible manner, recognizing the complexity and diversity of the human experience
4. Identify and use technology to research, collect, analyze, and interpret data and effectively communicate information that educates and influences others
5. Communicate in a language other than English in a culturally appropriate way.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Communications - Arts and Sciences Transfer (A.A.)
- Creative Writing - Arts and Sciences Transfer (A.A.)
- Dance - Arts and Sciences Transfer (A.A.)
- English - Arts and Sciences Transfer (A.A.)
- Film Studies - Arts and Sciences Transfer (A.A.)
- Gender and Sexuality Studies - Arts and Sciences Transfer (A.A.)
- Music - Arts and Sciences Transfer (A.A.)
- Psychology - Arts and Sciences Transfer (A.A.)
- Theater - Arts and Sciences Transfer (A.A.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Life and Engagement Coach (certificate)

Official Title of Certificate: Life and Engagement Coach Certificate

Award: Certificate

Code: CRT.EDU.LIFE-ENGAGE

Total Credit Hours: 12

<http://www.aacc.edu/about/schools-of-study/continuing-education/teacher-education-and-child-care-institute/>

Purpose: Participants will be trained in the International Coach Federation (ICF) core competencies, which leads to enhanced communication skills, more effective relationships, greater work productivity, and life fulfillment. For participants interested in becoming a certified coach, this certificate fulfills the curriculum requirement for the ACTP (Accredited Coach Training Program) pathway through the International Coach Federation.

Range of Occupations

- Life coach
- Executive/leadership coach

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 12 credits

- EDU 201 - Engagement Coaching Course I: Engage *3 credit hours*
- EDU 202 - Engagement Coaching Course II: Expand *3 credit hours*
- EDU 203 - Engagement Coaching Course III: Experience *3 credit hours* and choose
- EDU 204 - Engagement Coaching Course IV: Integration *3 credit hours*
OR
- EDU 205 - Engagement Coaching Course V: Impact *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to

1. Apply all components of the Engagement Coaching Model to coaching clients and small groups.
2. Demonstrate essential coaching skills
3. Meet the ethical guidelines and professional standards of a coach.

This program aligns with all the college's core competencies.

Massage Therapy (A.A.S.)

Special Admission Requirements - Rolling Admission

Official Title of Major: Massage Therapy, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.IHE.MASS-THRPY

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Massage Therapy Degree program

Purpose: To provide a new career path for students wishing to practice as a licensed massage therapist.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to

determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Range of Occupations

- Licensed Massage Therapist (LMT)

Additional Program Requirements

Students must receive a minimum final grade of C in all massage therapy courses and in BIO 230, BIO 231-BIO 232 or BIO 233-BIO 234, in order to progress in the sequence of massage courses.

Students enrolled in the massage therapy course sequence are required to comply with the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) Code of Ethics.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to the Apply & Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Massage Therapy Course Sequence

Prerequisite: 1 credit

- MAS 100 - Introduction to Massage *1 credit hour*

MAS 100 must be completed with a grade of C or better or be currently registered prior to submitting an application. If currently taking MAS 100, must complete with a C or better in order to gain full acceptance into the program and register for MAS 110.

General Education Requirements: 25 credits

- BIO 230 - Structure and Function of the Human Body 4 credit hours
The BIO 231 - BIO 232 sequence or the BIO 233 - BIO 234 sequence with a grade of C or better is an option if students prefer to take them in lieu of passing BIO 230 with a grade of C or better.
- CTA 100 - Computing and Information Technology 3 credit hours **OR**
- CTP 103 - Theories and Applications of Digital Technology 3 credit hours

Social and Behavioral Sciences: 3 credits

See Social and Behavioral Sciences General Education Courses for a list of approved courses. The course you choose must also satisfy AACC's Diversity requirement.

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours **OR**
- ENG 101A - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Arts and Humanities: 3 credits

See General Education Arts and Humanities Requirements for a list of approved courses.

Wellness: 3 credits

See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 34 credits

- MAS 108 - The Science of Massage Therapy 4 credit hours
- MAS 110 - Fundamentals of Massage Therapy 7 credit hours
- MAS 111 - Intermediate Massage Therapy 6 credit hours
- MAS 113 - Advanced Massage Therapy 6 credit hours
- MAS 117 - Kinesiology for Massage Therapists 3 credit hours
- MAS 118 - Business for Bodyworkers 2 credit hours
- MAS 120 - Massage Therapy Clinic 1 1 credit hour
- MAS 121 - Massage Therapy Clinic 2 1 credit hour
- MAS 212 - Massage Therapy in a Healthcare Setting 4 credit hours

Fast Track

This program has a Fast Track Option for those holding a college degree.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Integrate knowledge of anatomy, physiology, pathology, kinesiology, and massage theory to use critical thinking skills to plan and organize an effective massage therapy session tailored to each client's specific needs.
2. Perform therapeutic massage demonstrating the use of massage therapy principles and a variety of techniques.
3. Develop and implement a self-care strategy.
4. Demonstrate ethical and legal behavior, cultural sensitivity, boundaries and effective communication with clients and professionals in the massage therapy profession.
5. Develop a strategy for a successful practice, business or employment situation.
6. Document massage sessions according to industry standards.
7. Prepare to pass the MBLEx and Maryland jurisprudence exam.
8. Integrate knowledge of pathology, medical devices, and functional and environmental limitations to develop a treatment plan for safe and effective clinical massage in a healthcare setting.

This program aligns with the college's core competencies.

Related Offerings

Mathematics (A.S.)

Official Title of Major: Mathematics, A.S.

Award: Associate of Science degree, A.S.

Code: Contact the Records Office.

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Mathematics Department

Purpose: Prepares for transfer to a four-year institution and a major in mathematics or other subjects which require a strong mathematics background. Prepares also for further study in business, engineering, mathematics, physical sciences, or statistics. Develops skills in analyzing and interpreting problems, computer-based problem solving, and using mathematical reasoning to further the scientific method.

Range of Occupations

- With continued study after transfer, a mathematics degree may lead to positions in actuarial science, computer science, cryptology, demography, econometrics, engineering, mathematics, mathematics education, the physical sciences, or statistics.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 35 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

Must select two different disciplines. See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 7 credits

At least one lab course required. The following courses are recommended:

- CHE 111 - General Chemistry 1 4 credit hours
- CHE 112 - General Chemistry 2 4 credit hours
- PHY 211 - General Physics 1 4 credit hours
- PHY 212 - General Physics 2 4 credit hours

Mathematics: 4 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 credit hours

Social and Behavioral Sciences: 6 credits

Must select two different disciplines. See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education requirements: 6 credits

- **Technology Requirement** 3 credit hours
Recommended:
 - CTP 103 - Theories and Applications of Digital Technology 3 credit hours **OR**
 - EGR 120 - Introduction to Engineering Design 3 credit hours
See Technology Requirement General Education Courses for a list of other approved courses.
- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirement for a list of approved courses.

Program Requirements: 25 credits

Core Courses: 16 credits

- MAT 192 - Calculus and Analytic Geometry 2 4 credit hours
- MAT 201 - Calculus and Analytic Geometry 3 4 credit hours
- MAT 202 - Linear Algebra 4 credit hours
- MAT 212 - Differential Equations 4 credit hours

Electives: 9 Credits

Choose from the list below. Consult with an Academic Advisor when selecting your electives to ensure transferability to your chosen 4-year institution.

- BPA 201 - Financial Accounting 3 credit hours
- BPA 202 - Managerial Accounting 3 credit hours
- CHE 111 - General Chemistry 1 4 credit hours
- CHE 112 - General Chemistry 2 4 credit hours
- CHE 213 - Organic Chemistry 1 4 credit hours

- CHE 214 - Organic Chemistry 2 4 credit hours
- CTP 150 - Computer Science 1 4 credit hours
- CTP 250 - Computer Science 2 4 credit hours
- ECO 211 - Principles of Economics 1 3 credit hours
- ECO 212 - Principles of Economics 2 3 credit hours
- EGR 209 - Statics 3 credit hours
- EGR 222 - Dynamics 3 credit hours
- MAT 223 - Fundamental Concepts of Mathematics 3 4 credit hours
- MAT 235 - Introduction to Data Science 4 credit hours
- MAT 250 - Introduction to Discrete Structures 3 credit hours
- PHY 211 - General Physics 1 4 credit hours
- PHY 212 - General Physics 2 4 credit hours
- PHY 213 - General Physics 3 4 credit hours

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

CTP 103 OR EGR 120.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Use the vocabulary and notation of higher-level mathematics to communicate mathematically.
2. Create and interpret mathematical relations and functions through graphical, numerical, and symbolic processes.
3. Evaluate and use appropriate higher-level mathematical techniques (e.g., calculus, linear algebra, differential equations) and technology to solve problems.
4. Apply mathematical principles to analyze real-world problems in mathematically dependent fields.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Mechatronics Engineering Technology (A.A.S.)

Official Title of Major: Mechatronics Engineering Technology, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.EGR.MECHATRONICS

Total Credit Hours: A minimum of 62

Visit www.aacc.edu to learn more about the Engineering Department

Purpose:

Mechatronics is the combination of electrical, mechanical, and software technologies used in today's industry. Students who complete the Mechatronics program will acquire a skill-set highly sought by many such as: manufacturing, packaging, automated distribution warehouses, and biomedical equipment companies, to name a few. If a process or product has a "line" or "moving parts", chances are there is a need for a mechatronics technician to keep it operating at peak performance. Ideal candidates for the program are those who like to work with their hands, troubleshoot and prefer moving about as opposed to sitting at a desk.

Topics covered in the program through lecture and hands-on labs include: mechanical systems, programmable logic controllers (PLCs), pneumatics, robotics, and computer-aided design.

Range of Occupations Include:

- Electro-Mechanical Technicians
- Robotics Technicians
- Electronic Equipment Technicians
- Biomedical Equipment Technician
- Automation Technicians

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 25-26 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

Complete one of the following courses:

- COM 110 - Introduction to Interpersonal Communication 3 *credit hours* **OR**
- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours* **OR**
- COM 141 - Group Communication and Leadership 3 *credit hours*

Biological and Physical Sciences: 4 credits

- PHY 111 - Fundamentals of Physics 1 4 *credit hours* **OR**
- PHY 211 - General Physics 1 4 *credit hours*

Mathematics: 3-4 credits

- MAT 145 - Precalculus 1 3 *credit hours* **OR**
- MAT 151 - Accelerated Precalculus 4 *credit hours* **OR**
- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education requirements: 6 credits

- **Technology Requirement** 3 *credit hours*
Must choose one from:
 - CTA 100 - Computing and Information Technology
 - CTP 103 - Theories and Applications of Digital Technology
 - CTS 107 - Cyber Essentials
 - EGR 120 - Introduction to Engineering Design
- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 36-37 credits

- EET 130 - Introduction to Electronic Circuits 4 *credit hours*
- ENT 260 - Solid Modeling with SolidWorks 3 *credit hours*
- MEC 110 - Mechanical Systems 4 *credit hours*
- MEC 120 - Pneumatics and Hydraulics 4 *credit hours*
- MEC 130 - Programmable Logic Controllers 4 *credit hours*
- MEC 140 - Introduction to Robotics 4 *credit hours*

- MEC 230 - Electric Motor Fundamentals 3 credit hours
- MEC 266 - Mechatronic Systems Capstone 3 credit hours
- STM 213 - Professional Skills for STEM 1 credit hour

Technical electives (see list below): 6-7 credits

Students using MAT 145 to satisfy the Mathematics General Education Requirement must complete 7 credits of Technical Elective credits from the list below. Student using MAT 151 or MAT 191 are required to complete 6 credits.

- EET 118 - Electronic Hardware and Assembly Techniques 4 credit hours
- EET 150 - Semiconductors and Linear Circuits 4 credit hours
- EET 231 - Digital-Electronic Circuits 4 credit hours
- EET 250 - Microprocessors and Microcontrollers 4 credit hours
- EET 255 - Metrology and Calibration 4 credit hours
- ENT 241 - Computer-Aided Drafting 3 credit hours
- ENT 242 - Advanced Computer-Aided Drafting and Design 3 credit hours
- ENT 261 - Rapid Prototyping Techniques 4 credit hours
- MAT 146 - Precalculus 2 3 credit hours
- MAT 191 - Calculus and Analytic Geometry 1 4 credit hours
- PHY 112 - Fundamentals of Physics 2 4 credit hours
- PHY 212 - General Physics 2 4 credit hours

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTA 100 or CTP 103 or CTS 107 or EGR 120.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students should be able to:

1. Apply appropriate safety standards and protocols
2. Operate, install, and troubleshoot electronically-controlled fluid power systems
3. Isolate problems on a variety of industrial systems involving electronics, mechanical systems, sensors, actuators, fluid mechanics, instrumentation, and controls.
4. Program, install, and troubleshoot programmable logic controllers (PLCs) in mechatronics systems.
5. Interpret technical documentation such as data sheets and specifications of mechatronic system components.
6. Demonstrate professional and critical thinking skills essential to workplace success.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Electronics Technology (certificate)
- Mechatronics Technology (certificate)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Mechatronics Technology (certificate)

Official Title of Certificate: Mechatronics Technology, Certificate

Award: Certificate

Code: CRT.EGR.MECHATRONICS

Total Credit Hours: 28

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: A compressed program leading to a 28-credit Mechatronics Technology Certificate in as little as one year. Participants need no previous experience and will be prepared for entry-level jobs in an integrated multidisciplinary industrial environment. Instruction in mechatronics provides students with the knowledge and hands-on training in electronics, mechanics and computers to work in a variety of industrial and manufacturing related businesses. The certificate offers employment preparation opportunities, as well as, the opportunity to upgrade and improve existing skills.

Range of Occupations

- Mechatronic technician
- Robotic technician
- Industrial automation technician
- Electro-mechanical fitter

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 28 credits

- EET 130 - Introduction to Electronic Circuits *4 credit hours*
- STM 213 - Professional Skills for STEM *1 credit hour*
- MEC 110 - Mechanical Systems *4 credit hours*
- MEC 120 - Pneumatics and Hydraulics *4 credit hours*
- MEC 130 - Programmable Logic Controllers *4 credit hours*
- MEC 140 - Introduction to Robotics *4 credit hours*
- MEC 266 - Mechatronic Systems Capstone *3 credit hours*
- ENT 260 - Solid Modeling with SolidWorks *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Function as technicians in an integrated multidisciplinary industrial environment.
- Complete the Level 1 Certification Examination and become certified Siemens Mechatronics System Assistants.
- Assemble or disassemble basic mechanical components and electrical drives in a mechatronics system
- Discuss the basic functions and physical properties of mechanical components and electrical AC and DC drives; materials, lubrication requirements and surface properties.
- Practice systematic preventative maintenance and safety
- Interpret technical documentation such as data sheets and specifications of mechanical elements and electrical drives.
- Operate pneumatic, electro pneumatic and hydraulic control circuits in a complex mechatronic system.
- Discuss the functions and properties of control elements based upon physical principles, and the roles they play within the system.
- Interpret technical documentation such as data sheets, circuit diagrams, displacement step diagrams and function charts.
- Complete measurements on the pneumatic and hydraulic control circuits
- Perform preventive maintenance of components and systems.
- Program and operate digital logic circuits and programmable logic controllers (PLCs) in a mechatronics system using an automation system.
- Localize PLC hardware generated problems.
- Write programs and use problem-solving skills while using computer simulations of systems.
- Explain the basic concepts of robotics, focusing on the construction and programming of autonomous mobile robots and Industrial Robots.
- Function in groups to build and test increasingly more complex robots, culminating in an end-of-semester robot project.
- Build analyze and troubleshoot direct and alternating current circuits.
- Interpret and create 2 dimensional (2D) drawings and 3D solid models.
- Integrate those 3D models into an assembly.
- Complete the Solidworks examination to become certified as a SolidWorks Associate.
- Localize and identify causes and sources of malfunctions, and correct where possible.
- Document malfunctions to be passed on to the appropriate experts.
- Exchange or replace defective components, where appropriate.
- Recognize potential or impending malfunctions and contact expert assistance in order to keep the production line functioning and to prevent production loss.
- Consult with experts.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Mechatronics Engineering Technology (A.A.S.)

- Electronics Technology (certificate)

Media Production (certificate)

Official Title of Certificate: Media Production, Certificate

Award: Certificate

Code: CRT.VSL.MEDIA-PROD

Total Credit Hours: A minimum of 27

Visit www.aacc.edu to learn more about the Visual Arts and Humanities Department

Purpose: The media production certificate prepares students in the fundamentals of developing television programs. The courses cover technical areas such as equipment set-up and operation, lighting, selection of lenses and audio. Other important areas include program planning, the production process, image composition and video graphics.

This certificate is a serious introduction to the field rather than a comprehensive study of production methods. It is beneficial to students who need an introduction to video production methods for employment or personal use.

Range of Occupations

- Camera operator
- Grip
- Video production assistant

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 27 credits

- ART 106 - Introduction to Digital Design *3 credit hours*
- ART 112 - Introduction to Sound Design *3 credit hours*
- ART 121 - Black and White Photography *3 credit hours*
- ART 239 - Techniques of Photographic Lighting *3 credit hours*
- ART 160 - Video 1 *3 credit hours*
- ART 161 - Video Editing *3 credit hours*
- ART 260 - Video 2 *3 credit hours*
- ART 275 - Digital Arts Internship *3 credit hours*
The practicum (ART 275) must be in video production.
- **ART Electives** (with approval of department chair): *3 credit hours*

Program Outcomes

Upon successful completion of the Video Production Certificate, students will be able to:

- Create storyboards, use video equipment, and organize shoots and video crew;
- Create, mix, and edit images, sounds, and video into presentation for various genres;

- Develop skills in using digital video as a medium for storytelling;
- Produce analysis and criticism of films;
- Analyze the relationship between film and culture;
- Apply various critical methodologies to interpret films;
- Discuss history of film and film industry.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

Media Production - Visual Arts Professional (A.A.S.)

Official Title of Major: Visual Arts Professional - Media Production, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.VSL-P.MEDIA-PROD

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Visual Arts and Humanities Department

Purpose: Designed for students who wish to gain skills that will better prepare them to work in the video and film industry. Students will develop basic skills in the production and post-production of time-based media. With a focus mainly on digital video, students will get first-hand experience developing, making, and editing original footage.

This program is not specifically designed for transfer to a four year institution. Should a student wish to transfer using this degree it is strongly recommended that the student consult with a transfer advisor and the department video coordinator to ensure an efficient transfer. Students may also wish to consider the Visual Arts Transfer AA degree or the Video Production Certificate.

Additional Degree Requirements

A grade of C or better is required in each Visual Arts Professional program course requirement.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Professional Degree Core Courses

The following courses make up the core for the Visual Arts Professional degree programs: ART 100 (satisfied by the Arts and Humanities general education requirement listed below), ART 106, (satisfied by the Technology Requirement listed below), ART 250 and ART 275 (satisfied by the Area of Concentration requirement listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- ART 100 - Two-Dimensional Design 3 credit hours

Biological and Physical Sciences: 3 credits

A science lab is acceptable. See Biological and Physical Science General Education Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirement: 3 credits

- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirement for a list of approved courses.

Area of Concentration: 39 credits

Required Courses: 25 credits

- ART 112 - Introduction to Sound Design 3 credit hours
- ART 120 - Digital Photography 1 3 credit hours
- ART 160 - Video 1 3 credit hours
- ART 161 - Video Editing 3 credit hours
- ART 180 - Introduction to Film 3 credit hours
- ART 260 - Video 2 3 credit hours
- ART 251 - Animation 1 3 credit hours
- ART 250 - Digital Portfolio Development 1 credit hour
Students may substitute ART 230 for ART 250.
- ART 275 - Digital Arts Internship 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Choose two courses from the following: 6 credits

- ART 121 - Black and White Photography 3 credit hours
- ART 125 - Drawing 1 3 credit hours
- ART 154 - 3D Computer Graphics 3 credit hours
- ART 166 - Graphic Design 1 3 credit hours
- ART 170 - Web Design 1 3 credit hours
- ART 181 - Introduction to American Film 3 credit hours
- ART 215 - Notable Film Directors 3 credit hours
- ART 216 - Independent Film 3 credit hours
- ART 236 - Digital Photography 2 3 credit hours
- ART 239 - Techniques of Photographic Lighting 3 credit hours
- ART 252 - Animation 2 3 credit hours
- ART 262 - Image & Design 3 credit hours

Electives: 5 credits

Students are recommended to consult with Visual Arts faculty when selecting electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Media Production Area of Concentration, students will be able to:

1. Create storyboards, use video equipment, and organize shoots and video crew;
2. Create, mix, and edit images, sounds, and video into presentation for various genres;
3. Develop skills in using digital video as a medium for storytelling;
4. Produce analysis and criticism of films;
5. Analyze the relationship between film and culture;
6. Apply various critical methodologies to interpret films;
7. Discuss history of film and film industry.

This program aligns with the college's core competencies.

Medical Assisting (A.A.S.)

Special Admission Requirements - Rolling Admission

Official Title of Major: Medical Assisting, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.MDA.MDA

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Medical Assisting Degree program

Purpose: Prepares students for employment in physicians' offices, hospital administrative offices, clinics, medical departments of industry and government and wherever basic office and clinical skills are required. Graduates are eligible to sit for certification examinations given by the American Association of Medical Assistants to become a Certified Medical Assistant, the American Medical Technologists to earn a Registered Medical Assistant Certification, and the National Healthcareer Association exam for Certified Medical Assistants and/or Medical Administrative Assistants. Persons who already are employed in this field may enroll in this program for career development.

Additional Program Requirements

All Medical Assisting Program students must receive a minimum grade of C in each medical assisting and general education course. Students who receive a final grade below C in any medical assisting course will be awarded a grade of F in that course.

Range of Occupations

- Administrative medical assistant
- Clinical medical assistant
- Medical office management

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Entrance/Admission Requirements

Admission Requirements

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Medical Assisting Program Sequence

Program Requirements

First Year - Term 1

- ACA 100 - Student Success Seminar *1 credit hour*
- MDA 111 - Laws and Ethics for Health Professionals *2 credit hours*
- MDA 113 - Medical Terminology *3 credit hours*
- MDA 115 - Administrative Medical Assisting 1 *3 credit hours*
- MDA 117 - Administrative Medical Assisting 2 *3 credit hours*
- MDA 200 - Electronic Health Records *3 credit hours*

Total credit hours: 15

First Year - Term 2

- MDA 112 - Pharmacology for Health Professions *3 credit hours*
- MDA 140 - Clinical Medical Assisting 1 *6 credit hours*
- MDA 142 - Clinical Medical Assisting 2 *4 credit hours*

Total credit hours: 13

First Year - Term 3

- MDA 274 - Professional Seminar *1 credit hour*
- MDA 275 - Medical Assisting Practicum *3 credit hours*
Practicum (MDA 275) internship requires 160 hours of unpaid supervised work experience in a physician's office or wherever medical office administration with clinical skills is required. Eligibility: Completion of all courses required for the MDA certificate with a minimum of 2.0 GPA; meeting the technical standards of the Medical Assisting department.

Total credit hours: 4

Second Year - Term 1

- BIO 230 - Structure and Function of the Human Body *4 credit hours*
- ENG 101 - Academic Writing and Research 1 *3 credit hours* **OR**
- ENG 101A - Academic Writing and Research 1 *3 credit hours*
- COM 111 - Fundamentals of Oral Communication *3 credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers *3 credit hours*
- PSY 111 - Introduction to Psychology *3 credit hours*

Total credit hours: 13

Second Year - Term 2

- SOC 111 - Introduction to Sociology *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*
- MDA 114 - Diseases of the Human Body *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*

Mathematics: 3 credits

- MAT 100 - The Nature of Mathematics 3 credit hours **OR**
- MAT 133 - Finite Mathematics 3 credit hours **OR**
- MAT 135 - Statistics 3 credit hours **OR**
- MAT 145 - Precalculus 1 3 credit hours

Total credit hours: 15

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Describe structural organization of the human body across the life span
2. Solve mathematical computations related to patient care and medication administration
3. Define the principles of Infection Control practiced within the ambulatory patient care setting
4. Identify the specific dietary needs related to maintaining health and disease prevention
5. Identify styles and types of effective communication techniques utilized in the healthcare setting
6. Explain the administrative functions performed in a health care setting
7. Describe basic practice finances performed by the medical assistant in the health care setting
8. Apply third party reimbursement methods related to health care operations
9. Describe how to use the most current procedural and diagnostic coding
10. Describe the legal implications related to the medical assistant scope of practice
11. Describe the ethical considerations of the medical assisting profession
12. Apply the principles of protective practices in the health care setting

This program aligns with the college's core competencies.

Medical Coding (certificate)

Special Admission Requirements - Program Application Deadline: July 15*

Official Title of Certificate: Medical Coding, Certificate

Award: Certificate

Code: CRT.IHE.MED-CODE

Total Credit Hours: 40-44

Visit www.aacc.edu to learn more about the Medical Coding Certificate program

Purpose: To provide eligibility status to sit for the Certified Professional Coder Examination (CPC) offered by the American Academy of Professional Coders or the Certified Coding Specialist (CCS) exam offered by the American Health Information Management Association.

Range of Occupations

Certified Coding Specialists and Certified Professional Coders work in physicians' offices, managed care organizations, ambulatory care centers or hospitals.

Additional Program Requirements

All Medical Coding students must receive a minimum grade of C in each medical coding course. Students who receive a final grade below a C in any medical coding course will be awarded a grade of F in that course.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Program Requirements

Prerequisites

- BIO 231 - Human Biology 1 *4 credit hours* **AND**
- BIO 232 - Human Biology 2 *4 credit hours*
OR
- BIO 233 - Anatomy and Physiology 1 *4 credit hours* **AND**
**BIO 101 (4 credits) is a prerequisite for BIO 233.*

- BIO 234 - Anatomy and Physiology 2 *4 credit hours*

- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*
- MDA 113 - Medical Terminology *3 credit hours*

Total credit hours: 14-18

Term 1

- HIT 111 - Introduction to Health Information Technology 1 *3 credit hours*
- HIT 217 - Introduction to ICD Coding *3 credit hours*
- HIT 218 - Introduction to CPT/HCPCS Coding *3 credit hours*
- MDA 112 - Pharmacology for Health Professions *3 credit hours*

Total credit hours: 12

Term 2

- HIT 222 - Reimbursement Methodologies *3 credit hours*
- MDA 114 - Diseases of the Human Body *3 credit hours*
- MDA 116 - Fundamentals of Health Care Delivery Systems *3 credit hours*
- HIT 221 - Advanced Coding *3 credit hours*

Total credit hours: 12

Term 3

- HIT 275 - Medical Coding Practicum *2 credit hours*

Total credits: 40-44

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Utilize technical, critical thinking and problem solving skills in their coding performance.
2. Practice their profession based on sound ethical values.

3. Promote and maintain cooperative and successful relationships between patients, physicians and other health care providers, and external and internal stakeholders.
 4. Promote advocacy of the profession through affiliations with professional organizations, marketing of professional skills, and by becoming vital members of the health care delivery system.
 5. Obtain eligibility to sit for certification examination.
 6. Practice the profession of medical coding with the recognition of and sensitivity to cultural and socioeconomic differences.
 7. Demonstrate effective written, oral, and nonverbal communication with patients and their families, colleagues, other health care providers, and the public.
 8. Participate in continuing education and the development of new knowledge and skills.
 9. Make a substantial contribution to the quality of health care in the United States and globally.
- This program aligns with the college's core competencies.

Medical Laboratory Assistant (certificate)

Special Admission Requirements - Spring application available June 1 - Deadline: November 15*
Fall application available Dec. 1 - Deadline: July 15*

Official Title of Certificate: Medical Laboratory Assistant, Certificate

Award: Certificate

Code: CRT.MLT.MLA

Total Credit Hours: 29

Purpose: Prepares students as trained clinical laboratory assistants in a variety of clinical laboratory settings including hospitals, clinics and physician office laboratories.

Range of Occupations

- Medical Laboratory Assistant

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

**If application deadline falls on a weekend, then applications will be accepted until the close of business on the next business day.*

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to the Apply & Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Certificate Requirements: 29 credits

First Term

- MLT 125 - Phlebotomy *4 credit hours*
- MLT 275 - Phlebotomy Practicum *2 credit hours*
- MLT 103 - Entry Level Clinical Laboratory Testing *4 credits*
- MDA 100 - Introduction to Medical Terminology *1 credit hour*
- MDA 110 - Professionalism in Health Care *1 credit hours*

Total credits: 12

Second Term

- MLT 102 - Quality Assurance and Quality Control *1 credit hour*

Total credits: 1

Third Term

- BIO 231 - Human Biology 1 *4 credit hours*
- MLT 100 - Introduction to the Medical Laboratory *4 credit hours*
- MLT 101 - Urinalysis and Body Fluids *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours*
- MLT 274 - Medical Laboratory Assistant Practicum *2 credit hours*

Total Credits: 16

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Use technical, critical thinking and problem-solving skills in their didactic and clinical experiences.
2. Practice their profession within the clinical laboratory legal framework, utilizing sound ethical values.
3. Promote and maintain cooperative and successful relationships between clients, patients, physicians, allied health providers, and the health care community.
4. Promote advocacy of the profession through affiliations with professional organizations, marketing of professional skills, and by becoming vital members of the health care delivery system.
5. Obtain eligibility to sit for certification and/or registration exams.
6. Practice the profession of clinical laboratory assistant with the recognition of, and sensitivity to, cultural and socioeconomic differences.

7. Demonstrate effective written, oral, and nonverbal communication with colleagues, other health care providers, and the public.
8. Participate in continuing education and the development of new knowledge and skills.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Medical Laboratory Technician (A.A.S.)

Special Admission Requirements - Program Application Deadline: July 15*

Title of Major: Medical Laboratory Technician, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Total Credit Hours: 66

Code: AAS.MLT.MLT

Visit www.aacc.edu to learn more about the Medical Laboratory Technician Degree program

Purpose: Prepares the student for entry-level employment in laboratory medicine to meet the current and the increasing demands for medical laboratory technicians. Medical laboratory technicians work in a variety of settings, such as hospitals, clinics, physician's offices, and independent laboratories. The medical laboratory technician performs phlebotomy procedures; procures and performs blood and non-blood testing in the clinical laboratory; and aids the physician in diagnosing, monitoring, and determining treatment modalities, functioning as an essential member of the health care team. Skills include preparation of specimens, examination and analysis of blood and non-blood specimens, microscopy, and using and maintaining automated laboratory equipment.

The Anne Arundel Community College Medical Laboratory Technician program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). NAACLS is recognized by the Council for Higher Education Accreditation (CHEA). NAACLS, 5600 N. River Road, Suite 720, Rosemont, IL 60018-5119, **773-714-8880**.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Range of Occupations

- Medical laboratory technician

Additional Program Requirements

A grade of C or better in each medical laboratory technician and general education course is required to progress in the program. Students practice selected procedures on each other, and perform manual and automated testing in the college laboratory. Students are required, after successful completion of coursework, to perform 480 unpaid practicum hours in the clinical setting.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

**If application deadline falls on a weekend, then applications will be accepted until the close of business on the next business day.*

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to the Apply & Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Medical Laboratory Technician Program Sequence

Program Requirements

First Year - Term 1

- BIO 231 - Human Biology 1 *4 credit hours* **OR**
- BIO 233 - Anatomy and Physiology 1 *4 credit hours*
*BIO 231 is the recommended course for the MLT program because BIO 101 - Fundamentals of Biology is a college prerequisite of BIO 233. Therefore, it will take two semesters to complete this science sequence. Students who take BIO 233 must have the MLT Academic Chair apply for BIO 231 course substitution before graduation. BIO 233 is recommended only for those students who have completed BIO 101 prior to entering the MLT program or those students who plan to continue their education in post-B.S. professional

programs such as medicine or pharmacy. Students who plan on transferring to Stevenson University's MLS program should take BIO 231 in keeping with the requirements of the transfer articulation agreement.

- CHE 111 - General Chemistry 1 *4 credit hours*
- MLT 100 - Introduction to the Medical Laboratory *4 credit hours*

English Composition: 3 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours* **OR**
- ENG 101A - Academic Writing and Research 1 *3 credit hours*

Total credit hours: 15

First Year - Term 2

- BIO 223 - General Microbiology *4 credit hours*
- SOC 111 - Introduction to Sociology *3 credit hours*
(*satisfies the college diversity requirement*)
- MAT 137 - College Algebra *3 credit hours*
MAT 145, MAT 151, MAT 191, or MAT 230 will satisfy the MAT 137 requirement.
(*Former MAT courses: MAT 121, MAT 131, MAT 141 or MAT 142 will also satisfy the MAT 137 requirement.*)
- MLT 101 - Urinalysis and Body Fluids *3 credit hours*
- MLT 102 - Quality Assurance and Quality Control *1 credit hour*

English Composition: 3 credits

- ENG 102 - Academic Writing and Research 2 *3 credit hours*

Total credit hours: 17

Summer

- COM 111 - Fundamentals of Oral Communication *3 credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*
(*satisfies the college computer competency requirement*)

Total credit hours: 6

Second Year - Term 1

- MLT 202 - Clinical Microbiology *4 credit hours*
- MLT 203 - Clinical Chemistry *4 credit hours*
- MLT 204 - Clinical Immunology/Immunohematology *4 credit hours*
- MLT 205 - Clinical Hematology *4 credit hours*

Total credit hours: 16

Second Year - Term 2

- MLT 206 - Advanced Clinical Chemistry 2 *credit hours*
- MLT 208 - Clinical Review 2 *credit hours*
- MLT 276 - Clinical Hematology Practicum 2 *credit hours*
- MLT 277 - Clinical Chemistry Practicum 2 *credit hours*
- MLT 278 - Clinical Microbiology Practicum 2 *credit hours*
- MLT 279 - Clinical Immunohematology Practicum 2 *credit hours*

Total credit hours: 12

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTA 100 or CTP 103.

Wellness Requirement

Wellness Requirement satisfied throughout the program by MLT 100, MLT 101, MLT 202, MLT 203, MLT 204, MLT 205, MLT 206, MLT 276, MLT 277, MLT 278, and MLT 279.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Utilize technical, critical thinking and problem-solving skills in their didactic and clinical experiences.
2. Apply ethical values and appropriate legal standards in clinical laboratory practice.
3. Promote and maintain cooperative and successful relationships between clients, patients, physicians, allied health providers, and the health care community.
4. Promote advocacy of the profession through affiliations with professional organizations, marketing of professional skills, and by becoming vital members of the health care delivery system.
5. Apply knowledge of cultural and socioeconomic difference to the practice of medical laboratory technology.
6. Demonstrate effective written, oral, and nonverbal communication with colleagues, other health care providers, and the public.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Mobile Device Application Development (certificate)

Official Title of Certificate: Mobile Device Application Development, Certificate

Award: Certificate

Code: CRT.CIS.MOBL-DEVICE

Total Credit Hours: 20

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Develop and apply programming skills, as well as Android and iOS development environment skills, to create applications for mobile devices such as iPads, iPhones, Android phones and tablets.

Range of Occupations

- Mobile device app developer

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 20 credits

- CTP 115 - Introductory Object-Oriented Program Analysis and Design *4 credit hours*
- CTP 118 - Web Development using HTML/CSS *4 credit hours*
- CTP 150 - Computer Science 1 *4 credit hours*
Students who have completed CSI 161 and CSI 162 are not required to take CTP 150. CSI 161 and CSI 162 will not be offered after spring 2015.
- CTP 230 - Android Programming *4 credit hours*
- CTP 232 - iPad/iPhone iOS Programming *1 4 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Program using the iOS operating system development environment.
- Develop meaningful applications for the iPhone and the iPad.
- Program using the Android operating system development environment.
- Develop meaningful applications for Android based smartphones and tablets.
- Develop web pages for portable devices such as smartphones and tablets.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Music - Arts and Sciences Transfer (A.A.)

Official Title of Major: Arts and Sciences Transfer - Music, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ARTS-SCI.MUSIC

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Performing Arts Department

Purpose: For students interested in pursuing professional training, transferring to a four-year institution or gaining personal enrichment by concentrating in music.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Arts and Sciences Transfer Program Core Course Requirements

The core courses for this degree are simultaneously satisfied by three of General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
 - ENG 102 - Academic Writing and Research 2 3 credit hours
- ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101 -ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.*

Arts and Humanities: 6 credits

- Communications course 3 credit hours
- Sophomore Literature course 3 credit hours

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics *3 credit hours*
OR
- MAT 135 - Statistics *3 credit hours*
OR
More advanced level if qualified from the list below:
- MAT 137 - College Algebra *3 credit hours*
- MAT 145 - Precalculus 1 *3 credit hours*
- MAT 146 - Precalculus 2 *3 credit hours*
- MAT 151 - Accelerated Precalculus *4 credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*
- MAT 202 - Linear Algebra *4 credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**

Students must choose one History course from the following:
- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional Requirements: 6 credits

- **Technology Requirement** *3 credit hours*
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** *3 credit hours*
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration Requirements: 26 credits

Required Courses: 18 credits

- MUS 113 - Music Theory and Ear Training 1 *4 credit hours*
- MUS 114 - Music Theory and Ear Training 2 *4 credit hours*
- MUS 141 - Class Piano 1 *2 credit hours*
One term of applied music MUS 207 or MUS 209 may be substituted with permission of the department chair.
- MUS 213 - Music Theory and Ear Training 3 *4 credit hours*
- MUS 214 - Music Theory and Ear Training 4 *4 credit hours*

Choose three ensemble performance courses from the following: 3 credits

- MUS 180 - Orchestra *1 credit hour*
- MUS 181 - Jazz Band *1 credit hour*
- MUS 182 - Concert Choir *1 credit hour*

- MUS 184 - Concert Band *1 credit hour*

Choose three applied music courses from the following: 3-5 credits

1-credit applied music courses:

- MUS 192B - Applied Music: Acoustic Bass *1 credit hour*
- MUS 193B - Applied Music: Bassoon Traditional *1 credit hour*
- MUS 194B - Applied Music: Cello Traditional *1 credit hour*
- MUS 195B - Applied Music: Clarinet Traditional *1 credit hour*
- MUS 196B - Applied Music: Electronic Synthesizer *1 credit hour*
- MUS 197B - Applied Music: Euphonium Traditional *1 credit hour*
- MUS 198B - Applied Music: Flute Traditional *1 credit hour*
- MUS 199B - Applied Music: Acoustic Guitar Traditional *1 credit hour*
- MUS 200B - Applied Music: Harp *1 credit hour*
- MUS 204B - Applied Music: Horn Traditional *1 credit hour*
- MUS 206B - Applied Music: Oboe Traditional *1 credit hour*
- MUS 207B - Applied Music: Organ *1 credit hour*
- MUS 208B - Applied Music: Percussion Traditional *1 credit hour*
- MUS 209B - Applied Music: Piano Traditional *1 credit hour*
- MUS 210B - Applied Music: Saxophone Traditional *1 credit hour*
- MUS 211B - Applied Music: Trombone Traditional *1 credit hour*
- MUS 212B - Applied Music: Trumpet Traditional *1 credit hour*
- MUS 215B - Applied Music: Tuba Traditional *1 credit hour*
- MUS 216B - Applied Music: Viola *1 credit hour*
- MUS 217B - Applied Music: Violin Traditional *1 credit hour*
- MUS 218B - Applied Music: Voice Traditional *1 credit hour*
- MUS 219B - Applied Music: Electric Bass Guitar Traditional *1 credit hour*
- MUS 220B - Applied Music: Dulcimer *1 credit hour*
- MUS 221B - Applied Music: Composition Traditional *1 credit hour*
- MUS 222B - Applied Music: Conducting Traditional *1 credit hour*

OR

2-credit applied music courses:

- MUS 192 - Applied Music: Acoustic Bass *2 credit hours*
- MUS 193 - Applied Music: Bassoon Traditional *2 credit hours*
- MUS 194 - Applied Music: Cello Traditional *2 credit hours*
- MUS 195 - Applied Music: Clarinet Traditional *2 credit hours*
- MUS 196 - Applied Music: Electronic Synthesizer *2 credit hours*
- MUS 197 - Applied Music: Euphonium Traditional *2 credit hours*
- MUS 198 - Applied Music: Flute Traditional *2 credit hours*
- MUS 199 - Applied Music: Acoustic Guitar Traditional *2 credit hours*
- MUS 200 - Applied Music: Harp *2 credit hours*
- MUS 204 - Applied Music: Horn Traditional *2 credit hours*
- MUS 206 - Applied Music: Oboe Traditional *2 credit hours*
- MUS 207 - Applied Music: Organ *2 credit hours*
- MUS 208 - Applied Music: Percussion Traditional *2 credit hours*
- MUS 209 - Applied Music: Piano Traditional *2 credit hours*

- MUS 210 - Applied Music: Saxophone Traditional 2 credit hours
- MUS 211 - Applied Music: Trombone Traditional 2 credit hours
- MUS 212 - Applied Music: Trumpet Traditional 2 credit hours
- MUS 215 - Applied Music: Tuba Traditional 2 credit hours
- MUS 216 - Applied Music: Viola 2 credit hours
- MUS 217 - Applied Music: Violin Traditional 2 credit hours
- MUS 218 - Applied Music: Voice Traditional 2 credit hours
- MUS 219 - Applied Music: Electric Bass Guitar Traditional 2 credit hours
- MUS 220 - Applied Music: Dulcimer 2 credit hours
- MUS 221 - Applied Music: Composition Traditional 2 credit hours
- MUS 222 - Applied Music: Conducting Traditional 2 credit hours

Elective: 0-2 credits

Recommend students check on transfer institution's requirements. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate complex ideas and information through writing, speaking, presenting, and using technology.
2. Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
3. Explain the value of tradition, innovation, and creativity.
4. Apply mathematical skills, critical analysis, and logical thinking to solve problems and interpret quantitative information.
5. Describe social diversity and the ways in which cultural values are historically and socially situated.
6. Accurately and authentically perform or create a musical composition using the skills acquired from Ensemble and Applied Music courses.
7. Analyze and create a musical composition using various analytical and composition techniques acquired from Music Theory & Ear Training and Music History courses.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Communications - Arts and Sciences Transfer (A.A.)
- Creative Writing - Arts and Sciences Transfer (A.A.)
- Dance - Arts and Sciences Transfer (A.A.)
- English - Arts and Sciences Transfer (A.A.)
- Film Studies - Arts and Sciences Transfer (A.A.)
- Gender and Sexuality Studies - Arts and Sciences Transfer (A.A.)
- Liberal Arts - Arts and Sciences Transfer (A.A.)
- Psychology - Arts and Sciences Transfer (A.A.)
- Theater - Arts and Sciences Transfer (A.A.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Network Security (certificate)

Official Title of Major: Network Security, Certificate

Award: Certificate

Code: CRT.CIS.NET-SEC

Total Credit Hours: 16

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: Gain the skills and knowledge required to configure LAN and WAN networks and to understand the basics of network cybersecurity theory and operation. Acquire in-depth knowledge of TCP/IP, Cisco IOS and experience configuring Cisco routers and switches.

Related Industry Certifications

This program provides partial foundation for the following industry recognized certifications: Network+ (CompTIA), and Security+ (CompTIA) industry certification exams.

Range of Occupations

- Customer service technician
- Help desk technician
- Internet security specialist
- Internet systems administrator
- IT compliance specialist
- Network administrator
- Network analyst
- Network support technician
- Service center technician
- Technical writer

Additional Certificate Requirements

Students must satisfy the prerequisites for each course in the certificate or have permission from the department chair to take each course.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Entrance/Admission Requirements

Entrance Requirements

Students must satisfy the prerequisites for each course in the certificate or have permission of the academic chair to take each course.

Certificate Requirements: 16 credits

- CTS 110 - Network Essentials *4 credit hours*
- CTS 140 - Network Security Fundamentals *4 credit hours*
- CTS 130 - Networking 1 *4 credit hours*
- CTS 131 - Networking 2 *4 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Effectively use Internet and Web technologies.
2. Design a network from scratch as well as maintain, upgrade, and troubleshoot an existing network.
3. Configure a router, manage Cisco IOS software, configure routing protocols on routers, and set the access lists to control the access to routers.
4. Identify the risks and threats to an organization's data and provide a structured way of addressing the safeguarding of these critical electronic assets.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Information Assurance and Cybersecurity (A.A.S.)
- Advanced Network Security (certificate)

Nursing (A.S.)

Special Admission Requirements

Spring application available: May 1	Deadline for spring application: August 10
--	---

Fall application available: December 1	Deadline for fall application: February 1
---	--

Official Title of Major: Nursing, A.S.

Award: Associate of Science degree, A.S.

Code: AS.NUR.RN

Total Credit Hours: A minimum of 70

Visit www.aacc.edu to learn more about the Nursing Degree program

Purpose: For students who wish to complete formal education with an Associate of Science degree. Graduates of the nursing (RN) program are eligible to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN). The nursing program is accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326 (**404-975-5000**) and approved by the Maryland Board of Nursing.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Range of Occupations

- Registered Nurse (RN)

Additional Program Requirements

A grade of B or better is required in BIO 231 or BIO 233 and a grade of C or better in all NUR and all general education courses to progress in the program.

All nursing students must receive a mark of satisfactory in the clinical laboratory. Students who receive a mark of unsatisfactory in the clinical laboratory at any time during the nursing course sequence will not be permitted to continue in the clinical laboratory and will receive a final grade of F.

Special Conditions

Health Manpower Shortage: This program of study is designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to the Apply and Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Recommended Course Sequence - Registered Nursing

Students must have a grade of C or better in all Registered Nursing courses and general education courses (with the exception of BIO 231/BIO 233, which must be a grade of B or better) to progress in the program. General education courses may be taken prior to acceptance into the RN program except for BIO 231/BIO 233, which must be taken prior to submitting application.

Term 1

- BIO 231 - Human Biology 1 4 credit hours
Must be completed with a B or better prior to submitting application. Must be taken within 7 years of the date the application is submitted.
- **OR**
- BIO 233 - Anatomy and Physiology 1 4 credit hours
Must be completed with a B or better prior to submitting application. Must be taken within 7 years of the date the application is submitted. BIO 101 - Fundamentals of Biology is a college prerequisite of BIO 233. Therefore, it will take three terms to complete this science sequence.

General Education Mathematics (MAT 137 or higher) 3 credit hours.
Must be completed with a C or better prior to submitting application.

- ENG 101 - Academic Writing and Research 1 3 credit hours **OR**
- ENG 101A - Academic Writing and Research 1 3 credit hours
ENG 101 or ENG 101A must be completed with a C or better prior to submitting application.
- PSY 111 - Introduction to Psychology 3 credit hours
- SOC 111 - Introduction to Sociology 3 credit hours
(satisfies the college diversity requirement)

Total credit hours: 16

Term 2

- BIO 232 - Human Biology 2 4 credit hours
Corequisite for NUR 120, NUR 121, and NUR 122

OR

- BIO 234 - Anatomy and Physiology 2 4 *credit hours*

LPN, Paramedic, Veterans to RN Advanced Placement

Special Admission Requirements - Rolling*

**Refer to Entrance/Admission Requirements for the Nursing (A.S.) program for detailed admission requirements.*

AACC and the American Public University System (APUS) have created an accelerated, dual enrollment program that combines credential assessment, credit transfer and online education to enable qualified LPNs, Paramedics or Veterans admission into the second year of the Nursing program at AACC.

Prerequisites

All prerequisite courses must be completed by the date the application is submitted. All science courses must be taken within 7 years of the date the application is submitted. The prerequisite course BIO 231/BIO 233 must be completed with a minimum grade of B. All other prerequisite courses must be completed with a minimum grade of C in each course.

A prerequisite cumulative GPA of 2.5 (no rounding) is also required.

- ENG 101 - Academic Writing and Research 1 3 credit hours **OR**
- ENG 101A - Academic Writing and Research 1 3 credit hours

- PSY 111 - Introduction to Psychology 3 credit hours
- PSY 211 - Developmental Psychology 3 credit hours
- General Education Mathematics (MAT 137 or higher) 3 credit hours
- BIO 223 - General Microbiology 4 credit hours
Must be taken within 7 years of the date the application is submitted.
- BIO 231 - Human Biology 1 4 credit hours **AND**
Must be taken within 7 years of the date the application is submitted.
- BIO 232 - Human Biology 2 4 credit hours
Must be taken within 7 years of the date the application is submitted.
- OR**
- BIO 233 - Anatomy and Physiology 1 4 credit hours **AND**
Must be taken within 7 years of the date the application is submitted. BIO 101 - Fundamentals of Biology is a college prerequisite of BIO 233. Therefore, it will take three terms to complete this science sequence.
- BIO 234 - Anatomy and Physiology 2 4 credit hours
Must be taken within 7 years of the date the application is submitted.

Recommended Course Sequence - LPN, Paramedic, Veterans to RN Advanced Placement

A grade of C or better in each Registered Nursing and general education course is required to progress in the program. General education courses may be taken prior to acceptance into the RN program. NURS 159 must be taken the semester prior to starting the nursing course sequence.

Term 1**

*NURS 159 Fundamentals, Adult and Childbearing Family Nursing Transition course - 6 credit hours
(APUS Course)

- NUR 180 - LPN, Paramedic or Veteran to RN Transition 2 credit hours
- SOC 111 - Introduction to Sociology 3 credit hours

Total credit hours: 11

Term 2

- **Arts and humanities general education course 3 credit hours**
See General Education Arts and Humanities Requirements for a list of approved courses.
- NUR 220 - Nursing of Adult Clients in Health and Illness 2 5 credit hours
- NUR 221 - Nursing Care of Children and Families 4 credit hours

Total credit hours: 12

Term 3

- **Arts and humanities general education course 3 credit hours**
See General Education Arts and Humanities Requirements for a list of approved courses.
- NUR 230 - Nursing Management of Clients with Complex Health Problems and Transition into Nursing 9 credit hours
- NUR 231 - Nursing Perspectives 2 1 credit hour

Total credit hours: 13

*About NURS 159

NURS 159 is a 6-credit, online, 16-week course through the American Public University System (APUS). AACC will notify APUS of selected students. APUS will then contact student to set up registration. Once student's registration is confirmed the student will receive information regarding the required books that will be needed for the course. Tuition for NURS 159 is \$270 per credit hour plus a \$50 technology fee. Veterans educational benefits are accepted. Once the course is successfully completed the student will request an official transcript be sent to AACC to continue to Term 2.

** For Veterans - Term 1 is not considered Full-Time by the US Department of Veterans Affairs, therefore benefits will be prorated.

Additional Admission Requirements

LPN Training

Official transcript from LPN training must be submitted to verify successful completion of LPN training from a state-approved licensed practical nursing program.

Clinical Experience

The following material must be submitted to continue the application process:

- Official transcript from a state-approved licensed practical nursing program.
- Copy of current active Maryland LPN license. LPNs must have an active unencumbered Maryland license in agreement with the Maryland Board of Nursing and the Maryland Higher Education Commission.
- Verification of current employment as an LPN for a minimum full-time equivalent (2080 hours) of one year within the last three calendar years.
- Submission of Clinical Experience Form.
- Submission of Work Performance Evaluation.

Paramedics

Official transcript from Paramedic training must be submitted to verify successful completion of Paramedic training from a state-approved licensed paramedic program.

Clinical Experience

The following material must be submitted to continue the application process.

- Official transcript from a state-approved licensed paramedic program.
- Copy of an active Maryland Paramedic license. Paramedics must have an active unencumbered Maryland license from the Maryland Institute for Emergency Medical Services Systems.
- Verification of current employment as a Paramedic for a minimum full-time equivalent (2080 hours) of one year within the last three calendar years.

- Submission of Clinical Experience Form.
- Submission of Work Performance Evaluation.

Veterans

Clinical Experience

- Applicants must be a Medic/Corpsman to qualify for this program with at least one year of experience within the last three calendar years.
- Submit a copy of your DD-214 (Certification of Release or Discharge from Active Duty) as verification of your required medical service.

Diversity Requirement

Satisfied by completion of SOC 111.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Utilize the 5 steps of the nursing process to determine and provide nursing care that is holistic, systematic, evidence-based, safe and grounded in understanding of the sciences, humanities, cultural diversity and nursing theory (Care Provider).
2. Analyze data, question assumptions and approach all clients with a curiosity resulting in safe clinical decisions that improve quality of care (Investigator).
3. Implement one's role as a professional in ways that reflect integrity, responsibility, ethical practices and an evolving identity as a nurse (Professional).
4. Collaborate with clients, families and the health care team to provide coordinated care that is holistic, safe and individualized for multiple clients in diverse health care settings (Collaborator).
5. Utilize teaching and learning strategies to promote knowledge that optimizes decisions related to health and wellness for clients, families, peers and the community (Educator).
6. Utilize professional and therapeutic communication strategies with clients, families and the health care team to promote positive client outcomes (Communicator).

This program aligns with the college's core competencies.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirement: 32 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course *3 credit hours*
- Sophomore Literature course *3 credit hours*

Biological and Physical Sciences: 8 credits

- BIO 101 - Fundamentals of Biology *4 credit hours*
- BIO 223 - General Microbiology *4 credit hours*

Mathematics: 3 credits

- MAT 137 - College Algebra *3 credit hours*
OR
More advanced level if qualified from the list below:
- MAT 145 - Precalculus 1 *3 credit hours*
- MAT 146 - Precalculus 2 *3 credit hours*
- MAT 151 - Accelerated Precalculus *4 credit hours*

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*
- MAT 202 - Linear Algebra 4 *credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) 3 *credit hours*

Social and Behavioral Sciences: 6 credits

- SOC 111 - Introduction to Sociology 3 *credit hours* **AND**
 Students must choose one History course from the following:
 - HIS 111 - Ancient and Medieval Western Civilizations 3 *credit hours*
 - HIS 112 - Early Modern and Modern Western Civilizations 3 *credit hours*
 - HIS 211 - United States History through the Civil War 3 *credit hours*
 - HIS 212 - United States History Since the Civil War 3 *credit hours*

Additional General Education Requirements: 3 credits

- **Technology Requirement** 3 *credit hours*
 Must choose from:
 - CTA 100 - Computing and Information Technology
 - CTP 103 - Theories and Applications of Digital Technology

Area of Concentration Requirements: 28 credits

- BIO 135 - Principles of Nutrition 3 *credit hours*
- BIO 233 - Anatomy and Physiology 1 4 *credit hours*
- BIO 234 - Anatomy and Physiology 2 4 *credit hours*
- CHE 111 - General Chemistry 1 4 *credit hours*
OR
- CHE 115 - General, Organic and Introduction to Biochemistry 4 *credit hours*
- MAT 135 - Statistics 3 *credit hours*
- PSY 111 - Introduction to Psychology 3 *credit hours*
- PSY 211 - Developmental Psychology 3 *credit hours*
- Elective 4 *credit hours*

No more than 3 credits of physical activity courses may be used as electives.

Note: Students transferring to the University of Maryland Baltimore should take CHE 115. Students transferring to an allied health program that requires two terms of chemistry should take CHE 111 and either CHE 112 or CHE 113, depending on the requirements of the transfer institution.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Satisfied by CTA 100 or CTP 103.

Wellness Requirement

Satisfied by BIO 135.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline-specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

This program aligns with the college's core competencies.

Related Anne Arundel Community College Degree

Students seeking entry to Anne Arundel Community College's Nursing (RN) degree should refer to the registered nurse information in this catalog.

Nutrition - Arts and Sciences Transfer (A.S.)

Official Title of Major: Arts and Sciences Transfer - Nutrition, A.S.

Award: Associate of Science degree, A.A.S.

Code: AS.ARTS-SCI.NUTRI

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Biology Department

Purpose: Prepares students for transfer to four-year institutions offering Bachelor of Science degrees in nutrition.

Following the completion of this two year transfer option, students would be ready to enroll in an accredited dietetics program at a four-year institution. Once the bachelor's degree in dietetics is obtained, students would need to apply for and complete an internship experience at an accredited facility. This enables the student to take the registration exam for dietitians, thus earning the credential of "registered dietitian."

Office Applications Specialist (lor)

Official Title of Letter of Recognition: Office Applications Specialist, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: 8

Visit www.aacc.edu to learn more about the Computer Sciences Department

Purpose: Provides office staff and technical and non-technical professional personnel an opportunity to develop a comprehensive foundation in the use of computers to produce solutions to word processing, spreadsheet and database management problems. Introduces students to comprehensive use of major software applications packages. Emphasis is on using word processing, spreadsheet and database management software to address typical office applications. With this letter of recognition, students have a choice of learning comprehensive software in two of the three areas: word processing, spreadsheet or database management.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Entrance/Admission Requirements

Entrance Requirements

Students must have a strong computer background or permission of the Microsoft Office Specialist (MOS)/Applications coordinator.

Degree/Award Requirements

Award Requirements

Students must complete each of the required CTA, CTP or CTS courses with a grade of C or better. Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 8 credits

Select two courses from the list below:

- CTA 111 - Personal Computer Word Processing Applications *4 credit hours*
- CTA 115 - Personal Computer Database Management Systems *4 credit hours*
- CTA 116 - Personal Computer Spreadsheet Applications *4 credit hours*

Career and Educational Advancement Resources

Paralegal Studies (A.A.S.)

Official Title of Major: Paralegal Studies, A.A.S.

Award: Associate of Applied Science degree, A.A.S

Code: AAS.PARA-STUDIES

Total credit hours: 60

Visit www.aacc.edu to learn more about the Legal Studies Institute

American Bar Association approved.

Purpose: This American Bar Association-approved program prepares students for employment in the paralegal field or to meet the requirements for promotion and/or additional career responsibility. Paralegal courses are taught by judges, practicing attorneys, and experts in the field, with an emphasis on practical applications. Employment projections suggest that the paralegal field will be one of the fastest-growing careers during the next several years. Students may enroll in either full-or part-time courses that are offered in day, evening, online, and weekend formats.

Range of Occupations

- Court administrative assistant
- Court clerk
- Law office manager
- Legal assistant
- Litigation paralegal
- Personal injury paralegal
- Medical malpractice paralegal
- Mediator
- Family law paralegal
- Paralegal for the State's Attorney and/or Public Defender
- Victim advocate

Note: Paralegals may not provide legal services to the public except as permitted by law.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

General Education Requirements: 22 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- LGS 271 - Civil Rights Law 3 *credit hours*
LGS 271 will also satisfy the diversity requirement.

Biological and Physical Sciences: 4 credits

One laboratory science course required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

- MAT 100 - The Nature of Mathematics 3 *credit hours*
Or more advanced level if qualified. Due to a variety of transfer requirements at four-year schools, students should consult with an advisor or refer to the math department listed by their transfer school before choosing a math course.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 3 credits

- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 38 credits

- LGS 111 - Introduction to Paralegal Studies 3 *credit hours*
- LGS 112 - Law Office Practice and Technology 3 *credit hours*
- LGS 141 - Electronic Legal Research 1 *credit hour*
- LGS 143 - Legal Research and Writing 1 3 *credit hours*
- LGS 144 - Legal Research and Writing 2 3 *credit hours*
- LGS 170 - Civil Procedure 3 *credit hours*
- LGS 210 - Legal Ethics 3 *credit hours*
- LGS 215 - Criminal Law 3 *credit hours*
- LGS 253 - Business Law 1 3 *credit hours*

Choose one of the following:

- LGS 160 - Domestic Relations 3 *credit hours*
- OR**
- LGS 171 - Tort Law 3 *credit hours*

Electives (consult with an advisor and/or paralegal studies) 10 credit hours *Students must have a minimum of 9 credits of legal specialty electives, which **excludes** the following courses: LGS 100, LGS 156, LGS 217, LGS 218, LGS 225, LGS 232, LGS 250, LGS 270 and LGS 271. Students may choose a one-credit general elective in order to achieve the 60 credits needed for graduation. See suggested electives below. Suggested electives are based on student interest in a particular area of law.*

Suggested electives for each practice area:

Civil:

LGS 160 (if not used to satisfy a program requirement above)

LGS 171 (if not used to satisfy a program requirement above)

LGS 220

LGS 230

Criminal:

LGS 205

LGS 216

Domestic:

LGS 165

LGS 235

LGS 281

Transactional:

LGS 200

LGS 235

LGS 236

LGS 254

LGS 260

LGS 281

Diversity Requirement

Satisfied by LGS 271.

Technology Requirement

Satisfied by LGS 112.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Explain basic legal concepts, issues and terminology in subject matter areas that are essential to the practice of law.
2. Apply critical thinking skills to identify, analyze, and interpret legal and factual issues and effectively interface with clients and attorneys.
3. Demonstrate effective legal research, writing, and oral communication skills.

4. Apply general principles of ethical and professional responsibility to the role of paralegals and attorneys in the practice of law.

5. Apply practical legal skills and legal theory to assist attorneys in the practice of law.

This program aligns with all the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Paralegal Studies - (certificate)

Official Title of Certificate: Paralegal Studies, Certificate

Award: Certificate

Code: CRT.PARA-STUDIES

Total Credit Hours: 31 credit hours

Visit www.aacc.edu to learn more about the Legal Studies Institute

Purpose: Basic information is presented to prepare students for employment in the paralegal field or to meet the requirements of persons already employed in the paralegal field who wish to obtain college credit and move into more advanced supervisory positions. Students may pursue the certificate program on a full- or part-time basis and courses are offered in day, evening and weekend and accelerated formats.

Range of Occupations

- Administrative assistant
- Court administrative assistant
- Court clerk
- Law office manager
- Legal assistant
- Legislative legal assistant
- Real estate settlement officer
- Victim advocate

Note: Paralegals may not provide legal services to the public except as permitted by law.

Additional Program Requirements

Verification by the college that the student obtained a bachelor's degree or associate's degree prior to enrollment in the Paralegal Studies certificate program.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Entrance Requirements

Students entering the Paralegal Studies certificate program must hold prior to enrollment either a bachelor's degree or an associate's degree from a regionally accredited college or university whose program included at least 18 hours of general education courses, including ENG 101 and ENG 102, as well as courses in at least two other disciplines, such as social sciences, natural sciences, mathematics, humanities and foreign language. Students are required to forward to the college prior to enrollment an official transcript from the institution where their bachelor's degree or associate degree was obtained.

Program Requirements: 31 credits

- LGS 253 - Business Law 1 *3 credit hours*

Electives (consult with an advisor and/or paralegal studies): 6 credits

*Students must have 6 credits of legal specialty electives, which **excludes** the following courses: LGS 100, LGS 156, LGS 217, LGS 225, LGS 232, LGS 250, LGS 270 and LGS 271. See the suggested electives below. Suggested electives are based on student interest in a particular area of law.*

Suggested electives for each practice area:

Civil:

LGS 160
LGS 171
LGS 220
LGS 230

Criminal:

LGS 205
LGS 216

Domestic:

LGS 165
LGS 235
LGS 281

Transactional:

LGS 200
LGS 235
LGS 236

LGS 254
LGS 260
LGS 281

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Explain basic legal concepts, issues, and terminology in subject matter areas that are essential to the practice of law.
2. Apply critical thinking skills to identify, analyze, and interpret legal and factual issues and effectively interface with clients and attorneys.
3. Strengthen legal research, writing, and oral communication skills.
4. Apply general principles of ethical and professional responsibility to the role of paralegals and attorneys in the practice of law.
5. Apply practical legal skills and legal theory to assist attorneys in the practice of law.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

Paramedic (certificate)

Special Admission Requirements - Rolling Admission (*admits twice a year: January & August*)

Official Title of Certificate: Paramedic, Certificate

Award: Certificate and eligibility for the National Registry Paramedic (NRP) written and practical exams.

Code: CRT.EMT.P

Total Credit Hours: 45

Visit www.aacc.edu to learn more about the Paramedic Certificate Program

Purpose: Prepares students for state and national certification as a Paramedic (NRP). There is a fee for the national exam.

The AACC Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), and approved as a Maryland EMS Educational Program by the Maryland Emergency Medical Services Board (MEMSB) upon the recommendation of the Maryland Institute for Emergency Medical Services Systems (MIEMSS).

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance

finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Additional Program Requirements

Students must meet academic and admission requirements prior to admission. Students will be expected to practice certain skills on each other in the college lab. Mandatory attendance requirements apply to all classes in the EMT areas of study. A minimum grade of C is required in all EMT curriculum courses required in the program.

Range of Occupations

- Paramedic in local emergency medical services system, industry or health care setting.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Entrance/Admission Requirements

To view all entrance/admission details, please go to the Apply & Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Paramedic Certificate Course Sequence

Note: All prerequisite courses require a grade of C or better.

Prerequisites 5 credits

**Note: All prerequisites are waived for the 2022-2023 academic year.*

- ACA 100 - Student Success Seminar 1 credit hour
OR

- ACA 110 - Achieving Success in the Online Classroom *1 credit hour*
Certificate seeking students must consult an academic adviser or program coordinator for specified math eligibility requirements.
OR evidence of completion of 27 academic credits with a cumulative GPA of 2.0
AND
- BIO 230 - Structure and Function of the Human Body *4 credit hours* **OR**
- BIO 232 - Human Biology 2 *4 credit hours* **OR**
(BIO 231 is a prerequisite for BIO 232.)
- BIO 234 - Anatomy and Physiology 2 *4 credit hours*
(BIO 101 and BIO 233 are prerequisites for BIO 234.)

Certificate Requirements 40 credits

Must be taken sequentially.

- EMT 115 - Introduction to Paramedic *2 credit hours*
- EMT 118 - Paramedic 1 *13 credit hours*
- EMT 119 - Paramedic 2 *13 credit hours*
- EMT 215 - Paramedic 3 *5 credit hours*
- EMT 270 - Paramedic Capstone *7 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Define the roles and responsibilities of a paramedic within an EMS system.
2. Communicate effectively using appropriate medical terminology.
3. Communicate in verbal and written form treatment plans for patients experiencing medical emergencies and traumatic injuries.
4. Communicate effectively as team leader proper extrication and treatment modalities.
5. Use a variety of advanced life support equipment.
6. Identify text-based and electronic information resources for research.
7. Discuss current health issues and preventative measures as they relate to self and medicine.
8. Investigate causes/consequences of stress.
9. Implement a treatment plan for patients experiencing medical emergencies and traumatic injuries.
10. Solve drug calculation problems and administer the correct dosage of medication.
11. Apply professional ethical and legal frameworks to their work in the profession.
12. Apply acceptable standards of practice within the scope of paramedic practice.
13. Provide quality direct patient care for a culturally diverse group of patients.
14. Integrate pathophysiological and psychosocial principles to adapt the assessment and treatment plan for patients facing physical, mental, social and financial challenges.
15. Integrate pathophysiological and psychosocial principles to adapt the assessment and treatment plan for patients from diverse backgrounds, age groups, ethnic and religious origins.
16. Apply knowledge of disease pathophysiology in the Prehospital arena.
17. Perform advanced life support procedures.
18. Evaluate role playing exercises.
19. Summarize the pathophysiology and treatment plans for patients experiencing medical emergencies and traumatic injuries across the age spectrum.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Emergency Medical Technician-Paramedic (A.A.S.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Pathway to Teaching Adults (lor)

Official Title of Letter of Recognition: Pathway to Teaching Adults, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: A minimum of 6

Purpose: This letter of recognition is appropriate for those individuals working with adult learners. The courses contained in this letter of recognition will increase the breadth and depth of skills and knowledge related to successful teaching and learning. Enhanced instructional effectiveness will maximize quality teaching and promote student success.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Degree/Award Requirements

Degree Requirements

Demonstrated eligibility for ENG 101/ENG 101A. Completion of each of the required courses with a grade of C or better.

Award Requirements

Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 6 credits

- EDU 210 - Teaching the Adult Learner *1 credit hour*
- EDU 213 - Strategies for Teaching Adults with Diverse Needs *1 credit hour*
- EDU 219 - Assessing the Adult Learner *1 credit hour*

Electives (must complete 3 to earn Letter of Recognition)

- EDU 209 - Online Instructional Methods *1 credit hour*
- EDU 212 - Engaging and Supporting Students *1 credit hour*
- EDU 216 - Technology for Educators *1 credit hour*

- EDU 217 - Energizing Your Presentations *1 credit hour*
- EDU 220 - Innovation in Education *1 credit hour*
- EDU 230 - Educator Portfolio Development *1 credit hour*
- EDU 236 - Culturally Responsive Instruction *1 credit hour*
- EDU 271 - Management Strategies in the Classroom *1 credit hour*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Identify the characteristics of adult learners
2. Discuss pedagogical techniques to facilitate successful learning for adult learners
3. Design assessments for use with adult learners
4. Identify strategies for teaching adults with diverse needs

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

PC Maintenance (lor)

Official Title of Letter of Recognition: PC Maintenance, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: 9-10

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: As the use of PCs expands into virtually every area of business, more people are being called upon to maintain and upgrade those systems. This option provides a basic knowledge base in repairing, assembling and upgrading PCs. It will also help students prepare for the A+ certification test.

Note: The A+ certification test is not given in this option.

Range of Occupations

- PC hardware technician

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Degree/Award Requirements

Degree Requirements

Completion of each of the required courses with a grade of C or better.

Award Requirements

Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 9-10 credits

- CTA 100 - Computing and Information Technology 3 credit hours **OR**
- CTS 110 - Network Essentials 4 credit hours
Students who have some experience with basic computer operations are encouraged to select CTS 110. If students do select CTS 110, they should take it after CTA 105.
- CTA 105 - Theory and Troubleshooting Microcomputers 1 3 credit hours
- CTA 205 - Theory and Troubleshooting Microcomputers 2 3 credit hours

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Personal Trainer (certificate)

Official Title of Certificate: Personal Trainer, Certificate

Award: Certificate

Code: CRT.HEA.PER-TRAIN

Total Credit Hours: 17

Visit www.aacc.edu to learn more about the Personal Trainer Certificate Program

Purpose: The certificate is designed to provide a background in basic exercise principles, health screening, fitness assessments, nutrition, behavior change, communication and exercise program design within the current fitness industry standards. Hands-on experience will be integrated into the program.

A certificate in Personal Training provides students with the competencies necessary to become an effective entry-level professional. The curriculum provides coursework and experience that prepares the student to sit for many nationally recognized personal trainer and health coach certifications.

This certificate will provide the foundation of courses for those interested in advancing to receive an Associate of Science Degree in Health, Fitness and Exercise Studies at Anne Arundel Community College.

Additional Certificate Requirements

Completion of the required courses with a grade of C or better in each course.

Range of Occupations

- Personal trainer
- Fitness specialist for corporate, commercial, private, municipal and community facilities

- Health coach

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 17 credits

Course Requirements

- HEA 100 - Assessment and Theory of Fitness and Health *3 credit hours*
- HEA 101 - Foundations of Health, Exercise and Sport *3 credit hours*
- HEA 138 - Nutrition for Fitness and Sport *1 credit hour* **OR**
- BIO 138 - Nutrition for Fitness and Sport *1 credit hour*
OR
- HEA 137 - Weight Management: Utilizing Healthy Approaches to Diet and Physical Activity *1 credit hour*

Photography (certificate)

Official Title of Certificate: Photography, Certificate

Award: Certificate

Code: CRT.VSL.PHOTOGRAPHY

Total Credit Hours: A minimum of 22

Visual Arts and Humanities

Purpose: The photography certificate is offered for students who desire a concentrated introduction to photography for career purposes or personal enrichment.

The courses develop an individual's skills in photographic production and technique as well as darkroom and studio procedures. Students will become familiar with the camera operation, studio lighting as well as digital and analog printing methods.

Range of Occupations

- Editorial Photographer
- Fine Art Photographer
- Commercial Photographer
- Photographic assistant

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 22 credits

- ART 120 - Digital Photography 1 *3 credit hours*
- ART 121 - Black and White Photography *3 credit hours*
- ART 212 - History of Photography *3 credit hours*
- ART 231 - Photography Portfolio Development *1 credit hour*
- ART 236 - Digital Photography 2 *3 credit hours*
- ART 239 - Techniques of Photographic Lighting *3 credit hours*

Choose two of the following courses: 6 credits

- ART 122 - Color Photography *3 credit hours*
- ART 237 - Photojournalism *3 credit hours*
- ART 238 - Alternative Photographic Process *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Communicate effectively in verbal, nonverbal and written forms.
- Use appropriate technology that supports or facilitates communication.
- Collect, organize, compute and interpret quantitative and qualitative data and/or information.
- Apply mathematics, science and technology to make decisions.
- Apply critical thinking skills to solve problems using basic research, analysis and interpretation.
- Identify, locate and use informational tools for research on alternative, historical and photojournalistic processes.
- Apply ethical and cultural awareness, an understanding of cultural diversity, and effective and appropriate modes of social interaction to the practice of photography.
- Apply knowledge of safety practices and regulations in the labs.

This program aligns with college's core competencies.

Photography - Visual Arts Transfer (A.A.)

Official Title of Major: Visual Arts Transfer - Photography, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.VSL.PHOTO

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Photography Program

Purpose: In a world saturated by images, photography has become a language of our modern culture. With that in mind, students in the photography program at Anne Arundel Community College will learn to create more expressive and engaging photographs. A wide variety of beginning and advanced courses in both digital and analog photography allow students to explore the many creative possibilities the medium has to offer while also gaining a strong technical foundation in the craft.

Upon completing the photography concentration students are able to transfer to a four-year institution or go straight into the field. Possible professions include a wide variety of applied and creative professions, including but not limited to editorial photographer, studio photographer and fine art photographer.

Students must have a DSLR camera with manually adjustable f-stop and shutter speed controls.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Transfer Program Core Courses

The program core for this degree consists of ART 100 (satisfied through the Arts and Humanities general education requirement as listed below); ART 106 (satisfied through the Technology Requirement as listed below); and ART 125 (satisfied through the area of concentration requirement as listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 31 credits

An approved list of general education courses can be found in the General Education Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement

Arts and Humanities: 6 credits

- ART 100 - Two-Dimensional Design 3 *credit hours*
AND
- ART 209 - History of Western Art 1 3 *credit hours*
OR
- ART 210 - History of Western Art 2 3 *credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 6 credits

Must select two different disciplines. See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirement: 3 credits

- **Wellness Requirement** 3 *credit hours*
See General Education Wellness Requirement for a list of approved courses.

Area of Concentration: 29 credits

Students must complete all of these courses with a grade of C or better.

Required Photography Courses: 16 credits

- ART 120 - Digital Photography 1 3 *credit hours*
- ART 121 - Black and White Photography 3 *credit hours*
- ART 212 - History of Photography 3 *credit hours*
- ART 231 - Photography Portfolio Development 1 *credit hour*
- ART 236 - Digital Photography 2 3 *credit hours*

And, choose one of the following:

- ART 237 - Photojournalism 3 *credit hours*
- ART 238 - Alternative Photographic Process 3 *credit hours*
- ART 239 - Techniques of Photographic Lighting 3 *credit hours*
- ART 278 - Color Darkroom Practicum 3 *credit hours*

Additional Art Requirements: 6 credits

- ART 125 - Drawing 1 3 *credit hours*
- And, choose one of the following:
- ART 102 - Three-Dimensional Design 3 *credit hours*

- ART 131 - Painting 1 3 credit hours
- ART 160 - Video 1 3 credit hours
- ART 161 - Video Editing 3 credit hours
- ART 166 - Graphic Design 1 3 credit hours
- ART 200 - Drawing 2 3 credit hours
- ART 237 - Photojournalism 3 credit hours
- ART 238 - Alternative Photographic Process 3 credit hours
- ART 239 - Techniques of Photographic Lighting 3 credit hours
- ART 262 - Image & Design 3 credit hours
- ART 278 - Color Darkroom Practicum 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Electives: 4 credits

Students are recommended to check on transfer institution's requirements before selecting electives. No more than 3 credit hours of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Photography Concentration, students will be able to:

1. Explain visual arts history, processes, and terminology.
2. Apply elements and principles of visual design in creation of original imagery.
3. Apply principles of photographic image capture, manipulation, print, and production.
4. Develop a personal portfolio to present at interviews for both transfer and job-related activities.

This program aligns with the college's core competencies.

Related Offerings

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Physical Therapist Assistant (A.A.S.)

Special Admission Requirements - Program Application Deadline: March 30*

Official Title of Major: Physical Therapist Assistant, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.PTA.PTA

Total Credit Hours: A minimum of 70

Visit www.aacc.edu to learn more about the Physical Therapist Assistant Degree program

Purpose: Prepares students to provide physical therapy services according to the plan of care developed by the physical therapist. The physical therapist assistant (PTA) administers direct patient care; teaches patients, families and other health care providers how to perform selected interventions; and provides desired psychosocial support to patients and their families. Physical therapist assistants are employed primarily in hospitals, rehabilitation centers, private practice, extended-care facilities and home health care settings. Graduates are eligible to take the National Licensing Examination for Physical Therapist Assistants. The CACHE Physical Therapist Assistant program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Avenue, Alexandria, Virginia 22305; telephone: **703-706-3245**; email: accreditation@apta.org; website www.capteonline.org.

The Physical Therapist Assistant program is administered by the Chesapeake Area Consortium for Higher Education (CACHE). Members of the consortium include Anne Arundel, Chesapeake College and the College of Southern Maryland. Students will complete their professional training at Anne Arundel Community College and their clinical practice rotations at local service areas when possible. Distance learning will be used as appropriate.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Additional Program Requirements

A grade of C or better in each physical therapist assistant and general education course is required to progress in the program. Students are expected to practice selected procedures on each other in the college laboratory.

Range of Occupations

- Physical therapist assistant (PTA)

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

**If application deadline falls on a weekend, then applications will be accepted until the close of business on the next business day.*

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to the Apply & Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Physical Therapist Assistant Course Sequence

All general education and physical therapist assistant courses must be completed with a grade of C or better and completed no later than what is listed in the required course sequence.

Program Requirements

First Year - Fall Term

- BIO 231 - Human Biology 1 4 credit hours **OR**
- BIO 233 - Anatomy and Physiology 1 4 credit hours
BIO 101 is a prerequisite for BIO 233.

- ENG 101 - Academic Writing and Research 1 3 *credit hours* **OR**
- ENG 101A - Academic Writing and Research 1 3 *credit hours*
- MAT 137 - College Algebra 3 *credit hours*
MAT 145, MAT 151, MAT 191, or MAT 230 satisfies the MAT 137 requirement
(Former MAT courses: MAT 121, MAT 131, MAT 141, or MAT 142 will also satisfy the MAT 137 requirement.)
- PSY 111 - Introduction to Psychology 3 *credit hours*
- PTA 101 - Introduction to Physical Therapist Assistant 3 *credit hours*

Total credit hours: 16

First Year - Spring Term

- BIO 232 - Human Biology 2 4 *credit hours* **OR**
- BIO 234 - Anatomy and Physiology 2 4 *credit hours*
- PTA 102 - Physical Therapist Assistant 1 6 *credit hours*
- PTA 106 - Kinesiology 6 *credit hours*

Total credit hours: 16

First Year - Summer Term

- PSY 211 - Developmental Psychology 3 *credit hours*
- PTA 104 - Physical Therapist Assistant 2 6 *credit hours*
- PTA 105 - Clinical Practice 1 2 *credit hours*

Total credit hours: 11

Second Year - Fall Term

- PTA 201 - Physical Therapist Assistant 3 4 *credit hours*
- PTA 202 - Physical Therapist Assistant 4 4 *credit hours*
- PTA 203 - Clinical Practice 2 4 *credit hours*

Arts and humanities: 3 credits

See General Education Arts and Humanities Requirements for a list of approved courses.

Total credit hours: 15

Second Year - Spring Term

- PTA 204 - Physical Therapist Assistant 5 3 *credit hours*
- PTA 205 - Current Issues and Trends Affecting the Physical Therapist Assistant 1 *credit hour*
- PTA 206 - Clinical Practice 3 4 *credit hours*
- PTA 207 - Clinical Practice 4 4 *credit hours*

Total credit hours: 12

Diversity Requirement

Completion of the Physical Therapist Assistant Program satisfies the college's diversity requirements.

Technology Requirement

Completion of the Physical Therapist Assistant Program satisfies the college's technology requirements.

Wellness Requirement

Completion of the Physical Therapist Assistant Program satisfies the college's wellness requirements.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Assist a physical therapist in the delivery of selected interventions in an ethical, legal, safe and effective manner under the direction and supervision of a physical therapist, consistent with the standards of practice of the profession.
2. Use critical thinking and problem solving skills to perform data collection, conduct tests and measures, and implement outcome-oriented interventions, within the plan of care developed by the physical therapist.
3. Teach patients, families and other health care providers selected treatment interventions and participate in discharge planning under the direction and supervision of a physical therapist.
4. Provide psychosocial support to patients and families.
5. Utilize effective communication skills when interacting with patients, families and other interprofessional team members.
6. Be prepared to take the National Physical Therapy Examination for Physical Therapist Assistants.

This program aligns with all the college's core competencies.

Notice to Students

Anne Arundel Community College is one of three Maryland community colleges which have formed a special consortium. The Chesapeake Area Consortium for Higher Education (CACHE) includes Anne Arundel, Chesapeake College and the College of Southern Maryland.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Physics - Arts and Sciences Transfer (A.S.)

Official Title of Major: Arts and Sciences Transfer - Physics, A.S.

Award: Associate of Science degree, A.S.

Code: AS.ARTS-SCI.PHY

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Physical Sciences Department

Purpose: Prepares students for transfer to four-year institutions offering Bachelor of Science degrees in various professional disciplines including physics.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 33 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 *credit hours*
- Sophomore Literature course 3 *credit hours*

Biological and Physical Sciences: 8 credits

- CHE 111 - General Chemistry 1 4 *credit hours*
- CHE 112 - General Chemistry 2 4 *credit hours*

Mathematics: 4 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) 3 *credit hours* **AND**
Students must choose one History course from the following:
 - HIS 111 - Ancient and Medieval Western Civilizations 3 *credit hours*

- HIS 112 - Early Modern and Modern Western Civilizations 3 credit hours
- HIS 211 - United States History through the Civil War 3 credit hours
- HIS 212 - United States History Since the Civil War 3 credit hours

Additional General Education Requirements: 3 credits

- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirement for a list of approved courses.

Area of Concentration Requirements: 27 credits

- MAT 192 - Calculus and Analytic Geometry 2 4 credit hours
- MAT 201 - Calculus and Analytic Geometry 3 4 credit hours
- MAT 202 - Linear Algebra 4 credit hours
OR
- MAT 212 - Differential Equations 4 credit hours
- PHY 211 - General Physics 1 4 credit hours
- PHY 212 - General Physics 2 4 credit hours
- PHY 213 - General Physics 3 4 credit hours
- **Electives** (consult with an advisor) 3 credit hours
Elective must be used to satisfy the Technology Requirement if it has not been demonstrated otherwise. See Technology Requirement for a list of approved courses. Other recommended courses include MAT 202 or MAT 212.

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

This program aligns with the college's core competencies.

Related Offerings

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- **Communications course** *3 credit hours*
Strongly recommend COM 111 or COM 116
- **Sophomore Literature course** *3 credit hours*
See General Education Arts & Humanities Requirements for a list of approved Communications and Sophomore Literature courses.

Biological and Physical Sciences: 7 credits

- BIO 103 - General Botany *4 credit hours*
- BIO 215 - Restoration Ecology *3 credit hours*

Mathematics: 3 credits

- MAT 145 - Precalculus 1 *3 credit hours*
OR

More advanced level if qualified from the list below:
 - MAT 146 - Precalculus 2 *3 credit hours*
 - MAT 151 - Accelerated Precalculus *4 credit hours*
 - MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
 - MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*
 - MAT 202 - Linear Algebra *4 credit hours*
 - MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- SOC 111 - Introduction to Sociology *3 credit hours* **AND**

Students must choose one History course from the following:
 - HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
 - HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*

- HIS 211 - United States History through the Civil War 3 credit hours
- HIS 212 - United States History Since the Civil War 3 credit hours

Additional General Education Requirements: 6 credits

- CTA 100 - Computing and Information Technology 3 credit hours
If appropriate, a different CTA or CTP course that meets the General Education Technology Requirement may be selected. Students should consult an advisor and the transfer institution before enrolling.
- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirement for a list of approved courses.

Area of Concentration Requirements: 26 credits

- BIO 113 - Sustainable Horticulture 4 credit hours
- BIO 116 - Introduction to Landscaping 3 credit hours
- BIO 201 - Plant Taxonomy 4 credit hours
- BIO 207 - Plant Propagation 3 credit hours
- CHE 111 - General Chemistry 1 4 credit hours
- CHE 112 - General Chemistry 2 4 credit hours
- **Electives:** 4 credit hours

Suggested electives include:

- BIO 107 - Environmental Science 4 credit hours
 - BIO 210 - Ecological Principles and Environmental Assessment 4 credit hours
 - BIO 220 - Genetics with Laboratory 4 credit hours
 - BIO 223 - General Microbiology 4 credit hours
- No more than 3 credits of physical activity courses may be used as electives.*

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of General Education Requirements listed above: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Satisfied by CTA 100.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Analyze and solve problems by applying discipline-appropriate quantitative tools, concepts, and methods.
2. Investigate physical phenomena experimentally, using discipline-specific tools and methodology.
3. Apply discipline-specific lab safety rules.
4. Apply knowledge of discipline-specific fundamental concepts to explain experimental outcomes or real world phenomena.
5. Collect, analyze, and interpret information based on scientific reasoning and discipline-specific concepts.

Practical Nursing (certificate)

Special Admission Requirements - Program Application Deadline: Dec. 15*

Official Title of Certificate: Practical Nursing, Certificate

Award: Certificate

Code: CRT.NUR.PRAC-NRSG

Total Credit Hours: A minimum of 41

Visit www.aacc.edu to learn more about the Practical Nursing Certificate program

Purpose: For students who wish to complete formal education with a certificate. Graduates of the Practical Nursing (PN) program are eligible to sit for the National Council Licensure Examination for Practical Nurses (NCLEX-PN). The Practical Nursing program is approved by the Maryland Board of Nursing.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Range of Occupations

- Practical Nurse (PN)

Additional Certificate Requirements

All nursing students must receive: (1) a minimum grade of C in each nursing course; and (2) a mark of satisfactory in the clinical laboratory. Students who receive a mark of unsatisfactory in the clinical laboratory at any time during the nursing course sequence will not be permitted to continue in the clinical laboratory and will receive a final grade of F.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

**If application deadline falls on a weekend, then applications will be accepted until the close of business on the next business day.*

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to the Apply & Register page and click on the Requirements link for the program.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Practical Nursing Course Sequence

(one academic year)

Prerequisites

All prerequisites, general education and nursing courses require a grade of C or better.

- BIO 231 - Human Biology 1 *4 credit hours* **AND**
- BIO 232 - Human Biology 2 *4 credit hours*
- OR**
- BIO 233 - Anatomy and Physiology 1 *4 credit hours* **AND**
- BIO 234 - Anatomy and Physiology 2 *4 credit hours*
BIO 101 is a prerequisite for BIO 233-BIO 234.
- PSY 111 - Introduction to Psychology *3 credit hours*

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Total credit hours: 14

Certificate Requirements

Term 1 - Summer

- LPN 180 - Fundamentals of Practical Nursing *8 credit hours*

Total credit hours: 8

Term 2 - Fall

- LPN 193 - Adult and Child Health Concepts in Practical Nursing *10 credit hours*

Total credit hours: 10

Term 3 - Spring

- LPN 194 - Women, Newborns, Mental Health and Integration of Concepts in Practical Nursing *9 credit hours*

Total credit hours: 9

Program Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate accountability for maintaining the standards of practice to include holistic client care across the settings, legal/ethical behaviors and life-long learning in concert with the Maryland Nurse Practice Act.
- Utilize appropriate and therapeutic verbal and written communication to promote positive client outcomes.
- Assess holistically and systematically the health status of individuals, families and communities to determine health care needs in a team relationship.
- Utilize critical thinking within the framework of the five steps of the nursing process to ensure the delivery of safe, accurate care.
- Provide nursing care based on the global understanding of the sciences, humanities, nursing theory, research and personal experience that is holistic, culturally relevant and maintains the client's rights and dignity.
- Identify learning needs of clients and in a team relationship develops plans and implements relevant teaching to assist the client in achieving his/her health goals.

- Collaborate with clients, families, and other members of the health care team to ensure holistic, individualized care with appropriate allocation of human and material resources across the health care continuum.
- Coordinate through direct intervention and delegation of care to unlicensed individuals the safe and accurate care of multiple clients in diverse health care settings.

This program aligns with the college's core competencies.

Production Design (certificate)

Official Title of Certificate: Production Design, Certificate

Award: Certificate

Code: CRT.PROD.DSGN

Total Credit Hours: 31

Visual Arts and Humanities

Architecture and Interior Design

Purpose: Prepares students in the field of Performing Arts or Interior Design by developing essential skills required in the workforce. Provides an intensive focus in theatrical productions supported by the interior design foundation principles and elements with an understanding of historical accuracy in production design. Develops CAD skills used in set design and construction documents. Advances knowledge through the cross-curriculum study of Interior Design and Theater Arts while offering a specialized career path and/or builds on an existing certificate or degree.

Range of Occupations:

- Set designer for theater
- Stage manger
- Set designer for multi-media
- Film set designer
- Retail display, etc.
- Convention display and production
- Kiosk design
- Theatrical Lighting Designer
- Decorative Arts Consultant
- Draftsman

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 31 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

- ENG 102 - Academic Writing and Research 2 3 *credit hours*
- ACH 100 - Introduction to Interior Design 1 *credit hour*
- ACH 111 - Graphic Communication 1: Composition and Delineation 3 *credit hours*
- ACH 201 - History of Interior Design 3 *credit hours*
- ACH 245 - Digital Technologies 1 3 *credit hours*
- CTA 100 - Computing and Information Technology 3 *credit hours*
- THA 121 - Stagecraft 3 *credit hours*
- THA 122 - Introduction to Stage Design and Lighting 3 *credit hours*
- THA 125 - Script Analysis 3 *credit hours*
- THA 180 - Play Production 3 *credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Apply visual design principles and practical production skills to facilitate successful live stage performances.
2. Use appropriate technology to communicate efficiently and effectively.
3. Respond to the challenges of designing for live performance while working within a given resource budget.
4. Design accurate visual structures by evaluating written materials.
5. Document concepts through hand drafting and computer generated working drawings.
6. Use lighting effectively.
7. Complete historically accurate design production in time restrictive circumstances.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Professional Bookkeeper (certificate)

Official Title of Certificate: Professional Bookkeeper, Certificate

Award: Certificate

Code: CRT.BPA.PROF-BKKP

Total Credit Hours: 18

Visit www.aacc.edu to learn more about the Business Administration Department

Purpose: This program provides the knowledge and skills required of a full-charge bookkeeper. It prepares the student to take the Professional Bookkeeper Certification Examination. Because the program is carefully tailored to job-related skills, the student can complete it in two terms.

Additional Certificate Requirements

Completion of each of the required courses with a grade of C or better.

Range of Occupations

- Full-charge bookkeeper

- Accounting clerk
- Audit clerk

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credits

- BPA 201 - Financial Accounting *3 credit hours*
Successful completion of both BPA 100 and BPA 101 satisfies the requirement for BPA 201 and BPA elective.
- BPA 202 - Managerial Accounting *3 credit hours*
- BPA 214 - Professional Bookkeeper Keystone *3 credit hours*
- BPA 217 - Small Business Accounting *3 credit hours*
- BPA 241 - Intermediate Accounting 1 *3 credit hours*
- Business elective (approval of department chair) *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Perform the basic functions to complete the accounting cycle.
- Analyze financial statements and identify trends.
- Perform the basic accounting functions utilizing computer applications.
- Examine internal financial data to improve and enhance decision making.
- Examine internal operations to determine the appropriate level of control.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Psychology - Arts and Sciences Transfer (A.A.)

Official Title of Major: Arts and Sciences Transfer - Psychology, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.ARTS-SCL.PSY

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Psychology Program

Purpose: A degree in psychology is a traditional and well-established major offered at almost all universities across the country. This area of concentration prepares students for continuation to a BS/BA in Psychology. Anne Arundel Community College can readily supply the initial core class requirements for such degrees. In addition, this concentration can prepare students for employment in any number of fields that engage the social sciences. The degree can lead to a variety of professions - from the social sciences to business and beyond. This concentration provides

essential content to understand the psychological constructs of human behavior including psychological theories on biological, behavioral, environmental, and cognitive factors that influence human development, human relationships, and sociocultural perspectives. Ultimately, students within this area of concentration will have a comprehensive picture of the opportunities psychology offers as a field of study and a career, and will also come to a greater understanding of themselves and their personal motivations.

Students who would like to follow the Psychology pathway and at the same time earn the Gender and Sexuality Studies (certificate) (CRT.GSS.STDS) can do so by taking the following recommended courses within the Psychology Arts and Sciences transfer degree (AA.ARTS-SCI.PSY). 15 credit hours are required for the certificate:

- GSS 101 - Introduction to Women's Studies (under Social and Behavioral Sciences)
- GSS 228 - Literature in English by Women / ENG 228 - Literature in English by Women (under Sophomore Literature)
- GSS 216 - Human Sexuality/ PSY 216 - Human Sexuality or GSS 222 - Psychology of Women/ PSY 222 - Psychology of Women (under "additional 3 credits in Psychology")
- GSS 113 - Women's Health/ HEA 113 - Women's Health (under Wellness)
- One additional GSS course

Students who would like to follow the Psychology pathway and at the same time earn the Gender and Sexuality Studies letter of recognition can do so by taking the following recommended courses within the Psychology Arts and Sciences transfer degree (AA.ARTS-SCI.PSY). 9 credit hours are required for the Letter of Recognition:

- GSS 101 - Introduction to Women's Studies (under Social and Behavioral Sciences)
- GSS 228 - Literature in English by Women/ ENG 228 - Literature in English by Women (under Sophomore Literature)
- GSS 113 - Women's Health/ HEA 113 - Women's Health (under Wellness)

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Arts and Sciences Transfer Program Core Course Requirements

The Program Requirements for this degree are simultaneously satisfied by three of the General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog.

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 *credit hours*
- Sophomore Literature course 3 *credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

BIO 101 is recommended, but students should check with their transfer institution.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics 3 *credit hours*
OR
- MAT 135 - Statistics 3 *credit hours*
OR
More advanced level if qualified from the list below:
- MAT 137 - College Algebra 3 *credit hours*
- MAT 145 - Precalculus 1 3 *credit hours*
- MAT 146 - Precalculus 2 3 *credit hours*
- MAT 151 - Accelerated Precalculus 4 *credit hours*
- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*
- MAT 202 - Linear Algebra 4 *credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) 3 *credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) 3 *credit hours* **AND**

Students must choose one History course from the following:

- HIS 111 - Ancient and Medieval Western Civilizations 3 *credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations 3 *credit hours*
- HIS 211 - United States History through the Civil War 3 *credit hours*
- HIS 212 - United States History Since the Civil War 3 *credit hours*
(GSS 101 - Introduction to Women's Studies is recommended for students seeking the Gender and Sexuality Studies (certificate) or Gender and Sexuality Studies letter of recognition.)

Additional General Education Requirements: 6 credits

- **Technology Requirement 3 credit hours**
See Technology Requirement for a list of approved courses.
- **Wellness Requirement 3 credit hours**
See Wellness Requirement for a list of approved courses. HEA 113/GSS 113 is recommended for students seeking Gender and Sexuality Studies (certificate) or Gender and Sexuality Studies letter of recognition.

Area of Concentration Requirements: 26 credits

Required Courses: 9 credits

- PSY 100 - Career Development and Assessment 3 credit hours
- PSY 111 - Introduction to Psychology 3 credit hours
- **AND**
- PSY 211 - Developmental Psychology 3 credit hours
- **OR**
- PSY 214 - Abnormal Psychology 3 credit hours

Choose one course from the following: 3 credits

Students should check with their transfer institution on the most appropriate course for transfer.

- PSY 102 - Psychology of African Americans 3 credit hours
- PSY 205 - Child Psychology 3 credit hours
- PSY 208 - Adolescent Psychology 3 credit hours
- PSY 212 - Personality Psychology 3 credit hours
- PSY 216 - Human Sexuality 3 credit hours
- PSY 221 - Psychology of Men 3 credit hours
- PSY 222 - Psychology of Women 3 credit hours
- PSY 223 - Social Psychology 3 credit hours
- PSY 224 - Multicultural Psychology 3 credit hours
- PSY 250 - Statistics in Social and Behavioral Sciences 3 credit hours

Electives: 14 credits

Recommend students check transfer institution's requirements. No more than 3 credits of physical activity courses may be used as electives.

Students seeking the Gender and Sexuality Studies (certificate) and/or Gender and Sexuality Studies letter of recognition may wish to choose electives from the GSS area.

Diversity Requirement

PSY 211 or PSY 214 meet this requirement.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Explain variation in behavior and mental processes using basic psychological terminology, concepts and theories.
2. Evaluate psychological science and practice using ethical standards.
3. Apply psychological content and skills to career goals.
4. Describe the influences of contextual, biological and sociocultural factors in shaping human thought and behavior.
5. Analyze and articulate psychological factors that influence social issues.
6. Summarize and evaluate general ideas and conclusions from psychological sources.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Communications - Arts and Sciences Transfer (A.A.)
- Creative Writing - Arts and Sciences Transfer (A.A.)
- Dance - Arts and Sciences Transfer (A.A.)
- English - Arts and Sciences Transfer (A.A.)
- Film Studies - Arts and Sciences Transfer (A.A.)
- Gender and Sexuality Studies - Arts and Sciences Transfer (A.A.)
- Liberal Arts - Arts and Sciences Transfer (A.A.)
- Music - Arts and Sciences Transfer (A.A.)
- Theater - Arts and Sciences Transfer (A.A.)

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Public Health Professions - Public Health (A.S.)

Official Title of Major: Public Health Professions - Public Health, A.S.

Award: Associate of Science degree, A.S.

Code: AS.PBH.PUBLIC-HEA

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Public Health Professions Degree program

Purpose: This program is for students to pursue career options in public health including health education and promotion, community health, patient navigation, epidemiology or other related health profession pathways. Students may transfer to a four-year institution in public health, community or behavioral health or gain personal enrichment.

Additional Program Requirements

A grade of C or better in all Public Health Professions courses is required to progress in the program. Please note this program requires completion of a service learning project (PBH 203).

Range of Occupations

- Community health worker
- Health educator
- Health promotion
- Workplace health and wellness
- Patient navigator in hospital or clinic setting

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 35 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Select one PHL and one COM.*
- PHL 141 - Introduction to Logic 3 *credit hours* **OR**
 - PHL 142 - Ethics 3 *credit hours* **OR**
 - PHL 146 - Contemporary Moral Problems 3 *credit hours* **OR**
 - PHL 194 - Ethics and the Information Age 3 *credit hours*
AND
 - COM 101 - Introduction to Mass Media 3 *credit hours* **OR**
 - COM 110 - Introduction to Interpersonal Communication 3 *credit hours* **OR**
 - COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
 - COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours* **OR**

- COM 141 - Group Communication and Leadership *3 credit hours*

Biological and Physical Sciences: 8 credits

- BIO 101 - Fundamentals of Biology *4 credit hours*
- BIO 136 - Principles of Nutrition and Laboratory *4 credit hours* **OR**
- BIO 233 - Anatomy and Physiology 1 *4 credit hours*

Mathematics: 3 credits

- MAT 135 - Statistics *3 credit hours*

Social and Behavioral Sciences: 6 credits

- Select one SOC 111, SOC 105 or SOC 150 and PSY 111.*
- SOC 111 - Introduction to Sociology *3 credit hours* **OR**
 - SOC 105 - Exploring the Future *3 credit hours* **OR**
 - SOC 150 - Introduction to Aging Studies *3 credit hours*
AND
 - PSY 111 - Introduction to Psychology *3 credit hours*

Additional General Education Requirements: 6 credits

- CTA 100 - Computing and Information Technology *3 credit hours*
- HEA 111 - Personal and Community Health *3 credit hours*

Program Requirements: 25 credits

- PBH 101 - Introduction to Public Health *3 credit hours*
- PBH 102 - Introduction to Epidemiology *3 credit hours*
- PBH 105 - Essentials of Health Behavior *3 credit hours*
- PBH 201 - Global Health *3 credit hours*
- PBH 202 - Emerging Public Health Issues *3 credit hours*
- PBH 203 - Health Education Promotion *3 credit hours*
Service learning component
Choose 7 credits from the courses below:
- EMT 104 - Emergency Medical Care, CPR & AED *3 credit hours*
- HEA 113 - Women's Health *3 credit hours*
- MDA 113 - Medical Terminology *3 credit hours*
- PSY 216 - Human Sexuality *3 credit hours*
- SOC 265 - Social Research Methods *3 credit hours*
- HEA 137 - Weight Management: Utilizing Healthy Approaches to Diet and Physical Activity *1 credit hour*
- BIO 234 - Anatomy and Physiology 2 *4 credit hours*

Diversity Requirement

Satisfied by PHL 146, SOC 105, SOC 111, SOC 150 options.

Technology Requirement

Satisfied by CTA 100.

Wellness Requirement

Satisfied by HEA 111.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Describe the fundamental tenets of epidemiology as applied to public health.
2. Discuss Healthy People 2020 in relation to public health planning.
3. Delineate the specific professions and contributions to the public health model.
4. Analyze health statistics related to targeting unhealthy behaviors and planning strategies for improvement.
5. Analyze behaviorist theory in relation to the development of health betterment planning.
6. Develop basic strategies for health improvement.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Radiologic Technology (A.A.S.)

Special Admission Requirements - Program Application Deadline: Feb. 15 *

Official Title of Major: Radiologic Technology, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.RAD.RAD

Total Credit Hours: A minimum of 69 credit hours; seven terms (includes general education and prerequisite requirements).

Visit www.aacc.edu to learn more about the Radiologic Technology Degree program

Purpose: Prepares students for employment as entry-level radiographers in hospitals, medical and specialty offices, imaging centers, clinics and other health care agencies. Trains graduates in radiographic positioning and procedures, medical imaging techniques, image processing and other X-ray related competency development areas. Prepares graduates for the American Registry of Radiologic Technologists certification examination. Enrollment limited by availability of clinical sites. The Radiologic Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The maximum eight-year accreditation award was granted to the program in 2017 and is scheduled for a re-accreditation review process in February 2025. To learn more about the importance of JRCERT accreditation please click the following link: <https://www.jrcert.org/students/what-is-accreditation/>. The curriculum contains a transfer option for students who elect to continue beyond the A.A.S. degree.

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance

finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Range of Occupations

- Radiographer (Registered Technologist)

Additional Program Requirements

All radiologic technology students must receive a minimum grade of C in each radiology course.

Special Conditions

Health Manpower Shortage: This program of study may be designated a Health Manpower Shortage Tuition Reduction Program. This means that some residents of Maryland (see the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Health Manpower Shortage Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

**If application deadline falls on a weekend, then applications will be accepted until the close of business on the next business day.*

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to Radiologic Technology Admissions Requirements.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Radiologic Technology Course Sequence

All Radiologic Technology courses require a grade of C or better.

Prerequisites

All seven prerequisite courses must be completed with a grade of C or better with a minimum cumulative prerequisite GPA of 3.0 (no rounding) by the end of the spring term in which you are submitting your application.

- BIO 231 - Human Biology 1 4 credit hours **AND**
- BIO 232 - Human Biology 2 4 credit hours
- **OR**
- BIO 101 - Fundamentals of Biology 4 credit hours **AND**
- BIO 233 - Anatomy and Physiology 1 4 credit hours **AND**
- BIO 234 - Anatomy and Physiology 2 4 credit hours

- MAT 137 - College Algebra 3 credit hours
*MAT 145, MAT 151, MAT 191, or MAT 230 satisfies the MAT 137 requirement.
(Former MAT courses: MAT 121, MAT 131, MAT 141, or MAT 142 will also satisfy the MAT 137 requirement.)*
- SOC 111 - Introduction to Sociology 3 credit hours

Arts and Humanities: 3 credits

- COM 111 - Fundamentals of Oral Communication 3 credit hours
- **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 credit hours

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Total credit hours: 23-27

Program Requirements

Summer

- RAD 101 - Introduction to Radiography 2 credit hours

Total credit hours: 2

First Year - Term 1

- RAD 111 - Radiographic Procedures 1 3 credit hours
- RAD 112 - Clinical Radiography 1 5 credit hours

Total credit hours: 8

First Year - Term 2

- RAD 121 - Radiographic Procedures 2 3 *credit hours*
- RAD 122 - Clinical Radiography 2 5 *credit hours*
- RAD 123 - Imaging Equipment Maintenance and Operation 3 *credit hours*

Total credit hours: 11

Summer

- RAD 211 - Radiographic Procedures 3 1 *credit hour*
- RAD 212 - Clinical Radiography 3 6 *credit hours*

Total credit hours: 7

Second Year - Term 1

- RAD 231 - Radiographic Procedures 4 3 *credit hours*
- RAD 232 - Clinical Radiography 4 6 *credit hours*

Total credit hours: 9

Second Year - Term 2

- RAD 251 - Radiation Biology and Protection 3 *credit hours*
- RAD 252 - Clinical Radiography 5 6 *credit hours*

Total credit hours: 9

Diversity Requirement

Satisfied by SOC 111.

Technology Requirement

Completion of the Radiologic Technology program satisfies the college's Technology requirement.

Wellness Requirement

Completion of the Radiologic Technology program satisfies the college's Wellness requirement.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Demonstrate clinical competence.
2. Demonstrate effective critical thinking skills.
3. Demonstrate effective communication skills.
4. Demonstrate professionalism.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Retail Management (certificate)

Official Title of Certificate: Retail Management, Certificate

Award: Certificate

Code: CRT.BPA.RTL-MGT

Total Credit Hours: 24

Visit www.aacc.edu to learn more about the Business Management Department

Purpose: An eight course (24 credit hour) sequence of business courses that prepares the successful graduate for a career in retail management. Students will learn the various functions of running a retail store, which includes: sales and customer service, accounting, supervision of employees and use of the latest business software.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 24 credits

Choose one of the following (3 credit hours):

- BPA 125 - Marketing Principles *3 credit hours*
or
- ESI 104 - Entrepreneurship: Sales & Marketing for Small Business *3 credit hours*

Take all four of the following (12 credit hours):

- BPA 134 - Retail Management *3 credit hours*
- BPA 142 - Principles of Management *3 credit hours*
- BPA 162 - Business Communications *3 credit hours*
- BPA 172 - Human Resource Management *3 credit hours*

Choose one of the following (3 credit hours):

- BPA 200 - Foundations of Accounting *3 credit hours*
or
- BPA 201 - Financial Accounting *3 credit hours*
or
- BPA 217 - Small Business Accounting *3 credit hours*

And choose two electives from the list below (6 credit hours):

- BPA 126 - Advertising and Sales Promotion *3 credit hours*
- BPA 127 - eMarketing *3 credit hours*
- BPA 135 - Customer Service *3 credit hours*
- BPA 190 - Organizational Behavior *3 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours*

Program Outcomes

Upon completion of the certificate, the student will be able to:

- Apply competitive marketing strategies in a retail setting.
- Utilize management techniques to maximize human performance.
- Prepare financial statements and utilize data to improve decision making.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Secondary Education - Chemistry (A.A.T.)

Official Title of Major: Secondary Education - Chemistry, A.A.T.

Award: Associate of Arts in Teaching, A.A.T.

Code: AAT.EDU.SEC-CHEM

Total Credit Hours: 65

Visit www.aacc.edu to learn more about the Teacher Education and Child Care (TEACH) Institute

Purpose: The Associate of Arts in Teaching (A.A.T.) degree is designed for students preparing to transfer to a four-year institution to obtain a baccalaureate degree and earn Maryland state teacher certification. The program incorporates foundation coursework in teacher education, content coursework in a selected certification area, and a field-based experience at the appropriate level of teacher certification.

Additional Degree Requirements

To earn the degree and be eligible for seamless transfer within Maryland, students must complete all required coursework and the following additional requirements:

- Students must submit either a 3.0 cumulative grade point average on a 4.0 scale; or a 2.75-2.99 cumulative grade point average on a 4.0 scale and qualifying scores on the basic skills assessment for teacher licensure as established by the State Superintendent of Schools and as approved by the State Board of Education;
- Students must complete fieldwork requirements as indicated by the Teacher Education and Child Care Institute. Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.
- Students must earn a C or better in all coursework required for the degree and obtain a cumulative grade point average of 2.75 or better.

Students may be required to meet additional admittance requirements at the chosen transfer institution.

The A.A.T. degrees parallel the Maryland State Department of Education grade bands:

Early Childhood Education	PreK-grade 3
Elementary Education	Grades 1-6
Secondary Academic Areas	Grades 7-12

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

Criminal Background Check

Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.

General Education Requirements: 37 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- COM 111 - Fundamentals of Oral Communication *3 credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers *3 credit hours*
- **Arts and Humanities General Education (except COM)**
See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 8 credits

- CHE 111 - General Chemistry 1 *4 credit hours*
- CHE 112 - General Chemistry 2 *4 credit hours*

Mathematics: 8 credits

- MAT 191 - Calculus and Analytic Geometry 1 *4 credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 *4 credit hours*

Social and Behavioral Sciences: 6 credits

- PSY 111 - Introduction to Psychology *3 credit hours*
- **Social and Behavioral Sciences General Education (except PSY)**
See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 3 credits

- HEA 111 - Personal and Community Health *3 credit hours*
This course meets the General Education Wellness Requirement.

Program Requirements: 28 credits

- CHE 213 - Organic Chemistry 1 *4 credit hours*
- CHE 214 - Organic Chemistry 2 *4 credit hours*
- EDU 111 - Foundations of Education *3 credit hours*
- EDU 133 - Growth and Development *3 credit hours*
- EDU 211 - Educational Psychology *3 credit hours*
- EDU 214 - Introduction to Special Education *3 credit hours*
- PHY 211 - General Physics 1 *4 credit hours*
- PHY 212 - General Physics 2 *4 credit hours*

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Satisfied by HEA 111.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Make measurements and express those measurements in common and metric units; manipulate units.
2. Identify and apply significant figures and exponential notation to measurement.
3. Describe nature of science and scientific investigation.

4. Distinguish among states of matter; explain behaviors of states based on particulate nature.
5. Identify basic atomic structure; describe historical development of atomic theory and its relationship to spectroscopy.
6. Explain principles of the quantum mechanical model of the atom
7. Outline the development of and trends conveyed by the periodic table of the elements.
8. Define the concept of bonding as resulting from electron interactions; understand bond nature as a continuum.
9. Visualize geometries of molecules; apply VSEPR theory and hybridization theory.
10. Determine molecular polarity as it relates to geometry; understand properties dependent on molecular polarity.
11. Explain the concept of chemical change as a chemical reaction; know types of chemical reactions.
12. Identify chemical nomenclature.
13. Define the mole concept and stoichiometry.
14. Identify characteristics and processes of solutions.
15. Identify physical and chemical properties of acids and bases.
16. Illustrate reaction equilibria.
17. Describe interactions of matter and energy.
18. Compare concept of heat exchange in physical and chemical systems.
19. Interpret thermodynamics of a chemical system.
20. Describe components, structure, and function of an electrochemical cel.
21. Explain nuclear reactions, including radioactivity, fission and fusion.
22. Interpret kinetics for a chemical system.
23. Define the structure, function, and nomenclature of functional groups.
24. Identify free-radical reactions.
25. Interpret reaction mechanisms.
26. Define principles of stereochemistry.
27. Define spectroscopic principles for structure determination.
28. Explain electrophilic addition reactions in alkenes and alkynes.
29. Illustrate principles of organometallic chemistry.
30. Demonstrate oxidation/reduction reactions of organic molecules.
31. Identify principles of aromaticity and the reactions of conjugated systems.
32. Design and carry out multistep syntheses.
33. Recognize and characterize biologically important molecules.
34. Identify Carbonyl group chemistry, including alpha substitution reactions and enol condensations.
35. Describe Amine Chemistry.
36. Define Polymer Chemi.
37. Utilize tools for the collection of data.
38. Analyze and interpret experimental data.
39. Demonstrate safe laboratory practice.
40. Demonstrate basic laboratory techniques.
41. Identify the social, physical, emotional, and cognitive stages of development through adolescence.
42. Describe the major approaches to (theories of) human learning.
43. Explain approaches to learning/teaching.
44. Describe the impact of culture, privilege, and oppression, as they influence personal growth and development.
45. Relate culture, privilege and oppression to their impact on schooling, student performance and success.
46. Identify factors that may contribute to behaviors/conditions resulting in at-risk students.
47. Describe the important role of family in human development and the variety of ways individuals can organize to fulfill these roles.
48. Define basic theories of motivation.
49. Define what curriculum is and identify the social, cultural, historical, political, and philosophical influences that effect the development and change of curriculum.
50. Describe the construction of curriculum as responsive to developmental, cultural, and social needs of children.

51. Compare different approaches to and methods of teaching.
52. Recognize that there are different approaches to teaching and that materials and objectives are specific to the approach selected.
53. Know, locate and critique types of educational research.
54. Recognize valid sources of educational information.
55. Describe the roles of secondary school teachers.
56. Distinguish between the roles of middle school and high school teachers.
57. Reflect on the approaches to learning/teaching.
58. Relate principles and practices of group dynamics to educational practices.
59. Demonstrate knowledge of exceptionalities and individual differences and understand how culture and experience affect these.
60. Specify how issues such as justice, social equality, concentrations of power, class differences, race and ethnic relations, language and literacy, or family and community organization relate to teaching and schools.
61. Identify contemporary education issues.
62. Relate issues to their historical, social, cultural, philosophical, education antecedents or analyze the historical, social, cultural, philosophical, and educational antecedents in relation to contemporary issues.
63. Engage successfully in critical thinking and problem solving in a variety of content areas.
64. Recognize instructional practices that enhance, or impede critical thinking, problem solving, and performance skills.
65. Engage in small group learning environments in a variety of content areas in the first sixty hours of coursework.
66. Describe a variety of patterns of secondary school organization.
67. Identify the various ways that teachers collaborate with others.
68. Explain the history of education.
69. Develop a philosophy of education and relate this to purposes of education.
70. Describe schools as organizations.
71. Identify the important role of family in learning and recognize teachers' vital role in creating a partnership with families.
72. Identify fundamental/basic rudiments of school law.
73. Know, understand, and define for the ethical standards of the teaching profession.
74. Explain the value of life-long learning.
75. Begin a "developmental portfolio" that includes reflections on their developing schema of the teaching profession.

This program aligns with the college's core competencies.

Secondary Education - English (A.A.T.)

Official Title of Major: Secondary Education - English, A.A.T.

Award: Associate of Arts in Teaching, A.A.T.

Code: AAT.EDU.SEC-ENG

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Teacher Education and Child Care (TEACH) Institute

Purpose: The Associate of Arts in Teaching (A.A.T.) degree is designed for students preparing to transfer to a four-year institution to obtain a baccalaureate degree and earn Maryland state teacher certification. The program

incorporates foundation coursework in teacher education, content coursework in a selected certification area, and a field-based experience at the appropriate level of teacher certification.

Additional Degree Requirements

To earn the degree and be eligible for seamless transfer within Maryland, students must complete all required coursework and the following additional requirements:

- Students must submit either a 3.0 cumulative grade point average on a 4.0 scale; or a 2.75-2.99 cumulative grade point average on a 4.0 scale and qualifying scores on the basic skills assessment for teacher licensure as established by the State Superintendent of Schools and as approved by the State Board of Education;
- Students must complete fieldwork requirements as indicated by the Teacher Education and Child Care Institute. Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.
- Students must earn a C or better in all coursework required for the degree and obtain a cumulative grade point average of 2.75 or better.

Students may be required to meet additional admittance requirements at the chosen transfer institution.

The A.A.T. degrees parallel the Maryland State Department of Education grade bands:

Early Childhood Education	PreK-grade 3
Elementary Education	Grades 1-6
Secondary Academic Areas	Grades 7-12

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

Criminal Background Check

Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.

General Education Requirements: 28-30 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*
AND
- PHL 194 - Ethics and the Information Age 3 *credit hours*

Biological and Physical Sciences: 7-8 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Wellness: 3 credits

- HEA 111 - Personal and Community Health 3 *credit hours*

Mathematics: 3- 4 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

- PSY 111 - Introduction to Psychology 3 *credit hours*

Program Requirements: 30-32 credits

- EDU 111 - Foundations of Education 3 *credit hours*
- EDU 133 - Growth and Development 3 *credit hours*
- EDU 211 - Educational Psychology 3 *credit hours*
- EDU 214 - Introduction to Special Education 3 *credit hours*
- ENG 160 - The Art and Science of Grammar 3 *credit hours*
- ENG 211 - World Literature 1 3 *credit hours* **OR**
- ENG 212 - World Literature 2 3 *credit hours*
- ENG 214 - British Literature 2 3 *credit hours* **OR**
- ENG 223 - The British Novel 3 *credit hours*

ENG elective: 3 credits

Choose one of the following:

- ENG 216 - American Literature, 1865-1945: Realism to Modernism *3 credit hours*
- ENG 217 - Contemporary American Literature: 1945-present *3 credit hours*
- ENG 222 - The American Novel *3 credit hours*
- ENG 225 - African American Literature *3 credit hours* **OR**
- ENG 228 - Literature in English by Women *3 credit hours*
One course choice completes the arts and humanities general education requirement.

Electives: 6 credit hours

Choose two courses from the following that complement the selected literature courses:

- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*
- HIS 214 - African American History *3 credit hours*
- HIS 217 - Women of the Western World *3 credit hours* **OR**
- HIS 218 - History of Women in America: 1607-Present *3 credit hours*
One course choice completes the social science general education requirement.

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Satisfied by HEA 111.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Demonstrate an understanding of the English language, including its grammar and mechanics, its structure, and some aspects of its history and development.
2. Demonstrate an understanding of writing as a recursive process.
3. Identify a range of strategies for producing written discourse and use appropriate strategies for addressing a given rhetorical situation.
4. Read with critical judgment, aesthetic insight, and close observation of textual detail.
5. Apply higher order critical thinking skills and problem-solving skills.
6. Make sound connections and distinctions among a broad range of relevant literary and academic texts.
7. Demonstrate the ability to plan and implement a research project that makes use of library and other resources.
8. Present the results of research in an effective and ethical manner.

This program aligns with the college's core competencies.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

Criminal Background Check

Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.

General Education Requirements: 37 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*
- **Arts and Humanities General Education (except COM)**
See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 8 credits

- PHY 211 - General Physics 1 4 *credit hours*
- PHY 212 - General Physics 2 4 *credit hours*
All Maryland four-year colleges will accept PHY 211 and PHY 212; however, CHE 111 and CHE 112 may be substituted for PHY 211 and PHY 212 for those students planning to transfer to Hood College, College of Notre Dame, St. Mary's College University of Maryland or Washington College.

Mathematics: 8 credits

- MAT 191 - Calculus and Analytic Geometry 1 4 *credit hours*
- MAT 192 - Calculus and Analytic Geometry 2 4 *credit hours*

Social and Behavioral Sciences: 6 credits

- PSY 111 - Introduction to Psychology 3 *credit hours*
- **Social and Behavioral Sciences general education (except PSY)**
See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 3 credits

- HEA 111 - Personal and Community Health *3 credit hours*
This course meets the General Education Wellness Requirement.

Program Requirements: 27 credits

- CTP 115 - Introductory Object-Oriented Program Analysis and Design *4 credit hours*
- EDU 111 - Foundations of Education *3 credit hours*
- EDU 133 - Growth and Development *3 credit hours*
- EDU 211 - Educational Psychology *3 credit hours*
- EDU 214 - Introduction to Special Education *3 credit hours*
- MAT 135 - Statistics *3 credit hours*
- MAT 201 - Calculus and Analytic Geometry 3 *4 credit hours*
- MAT 202 - Linear Algebra *4 credit hours*

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Satisfied by HEA 111.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Explain matrices and their applications.
2. Describe vectors and vector spaces and their applications.
3. Identify linear transformations and their applications.
4. Use technology to assist with calculations and explorations.
5. Identify the properties of basic classes of functions. (Here "functions" are algebraic, inverse, exponential [including hyperbolic], logarithmic, trigonometric.)
6. Calculate the limits of functions.
7. Analyze continuity of a function.
8. Find the derivatives of functions numerically, algebraically, and graphically.
9. Apply the derivative to diverse situations
10. Calculate definite integrals and find indefinite integrals.
11. Solve applied problems related to integration.
12. Analyze the convergence or divergence of sequences and series.
13. Graph and analyze polar equations, parametric equations, and conic sections.
14. Solve elementary differential equations.
15. Explain properties of vectors and vector-valued functions.
16. Apply differentiation rules to various multivariable functions. Identify these properties of quadric surfaces.
17. Evaluate multiple integrals.
18. Explain properties of vector fields and evaluate various vector field derivatives and integrals.

19. Demonstrate an understanding of the roles of the hardware and software components of a computer system.
20. Identify the social, physical, emotional, and cognitive stages of development through adolescence.
21. Describe the major approaches to (theories of) human learning.
22. Explain approaches to learning/teaching.
23. Describe the impact of culture, privilege, and oppression, as they influence personal growth and development.
24. Relate culture, privilege and oppression to their impact on schooling, student performance and success.
25. Identify factors that may contribute to behaviors/conditions resulting in at-risk students.
26. Describe the important role of family in human development and the variety of ways individuals can organize to fulfill these roles.
27. Define basic theories of motivation.
28. Define what curriculum is and identify the social, cultural, historical, political, and philosophical influences that effect the development and change of curriculum.
29. Describe the construction of curriculum as responsive to developmental, cultural, and social needs of children.
30. Compare different approaches to and methods of teaching.
31. Recognize that there are different approaches to teaching and that materials and objectives are specific to the approach selected.
32. Know, locate and critique types of educational research.
33. Recognize valid sources of educational information.
34. Describe the roles of secondary school teachers.
35. Distinguish between the roles of middle school and high school teachers.
36. Reflect on the approaches to learning/teaching.
37. Relate principles and practices of group dynamics to educational practices.
38. Demonstrate knowledge of exceptionalities and individual differences and understand how culture and experience affect these.
39. Specify how issues such as justice, social equality, concentrations of power, class differences, race and ethnic relations, language and literacy, or family and community organization relate to teaching and schools.
40. Identify contemporary education issues.
41. Relate issues to their historical, social, cultural, philosophical, education antecedents or analyze the historical, social, cultural, philosophical, and educational antecedents in relation to contemporary issues.
42. Engage successfully in critical thinking and problem solving in a variety of content areas.
43. Recognize instructional practices that enhance, or impede critical thinking, problem solving, and performance skills.
44. Engage in small group learning environments in a variety of content areas in the first sixty hours of coursework.
45. Describe a variety of patterns of secondary school organization.
46. Identify the various ways that teachers collaborate with others.
47. Explain the history of education.
48. Develop a philosophy of education and relate this to purposes of education.
49. Describe schools as organizations.
50. Identify the important role of family in learning and recognize teachers' vital role in creating a partnership with families.
51. Identify fundamental/basic rudiments of school law.
52. Know, understand, and define for the ethical standards of the teaching profession.
53. Explain the value of life-long learning.
54. Begin a "developmental portfolio" that includes reflections on their developing schema of the teaching profession.

This program aligns with the college's core competencies.

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Due to a special wellness requirement exemption, students are permitted to graduate with this degree without satisfying a Wellness Requirement.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Identify the vocabulary and mathematical language associated with each content knowledge area listed above.
2. Describe the concepts, relationships, and principles of each content knowledge area listed above and the interrelationships between related content areas.
3. Apply concepts and relationships to qualitative problems and quantitative problems in each content knowledge area listed above.
4. Investigate a classical physical system experimentally (in at least each of the broad content knowledge areas 1 - 4 listed above) and apply the experimental physics content knowledge (content knowledge area
5. Work individually and cooperatively in teams on investigations and/or problem solutions.
6. Have experience with activity-based learning consistent with current methods of teaching physics at high schools. This outcome will require collaboration between the physics and education faculty.
7. Develop a historical perspective of the development of physics at the level presented in the introductory textbooks and be knowledgeable of current areas of research in physics. This outcome may require collaboration between the physics and education faculty.
8. Identify the social, physical, emotional, and cognitive stages of development through adolescence.
9. Describe the major approaches to (theories of) human learning.
10. Explain approaches to learning/teaching.
11. Describe the impact of culture, privilege, and oppression, as they influence personal growth and development.
12. Relate culture, privilege and oppression to their impact on schooling, student performance and success.
13. Identify factors that may contribute to behaviors/conditions resulting in at-risk students.
14. Describe the important role of family in human development and the variety of ways individuals can organize to fulfill these roles.
15. Define basic theories of motivation.
16. Define what curriculum is and identify the social, cultural, historical, political, and philosophical influences that effect the development and change of curriculum.
17. Describe the construction of curriculum as responsive to developmental, cultural, and social needs of children.

18. Compare different approaches to and methods of teaching.
19. Recognize that there are different approaches to teaching and that materials and objectives are specific to the approach selected.
20. Know, locate and critique types of educational research.
21. Recognize valid sources of educational information.
22. Describe the roles of secondary school teachers.
23. Distinguish between the roles of middle school and high school teachers.
24. Reflect on the approaches to learning/teaching.
25. Relate principles and practices of group dynamics to educational practices.
26. Demonstrate knowledge of exceptionalities and individual differences and understand how culture and experience affect these.
27. Specify how issues such as justice, social equality, concentrations of power, class differences, race and ethnic relations, language and literacy, or family and community organization relate to teaching and schools.
28. Identify contemporary education issues.
29. Relate issues to their historical, social, cultural, philosophical, education antecedents or analyze the historical, social, cultural, philosophical, and educational antecedents in relation to contemporary issues.
30. Engage successfully in critical thinking and problem solving in a variety of content areas.
31. Recognize instructional practices that enhance, or impede critical thinking, problem solving, and performance skills.
32. Engage in small group learning environments in a variety of content areas in the first sixty hours of coursework.
33. Describe a variety of patterns of secondary school organization.
34. Identify the various ways that teachers collaborate with others.
35. Explain the history of education.
36. Develop a philosophy of education and relate this to purposes of education
37. Describe schools as organizations.
38. Identify the important role of family in learning and recognize teachers' vital role in creating a partnership with families.
39. Identify fundamental/basic rudiments of school law.
40. Know, understand, and define for the ethical standards of the teaching profession.
41. Explain the value of life-long learning.
42. Begin a "developmental portfolio" that includes reflections on their developing schema of the teaching profession.

This program aligns with the college's core competencies.

Criminal Background Check

Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check. For complete details, see the Teacher Education and Childcare Institute section of this catalog.

General Education Requirements: 31-33 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- COM 111 - Fundamentals of Oral Communication 3 *credit hours* **OR**
- COM 116 - Fundamentals of Oral Communication for Non-Native Speakers 3 *credit hours*
- **General Education Arts and Humanities course other than COM** 3 *credit hours*
See General Education Arts and Humanities for a list of approved courses.

Biological and Physical Sciences: 7-8 credits

General education requirement. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3-4 credits

General education requirement. See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 6 credits

- PSY 111 - Introduction to Psychology 3 *credit hours*
- **General Education Social and Behavioral Sciences course** other than PSY 3 *credit hours*
See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirements: 3 credits

- HEA 111 - Personal and Community Health 3 *credit hours*
This course meets the General Education Wellness Requirements.

Program Requirements: 24 credits

- EDU 111 - Foundations of Education 3 *credit hours*
- EDU 133 - Growth and Development 3 *credit hours*
- EDU 211 - Educational Psychology 3 *credit hours*
- EDU 214 - Introduction to Special Education 3 *credit hours*
- SPA 212 - Intermediate Spanish 2 3 *credit hours*
- SPA 221 - Intermediate Spanish Conversation 3 *credit hours*
- SPA 225 - Intermediate Spanish Civilization and Culture 3 *credit hours*
Offered in fall term only.

- SPA 226 - Intermediate Latin American Civilization and Culture *3 credit hours*
Offered in spring term only.

Elective: 6-7 credits

Recommended:

- A world language course other than Spanish
- ASL 111 - American Sign Language 1 *3 credit hours*
- An additional mathematics course
- COM 200 - Intercultural Communication *3 credit hours*

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement

Satisfied by EDU 214.

Wellness Requirement

Satisfied by HEA 111.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Perform a range of interpersonal and presentational writing tasks in a manner largely comprehensible to natives or near-natives not used to the writing of non-natives, even if the text contains errors.
2. Speak Spanish at a level comprehensible to a native or near-native speaker who is not used to dealing with non-native speakers despite errors and pauses.
3. Understand and interpret a range of authentic and pedagogically prepared texts for which they have been prepared through pre-reading activities.
4. Understand and interpret native or near-native speakers of Spanish in uncomplicated and controlled contexts for which they have been prepared through pre-listening activities.
5. Demonstrate a basic knowledge of culture and cultural values as these relate to Spanish-speaking societies, and should be able to appreciate and convey cultural differences as these might manifest themselves within Spanish-speaking societies.
6. Identify the social, physical, emotional, and cognitive stages of development through adolescence.
7. Describe the major approaches to (theories of) human learning.
8. Explain approaches to learning/teaching.
9. Describe the impact of culture, privilege, and oppression, as they influence personal growth and development.
10. Relate culture, privilege and oppression to their impact on schooling, student performance and success.
11. Identify factors that may contribute to behaviors/conditions resulting in at-risk students.
12. Describe the important role of family in human development and the variety of ways individuals can organize to fulfill these roles.
13. Define basic theories of motivation.
14. Define what curriculum is and identify the social, cultural, historical, political, and philosophical influences that effect the development and change of curriculum.

15. Describe the construction of curriculum as responsive to developmental, cultural, and social needs of children.
16. Compare different approaches to and methods of teaching.
17. Recognize that there are different approaches to teaching and that materials and objectives are specific to the approach selected.
18. Know, locate and critique types of educational research.
19. Recognize valid sources of educational information.
20. Describe the roles of secondary school teachers.
21. Distinguish between the roles of middle school and high school teachers.
22. Reflect on the approaches to learning/teaching.
23. Relate principles and practices of group dynamics to educational practices.
24. Demonstrate knowledge of exceptionalities and individual differences and understand how culture and experience affect these.
25. Specify how issues such as justice, social equality, concentrations of power, class differences, race and ethnic relations, language and literacy, or family and community organization relate to teaching and schools.
26. Identify contemporary education issues.
27. Relate issues to their historical, social, cultural, philosophical, education antecedents or analyze the historical, social, cultural, philosophical, and educational antecedents in relation to contemporary issues.
28. Engage successfully in critical thinking and problem solving in a variety of content areas.
29. Recognize instructional practices that enhance, or impede critical thinking, problem solving, and performance skills.
30. Engage in small group learning environments in a variety of content areas in the first sixty hours of coursework.
31. Describe a variety of patterns of secondary school organization.
32. Identify the various ways that teachers collaborate with others.
33. Explain the history of education.
34. Develop a philosophy of education and relate this to purposes of education.
35. Describe schools as organizations.
36. Identify the important role of family in learning and recognize teachers' vital role in creating a partnership with families.
37. Identify fundamental/basic rudiments of school law.
38. Know, understand, and define for the ethical standards of the teaching profession.
39. Explain the value of life-long learning.
40. Begin a "developmental portfolio" that includes reflections on their developing schema of the teaching profession.

This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Server Administration and Security (certificate)

Official Title of Certificate: Server Administration and Security, Certificate

Award: Certificate

Code: CRT.CIS.SERVER

Total Credit Hours: 20

Visit www.aacc.edu to learn more about the Cybersecurity, Networking and Digital Forensics Department

Purpose: Learn how to support and maintain the integrity of systems, software, network, storage devices and data directly related to Windows and Linux server operations. Acquire systems and network administration functions such as installing, integrating, documenting and maintaining software, firmware, computer, networks and storage systems, development and user environments, assisting system users and managing user accounts, and performing technical documentation and process engineering functions.

Related Industry Certifications

This program provides partial foundation for the following industry recognized certifications: Security+ (CompTIA) and Linux+ (CompTIA) industry certification exams.

Range of Occupations

- Linux administrator
- Network administrator
- Network engineer
- Network support technician
- Operating system specialist
- Systems administrator
- Systems engineer
- Windows server administration

Entrance/Admission Requirements

Entrance Requirements

Students must satisfy the prerequisites for each course in the certificate or have permission of the academic chair to take each course.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 20 credits

- CTS 120 - Introduction to Linux *4 credit hours*
- CTS 140 - Network Security Fundamentals *4 credit hours*
- CTS 222 - UNIX/LINUX System Administration *4 credit hours*
- CTS 234 - Windows Server *4 credit hours*
- CTS 240 - Advanced Network Defense *4 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Use the basic elements of the UNIX/LINUX operating system to send and receive electronic mail, utilize hierarchical file structure, create and edit documents, write shell programs and provide system security.
- Load, configure and maintain UNIX operating systems.
- Install, configure, manage, monitor and troubleshoot Windows servers.

- Build, configure, secure and troubleshoot basic and extended WLANs.
- Administer and support different brands of wireless LAN hardware.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

Skilled Professional Trades Management (A.A.S.)

Official Title of Major: Skilled Professional Trades Management (A.A.S.)

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.EXPLORE.TRADES

Total Credit Hours: 60

About Continuing Education and Workforce Development

Purpose: This program offers an opportunity for students who have completed a Maryland Department of Labor (MDOL) registered apprenticeship program **and** earned an industry certification and/or license, a path to a degree by the award of college credit. This program is not intended for transfer, but allows students to customize their program based on their requirements. Students should choose a concentration based on their personal goals; program requirements are satisfied with the successful completion of the MDOL registered apprenticeship and proof of licensure or industry certification. Previous successfully completed college work may be applied to requirements where applicable.

Additional Program Requirements: To assure a level of competency in this program, a minimum of 12 credit hours of courses must be in a single discipline (concentration). The three letters used in a course designation (e.g. BPA or ACH) indicate the discipline to which it belongs.

Students are required to present proof of completion of MDOL registered apprenticeship and licensure or industry certification to receive college credit. The amount of credit awarded will be determined by the length of the apprenticeship and related training/instruction.

Areas of Concentration: This degree requires that students choose a concentration in one of two areas. A concentration is a structured plan of study within a degree program. The number of credit hours and particular course requirements for a concentration may vary, as listed below. To achieve a concentration, students must receive credit for every course requirement listed under that concentration.

Two Concentrations

1. Small Business Management (AAS.TRADES.SM-BUS)

Provides comprehensive skills necessary for a successful and satisfying business career. Exposes students to all aspects of today's rapidly changing and technologically challenging business environment. Prepares students for careers in the global economy. A program chosen from a core of courses considered essential for any business student and from a broad range of electives. Students are expected to select a four-course area of concentration that will permit them to

enter a variety of business occupations. The groups of courses listed are examples of appropriate and logical selections in an area of concentration. Required courses cannot be used as area of concentration electives.

Range of Occupations

- Small business owner/manager

2. Construction Management (AAS.TRADES.CSTN)

Training in the organization and management of both large and small construction projects. Develop skills in the areas of project management, construction estimating, materials and methods of construction, and construction documentation. Teaches and integrates principles of business management as applied to construction technology.

Range of Occupations

- Construction manager
- Estimator
- Foreman
- Inspector
- Owner's field representative
- Project manager
- Superintendent

Visit catalog.aacc.edu for the following Approximate Cost information

- Approximate, minimum cost of Technical Studies: Apprenticeship is \$6,656 (refer to Credit Costs)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 24

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- COM 111 - Fundamentals of Oral Communication 3 credit hours

Biological and Physical Sciences: 3 credits

See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Students are encouraged to take a Social and Behavioral Science course that also satisfies the college Diversity Requirement. See Diversity Requirement for a list of approved courses.

Additional General Education Requirements: 6 credits

- **Technology Requirement** 3 credit hours
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** 3 credit hours
See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 36 credits

This is a common program requirement for both areas of concentration:

- **Successful completion of Maryland (MDOL) approved apprenticeship and proof of Maryland State Licensure or Industry Certification** 12 credit hours

Students must select one Area of Concentration in Small Business Management or Construction Management as specified below:

Small Business Management Area of Concentration Requirements: 24 credits

Degree Awarded: Technical Studies: Apprentice - Small Business Management Area of Concentration (See Records for code).

- BPA 111 - Introduction to Business 3 credit hours
- BPA 120 - Small Business Management 3 credit hours
- BPA 162 - Business Communications 3 credit hours

And choose 12 credits from the following:

- BPA 125 - Marketing Principles 3 credit hours
- BPA 138 - Business and Professional Ethics 3 credit hours
- BPA 142 - Principles of Management 3 credit hours
- BPA 172 - Human Resource Management 3 credit hours
- BPA 201 - Financial Accounting 3 credit hours
- OR**
- BPA 217 - Small Business Accounting 3 credit hours

- LGS 250 - Legal Issues for Business 3 credit hours
(formerly crosslisted as BPA 250 - Legal Issues for Business)
OR
- LGS 253 - Business Law 1 3 credit hours
(formerly crosslisted as BPA 253 - Business Law I)
- ECO 121 - Introduction to Economics 3 credit hours
OR
- ECO 211 - Principles of Economics 1 3 credit hours

Elective: 3 credits

Choose any elective.

Construction Management Area of Concentration Requirements: 24 credits

Degree Awarded: Technical Studies: Apprentice - Construction Management Area of Concentration (See Records for code).

- ACH 111 - Graphic Communication 1: Composition and Delineation 3 credit hours
- ACH 121 - Construction Technology 1 3 credit hours
- ACH 122 - Construction Technology 2 3 credit hours
Based upon an individual's earned certificate or license, some courses (e.g., ACH 111, ACH 121 or ACH 122) may not be required and with permission, substitutions can be made.

And choose 12 credits from the following:

- ACH 216 - Construction Management 4 credit hours
- ACH 218 - Construction Operations 4 credit hours
- ACH 219 - Construction Contract Administration 3 credit hours
- ACH 230 - Cost Estimating for Construction 4 credit hours
- ACH 242 - Environmental Systems for Design 3 credit hours
- ACH 245 - Digital Technologies 1 3 credit hours
- BPA 162 - Business Communications 3 credit hours

Elective: 3 credits

Choose any elective.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. Students should satisfy this requirement with the General Education Social and Behavioral Science course selection as noted above.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate complex ideas and information through writing, speaking, presenting, and using technology.
2. Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
3. Apply mathematical skills, quantitative reasoning, and scientific reasoning to solve problems and interpret quantitative information.
4. Explain the significance of social diversity, respect for cultural values, and appreciation of differences among students, including race, religion, age, gender, sexual orientation, nationality, ethnicity and ability.
5. Meet individual program learning outcomes for the courses students take within their concentration and for other elective courses outside the general education requirements.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Solid Modeling and Rapid Prototyping (lor)

Official Title of Letter of Recognition: Solid Modeling and Rapid Prototyping, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: A minimum of 10

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: Prepares students for initial employment in computer-aided mechanical design and drafting. Students will learn solid modeling techniques using SolidWorks and develop rapid prototyping skills such as three-dimensional printing and laser cutting. Students will have an opportunity to take the AutoCAD Certified User and Solidworks Associate Level Certification exams. It also provides job advancement skills for individuals currently in manual drafting jobs.

Range of Occupations

- Entry-level CAD operator
- Job advancement
- Retraining

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Degree/Award Requirements

Degree Requirements

Completion of each of the required courses with a grade of C or better.

Award Requirements

Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 10 credits

- ENT 241 - Computer-Aided Drafting *3 credit hours*
- ENT 260 - Solid Modeling with SolidWorks *3 credit hours*
- ENT 261 - Rapid Prototyping Techniques *4 credit hours*

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Spanish (certificate)

Title of Certificate: Certificate in Spanish

Award: Certificate

Code: CRT.SPANISH

Total Credit Hours: 16-22

About World Languages

Purpose:

This certificate builds on 21st-century competencies that students need to navigate a multicultural workplace, such as communication, collaboration, and social and cross-cultural skills. Upon successful completion of the Spanish certificate, students will be able to engage in meaningful conversation, understand spoken language and written text, and present information, concepts, and ideas in Spanish. In addition, students will learn to use their native and acquired language to work cooperatively across cultures with global team members, sharing responsibility and making necessary compromises while working toward a common goal. Finally, they will understand diverse cultural perspectives and use appropriate sociolinguistic skills to function in diverse cultural and linguistic contexts.

21st Century Skill Map for languages can be found

at: https://www.actfl.org/sites/default/files/pdfs/21stCenturySkillsMap/p21_worldlanguagesmap.pdf

The American Council on the Teaching of Foreign Languages (ACTFL) is the national organization that provides guidance on teaching and learning in world language classrooms. Students will earn the credential by completing the required courses listed in the certificate and by demonstrating that they can communicate in Spanish at a specific proficiency level. We will use the Oral Proficiency Interview (OPI) to gauge students' proficiency levels according to the ACTFL Proficiency Guidelines. This interactive assessment tool measures how well a person communicates in a second language. The OPI score along with the required courses show an employer and/or community organization what students can actually do with the Spanish language. This certificate will give the students a tangible credential enhanced by a nationally-recognized assessment tool that reveals their true proficiency levels.

A description of the Oral Proficiency Interview (OPI) can be found at: <https://www.actfl.org/professional-development/assessments-the-actfl-testing-office/oral-proficiency-assessments-including-opi-opic>

Range of Occupations:

- Educator
- Law enforcement
- Medical professional
- Childcare provider
- Contractor
- Landscape services
- Restaurant management
- Hotel management
- Social worker
- Home health aide
- Occupational therapy assistant
- Speech-language pathologist

Occupations can be explored further through the Career Services at <https://www.aacc.edu/resources/careers-and-employment/career-services/>.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Explanation of Course Sequence Options

The Elementary and Intermediate Spanish sequences provide students with the foundation and grammar skills necessary to be successful in more advanced Spanish courses. Students who have previously studied Spanish may request from the academic chair a waiver for both SPA 111 and SPA 112. Once the Elementary Spanish sequence requirement has been satisfied, students recommended for SPA 211 and SPA 212 will select three other courses required for the certificate (SPA 213, SPA 221, SPA 225, SPA 226, SPA 227, and/or SPA 230), along with SPA 260. Students approved to enroll in SPA 213 will earn the certificate with a combination of four other courses (SPA 221, SPA 225, SPA 226, SPA 227, and/or SPA 230) and the required SPA 260. SPA 260, Oral Proficiency Interview, is a mandatory 1-credit course required for all students enrolled in the Spanish certificate program.

Certificate Requirements: 16 - 22 credits

SPA 111 and SPA 112 form the gateway courses to the upper level certificate requirements. SPA 111 and SPA 112 can be satisfied in any of the following ways: (i) successful completion of both courses, (ii) completion of two years of high

school Spanish, or (iii) departmental assessment. Upon satisfying the SPA 111 and SPA 112 requirement, students will enroll in SPA 211 and SPA 212 and a three course concentration or SPA 213 and a four course concentration designed to provide students with the foundation to become proficient in Spanish at the intermediate level according to the ACTFL Proficiency Guidelines. SPA 260, Oral Proficiency Interview, is required for the Spanish certificate. Please see the Academic Chair of World Languages for assessment and/or placement.

SPA 111 and SPA 112 are only required for beginning level students. All students must see the academic chair for placement.

- SPA 111 - Elementary Spanish 1 *3 credit hours*
and
 - SPA 112 - Elementary Spanish 2 *3 credit hours*
 - SPA 211 - Intermediate Spanish 1 *3 credit hours*
and
 - SPA 212 - Intermediate Spanish 2 *3 credit hours*
or
 - SPA 213 - Intermediate Spanish Grammar Review and Composition *3 credit hours*
If taking SPA 211 and SPA 212, select three courses from the following list of electives. If taking SPA 213, select four courses from the list of electives:
 - SPA 221 - Intermediate Spanish Conversation *3 credit hours*
 - SPA 225 - Intermediate Spanish Civilization and Culture *3 credit hours*
 - SPA 226 - Intermediate Latin American Civilization and Culture *3 credit hours*
 - SPA 227 - Intermediate Spanish and Latin American Film *3 credit hours*
 - SPA 230 - Spanish for Business and Finance *3 credit hours*
- Required course:
- SPA 260 - Oral Proficiency Interview Preparation *1 credit hour*

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Communicate orally and in writing in Spanish in the community and workplace.
2. Work with native and heritage speakers of Spanish in a variety of contexts.

This program aligns with all the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Special Education Support (certificate)

Official Title of Certificate: Special Education Support, Certificate

Award: Certificate

Code: CRT.EDU.SES

Total Credit Hours: A minimum of 16

Purpose: This certificate provides an overview of diverse learning needs. The courses within this certificate will assist participants to recognize diverse learning needs, giving them the knowledge and understanding to create an environment for success. This certificate is appropriate for preK-20 teachers, parents, and non-teaching professionals who work with children and adults with diverse learning needs.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 16 credits

- EDU 133 - Growth and Development *3 credit hours*
- EDU 214 - Introduction to Special Education *3 credit hours*
- EDU 248 - Instructional Strategies *1 credit hour*
- EDU 251 - Behavior Management *1 credit hour*
- EDU 252 - Autism Spectrum Disorders *1 credit hour*

- EDU 253 - Inclusive Secondary Instructional Practices *3 credit hours* **OR**
- EDU 269 - Inclusive Early Childhood and Elementary Instructional Practices *3 credit hours*

- EDU 255 - Instructional Teamwork *3 credit hours*
- EDU 259 - Assistive Technology for Students with Special Needs *1 credit hour*

Studio Arts - Visual Arts Transfer (A.A.)

Official Title of Major: Visual Arts Transfer - Studio Arts, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.VSL.STUDIO-ART

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Studio Arts Program

Purpose: Provides the fundamental foundation in the visual arts to prepare students for transferring to a 4-year college, university or art school to pursue a bachelor's degree in the visual arts. In addition to the ability to transfer credits toward a bachelor's degree at a 4-year school students would have the skills to pursue entry-level positions in art galleries, community arts education and apprenticeships or internships with professional artists.

Students' options after completing their transfer degree are dependent on the educational pathway and degree or certificate program that the student selected. The options are many. Some options might include working as an independent studio artist, teaching in the studio arts field and working in a gallery or museum.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Transfer Program Core Courses

The program core for this degree consists of ART 100 (satisfied through the Arts and Humanities general education requirement as listed below); ART 106 (satisfied through the technology requirement as listed below); and ART 125 (satisfied through the area of concentration requirement as listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 31 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- ART 100 - Two-Dimensional Design 3 *credit hours*
- ART 209 - History of Western Art 1 3 *credit hours*

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 6 credits

Must select two different disciplines. See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Additional General Education Requirement: 3 credits

- **Wellness Requirement** 3 credit hours

See General Education Wellness Requirements for list of approved courses.

Area of Concentration: 29 credits

Students must complete all of these courses with a grade of C or better.

Required Courses: 13 credits

- ART 102 - Three-Dimensional Design 3 credit hours
- ART 125 - Drawing 1 3 credit hours
- ART 200 - Drawing 2 3 credit hours
- ART 210 - History of Western Art 2 3 credit hours
- ART 230 - Art Portfolio Development 1 credit hour

Choose three courses from the following: 9 credits

- ART 103 - Color 3 credit hours
- ART 120 - Digital Photography 1 3 credit hours
- ART 121 - Black and White Photography 3 credit hours
- ART 131 - Painting 1 3 credit hours
- ART 135 - Sculpture 1: Clay Modeling and Mixed Media 3 credit hours
- ART 137 - Illustration 3 credit hours
- ART 138 - Metal Art Fabrication 3 credit hours
- ART 142 - Portraiture 1 3 credit hours
- ART 145 - Ceramics 1 3 credit hours
- ART 146 - Ceramics 2 3 credit hours
- ART 148 - Intaglio Printmaking 1 3 credit hours
- ART 202 - Life Drawing 3 credit hours
- ART 232 - Painting 2 3 credit hours
- ART 234 - Painting and Abstraction 3 credit hours
- ART 235 - Sculpture 2 3 credit hours
- ART 236 - Digital Photography 2 3 credit hours
- ART 238 - Alternative Photographic Process 3 credit hours
- ART 246 - Screen Printing 3 credit hours
- ART 247 - Lithographic Printmaking 3 credit hours
- ART 262 - Image & Design 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Electives: 4 credits

Recommend students check on transfer institution's requirements. No more than 3 credit hours of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Studio Arts Concentration, students will be able to:

1. Apply the principles of design to the creation of works of art.
2. Use different media to solve design problems and express a personal point of view.
3. Use industry standard technologies to create and present works of art.
4. Describe the primary historical periods and cultural trends in art.
5. Apply critical thinking skills to written and verbal communication about art.
6. Develop a personal portfolio of artwork that demonstrates a cohesive vision.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

Surgical Technology (A.A.S.)

Special Admission Requirements - Rolling Admission

Official Title of Major: Surgical Technology, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.SGT.SGT

Total Credit Hours: A minimum of 65

Visit www.aacc.edu to learn more about the Surgical Technology Degree program

Purpose: The Surgical Technology program provides didactic, lab, and clinical experiences that prepare students to become integral members of the surgical team. Students learn to manage the sterile field and to provide safe care of the surgical patient. Graduates of the program are prepared to take the national certification exam (CST) and to be employed as entry-level surgical technologists.

The Surgical Technology program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA).

AACC cannot confirm whether the course or program meets requirements for professional licensure in states other than Maryland. If you plan to apply for licensure in a state other than Maryland, contact that state's licensing board to determine whether the AACC course or program meets requirements for licensure in that state. If you need assistance finding contact information for your state, or if you need additional information regarding professional licensure, please contact the School of Health Sciences at 410-777-7310.

Additional Program Requirements

A grade of C or better in each surgical technology and general education course is required to progress in the program.

Range of Occupations

- Surgical technologist

Anne Arundel Community College and/or the School of Health Sciences reserves the right to revise requirements for admission into the Health Sciences programs, the selection criteria and procedures, and the required courses for programs of study as deemed necessary without prior notification.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Entrance/Admission Requirements

Admission Requirements

To view all entrance/admission details, please go to Surgical Technology Admissions Requirements.

Criminal Background Check and Drug Screening

This program requires the satisfactory completion of a criminal background check and possible drug screening. For complete details, see Health Sciences Criminal Background & Drug Screening.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Prerequisites

- BIO 231 - Human Biology 1 *4 credit hours* **AND**
- BIO 232 - Human Biology 2 *4 credit hours*
- **OR**
- BIO 233 - Anatomy and Physiology 1 *4 credit hours* **AND**
- BIO 234 - Anatomy and Physiology 2 *4 credit hours*
BIO 101 is a prerequisite for BIO 233-BIO 234.
- MDA 113 - Medical Terminology *3 credit hours*

Total credit hours: 11

Program Requirements

First Year - Term 1

- SGT 100 - Principles of Surgical Technology 1 *4 credit hours*
- BIO 223 - General Microbiology *4 credit hours*

English: 3 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours* **OR**
- ENG 101A - Academic Writing and Research 1 *3 credit hours*

Mathematics (general education requirement): 3-4 credits

See General Education Mathematics Requirements for a list of approved courses.

Total credit hours: 14-15

First Year - Term 2

- PSY 111 - Introduction to Psychology *3 credit hours*
- SGT 102 - Principles of Surgical Technology 2 *6 credit hours*
- CTA 100 - Computing and Information Technology *3 credit hours*
- **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*

Total credit hours: 12

Second Year - Term 1

- SGT 201 - Surgical Technology Clinical *5 credit hours*
- SGT 108 - Surgical Procedures 1 *4 credit hours*

Arts and Humanities (general education requirement): 3 credits

Must meet diversity requirement, see General Education Arts and Humanities Requirements.

Total credit hours: 12

Second Year - Term 2

- SGT 202 - Surgical Procedures 2 4 *credit hours*
- SGT 205 - Surgical Technology Clinical 2 5 *credit hours*
- SGT 206 - Surgical Technology Clinical 3 5 *credit hours*
- SGT 208 - Perspectives of Surgical Technology 2 *credits*

Total credit hours: 16

Program Outcomes

Upon successful completion of this program, students will be able to:

1. Obtain employment as a competent entry-level surgical technologist.
 2. Utilize technical, critical thinking, and problem-solving skills to adapt to the dynamic nature of the surgical environment.
 3. Discuss surgical procedures and the needs of the surgical patient by integrating knowledge of medical terminology, anatomy, pharmacology, pathophysiology, instrumentation, and the duties of a surgical technologist.
 4. Model positive affective behaviors that include responsibility, initiative, respect for others, and appropriate response to constructive feedback.
 5. Pass the national certification exam at a level meeting or exceeding the current accreditation standard.
 6. Exhibit awareness of the value of each surgical patient as a "whole person" with diverse needs, acting above all else, in furtherance of the safety and welfare of each patient.
 7. Practice the profession of surgical technology within established ethical and legal principles, reflecting a commitment to surgical conscience, ethical decision making, and continuing education.
 8. Demonstrate effective communication skills that facilitate the ability to work collaboratively in educational and professional settings and particularly in caring for the surgical patient.
- This program aligns with the college's core competencies.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Teacher Education, A.A.

This program is currently pending approval by the Maryland Higher Education Commission.

Title of Major: Teacher Education A.A.

Award: Associate of Arts degree, A.A.

Total Credit Hours: 60

Code: Provided by registrar

Teacher Education and Child Care (TEACH) Institute

Purpose: The Teacher Education, A.A. degree is designed for students preparing to transfer to a four-year institution to obtain a baccalaureate degree and earn Maryland state teacher certification. The program incorporates foundational coursework in teacher education, content coursework, and a field-based experience at the appropriate level of teacher certification. The degree is for students who plan to enter secondary education (7th through 12th grades) or a pre-K through 12th grade content area such as health, art, or physical education. Students may not earn both this degree and the AAT degree.

Additional Degree Requirements

To earn the degree students must complete all required coursework and the following additional requirements:

- Students must earn a C or better in all coursework required for the degree and obtain a cumulative grade point average of 2.75 or better.
- Students must complete fieldwork requirements as indicated by the Teacher Education and Child Care Institute. Participation in the required fieldwork experience is contingent upon satisfactory completion of the criminal background check.
- Students may be required to meet additional admittance requirements at the chosen transfer institution.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

General Education Requirements: 31-33 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 *credit hours*
- ENG 102 - Academic Writing and Research 2 3 *credit hours*
ENG 101 and ENG 101A are equivalent courses. Students may take ENG 101-ENG 102 or ENG 101A-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- COM 111 - Fundamentals of Oral Communication 3 *credit hours*
or COM 116 Fundamentals of Oral Communication for Non-Native Speakers
Arts and Humanities General Education Course other than COM.

Biological and Physical Sciences: 7-8 credits

At least one laboratory science course required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 - 4 credits

- MAT 135 - Statistics *3 credit hours* or higher.
Students should consult with an academic advisor to select an appropriate math course for their transfer school.

Social and Behavioral Sciences: 6 credits

- PSY 111 - Introduction to Psychology *3 credit hours*
Social and Behavioral Sciences Course other than PSY.

Additional General Education requirements: 3 Credits

- HEA 111 - Personal and Community Health *3 credit hours*

Program Requirements: 27-29 credits

- EDU 111 - Foundations of Education *3 credit hours*
- EDU 133 - Growth and Development *3 credit hours*
- EDU 211 - Educational Psychology *3 credit hours*
- EDU 214 - Introduction to Special Education *3 credit hours*
AND students must meet with the education advisor to choose 15-17 elective credits for the intended area of teaching; 9 of these credits must be from a single discipline. The three letters used in a course designation, e.g., BIO, ENG, ART, indicate the discipline to which it belongs. Physical activities courses cannot be counted in the single discipline requirement.

Diversity Requirement

Satisfied by EDU 214.

Technology Requirement:

Satisfied by EDU 214.

Wellness Requirement

Satisfied by HEA 111.

Program Outcomes

Upon successful completion of this program, students will be able to:

- 1.

1. Identify major historical events in education and analyze the impact of those events with current educational trends
2. Identify the psychological, cognitive, emotional, and physical characteristics of typically developing children and adolescents, with specific consideration to disabilities and cultural and linguistic diversity.
3. Analyze and critique current scientifically-based research and culturally responsive instructional practices for the purpose of understanding the educational needs of students and families.
4. Identify the current and inclusive philosophies for differentiating instruction to analyze, improve, and facilitate instruction for diverse learners.
5. Demonstrate and utilize technology as a teaching/reinforcement tool.
6. Analyze and reflect upon teaching practices for the purpose of improving and differentiating instruction for students.
7. Develop excellent written, verbal, critical thinking, and problem solving skills, which will allow him or her to effectively make connections between prior knowledge/experience and new learning.
8. Identify and conduct themselves as education professionals who use InTASC Model Core Teaching Standards
9. Identify types and purposes of assessment and be introduced to how to analyze and interpret student data to plan instruction and determine proficiency

This program aligns with all the college's core competencies.

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Arts and Sciences Transfer Program Core Course Requirements

The core courses for this degree are simultaneously satisfied by three of General Education Requirements listed below: (1) the Communications Arts and Humanities general education requirement, (2) the Sophomore Literature Arts and Humanities general education requirement, and (3) one of the History Social and Behavioral Sciences general education requirement courses (HIS 111 or HIS 112 or HIS 211 or HIS 212).

General Education Requirements: 34 credits

An approved list of general education courses can be found in the General Education Requirements and degree program required courses section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 6 credits

- Communications course 3 credit hours
- Sophomore Literature course 3 credit hours

Biological and Physical Sciences: 7 credits

At least one lab science required. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

Students must choose one Mathematics course from the following:

- MAT 133 - Finite Mathematics 3 credit hours
- **OR**
- MAT 135 - Statistics 3 credit hours
- **OR**
- More advanced level if qualified from the list below:
- MAT 137 - College Algebra 3 credit hours
- MAT 145 - Precalculus 1 3 credit hours
- MAT 146 - Precalculus 2 3 credit hours
- MAT 151 - Accelerated Precalculus 4 credit hours
- MAT 191 - Calculus and Analytic Geometry 1 4 credit hours
- MAT 192 - Calculus and Analytic Geometry 2 4 credit hours

- MAT 202 - Linear Algebra *4 credit hours*
- MAT 230 - Elementary Calculus (For Business and Social Sciences) *3 credit hours*

Social and Behavioral Sciences: 6 credits

- Social and Behavioral Sciences course (other than history) *3 credit hours* **AND**

Students must choose one History course from the following:

- HIS 111 - Ancient and Medieval Western Civilizations *3 credit hours*
- HIS 112 - Early Modern and Modern Western Civilizations *3 credit hours*
- HIS 211 - United States History through the Civil War *3 credit hours*
- HIS 212 - United States History Since the Civil War *3 credit hours*

Additional General Education Requirements: 6 credits

- **Technology Requirement** *3 credit hours*
See General Education Technology Requirements for a list of approved courses.
- **Wellness Requirement** *3 credit hours*
See General Education Wellness Requirements for a list of approved courses.

Area of Concentration Requirements: 26 credits

Required Courses: 15 credits

- THA 111 - Introduction to Theater *3 credit hours*
- THA 121 - Stagecraft *3 credit hours*
- THA 125 - Script Analysis *3 credit hours*
- THA 132 - Acting 1 *3 credit hours*
- THA 180 - Play Production *3 credit hours*

Theater Electives: 3 credits

Students are encouraged to contact the Theater Coordinator before selecting a Theater elective.

Electives: 8 credits

Recommend students check on transfer institution's requirements. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon completion of this program, students will be able to:

1. Communicate complex ideas and information through writing, speaking, presenting, and using technology.
2. Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
3. Explain of the value of tradition, innovation, and creativity in the performing arts.
4. Apply mathematical skills, critical analysis, and logical thinking to solve problems and interpret quantitative information.
5. Apply an awareness of social diversity and the ways in which cultural values are historically and socially situated.
6. Describe the origins of, and fundamental skills required in, live performance, design, and technical theatre career fields.
7. Constructively critique their own work, as well as the work of their peers.

This program aligns with the college's core competencies.

Transfer Studies (A.A.)

Title of Major: Transfer Studies, A.A.

Award: Associate of Arts degree, A.A.

Code: AA.TRANSFER.STDS

Total Credit Hours: 60

Purpose: Provides an opportunity for students to earn the first two years of a four-year program in a major not specifically offered, or for which the offered major is not a close match for the desired four-year program. This program offers flexibility in complying with requirements for transfer to baccalaureate colleges, and allows students to customize their program based on their requirements. Students should choose a concentration and electives based on the requirements of the school they will transfer to.

Additional Program Requirements: To assure a level of competency in this program, a minimum of 12 credit hours of courses must be in a single discipline (concentration). The three letters used in a course designation (e.g. BIO, ENG, GSS) indicate the discipline to which it belongs. Physical activities courses may not be counted toward an option in physical education.

The general education degree requirements section of this catalog includes the general education degree requirements for this degree. Refer to the sections below to ensure that diversity, technology, wellness, and general education degree requirements are included in your course selections.

Visit catalog.aacc.edu for the following Approximate Cost information

See General Education Wellness Requirements for a list of approved courses.

Program Requirements: 26 credits

Concentration Requirements: 12 credits

Select a minimum of 12 credits from a single discipline. The three letters used in a course designation (i.e. BIO, ENG, GSS) indicate the discipline to which the course belongs. Physical activities courses may not be used for a concentration.

Electives: 13 credits

The remaining credit hours needed to achieve a minimum total of 60 credit hours are to be chosen with the approval of an advisor. No more than 3 credits of physical activity courses may be used as electives.

ACA 100: 1 credit

ACA 100 - Student Success Seminar OR evidence of completion of 24 college credits.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

All students in associate degree programs must satisfy the Technology Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

- Communicate complex ideas and information in the arts, humanities, and social sciences through writing, speaking, presenting, and using technology.
- Locate, organize, and analyze information from multiple sources in order to develop informed, reasoned, and substantiated arguments.
- Apply mathematical skills, quantitative reasoning, and scientific reasoning to solve problems and interpret quantitative information.
- Explain the significance of social diversity, respect for cultural values, and appreciation of differences among students, including race, religion, age, gender, sexual orientation, nationality, ethnicity and ability.
- Meet individual program learning outcomes for the courses students take within their concentration and for other elective courses outside the general education requirements.

Course Sequence Variations

The courses in this degree can be taken in different sequences if the student wants to focus on architecture, business, engineering/math, general/career development, health/human services, hospitality/culinary, humanities/social sciences, law/criminal justice, science, teacher education, technology, or visual arts areas. Students wishing to take different sequences should consult an academic advisor.

Transportation, Logistics, and Cargo Security (certificate)

Title of Certificate: Transportation, Logistics, and Cargo Security, Certificate

Award: Certificate

Code: CRT.BMT.TRANSPORT

Total Credit Hours: 18

Visit www.aacc.edu to learn more about the Business Management Department

Purpose: This certificate will prepare students for entry-level employment in the growing transportation and logistics industry and enhance the knowledge and skills of existing industry employees.

Employment Information: The range of occupations within the various sectors of the transportation industry include air, sea, ground, rail, warehousing and distribution. The minimum hiring age varies between 18 and 21, depending on the employer. The majority of jobs in this industry require drug testing and criminal background checks. Students are advised to consider these industry requirements before applying to the program.

Statewide Tuition Reduction Program

This program of study is designated a Statewide Tuition Reduction Program. This means that some residents of Maryland (refer to the Tuition, Fees and Payments section of this catalog) enrolled in this program of study by the first day of the term may be eligible for in-county tuition rates for courses required for program completion. It is the student's responsibility to confirm that this program still maintains a Statewide Program status before enrolling. Please refer to the college's Accounts Receivable Office to confirm this designation.

Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 18 credits

- BPA 235 - Introduction to Transportation and Logistics *3 credit hours*
- BPA 236 - Introduction to Airport and Seaport Operations *3 credit hours*
- BPA 237 - Supply Chain Management *3 credit hours*
- BPA 238 - Domestic and International Freight Operations *3 credit hours*
- BPA 275 - Internship in Business 1 *3 credit hours*
- HLS 213 - Transportation and Border Security *3 credit hours*

Program Outcomes

Upon successful completion of this program, students will be able to:

- Analyze information and process it to a rational conclusion.
- Present case analyses reports in a cohesive and convincing manner.
- Understand the global nature of the world's transportation systems.
- Understand and identify documents that are generally used in the transportation of materials process.
- Apply moral and ethical standards to sensitive homeland security issues.

This program aligns with the college's core competencies.

Visual Arts, Painting (lor)

Official Title of Letter of Recognition: Visual Arts, Painting, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: A minimum of 10

Visual Arts and Humanities

Purpose: This course sequence is designed for students who wish to display a concentrated knowledge of painting practices in professional exhibitions, who wish to assemble a painting transfer portfolio, or who are interested in personal enrichment in this area.

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of

Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Requirements: 10 credits

- ART 131 - Painting 1 3 *credit hours*
- ART 232 - Painting 2 3 *credit hours*
- ART 250 - Digital Portfolio Development 1 *credit hour*

Electives (select one from the following with approval department chair): 3 credits

- ART 233 - Painting 3 3 *credit hours*
- ART 281 - Special Topics in Art - Landscape Painting
- ART 288 - Special Topics in Art - Figure Painting
- ART 290 - Special Topics in Art - Materials and Methods of Painting

Award Requirements

Completion of each of the required courses with a grade of C or better. Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Web and Mobile Application Development (A.A.S.)

This program is pending approval by the Maryland Higher Education Commission.

Official Title of Major: Web and Mobile Application Development, A.A.S.

Award: Associate of Applied Science degree, A.A.S

Code: Contact Records Office

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Computer Science Department

Purpose: Prepares students for careers requiring a strong background in computer technology. Covers fundamental concepts in software development, web application development, mobile device application development, and back-end server development.

Emphasizes the development expertise in software development using multiple development languages. Emphasizes the roles and responsibilities of individuals delivering content on browsers and mobile devices.

Range of Occupations:

- Front end Developer
- Back end Developer

- Internet/Web Applications Developer
- Mobile Applications Developer
- Software Developer
- PHP Developer
- Web Content Manager

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

General Education Requirements: 18 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 *3 credit hours*
- ENG 102 - Academic Writing and Research 2 *3 credit hours*
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

See General Education Arts and Humanities Requirements for a list of approved courses.

Biological and Physical Sciences: 3 credits

- BIO 135 - Principles of Nutrition *3 credit hours*
BIO 135 satisfies the college Wellness Requirement. If you have already satisfied the college Wellness Requirement, you may elect to take any Biological and Physical Sciences General Education Requirement course. Please contact the Computer Science department for more information.

Mathematics: 3 credits

- MAT 145 - Precalculus 1 *3 credit hours*
Or more advanced level if qualified.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Program Requirements: 31 credits

Students must complete all of these with a grade of C or better.

- ART 170 - Web Design 1 3 credit hours
- CTP 115 - Introductory Object-Oriented Program Analysis and Design 4 credit hours
CTP 115 also meets the Technology General Education requirement.
- CTP 118 - Web Development using HTML/CSS 4 credit hours
- CTP 130 - Programming in PHP/MySQL 3 credit hours
- CTP 135 - Programming in JavaScript and jQuery 4 credit hours
- CTP 140 - Database Foundations, SQL/NoSql 3 credit hours
- CTP 150 - Computer Science 1 4 credit hours
- CTP 236 - Advanced JavaScript 3 credit hours
- CTP 237 - Server-Side Development 3 credit hours

Program Electives: 11 credits

Students must complete a minimum of 10 credit hours from the following list with a grade of C or better. One hour of general electives may be taken to meet the 60 hours required for graduation.

- ART 268 - User Experience Design for the Web 3 credit hours
- ART 269 - Responsive Web Design 3 credit hours
- CTP 220 - Content Management Systems 3 credit hours
- CTP 230 - Android Programming 4 credit hours
- CTP 232 - iPad/iPhone iOS Programming 1 4 credit hours

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by CTP 115.

Wellness Requirement

Satisfied by BIO 135.

Fast Track Option

These programs have Fast Track Options for those holding a college degree.

Program Outcomes

Upon successful completion of the Web and Mobile Application Development degree, students will be able to:

1. Summarize the process of serving a webpage and how the browser renders code
2. Build front-end websites with static and dynamic Web pages
3. Create back-end server with RESTful routes to support full-stack applications
4. Implement user authentication schemes needed to incorporate different types of databases
5. Develop apps while applying the accepted best practices for software development

These programs align with the college's core competencies.

Web Design (certificate)

Official Title of Certificate: Web Design, Certificate

Award: Certificate

Code: CRT.VSL.WEB-DESIGN

Total Credit Hours: 31-32

Visit www.aacc.edu to learn more about the Web Design program

Purpose: The web design certificate is intended for professionals already holding a two or four year degree who wish to make a career change or update skills in the web design industry. Professionals with a traditional background in print design hoping to expand into the web arena may also benefit from the certificate in web design. Credits earned for the certificate may be applied to the Visual Arts Professional AAS Web Design Area of Concentration. The program provides an introduction to the design process from concept to completion, as well as allowing the student to choose an additional area of focus: marketing or programming. This certificate is not a substitute for a degree in web or interactive design.

Range of Occupations

- Entry-level web designer
- Junior web designer
- Web design intern
- Freelance web designer

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). Certificate Graduation Requirements

To graduate with a certificate, students must have demonstrated eligibility for ENG 101, ENG 101A, or ENG 111. Refer to Academic Regulations on Graduation Requirements.

Certificate Requirements: 31-32 credits

- ART 100 - Two-Dimensional Design *3 credit hours*
- ART 106 - Introduction to Digital Design *3 credit hours*

- ART 166 - Graphic Design 1 *3 credit hours*
- OR**
- ART 264 - Fundamentals of Typography *3 credit hours*
- ART 268 - User Experience Design for the Web *3 credit hours*

- ART 170 - Web Design 1 *3 credit hours*
- ART 250 - Digital Portfolio Development *1 credit hour*
- ART 269 - Responsive Web Design *3 credit hours*
- ART 270 - Web Design 2 *3 credit hours*
- ART 275 - Digital Arts Internship *3 credit hours*

Select two courses from the following: 6-7 credits

- ART 120 - Digital Photography 1 *3 credit hours*
- BPA 127 - eMarketing *3 credit hours*
- CTP 118 - Web Development using HTML/CSS *4 credit hours*

Program Outcomes

Upon successful completion of the Web and Interactive Design Certificate, students will be able to:

1. Create designs that take advantage of the principles and elements of design to communicate content in a visually compelling, user-centered manner;
2. Effectively and professionally present concepts to clients both verbally and in written form;
3. Apply user experience techniques to the design of interactive projects;
4. Design for the requirements of multiple screen sizes and unique user contexts;
5. Use appropriate image file formats, resolutions, and expert parameters;
6. Incorporate industry-standard tools to write standards-compliant, efficient, and content-focused HTML and CSS code;
7. Create a professional portfolio of work to present at job and client interviews.

This program aligns with the college's core competencies.

Web Design - Visual Arts Professional (A.A.S.)

Official Title of Major: Visual Arts Professional - Web Design, A.A.S.

Award: Associate of Applied Science degree, A.A.S.

Code: AAS.VSL-P.WEB-DESIGN

Total Credit Hours: 60

Visit www.aacc.edu to learn more about the Web Design program

Purpose: Prepares students for a career in the field of web design. For those already working in the industry, this concentration enhances and updates their knowledge and skills with the latest developments in web design. The Visual Arts Professional AAS Web Design Area of Concentration also allows professionals in a related industry such as graphic design to make a career change or supplement an existing degree.

Upon completion of this degree, students will have obtained a solid foundation in design and art while developing a user-centered approach to web design. Students will be able to plan and complete interactive web designs by creating wireframes, flow diagrams, user personas, standards-compliant HTML and CSS, and compelling visual designs. Students will have gained professional experience by working on simulated and actual client projects and completing a design internship.

This is not intended as a transfer degree. Students who wish to obtain a bachelor's degree in Web Design should contact the Visual Arts department chair. A Certificate in Web Design is also available. Related degrees/certificates are the Visual Arts Professional AAS in Graphic Design and the Certificate in Graphic Design. The Visual Arts Transfer AA Graphic and Web Design Area of Concentration is available for students who wish to transfer to a four-year institution and pursue a bachelor's degree.

Visit catalog.aacc.edu for the following Approximate Cost information

- Credit Costs (approximate, minimum cost of two-years \$8,320 full time at AACC)
- How to Figure Your Cost Worksheet

Honors Program Courses

If you qualify for the Honors Program, you may take honors versions of some courses (such as ENG 101H, ENG 102H, etc.).

Graduation Requirements

See Academic Regulations for college-wide Graduation Requirements.

Visual Arts Professional Degree Core Courses

The following courses make up the core for the Visual Arts Professional degree programs: ART 100 (satisfied by the Arts and Humanities general education requirement listed below), ART 106, (satisfied by the Technology requirement listed below), ART 250 and ART 275 (satisfied by the Area of Concentration requirement listed below).

Students must complete all of these courses with a grade of C or better.

General Education Requirements: 21 credits

An approved list of general education courses can be found in the General Education and Diversity, Technology and Wellness Requirements section of the catalog. Choose general education courses from the following topics:

English Composition: 6 credits

- ENG 101 - Academic Writing and Research 1 3 credit hours
- ENG 102 - Academic Writing and Research 2 3 credit hours
ENG 101A and ENG 101 are equivalent courses. Students may take ENG 101A-ENG 102 or ENG 101-ENG 102 to meet their English Composition General Education requirement.

Arts and Humanities: 3 credits

- ART 100 - Two-Dimensional Design 3 credit hours

Biological and Physical Sciences: 3 credits

A lab science is acceptable. See General Education Biological and Physical Sciences Requirements for a list of approved courses.

Mathematics: 3 credits

See General Education Mathematics Requirements for a list of approved courses.

Social and Behavioral Sciences: 3 credits

See General Education Social and Behavioral Sciences Requirements for a list of approved courses.

Wellness Requirement: 3 credits

All students in Associate Degree programs must satisfy the Wellness requirement. See Wellness Requirements for a list of approved courses.

Area of Concentration: 39 credits

Required courses: 16 credits

- ART 170 - Web Design 1 3 credit hours
- ART 268 - User Experience Design for the Web 3 credit hours
- ART 269 - Responsive Web Design 3 credit hours
- ART 270 - Web Design 2 3 credit hours
- ART 250 - Digital Portfolio Development 1 credit hour
- ART 275 - Digital Arts Internship 3 credit hours

Technology Requirement: 3 credits

- ART 106 - Introduction to Digital Design 3 credit hours

Choose three to four courses from the following: 12 credits

Recommended courses for students interested in front-end visual web design:

- ART 166 - Graphic Design 1 3 credit hours
- ART 262 - Image & Design 3 credit hours
- ART 264 - Fundamentals of Typography 3 credit hours

Recommended courses for students interested in full stack web design:

- CTP 115 - Introductory Object-Oriented Program Analysis and Design 4 credit hours
- CTP 135 - Programming in JavaScript and jQuery 4 credit hours
- CTP 136 - jQuery 4 credit hours

Recommended courses for students interested in writing for the web as content managers or editors:

- BPA 127 - eMarketing 3 credit hours
- BPA 162 - Business Communications 3 credit hours
- ENG 207 - Writing for Professionals 3 credit hours

Electives: 8 credits

Students are recommended to consult with Visual Arts faculty when selecting electives. No more than 3 credits of physical activity courses may be used as electives.

Diversity Requirement

All students in associate degree programs must satisfy the Diversity Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Technology Requirement

Satisfied by ART 106.

Wellness Requirement

Unless they are in a degree that is exempt, all students in associate degree programs must satisfy the Wellness Requirement. In many cases, students may satisfy this requirement simultaneously as they satisfy a general education course requirement or with an elective.

Program Outcomes

Upon successful completion of the Web and Interactive Design Concentration, students will be able to:

1. Create designs that take advantage of the principles and elements of design to communicate content in a visually compelling, user-centered manner;
2. Effectively and professionally present concepts to clients both verbally and in written form;
3. Apply user experience techniques to the design of interactive projects;
4. Design for the requirements of multiple screen sizes and unique user contexts;
5. Use appropriate image file formats, resolutions, and expert parameters;
6. Incorporate industry-standard tools to write standards-compliant, efficient, and content-focused HTML and CSS code;
7. Create a professional portfolio of work to present at job and client interviews.

This program aligns with the college's core competencies.

Related Offerings

Students may wish to also review requirements for the related majors or programs linked below.

- Game Development - Visual Arts Professional (A.A.S.)
- Graphic Design - Visual Arts Professional (A.A.S.)
- Media Production - Visual Arts Professional (A.A.S.)

Wiring Technician (lor)

Official Title of Letter of Recognition: Wiring Technician, Letter of Recognition

Award: Letter of Recognition

Total Credit Hours: A minimum of 8

Visit www.aacc.edu to learn more about the Engineering Department

Purpose: To prepare for employment installing and repairing wiring in cables and equipment as would be found in voice, data, computer and communication systems. Learn the techniques of splicing, interconnecting, soldering, mechanical assembly and schematic reading. Get an introduction to the use and operation of basic electrical measurement instruments, components and systems, and basic PC application applications. This sequence is for those looking for a practical skills area of study that has a minimum of math and analysis.

Range of Occupations

- Cable installer

Special Conditions

Financial Aid: This program has not been approved by the U.S. Department of Education for eligibility for federal student aid. Students enrolled in this program may not be eligible to receive financial aid from the U.S. Department of Education (Pell Grants, SEOG, Federal Work-Study, Direct Loans or PLUS loans) or the Maryland Higher Education Commission (Educational Assistance Grants, Senatorial Scholarships or Delegate Scholarships). For current information on eligible programs, contact Financial Aid by calling 410-777-2203, emailing finaid@aacc.edu or stopping by a Financial Aid office.

Degree/Award Requirements

Degree Requirements

Completion of each of the required courses with a grade of C or better.

Award Requirements

Students must apply to the Records and Registration office for the letter of recognition after they have completed the requirements.

Requirements: 8 credits

- CTA 100 - Computing and Information Technology *3 credit hours* **OR**
- CTP 103 - Theories and Applications of Digital Technology *3 credit hours*

- EET 118 - Electronic Hardware and Assembly Techniques *4 credit hours*
- EET 141 - Telecommunications Wiring Laboratory *1 credit hour*

Career and Educational Advancement Resources

Visit catalog.aacc.edu for Career, Workforce Certifications, Education, and Transfer Resources

Courses

Academic Literacies

ACL 040 - Academic Literacies

5 equivalent hours - Five hours weekly; one term.

Explore and critically evaluate a variety of academic texts. Identify, discuss, and write about abstract ideas from a variety of complex academic texts. Expand and connect readings to other meaningful texts, to the world, and to lived experiences. Develop an understanding of the writing process in order to produce authentic academic writing, thus preparing students for success in college level reading and writing. **Prereq:** *Appropriate placement into ACL 040.*

Note: *ACL 040 is offered in an accelerated format, allowing students to complete their developmental reading and English requirements in one semester. A grade of at least C is required to enroll in ENG 101A. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.*

ACL 080-099 - Special Topics in Reading

1-5 credit hours -

An intensive study of current or specialized themes or topics in reading. Some courses may require placement testing and/or prerequisites.

Achieving College/Career Advancement

ACA 100 - Student Success Seminar

1 credit hour - Fifteen hours; one term

Identify and examine college support services, faculty expectations, and academic planning. Investigate and practice the habits of successful students such as study skills, note taking and time management. Identify learning strategies, explore career pathways, and set goals. Develop an academic plan and tools to facilitate academic success in a diverse learning environment. **Note:** *Typically offered at MC, AM, GB, and OL; all terms.*

ACA 110 - Achieving Success in the Online Classroom

1 credit hour - 15 hours; one term

Distinguish the differences between learning in a physical classroom and a virtual one. Discover the learning management system and available online resources. Identify the strategies that make a learner successful in the online environment. **Note:** *This course is intended for students who are new to online learning. Typically offered OL; fall, spring, and summer terms.*

ACA 120 - Achieving Career Success

1 credit hour - 15 hours; one term

Develop a cadre of skills that facilitate career success in diverse working environments. Identify, explain, and demonstrate professional expectations in a chosen career field. Plan and organize a job search strategy consistent with goals and professional credentials. Communicate effectively verbally, nonverbally, and in writing for a simulated job interview. **Note:** *The course is intended for students who are graduating with a career degree. Typically offered OL; fall and spring terms.*

ACA 200 - Portfolio Assessment

1 credit hour -

Create a portfolio of prior learning that demonstrates knowledge acquired in nonacademic settings to AACC content experts for possible credits in targeted courses. Develop educational and career plans, analyze and match acquired learning experiences with course learning objectives and provide supporting documentation. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC, AM, and GB; as needed.*

African American Studies

AFA 101 - Introduction to African American Studies

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Presents an overview of history, culture, religion, institutions, politics, economics, arts and psychology of peoples of African descent as developed from experience and both the old and new worlds. Multidisciplinary analysis of social life from an African-American perspective as illustrated in selected historical and contemporary writings. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as AMS 101; credit is not given for both AFA 101 and AMS 101.* **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

AFA 102 - Psychology of African Americans

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Explore basic theoretical and philosophical perspectives in the field of African-American psychology. Review history of African Americans and impact of historical events on the psychological well-being of African Americans. Discuss racism and discrimination and its impact on the African-American family, the education and achievement of African Americans, African-American identity development and other pertinent issues relevant to the lifestyles of African Americans. **Crosslisted:** *Also offered as PSY 102; credit is not given for both AFA 102 and PSY 102.*

AFA 214 - African American History

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Evaluate significant contributions made by African Americans to the American past. Gain oral and visual impressions of important issues and personalities of our nation's African American heritage through media presentations. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as HIS 214; credit is not given for both AFA 214 and HIS 214. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

AFA 225 - African American Literature

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Explore the poetry, fiction, nonfiction, and drama of African Americans of the United States from the 18th century to the present. Study major literary, political, and social currents that inspired this writing. **Prereq:** Eligibility for ENG 101/ENG 101A or permission of the department. **Crosslisted:** Also offered as AFA 225H, ENG 225, and ENG 225H; credit is given for only one of the following: AFA 225, AFA 225H, ENG 225 or ENG 225H.

AFA 225H - African American Literature -Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Explore the poetry, fiction, nonfiction and drama of African Americans of the United States from the 18th century to the present. Study major literary, political, and social currents that inspired this writing.

Prereq: Eligibility for Honors courses and ENG 101/ENG 101A or permission of the department chair. **Crosslisted:** Also offered as AFA 225, ENG 225 and ENG 225H; credit is given for only one of the following: AFA 225, AFA 225H, ENG 225 or ENG 225H. **Note:** Complete and present an honors capstone research project that extends beyond the classroom.

AFA 228 - African American Art

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Study African American visual arts encompassing African art forms, the arts of the African Diaspora and varied work of African American artists. Lectures and discussions will be supplemented by trips to museums in the Baltimore-Washington area. No previous art courses are necessary. **Crosslisted:** Also offered as ART 228; credit is not given for both AFA 228 and ART 228.

AFA 280 - Special Topics in African American Studies

3 credit hours - Three hours weekly; one term.

An intensive study of current or specialized themes or topics in African American studies. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. **Prereq:** Eligibility for ENG 101/ENG 101A.

Allied Health

AHT 101 - Mathematics for Health Professions

1 credit hour - Three hours weekly; six weeks.

Gain knowledge of basic arithmetic including ratio and proportion calculations, metric and apothecary conversions, medication calculations for adults and children, calculations required to regulate intravenous fluids and other clinically related functions for safe and accurate medication administration. This course must be completed with a grade of B or better. Attendance at all classes is mandatory to receive a passing grade. **Prereq:** NUR 120, NUR 121 and NUR 122 or by permission of the nursing department director.

AHT 280 - Special Topics in Allied Health Technology

4 credit hours - One to four hours weekly; one term.

An in-depth study of contemporary issues that meets changing needs and interests of students. Provides an opportunity to explore topics that affect current health care philosophies, directions, practices and challenges not covered in other traditional courses. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$10-50.

American Studies

AMS 100 - Introduction to American Studies

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. Learn American culture and its many expressions. Investigate the various ways the American experience has been described from the earliest explorations to the present. Examine primary ideas and themes in the development of American culture through participation and observation. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

AMS 101 - Introduction to African American Studies

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Presents an overview of history, culture, religion, institutions, politics, economics, arts and psychology of peoples of African descent as developed from experience and both the old and new worlds. Multidisciplinary analysis of social life from an African-American perspective as illustrated in selected historical and contemporary writings. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as AFA 101; credit is not given for both AMS 101 and AFA 101.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

AMS 102 - Introduction to Masculinity Studies

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Explore issues in the lives of American men. Investigates the interdisciplinary field of masculinity studies by examining contemporary theories of masculinity, changes in the definitions of masculinity in different periods of American history, the sociology and psychology of men's experiences, and gender and sexuality as organizing features of men's lives. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as GSS 102 and SOC 102; credit is given for only one of the following: AMS 102, GSS 102 or SOC 102.* **Note:** *Typically offered OL; fall, spring, and summer terms.*

AMS 121 - Popular Culture in America

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. Examine American beliefs, values, and attitudes as they are reflected in such institutions and leisure pursuits as motion pictures, television, radio, music, sports, politics, and lifestyles. **Note:** *Typically offered at MC and OL; all terms.*

AMS 123 - Sports in America

3 credit hours - Three hours weekly; one term.

Examine the role, function and significance of sports and their impact on the hearts and minds of Americans. Research topics such as myth and legends, rituals and ceremonies, women and sports, amateurs and professionals, the business of sports and sports as a secular religion. **Crosslisted:** *Also offered as SPT 123; credit is not given for both AMS 123 and SPT 123.*

AMS 181 - Introduction to American Film

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Study the complex relationship between American film and culture. Review and discuss the aesthetics and manifestation of film in American society.

Crosslisted: *Also offered as ART 181; credit is not given for both AMS 181 and ART 181.*

AMS 211 - Gender and Mass Media in the United States

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Learn principles of contemporary mass media scholarship. Examine how media creates and perpetuates constructions of masculinity and femininity and how these constructions relate to race, ethnicity, class, sexuality and other variables of difference. Explore the political economy of media production, the relationship between media and ideology and audience reception. **Crosslisted:** *Also offered as GSS 211; credit is not given for both AMS 211 and GSS 211.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

AMS 212 - Introduction to Lesbian, Gay, Bisexual and Transgender Studies

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Examine the diversity of lesbian, gay, bisexual and transgender (LGBT) behaviors, orientations, identities, communities, and issues from a trans-historical, cross-cultural and interdisciplinary perspective with special emphasis on LGBT culture in the United States. Study the history of human sexuality and gender identity/expression; cultural and social constructions of sexuality and gender; representations of LGBT experience in textual and visual media; legal rights and restrictions; current events and socio-political issues of current interest; methods of queer theory/queer studies; and advocacy, activism and change. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as GSS 212 and SOC 212; credit is given for only one of the following: AMS 212, GSS 212 or SOC 212.* **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

AMS 223 - History of American Architecture

3 credit hours - Three hours weekly; one term.

An introduction to the development of American architecture, interior design, urban design and landscape architecture from pre-colonial times to the present. Particular attention will be paid to the old and new world sources of American design, as well as to the cultural, political, economic and environmental forces that have shaped the American built environment. Lectures and discussions will be supplemented by field trips. No previous art courses are necessary.

Crosslisted: *Also offered as ACH 223 and ART 223; credit is given only one of the following: ACH 223, AMS 223 or ART 223.*

AMS 224 - Introduction to Historic Preservation

3 credit hours - Three hours weekly; one term.

An introduction to the field of historic preservation, including its history, practices and philosophical and legal

dimensions. Lectures will be supplemented by field trips to local historic sites and preservation agencies. No previous art courses are necessary. **Crosslisted:** Also offered as ART 224; credit is not given for both AMS 224 and ART 224.

AMS 225 - Cultural Representations of Disability, Gender and Sexuality in the U.S.

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Explore the representations of disability in American popular culture. Analyze how gender and sexuality affect the representations of disability. Examine the connections between representations of oppressed groups in popular culture and the unequal distribution of economic, political and social power in the U.S. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as GSS 225 and SOC 225; credit is given for only one of the following: AMS 225, GSS 225 or SOC 225.

AMS 280-299 - Special Topics in American Studies

-

An intensive study of significant themes, motifs and ideas in American culture. Multidisciplinary methods are used to integrate history, literature, music, art, psychology, architecture and philosophy. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer issues, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Anthropology

ANT 120 - Introduction to Physical Anthropology

3 credit hours - Three hours weekly; one term.

Survey anthropology with emphasis on human physical development. Consideration given to humans as evolving biological and cultural creatures and historical theories of evolution and transmission of inheritance. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered OL; fall and spring terms.

ANT 121 - Introduction to Cultural Anthropology

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Evaluate human behavior and social organization from a comparative cross-cultural perspective. Using an ethnographic approach, examine topics such as culture, religion, family and kinship, and economic, social, and political organization. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC; fall and spring terms.

ANT 123 - Introduction to Archaeology

3 credit hours - Three hours of lecture weekly; one term.

This course meets the Social & Behavioral Sciences General Education Requirement. Research the archeology of both Old and New Worlds emphasizing North America and Europe. Analyze the spatial distribution, over time, of the genus Homo. Investigate material cultural and environmental evidence in order to understand regional differences in social institutions, especially economics. **Prereq:** Eligibility for ENG 101 or ENG 101A. **Note:** Typically offered OL; fall and spring terms.

Architecture and Interior Design

ACH 100 - Introduction to Interior Design

1 credit hour - One hour forty minutes weekly; 8 weeks.

Gain an overview of the interior design profession. Learn the principles and elements of interior design through critiques, simple in-class exercises, projects, and lectures. Explores the various academic pathways in both residential and commercial design. Preparatory course for students exploring the field of interior design and seeking a certificate or degree. Lab fee \$20. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

ACH 101 - Kitchen and Bath Fundamentals

1 credit hour - Ten hours of lecture and ten hours lab weekly; one term

Identify solutions for kitchen and bath design in a residential setting. Outline recommended standards for placement of cabinetry, plumbing fixtures, and appliances. Address codes set by the International Residential Code (IRC).

Examine ventilation and lighting. Define accessibility requirements and designing for aging in place. Lab Fee \$20.

Note: Typically offered MC and OL; fall, spring and summer terms.

ACH 104 - Interior Finishes and Applications

3 credit hours - One hour of lecture and four hours of studio weekly; one term.

Formerly Materials and Methods for Interior Design I. Examine interior finishes and their methods of installation for both residential and commercial projects. Explore sustainability and the role of LEED (Leadership in Energy and Environmental Design). Evaluate sustainable specifications, performance attributes, installation issues and fabrication of materials. Review finish schedules and interior design specifications. Explore new and remodeling applications, review private contractors and home suppliers to determine appropriate finishes in design. Lab fee \$40. **Prereq. or Coreq.:** ACH 100 or permission of department chair. **Crosslisted:** Also offered as ACH 104H; credit is not given for both ACH 104 and ACH 104H. **Note:** Typically offered at MC and OL; fall and spring terms.

ACH 104H - Interior Finishes and Applications - Honors

3 credit hours - One hour of lecture and four hours of studio weekly; one term.

Formerly Materials and Methods for Interior Design I --- This is an honors course. Examine interior finishes and their methods of installation for both residential and commercial projects. Explore sustainability and the role of LEED (Leadership in Energy and Environmental Design). Evaluate sustainable specifications, performance attributes,

installation issues and fabrication of materials. Review finish schedules and interior design specifications. Explore new and remodeling applications, review private contractors and home suppliers to determine appropriate finishes in design. Lab fee \$40. **Prereq:** *Eligibility for Honors courses.* **Prereq. or Coreq.:** *ACH 100 or permission of department chair.* **Crosslisted:** *Also offered as ACH 104; credit is not given for both ACH 104 and ACH 104H.* **Note:** *Complete and present an honors capstone research project.*

ACH 105 - Textiles and Textile Applications

3 credit hours - one hour of lecture and four hours of studio weekly; one term.

Explore textiles and the different types of natural and synthetic fibers. Discuss textile history, manufacturing and applications. Examine textile production processes, pattern design and industry icons. Apply appropriate textiles to window treatments, wallcoverings and furniture applications. Estimate carpet and textile quantities. Lab fee \$40.

Prereq. or Coreq.: *ACH 100 or permission of department chair.* **Crosslisted:** *Also offered as ACH 105H; credit is not given for both ACH 105 and ACH 105H.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ACH 105H - Textiles and Textile Applications - Honors

3 credit hours - One hour lecture and four hours of studio weekly; one term.

This is an honors course. Explore textiles and the different types of natural and synthetic fibers. Discuss textile history, manufacturing and applications. Examine textile production processes, pattern design and industry icons. Apply appropriate textiles to window treatments, wallcoverings and furniture applications. Estimate carpet and textile quantities. Lab fee \$40. **Prereq:** *Eligibility for Honors Courses.* **Prereq. or Coreq.:** *ACH 100 or permission of department chair.* **Crosslisted:** *Also offered as ACH 105; credit is not given for both ACH 105 and ACH 105H.* **Note:** *Complete and present an honors capstone research project.*

ACH 106 - Interior Design Studio

3 credit hours - One hour of lecture weekly and four hours of laboratory weekly; one term.

Formerly Residential Design Studio. Apply the interior design process from initial client interview, through schematic design, development, and final presentations. Examine and apply the principles and elements of design in residential and commercial settings. Develop different forms of communicating design through verbal, written, and technology based methods. Determine furnishing layouts, textiles, interior finishes, lighting, and color solutions for residential interior applications. Projects range from basic to more complex interior design solutions. Lab fee \$40. **Prereq:** *ACH 100 and ACH 111 or permission of department chair.* **Crosslisted:** *Also offered as ACH 106H; credit is not given for both ACH 106 and ACH 106H.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ACH 106H - Interior Design Studio - Honors

3 credit hours - One hour of lecture weekly and four hours of laboratory weekly; one term.

Formerly Residential Design Studio This is an honors course. Apply the interior design process from initial client interview, through schematic design, development, and final presentations. Examine and apply the principles and elements of design in residential and commercial settings. Develop different forms of communicating design through verbal, written, and technology based methods. Determine furnishing layouts, textiles, interior finishes, lighting, and color solutions for residential interior applications. Projects range from basic to more complex interior design solutions. Lab fee \$40. **Prereq:** *ACH 100, ACH 111 and eligibility for Honors courses, or permission of department chair.*

Crosslisted: *Also offered as ACH 106; credit is not given for both ACH 106 and ACH 106H.* **Note:** *Complete and present an honors capstone research project.*

ACH 111 - Graphic Communication 1: Composition and Delineation

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Formerly ACH 111 - Architectural Design 1. Examine the built environment through exploration of basic design concepts and learning design vocabulary. Explore various drawing types and production methods representative of the design and construction industries. Develop designs using composition and presentation techniques utilized in the architecture, interior, landscape and construction professions. Lab fee \$40. **Coreq(s):** *ACH 121 or permission of department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ACH 112 - Graphic Communication 2: Design and Representation

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Expand on basic drawing and design concepts from ACH 111. Study advanced communication skills used in the design professions. Develop various rendering techniques and apply them during schematic design, design development, and final documentation of a design project. Visualize designs through various scales of digital and physical models. Lab fee \$40. **Prereq:** *ACH 111 and ACH 121.* **Note:** *Typically offered OL; fall and spring terms.*

ACH 113 - Analysis of the Built Environment

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Analyze the built environment by exploring the concept of site as a unique combination of measurable attributes. Examine interrelated topics including human engagement, spatial elements, diversity, and context, to form a multifaceted analysis and understanding of place. Create a foundation for advanced study of Landscape Architecture and the built environment. Lab fee \$40. **Note:** *Typically offered OL; Spring term.*

ACH 114 - History of Contemporary Landscape Design

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Chronological overview of the design of contemporary open spaces and the birth of Landscape Architecture as a profession. Examine various design theories, the importance and responsibility of open space, and their influence on

landscape design. Explore themes of ecology and sustainability, program and function, and aesthetics with an emphasis on critical thinking with regard to design theory and application. Lab fee \$40. **Note:** *Typically offered OL; spring term.*

ACH 115 - Introduction to Landscape Architecture

4 credit hours - One hour of lecture and six hours of laboratory weekly; one term.

Examine the principles and elements of landscape architecture and their function in the design of the built environment. Focus on site evaluation, design methodology, and the graphic presentation of design solutions and their implementation. Lab fee \$40. **Note:** *Typically offered OL; fall term.*

ACH 116 - Landscape Architecture: System and Design

4 credit hours - One hour lecture and six hours of laboratory weekly; one term.

Examine the diverse topics that inform landscape architectural designs. Study the behavioral, environmental and aesthetic principals used to shape the design and use of outdoor spaces. Learn graphic methods to analyze multiple landscape typologies and the plant material used in landscape design. Illustrate landscape design solutions using various industry techniques. Lab fee \$40. **Prereq:** ACH 111 or permission of department chair. **Note:** *Typically offered OL; fall term.*

ACH 117 - Landscape Architecture: Plant Identification

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Examine urban woody plants and methods for their identification. Identify plant materials by common and scientific name, and their environmental requirements. Explore trees, shrubs, vines, and groundcovers used in the landscape industry with regard to common planting design applications. Lab fee \$40. **Crosslisted:** *Also offered as ACH 117H; credit is not given for both ACH 117 and ACH 117H. Note: Typically offered OL; summer term.*

ACH 117H - Landscape Architecture: Plant Identification Honors

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

This is an honors course. Examine urban woody plants and methods for their identification. Identify plant materials by common and scientific name, and their environmental requirements. Explore trees, shrubs, vines, and groundcovers used in the landscape industry with regard to common planting design applications. Lab fee \$40. **Prereq:** *Eligibility for Honors courses. Crosslisted: Also offered as ACH 117; credit is not given for both ACH 117 and ACH 117H.*

ACH 118 - Landscape Architecture: Materials of Construction

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Explore landscape construction materials and their application for implementing a landscape design. Examine various materials and methods with regard to structural integrity, human safety issues, ecological concerns, and sustainability. Identify best practices in details pertaining to plant material and hardscape, and their integrations into the site. Lab fee \$40. **Prereq:** *ACH 111 and ACH 121. Note: Typically offered OL; spring term.*

ACH 121 - Construction Technology 1

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Formerly ACH 121 - Architectural Materials and Methods 1. Examine the built environment through exploration of basic materials and methods used in construction. Apply environmental factors from site analysis to general design principles. Evaluate structural theory, wood frame construction methods, thermal and moisture protection, fenestration and interior finishes commonly used in building design. Create construction details of connections commonly used to join materials in residential construction. Lab fee \$40. **Coreq(s):** *ACH 111 or permission of the department chair.*

Note: *Typically offered MC and OL; fall and spring terms.*

ACH 122 - Construction Technology 2

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Continue to examine the built environment through exploration of materials and methods used in construction. Apply sustainable design practices commonly found in commercial construction systems, such as masonry, steel, and concrete. Emphasize construction methods used in structural systems, use of building systems and detailing of commercial construction. Lab fee \$40. **Prereq:** *ACH 111 and ACH 121, or permission of department chair. Note: Typically offered MC and OL; fall and spring terms.*

ACH 201 - History of Interior Design

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Examine the evolution of interior design through the lifestyles of the ancient civilizations of the Egyptians, Greeks, and Romans. Explore the architecture of the past through present day, the role it plays in interior design, and how it applies to furniture design and the decorative arts. Examine French, Italian, English, and American styles and design development. Lab fee \$40. **Note:** *Completion of ACH 245 is highly recommended prior to taking this course. Typically offered OL; fall and spring terms.*

ACH 202 - Space Planning

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Examine space planning solutions which include wall assemblies, panel systems, and furnishings. Implement building codes such as IBC (International Building Code), ADA (Americans with Disabilities Act), IRC (International Residential Code), and NFPA (National Fire Protection Agency). Determine plumbing layouts and HVAC for commercial structures and residential kitchen and bath designs following NKBA (National Kitchen and Bath Association) guidelines. Explore the role of reflected ceiling plans. Review the critical body of knowledge for

individuals seeking NCIDQ (National Council for Interior Design Qualification) certification. Lab fee \$40. **Prereq:** *ACH 106 or ACH 211, ACH 245 or permission of department chair.* **Note:** *Typically offered OL; fall and spring terms.*

ACH 203 - Commercial Design Studio

4 credit hours - Three hours of lecture and two hours of studio weekly; one term.

Learn commercial and contract design. Concentrates on specific commercial and contract projects such as retail, hospitality, corporate, entertainment, recreational and yacht design with an emphasis on sustainability. Addresses public health, safety and welfare issues. Projects cover all aspects of commercial design from client contact, programming, schematics, design development to design presentations. Expands on materials and methods for interior design for commercial applications. Advanced graphic design and illustration skills are emphasized to include: concept drawings, elevations, color renderings and presentation board layouts. Lab fee \$40. **Prereq:** *ACH 104, ACH 105, ACH 106, or permission of department chair.* **Crosslisted:** *Also offered as ACH 203H; credit is not be given for both ACH 203 and ACH 203H.* **Note:** *Typically offered MC and OL; spring term.*

ACH 203H - Commercial Design Studio - Honors

4 credit hours - Three hours of lecture and two hours of studio weekly; one term.

This is an honors course. Learn commercial and contract design. Concentrates on specific commercial and contract projects such as retail, hospitality, corporate, entertainment, recreational and yacht design with an emphasis on sustainability. Addresses public health, safety and welfare issues. Projects cover all aspects of commercial design from client contact, programming, schematics, design development to design presentations. Expands on materials and methods for interior design for commercial applications. Advanced graphic design and illustration skills are emphasized to include: concept drawings, elevations, color renderings and presentation board layouts. Lab fee \$40.

Prereq: *ACH 104, ACH 105, ACH 106, or permission of department chair and eligibility for Honors Courses.*

Crosslisted: *Also offered as ACH 203; credit is not be given for both ACH 203 and ACH 203H.* **Note:** *Complete and present an honors capstone research that extends beyond the classroom.*

ACH 204 - Interior Construction Detailing

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Develop skills using technology in interior design drawing and documentation. Review interior design construction documentation including dimensioning, finish schedules, specifications, annotations and placement of information. Examine how information is communicated for custom applications to contractors, purchasing agents, project managers and use in the trades. Review universal design and how it is implemented. Examine copyrights and legal registration of creative work and prototypes for custom designs. Lab fee \$40. **Prereq:** *ACH 104 and ACH 245 or ACH 211 or permission of department chair.* **Crosslisted:** *Also offered as ACH 204H; credit is not given for both ACH 204 and ACH 204H.* **Note:** *Typically offered MC and OL; spring term.*

ACH 204H - Interior Construction Detailing - Honors

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

This is an honors course. Develop skills using technology in interior design drawing and documentation. Review interior design construction documentation including dimensioning, finish schedules, specifications, annotations and placement of information. Examine how information is communicated for custom applications to contractors, purchasing agents, project managers and use in the trades. Review universal design and how it is implemented. Examine copyrights and legal registration of creative work and prototypes for custom designs. Lab fee \$40.

Prereq: *Eligibility for Honors courses. ACH 104 and ACH 245 or ACH 211 or permission of department chair.*

Crosslisted: *Also offered as ACH 204; credit is not given for both ACH 204 and ACH 204H.* **Note:** *Complete and present an honors capstone research project.*

ACH 205 - Residential Studio

4 credit hours - One hour of lecture and six hours of laboratory weekly; one term.

Formerly Advanced Residential Studio. Explore the principles and elements of designing complex projects in a residential setting. Learn design applications in today's environment through lecture and studio. Hand-draft floor plans, apply AutoCAD skills and create sample boards that are portfolio ready. Lab fee \$40. **Prereq:** *ACH 106 or permission of department chair.* **Note:** *Typically offered OL; spring term.*

ACH 206 - Kitchen and Bath Design

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Gain an overview of Kitchen and Bath Design. Interpret program and code requirements for basic kitchen and bath facilities in residential settings. Address finishes, appliance options, various building shells and budget constraints. Design kitchens and baths following the guidelines of NKBA (National Kitchen and Bath Association) with additional consideration for ADA (The Americans with Disability Act) and LEED (Leadership in Energy and Environmental Design). Lab fee \$40. **Prereq:** *ACH 202 or ACH 204 or ACH 211 or permission of department chair.* **Note:** *Typically offered OL; fall term.*

ACH 207 - Portfolio and Visual Presentation for Interior Design

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Learn techniques and applications of perspective drawings for interiors, their furnishing and details, taught in various media. Emphasizes portfolio ready presentations and explores, examines and executes the development of a well organized body of work. Lab fee \$40. **Prereq:** *ACH 106 (formerly ACH 101), ACH 112, ACH 245 and ART 125 or permission of department chair.*

ACH 208 - History of Ornament, Textiles and Color

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

An expansion of History of Interior Design as a continuum with further application to current design approaches. Focuses on color palettes and their historical origins; the use of textiles during those periods, and ornamentation of the interior structures and how it relates to the interior design professional today. Lab fee \$40. **Prereq:** ACH 106 (formerly ACH 101) and ACH 201. **Note:** Typically offered OL; summer term.* also offered as independent study

ACH 209 - Lighting for Interior Design

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Reviews the difference between natural and artificial light. Covers lighting effects with respect to texture and color, the psychology of light, and the relationship of light and sustainable design in today's environment. Fixture schedules, switching patterns and reflected ceiling plans for a multitude of residential and commercial situations are covered. Includes lectures, research and student projects. Lab fee \$40. **Prereq:** ACH 203 (formerly ACH 102), ACH 242 and PHY 120. **Note:** Typically offered OL; fall term.

ACH 210 - Advanced Commercial Studio

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

A continuation of ACH 203, Advanced Studio emphasizes a comprehensive study of commercial interiors. This course prepares students with an advanced knowledge of contract design in hospitality, commercial office, and other public spaces. Students will complete complex projects, with an emphasis on graphic design and presentation skills. Lab fee \$40. **Prereq:** ACH 203 (formerly ACH 102) and ACH 245.

ACH 211 - Architectural Studio 1: Form, Space and Order

4 credit hours - One hour of lecture and six hours of laboratory weekly; one term.

Explore the design process as a method for developing architectural design solutions. Analyze design precedents and apply them to studio projects. Review formal ordering systems that inform two and three dimensional design, architectural composition and urban design. Examine site influences on development of design strategies. Document concept development from abstract two-dimensional and three-dimensional compositions to designs that address specific programmatic and symbolic goals. Lab fee \$40. **Prereq:** ACH 112, ACH 245. **Crosslisted:** Also offered as ACH 211H; credit is not given for both ACH 211 and ACH 211H. **Note:** Concurrent enrollment recommended in ACH 240 and ACH 242. Typically offered MC and OL; fall term.

ACH 211H - Architectural Studio 1: Form, Space and Order Honors

4 credit hours - One hour of lecture and six hours of laboratory weekly; one term.

This is an honors course. Explore the design process as a method for developing architectural design solutions. Analyze design precedents and apply them to studio projects. Review formal ordering systems that inform two and three dimensional design, architectural composition and urban design. Examine site influences on development of design strategies. Document concept development from abstract two-dimensional and three-dimensional compositions to designs that address specific programmatic and symbolic goals. Lab fee \$40. **Prereq:** ACH 112, ACH 245, and eligibility for Honors courses. **Crosslisted:** Also offered as ACH 211; credit is not given for both ACH 211 and ACH 211H. **Note:** Concurrent enrollment recommended in ACH 240 and ACH 242.

ACH 212 - Architectural Studio 2: Design and Synthesis

4 credit hours - One hour of lecture and six hours of laboratory weekly; one term.

Expand on the fundamental design principals from ACH 211 and identify physical and environmental concerns regarding design. Review essential spatial, formal, material, sustainable, and experiential dimensions of architectural problems of varying complexity. Explore the appropriate applications of hand and digital delineation solutions and their implementation in the design process. Analyze design precedents to understand their material properties, structural concepts, as well as responses to site, environmental and cultural factors. Apply the use of structure and materials for creating environmentally responsive designs. Develop a portfolio documenting work completed in the program. Lab fee \$40. **Prereq:** ACH 211 and ACH 242. **Crosslisted:** Also offered as ACH 212H; credit is not given for both ACH 212 and ACH 212H. **Note:** Typically offered MC and OL; spring term.

ACH 212H - Architectural Studio 2: Design and Synthesis

4 credit hours - One hour of lecture and six hours of laboratory weekly; one term.

This is an honors course. Expand on the fundamental design principals from ACH 211 and identify physical and environmental concerns regarding design. Review essential spatial, formal, material, sustainable, and experiential dimensions of architectural problems of varying complexity. Explore the appropriate applications of hand and digital delineation solutions and their implementation in the design process. Analyze design precedents to understand their material properties, structural concepts, as well as responses to site, environmental and cultural factors. Apply the use of structure and materials for creating environmentally responsive designs. Develop a portfolio documenting work completed in the program. **Prereq:** ACH 211 and ACH 242 and eligibility for Honors Courses. **Crosslisted:** Also offered as ACH 212; credit is not given for both ACH 212 and ACH 212H. **Note:** Complete and present an honors capstone research that extends beyond the classroom.

ACH 213 - Sustainable Interiors

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Focuses on sustainable design choices and the tools for implementing changes in the use of our planet's limited resources. Demonstrates the impact on the individual and environment with the LEED (Leadership in Energy and

Environmental Design) system for interiors. Instruction incorporates an analysis of green philosophies in interior design, systems, and building products. The student will create projects in presentation format and research new technologies. Lab fee \$40. **Prereq:** ACH 203 (formerly ACH 102) and ACH 242.

ACH 214 - Professional Practices in Interior Design

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Define legal and professional responsibilities of operating an interior design business. Examine the various contracts, standardized and custom, that protect both designer and client in both existing and potential projects. Review contractual arrangements, ethics, and practices of today's interior designer. Determine aspects in business unique to the kitchen and bath industry and commercial design. Develop a personal business model. Ideal for internships or those already in the workforce. Lab fee \$40. **Note:** *Intended for the student who has taken interior design studio classes or has industry experience. Typically offered OL; spring term.*

ACH 215 - Interior Design Standards

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

A comprehensive study of the key components of the NCIDQ (National Council of Interior Qualification) exam. Intensive review of all critical elements including building codes, space planning, lighting strategies, business procedures, product knowledge and sample testing are included. Lab fee \$40. **Prereq:** ACH 203 (formerly ACH 102) or permission of department chair.

ACH 216 - Construction Management

4 credit hours - Two hours of lecture and four hours of laboratory weekly; one term.

Explore basic principles and skills required to organize and manage large construction projects. Examine the professional role and liability during the design and construction process. Focus on the construction project from the organizational management perspective. Lab fee \$40. **Prereq:** ACH 122 or concurrent enrollment in ACH 122 or permission of department chair. **Note:** *Typically offered OL; fall term.*

ACH 218 - Construction Operations

4 credit hours - Two hours of lecture and four hours of laboratory weekly; one term.

Explore basic principles and elements required to organize, operate and manage small-, medium- and large-sized construction companies. Apply processes of estimating, bidding, scheduling, procurement, value engineering and construction safety. Analyze the construction project from the executive perspective. Lab fee \$40. **Prereq:** ACH 216 or permission of the department chair. **Note:** *Typically offered OL; spring term.*

ACH 219 - Construction Contract Administration

3 credit hours - One hour lecture and four hours of laboratory weekly; one term.

Examine the construction contract document set from a contractor's point of view. Review and interpret construction contracts and conditions, specifications and drawings. Explore the legality of the construction document set from bidding requirements through contract changes. Examine the relationship between the project manual and construction drawings Lab fee \$40. **Prereq:** ACH 122 or permission of the department chair. **Note:** *Typically offered OL; fall term.*

ACH 221 - History of World Architecture 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Examine the development of world architectural styles, including European, Southeast Asian, Indian Chinese, and Japanese styles, from the ancient world through the late European Middle Ages. Learn architectural design and city planning as responses to religious, political, economic, and cultural needs, as well as for an understanding of their structural principles. No previous art courses are necessary. **Crosslisted:** *Also offered as ART 221; credit is not given for both ACH 221 and ART 221. Note: Typically offered OL; spring term.*

ACH 222 - History of World Architecture 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Examine world architectural styles from the Renaissance through the present, including indigenous architecture in Africa and the Americas, and consider contemporary problems in architecture and urbanism. Learn architectural design, landscape architecture and city planning as responses to religious, political, economic and cultural needs, as well as for an understanding of their structural principles. No previous art courses are necessary. **Crosslisted:** *Also offered as ART 222; credit is not given for both ACH 222 and ART 222. Note: Typically offered OL; fall and spring terms.*

ACH 223 - History of American Architecture

3 credit hours - Three hours weekly; one term.

An introduction to the development of American architecture, interior design, urban design and landscape architecture from pre-colonial times to the present. Particular attention will be paid to the old and new world sources of American design, as well as to the cultural, political, economic and environmental forces that have shaped the American built environment. Lectures and discussions will be supplemented by field trips. No previous art courses are necessary.

Crosslisted: *Also offered as AMS 223 and ART 223; credit is given for only one of the following: ACH 223, AMS 223 or ART 223.*

ACH 226 - Advanced Kitchen and Bath Design

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Learn skills necessary for complex kitchen and bath design. Covers advanced design techniques and deeper

understanding of construction challenges and design solutions. Further incorporates NKBA Planning and Access Guidelines and presentation standards into kitchen and bath design. Focuses on creating complete project documents for larger upscale kitchens and baths and effectively communicating design solutions. Hand-drafting and computer aided drafting applications using 20/20 software area addressed. Projects are primarily residential with an additional focus on public facilities, codes and ADA. Lab fee \$40. **Prereq:** ACH 206 and ACH 235 or concurrent enrollment of ACH 235 with permission of department chair. **Note:** Typically offered MC and OL; spring term.

ACH 230 - Cost Estimating for Construction

4 credit hours - Two hours of lecture and four hours of laboratory weekly; one term.

Examine the role of cost estimating in the construction process. Identify concerns and processes related to and involved with estimating construction costs. Review economic factors that affect construction costs. Categorize and calculate construction costs by building materials and systems. Lab fee \$40. **Prereq:** ACH 122 and ACH 219 and eligibility for MAT 045, or permission of department chair. **Note:** Typically offered OL; spring term.

ACH 231 - Professional Practices in Architecture

3 credit hours - One hour lecture and four hours laboratory weekly; one term.

Learn the role of the design professional in the construction industry. Examine the interrelationships, roles, ethics and responsibilities of the various participants in the design and construction process. Analyze business structure, company management, marketing, administration, public and client relations, consultant and contractor relations, standardized contracts, project administration and procedures and compensation. Review internship and licensure requirements for architects. Learn business practices in the architectural profession. Lab fee \$40. **Prereq:** ACH 111 and ACH 121. **Note:** Typically offered MC and OL; spring term.

ACH 235 - Computer Applications for Kitchen and Bath Design

1 credit hour - 10 hours of lecture and 10 hours of laboratory; one term.

Learn the 20/20 computer-aided design software that is used universally in the kitchen and bath industry. Includes lecture directed labs with a focus on how the software interprets manufacturers specifications, floor plans, elevation drawings and perspectives. Lab based homework and projects assigned. Lab fee \$40. **Prereq:** CTA 100 or CTP 103 and either ACH 202 or ACH 204 or ACH 211 or permission of department chair. **Note:** Typically offered MC and OL; winter and spring terms.

ACH 240 - Construction Documentation

4 credit hours - One hour of lecture and six hours of laboratory weekly; one term.

Explore the basic components and terminology used in construction documentation. Examine the process and organization of construction documents and their application used in the industry. Review and apply standards of practice to develop a set of construction documents. Lab fee \$40. **Prereq:** ACH 111, ACH 122 and ACH 245 or ENT 241 or permission of department chair. **Note:** Typically offered OL; fall term.

ACH 242 - Environmental Systems for Design

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

This course meets the Wellness Requirement. Explore the impacts buildings have on individuals and the environment. Assess the effects of healthy interior and exterior environments on society. Examine sustainable design principles and the LEED (Leadership in Energy and Environmental Design) green building rating system. Evaluate the various systems commonly used in building construction and the impact of sustainable and high performance design. Lab fee \$40. **Crosslisted:** Also offered as ACH 242H; credit is not given for both ACH 242 and ACH 242H. **Note:** Typically offered MC and OL; fall and spring terms.

ACH 242H - Environmental Systems for Design - Honors

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

This is an honors course. Explore the impacts that buildings have on individuals and the environment. Assess the effects of healthy interior and exterior environments on society. Examine sustainable design principles and the LEED (Leadership in Energy and Environmental Design) green building rating system. Evaluate the various systems commonly used in building construction and the impact of sustainable and high performance design. Lab fee \$40.

Prereq: Eligibility for Honors courses. **Crosslisted:** Also offered as ACH 242; credit is not given for both ACH 242 and ACH 242H. **Note:** Complete and present an honors capstone research project.

ACH 245 - Digital Technologies 1

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Review computer applications used by architects, interior designers, and others involved in design and construction. Discuss how common and specialized CAD software applied to the design and construction industry along with the specialized hardware associated with these fields. Explore the use and application of peripherals such as plotters and scanners. Practice how basic computer functions, file management, graphic presentation, and CAD are applied to design and construction. Lab fee \$40. **Prereq:** ACH 111 and CTA 100 or CTP 103 or permission of department chair. **Note:** Credit is not given for both ACH 245 and ENT 241. Typically offered OL; fall and spring terms.

ACH 255 - Digital Technologies 2

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Apply advanced digital drawing skills used in the architectural design professions. Construct and organize CAD drawings with techniques necessary for digital design presentations and construction documents. Explore in-depth commands and features to generate multiple printing and model formats including laser cutting. Lab fee \$40. **Prereq:**

ACH 245 or permission of the department chair. Note: This course counts as one of the required CAD electives. Typically offered OL; fall term.

ACH 262 - Architectural Travel Study 1

3 credit hours - 30 hours of lecture and 45 hours of laboratory.

Explore significant architecture in various trip destinations. Analyze site specific architecture through tours and in-person observations. Experience architecture from several time periods that has influenced design throughout the world. Examine architectural design styles within the context of the trip destination such as monuments, outdoor spaces, museums, civic and religious buildings, along with other historic and contemporary structures. **Crosslisted:** Also offered as ACH 262H; credit not given for both ACH262 and ACH 262H. **Note:** This travel study course is taught primarily on site and requires pre and post-trip meetings. Students are required to sign up for the associated travel section and pay for travel fees separately. Students are also required to have a valid passport 90 days prior to departure and valid 90 days after the return date. *Typically offered summer term.*

ACH 262H - Architectural Travel Study 1-Honors

3 credit hours - 30 hours of lecture and 45 hours of laboratory

This is an Honors course. Explore significant architecture in various trip destinations. Analyze site specific architecture through tours and in-person observations. Experience architecture from several time periods that has influenced design throughout the world. Examine architectural design styles within the context of the trip destination such as monuments, outdoor spaces, museums, civic and religious buildings, along with other historic and contemporary structures. **Prereq:** Eligibility for Honors courses. **Crosslisted:** Also offered as ACH 262; credit not given for both ACH 262 and ACH 262H. **Note:** Complete and present an honors capstone research that extends beyond the classroom. This travel study course is taught primarily on site and requires pre and post-trip meetings. Students are required to sign up for the associated travel section and pay for travel fees separately. Students are also required to have a valid passport 90 days prior to departure and valid 90 days after the return date.

ACH 263 - Architectural Travel Study 2

3 credit hours - 30 hours of lecture and 45 hours of laboratory

Further explore significant architecture in different destinations not previously studied in ACH 262. Analyze site specific architecture through tours and in-person observations. Experience architecture from several time periods that has influenced design throughout the world. Examine architectural design styles within the context of the trip destination such as monuments, outdoor spaces, museums, civic and religious buildings, along with other historic and contemporary structures. **Prereq:** ACH 262 and permission of department chair. **Crosslisted:** Also offered as ACH 263H; credit not given for both ACH 263 and ACH 263H. **Note:** This travel study course is taught primarily on site and requires pre and post-trip meetings. Students are required to sign up for the associated travel section and pay for travel fees separately. Students are also required to have a valid passport 90 days prior to departure and valid 90 days after the return date.

ACH 263H - Architectural Travel Study 2-Honors

3 credit hours - 30 hours of lecture and 45 hours of laboratory

This is an Honors course. Further explore significant architecture in different destinations not previously studied in ACH 262. Analyze site specific architecture through tours and in-person observations. Experience architecture from several time periods that has influenced design throughout the world. Examine architectural design styles within the context of the trip destination such as monuments, outdoor spaces, museums, civic and religious buildings, along with other historic and contemporary structures. **Prereq:** Eligibility for Honors courses and ACH 262 or ACH 262H and permission of department chair. **Crosslisted:** Also offered as ACH 263; credit not given for both ACH 263 and ACH 263H. **Note:** Complete and present an honors capstone research that extends beyond the classroom. This travel study course is taught primarily on site and requires pre and post-trip meetings. Students are required to sign up for the associated travel section and pay for travel fees separately. Students are also required to have a valid passport 90 days prior to departure and valid 90 days after the return date.

ACH 265 - Digital Studio

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Articulate the role of technology in design professions through multiple studio projects. Explore the use of various technologies through the sequences of the design process to transition from free-hand design concepts to three-dimensional modeling software. Produce various renderings and image types for use in digital presentations and create a three-dimensional print. Use SketchUp, plug-ins, and Photoshop software. Lab fee \$40. **Prereq:** ACH 245.

Crosslisted: Also offered as ACH 265H; credit is given for both ACH 265 and ACH 265H. **Note:** This course counts as one of the required CAD electives. *Typically offered OL; spring term.*

ACH 265H - Digital Studio - Honors

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

This is an honors course. Articulate the role of technology in design professions through multiple studio projects. Explore the use of various technologies through the sequences of the design process to transition from free-hand design concepts to three-dimensional modeling software. Produce various renderings and image types for use in digital presentations and create a three-dimensional print. Use SketchUp, plug-ins, and Photoshop software. Lab fee \$40.

Prereq: ACH 245 and eligibility for Honors Courses. **Crosslisted:** Also offered as ACH 265; credit is given for both

ACH 265 and ACH 265H. Note: This course counts as one of the required CAD electives. Complete and present an honors capstone research that extends beyond the classroom.

ACH 270 - Building Information Modeling

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Introduces the relationship between design and building information modeling. Explores the use of the latest building information modeling technology as it applies to the sequence of the design and construction documentation process. Focuses on the appropriate application of technology through the use of parametric building objects. Discusses the basic concepts of building information modeling and how it applies to the design work environment. Course uses Revit software by Autodesk. Lab fee \$40. **Prereq:** *ACH 111, ACH 122 and either ACH 245 or ENT 241 or permission of department chair.* **Note:** *This course counts as one of the required CAD electives. Typically offered MC and OL; fall and spring terms.*

ACH 271 - Advanced Building Information Modeling

3 credit hours - One hour lecture and four hours of laboratory weekly; one term.

Explore advanced uses of the latest in building information modeling technology as it applies to the sequence of the design and construction documentation process. Focus on expanding knowledge of advanced skills in the areas of conceptual design, including massing studies, space planning, visualization, rendering and animations. Course uses Revit software by Autodesk. Lab fee \$40. **Prereq:** *ACH 270 or permission of the department chair.* **Note:** *This course counts as one of the required CAD electives. Typically offered MC and OL; summer term.*

ACH 275 - Internship in Architecture and Interior Design 1

3 credit hours - 20 to 40 hours of area-related work experience weekly; one term.

Students participate in work related to their program. The work must be certified by the department chair. **Prereq:** *Permission of department chair.* **Note:** *Students are strongly encouraged to contact the Coordinator for Internships prior to registration. Typically offered OL; fall and spring terms.*

ACH 276 - Internship in Architecture and Interior Design 2

3 credit hours - 20 to 40 hours of area-related work experience weekly; one term.

Continuation of ACH 275. The work must be certified by the department chair. **Prereq:** *ACH 275 and permission of instructor or department chair.* **Note:** *Students are strongly encouraged to contact the Coordinator for Internships prior to registration. Typically offered OL; fall and spring terms.*

ACH 280-299 - Special Topics in Architecture

-

Current or specialized topics of interest to architecture and interior design students. Possible topics are construction scheduling, construction management, construction estimating, interior architecture and computer-aided design. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-40.

Art

ART 100 - Two-Dimensional Design

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Introduces the theories and the concepts of basic visual design. Through a variety of studio problems, explore composition and color theory as it relates to two-dimensional art forms. Introduces the computer as a design tool. No previous art instruction is required. Lab fee \$30.

Note: *Typically offered at MC, OF, and OL; fall, spring, and summer terms.*

ART 102 - Three-Dimensional Design

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn the application of elements, principles and processes of making three-dimensional art forms. Apply in functional and nonfunctional designs using traditional and contemporary techniques related to clay, wood, metal and mixed medium. Explores the integration of visual elements and design concepts through developing studio projects. No previous art instruction is necessary. Lab fee \$50. **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

ART 103 - Color

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Learn to work with color by studying color mixing, color relationships and harmonies, color systems, and the psychological and expressive aspects of color. Develop hand skills and digital skills in projects designed for studio artists and commercial designers. No previous art courses are necessary. Lab fee \$30. **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

ART 106 - Introduction to Digital Design

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

This course meets the Technology Requirement. Learn basic design principles, concepts, and tools used by artists and designers working with digital media. Develop the skills to create, control, and manipulate digital artwork. Explore contemporary digital culture and history while producing original design projects. Lab fee \$40. **Note:** *Typically offered at MC, OF, and OL; fall, spring, and summer terms.*

ART 112 - Introduction to Sound Design

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn the basics of recording, mixing, and post-processing, as well as the creative possibilities and applications of sound. Gain an understanding of the practical and theoretical skills central to using sound as an artistic medium. Lab fee \$35. **Note:** Typically offered at MC; fall and spring terms.

ART 120 - Digital Photography 1

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn the technical and aesthetic properties of digital photography including camera operation, composition and lighting. Gain hands-on experience in photoediting software such as Photoshop and Lightroom. Explore the creative aspects of digital photography through assignments, lectures and demonstrations. Lab fee \$60. **Note:** Students are required to provide a manual operation DSLR camera and an external storage device. Typically offered at MC; fall and spring terms.

ART 121 - Black and White Photography

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Create black and white photographs. Explore fundamentals of the camera, film and darkroom processes. Produce high-quality black and white prints. Lab fee \$50. **Note:** Students are required to provide photographic printing paper and film. Having a film SLR camera is helpful but not required. Typically offered at MC; fall and spring terms.

ART 122 - Color Photography

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Explore the science, methodology and aesthetics of printing color photography in a traditional analog method while at the same time investigating issues relating to contemporary fine art photography. Learn to use color photography as a medium for expressive communication through a combination of conceptual and technical assignments. Lab fee \$50.

Prereq: ART 121 or permission of department chair. **Note:** Students are required to provide 35mm SLR film camera.

ART 125 - Drawing 1

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn the essential principles, tools, terminologies and media used in drawing, as well as the critical thinking skills essential to understanding art. Study contour, gesture, modeling, value and perspective with emphasis on drawing from observation. Draw from the model and still life, and explore architecture through the study of perspective. No previous art instruction is necessary. Lab fee \$20. **Crosslisted:** Also offered as ART 125H; credit is not given for both ART 125 and ART 125H. **Note:** Typically offered at MC, OF, and OL; fall, spring, and summer terms.

ART 125H - Drawing 1 - Honors

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This is an honors course. This course meets the Arts General Education Requirement. Learn the essential principles, tools, terminologies, and media used in drawing, as well as the critical thinking skills essential to understanding art. Study contour, gesture, modeling, value and perspective with emphasis on drawing from observation. Draw from the model and still life, and explore architecture through the study of perspective. No previous art instruction is necessary. Lab fee \$15. **Prereq:** Eligibility for Honors Courses. **Crosslisted:** Also offered as ART 125; credit is not given for both ART 125H and ART 125. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

ART 131 - Painting 1

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Study the current context, history, materials and techniques of oil painting. Learn about light and shadow while using a limited palette to paint simple still lifes. Develop an understanding of color harmony while creating complex paintings with a full palette. Lab fee \$45. **Prereq:** ART 125 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

ART 135 - Sculpture 1: Clay Modeling and Mixed Media

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn fundamental sculptural processes including modeling forms in clay, stone carving, mold-making, casting, wood carving and mixed media fabrication techniques. Study the history, design concepts, material/tools, terminology and aesthetics, of sculpture and space. Develop comprehensive sculptural compositions applied in functional/nonfunctional settings and site-specific installations. Lab fee \$65. **Note:** No previous art instruction is necessary. Typically offered at MC; all terms.

ART 137 - Illustration

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

An introduction to the rendering of visual images to accompany words and ideas effectively. Develops skills for visually conveying information in books, advertising, posters, etc. Both traditional media and the computer are used. Course fee \$15. **Prereq:** ART 100 and ART 125 or permission of department chair. **Note:** Typically offered at MC and OL; fall and spring terms.

ART 138 - Metal Art Fabrication

3 credit hours - Two hours of lecture and two hours lab weekly; one term.

Explore basic and advanced techniques and processes related to metal fabrication and sculptural forms. Learn welding techniques, metal forming, and a variety of metal surface applications. Create conceptual artworks with metal art

techniques, and practice processes including metal casting. Lab fee \$75. **Note:** Typically offered at MC; fall, spring, and summer terms.

ART 140 - Watercolor 1

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Learn the fundamentals of watercolor painting. Study basic techniques and explore the creative possibilities of the medium. Create paintings based on still life, landscape and the figure. Lab fee \$30. **Prereq:** ART 125 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

ART 142 - Portraiture 1

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Learn, through slide lectures and studio demonstrations, the basic concepts and techniques associated with drawing and painting portraits. Work from a model to develop and refine skills. Study anatomical structure of the head and upper torso, facial features, capturing a likeness and composition. Lab fee \$60. **Prereq:** ART 125 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

ART 145 - Ceramics 1

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn a variety of approaches to making art using clay as the medium. Explore the history, design concepts and studio methods used to make sculptural and functional ceramic forms. Develop skills in hand-building, the potter's wheel, simple molds and glaze application. Explore ways of evaluating the aesthetic value of work. No previous art instruction is necessary. Lab fee \$55.

Crosslisted: Also offered as ART 145H; credit is not given for both ART 145 and ART 145H. **Note:** Typically offered at MC; fall, spring, and summer terms.

ART 145H - Ceramics 1 - Honors

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This is an honors course. This course meets the Arts General Education Requirement. Learn a variety of approaches to making art using clay as the medium. Explore the history, design concepts and studio methods used to make sculptural and functional ceramic forms. Develop skills in hand-building, the potter's wheel, simple molds and glaze application. Explore ways of evaluating the aesthetic value of work. No previous art instruction is necessary. Lab fee \$55. **Prereq:** Eligibility for Honors courses and ENG 101/ENG 101A. **Crosslisted:** Also offered as ART 145; credit not given for both ART 145H and ART 145. **Note:** Work with faculty member to select a specific project. Typically offered at MC; fall, spring, and summer terms.

ART 146 - Ceramics 2

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build upon knowledge acquired in ART 145 or ART 145H. Develop a personal artistic direction through interpretation of assigned projects. Study glaze mixing, formulation, kiln-loading and firing. Learn through individual studio work, slide lectures, field trips and critiques. Lab fee \$65. **Prereq:** ART 145 or ART 145H or permission of department chair.

Crosslisted: Also offered as ART 146H; credit is not given for both ART 146 and ART 146H. **Note:** Typically offered at MC; fall, spring, and summer terms.

ART 146H - Ceramics 2 - Honors

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This is an honors course. Build upon knowledge acquired in ART 145H or ART 145. Develop a personal artistic direction through interpretation of assigned projects. Study glaze mixing, formulation, kiln-loading and firing. Learn through individual studio work, slide lectures, field trips and critiques. Lab fee \$65. **Prereq:** Eligibility for Honors courses and ENG 101/ENG 101A, and ART 145H or ART 145 or permission of department chair. **Crosslisted:** Also offered as ART 146; credit is not given for both ART 146H and ART 146. **Note:** Work with faculty member to select a specific project. Typically offered at MC; fall, spring, and summer terms.

ART 148 - Intaglio Printmaking 1

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Study the intaglio processes of etching, drypoint and aquatint. Learn the mechanics of printmaking (working of the press, production and biting of the plate, etc.) while exploring the creative possibilities of the medium. Lab fee \$50.

Prereq: ART 145 or permission of department chair. **Note:** Typically offered at MC; all terms.

ART 149 - Relief Printmaking

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Study the basics of relief printmaking, including woodcut and linocut. Explore this media as a means of personal expression. Lab fee \$50. **Prereq:** ART 145 or permission of department chair. **Note:** Typically offered at MC; all terms.

ART 154 - 3D Computer Graphics

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Study the concepts, techniques, and technology commonly used in gaming, entertainment, architecture, and engineering to produce 3D computer graphics. Learn about modeling, texturing, lighting, rendering, animation, rigging, and dynamics through the creation of virtual 3D objects and images. Lab fee \$30. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

ART 155 - 2D Game Prototyping

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn how to create original 2D games. Design original sprite graphics, and animations. Produce interactive games using a 2D game engine. Lab fee \$30. **Note:** *Typically offered at MC and OL; fall and spring terms.*

ART 156 - 3D Game Graphics

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn how to create original game assets for use in video games and interactive simulations. Model and texture a variety of game objects, including environments, buildings, and props. Make and modify game textures using 2D graphics software. Create game levels by importing original assets into a 3D game engine. Lab fee \$30. **Note:** *Typically offered at MC and OL; fall and spring terms.*

ART 157 - 3D Game Prototyping

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn how to make video games using a 3D game engine and premade assets. Develop skills in level design, scripting, and interface design. Lab fee \$30. **Note:** *Typically offered at MC and OL; fall and spring terms.*

ART 158 - Game History

3 credit hours - Two hours of lecture and two hours of lab weekly; one term.

Develop an understanding of the technological, artistic and cultural evolution of video games. Learn about games through readings, lectures and videos. Play games covered in class to gain firsthand understanding of game design and mechanics. Lab fee \$30. **Note:** *Typically offered at MC and OL; fall and spring terms.*

ART 159 - Game Interface Design

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly ART 174 Game Interface Design. Learn the thought processes and techniques that go into the creation of digital and physical user interfaces for games. Apply concepts through the designing, building and testing of original interfaces. Study the principles of design, aesthetics and human factors. Lab fee \$30. **Note:** *Credit will not be given for ART 159 and also ART 174 (formerly). Typically offered at MC and OL; fall and spring terms.*

ART 160 - Video 1

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Study film and video production theory and techniques. Learn to create storyboards, to use video equipment, to organize shoots and to put together a video crew. Create, mix and edit images, sounds and video into presentations for various genres. Lab fee \$50. **Note:** *Typically offered at MC and OL; fall and spring terms.*

ART 161 - Video Editing

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Study the art of storytelling through digital video editing. Learn the history, theory, practices and aesthetic qualities of post-production through screenings, discussions, readings and editing lab problems. Lab fee \$40. **Note:** *It is recommended to take ART 160 before taking ART 161. Typically offered at MC and OL; fall and spring terms.*

ART 166 - Graphic Design 1

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Use creative and critical thinking skills to research, generate concepts, and create solutions to a broad range of design problems. Learn fundamentals of conceptualization, type and image integration, design-thinking practices, and design terminology. Explore design history and contemporary examples in the field. Develop production techniques using industry software, presentation methods, reflection, and critique. Lab fee \$40. **Note:** *Students are recommended to take ART 106 prior to taking this course. Typically offered at MC, OF, and OL; fall and spring terms.*

ART 170 - Web Design 1

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Study concepts integral to designing for the Web, including Web design history, XHTML, CSS, image preparation/optimization, site planning, FTP and design using industry standard applications. Explore the designer's role within professional, cultural and historical contexts. Lab fee \$25. **Note:** *Typically offered at MC, OF, and OL; fall, spring, and summer terms.*

ART 180 - Introduction to Film

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Study of the vocabulary, methods of analysis and standards for criticism of various types of film. Participate in class discussions based on assigned films.

Note: *Typically offered at MC and OL; fall, spring, and summer terms.*

ART 181 - Introduction to American Film

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Study the complex relationship between American film and culture. Review and discuss the aesthetics and manifestation of film in American society.

Crosslisted: *Also offered as AMS 181; credit is not given for both ART 181 and AMS 181. Note: Typically offered at MC and OL; fall and spring terms.*

ART 185 - Introduction to Art History

3 credit hours - Three hours lecture weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Study the history of art with a global perspective. Learn about painting, sculpture, architecture and other forms of art from pre-historic to modern times.

Through lectures, discussions, and class trips, students will be exposed to artworks that shape and inform our world.

Note: Typically offered at MC; all terms.

ART 200 - Drawing 2

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Examine the theories, techniques, terminologies, and media used in drawing from observation and imagination. Explore a variety of approaches using wet and dry media. Emphasis is on composition utilizing still life, landscape and figure drawing. Lab fee \$30. **Prereq:** ART 125 or permission of department chair. **Note:** Typically offered at MC; fall, spring, and summer terms.

ART 201 - Drawing 3

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Experience an enhanced studio atmosphere that encourages personal investigation through the use of conventional and unconventional drawing media. Discover theories and practices with emphasis on individual expression. Explore portraiture, figure drawing and landscape. Lab fee \$30. **Prereq:** ART 200 or permission of department chair. **Note:** Typically offered at MC; fall, spring, and summer terms.

ART 202 - Life Drawing

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Learn how to draw the human figure. Study the skeleton and muscles and how they affect surface anatomy. Explore expressive possibilities of the figure by extensive drawing of the nude. Study the history of the figure. Lab fee \$50. **Prereq:** ART 125 or permission of department. **Note:** Typically offered at MC; fall term.

ART 209 - History of Western Art 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. An introduction to the development of architecture, painting and sculpture in the Western World from prehistoric times through the Middle Ages. Class discussions are supplemented by trips to museums in the Baltimore- Washington area. No previous art courses are necessary. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

ART 210 - History of Western Art 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. An introduction to the development of architecture, painting, sculpture and, secondarily, landscape architecture in the Western World from the Renaissance to the present. Class discussions are supplemented by trips to museums in the Baltimore-Washington area. No previous art courses are necessary. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

ART 212 - History of Photography

3 credit hours - Three hours weekly; one term.

Formerly ART/CAT 212 - History of Photography. This course meets the Arts & Humanities General Education Requirement. Learn about the development of photography from its pre-history through today. Study interrelationships between photography and other visual arts. Explore the contribution of major photographers, art movements, culture and the effects of changing technology on the photographic image. Participate in trips to museums in the Baltimore-Washington area. **Note:** Students may be required to pay a nominal fee for field trips. Typically offered at MC; fall and spring terms.

ART 215 - Notable Film Directors

3 credit hours - Three hours weekly; one term.

Study films of internationally recognized film directors. View films by several directors outside of class. Apply various critical methodologies to interpret the films. **Prereq:** ART 180 or AMS 181 or ART 181 or permission of program coordinator. **Note:** Typically offered at MC and OL; fall and spring terms.

ART 216 - Independent Film

3 credit hours - Three hours weekly; one term.

Study feature-length films made independently of mainstream Hollywood, focusing on issues of narrative convention and audience expectation, race, gender and sexual orientation. Study filmmakers who choose to remain free of Hollywood's ideological constraints or are unable to secure funding for their films within the industry. Participate in class discussion based on the assigned films. **Prereq:** ART 180 or AMS 181 or ART 181 or permission of program coordinator. **Note:** Typically offered at MC and OL; fall and spring terms.

ART 218 - Creative Writing: Writing for the Stage and Screen Workshop

3 credit hours - Three hours weekly; one term.

Analyze successful stage plays and screenplays with an eye toward original composition. Discover how to tell gripping stories and learn the fundamental principles and techniques of shaping those stories for the stage and for the screen. Explore ways of building compelling characters, writing effective and memorable dialogue, and structuring dramatic and cinematic acts and scenes. Share writing during workshop sessions in order to hone drafts, develop critical thinking skills and refine individual style. **Prereq:** ART 180 or ENG 200 or THA 125 or permission of the department chair.

Crosslisted: Also offered as ENG 203; credit is not given for both ART 218 and ENG 203.

ART 219 - History of American Art

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. An introduction to American architecture,

painting, sculpture and the decorative arts from the Colonial period to the present. Discussions of slides are supplemented by trips to museums in the Baltimore-Washington area and by tours of Annapolis architecture. No previous art courses are necessary. **Note:** *Typically offered at MC; fall and spring terms.*

ART 220 - History of Modern Art

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. An introduction to the history of Western art since 1800. Although the emphasis is on architecture, painting and sculpture, some time is devoted to the development of photography and industrial and urban design. Discussions of slides are supplemented by trips to museums in the Baltimore-Washington area. No previous art courses are necessary. **Note:** *Typically offered at MC; fall and spring terms.*

ART 221 - History of World Architecture I

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Examine the development of world architectural styles, including European, Southeast Asian, Indian Chinese, and Japanese styles, from the ancient world through the late European Middle Ages. Learn architectural design and city planning as responses to religious, political, economic, and cultural needs, as well as for an understanding of their structural principles. No previous art courses are necessary. **Crosslisted:** *Also offered as ACH 221; credit is not given for both ART 221 and ACH 221. Note:* *Typically offered at MC and OL; fall and spring terms.*

ART 222 - History of World Architecture 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Examine world architectural styles from the Renaissance through the present, including indigenous architecture in Africa and the Americas, and consider contemporary problems in architecture and urbanism. Learn architectural design, landscape architecture and city planning as responses to religious, political, economic and cultural needs, as well as for an understanding of their structural principles. No previous art courses are necessary. **Crosslisted:** *Also offered as ACH 222; credit is not given for both ART 222 and ACH 222. Note:* *Typically offered at MC and OL; fall and spring terms.*

ART 223 - History of American Architecture

3 credit hours - Three hours weekly; one term. An introduction to the development of American architecture, interior design, urban design and landscape architecture from pre-colonial times to the present. Particular attention will be paid to the old and new world sources of American design, as well as to the cultural, political, economic and environmental forces that have shaped the American built environment. Lectures and discussions will be supplemented by field trips. No previous art courses are necessary. **Crosslisted:** *Also offered as ACH 223 and AMS 223; credit is given only one of the following: ACH 223, AMS 223 or ART 223. Note:* *Typically offered at MC and OL; fall and spring terms.*

ART 224 - Introduction to Historic Preservation

3 credit hours - Three hours weekly; one term.

An introduction to the field of historic preservation, including its history, practices and philosophical and legal dimensions. Lectures will be supplemented by field trips to local historic sites and preservation agencies. No previous art courses are necessary. **Crosslisted:** *Also offered as AMS 224; credit is not given for both ART 224 and AMS 224. Note:* *Typically offered at MC; fall and spring terms.*

ART 227 - Asian Art

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Survey the artistic traditions of South Asia, China, Japan and the Islamic world, beginning with the earliest cultures and ending with contemporary works. Analyze Asian architecture and fine arts in a variety of media. Explore Asian belief systems and their influence on artistic and social expression. Class discussions will be supplemented by field trips. No previous art courses are necessary. **Note:** *Typically offered at MC; fall and spring terms.*

ART 228 - African American Art

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Study African American visual arts encompassing African art forms, the arts of the African Diaspora, and the varied work of African-American artists. Lectures and discussions will be supplemented by trips to museums in the Baltimore-Washington area. No previous art courses are necessary. **Crosslisted:** *Also offered as AFA 228; credit is not given for both ART 228 and AFA 228. Note:* *Typically offered at MC and OL; fall and spring terms.*

ART 229 - Art of Traditional and Tribal Cultures

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Study art forms of traditional peoples of sub-Saharan Africa, the pre-Columbian Americas, Australia and Oceania through an understanding of their cultural context. Discussions are supplemented by trips to museums in the Baltimore-Washington area. No previous art courses are necessary. **Note:** *Typically offered at MC; fall and spring terms.*

ART 230 - Art Portfolio Development

1 credit hour - One hour weekly; one term.

Introduces the process of assessing, documenting and presenting artwork. Focuses on how artwork is evaluated by transfer schools and galleries. Prepares students for the next step in their academic or professional careers. Lab fee \$20. **Prereq:** *Nine credits of art courses (preferably studio art courses) or permission of department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ART 231 - Photography Portfolio Development

1 credit hour - One hour weekly; one term.

Learn the skills of selecting, editing and presenting a personal photographic portfolio. Focus on how work is evaluated by transfer schools, potential employers and galleries. Produce both traditional photographic print and digital photography portfolios. Lab fee \$30. **Note:** *Students must have completed nine credits of photography courses prior to enrolling in this course. Typically offered at MC; fall and spring terms.*

ART 232 - Painting 2

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build upon knowledge and skills acquired in ART 131. Learn composition, form and content while working from a variety of subjects including landscape painting. Lab fee \$60. **Prereq:** *ART 131 or permission of department chair.*

Note: *Typically offered at MC; spring term.*

ART 233 - Painting 3

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build upon knowledge and skills acquired in ART 232. Concentrate on individual direction and self-expression. Lab fee \$60. **Prereq:** *ART 232 or permission of department chair.* **Note:** *Typically offered at MC; spring term.*

ART 234 - Painting and Abstraction

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Discover the history of abstraction with a focus on painting. Learn abstraction as an artistic concept and as a technique for creating artwork. Create abstract paintings using a variety of materials and methodologies. Develop your own creative vision when making an abstract painting through independent projects, demonstrations, and critiques. Lab fee \$40. **Prereq:** *ART 125 or permission of department chair.* **Note:** *May be repeated for credit; a total of 6 credits may be earned. Typically offered at MC; fall term.*

ART 235 - Sculpture 2

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build upon knowledge and skills acquired in ART 135. Develop an understanding of the elements of sculptural form while investigating and refining a number of sculptural materials and processes including casting. Lab fee \$65. **Prereq:** *ART 135 or permission of department chair.* **Note:** *Typically offered at MC; fall, spring, and summer terms.*

ART 236 - Digital Photography 2

3 credit hours - Two hours of lecture and two hours of laboratory; one term.

Gain the skills needed to produce more expressive, thought-provoking photographs, using the tools of the digital darkroom. Develop technical expertise in camera operation while also getting hands-on experience with photographic software such as Photoshop and Lightroom. Learn advanced techniques for color management and inkjet printing. Lab fee \$60. **Prereq:** *ART 120 or permission of department chair.* **Note:** *Students must have a DSLR camera and an external hard drive for the class. Typically offered at MC; fall and spring terms.*

ART 237 - Photojournalism

3 credit hours - Two hours lecture and two hours of laboratory weekly; one term.

Learn the process of documenting a news story using digital photography. Explore how lens perspective is used to capture and enhance visual impact, while creating a photographic essay. Lab fee \$50. **Prereq:** *ART 120 or permission of department chair.* **Note:** *Students are required to provide a digital single lens reflex (D-SLR) camera. Typically offered at MC; fall and spring terms.*

ART 238 - Alternative Photographic Process

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Explore a range of non-traditional photographic methods including the use of infrared film, analog film manipulation, turn of century non-silver iron salt hand-coated sensitizers and new technology of producing digitally generated large-format negatives. Lab fee \$60. **Prereq:** *ART 121 or permission of department chair.* **Note:** *Typically offered at MC; fall and spring terms.*

ART 239 - Techniques of Photographic Lighting

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Explore the rules and qualities of lighting techniques for portraits, large and small product illustration, glassware and art reproduction. Learn a range of studio and on location methods including umbrellas and tents with emphasis on lighting ratios, capture control and presentation. Lab fee \$50. **Prereq:** *ART 120 or ART 121 or permission of department chair.* **Note:** *Students are required to have a manual operation DSLR camera. Typically offered at MC; fall and spring terms.*

ART 240 - Watercolor 2

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build upon knowledge and skills learned in ART 140. Explore a variety of techniques while working from the figure,

still life, interior and landscape elements. Study the expressive potential of the medium. Lab fee \$30. **Prereq:** ART 140 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

ART 242 - Portraiture 2

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build upon knowledge acquired in ART 142. Explore paint media and use various techniques and compositional devices while working from the model. Develop an understanding of the emotive and expressive qualities embodied in portrait painting. Lab fee \$60. **Prereq:** ART 142 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

ART 244 - Materials and Methods of Painting and Drawing

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Explore historical and contemporary art media associated with painting and drawing by making studio projects. Work directly with art materials, and learn techniques and best practices based on their physical properties. By experimenting with a range of media, discover which materials are best suited for your art trajectory. Explore media including silverpoint, ink, egg tempera, oil glazes, acrylic, and airbrush; and substrates including paper, canvas, and panels. Lab fee \$40. **Prereq:** ART 100 or ART 125 or permission of department chair.

ART 245 - Ceramics 3

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build on the knowledge acquired in ART 146 or ART 146H. Specialize in an area of personal interest, such as wheel-thrown wares, hand-built pieces or sculpture. Explore, experiment with, and participate in the functioning of the ceramics studio to develop personal forms of expression. Lab fee \$75. **Prereq:** ART 146 or ART 146H or permission of department chair. **Crosslisted:** Also offered as ART 145H; credit is not given for both ART 245 and ART 145H. **Note:** Typically offered at MC; fall, spring, and summer terms.

ART 245H - Ceramics 3 - Honors

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

This is an honors course. Build on the knowledge acquired in ART 146 or ART 146H. Specialize in an area of personal interest, such as wheel-thrown wares, hand-built pieces or sculpture. Explore, experiment with, and participate in the functioning of the ceramics studio to develop personal forms of expression. Lab fee \$75. **Prereq:** Eligibility for Honors courses and ENG 101/ENG 101A; and ART 146 or ART 146H or permission of department chair. **Crosslisted:** Also offered as ART 245; credit is not given for both ART 245H and ART 245. **Note:** Work with faculty member to select a specific project. Typically offered at MC; fall, spring, and summer terms.

ART 246 - Screen Printing

3 credit hours - Two hours of lecture and two hours of lab weekly; one term.

Explore screen printing in a professional print shop setting. Learn both traditional and contemporary methods of stencil making, film preparation and printing methods using various papers, surfaces and materials. Learn digital film outputting, mixing gradations with ink and multi-color registration. Create a body of artwork through independent projects that build upon knowledge attained during classroom lectures, demonstration and critiques. Lab fee \$60. **Prereq:** ART 100 or ART 125 or permission of department chair. **Note:** Typically offered at MC; all terms.

ART 247 - Lithographic Printmaking

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Learn the fundamentals of lithography. Explore the basic techniques (plate preparation, etches and counter etches), materials (crayon, tusche and new media), and print methods (working the press, ink, and paper) to create fine art lithographs. Lab fee \$50. **Prereq:** ART 125 or permission of department chair. **Note:** Typically offered at MC; all terms.

ART 248 - Intaglio Printmaking 2

3 credit hours - Two hours of lecture and two hours of studio weekly; one term.

Build upon knowledge and skills acquired in ART 148. Learn how to create different etchings including color, deep, lift ground and soft ground techniques. Develop personal forms of expression while exploring new printmaking methods. Lab fee \$50. **Prereq:** ART 148. **Note:** Typically offered at MC; all terms.

ART 249 - Metal Casting

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn the technical, historic, and aesthetic aspects of metal casting processes related to sculpture. Develop skills in wax working, mold making, metal casting, metal finishing/chasing, and patina applications, with an emphasis on foundry safety. Lab fee \$95. **Prereq:** ART 135 or ART 138 or permission of department chair. **Note:** Typically offered at MC; fall, spring, and summer terms.

ART 250 - Digital Portfolio Development

1 credit hour - One hour weekly; one term.

Learn the process of selecting, editing, documenting and presenting personal work for a digital portfolio. Focus on how graphic design, animation, photography, and video are evaluated by transfer schools and employers. **Prereq:** Nine credits of ART courses or permission of department chair. **Note:** This course is intended for Digital Arts and Film Studies students who are near to completing their degrees or certificates. Typically offered at MC and OL; fall and spring terms.

ART 251 - Animation 1

3 credit hours - Two hours lecture and two hours lab weekly; one term.

Explore the rich tradition in animation from basic principles and concepts of hand drawn to modern digital techniques using both 2D and 3D technology. Learn firsthand Disney's 12 principles of animation and the industry standard production process. Create scripts, storyboards, rough animatics and full animation using keyframes and in-betweens. Lab fee \$30. **Note:** Typically offered at MC and OL; fall and spring terms.

ART 252 - Animation 2

3 credit hours - Two hours lecture and two hours laboratory weekly; one term.

Create original animations with an emphasis on acting and storytelling. Utilize 2D and 3D software to manipulate facial expressions, body language, and dialogue to produce short narrative sequences. Learn to develop characters with an emphasis on weight and timing to convey the illusion of life. Lab fee \$30. **Note:** Although ART 251 and ART 252 can be taken in either order, the sequential order is recommended. Typically offered at MC and OL; fall and spring terms.

ART 255 - Game Development

3 credit hours - Two hours of lecture and two hours of lab weekly; one term.

Collaborate with a team of students on a semester long project working on the development of a real game or simulation. Learn about the game creation pipeline and project management. Lab fee \$30. **Prereq:** ART 155 or ART 157 or ART 159 (formerly ART 174) with a grade of C or better, or permission from the academic chair. **Note:** Typically offered at MC and OL; spring term.

ART 258 - Game Character Design

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn through hands on experience the process of creating 3D video game characters. Create polygonal models, generate textures and normal maps, rig, animate, and export assets into a game engine to produce a fully playable game character. Lab fee \$30. **Note:** Typically offered at MC and OL; fall term.

ART 259 - Gaming Practicum

3 credit hours - One and one half hours of seminar and six hours of related work weekly; one term.

Focus on various game development topics not ordinarily emphasized in other gaming courses, and work on student games under the supervision of a faculty advisor. Lab fee \$30. **Prereq:** Permission of department. **Note:** Course may be repeated for a total of 12 credit hours. Typically offered at MC and OL; fall and spring terms.

ART 260 - Video 2

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Build on knowledge and skills acquired in ART 160. Study hands on pre-production, production, post production, studio production and distribution through the creation of original videos. Lab fee \$50. **Prereq:** ART 160 or permission of department chair. **Note:** Typically offered at MC and OL; spring term.

ART 262 - Image & Design

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly ART 117 - Digital Imaging. Learn design principles, concepts, and processes used by artists and designers to create digital imagery. Develop the skills to conceptualize, manipulate, and design digital images for a variety of media including print and online. Explore contemporary digital culture and history while producing original design portfolio projects. Lab fee \$40. **Prereq:** ART 106, or permission of department chair. **Note:** Typically offered at MC and OL; spring term.

ART 264 - Fundamentals of Typography

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Explore the conceptual and production process of typographic design. Study its history, technology, anatomy, and implementation. Work with traditional methods and software to develop letterforms and organize type. Lab fee \$40. **Note:** Typically offered at MC and OL; fall and spring terms.

ART 266 - Graphic Design 2

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Practice and apply skills required to design and publish print documents. Learn techniques for integration of typography, graphic skills to design and produce artwork and page layout fundamentals to combine text and graphics in a single document. Explore client relationships in the graphic design world. Design fliers, brochures, newsletters, corporate identity packages and more. Lab fee \$40. **Prereq:** ART 166 or permission of department chair. **Note:** Typically offered at MC and OL; spring term.

ART 268 - User Experience Design for the Web

3 credit hours - Two hours of lecture and two hours of lab weekly; one term.

Learn the process of creating a successful website through effective information architecture, research, strategy, and prototyping. Create wireframes, sitemaps, and other industry deliverables that communicate the business goals and user needs of a website. Develop and conduct usability studies to measure the performance of websites. Lab fee \$40. **Note:** Typically offered at MC and OL; fall term.

ART 269 - Responsive Web Design

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn the process of planning, designing and building of responsive websites including project planning and

wireframing, creation of mood boards and design comps. Create websites using responsive frameworks, incorporating multi-sized graphics and adaptive content, across desktop, tablet and mobile devices. **Prereq:** ART 170 or permission of department chair. **Note:** Typically offered at MC and OL; fall and spring terms.

ART 270 - Web Design 2

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Study advanced techniques, concepts, and strategies developed in Web Design 1. Work independently, in teams and with real clients, on the design and production of professional quality Web projects incorporating social media, multimedia, blogs, email marketing and other Internet technologies. Lab fee \$25. **Prereq:** ART 170 or permission of department chair. **Note:** Typically offered at MC and OL; spring term.

ART 275 - Digital Arts Internship

3 credit hours - One hour seminar, eight hours related work experience weekly; one term.

Acquire practical experience in a work environment related to the fields of graphic design, Web design, game development or media productions. Set internship objectives jointly with instructor and supervising employer. **Prereq:** 15 credit hours of Digital Arts courses with a grade of "C" or better, or permission of department chair. **Note:** Typically offered at MC and OL; fall and spring terms.

ART 278 - Color Darkroom Practicum

3 credit hours - One and one half hours of lecture and four and one half hours of studio weekly; one term.

Learn to master the color printing process in a traditional darkroom setting. Gain experience shooting, printing and analyzing chromogenic prints. Explore the science and aesthetics of visible light and experiment with alternative color photographic processes. Lab fee \$50. **Prereq:** ART 121 or permission of department chair.

ART 280 - Special Topics in Art - Landscape Drawing

-

Provides students with the opportunity to concentrate on a topic of particular interest. A maximum of eight credit hours earned from special topics courses maybe used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-100.

Note: Typically offered at MC; spring term.

ART 280-299 - Special Topics in Art

-

Provides students with the opportunity to concentrate on a topic of particular interest. A maximum of eight credit hours earned from special topics courses maybe used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-100.

ART 281 - Special Topics in Art - Landscape Painting

-

An introduction to the fundamentals of landscape painting and drawing. Emphasis on basic concepts and techniques of landscape art and its unique creative possibilities. Students will furnish their own materials. Lab fee \$10. **Prereq:** ART 125. **Note:** Typically offered at MC; fall and spring terms.

ART 288 - Special Topics in Art - Figure Painting

-

Provides students with the opportunity to concentrate on a topic of particular interest. A maximum of eight credit hours earned from special topics courses maybe used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-100.

Note: Typically offered at MC; fall and spring terms.

ART 290 - Special Topics in Art - Materials and Methods of Painting

-

Provides students with the opportunity to concentrate on a topic of particular interest. A maximum of eight credit hours earned from special topics courses maybe used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-100.

Note: Typically offered at MC; fall term.

ART 292 - Special Topics in Art - Public Art and Site-specific Installation Interventions

3 credit hours -

Learn about public art and site-specific installations. Develop proposals to create models and interactive sculptural installations. Concentrate on fiber arts, mixed media including wood metal, clay and found objects. Lab fee \$65. **Note:** Students who have experience in video, sound and photography are invited to incorporate this expertise with site-specific projects. Typically offered at MC; fall, spring, and summer terms.

ART 297 - Special Topics in Art - Ceramic Surfaces - Glazing and Firing

3 credit hours -

Explores the art and sciences of glazes and firing. Learn the underlying structure of glazes and how to test and achieve new colors and textures. Develop a personal palette and style by experimenting with an array of approaches to

applying slips and glazes. Learn the concepts and methods for firing different kilns and how atmosphere affects ceramic surfaces. Lab fee \$0-100. **Prereq:** *Art 203 or permission of department chair.*

Astronomy

AST 112 - Stars and Stellar Systems

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Learn about the universe beyond our solar system. Explore topics including the nature of stars and their evolution, galaxies and quasars, the universe as a whole and the possibility of life elsewhere in the Universe. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.* **Note:** *Typically offered at MC; fall and spring terms.*

AST 114 - The Solar System

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Investigate the structure, dynamics, and major components of the solar system (sun, moon, Earth, other planets and their satellites, comets, asteroids and meteoroids). Examine the origin and likely fate of the Earth, Sun, and the solar system as a whole.

Compare our Solar System to other known planetary systems. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.* **Note:** *Typically offered at MC; fall and spring terms.*

AST 120 - Life in the Universe

3 credit hours - Three hours of lecture weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Explore the possibility that life exists elsewhere in the Universe. Study what astrobiologists mean by "life" and the nature and origin of life on Earth. Investigate the properties of worlds where life could thrive, how the properties of stars affect the habitability of planets, and the challenges associated with interstellar travel. Discuss the probability of communication with extraterrestrial intelligent life forms, and discuss the social and philosophical consequences of finding life, intelligent or simple, elsewhere in the Universe. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.* **Note:** *This course does not satisfy curricular requirements for a laboratory science course. Typically offered at MC and OL; fall, spring, and summer terms.*

AST 280-299 - Special Topics in Astronomy

-

Independent study in an advanced area of astronomy. Students must initiate a planned program. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Prereq: *28 or more credit hours and permission of department chair.*

Biology

BIO 100 - Introduction to Biology

4 credit hours - Three hours of lecture and three hours laboratory weekly, one term.

This course meets the Biological and Physical Sciences General Education Requirement. Explore the science of biology; learn about the diversity of living organisms and their roles in various environments. Gain an understanding of cellular chemistry and genetics and how molecular biology and biotechnology are capable of changing organisms.

Examine how ecosystems function and how global changes are impacting populations and biodiversity. Lab fee \$45.

Prereq: *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.* **Note:** *Students may not use this course to substitute for BIO 101. Credit is not given for both BIO 100 and BIO 101. This course is for non-science majors only and may not be used as a pre-requisite for any other Biology course. This course may not satisfy requirements for entry into Health Professions related fields.*

BIO 101 - Fundamentals of Biology

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Study the basic biological principles common to living organisms and insights into the scientific methods used to determine those principles. Topics include biological molecules, cell structure and metabolism, biological organization, homeostasis, reproduction and development, and heredity and evolution. Lab fee \$20. **Prereq:** *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.* **Note:** *Credit is not given for both BIO 101 and BIO 102 or BIO 101 and BIO 231. Typically offered at MC and GB; fall, spring, and summer terms.*

BIO 102 - Biology for the 21st Century

3 credit hours - Three hours weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Learn the basic concepts of biology, their impact on society and their role in developing a personal worldview. Learn how genetics and evolution define life, determine gender, govern inheritance, create diversity and foster new species. Understand the processes used for in vitro fertilization, sex selection, and cloning. Study the applications of molecular biology for genome mapping, forensic science, and production of new domesticated organisms, genetic screening and development of new gene therapies. Recognize how scientific knowledge can be misused to support conflicting views and attitudes. This

course does not satisfy a lab science requirement. **Prereq:** *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.*

Note: *Credit is not given for both BIO 101 and BIO 102. Typically offered OL; fall and summer terms.*

BIO 103 - General Botany

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Gain an introduction to members of the plant kingdom and their closest relatives. Learn the unique life strategies of plants that are the basis for their importance to humans and their role in shaping global ecology. Through an examination of plant form and function, students will learn how and why plant life defines the biological potential of both terrestrial and aquatic ecosystems. Lab fee \$40. **Prereq:** *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.* **Note:** *Typically offered at MC; fall and spring terms.*

BIO 104 - Principles of Evolution and Ecology

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Investigate the major evolutionary and ecological processes that operate in the natural world. Explore the diversity of life forms on Earth and human impacts on that diversity. Collect, quantify, interpret and present empirical data in order to gain a foundation in the scientific and communication skills used to develop scientific knowledge. Lab fee \$40. **Prereq:** *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test, or a "B" or better in MAT 005.*

BIO 105 - General Zoology

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. An introduction to members of the animal kingdom and their closest relatives. Study how animals have evolved adaptations that allow representatives to occupy all terrestrial and aquatic ecosystems. Students will learn how vertebrate and invertebrate animals are classified and how particular adaptive strategies are important for their survival through an examination of animal form and physiology. Lab fee \$45. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.* **Note:** *Typically offered at MC; fall and spring terms.*

BIO 107 - Environmental Science

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Investigate major issues in contemporary environmental science with special emphasis on scientific reasoning and the skills needed to resolve contemporary problems. Perform field and laboratory exercises focused on ecosystem dynamics, habitat assessment, pollution, resource management and environmental restoration. Students must attend occasional scheduled field trips. Lab fee \$20. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.* **Note:** *Credit is not given for both BIO 107 and BIO 108. Typically offered at MC and OL, fall and spring terms; MC, summer term.*

BIO 108 - Ecosystems and the Environment

3 credit hours - Three hours of lecture weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Explore the natural functioning of Earth's major systems: the biosphere, atmosphere, hydrosphere and lithosphere and examine how human activity influences these natural systems. Examine the interrelationships among science, technology, politics and history that govern past environmental policy, and consider how these disciplines will help shape the environment of the future. Does not satisfy a lab science requirement. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.* **Note:** *Credit is not given for both BIO 107 and BIO 108.*

BIO 112 - Garden Management

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

An introduction to the applications and techniques for growing plants in residential, public and commercial environments. Study the selection, care, culture, propagation and maintenance of trees, shrubs, flowers, edible plants and grasses. Learn how to incorporate groups of plants to create home landscapes, herb, vegetable, water, public and thematic gardens, seasonal plant displays and landscape features for people management. Lab fee \$30. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.*

BIO 113 - Sustainable Horticulture

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Identify native and cultivated plants used in horticulture, landscaping and restoration. Apply the principles of sustainability to the propagation, growth and use of these plants in horticultural settings. Topics include plant form and function, soil fertility, propagation, biotechnology and integrated pest management. Lab fee \$30. **Prereq:** *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.* **Note:** *Typically offered at MC; fall and spring terms.*

BIO 116 - Introduction to Landscaping

3 credit hours - Three hours of lecture weekly; one term.

Learn the theory and general principles of landscaping with emphasis on the application of these principles to public

and residential areas. Discover how sites are evaluated with respect to function, design criteria, environmental conditions and plant selection. Learn the techniques of design and drafting that are used to develop original concepts into working landscape plans. **Prereq:** Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005. **Note:** Typically offered at MC; fall term.

BIO 121 - Indoor Gardening

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

An introduction to flowering and foliage plants used for indoor decorating. Study the methods for plant selection, propagation, care and culture. Learn how plants are used to help create the interior landscape of residential, commercial and public buildings. Lab fee \$30. **Prereq:** Eligibility for ENG 101/ENG 101A and eligibility for any general education math or permission of the department chair.

BIO 122 - Fundamentals of Ecology Travel Study 1

4 credit hours - Three hours lecture weekly; 2 weeks travel study lab

This course meets the Biological and Physical Sciences General Education Requirement. Travel to unique ecosystems on planet earth to study the evolution, structure and function of ecosystems. Examine the basic geology, hydrology, climate, organism dynamics, and human cultures that affect example ecosystems. Apply the scientific method to principles of ecology, evolution, conservation, and human impacts. Travel fee. **Prereq:** Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005. **Note:** This course requires pre- and post- travel meetings in addition to the instruction given during the travel experience. Students must sign up for the corresponding travel section and pay all travel fees separately. Students traveling to international destinations are required to have a valid passport 90 days prior to departure and valid 90 days following the return date.

BIO 123 - Fundamentals of Ecology Travel Study 2

3 credit hours - Two hours lecture weekly; 2 weeks travel study lab

This course meets the Biological and Physical Sciences General Education Requirement. Make comparisons to ecosystems studied in BIO 122 by applying the scientific method to principles of ecology, evolution, conservation, and human impacts. Explore contrasting ecosystems through travel to study the evolution, structure, and function of additional ecosystems. Examine geology, hydrology, climate, organism dynamics, and human cultures that affect example ecosystems. Travel fee. **Prereq:** BIO 122 or permission of department chair. **Note:** This course requires pre- and post- travel meetings in addition to the instruction given during the travel experience. Students must sign up for the corresponding travel section and pay all travel fees separately. Students traveling to international destinations are required to have a valid passport 90 days prior to departure and valid 90 days following the return date.

BIO 130 - Drones Sensing the World Around Us - Designs by Nature and Technology

3 credit hours - Three hours lecture weekly; one term

This course meets the Biological and Physical Sciences General Education Requirement. Learn the techniques used to explore and study the world around us. Emphasis is placed on the how biological systems sense the environment and how drones and other autonomous systems mimic these systems to gain situational awareness. Learn the practical, technical and legal uses of drone technology and how remote sensing improves our understanding of the environment. Study the data collected by remote surveillance technologies, for habitat assessment, ecosystem inventories, the impacts of weather and evaluation of weather phenomena. **Prereq:** Eligibility for ENG 101/ENG 101A and eligibility for any general education math. **Note:** Typically offered OF; fall and summer terms.

BIO 135 - Principles of Nutrition

3 credit hours - Three hours weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. This course meets the Wellness Requirement. Learn the digestion, absorption and physiological function of nutrients in the body. Emphasis is placed on normal nutrition and the relationship between nutrients and chronic disease. Nutrition needs of the healthy person through stages of the life span are included. This course does not satisfy a lab science requirement.

Prereq: Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005. **Note:** Credit is not given for both BIO 135 and BIO 136. Typically offered at MC and OL; fall, spring, and summer terms.

BIO 136 - Principles of Nutrition and Laboratory

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. This course meets the Wellness Requirement. Focus on nutrients, including their digestion, absorption and physiological function in the body. Emphasis is placed on normal nutrition and the relationship between nutrients and chronic disease. Nutrient needs of the healthy person through stages of the life span are included. Includes a laboratory experience. Lab fee \$30. **Prereq:** Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005. **Note:** Credit is not given for both BIO 135 and BIO 136.

BIO 137 - Weight Management: Utilizing Healthy Approaches to Diet and Physical Activity

1 credit hour - One hour of lecture weekly; one term.

Introduces students to the concepts of energy balance, healthful eating patterns and physical fitness for healthy living. The course examines many of the biological and environmental theories associated with weight management and

reviews current research in this area. Emphasis is also placed on physical fitness compatible with the achievement and maintenance of a healthy body weight. Popular diet programs will be reviewed and evaluated with regard to weight management and overall health impact. **Crosslisted:** Also offered as HEA 137; credit is not given for both BIO 137 and HEA 137. **Note:** Typically offered OL; winter and summer terms.

BIO 138 - Nutrition for Fitness and Sport

1 credit hour - One hour of lecture weekly; one term.

Introduces the student to current dietary guidelines appropriate for a healthy and physically active lifestyle. Explores the nutritional needs of physically active individuals, including recreational as well as competitive athletes. The role of each nutrient is reviewed, with emphasis on their utilization during exercise and recovery. Dietary modifications to optimize performance during different types of physical activity also will be discussed. A brief review of scientific data regarding ergogenic aids also will be presented. **Crosslisted:** Also offered as HEA 138; credit is not given for both BIO 138 and HEA 138. **Note:** Typically offered at MC and OL; fall and spring terms.

BIO 152 - Biology of Aging

3 credit hours - Three hours of lecture weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Examine the study of normal aging, the theories that exist to explain aging and the changes that occur in the anatomy and physiology of the human body as it ages. Discuss normal aging processes and disease states. **Note:** Typically offered OL; fall, spring, and summer terms.

BIO 201 - Plant Taxonomy

4 credit hours - Two hours of lecture and four hours of laboratory weekly; one term.

Studies the identification, naming and classification of native vascular plants. Master the applications of plant taxonomy for the identification of individual plant species and the designation of various habitat types like forests, meadows, wetlands and bogs. Learn the features of plants that are used for plant identification through the use of manuals, keys, plant collections and herbaria. May require one daylong Saturday field trip. Lab fee \$25. **Prereq:** BIO 103 or BIO 113 or permission of department chair; eligibility for ENG 101/ENG 101A and eligibility for any general education math. **Note:** Typically offered at MC; spring term.

BIO 207 - Plant Propagation

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn an introduction to the principles and practices used in the propagation of native and cultivated plants. Study how the techniques of seed propagation, cuttings, grafting, separation, division and micropropagation are used to produce plants for home use and commercial applications. Learn how plants are improved through plant breeding and genetic modification. Lab fee \$30. **Prereq:** BIO 103 or BIO 113 or permission of department chair; eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.

BIO 210 - Ecological Principles and Environmental Assessment

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Examine the interrelationships between terrestrial and aquatic systems, focusing on field-based investigations. Apply environmental assessment techniques to determine physical, chemical and biological characteristics of a watershed and the factors affecting water quality. Use Geological Information Systems (GIS) as well as digital meters and Global Positioning Systems (GPS) in the field for data collection. Learn about the factors affecting ecosystem structure and function, including biogeochemical cycles, symbiotic relationships, and the impact of alien species. Investigate the unique characteristics and functions of different ecosystems, including a salt marsh, rocky shore, riparian buffer and coral reef. Lab fee \$40. **Prereq:** Any one of the following: BIO 101 or BIO 102 or BIO 103 or BIO 105 or BIO 107 or BIO 108 or permission of department chair. Eligibility for ENG 101/ENG 101A and eligibility for any general education math. **Note:** Typically offered at MC; fall term.

BIO 211 - Estuarine Biology

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Investigate the biology of the Chesapeake Bay and its tributaries. Study the interrelationships between the physical environment and the biodiversity observed in the many kinds of aquatic habitats found within an estuarine watershed. Learn how to sample, monitor and identify the keystone species of these habitats through field collections and laboratory evaluation. Requires one Saturday research cruise. Lab fee \$60. **Prereq:** BIO 101 or BIO 103 or BIO 107 or permission of department chair; eligibility for ENG 101/ENG 101A and eligibility for any general education math.

BIO 212 - Genetics

3 credit hours - Three hours lecture weekly; one term.

Study the mechanism of heredity moving from the discoveries of Mendel through molecular genetics. Apply studies in viral, prokaryotic and eukaryotic model systems to the understanding of human inheritance and molecular genetics. **Prereq:** BIO 101 or permission of department chair and eligibility for ENG 101/ENG 101A and any general education math. **Note:** Students should check with their intended transfer institution or an AACC Academic and Transfer Advisor before enrolling. Credit is not given for both BIO 212 and BIO 220 or BIO 212 and BIO 285 Special Topics in Biology - Genetics. Typically offered at MC; spring term.

BIO 214 - Ecology

3 credit hours - Three hours weekly; one term.

Discover the unique ecology of Maryland's diverse ecosystems. Examine the geographic history, ecology and environmental attributes of the barrier islands, coastal bays, coastal plain, Piedmont region, Appalachian Mountains and the Chesapeake Bay. This course does not satisfy a lab science requirement. **Prereq:** Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005. **Note:** Typically offered OL; fall term.

BIO 215 - Restoration Ecology

3 credit hours - Three hours weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Learn basic techniques used to repair, restore and create ecosystems. Emphasis is placed on the diverse ecosystems of Maryland. Investigate how water quality is improved through established forest and meadow habitats, tidal and non-tidal wetlands, underwater grass meadows, and dune systems as well as through the construction of rain gardens and vegetated storm water treatment systems. This course does not satisfy a lab science requirement. **Prereq:** Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005. **Crosslisted:** Also offered as BIO 215H; credit is not given for both BIO 215 and BIO 215H. **Note:** Typically offered at MC; spring term.

BIO 215H - Restoration Ecology - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Biological and Physical Sciences General Education Requirement. Learn basic techniques used to repair, restore and create ecosystems. Emphasis is placed on the diverse ecosystems of Maryland. Investigate how water quality is improved through established forest and meadow habitats, tidal and non-tidal wetlands, underwater grass meadows, and dune systems as well as through the construction of rain gardens and vegetated storm water treatment systems. This course does not satisfy a lab science requirement. **Prereq:** Eligibility for Honors courses and ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005. **Crosslisted:** Also offered as BIO 215; credit is not given for both BIO 215H and BIO 215.

BIO 220 - Genetics with Laboratory

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Formerly BIO 220 – Genetics. This course meets the Biological and Physical Sciences General Education Requirement. Study the mechanism of heredity, moving from the discoveries of Mendel through molecular genetics. Apply studies in viral, prokaryotic and eukaryotic model systems to the understanding of human inheritance and molecular genetics. Perform techniques used in research and biotechnology settings. Lab fee \$40. **Prereq:** BIO 101 or permission of department chair and eligibility for ENG 101/ENG 101A and any general education math. **Note:** Credit is not given for both BIO 220 and BIO 212 or BIO 220 and BIO 285 Special Topics in Biology - Genetics. Typically offered at MC; fall term.

BIO 221 - Molecular Biotechniques

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Investigate the theory and application of molecular biology as they apply to research, medicine, agriculture, bioremediation and criminology. Use extensive hands-on procedures in the integrated lecture/lab to reinforce the theory behind cloning, genetic engineering and forensic DNA science. Learn concepts that govern the use of molecular techniques and the applicable laboratory skills. Lab fee \$40. **Prereq:** BIO 101 or permission of department chair and eligibility for ENG 101/ENG 101A and any general education math. **Note:** Typically offered at MC; spring term.

BIO 223 - General Microbiology

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Study of the fundamental principles of microbiology, the diversity of microorganisms and the relation of microorganisms to disease and industry. Laboratory work includes the examination of media, culture methods, microscope examinations and identifications, the control of microorganisms by physical and chemical means and some quantitative techniques. Lab fee \$50. **Prereq:** BIO 101 or BIO 103 or BIO 231 or BIO 233; eligibility for ENG 101/ENG 101A and any general education math.

Crosslisted: Also offered as BIO 223H; credit is not given for both BIO 223 and BIO 223H. **Note:** Typically offered at MC; fall, spring, and summer terms.

BIO 223H - General Microbiology - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an Honors course. This course meets the Biological and Physical Sciences General Education Requirement. Study of the fundamental principles of microbiology, the diversity of microorganisms and the relation of microorganisms to disease and industry. Laboratory work includes the examination of media, culture methods, microscope examinations and identifications, the control of microorganisms by physical and chemical means and some quantitative techniques. Lab fee \$50. **Prereq:** BIO 101 or BIO 103 or BIO 231 or BIO 233. Eligibility for Honors courses and any general education math; eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as BIO 223; credit is not given for both BIO 223 and BIO 223H.

BIO 230 - Structure and Function of the Human Body

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Learn the anatomy and physiology of the human body. Surveys major systems of the body, cells and tissues. Considers clinical disorders of major systems. Lab fee \$15. **Prereq:** *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.* **Note:** *Credit is not given for both BIO 230 and any of the following: BIO 231, BIO 232, BIO 233 or BIO 234. Students enrolled in the EMT-P, Pharmacy Technician, Medical Coding and Massage Therapy certificate programs and Personal Trainer letter of recognition programs should consult their program advisor for math eligibility. Typically offered at MC; fall, spring, and summer terms.*

BIO 231 - Human Biology 1

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Learn the biologically significant inorganic and organic molecules and their relationship to human anatomy and physiology, the structure of cells and tissues, cellular physiology, the fundamentals of inheritance and the anatomy and physiology of the integumentary, skeletal, and nervous systems. A course primarily for the two-year nursing program; sometimes accepted as transfer credit. Students are advised to check with the four-year transfer institution. Four-year nursing students usually take BIO 233 and BIO 234. Lab fee \$15. **Prereq:** *Eligibility for ENG 101/ENG 101A and either eligibility for any general education math or a score of 27 or better on the Arithmetic Placement Test or a B or better in MAT 005.* **Note:** *Credit is not given for (1) both BIO 101 and BIO 231 or (2) both BIO 230 and BIO 231 or (3) both sequences BIO 231 - BIO 232 and BIO 233 - BIO 234. Students enrolled in the Massage Therapy certificate program should consult their program advisor for math eligibility. Typically offered at MC; fall, spring, and summer terms.*

BIO 232 - Human Biology 2

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Study the anatomy and physiology of the circulatory, lymphatic, respiratory, urinary, muscular, digestive, endocrine and reproductive systems. Additional topics include body fluid composition, acid-base balance, electrolytes and early human development. Lab fee \$15. **Prereq:** *BIO 231 and eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC; fall, spring, and summer terms.*

BIO 233 - Anatomy and Physiology 1

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. A study of biological chemistry, cell structure and function, tissues, and the histology, gross anatomy and physiology of the integumentary, skeletal, muscular and nervous systems. Lab fee \$15. **Prereq:** *BIO 101; eligibility for ENG 101/ENG 101A and eligibility for any general education math.* **Note:** *Credit is not given for (1) both BIO 230 and BIO 233 or (2) both sequences BIO 231 - BIO 232 and BIO 233 - BIO 234. Typically offered at MC and AM; fall, spring, and summer terms.*

BIO 234 - Anatomy and Physiology 2

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. A study of the histology, gross anatomy and physiology of the circulatory, lymphatic, respiratory, digestive, endocrine, urinary and reproductive systems and early human development. Lab fee \$15. **Prereq:** *BIO 233 and eligibility for ENG 101/ENG 101A.* **Note:** *Credit is not given for (1) both BIO 101 and BIO 231 or (2) both BIO 230 and BIO 231 or (3) both sequences BIO 231 - BIO 232 and BIO 233 - BIO 234. Students enrolled in the Pharmacy Technician and Massage Therapy certificate programs should consult their program advisor for math eligibility. Typically offered at MC and AM; fall, spring, and summer terms.*

BIO 275 - Biology Practicum

1-4 credit hours -

Focus on varied biological topics not ordinarily emphasized in basic survey courses. Practicum courses may not include a laboratory component, unless the practicum exceeds three credit hours. A maximum of eight credit hours earned from practicum courses may be used to satisfy degree requirements. Because practicum courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee varies. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.*

BIO 280-299 - Special Topics in Biology

-

Focus on varied biological topics not ordinarily emphasized in basic survey courses. Topics may not include a laboratory, unless they earn four credits. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee varies. **Prereq:** *Eligibility for ENG 101/ENG 101A and eligibility for any general education math.*

Business Administration

BPA 105 - Exploring the Future

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Investigate the future in a changing world. Using tools and perspectives across fields of study and cultures, students expand foresight and build the future. Acquire an appreciation for the complexity of our global society and its diversity. **Crosslisted:** Also offered as SOC 105; credit is not given for BPA 105 and SOC 105.

BPA 106 - Introduction to Project Management

3 credit hours - Three hours weekly; one term.

Formerly BPA 116 - Introduction to Project Management. Study the basics of project management. Explain the concepts behind successful project management and investigate the key elements of the project management framework. This course addresses the core material of the CompTIA Project+ exam objectives. Lab fee \$25. **Prereq:** CTA 100 or CTP 103 and eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as CTA 106; credit is not given for both BPA 106 and CTA 106.

BPA 111 - Introduction to Business

3 credit hours - Three hours weekly; one term.

Explore the way that business is related to, and interacts with, individuals, groups, and institutions in the 21st century. Learn the terminology and concepts of the functional areas of business, setting the foundation for interpreting and analyzing the legal, social, and ethical issues facing business (both the institution and its members) today. Examine global awareness and cultural diversity throughout the course. Prepare for a career in business and/or a business career in the arts, sciences, and technologies. **Note:** Eligibility for ENG 101/ENG 101A recommended; credit will not be given for BPA 111 and also ESI 111. Typically offered at MC, AM, GB, and OL; all terms.

BPA 113 - Consumer and Personal Finance

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Compare theories as they apply to consumer decision making. Apply theories to make practical choices regarding consumer saving, investing and budgeting. Discuss the use of credit, insurance, housing, career choice, retirement and estate planning. **Note:** Credit will not be given for BPA 113 and also ECO 113. Typically offered at MC and OL; all terms.

BPA 119 - Global Business

3 credit hours - Three hours weekly; one term.

Explore the factors affecting the success or failure of businesses operating abroad. Analyze general theories of trade and economic development, specific organizations and monetary systems, the foreign forces impacting business and management applications. **Note:** Typically offered at MC and OL; fall and spring terms.

BPA 120 - Small Business Management

3 credit hours - Three hours weekly; one term.

Examine the principles and practices involved in managing a small business. Topics include business planning, legal issues and forms of small businesses, financial management, human resources management, marketing, customer relationship management, family businesses and e-commerce. Provides information to current or prospective managers of existing small businesses. **Note:** Credit will not be given for BPA 120 and also ESI 120. Typically offered at MC and OL; fall, spring, and summer terms.

BPA 125 - Marketing Principles

3 credit hours - Three hours weekly; one term.

An introduction to the principles governing the distribution of goods and services at various levels of distribution. The management viewpoint is stressed, and emphasis is on making decisions regarding product, price, promotion and place. **Note:** Typically offered at MC and OL; all terms.

BPA 126 - Advertising and Sales Promotion

3 credit hours - Three hours weekly; one term.

Think critically and use metrics to evaluate the appropriate mix of promotional activities to effectively market your product or service. Create commercials, social media posts, online ads, and sales material to support an advertising campaign. **Note:** Typically offered OL; fall and spring terms.

BPA 127 - eMarketing

3 credit hours - Three hours weekly; one term.

Learn the core concepts of an eMarketing campaign. Explore email marketing, online advertising, social media, viral marketing, website copywriting and design, and other electronic tools used in supporting a traditional marketing campaign. **Note:** Credit will not be given for BPA 127 and also ESI 127. Typically offered at MC and OL; fall, spring, and summer terms.

BPA 129 - European Union - Travel Studies

3 credit hours - Three hours weekly; one term.

Travel to the European Common Market for an on-site study. Plan a marketing effort after focusing on the government along with the political, legal and cultural environment. Students must be prepared to pay for a passport, airfare and lodging. Travel fees vary.

BPA 132 - Sales and Sales Training

3 credit hours - Three hours weekly; one term.

A study of the principles and techniques of selling as practiced by retail sales personnel, wholesalers' representatives and by the industrial sales force. Topics include buying psychologies, product knowledge, demonstration techniques, handling customer resistance and closing the sale. **Note:** Typically offered OL; spring term.

BPA 134 - Retail Management

3 credit hours - Three hours weekly; one term.

A practical course in retail store management. Topics include recruiting, selecting, training and orientation of new employees. Other topics are prevention of shoplifting and employee theft, control of stock, running store training meetings, employee evaluation, and building loyalty and trends in the retailing industry. A review of local and regional employment opportunities for graduates is made. **Note:** Typically offered OL; spring term.

BPA 135 - Customer Service

3 credit hours - Three hours weekly; one term.

Examine excellence in customer service as the competitive edge in today's business environment. Design a comprehensive customer service strategy that positions a workplace to deliver exceptional customer service. Develop external communications to handle complaints and other service failures. **Note:** Typically offered OL; fall and spring terms.

BPA 136 - Keyboarding 1

1 credit hour - Three hours weekly; eight weeks.

Designed for those who need basic keyboarding skills including students using computers in any course. Introduces the alpha/numeric keyboard, 10- key pad, command key functions and use of mouse. No previous computer experience necessary.

BPA 137 - Keyboarding 2

2 credit hours - Six hours weekly; eight weeks.

Focus on proper formatting techniques to prepare letters, tables, memos, reports and term papers while continuing to develop keyboarding speed and accuracy. **Prereq:** BPA 136 or permission of department chair.

BPA 138 - Business and Professional Ethics

3 credit hours - Three hours weekly; one term.

Explores the moral landscape of today's business environment. Discusses ethical issues and dilemmas of professionals in business, public administration, accounting and other professions. **Prereq:** Eligibility for ENG 101/ENG 101A.

Note: Typically offered at MC and OL; all terms.

BPA 140 - Introduction to Health Care Administration

3 credit hours - Three hours weekly; one term.

The primary elements relating to the administration of health care in hospitals, clinics, nursing homes and other health-related institutions are explored. While the focus of the course is essentially on the hospital environment, the implications of federal and state legislation for the operations of health delivery also are examined. **Note:** Typically offered OL; spring term.

BPA 141 - Office Procedures and Technology

3 credit hours - Three hours weekly; one term.

Study current office procedures, duties, and responsibilities applicable to an administrative professional in an office environment. Topics include: records management, meeting and travel arrangements, effective communication, organizational structure, and professional image. **Note:** Typically offered OL; fall and spring terms.

BPA 142 - Principles of Management

3 credit hours - Three hours weekly; one term.

A survey of basic managerial functions. Emphasis is on planning, organizing, controlling and staffing activities as applied to general management. **Note:** Typically offered at MC, AM, and OL; all terms.

BPA 145 - Leadership

3 credit hours - Three hours weekly; one term.

A study of leadership as a management style for effectively implementing change. Course includes an overview of management supervision styles, creating a vision for leadership, developing effective leadership structures, analyzing factors influencing leadership and developing the manager's leadership goals. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

BPA 156 - E-Commerce

3 credit hours - Three hours lecture weekly; one term.

Explore introductory concepts related to doing business online. Study topics such as selecting an e-commerce platform, establishing secure electronic payment methods, marketing strategies for online businesses, procurement, supply chain management and ethical, legal and regulatory concerns. **Note:** Typically offered OL; fall term.

BPA 162 - Business Communications

3 credit hours - Three hours weekly; one term.

Learn written and oral communication skills needed in a professional environment. Focus on written reports and proposals, workplace communication, the job search, and oral presentations designed to inform or persuade. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Credit will not be given for BPA 162 and also ESI 162. Typically offered at MC and OL; all terms.

BPA 171 - Principles of Supervision

3 credit hours - Three hours weekly; one term.

Introduction to the first level of management. Topics will include short-range planning, training, motivation, evaluating workers, decision making, discipline, counseling employees and dealing with organized labor. **Note:** Typically offered OL; fall, spring, and summer terms.

BPA 172 - Human Resource Management

3 credit hours - Three hours weekly; one term.

Practical and theoretical considerations concerning the management of personnel. Covers all aspects of staffing including recruiting and interviewing, selection and placement. A human resource manager's role regarding training and development, performance appraisal, labor relations and compensation are among the areas studied. Also includes laws affecting employee rights and management responsibility (Americans with Disabilities Act, Civil Rights Act, Equal Pay Act, Sexual Harassment). **Note:** Typically offered OL; fall, spring, and summer terms.

BPA 173 - Managing and Valuing Workforce Diversity

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Focus on how to change corporate culture and develop an understanding of diversity. Review and develop action plans for valuing diversity, examine case studies and review recent literature from periodicals. **Note:** Typically offered OL; fall and spring terms.

BPA 174 - Women and Business

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Emphasizes critical issues, attitudes and practices which influence the successful integration of women into mid- and senior-level management. Through readings, case studies and special projects, explores the nature of gender related topics and their impact on management and business. Relevant topics include power and authority, legal issues, communication, sexual harassment, and time and stress management. **Note:** Credit will not be given for BPA 174 and also GSS 174. Typically offered OL; fall and spring terms.

BPA 190 - Organizational Behavior

3 credit hours - Three hours lecture weekly; one term.

Examine the impact of different management practices and leadership styles on worker satisfaction and morale, organizational effectiveness, productivity, and profitability. Study topics to include formal and informal organizations, group dynamics, teamwork, motivation, conflict management and change, and diversity issues in the workplace. Analyze different types of interpersonal situations and determine appropriate courses of action. **Note:** Typically offered OL; fall and spring terms.

BPA 200 - Foundations of Accounting

3 credit hours - Three hours lecture weekly; one term.

Learn principles of financial and managerial accounting from a user approach. Develop basic skills in understanding and interpreting financial statements. Apply financial and managerial accounting concepts to managing businesses. **Note:** This course is for non-business majors and will not substitute for BPA 201 or BPA 202. Credit will not be given for BPA 200 and also BPA 201 or BPA 202. Typically offered at MC and OL; fall and spring terms.

BPA 201 - Financial Accounting

3 credit hours - Three hours weekly; one term.

Formerly BPA 211 - Principles of Accounting I. Learn principles of financial accounting for the corporate entity. Study accrual-based accounting and the accounting cycle. Analyze and record financial transactions; prepare financial statements; and learn to account for receivables, inventories, fixed assets, liabilities and shareholders' equity. **Prereq:** Eligibility for ENG 101/ENG 101A and eligibility for any general education math course or permission of department chair. **Note:** Credit is not given for BPA 201 and also BPA 200, BPA 201H, or BPA 211. Typically offered at MC, AM, and OL; all terms.

BPA 201H - Financial Accounting--Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Learn principles of financial accounting for the corporate entity. Study accrual-based accounting and the accounting cycle. Analyze and record financial transactions; prepare financial statements; and learn to account for receivables, inventories, fixed assets, liabilities and shareholders' equity. **Prereq:** Eligibility for Honors courses. Eligibility for ENG 101/ENG 101A and eligibility for any general education math course or permission of department chair. **Note:** Credit is not given for BPA 201H and also BPA 201 or BPA 200 or BPA 211.

BPA 202 - Managerial Accounting

3 credit hours - Three hours weekly; one term.

Explore principles of managerial accounting. Study methods of cost accounting, cost volume profit analysis, capital budgeting, decision-making analysis and budgeting methods. Prepare cash flow statements and perform financial statement analysis. **Prereq:** BPA 201 or permission of department chair. **Note:** Credit will not be given for both BPA 202 and BPA 202H or BPA 202 and BPA 212. Typically offered at MC, AM, and OL; all terms.

BPA 202H - Managerial Accounting--Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Explore principles of managerial accounting. Study methods of cost accounting, cost volume profit analysis, capital budgeting, decision-making analysis and budgeting methods. Prepare cash flow statements and

perform financial statement analysis. **Prereq:** *Eligibility for Honors courses and BPA 201 or permission of department chair.* **Note:** *Credit will not be given for both BPA 202H and BPA 202 or BPA 202H and BPA 212.*

BPA 210 - Advanced Sales and Sales Training

3 credit hours - Three hours weekly; one term.

Learn advanced principles and techniques of selling as practiced by retail sales personnel, wholesaler's representatives and the industrial sales force. Explore topics such as adding value to the sales process, selling upgrades, establishing long-term sales relationships, generating leads and penetrating the competition. **Prereq:** *BPA 132.*

BPA 214 - Professional Bookkeeper Keystone

3 credit hours - Three hours weekly; one term.

Develop a deeper and broader knowledge of basic accounting fundamentals. Study theory and procedures related to the legal forms of business. Learn accounting treatment for error correction, accounting adjustments, payroll, depreciation, inventory, internal controls and fraud prevention. Examine professional responsibilities and ethics. Prepare for the Professional Bookkeeper Certification Exam. **Prereq:** *BPA 201 (formerly BPA 211) or permission of the department chair.* **Note:** *Typically offered at MC; spring term.*

BPA 217 - Small Business Accounting

3 credit hours - Three hours weekly; one term.

Use Quickbooks® software (Windows®-based) for the study of computerized accounting systems with emphasis on the application of accounting theory and practice. Complete projects for both a service and merchandising company, including creating a company, recording transactions for revenue and expenses, entering payroll data, adjusting accounts, reconciling bank accounts and closing the accounting cycle. Use a personal computer for downloading, installing, naming, opening, and saving electronic files. **Prereq:** *Eligibility for ENG 101/ENG 101A or permission of department chair.* **Note:** *The Windows-based version of Quickbooks is required for this course. Therefore, students must have access to the Windows operating system; Mac users may use Boot Camp to run Windows. Credit will not be given for BPA 217 and also ESI 217. Typically offered at MC and OL; fall, spring, and summer terms.*

BPA 227 - Entrepreneurial Opportunity in Expanding Markets: Cannabis Legalization

3 credit hours - Three hours weekly; one term.

Examine the entrepreneurial opportunities that are created as markets change and expand; specifically, the issues involving cannabis, currently legal for medical and/or recreational use in a number of states and the District of Columbia. Explore business through the lens of the emerging cannabis industry as well as the businesses that arise as a result of it. Examine the economic and tax impact, the legal and regulatory environment and financing challenges for medical and recreational based businesses using the newly emerging market as a starting point for inquiry. **Prereq:** *BPA 111.* **Note:** *Typically offered OL; fall and spring terms.*

BPA 235 - Introduction to Transportation and Logistics

3 credit hours - Three hours weekly; one term.

Surveys the organization and operations of the commercial transportation industry and its impact on the bottom-line of today's modern businesses. Course topics include the legal and regulatory environment, costing and pricing, major transportation options, managing transportation partnerships and the use of information and technology in the logistics sector. The course also includes an industry specific "current issues" component, an "employment opportunities" section that explores the industry job market and a look at the technologies and issues that will shape the future of transportation and logistics. **Note:** *Typically offered at GB; fall term.*

BPA 236 - Introduction to Airport and Seaport Operations

3 credit hours - Three hours weekly; one term.

Provides an introduction to the structure, organization and operation of a modern airport and seaport, including current issues and challenges. Includes the critical interface with private sector providers of agency, terminal, stevedoring, tug, and line handling services, and the significant roles of custom- house brokers, freight forwarders and cargo consolidators. Also examines the effects of government regulatory agencies. **Prereq:** *BPA 235 or permission of department chair.* **Note:** *Typically offered at GB; spring term.*

BPA 237 - Supply Chain Management

3 credit hours - Three hours weekly; one term.

Introduces students to the global supply chain with an emphasis on supply sources, distribution, production planning, information systems, customer service, inventory management, warehouse management, supply chain relationships and challenges facing managers today. Students completing the course will understand supply chain management systems and relationships, and will be able to integrate information regarding the flow of materials across the supply chain.

Prereq: *BPA 235 or permission of department chair.* **Note:** *Typically offered at GB; fall term.*

BPA 238 - Domestic and International Freight Operations

3 credit hours - Three hours weekly; one term.

Examines current issues and best practices in the area of domestic and international freight operations. Course topics include transportation providers, regulation and policy, carrier strategies, costing and pricing, information systems, transportation management, and the negotiation and bidding process. **Prereq:** *BPA 235 or permission of department chair.* **Note:** *Typically offered at GB; spring term.*

BPA 239 - Procurement and Materials Management

3 credit hours - Three hours lecture weekly; one term.

Survey the organization and operations of the procurement and warehousing functions in today's modern businesses. Study procurement processes of sourcing, vendor evaluation and selection, negotiation, contract management, and purchasing ethics. Explore warehouse operations involving shipping, receiving, materials handling, inventory control, and warehouse safety.

BPA 240 - Logistics Technologies

3 credit hours - Three hours lecture weekly; one term.

Survey the requirements for technology usage in today's transportation and logistics operations. Identify hardware and software solutions that are used to support information management and decision making processes in transportation, warehousing and logistics. Study hardware solutions, software solutions and the link between these solutions and transportation operations. **Prereq:** BPA 235.

BPA 241 - Intermediate Accounting 1

3 credit hours - Three hours weekly; one term.

Focus on the comprehensive study of accounting principles, theory and practice as they relate to financial statements. Examine income measurement and its effect on the valuation of assets and equity, accounting for current assets, long-term assets, current liabilities and long-term liabilities, and analysis and interpretation of financial statements. **Prereq:** BPA 202. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

BPA 242 - Intermediate Accounting 2

3 credit hours - Three hours weekly; one term.

Focus on the comprehensive study of accounting principles, theory and practice as they relate to financial statements. Analyze the accounting for stockholders' equity, revenue recognition and accounting changes, accounting for taxes, pensions and leases, preparation of cash flow statements, and analysis and interpretation of financial statements. **Prereq:** BPA 202. **Note:** Students are encouraged to take BPA 241 prior to registering for this course. Typically offered at MC and OL; fall and spring terms.

BPA 245 - Advanced Accounting

3 credit hours - Three hours weekly; one term.

Study the theory and application of the equity method of accounting for investments, business consolidations, variable interest entities, foreign currency transactions, advanced partnership accounting and basic governmental accounting.

Prereq: BPA 241 or BPA 242. **Note:** Typically offered OL; fall term.

BPA 246 - Business Operations and Logistics

3 credit hours - Three hours weekly; one term.

Formerly BPA 246/ESI 246 -Entrepreneurship:Small Business Operations and Logistics. Develop skills and knowledge required of small business managers for the practical application of operations and logistics concepts. Analyze the management of the physical flows of products to include transportation management, warehousing, materials handling, inventory management and order fulfillment. **Note:** Students are encouraged to take BPA 111 before enrolling in this course.

BPA 255 - Accounting Information Systems

3 credit hours - Three hours lecture weekly; one term.

Survey accounting information systems (AIS) concepts and explore the following topics: transactional processing concepts and core AIS applications; control frameworks used to secure AIS applications and processes and strategies for implementing or upgrading AIS applications. Satisfy the requirements of the new CPA evolution model and/or gain additional knowledge in the area of the development of appropriate accounting systems. **Prereq:** BPA 241 and either CTA 100 or its equivalent, or permission of the department chair.

BPA 256 - Financial Management

3 credit hours - Three hours weekly; one term.

Study the basic principles of finance, including working capital management, long-term financing, risk analysis, financial statement analysis, capital budgeting and capital structure. **Prereq:** BPA 202.

BPA 261 - Cost Accounting

3 credit hours - Three hours weekly; one term.

Examine basic principles of cost accounting, including accounting for manufacturing expenses, application of costs to operations and products, preparation of statements, analysis of cost information for administrative and control purposes, and specific order and process cost systems. **Prereq:** BPA 202. **Note:** Typically offered OL; fall term.

BPA 262 - Tax Accounting

3 credit hours - Three hours weekly; one term.

Study federal income tax law as it applies to individuals and to many aspects of business. Research and apply the law, not primarily by preparing income tax forms, but by analyzing situations and solving problems. **Prereq:** BPA 202 or permission of department chair. **Note:** Typically offered at MC; fall term.

BPA 263 - Auditing

3 credit hours - Three hours weekly; one term.

Study the principles and practices of auditing, focusing on the duties and responsibilities of auditors in establishing procedures for conducting audits and verification of financial statements. Prepare audit working papers and reports and

examine problems associated with auditing computerized accounting systems. **Prereq:** BPA 241 and BPA 242. **Note:** Typically offered at MC and OL; fall and spring terms.

BPA 264 - Advanced Tax Accounting

3 credit hours - Three hours weekly; one term.

Study federal tax law for property transactions, corporations, partnerships, estates and trusts as it impacts the entity and its owners. Examine concepts, then apply those concepts through the completion of situational problems, not through the preparation of tax forms. **Prereq:** BPA 262. **Note:** Typically offered at MC and OL; spring term.

BPA 275 - Internship in Business 1

3 credit hours - 15 hours work weekly

A course designed to combine practical work experience with academic learning for students majoring in business or entrepreneurial studies. Objectives are set by the supervising employer, the student and the faculty member. **Prereq:** Permission of instructor or department chair. **Note:** Students must have identified or acquired an internship prior to enrolling in the course. Credit will not be given for BPA 275 and also ESI 275. Typically offered OL; fall and spring terms.

BPA 276 - Internship in Business 2

3 credit hours - 15 hours work weekly.

A continuation of BPA 275, the course offers supervised experience in business and industry. **Prereq:** BPA 275. **Note:** Enrollment in Internship courses requires that students hold an appropriate internship placement in order to receive course credit. Please consult with the Coordinator for Internships prior to registering unless otherwise specified by the department chair or director. Typically offered as an independent study; fall and spring terms.

BPA 277 - Business Strategies

3 credit hours - Three hours weekly; one term.

Explore and enhance experiences working in the business environment by connecting practical applications with classroom learning. Focus on personal business skills, business operational understanding and workplace engagement.

Prereq: Eligibility for ENG 101/ENG 101A.

BPA 280-299 - Special Topics in Business and Management

-

An in-depth study of contemporary issues designed to meet the changing needs and interests of students. Courses provide students with an opportunity to explore those topics that affect current business practices and are not fully covered in the other traditional course offerings. A maximum of eight credit hours earned from special topics courses maybe used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-30. **Note:** Completion of BPA 111 or an appropriate level of business experience is highly recommended.

Chemistry

CHE 011 - Introduction to Chemistry

2 equivalent hours - Two hours weekly; one term.

Study the fundamentals of chemistry including atomic theory, chemical bonding, naming compounds, stoichiometry. Use basic chemical terminology and principles appropriately to solve chemistry problems quantitatively and explain chemical phenomenon qualitatively. This course is for students whose ACT math score indicates a need for strengthening mathematical ability or for students who have not successfully completed one year of high school chemistry and need more background in chemistry before registering for CHE 111. **Prereq:** Completion of MAT 034, MAT 036, or MAT 044 with a grade of C or higher, or eligibility for MAT 037, MAT 045, or MAT 135. **Note:** Typically offered at MC and GB fall and spring terms; MC summer term.

CHE 103 - World of Chemistry

3 credit hours - Three hours weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Learn about fundamental concepts of chemistry. Develop an awareness of the interrelation of chemistry and society. Discuss how scientific knowledge is determined, validated, and applied. Use conceptual approach to study topics including atomic structure, chemical reactions, and applications such as nuclear, biological, and environmental chemistry. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** This course does not satisfy curricular requirements for a laboratory science course. Typically offered at MC; fall and spring terms.

CHE 111 - General Chemistry 1

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Study atomic theory and periodic relationships, chemical bonding, gases, liquids and solids, stoichiometry, kinetic-molecular theory, solutions, oxidation-reduction, reactions of molecules and ions and nuclear chemistry. Laboratory work includes basic techniques and principles as well as quantitative measurements by titration, calorimetry and stoichiometry. Lab fee \$35. **Prereq:** MAT 137 or MAT 145 (formerly MAT 141) with a grade of C or better or eligibility for MAT 146 or higher and eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as CHE 111H; credit is not given for both CHE 111 and either of these courses: CHE 111H or CHE 115. **Note:** Typically offered at MC (lecture and lab), AM (lecture and lab), GB (lecture and lab), and OL (lecture only); fall, spring, and summer terms.

CHE 111H - General Chemistry 1 - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an honors course. Study atomic theory and periodic relationships, chemical bonding, gases, liquids and solids, stoichiometry, kinetic-molecular theory, solutions, oxidation-reduction, reactions of molecules and ions and nuclear chemistry. Laboratory work includes basic techniques and principles as well as quantitative measurements by titration, calorimetry and stoichiometry. Lab fee \$35. **Prereq:** *Eligibility for Honors courses and completion of MAT 137 or MAT 145 (formerly MAT 141) with a grade of C or better eligibility for MAT 146 or higher and eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as CHE 111; credit is not given for both CHE 111H and either of these courses: CHE 111 or CHE 115.*

CHE 112 - General Chemistry 2

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Study the fundamental principles and quantitative aspects of chemical equilibrium, acid-base chemistry and acid-base equilibria, solubility equilibria, thermodynamics, electrochemistry, kinetics, basic concepts in nuclear chemistry and an introduction to organic chemistry nomenclature and structure. Laboratory work applies theoretical principles presented in the lecture and includes: data collection and analysis, basic laboratory techniques and use of chemical instrumentation; use of chemical literature and databases, use of a laboratory notebook to record data and results, methods of qualitative analysis, and written communication of results and conclusions in the form of lab reports. Lab fee \$40. **Prereq:** *CHE 111 with a grade of C or better, either MAT 137 or MAT 145 (formerly MAT 141) with a grade of C or better or eligibility for MAT 146 or higher and eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as CHE 112H; credit is not given for both CHE 112 and CHE 112H.* **Note:** *It is recommended that students have completed General Chemistry 1 within 4 years prior to taking General Chemistry 2. Typically offered at MC; fall, spring, and summer terms.*

CHE 112H - General Chemistry 2 - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an honors course. This course meets the Biological and Physical Sciences General Education Requirement. Study the fundamental principles and quantitative aspects of chemical equilibrium, acid-base chemistry and acid-base equilibria, solubility equilibria, thermodynamics, electrochemistry, kinetics, basic concepts in nuclear chemistry and an introduction to organic chemistry nomenclature and structure. Laboratory work applies theoretical principles presented in the lecture and includes: data collection and analysis, basic laboratory techniques and use of chemical instrumentation; use of chemical literature and databases, use of a laboratory notebook to record data and results, methods of qualitative analysis, and written communication of results and conclusions in the form of lab reports. Lab fee \$40. **Prereq:** *Eligibility for honors courses, CHE 111 with a grade of C or better, either MAT 137 or MAT 145 (formerly MAT 141) with a grade of C or better or eligibility for MAT 146 or higher, and eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as CHE 112; credit is not given for both CHE 112H and CHE 112.* **Note:** *It is recommended that students have completed General Chemistry 1 within 4 years prior to taking General Chemistry 2.*

CHE 113 - Fundamentals of Organic and Biochemistry

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Study an introduction to the chemistry of carbon compounds and of living systems. Nomenclature, structure, properties and reactions of the principal organic families are studied, and anthropogenic carbon compounds are discussed in relation to health and the environment. The biochemistry studies the structure, properties, and functions of carbohydrates, proteins, lipids and nucleic acids. Protein synthesis, enzyme regulation and metabolism are included. Intended for students in health-related professions and students interested in applying chemistry to the environment and living systems. Science and engineering students should take CHE 112. Lab fee \$50. **Prereq:** *CHE 111.* **Note:** *Credit is not given for both CHE 113 and CHE 213. CHE 113 is not to be used as a prerequisite for CHE 213 or CHE 214. Typically offered at MC; fall and spring terms.*

CHE 115 - General, Organic and Introduction to Biochemistry

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement.

Survey the principles of general, organic, and biochemistry and how they relate to biological systems. Topics include atomic theory, nuclear chemistry, nomenclature, bonding theory, states of matter, mixtures, acid-base chemistry, stoichiometry, chemical reactions involving organic molecules, and biologically important molecules. Laboratory work includes basic techniques and principles as well as quantitative measurements by titration and stoichiometry. This course is intended for students transferring to a health professions program requiring only one term of chemistry. Students transferring to an allied health program requiring two terms of chemistry should take CHE 111 and CHE 113. Students who are unsure of their transfer goals should take CHE 111. This course is also appropriate for the liberal arts major with a strong interest in chemistry. Lab fee \$40. **Prereq:** *Eligibility for ENG 101/ENG 101A and MAT 137.* **Note:** *Credit will not be given for both CHE 115 and either CHE 111 or CHE 113 or CHE 213. This course is not*

to be used as a prerequisite for CHE 111, CHE 112, CHE 113, CHE 213 or CHE 214. Typically offered at MC; fall and spring terms.

CHE 134 - Chemistry Topics for Engineering

1 credit hour - One hour of lecture weekly; one term.

Study general chemistry topics relating to phase transitions, crystalline solids and semiconductors, chemical equilibrium including weak electrolytes, electrochemistry, kinetics and introductory organic chemistry. **Prereq:** CHE 111 with a grade of C or better and either MAT 137 or MAT 145 with a grade of C or better or eligibility for MAT 151. **Note:** This course is intended for students transferring in certain engineering programs to the University of Maryland College Park. Consult with the engineering department chair before registering. Typically offered OL; fall and spring terms.

CHE 213 - Organic Chemistry 1

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Study the chemistry of hydrocarbons and their simple derivatives, emphasizing their structures, properties and mechanisms of reactions. Use general laboratory techniques and procedures in organic chemistry and learn modern methods of analysis, including gas chromatography. Lab fee \$50. **Prereq:** CHE 112 or CHE 112H. **Crosslisted:** Also offered as CHE 213H; credit is not given for both CHE 113 and CHE 213 or CHE 213 and CHE 213H. **Note:** Typically offered at MC; fall, spring, and summer terms.

CHE 213H - Organic Chemistry 1 - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an honors course. Study the chemistry of hydrocarbons and their simple derivatives, emphasizing their structures, properties and mechanisms of reactions. Use general laboratory techniques and procedures in organic chemistry and learn modern methods of analysis, including gas chromatography. Lab fee \$50. **Prereq:** CHE 112 or CHE 112H and eligibility for Honors courses. **Crosslisted:** Also offered as CHE 213; credit is not given for both CHE 113 and CHE 213H or CHE 213H and CHE 213.

CHE 214 - Organic Chemistry 2

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Study the chemistry of the families of organic compounds, emphasizing preparations, reactions, and mechanisms of reactions. Learn to apply spectroscopy to determine structure, and preview compounds of biological importance. Synthesize representative organic compounds in the laboratory. Use modern methods of analysis, including infrared and nuclear magnetic resonance spectroscopy. Lab fee \$50. **Prereq:** CHE 213 or CHE 213H. **Crosslisted:** Also offered as CHE 214H; credit is not given for both CHE 214 and CHE 214H. **Note:** Typically offered at MC; fall and spring terms.

CHE 214H - Organic Chemistry 2 - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an honors course. Study the chemistry of the families of organic compounds, emphasizing preparations, reactions, and mechanisms of reactions. Learn to apply spectroscopy to determine structure, and preview compounds of biological importance. Synthesize representative organic compounds in the laboratory. Use modern methods of analysis, including infrared and nuclear magnetic resonance spectroscopy. Lab fee \$50. **Prereq:** CHE 213 or CHE 213H and eligibility for Honors courses. **Crosslisted:** Also offered as CHE 214; credit is not given for both CHE 214H and CHE 214.

CHE 253 - Biochemistry

3 credit hours - Three hours lecture weekly, one term.

Study the structures, reactions, and relationships of biochemical systems, focusing on proteins, enzyme kinetics, carbohydrates, lipids, membrane structure, metabolism, nucleic acids, and genetic information. **Prereq:** CHE 214, or CHE 213 with permission of the department chair. **Note:** This course is not intended for transfer. Typically offered at MC; summer term.

CHE 280-299 - Special Topics in Chemistry

-

Independent study for qualified students who wish to enrich their back-grounds in a particular area. Topics are determined by mutual agreement of the student and the instructor. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. **Prereq:** Sophomore standing and permission of department chair.

Communications (Journalism, Speech)

COM 101 - Introduction to Mass Media

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn about the history and theory of mass media in America. Discuss the development, practices and problems of mass media. Learn to understand and critically evaluate media messages. **Prereq:** Eligibility for ENG 101/ENG 101A or permission of the department. **Note:** Typically offered at MC and OL; all terms.

COM 102 - Writing for News Media 1

3 credit hours - Three hours weekly; one term.

Learn about and practice news writing for print and electronic media. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

COM 110 - Introduction to Interpersonal Communication

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Explore the function of verbal and nonverbal communication in the development of interpersonal relationships. Study perception, self-concept, listening, intercultural and intergender communication and conflict management. **Crosslisted:** Also offered as COM 110H; credit not given for both COM 110 and COM 110H. **Note:** Typically offered at MC, AM, and OL; all terms.

COM 110H - Introduction to Interpersonal Communication - Honors

3 credit hours - Three hours lecture weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Explore the function of verbal and nonverbal communication in the development of interpersonal relationships. Study perception, self-concept, listening, intercultural and intergender communication and conflict management. **Prereq:** Eligibility for Honors courses. **Crosslisted:** Also offered as COM 110; credit is not given for both COM 110H and COM 110. **Note:** Complete and present an honors research project. Typically offered at MC, AM, and OL; all terms.

COM 111 - Fundamentals of Oral Communication

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn about public speaking theory, and develop the skills needed to speak effectively in various situations. Learn about clear oral expression, informed critical thinking, research techniques, rhetorical modes and group communication. Write and deliver several speeches. **Note:** Eligibility for ENG 101 or ENG 101A is strongly recommended. Typically offered at MC, AM, GB, and OL; all terms.

COM 112 - Newspaper Editing and Production

3 credit hours - Three hours weekly; one term.

Learn the basic techniques of copy editing and headline writing. **Prereq:** COM 102. **Note:** Typically offered at MC and OL; fall, winter, and summer terms.

COM 116 - Fundamentals of Oral Communication for Non-Native Speakers

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Cover essentially the same material as COM 111 with special emphasis on the oral communication challenges faced by non-native speakers of English. Learn about public speaking theory, and develop the skills needed to speak effectively in various situations. Learn about clear oral expression, informed critical thinking, research techniques, rhetorical modes and group communication. Write and deliver several speeches. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Students may not receive credit for both COM 111 and COM 116. Typically offered at MC and OL; fall and spring terms.

COM 130 - Current Events in Global Context

3 credit hours - Three hours weekly; one term.

Survey local, national, and world news with emphasis on understanding the background, context, and vocabulary of current news events as well as the personalities and relationships that affect those events. Read current news accounts, and through research and interactive assignments, learn how news events are globally interconnected. **Note:** Typically offered at MC; fall and spring terms.

COM 141 - Group Communication and Leadership

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn principles and procedures for effective communication in small groups. Develop leadership skills for use in business, community and other task-oriented work teams. Gain experience with various types of formal and informal group organization methods, member roles and communication formats. Evaluate group processes and outcomes in interpersonal, peer, and virtual groups and teams. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

COM 200 - Intercultural Communication

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social & Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Investigate the challenges of communication with individuals from different cultures. Learn to describe and analyze cultural patterns.

Study strategies for increasing intercultural communication competency. **Crosslisted:** Also offered as COM 200H; credit is not given for both COM 200 and COM 200H. **Note:** Typically offered at MC, AM, and OL; fall, spring, and summer terms.

COM 200H - Intercultural Communication - Honors

3 credits - Three hours weekly; one term

This is an honors course. This course meets the Arts & Humanities General Education Requirement. This course meets the Social & Behavioral Sciences General Education Requirement. Investigate the challenges of communication with individuals from different cultures. Learn to describe and analyze cultural patterns. Study strategies for increasing intercultural communication competency. **Prereq:** Eligibility for Honors courses. **Crosslisted:** Also offered as COM

200; credit is not given for both COM 200H and COM 200. **Note:** Complete and present an honors research project. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

COM 202 - Writing for the News Media 2

3 credit hours - Three hours weekly; one term.

Build on reporting and writing techniques learned in COM 102, with emphasis on developing sources, covering news beats, understanding media law and ethics, and reporting for print and electronic media. Study a range of news gathering techniques, learn to develop story ideas and use public records and practice journalistic writing. **Prereq:** COM 102 or permission of the department chair. **Note:** Typically offered at MC and OL; spring term.

COM 230 - Persuasive Message Strategies

3 credit hours - Three hours weekly; one term.

Learn cutting-edge persuasive communication strategies used in interpersonal communication, including the areas of advertising and political campaigns. Examine current research on persuasion and how the media frames issues. Gain the knowledge and skills to create and evaluate persuasive messages. **Crosslisted:** Also offered as COM 230H; credit is not given for both COM 230 and COM 230H. **Note:** Eligibility for ENG 101 or ENG 101A is strongly recommended. Typically offered at MC and OL; spring term.

COM 230H - Persuasive Message Strategies - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Learn cutting-edge persuasive communication strategies used in interpersonal communication, including the areas of advertising and political campaigns. Examine current research on persuasion and how the media frames issues. Gain the knowledge and skills to create and evaluate persuasive messages. **Prereq:** Eligibility for Honors courses. **Crosslisted:** Also offered as COM 230; credit is not given for both COM 230H and COM 230. **Note:** Eligibility for ENG 101 or ENG 101A is strongly recommended. Typically offered at MC and OL; spring term.

COM 240 - Introduction to Communication Theory

3 credit hours - Three hours lecture weekly; one term.

Examine and analyze basic communication theories in intrapersonal, interpersonal, group, organizational, cultural, gender, and mass communication contexts. Apply theories to professional communication situations in social sciences, government, politics, journalism, entertainment, education, marketing, and health care. **Prereq:** COM 101, COM 110, COM 111, COM 141, COM 200, or COM 230.

COM 275 - Journalism Practicum

1 credit hour - Two and a half hours weekly; one term.

Work on the student newspaper under supervision of the student editor and faculty adviser. One credit is given for two and a half hours per week up to a maximum of three credits per term. Students write and edit for publication and may work on any phase of newspaper production, including writing stories, copy editing, headline writing and layout production. Practicum courses may be combined for a total of six credit hours. **Prereq:** Successful completion of COM 102 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

COM 276 - Journalism Practicum

2 credit hours - Five hours weekly; one term.

Work on the student newspaper under supervision of the student editor and faculty adviser. One credit is given for two and a half hours per week up to a maximum of three credits per term. Students write and edit for publication and may work on any phase of newspaper production, including writing stories, copy editing, headline writing and layout production. Practicum courses may be combined for a total of six credit hours. **Prereq:** Successful completion of COM 102 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

COM 277 - Journalism Practicum

3 credit hours - Seven and a half hours weekly; one term.

Work on the student newspaper under supervision of the student editor and faculty adviser. One credit is given for two and a half hours per week up to a maximum of three credits per term. Students write and edit for publication and may work on any phase of newspaper production, including writing stories, copy editing, headline writing and layout production. Practicum courses may be combined for a total of six credit hours. **Prereq:** Successful completion of COM 102 or permission of department chair. **Note:** Typically offered at MC; all terms.

COM 280-299 - Special Topics in Communications

-

Study current trends or specialized themes or topics in communications. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. **Note:** Eligibility for ENG 101/ENG 101A.

Computer Technologies

CTA 001 - Elementary PC Skills

1 equivalent hour - 25 hours; one term.

Formerly CSI 001 - Elementary PC Skills. Examine and practice elementary hardware and software system operations. Demonstrate using proper techniques for starting and shutting down the computer, adjusting the monitor, handling

compact disk and other storage devices, keyboarding, mouse manipulation, formatting and working with CD-ROMs and DVDs, copying files, opening, saving and storing files on internal and external devices, working with the Windows Operating System, starting applications and using the printer. Students are also exposed to computer technology. Course fee \$13. **Note:** *Introduces students with little or no prior computer experience to the elements of using a PC.*

CTA 100 - Computing and Information Technology

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 112 - Computing and Information Technology. This course meets the Technology Requirement. Learn computing and information technology concepts and skills that are fundamental to social, personal, business, and academic environments. Learn about the Internet, networking, hardware, software, security, privacy, ethics, and emerging technologies. Participate in hands-on labs using Microsoft Office applications, including word processing, spreadsheets, databases, and presentations, and the Windows operating system. Designed for the nonmajor. Lab fee \$25. **Prereq:** *Eligibility for ENG 101 / ENG 101A.* **Crosslisted:** *Also offered as CTA 100H; credit is not given for both CTA 100 and CTA 100H.* **Note:** *Credit is not given for both CTA 100 and CTP 103 or CTP 103H. Typically offered AM,MC,GB, and OL. All terms.*

CTA 100H - Computing and Information Technology - Honors

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 112H - Computing and Information Technology, Honors This is an honors course. This course meets the Technology Requirement. Learn computing and information technology concepts and skills that are fundamental to social, personal, business, and academic environments. Learn about the Internet, networking, hardware, software, security, privacy, ethics, and emerging technologies. Participate in hands-on labs using Microsoft Office applications, including word processing, spreadsheets, databases, and presentations, and the Windows operating system. Designed for the nonmajor. Lab fee \$25. **Prereq:** *Eligibility for honors courses and ENG 101/ENG 101A.* **Crosslisted:** *Also offered as CTA 100; credit is not given for both CTA 100 and CTA 100H.* **Note:** *Credit is not given for both CTA 100H and CTP 103H or CTA 100 and CTA 100H.*

CTA 105 - Theory and Troubleshooting Microcomputers 1

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CTS 103 - Theory and Troubleshooting Microcomputers 1. Examine the function and operation of computer systems and mobile devices. Assemble, maintain, and repair computer systems. Learn how systems are configured, modified, and expanded. Investigate, analyze, and correct common hardware problems. Lab fee \$50. **Note:** *This course addresses the material of the CompTIA A+ exam objectives. It is highly recommended that students who do not have a working knowledge of computers complete CTA 100 before enrolling in CTA 105. Typically offered OL; fall and spring terms.*

CTA 106 - Introduction to Project Management

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 116 - Introduction to Project Management. Study the basics of project management. Explain the concepts behind successful project management and investigate the key elements of the project management framework. This course addresses the core material of the CompTIA Project+ exam objectives. Lab fee \$25. **Prereq:** *CTA 100 or CTP 103 and eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as BPA 106; credit is not given for both CTA 106 and also for BPA 106.*

CTA 108 - Service Management Foundation

- Three hours lecture weekly; one term

Examine the key concepts of Information Technology Service Management (ITSM). Define common vocabulary and metrics used in the industry. Discuss the management of modern IT-enabled services. Describe how well-managed and reliable Information Technology solutions add value to the organization by introducing a well-established service management framework. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered OL; Fall term.*

CTA 110 - Personal Computer Office Suite Applications

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 121 - Personal Computer Office Suite Applications. Learn office suite software using Microsoft Office. Acquire hands-on experience with the Internet and Web, word processing, spreadsheet, database management and presentation graphics, satisfying computing needs in a range of applications. Integrate data among the different software applications in the suite. Lab fee \$25. **Note:** *Users with no prior software applications experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103. Typically offered OL; summer term.*

CTA 111 - Personal Computer Word Processing Applications

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 120 - Personal Computer Word Processing Applications. Use Microsoft Word to create, edit, format, save and print a document. Learn intermediate and advanced features including mail merge, envelopes and labels, sorting, styles, columns, footnotes, outlines, table of contents, indexes, master documents, templates, Web pages, graphics, charts and macros. Use a wide variety of document types and practical examples to provide an understanding of different ways Word can be applied to personal and business needs. This course prepares students to take the Microsoft Office Specialist (MOS) - Word 2016 industry certification exam (extra fee). Lab fee \$25. **Note:** *Users with*

no prior software applications experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103. *Typically offered OL; fall, winter and summer terms.*

CTA 112 - Personal Computer Presentation Graphics Applications

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 125 - Personal Computer Presentation Graphics Applications. Use Microsoft PowerPoint to learn the basic skills needed to create, edit, format, save and print professional-looking electronic slide presentations. Learn intermediate and advanced features including using outline view, inserting clip art, creating a presentation as a Web page, using embedded visuals, creating slide transitions, animation effects, interactive documents, charts and tables, importing sound clips, creating self-running presentations, distributing presentations to remote audiences and using Visual Basic for Applications to customize a presentation. Use a wide variety of projects to provide an understanding of different ways PowerPoint can be utilized. This course will prepare students to take the Microsoft Office Specialist (MOS) - PowerPoint 2016 industry certification exam (extra fee). Lab fee \$25. **Note:** Users with no prior software applications experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103. *Typically offered OL; fall and spring.*

CTA 113 - Personal Computer Information Management Applications

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 126 - Personal Computer Information Management Applications. Use Microsoft Outlook to learn how to manage communications by using email, fax, address book features, public folders and remote work options. Describe the use of groupware application software. Learn how to schedule people, appointments, tasks and events and to create contact lists. Learn how to conduct and participate in online meetings. This course prepares the student to take the Microsoft Office Specialist (MOS) - Outlook 2016 industry certification exam (extra fee). Lab fee \$25. **Note:** Users with no prior software applications experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103. *Typically offered OL, spring term.*

CTA 114 - Fundamentals of Microsoft Excel

1 credit hour - One to five hours weekly; one term.

Learn the fundamentals of using Excel to create, manipulate, and analyze data. Use mathematical, statistical, logical, and financial formulas and functions on data sets. Sort, filter, and create visual representations of data sets. Acquire hands-on skills with Microsoft Excel. Lab fee \$25. **Note:** Users with no prior software applications experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103.

CTA 115 - Personal Computer Database Management Systems

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 122 - Personal Computer Database Management Systems. Use Microsoft Access database management application software used on personal computers to study and manipulate data. Learn database design and implementation of object files such as file creation and setup, query processing, report generation and program creation. Use multiple files, indexing and database search, and record retrieval to solve practical problems through hands-on lab. This course prepares students to take the Microsoft Office Specialist (MOS) Access 2016 industry certification exam (extra fee). Lab fee \$25. **Note:** Users with no prior software applications experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103. *Typically offered MC and OL; fall and spring terms.*

CTA 116 - Personal Computer Spreadsheet Applications

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 124 - Personal Computer Spreadsheet Applications. Use Microsoft Excel to study the basics of spreadsheet setup, data manipulation and program functions. Learn more advanced features including functions, charts, lists (databases), macros, World Wide Web functions, integration with other applications, validation, 3D references, data tables, scenario manager, solver, importing external data and auditing features. Use a wide variety of practical examples to foster an understanding of different ways Excel can be applied to personal and business needs. This course prepares students to take the Microsoft Office Specialist (MOS) - Excel 2016 industry certification exam (extra fee). Lab fee \$25. **Note:** Users with no prior software applications experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103. *Typically offered MC and OL; fall, spring and summer terms.*

CTA 120 - Help Desk Concepts

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 129 - Help Desk Concepts. Examine general help desk concepts, types, job categories and responsibilities. Discuss processes, tools, technologies to develop skills in systems management and customer service. Prepare for training and certification in Help Desk profession essentials. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** *Typically Offered OL; fall and spring terms.*

CTA 205 - Theory and Troubleshooting Microcomputers 2

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CTS 203 - Theory and Troubleshooting Microcomputers 2. Examine and configure operating systems including Windows, Linux, Android, and iOS operating systems. Install and maintain Windows operating systems. Implement security features on computer systems and mobile devices. Investigate, analyze, and correct common software problems. Explain common operational procedures within the IT industry. Lab fee \$50. **Note:** *This course*

addresses the core material of the CompTIA A+ exam objectives. It is highly recommended students who do not have a working knowledge of computers complete CTA 105 before enrolling in CTA 205. Typically offered OL; full term.

CTA 208 - Advanced Service Management

3 credit hours - Three hours lecture weekly; one term

Examine the advanced features of Information Technology Service Management (ITSM) activities and the creation of IT services. Integrate different value streams and activities to create, deliver, and support IT-enabled products and services by covering the practices, methods, and tools that support them. **Prereq:** CTA 108 with a grade of C or better.

CTA 215 - Management Information Systems

3 credit hours - Three hours lecture weekly; one term

Examine Management Information Systems and the importance of Information Systems in achieving organizational goals. Discuss business, technical, and enterprise components of Management Information Systems (MIS). Compare and classify strategic business decision-making, business strategy, the role of IT in organizational change and business transformation. Analyze ethics, culture, and globalization in the modern business landscape. **Prereq:** CTA 100 or CTP 103 or CTP 115 with a grade of C or better; and eligibility for ENG 101/ENG 101A or approval of Computer Information Systems academic chair.

CTA 275 - Internship Experience in Computer Technologies 1

3 credit hours -

Formerly CSI 275 - Internship Experience in Computer Technologies 1. Earn college credit for an internship that provides the opportunity to apply to an actual work experience the concepts and skills learned across multiple courses in a computer technology program. Students learn how the many different aspects of their program operate in concert. Learn the technical and human factors that are critical in computer technology work environments. **Prereq:** (1) Successful completion of 12 credit hours of CTA courses; (2) minimum grade point average of 2.5; and (3) permission of CTA department chair prior to enrollment.

CTA 276 - Internship Experience in Computer Technologies 2

3 credit hours -

Formerly CSI 276 - Internship Experience in Computer Technologies 2. Earn college credit for a second computer technology internship that provides the opportunity to apply to an actual work experience the concepts and skills learned across multiple courses in a computer technology program. **Prereq:** (1) Successful completion of CTA 275; (2) minimum grade point average of 2.5; and (3) permission of CTA department chair prior to enrollment.

CTA 280-299 - Special Topics in Computer Technologies

-

Formerly CSI 280-299 - Special Topics in Computer Technologies. Current or specialized topics in computer technologies. Topics include new programming languages, software development environments, new personal computer application packages and special areas of computer usage such as telecommunications and local area networks. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$5-100. **Prereq:** Will vary depending on course offering.

CTP 103 - Theories and Applications of Digital Technology

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CTA 103 - Theories and Applications of Digital Technology. This course meets the Technology Requirement. Demonstrate knowledge of a wide variety of computer technologies including data communications, computer networks, database systems, computer hardware and software, the Internet and Web technologies, operating systems, software development, and information systems. Discuss security, ethics, environmental, and social issues related to digital and emerging technologies. Use hands-on lab experiences to validate knowledge of hardware and software systems. Lab fee \$25. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as CTP 103H; credit is not given for both CTP 103 and any of the following courses: CTP 103H, CTA 100, or CTA 100H. **Note:** This is the first course in computing for students planning to major in a technology field and an excellent choice for students interested in science, engineering and mathematics. Typically offered at MC, GB, OF, and OL; all terms.

CTP 103H - Theories and Applications of Digital Technology - Honors

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CTA 103H - Theories and Applications of Digital Technology - Honors --- This is an honors course. This course meets the Technology Requirement. Demonstrate knowledge of a wide variety of computer technologies including data communications, computer networks, database systems, computer hardware and software, the Internet and Web technologies, operating systems, software development, and information systems. Discuss security, ethics, environmental, and social issues related to digital and emerging technologies. Use hands-on lab experiences to validate knowledge of hardware and software systems. Lab fee \$25. **Prereq:** Eligibility for Honors Courses and ENG 101/ENG 101A. **Crosslisted:** Also offered as CTP 103; credit is not given for both CTP 103H and any of the following courses: CTP 103, CTA 100, or CTA 100H. **Note:** This is the first course in computing for students planning to major in a technology field and an excellent choice for students interested in science, engineering and mathematics.

CTP 110 - Internet Fundamentals

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 127 - *Internet Fundamentals*. Learn concepts, tools, and resources available on the Internet through lectures, classroom demonstrations and supervised lab experiences. Identify characteristics of the Internet, Web browser configuration and operations, Web-based application software, and current and emerging tools for searching and acquiring information from the Internet. Learn website design and construction in HTML. Lab fee \$25. **Note:** It is highly recommended that students who do not have a working knowledge of computers complete CTP 103 before enrolling in CTP 110.

CTP 111 - HTML/CSS Programming

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 118 - *HTML/CSS Programming*. Learn Hypertext Markup Language (HTML) to create Web documents. Describe the manner in which multimedia hypertext documents are made available using the Web on the Internet. Learn to format text, use multimedia, develop lists, create hyperlinks, construct tables and forms on a Web document and describe XML basics. Lab fee \$25. **Note:** The student must be familiar with personal computers before beginning the class; no lecture time is spent introducing personal computer terminology and use.

CTP 112 - Mobile Web Development

3 credit hours - Three hours of lecture and directed laboratory weekly; one term.

Formerly CSI 119 - *Mobile Web Development*. Learn how to develop Web content for the mobile Web environment. Build websites that function on a variety of devices including smartphones, tablets and other mobile devices. Learn standards, best practices and development techniques for building Web pages delivered to mobile devices. Lab fee \$25.

Prereq: CTP 111 or permission of the CTP department chair.

CTP 114 - Python for Everyone

2 credit hours - Two hours of lecture and directed laboratory weekly; one term.

Learn Python variables and expressions and built-in Python functions. Design and implement functions. Learn decision and repetition control structures in Python. Work with Python data structures such as strings, lists, tuples and sets. Learn to read and write to external files. This course is intended for students who have not declared Computer Science as a major. Lab fee \$25. **Prereq:** Eligibility for any credit MAT and eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC; fall term.

CTP 115 - Introductory Object-Oriented Program Analysis and Design

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 117 - *Introductory Object-Oriented Program Analysis and Design*. This course meets the Technology Requirement. Learn analysis and design problem-solving techniques to prepare for programming in any language. Learn about object-oriented design, development and related security techniques. Analyze specifications, use design tools such as pseudocode and Unified Modeling language (UML) diagrams to develop classes and objects, consider examples of common program designs, and implement object-oriented designs in a high-level language. Lab fee \$25.

Prereq: Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as CTP 115H. Credit is not given for both CTP 115 and CTP 115H. **Note:** It is highly recommended that students who do not have a working knowledge of computers complete CTP 103 before enrolling in CTP 115. Students with UML and Object Oriented Programming experience should contact the computer science department chair before selecting this course. Typically offered at MC, GB, and OL; all terms.

CTP 115H - Introductory Object-Oriented Program Analysis and Design-Honors

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

This is an honors course. This course meets the Technology Requirement. Learn analysis and design problem-solving techniques to prepare for programming in any language. Learn about object-oriented design, development and related security techniques. Analyze specifications, use design tools such as pseudocode and Unified Modeling language (UML) diagrams to develop classes and objects, consider examples of common program designs, and implement object-oriented designs in a high-level language. Lab fee \$25. **Prereq:** Eligibility for ENG 101/ENG 101A and eligibility for Honors courses. **Crosslisted:** Also offered as CTP 115. Credit is not given for both CTP 115 and CTP 115H. **Note:** It is highly recommended that students who do not have a working knowledge of computers complete CTP 103 before enrolling in CTP 115H. Students with UML and Object Oriented Programming experience should contact the Computer Science department chair before selecting this course.

CTP 118 - Web Development using HTML/CSS

4 credit hours - Four hours of lecture weekly; one term

Learn how to develop Web content for a variety of environments using Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS). Learn to format text, develop lists, create hyperlinks, construct tables, and forms on a Web document. Describe styling for the mobile Web, use of multimedia, and interactivity. Learn introductory JavaScript concepts. Lab fee \$25. **Note:** The student must be familiar with personal computers before beginning the class; no lecture time is spent introducing personal computer terminology and use. CTP 103 can be taken to fulfill this requirement. Credit is not given for both CTP 118 and CTP 111 or CTP 118 and CTP 112. Typically offered OL; fall, spring, and summer terms.

CTP 120 - Introduction to WWW Publishing

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 128 - *Introduction to WWW Publishing*. Learn how to create WWW documents using Graphical User

Interface soft-ware and how multimedia hypertext documents are made available using the World Wide Web (WWW) on the Internet. Create and manage WWW sites such as those used by an individual or small business. Lab fee \$40. **Note:** *Students must be familiar with personal computers before beginning the class because no lecture time is spent introducing personal computer terminology and use. Students with no prior Internet experience are encouraged to take CTP 110 Internet Fundamentals before taking this course.*

CTP 130 - Programming in PHP/MySQL

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 138 - Programming in PHP/MySQL. Use fundamental design principles and problem-solving techniques introduced in CTP 115 to develop Web applications using PHP server-side scripting language and the MySQL relational database management system. Participate in hands-on activities to learn topics that include Web application concepts and environments, PHP language structure, relational database concepts, and techniques to develop Web applications that include database management systems and user interaction. Lab fee \$35. **Prereq:** *CTP 115 and CTP 118 or permission of CTP department chair.* **Note:** *Typically offered OL; fall and spring terms.*

CTP 135 - Programming in JavaScript and jQuery

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Learn JavaScript and jQuery languages through lecture and hands-on directed lab activities. Develop programming skills to create interactive Web pages. Learn to manipulate the browser environment, add special effects, validate form data, and manage state information. Learn to access server-side data using AJAX. Lab fee \$25. **Prereq:** *CTP 115 and CTP 118 or permission of CTP academic chair.* **Note:** *Typically offered OL; fall, spring, and summer terms.*

CTP 136 - jQuery

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Develop interactive Web pages using jQuery. Use the core jQuery library and jQuery User Interface (UI) library to improve usability and presentation. Add interactivity to websites without complex JavaScript coding. Explore other JavaScript libraries, frameworks, and plugins. Lab fee \$25. **Prereq:** *CTP 135 or permission of CTP department chair.* **Note:** *Students seeking to complete CTP 136 after Spring 2022 should select a substitution with the assistance of the CTP department. Typically offered OL; fall, spring and summer terms.*

CTP 140 - Database Foundations, SQL/NoSql

3 credit hours - Three hours of lecture and directed laboratory weekly; one term.

Learn database fundamentals while working with both relational (SQL) and non-relational (NoSQL) architectures. Learn to create, update, delete, and retrieve data from a traditional relational database using SQL as well as non-relational databases using NoSQL. Lab fee \$25. **Note:** *The student must be familiar with personal computers before beginning the class; no lecture time is spent introducing personal computer terminology and use. CTP 103 can be taken to introduce general computer skills.*

CTP 145 - Relational Databases and SQL

4 credit hours - Four hours of lecture / directed laboratory weekly; one term.

Formerly CSI 172 - Relational Databases and SQL. Learn the fundamental concepts of database systems including design, implementation, and security using Oracle. Learn to create a database, build various database objects, and manipulate data using the structured query language (SQL). Use this universal database programming language to write simple and complex queries to retrieve, insert, update, delete, and filter information in the database. This course is the first in the series of Oracle database administration courses and addresses the core material of both the SQL Fundamentals and the SQL Expert certification exams needed to become an Oracle Certified Associate. Lab fee \$35. **Prereq:** *CTP 103 or permission of the CTP department chair.* **Note:** *Typically offered OL; fall, spring and summer terms.*

CTP 147 - PL-SQL Programming

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 182 - PL-SQL Programming. Learn the principles of database programming using PL/SQL language to access and manipulate data in a database. Learn stored procedures, functions, packages and database triggers. Learn key skills required for declaring variables and trapping exceptions. This course is the second in the series of Oracle database administration courses. Lab fee \$35. **Prereq:** *CTP 145 with a grade of C or better or permission of the CTP department chair.* **Note:** *Typically offered OL; fall term.*

CTP 150 - Computer Science 1

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 163 - Computer Science 1. Use fundamental design principles and problem-solving techniques introduced in CTP 115 to develop computer algorithms. Implement algorithms as programs coded in Java, an object-oriented programming language. Learn the data types, control structures, classes, arrays, and I/O in the Java programming language. Learn recursion, inheritance, polymorphism, and exceptions. Emphasize style, documentation, solution robustness, and conformance with specifications throughout course work. Lab fee \$25. **Prereq:** *CTP 115 or CTP 115H or permission of computer science academic chair.* **Crosslisted:** *Also offered as CTP 150H. Credit is not given for both CTP 150 and CTP 150H. Note: CTP 115 prerequisite is waived for students that complete AP Computer Science. Credit is not given for both CTP 150 and CSI 161 or CSI 162. Typically offered MC and OL; fall, spring, and summer terms.*

CTP 150H - Computer Science 1-Honors

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

This is an honors course. Use fundamental design principles and problem-solving techniques introduced in CTP 115 to develop computer algorithms. Implement algorithms as programs coded in Java, an object-oriented programming language. Learn the data types, control structures, classes, arrays, and I/O in the Java programming language. Learn graphical user interfaces, inheritance, polymorphism, recursion, and exceptions. Emphasize style, documentation, solution robustness, and conformance with specifications throughout course work. Lab fee \$25. **Prereq. or Coreq.:** CTP 115 or CTP 115H and eligibility for Honors courses or permission of computer science department chair.

Crosslisted: Also offered as CTP 150. Credit is not given for both CTP 150 and CTP 150H. **Note:** CTP 115 prerequisite is waived for students who complete AP Computer Science. Credit is not given for both CTP 150 and CSI 161 or CSI 162.

CTP 160 - Python

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Develop computer programs in the Python programming language using fundamental design principles and problem-solving techniques. Learn data types, control structures, classes, multithreading, client/server programming, data structures to organize and manipulate data, and I/O in the Python programming language. Learn to apply Python to computer security topics. Emphasize style, documentation, solution robustness, and conformance with specifications throughout course work. Lab fee \$25. **Prereq:** CTP 115 or CTP 115H or permission of computer science department chair. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

CTP 194 - Ethics and the Information Age

3 credit hours - Three hours weekly; one term.

Formerly CTA 194 - Ethics and the Information Age. This course meets the Arts & Humanities General Education Requirement. Analyze ethics and moral philosophy as a means for providing a framework for ethically grounded decision making in the information age. Lab fee \$25. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as CTP 194H, PHL 194H, PHL 194; credit is not given for both CTP 194 and any of the following courses: CTP 194H, PHL 194H, PHL 194. **Note:** Typically offered at MC and OL; all terms.

CTP 194H - Ethics and the Information Age - Honors

3 credit hours - Three hours weekly; one term.

Formerly CTA 194H - Ethics and the Information Age - Honors This is an honors course. This course meets the Arts & Humanities General Education Requirement. Analyze ethics and moral philosophy as a means for providing a framework for ethically grounded decision making in the information age. Lab fee \$25. **Prereq:** Eligibility for honors courses and ENG 101/ENG 101A. **Crosslisted:** Also offered as CTP 194, PHL 194H, PHL 194; credit is not given for both CTP 194 and any of the following courses: CTP 194, PHL 194H, PHL 194.

CTP 200 - Systems Analysis and Design

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CTS 200 - Systems Analysis and Design. Learn systems development life cycle (SDLC) presented from a business process view. Analyze and design basic database systems by incorporating problem-solving techniques used in developing business computer information systems. Learn Enterprise Systems (ES), integrated business application packages used for controlling and tracking business operations with one centralized Relational Database Management system (RDMS). Use hands-on lab experience to incorporate knowledge of the project management software package. Lab fee \$25. **Prereq:** CTA 100, CTP 103, or CTP 115. **Note:** Typically offered OL; fall and spring terms.

CTP 210 - Statistical Programming Using R

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Install and configure the statistical programming environment. Read data into R, access R packages, write and use R functions, and organize and comment R code. Apply statistical computing in the R programming language. Lab fee \$25. **Prereq:** CTP 160 and either MAT 135, MAT 223, MAT 235, or ECO 232; or permission of Computer Science Academic Chair.

CTP 214 - Data Visualization and Data Wrangling

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term

Explore data wrangling from widely used data formats and sources (like web pages, tweets, PDF files) and shape it to enable data-driven decisions. Learn to assess the quality of data and explore best practices for data cleaning. Lab fee \$25. **Prereq:** CTP 210.

CTP 215 - Access Visual Basic Applications (VBA) Programming

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 222 - Access Visual Basic Applications (VBA) Programming. Design, develop, implement and maintain customized database applications in a microcomputer environment. Create menu interfaces using multiple tables, query the database, and generate customized reports. Develop event-driven program code using programming elements such as variables, conditions, loops, conversions, formatting, data structures, procedures, SQL, macros, object-oriented programming, ADO (ActiveX Data Objects) and error handling. Lab fee \$25. **Prereq:** CTP 115 and CTA 115 or permission of the CTP department chair.

CTP 220 - Content Management Systems

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn to plan and design websites using popular content management systems (CMS) such as WordPress, Drupal, or

Joomla. Use development skills in PHP to add functionality to web sites. Lab fee \$25. **Prereq:** CTP 135 and CTP 130, or permission of Computer Science department chair. **Note:** Typically offered OL; fall and spring terms.

CTP 227 - Web Server Administration

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 227 - Web Server Administration. Install, configure, populate, monitor and troubleshoot both IIS and Apache servers. Covers the fundamentals of Web server administration including: standard configurations, traffic log analysis, techniques for virtual hosting, performance analysis, password protection of select Web pages, and how to work with hosting services (ISPs). Course includes an overview of how the Web works in the context of the Internet, covering important protocols, host and service addressing and naming services (DNS). Lab fee \$40.

CTP 230 - Android Programming

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term

Formerly CSI 230 - Android Programming. Learn to develop applications for the Google Android platform. Use object-oriented programming techniques to design and create mobile applications for Android devices. Utilize the Android development environment and work with the Android user interface, data persistence, content providers, messaging, networking and services. Lab fee \$35. **Prereq:** CSI 161, CTP 150, or permission of the CTP department chair. **Note:** Typically offered OL; spring term.

CTP 232 - iPad/iPhone iOS Programming 1

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 232 - iPad/iPhone iOS Programming 1. Learn the fundamental technologies to develop applications for iOS devices such as the iPhone and the iPad through directed lab activities. Learn the fundamental activities involved in using the XCode development environment, Interface Builder and Cocoa Touch to analyze, develop, test and deploy working applications for the iOS environment. Lab fee \$35. **Prereq:** CTP 150 or CSI 161 or permission of the CTP department chair. **Note:** Typically offered OL; spring term.

CTP 233 - iPad/iPhone iOS Programming 2

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 233 - iPad/iPhone iOS Programming 2. Learn advanced technologies used in developing applications for iOS devices such as the iPhone and the iPad through lecture and lab activities. Learn the techniques involved in using many advanced features such as Core Data, SQLite, Web Services, and Push Notifications to analyze, develop, test, and deploy advanced working applications for the iOS environment. Lab fee \$35. **Prereq:** CTP 232 or permission of the CTP department chair.

CTP 235 - Advanced World Wide Web Server-Side Development

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 248 - Advanced World Wide Web Server-Side Development. Learn the fundamental technologies for development of applications on the World Wide Web through directed lab activities. Learn to analyze, design, develop, test and field a working solution for an Internet-based application using Java Servlets, Java Server Pages, MySQL, HTML, Java and JavaScript. Explore advanced security topics in the PHP scripting language. Lab fee \$25. **Prereq:** CTP 130 and CTP 135 and any one of the following: CSI 161, CTP 150 or permission of the CTP department chair.

CTP 236 - Advanced JavaScript

3 credit hours - Three hours of lecture and directed laboratory weekly; one term.

Learn advanced JavaScript skills through lecture and hands-on lab activities. Use a JavaScript framework such as React to create dynamic web pages that interact with a web server. Lab fee \$25. **Prereq:** CTP 135. **Note:** Typically offered OL; fall and spring terms.

CTP 237 - Server-Side Development

3 credit hours - Three hours of lecture and directed laboratory weekly; one term.

Learn the fundamentals of back-end application development to create server-side web applications and services. Build server-side Application Program Interfaces (API) which respond to requests, authenticate users, and interact with data in a database. Lab fee \$25. **Prereq:** CTP 236. **Note:** Typically offered OL; fall term.

CTP 245 - Database Administration 1

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 224 - Database Administration 1. Learn how to install and maintain an Oracle database. This course includes the architecture of a Database Management System using Oracle as the example. Investigate issues related to database security, user management, performance monitoring, and data concurrency with structured hands-on exercises. This course is the third in the series of the Oracle administration courses. This course addresses the core material of the Oracle Certified Associate exam objective. Lab fee \$40. **Prereq:** CTP 145 with a grade of C or better or permission of the CTP department chair. **Note:** Typically offered OL; fall and spring terms.

CTP 247 - Database Administration 2

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 225 - Database Administration 2. Focus on advanced topics in database administration. Learn data recovery techniques, performance monitoring, resource management, and database security through structured hands-on exercises. This course is the fourth in the series of Oracle database administration courses. This course addresses the core material of the Oracle Certified Associate exam objectives. Lab fee \$40. **Prereq:** CTP 245 with a grade of C or better or permission of the CTP department chair. **Note:** Typically offered OL; spring term.

CTP 250 - Computer Science 2

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 250 - Data Structures in C++. Learn advanced algorithms and programming concepts, and the role of abstract data types in software development, including stacks, queues, linked lists, recursion, trees and file manipulation. Discuss and implement secure programming concepts and skills throughout the course. Lab fee \$25.

Prereq: *A grade of C or better is required in CTP 150 or CSI 162. Note: Students are expected to know object-oriented programming concepts before taking this course. Typically offered at MC and OL; fall, spring, and summer terms.*

CTP 251 - Object-Oriented Programming in C++

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term. Develop computer programs in the C++ programming language using object-oriented design principles and problem-solving techniques. Learn the data types, control structures, classes, arrays, file I/O, and generic programming constructs in the C++ programming language. Emphasize style, documentation, solution robustness, and conformance with specifications throughout course work. Lab fee \$25. **Prereq:** *CTP 150 or permission of computer science department chair. Note: Typically offered OL; spring term.*

CTP 255 - Computer Organization

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 255 - Computer Organization. Learn the fundamentals of computer organization and architecture. Learn about basic hardware and software structure, computer arithmetic, assembly language, digital logic, parallelism, input and output processes, memory organization and RISC vs. CISC architectures. Lab fee \$40. **Prereq:** *CSI 161 or CTP 150 or permission of CTP department chair.*

CTP 260 - Python for Data Science

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Learn scientific computing and data analysis techniques to analyze and visualize data using Python libraries. Apply common descriptive statistics including finding the mean, median, mode and standard deviation to data sets. Plot and graph data sets using Python libraries. Emphasize style, documentation, solution robustness, and conformance with specifications throughout coursework. Lab fee \$25. **Prereq:** *CTP 160 and MAT 135; or permission of academic chair.*

CTP 275 - Internship Experience in Computer Technologies 1

3 credit hours -

Formerly CSI 275 - Internship Experience in Computer Technologies 1. Earn college credit for an internship that provides the opportunity to apply to an actual work experience the concepts and skills learned across multiple courses in a computer technology program. Students learn how the many different aspects of their program operate in concert. Learn the technical and human factors that are critical in computer technology work environments. **Prereq:** *(1) Successful completion of 12 credit hours of CTP courses; (2) minimum grade point average of 2.5; and (3) permission of CTP department chair prior to enrollment. Note: Typically offered as Independent Study; summer term.*

CTP 276 - Internship Experience in Computer Technologies 2

3 credit hours -

Formerly CSI 276 - Internship Experience in Computer Technologies 2. Earn college credit for a second computer technology internship that provides the opportunity to apply to an actual work experience the concepts and skills learned across multiple courses in a computer technology program. **Prereq:** *(1) Successful completion of CTA 275; (2) minimum grade point average of 2.5; and (3) permission of CTP department chair prior to enrollment.*

CTP 280-299 - Special Topics in Computer Technologies

-

Formerly CSI 280-299 - Special Topics in Computer Technologies. Current or specialized topics in computer technologies. Topics include new programming languages, software development environments, new personal computer application packages and special areas of computer usage such as telecommunications and local area networks. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$5-100.

CTS 105 - Microcomputer Operating Systems

3 credit hours - Three hours of lecture and directed laboratory weekly; one term.

Formerly CSI 130 Microcomputer Operating Systems. Investigate the purposes, features and characteristics of microcomputer operating systems. Utilize current microcomputer operating systems to manage computer resources, performance, and security. Apply virtualization tools to run multiple operating systems on a single computer. Lab fee \$35. **Note:** It is highly recommended students who do not have a working knowledge of computers complete CTP 103 before enrolling in CTS 105. *Typically offered OL; fall and summer terms.*

CTS 107 - Cyber Essentials

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

This course meets the Technology Requirement. Develop an understanding of computer technology within the context of the cyber domain in our connected world. Learn about the basic structure of hardware, software, and network systems, the threats these systems face, and how to defend them. Use hands-on lab experiences to develop the

foundational skills needed to maintain and protect computer systems. Lab fee \$25. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *This is the first course in computing for students majoring in cybersecurity, networking, and digital forensics or who would like to expand their knowledge of information assurance and cybersecurity. Typically offered at AM, MC, and OL; all terms.*

CTS 110 - Network Essentials

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 132 Network Essentials. Learn the fundamental building blocks that form a modern network including protocols, topologies, hardware and network operating systems. Develop the networking knowledge and skills related to TCP/IP, Ethernet, and wireless transmission and security. Learn to maintain and troubleshoot existing local area networks. Lab fee \$40. **Prereq:** *CTS 107.* **Note:** *This course addresses the core material of the CompTIA Network+ exam objectives. Students who complete both CTP 103 and CTS 105 prior to Fall 2019 already meet the prerequisite to register for CTS 110 and thus are not required to complete CTS 107. Typically offered at AM, MC, and OL; fall, spring, and summer terms.*

CTS 115 - Operating Systems

4 credit hours - Four hours of lecture weekly; one term.

Formerly CSI 133 - Operating Systems. Examine the concepts and theories of modern operating system software. Cover systems' features, capabilities and limitations. Learn how the systems function and differ from one another. View popular operating systems currently used in industry. Lab fee \$35. **Prereq:** *CTP 103 and one programming language.*

CTS 120 - Introduction to Linux

4 credit hours - Four hours of lecture /directed laboratory weekly; one term.

Formerly CSI 135 - Introduction to UNIX/LINUX. Learn the basic elements of the Linux operating system including the hierarchical file structure. Create and edit files, write shell programs and provide system security. Hands-on experience with a multi-user Linux system is provided and emphasized. Lab fee \$25. **Note:** *It is highly recommended that students who do not have a working knowledge of computers complete CTS 107 or CTA 105 or CTP 103 before enrolling in CTS 120. Typically offered at MC and OL; fall, spring, and summer terms.*

CTS 130 - Networking 1

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 157 - Networking 1. Describe the devices and services used to support communications in data networks and the Internet. Describe the role of protocol layers in data networks. Design, calculate, and apply subnet masks and addresses in IPv4 and IPv6 networks. Explain Ethernet concepts such as media, services, and operations. Build simple Ethernet networks using routers and switches. Use Cisco command-line (CLI) commands to perform basic router and switch configurations. Utilize network utilities to verify small networks and analyze data traffic. Lab fee \$100. **Prereq:** *CTS 110.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

CTS 131 - Networking 2

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 158 - Networking 2. Explore switching concepts such as VLAN and trunking technologies. Configure and troubleshoot a small switched network. Explain how vulnerabilities can be mitigated to enhance network security. Learn the purpose and operation of routing concepts. Explain the benefits and operations of DHCP. Discuss network concepts such as WLANs, LAN redundancy and link aggregation. Lab fee \$100. **Prereq:** *CTS 130 with a grade of "C" or better or permission of department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

CTS 140 - Network Security Fundamentals

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 165 - Network Security Fundamentals. Learn the current risks and threats to an organization's data together with ways to safeguard critical electronic assets, including network services, devices, traffic and data. Develop a foundation to prepare for further study in other specialized security fields. This course addresses the core material of the CompTIA Security+ exam objectives. Lab fee \$40. **Prereq:** *CTS 110.* **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

CTS 170 - Digital Forensics 1

3 credit hours - Three hours of lecture and directed laboratory weekly; one term.

Formerly CSI 207 - Cyber Forensics 1. Explore a professional approach to computer and cybercrime investigations. Learn to identify potential electronic evidence, create strategies to locate and recover evidence, and perform forensic analysis. Discuss legal and ethical considerations of computer crime investigations. Lab fee \$60. **Prereq. or Coreq.:** *CTS 107; or CTS 105 prior to Fall 2019.* **Crosslisted:** *Also offered as CJS 170; credit is not given for both CTS 170 and CJS 170.* **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

CTS 207 - Digital Forensics 2

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 208 - Cyber Forensics 2. Practice digital forensics response and examination techniques. Recover and analyze digital evidence using industry standard commercial and open source tools. Evaluate operating systems and file systems to locate and analyze evidence using various Windows, Linux and Mac command line and GUI tools. Use investigation results to develop comprehensive forensic reports. Course fee \$100. **Prereq:** *CTS 170 or CJS 170.*

Crosslisted: *Also offered as CJS 207; credit is not given for CTS 207 and CJS 207.* **Note:** *Typically offered OL; fall and spring terms.*

CTS 209 - Digital Forensics 3

4 credit hours - Four hours of lecture and laboratory weekly; one term.

Formerly CSI 209 - Cyber Forensics 3. Explore advanced analysis concepts in digital forensics investigations. Perform forensic analysis of digital evidence retrieved from both current and legacy systems using industry standard commercial and open source tools. Learn how computer forensics analysts focus on collecting and analyzing data from computer systems to track user-based activity that can be internal investigations or civil/criminal litigation. Focus on an in-depth understanding of Windows operating system artifacts. Lab fee \$100. **Prereq:** CTS 207 or CJS 207. **Note:** Typically offered OL; fall and spring terms.

CTS 210 - Information Systems Security

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 214 - Information Systems Security. Gain an understanding of physical security, hardware, software, and communications security. Recognize and handle viruses. Discuss technical, legal and ethical issues associated with information systems security. **Prereq:** CTS 110 or CTS 130 or permission of CTS department chair.

CTS 215 - Server Administration

4 credit hours - Three hours of lecture and two hours of lab weekly; one term.

Install and configure Windows and Unix server. Create and manage users and groups. Manage protocol support, disk administration, shells, web servers, and network security features. Implement boot-up and shutdown process, and file system structures. Obtain a basic understanding of server virtualization. This course covers both Windows and Linux/Unix server platforms. Master the tools and concepts that would be utilized by a junior-level network administrator. Lab fee \$50. **Prereq:** CTS 105, CTS 110, and CTS 120.

CTS 216 - Network Forensics

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Explore analysis concepts in network forensic investigations. Monitor, capture, and analyze network activity using industry standard tools and methods. Preserve volatile and dynamic information transmitted across computer networks. Investigate network packets, logs, and memory for the purpose of linking the information to a source of potential network attack. Lab fee \$40. **Prereq. or Coreq.:** CTS 140. **Note:** Typically offered OL; fall and spring terms.

CTS 220 - UNIX/LINUX Shell Programming

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 235 - UNIX/LINUX Shell Programming. Gain a detailed introduction to programming with shell scripting language in a UNIX/LINUX environment, including Bourne shell, C-shell, and Korn shell programming. Use UNIX/LINUX tools such as grep, awk, sed, and sort. Examine environments such as perl, bash, and tsh. Lab fee \$35.

Prereq: CTS 120 or permission of CTS department chair.

CTS 222 - UNIX/LINUX System Administration

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 236 - UNIX/LINUX System Administration. Learn loading, configuring and maintaining UNIX operating systems. Focus on popular UNIX operating systems such as Redhat LINUX and SUN's SOLARIS UNIX operating system. Learn theory and hands-on implementation of the boot-up and shutdown process, file system creation and structure, system maintenance and security, network file system (NFS), network information system (NIS) and UNIX IP network configuration and maintenance. Presents tools and concepts to become a junior-level UNIX system administrator. Lab fee \$35. **Prereq:** CTS 120. **Note:** Typically offered OL; fall and spring term.

CTS 223 - Advanced UNIX/LINUX System Administration

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 237 - Advanced UNIX/LINUX System Administration. Continue studies of UNIX/LINUX system administration. Demonstrate the ability to manage printer administration, mail server configuration and maintenance, back-up and storage strategies, domain name service (DNS) implementation, kernel configurations, and UNIX/LINUX Internet server design and setup. Learn advanced topics in network file server (NFS), network information service (NIS), UNIX/LINUX Internet protocol (IPv6), user and system security and in depth troubleshooting techniques. Cover automating administration tasks and adding functionality using the boot process with writing shell scripts. Lab fee \$35.

Prereq: CTS 222.

CTS 225 - Wireless LANs

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 269 - Wireless LANs. Apply the principles of wireless data communications, protocols and standards as related to Wireless Local Area Networking (WLAN) through integrated lab demonstrations and exercises. Learn about the characteristics and uses of wireless network devices, RF transmission, propagation and WLAN frequency bands. Compare and contrast standard "wired" network device and WLAN implementations. Build, configure, secure and troubleshoot basic and extended WANS. Qualify to administer and support different brands of wireless LAN hardware. This course prepares students to sit for Certified Wireless Network Administrator (CWNA) certification. Lab fee \$50.

Prereq: CTS 110 or CTS 130.

CTS 230 - Networking 3

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Explore WAN access technologies that can be used to satisfy business requirements. Learn how to monitor network traffic and mitigate network security threats. Perform implementation of technologies to control network traffic and

secure administrative access. Identify technology trends such as virtualization, SDN and automation. Lab fee \$100.

Prereq: CTS 131 with a grade of "C" or better or permission of the CTS department chair. **Note:** Typically offered OL; fall and spring terms.

CTS 231 - Networking 4

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 258 - Networking 4. Identify the WAN technologies and network services required by converged applications in a complex network. Demonstrate how to configure PPPoE, GRE, and single-homed eBGP. Determine how to control network traffic using extended IPv4 and IPv6 ACLs. Demonstrate the skills needed to mitigate security threats and monitor network traffic using SNMP, Cisco SPAN and IP SLA. Identify technologies such as QoS and trends in networking including Cloud, virtualization, and SDN. Lab fee \$100. **Prereq:** CTS 230 with a grade of "C" or better or permission of the CTS department chair.

CTS 232 - CISCO Certified Network Associate (CCNA) Preparation

1 credit hour - 15 hour lecture per term.

Formerly CSI 259 - CISCO Certified Network Associate (CCNA) Preparation. Learn the theory and laboratory skills necessary to pass the CCNA exam. Prepare for simulator questions and strengthen test-taking skills. Review routing and switching fundamentals, TCP/IP and OSI models, routing protocols, STP, access lists, network security, WAN technologies and troubleshooting. Lab fee \$25. **Prereq:** CTS 231 or permission of CTS department chair.

CTS 233 - Network Programming

4 credit hours - Four hours lecture and directed laboratory weekly; one term.

Develop basic Python programming and Linux skills to automate network operations. Learn best practices of modern software development and DevOps. Learn how to securely use APIs for network programming and automation.

Prereq: CTS 130 and either CTP 114 or CTP 115. **Note:** Students are recommended to take CTS 131 or CTS 230 before CTS 233. Typically offered OL; fall and spring terms.

CTS 234 - Windows Server

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Learn the skills needed to install and configure Windows Server. Develop an in-depth knowledge of Windows Server features and services, including Active Directory, Identity Services, User and Computer accounts, Group Policy, and Certificate Services. Manage security, system backup, and network services such as DNS and DHCP. Lab fee \$40.

Prereq: CTS 110. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

CTS 235 - Windows Server Networking

3 credit hours - Three hours of lecture weekly; one term.

Formerly CSI 266 - Windows Server Networking. Install, configure, manage, monitor and troubleshoot Windows networking including the use of networking protocols and networking services such as DHCP, DNS, WINS, RRAS, IP Routing, IPSec, Internet Connection Sharing, NAT, and certificate services. Complete relevant hands-on labs to reinforce concepts and skills. Lab fee \$40. **Prereq:** CTS 234 or permission of CTS department chair.

CTS 236 - Virtualization & Cloud

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Learn the fundamental principles of virtualization technologies and cloud computing. Build, configure, and implement virtual desktop infrastructures and virtual networks. Identify the technology, architecture, and uses of cloud computing platforms including the application of virtualization in cloud environments. Lab fee \$40. **Prereq. or Coreq.:** CTS 234.

Note: Typically offered OL; fall, summer, and summer terms.

CTS 240 - Advanced Network Defense

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 217 - Advanced Network Defense. Learn advanced security technologies and practices to defend network systems. Explore topics such as the essential security practices of hardening Windows and Unix/Linux servers, Internet applications and wireless systems, and defending network systems through the use of firewalls and Intrusion Detection Systems. Lab fee \$50. **Prereq:** CTS 140. **Note:** Basic knowledge of Unix/Linux, Windows and virtual machines is recommended. Typically offered at MC and OL; fall and spring terms.

CTS 241 - IP Telephony - Foundation

3 credit hours - Three hours weekly; one term.

Formerly CSI 261 - IP Telephony – Foundation. Gain an in-depth understanding of IP telephony and its impact on business. Examine both data and telephony technologies. Discuss the components, configuration and design considerations of IP telephony. Participate in hands-on labs to obtain technical skills related to IP telephony. Lab fee \$100. **Prereq:** CTS 231 or permission of CTS department chair. **Note:** This course is intended for students with a data technology background as well as those currently working in the telephone or computer industries.

CTS 242 - Network Intrusion Detection and Penetration Testing

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CSI 219 - Network Intrusion Detection and Penetration Testing. Learn the threats that are challenging the priorities and processes used to protect our computer and network systems. Examine the tools and techniques used for traffic and intrusion analysis including hacker tools, methods, scripts and automated hacking malware employed in today's cyber environment. Investigate the processes and procedures used by hackers, along with corresponding countermeasures that can be employed to protect against such attacks. Lab fee \$50. **Prereq:** CTS 140. **Note:** A working

knowledge of Linux is highly recommended prior to taking this course. *Typically offered at MC and OL; fall and spring terms.*

CTS 260 - IP Telephony - Quality of Service (QoS)

3 credit hours - Three hours weekly; one term.

Formerly CSI 264 - IP Telephony - Quality of Service (QoS). Understand and deploy QoS technologies. Discuss the basic concepts and performance issues driving the need for QoS in the network and apply QoS in the network. Implement the various QoS mechanisms and technologies to address common performance issues. Lab fee \$100.

Prereq: CTS 241 or permission of CTS department chair. **Note:** This course is intended for students with a data technology background as well as those currently working in the telephone or computer industries.

CTS 265 - CCNP ROUTE: Implementing IP Routing

4 credit hours - Three hours of lecture and two hours of laboratory weekly one term.

Formerly CSI 272 - CCNP ROUTE: Implementing IP Routing. Acquire skills to implement, monitor, and maintain routing services in an enterprise network. Learn how to plan, configure, and verify the implementation of complex enterprise LAN and WAN routing solutions, using a range of routing protocols in IPv4 and IPv6 environments.

Configure secure routing solutions to support branch offices and mobile workers. Demonstrate the use of hands-on simulation learning to reinforce configuration skills. Lab fee \$100. **Prereq:** CTS 231 or Proof of CCNA Certification or permission of CTS department chair.

CTS 266 - CCNP SWITCH: Implementing IP Switching

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 273 - CCNP SWITCH: Implementing IP Switching. Acquire skills to implement, monitor and maintain switching in converged enterprise campus networks. Learn how to plan, configure, and verify the implementation of complex enterprise switching solutions. Implement and configure the secure integration of VLANs, WLANs, voice, and video into campus networks. Utilize hands-on simulation learning to complete comprehensive labs to reinforce configuration skills. Lab fee \$100. **Prereq:** CTS 265 or permission of CTS department chair.

CTS 267 - CCNP TSHOOT: Maintaining and Troubleshooting IP Networks

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Formerly CSI 274 - CCNP TSHOOT: Maintaining and Troubleshooting IP Networks. Acquire skills to monitor and maintain complex, enterprise routed and switched IP networks. Learn skills that include the planning and execution of regular network maintenance, as well as support and troubleshooting using technology-based processes and best practices, based on systematic and industry-recognized approaches. Demonstrate using hands-on simulation learning to complete comprehensive labs to reinforce configuration skills. Lab fee \$100. **Prereq:** CTS 266 or permission of CTS department chair.

CTS 270 - Information Security Management

3 credits - Three hours lecture and directed laboratory weekly; one term.

Formerly CSI 270 - Information Security Capstone. Learn the 10 domains of information systems security relevant to the CISSP professional certification. Undertake an in-depth review of all aspects of security as they relate to the following domains: Security Management Practices, Access Control Systems and Methodology, Security Architecture and Models, Physical Security, Telecommunications, Network and Internet Security, Cryptography, Business Continuity Planning, Law, Investigation and Ethics, and Applications and Systems Development Operations Security. Lab fee \$25. **Prereq:** CTS 140.

CTS 275 - Internship Experience in Computer Technologies 1

3 credit hours -

Formerly CSI 275 - Internship Experience in Computer Technologies 1. Earn college credit for an internship that provides the opportunity to apply to an actual work experience the concepts and skills learned across multiple courses in a computer technology program. Students learn how the many different aspects of their program operate in concert. Learn the technical and human factors that are critical in computer technology work environments. **Prereq:** (1) Successful completion of 12 credit hours of CTS courses; (2) minimum grade point average of 2.5; and (3) permission of CTS department chair prior to enrollment.

CTS 276 - Internship Experience in Computer Technologies 2

3 credit hours -

Formerly CSI 276 - Internship Experience in Computer Technologies 2. Earn college credit for a second computer technology internship that provides the opportunity to apply to an actual work experience the concepts and skills learned across multiple courses in a computer technology program. **Prereq:** (1) Successful completion of CTA 275; (2) minimum grade point average of 2.5; and (3) permission of CTS department chair prior to enrollment.

CTS 280-299 - Special Topics in Computer Technologies

-

Formerly CSI 280-299 - Special Topics in Computer Technologies. Current or specialized topics in computer technologies. Topics include new programming languages, software development environments, new personal computer application packages and special areas of computer usage such as telecommunications and local area networks. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer

institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$5-100. **Prereq:** Will vary depending on course offering.

Criminal Justice and Law Enforcement

CJS 109 - Police Discipline and Organization

1 credit hour - 15 hours; one week.

Learn policies and standards regarding academic and conduct performance, comprehensive testing, and training requirements of the Anne Arundel Community College Police Entrance Level Training Program. Develop basic military-style discipline and protocol required in a police organization. Examine military close order drill, rank structure, chain of command, military courtesy and police disciplinary procedures. **Note:** Typically offered at MC; spring and summer terms.

CJS 111 - Introduction to Criminal Justice

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Identify and analyze the interconnectedness between the components of the criminal justice system in the U.S.--to include law enforcement, the courts and correctional operations. Outline the process of justice in the American criminal justice system and how it interfaces with and impacts various populations of people, including people of different socio-economic classes, cultures, genders, and races. Survey and complete a comparative study on the history, development, and philosophy of the criminal justice system. Identify and explain the functions of various local, state, and federal agencies involved in the administration of criminal justice, including the court and trial process. **Note:** Typically offered at MC, AM, GB, and OL; all terms.

CJS 112 - Police Operations

3 credit hours - Three hours weekly; one term.

Study of line activities of uniformed police with emphasis on patrol. Areas of study include traffic enforcement, investigation, juvenile crime, vice prevention and other operations. **Prereq:** CJS 111 or permission of institute director.

Note: Typically offered at MC and OL; all terms.

CJS 113 - Penology

3 credit hours - Three hours weekly; one term.

Studies the history and philosophy of corrections in federal, state and community systems along with probation, parole and other methods of rehabilitating offenders. **Note:** Typically offered at MC, GB, and OL; fall and spring terms.

CJS 114 - Probation and Parole

3 credit hours - Three hours weekly; one term.

Study of the origins of probation and parole with emphasis on contemporary approaches to corrections. Topics include pre-sentence investigation, functions and activities of probation officers, evaluation of programs, supervision of offenders and limitations as well as the future of correctional institutions.

CJS 121 - Police Administration

3 credit hours - Three hours weekly; one term.

Studies the principles of management and organization applied to law enforcement agencies. Includes concepts of personnel problems and implications of new technology related to administration and supervision of police departments. **Prereq:** CJS 112 or permission of institute director. **Note:** Typically offered at MC and OL; fall and spring terms.

CJS 127 - Police Tactics 1

5 credit hours - 75 hours of lecture and 12 hours of laboratory; winter academy term.

RESTRICTED. Open only to Police Academy Option students. Covers topics mandated by the Maryland Police Training Commission for pre-employment certification. Topics include use of force, use of baton, arrest tactics and handling domestic violence. Attendance in uniform is mandatory and satisfactory performance levels must be achieved for police certification. Lab fee \$20. **Prereq:** CJS 112, LGS 215/CJS 215, LGS 216/CJS 216, CJS 222, EMT 104 or HEA 150 and approval from the Police Academy Director. **Coreq(s):** CJS 109, CJS 128, CJS 219. **Note:** Typically offered at MC; fall term.

CJS 128 - Police Tactics 2

5 credit hours - 75 hours of lecture and 12 hours of laboratory; winter academy term.

RESTRICTED. Open only to Police Academy Option students. Covers topics mandated by the Maryland Police Training Commission for pre-employment certification as a sworn law enforcement officer. Topics include arrest, search, securing suspects and traffic stops. Emphasizes officer safety and survival. Attendance in uniform is mandatory and satisfactory performance levels must be achieved for police certification. Lab fee \$20. **Prereq:** CJS 112, LGS 215/CJS 215, LGS 216/CJS 216, CJS 222, EMT 104 or HEA 150, and approval from the Police Academy Director. **Coreq(s):** CJS 109, CJS 127, CJS 219. **Note:** Typically offered at MC; spring term.

CJS 130 - Law Enforcement and the Community

3 credit hours - Three hours weekly; one term.

Studies current efforts of police to achieve an effective working relationship with the community. Topics include police image, crisis areas, public and police attitudes and community relations.

CJS 131 - Fundamentals of Private Investigation

3 credit hours - Three hours weekly; one term.

Study of the functions and responsibilities of private detectives and their relationship to private industry. Includes domestic and insurance investigation, undercover and surveillance activities and other private police activities. Legal aspects include both state and federal law along with limitations established by the Federal Privacy Act. Lab fee \$15.

CJS 132 - Juvenile Delinquency

3 credit hours - Three hours weekly; one term.

Analyze how society labels, processes, controls and treats juvenile offenders. Review theories of causality; methods of classification; rates, types and trends of juvenile delinquency; and evolving legal approaches. Discuss special areas including violence, drug use and gang behavior. **Prereq:** SOC 111 or PSY 111 and eligibility for ENG 101 or ENG 101A. **Crosslisted:** Also offered as SOC 132; credit will be not given for both CJS 132 and SOC 132.

CJS 135 - Organized Crime

3 credit hours - Three hours weekly; one term.

Provides a historical examination and analysis of organized crime worldwide. Explores the history of organized crime in the United States. Explores the socioeconomic and political aspects of organized crime. Examines organized crime as a social subculture. Examines the legislative, judicial and law enforcement response to organized crime. Includes an examination of organized crime's role in unions and labor movements, organized crime and the media, organized crime commissions and organized crime internal and external policies. **Note:** Credit will not be given for CJS 135 and also LGS 135. Typically offered OL; spring term.

CJS 136 - History of Homicide

3 credit hours - Three hours weekly; one term.

Provides a historical examination and analysis of homicide. Explores the differences between homicide and murder and analyzes the different degrees of murder. Examines theories on the motives for homicide, murder, mass murder and serial murders. Studies the historical application of the law to homicide and murder cases. Explores how well the criminal justice system works with homicide and other capital crimes. Examines the detection, investigation and prosecution of murder cases, including the analysis of forensic evidence in homicide cases to determine cause of death. **Note:** Credit will not be given for CJS 136 and also LGS 136. Typically offered at MC and OL; fall, spring, and summer terms.

CJS 137 - Clinical Forensics

3 credit hours - Three hours weekly; one term.

Introduces students and professionals to the principles and practices of clinical forensics. Examines the history of violence, the causes and consequences of violence. Discusses methods utilized to identify victims of violent behavior and patterns of injuries consistent with intentional injurious acts. Provides a multidisciplinary approach to the management of those persons who have been injured due to violence. Examines forensic science techniques associated with child abuse, partner abuse, elder abuse and sexual violence. Explores clinical forensic concerns and methods used during crime scene investigations. Includes violence prevention techniques. **Note:** Typically offered at MC and OL; fall and spring terms.

CJS 170 - Digital Forensics 1

3 credit hours - Three hours of lecture and directed laboratory weekly; one term.

Formerly CJS 207 - Cyber Forensics I. Explore a professional approach to computer and cybercrime investigations. Learn to identify potential electronic evidence, create strategies to locate and recover evidence, and perform forensic analysis. Discuss legal and ethical considerations of computer crime investigations. Lab fee \$60. **Prereq. or Coreq.:** CTS 107; or CTS 105 prior to Fall 2019. **Crosslisted:** Also offered as CTS 170; credit is not given for CJS 170 and CTS 170.

CJS 200 - Multicultural Law Enforcement

3 credit hours - Three hours weekly; one term.

Explore practical and theoretical perspectives in the field of multicultural law enforcement. Address the understanding of culture, race and ethnicity in the law enforcement field as it pertains to multicultural communities. Focus on immigration and unauthorized migrants in the United States; recruitment and retention of women and minorities; the multifaceted dimensions of diversity and its impact on law enforcement; issues related to multiracial census groups; native American tribal police; information on the mentally and physically challenged; and, multicultural issues related to terrorism, homeland security and disaster preparedness.

CJS 203 - Principles of Campus Security

3 credit hours - Three hours lecture weekly; one term.

Explore the assorted methods of providing school and campus security. Study methods including but not limited to forming campus safety groups, conducting security assessments, assessing environmental factors that influence the implementation and sustenance of campus security initiatives, and the use of electronic safety systems. Study methods designed to identify, suppress and eradicate disruptive activity from a campus environment. Explore methods that encourage collaborative approaches to maintain a safe and productive learning environment. **Prereq. or Coreq.:** CJS 111 or HLS 111

CJS 206 - Cybercrime

3 credit hours - Three hours weekly; one term.

Focus on technology-based crimes. Explore cyber offenses including information warfare, cyber terrorism, information

theft, data corruption and disruption of service. Discuss computing devices as instruments furthering exploitation of children, organized crime and other criminal acts. Identify vulnerabilities within national and private infrastructures, assess risks and structure security measures. **Note:** Typically offered at MC and OL; all terms.

CJS 207 - Digital Forensics 2

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Formerly CJS 208 - Cyber Forensics 2. Practice digital forensics response and examination techniques. Recover and analyze digital evidence using industry standard commercial and open sources tools. Evaluate operating systems and file systems to locate and analyze evidence using various Windows, Linux and Mac command line and GUI tools. Use investigation results to develop comprehensive forensic reports. Lab fee \$100. **Prereq:** CJS 170 or CTS 170.

Crosslisted: Also offered as CTS 207; credit is not given for CJS 207 and CTS 207.

CJS 214 - Physical Conditioning for Law Enforcement and Firefighter/Rescue Service Personnel

1 credit hour - Two hours weekly; one term.

Enables prospective law enforcement officers and firefighter/rescue service personnel to develop physical fitness for their fields. Intensive fitness regimes prepare for the rigorous physical demands of these occupations. Emphasize muscular strength and endurance training, cardiovascular endurance conditioning and flexibility exercises. Work on individual weight training programs as well as participate in group conditioning activities. **Crosslisted:** Also offered as PHE 214; credit is not given for both CJS 214 and PHE 214.

CJS 218 - Criminal Justice Communications

3 credit hours - Three hours weekly; one term.

RESTRICTED. Open only to Police Academy Option students. Covers topics mandated by the Maryland Police Training Commission for pre-employment certification as a sworn law enforcement officer. Topics include note taking and police reports and how these reports are used within the criminal justice system and communication with the public and the court system. **Prereq:** CJS 109, CJS 112, CJS 127, CJS 128, LGS 215 /CJS 215, LGS 216 /CJS 216, CJS 219, CJS 222, EMT 104 or HEA 150 and approval from the Police Academy Director. **Coreq(s):** CJS 220, CJS 225, CJS 226, PHE 214. **Note:** Typically offered at MC; spring term.

CJS 219 - Advanced Patrol Operations

3 credit hours - 45 hours of lecture; winter academy term.

RESTRICTED. Open only to Police Academy Option students. Covers topics mandated by the Maryland Police Training Commission for pre-employment certification as a sworn law enforcement officer. Topics include traffic stops, effective use of patrol vehicle, documentation of traffic offenses and responding to crimes in progress. **Prereq:** CJS 112, LGS 215/CJS 215, LGS 216/CJS 216, CJS 222, EMT 104 or HEA 150 and approval from the Police Academy Director. **Coreq(s):** CJS 109, CJS 127, CJS 128. **Note:** Typically offered at MC; winter term.

CJS 220 - Emergency Vehicle Operations Course (EVOC)

2 credit hours -

RESTRICTED. Open only to Police Academy Option students. Covers classroom, simulator and actual driving practice mandated by the Maryland Police Training Commission for pre-employment certification as a sworn law enforcement officer. It is a capstone course of our Police Academy area of study and features classroom lecture, electronic simulator use and hands-on driver training. Students undergo an extensive defensive driving and emergency vehicle operation course. Included are driver attitude, defensive awareness and presence of mind, driver skills, physical forces that act on a vehicle, and safety of operator and the public in emergency response, pursuit driving and traffic enforcement stops. Lab includes operation of a police vehicle on a skill pad, skid pad, urban grid and a highway response course. **Prereq:** CJS 109, CJS 112, CJS 127, CJS 128, LGS 215 /CJS 215, LGS 216/CJS 216, CJS 219, CJS 222, EMT 104 or HEA 150 and approval from the Police Academy Director. **Coreq(s):** CJS 218, CJS 225, CJS 226, PHE 214. **Note:** Class is restricted to AACC Police Academy students and will meet at a Driver Training Facility (DTF) of the Maryland Police and Corrections Training Commission (MPCTC) at Sykesville, Maryland. Typically offered OF; fall and spring terms.

CJS 222 - Investigation and Criminalistics

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Studies fundamentals of criminal investigation, including collection of evidence, interrogation, basic investigative techniques and processing of physical evidence. Laboratory phase of the course consists of practical work with a variety of criminalistics materials. Lab fee \$20. **Prereq:** CJS 111 or permission of institute director. **Note:** Typically offered at MC and OL; fall and spring terms.

CJS 224 - Criminology

3 credit hours - Three hours weekly; one term.

Study the cultural and historical influence of crime. Explore topics relating to the definition and meaning of crime and criminality; problems of official data; theoretic approach to causes of crime; and social and legal aspects of the criminal justice system with emphasis on roles of police, lawyers, judges, public and victims. Examine evolving theories and approaches to punishment, ranging from probation to capital punishment. **Prereq:** SOC 111 or PSY 111 and eligibility for ENG 101 or ENG 101A. **Crosslisted:** Also offered as SOC 224; credit will not be given for both CJS 224 and SOC 224.

CJS 225 - Criminal Justice Ethics

3 credit hours - Three hours weekly; one term.

Provides a historical analysis of the moral and ethical issues encountered in policing, corrections, probation, parole,

prosecution and criminal defense. Examines the consequences of ethical transgressions in the various areas of criminal justice practice. Topics include history of the criminal justice system, regulation of criminal justice professionals, professional discipline, police brutality, police misconduct, police-community relations, correctional misconduct and violations of policy and law. Explores the process for investigation of acts of misconduct and unethical behavior in the criminal justice field. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

CJS 226 - Traffic and Public Safety

3 credit hours - Three hours weekly; one term.

Covers topics mandated by the Maryland Police Training Commission for certification as a sworn law enforcement officer. Topics include Maryland Motor Vehicle Law, enforcement of DWI regulations, traffic violations and accident investigation and reporting. **Prereq:** CJS 112. **Note:** Typically offered at MC; fall term.

CJS 228 - Practices in Social Work and Counseling with Inmate Populations

3 credit hours - Three hours weekly; one term.

Examine the most effective approaches used in prisons to assist offenders with social, behavioral and psychological development. Begin with a historical explanation of philosophies and practices in correctional rehabilitation. Concludes by examining the effects of imprisonment on offenders and their families, including the impact on the quality of life and the potential for favorable transition back into the community. Study and engage in counseling techniques and social work practices for group, individual and family therapy for institutional compliance and aftercare programs.

Note: Credit will not be given for CJS 228 and also HUS 228. Typically offered OL; fall term.

CJS 229 - Women, Crime and Prison

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Explores the historical development of women's roles in America and their influences on social deviance and crime committed by women. Provides a comparative analysis of male and female offenders that includes demographics, criminal inclinations, causes of crime, law enforcement intervention, and conviction and sentencing patterns. Features a special review on girls, delinquency and the distinctive way the juvenile justice system handles the youthful female offender. Study the sociology of prisons, management, treatment and community reintegration unique to female offenders. **Note:** Credit will not be given for CJS 229 and also GSS 229.

CJS 230 - Presidential Assassinations

3 credit hours - Three hours weekly; one term.

Survey the presidential assassinations and assassination attempts and their effect on history. Topics include Lincoln, Garfield, McKinley and Kennedy assassinations including the controversies surrounding them.

CJS 231 - Juvenile Justice

3 credit hours - Three hours weekly; one term.

This course thoroughly examines, compares and contrasts the juvenile and criminal justice systems regarding the management of youths. Students trace the historical development and original intent of the juvenile justice systems; laws and punishment policies specifically for juvenile offenders; traditional and contemporary sanctions; management systems for incarcerated juveniles separate and along side of adult criminals; long and short-term impacts of incarceration on youths; intermediate and community sentences; and finally, the controversies surrounding juvenile executions in America. **Prereq:** CJS 111 and CJS 113 or SOC 224. **Note:** Typically offered OL; fall term.

CJS 232 - Juvenile Law

3 credit hours - Three hours weekly; one term.

Study historical and current social and legal policies governing the rights, protection and punitive measures of child offenders, family and other guardianship, and management in the criminal and juvenile justice systems. The integration of law, service delivery and criminal justice management is emphasized. **Note:** Typically offered OL; spring term.

CJS 233 - Forensic Psychology and Victimology

3 credit hours - Three hours weekly; one term.

A study of crime victims and the extent of their participation in the crime against them. Analyzes the responses to victimization from law enforcement, the courts and correctional systems. Explores the social, political, individual effects of crime; examines the long and short-term psychological and physical trauma as a result of violence. **Prereq:** CJS 111. **Note:** Typically offered at MC and OL; fall and spring terms.

CJS 234 - Hostage Negotiations

3 credit hours - Three hours weekly; one term.

Explore law enforcement techniques used in hostage negotiations to secure the safety of hostages, seize hostage takers, and minimize injured victims and casualties. Learn and apply effective peace building strategies to preempt violence and criminal activity found in international conflict zones, and those perpetuated by national and international extremists such as terrorists and gangs. Also study concepts in criminal and psychological profiling in order to effectively negotiate with hostage takers. **Coreq(s):** CJS 111 or HLS 111. **Note:** Credit will not be given for CJS 234 and also HLS 234.

CJS 236 - Immigration and Customs Enforcement

3 credit hours - Three hours weekly; one term.

Explore the goals and operational components of immigration and customs enforcement-surveying the identification, apprehension and removal of illegal aliens from the United States; including detention facilities and detention management. Also explore human rights violations, terrorism, and human smuggling; narcotics, weapons and other

types of smuggling; and financial crimes, cybercrime, and export enforcement issues. Examine how to obtain and analyze the intelligence needed to investigate crimes and enforce laws associated with illegal immigration. **Coreq(s):** *CJS 111 or HLS 111. Note: Credit will not be given for CJS 236 and also HLS 236.*

CJS 250 - Introduction to Forensic Science

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

Introduces the principles and practices of forensic sciences. Reviews the history of forensic science, outlining the integrative aspects of this discipline and those of the biological and natural sciences. Includes an examination of the medical and legal uses of the forensic sciences and their specific application in the resolution of criminal investigations. Also examines the significance and limitations of DNA evidence in medical and legal matters. Lab fee \$25. **Prereq:** *CJS 111 or permission of institute director. Note: Typically offered at MC; fall and spring terms.*

CJS 255 - History of Gangs

3 credit hours - Three hours weekly; one term.

Explore the historical formulation of gangs in the United States and those existing abroad. Students analyze the structure and organization of gang activity; the socio-psychological factors that influence people to join gangs; and various law enforcement practices to identify, prevent, and intervene in criminal activity through gang membership. Students study various law enforcement and correctional methods that effectively suppress gang activity and security threat groups, including witness protection, and therapeutic intervention for membership extraction. **Coreq(s):** *CJS 111 or HLS 111. Note: Credit will not be given for CJS 255 and also HLS 255.*

CJS 260 - Terrorism/Counterterrorism

3 credit hours - Three hours weekly; one term.

Provides a historical analysis of terrorism. Introduces the historical and contemporary issues relevant to domestic and international terrorism. Examines methods utilized by law enforcement and intelligence agencies in preventing and detecting terrorism. Also explores the process utilized for collecting and documenting evidence for the capture and effective prosecution of terrorists. Topics include the role of the media in covering, investigating and reporting terrorist events, and the constitutional and sociological dilemmas involved in investigating terrorist acts in democracies, such as the threats to privacy and individual rights. **Note:** *Credit will not be given for CJS 260 and also HLS 260, PSY 260 or SOC 260. Typically offered at MC and OL; fall, spring, and summer terms.*

CJS 270 - War in the American Experience: Unconventional Warfare

3 credit hours - Three hours weekly; one term.

Studies the history and influence of American use of unconventional warfare from pre-colonial times to the present. Discusses elite units (Rangers, SEALs, etc.) and their effects on public opinion. **Note:** *Credit will not be given for CJS 270 and also HLS 270.*

CJS 275 - Criminal Justice Internship

3 credit hours - One hour of seminar, eight hours of work weekly; one term.

Provides advanced students with practical experience in their field. Various police departments, security organizations, correctional institutions, courts and legal agencies cooperate with the college in providing field experience for students in law enforcement, forensics, juvenile justice and federal law enforcement. Prerequisite: Permission of institute director, 2.5 GPA and acceptance by assigned intern agency. The institute director may grant permission when a student has less than a 2.5 GPA. Otherwise, an internship placement cannot be obtained. Note: Enrollment in internship courses requires that students hold an appropriate internship placement in order to receive course credit. Please consult with the Coordinator for Internships prior to registering unless otherwise specified by the department chair or director. Many law enforcement agencies require students to successfully complete a background check. Those wishing to secure internships with law enforcement and homeland security agencies should contact the Homeland Security and Criminal Justice Institute's internship coordinator 90 days prior to start of course. Otherwise internships at certain agencies may not be obtainable.

CJS 280-299 - Special Topics in Law Enforcement

-

Special topics in law enforcement and criminal justice. Topics include polygraph, interrogation, labor relations, white-collar crime, arson investigation and other areas of current interest not suited to traditional scheduling. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-30. **Prereq:** Permission of institute director.

Cyber

CYB 270 - Cyber Capstone

1 credit hour - One hour of lecture and one hour of laboratory weekly; one term.

Demonstrate the ability to identify and respond to cybersecurity challenges in the workplace using hands-on, skills-based projects. Lab fee \$35. **Prereq:** *CTS 140 or permission of department chair. Note: Typically offered MC; spring term.*

Dance

DAN 100 - Dance History

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Study dance history from the Renaissance through the mid 20th century. Explore the roots of ballet, modern and jazz dance. Discover how dance was used as a means of communication, performance, and how culture and society influenced movement. **Note:** Typically offered at MC and OL; fall and spring terms.

DAN 105 - Beginning Tap Dance 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

A beginning study of the technical fundamentals of tap dance. This course will include learning basic single and double sounds and various combinations at the barre and centre. Positions of the body, use of port de bras, movement through space and learning short combinations will also be explored. May be repeated once for a total of four credit hours.

Note: Typically offered at MC; fall and spring terms.

DAN 106 - Beginning Tap Dance 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continuation of the study of the technical fundamentals of tap dance. Students continue to master more challenging single, double and triple tap sounds. Concepts, techniques and terminology from other dance forms will be added to the tap movement to provide a diverse range of styles. May be repeated once for a total of four credit hours. **Prereq:** DAN 105 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 111 - Beginning Ballet 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Introduction to the fundamentals of classical ballet. Emphasis is on alignment, turn-out, barre work, footwork and exposure to basic movement vocabulary. May be repeated once for a total of four credit hours. **Note:** Typically offered at MC; fall and spring terms.

DAN 112 - Beginning Ballet 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continuation of the study of fundamentals of classical ballet with an emphasis on alignment, centering and coordination of ballet movements. May be repeated once for a total of four credit hours. **Prereq:** DAN 111 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 116 - Movement for Actors

3 credit hours - Three hours weekly; one term.

Practical study of movement fundamentals, body awareness, physical intention and nonverbal communication related to the beginning acting process. Principles of the use of time, weight, space and energy and their application are explored along with an introduction to somatics, Laban effort/shape theory and contact improvisation. This course is cross-listed and identical in both Dance and Theater. **Prereq:** THA 132 or permission of dance coordinator or department chair. **Crosslisted:** Also offered as THA 116; credit is not given for both DAN 116 and THA 116. **Note:** Typically offered at MC; fall and spring terms.

DAN 121 - Beginning Modern Dance 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Introduction to the technique and movement vocabulary of modern dance. Emphasis is on dance fundamentals (floorwork, body alignment) and modern dance as an expressive medium. May be repeated once for a total of four credit hours. **Note:** Typically offered at MC; fall and spring terms.

DAN 122 - Beginning Modern Dance 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continuation of the study of modern dance with an emphasis on spatial awareness, expression of movement and proficiency in locomotive movements. May be repeated once for a total of four credit hours. **Prereq:** Any beginning-level dance course or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 125 - Improvisation

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Preliminary course in exploring and developing spontaneous, independent movement activities in individual and in group settings. Students will build a movement vocabulary utilizing time, energy and spatial awareness. **Prereq:** DAN 116 or DAN 121 or THA 116 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 131 - Beginning Jazz Dance 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Introduction to jazz dance and movement combinations. Development of a personal awareness of the body and how its parts can move separately and as a whole to create a form of artistic expression. May be repeated once for a total of four credit hours. **Note:** Typically offered at MC; fall and spring terms.

DAN 132 - Beginning Jazz Dance 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continuation of the study of jazz dance styles and techniques. Emphasis is on proper alignment, stylistic development and coordinated combinations. May be repeated once for a total of four credit hours. **Prereq:** Any beginning-level dance course or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 192 - Applied Dance:Ballet

2 credit hours - One and one-half hours of individual instruction weekly.

Improve and strengthen dance technique with one-on-one instruction to prepare for auditioning, transferring, performance preparation, or personal enrichment. Course may be repeated for a total of four credit hours. Non-refundable lab fee \$250. **Prereq:** DAN 105 or DAN 111 or DAN 121 or DAN 125 or DAN 131 or DAN 211 or permission of the department chair. **Note:** Individual instruction is available for the following: Ballet, Improvisation, Jazz, Modern, Pointe, and Tap. Typically offered at MC; fall and spring terms.

DAN 193 - Applied Dance: Improvisation

2 credit hours - One and one-half hours of individual instruction weekly.

Improve and strengthen dance technique with one-on-one instruction to prepare for auditioning, transferring, performance preparation, or personal enrichment. Course may be repeated for a total of four credit hours. Non-refundable lab fee \$250. **Prereq:** DAN 105 or DAN 111 or DAN 121 or DAN 125 or DAN 131 or DAN 211 or permission of the department chair. **Note:** Individual instruction is available for the following: Ballet, Improvisation, Jazz, Modern, Pointe, and Tap. Typically offered at MC; fall and spring terms.

DAN 194 - Applied Dance: Jazz

2 credit hours - One and one-half hours of individual instruction weekly.

Improve and strengthen dance technique with one-on-one instruction to prepare for auditioning, transferring, performance preparation, or personal enrichment. Course may be repeated for a total of four credit hours. Non-refundable lab fee \$250. **Prereq:** DAN 105 or DAN 111 or DAN 121 or DAN 125 or DAN 131 or DAN 211 or permission of the department chair. **Note:** Individual instruction is available for the following: Ballet, Improvisation, Jazz, Modern, Pointe, and Tap. Typically offered at MC; fall and spring terms.

DAN 195 - Applied Dance: Modern

2 credit hours - One and one-half hours of individual instruction weekly.

Improve and strengthen dance technique with one-on-one instruction to prepare for auditioning, transferring, performance preparation, or personal enrichment. Course may be repeated for a total of four credit hours. Lab fee \$250. **Prereq:** DAN 105 or DAN 111 or DAN 121 or DAN 125 or DAN 131 or DAN 211 or permission of the department chair. **Note:** Individual instruction is available for the following: Ballet, Improvisation, Jazz, Modern, Pointe, and Tap. Typically offered at MC; fall and spring terms.

DAN 196 - Applied Dance: Pointe

2 credit hours - One and one-half hours of individual instruction weekly.

Improve and strengthen dance technique with one-on-one instruction to prepare for auditioning, transferring, performance preparation, or personal enrichment. Course may be repeated for a total of four credit hours. Non-refundable lab fee \$250. **Prereq:** DAN 105 or DAN 111 or DAN 121 or DAN 125 or DAN 131 or DAN 211 or permission of the department chair. **Note:** Individual instruction is available for the following: Ballet, Improvisation, Jazz, Modern, Pointe, and Tap. Typically offered at MC; fall and spring terms.

DAN 197 - Applied Dance: Tap

2 credit hours - One and one-half hours of individual instruction weekly.

Improve and strengthen dance technique with one-on-one instruction to prepare for auditioning, transferring, performance preparation, or personal enrichment. Course may be repeated for a total of four credit hours. Non-refundable lab fee \$250. **Prereq:** DAN 105 or DAN 111 or DAN 121 or DAN 125 or DAN 131 or DAN 211 or permission of the department chair. **Note:** Individual instruction is available for the following: Ballet, Improvisation, Jazz, Modern, Pointe, and Tap. Typically offered at MC; fall and spring terms.

DAN 205 - Intermediate Tap Dance 1

2 credit hours - One hour lecture and two hours studio weekly; one term.

An intermediate study of the technical fundamentals of tap dance. This course will include execution and mastery of all single, double, and triple sounds, and exposure to and the integration of concepts from the world of rhythm tap. May be repeated once for a total of four credit hours. **Prereq:** DAN 106 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 206 - Intermediate Tap Dance 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continue intermediate study of technical fundamentals of tap dance. This course will further challenge students with more complex single, double and triple sounds, and combinations including rhythm tap. May be repeated once for a total of four credit hours. **Prereq:** DAN 205 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 211 - Intermediate Ballet 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Further study of classical ballet with emphasis on execution of movement and more complex work and combinations. May be repeated once for a total of four credit hours. **Prereq:** DAN 112 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 212 - Intermediate Ballet 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Provides continued study of classical ballet technique with emphasis on performance presentation and challenging technical combinations. Designed to develop strength and accuracy, musicality and flexibility. May be repeated once

for a total of four credit hours. **Prereq:** DAN 211 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 215 - Beginning Pointe Technique

1 credit hour - One half hour of lecture and one hour of studio weekly; one term.

Begin pointe work focusing on strengthening the ankles, demi-pointe and placement in the execution of elementary movement on pointe. **Note:** Must be concurrently enrolled in DAN 211 or DAN 212 in order to maintain the necessary strength for the pointe class.

DAN 221 - Intermediate Modern Dance 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continue exploration and development of modern dance technique. Learn increased movement vocabulary as well as lengthier and more complex movement combinations. Conduct a select study of various modern dance choreographers. May be repeated once for a total of four credit hours. **Prereq:** Any beginning-level 2 dance course or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 222 - Intermediate Modern Dance 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continue exploration and development of modern dance technique, both abstract and thematic material within complex combinations. May be repeated once for a total of four credit hours. **Prereq:** DAN 211 or DAN 221 or DAN 231 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 231 - Intermediate Jazz Dance 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continue to develop jazz dance techniques including contemporary jazz styles. Create and perform lengthy and challenging combinations. May be repeated once for a total of four credit hours. **Prereq:** DAN 106 or DAN 112 or DAN 122 or DAN 132 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 232 - Intermediate Jazz Dance 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continue exploration and development of jazz technique with emphasis on execution of a variety of jazz dance styles. May be repeated once for a total of four credit hours. **Prereq:** DAN 211 or DAN 221 or DAN 231 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

DAN 240 - Dance Production

3 credit hours - One hour of lecture and four hours of studio weekly; one term.

Introduction to choreography, composition, performance, and the process involved in assembling a full evening of dance, including publicity, lighting, concert structure, and exit strategies. Students will participate in a dance audition, attend rehearsals, choreograph in-class projects, discuss current issues facing today's performing dance world (gigs, gender equity, pay, and venues), and perform on stage at the end of the semester. **Prereq:** This 13 week course requires students to successfully audition for the AACC Dance Company at the start of the 15 week term, and receive permission from the department chair in order to register. **Note:** May be repeated once for a total of six credits. Typically offered at MC; fall and spring terms.

DAN 263 - West African Music and Dance

3 credit hours - One hour of lecture and three hours of studio weekly; one term.

Study the practical and theoretical traditions of West African music and dance. Experience the rhythms, songs, movements, and languages of Ghana and other West African countries using an interdisciplinary approach that reflects the integrated nature of drumming, dancing, and singing in West Africa. Perform a range of musical styles and a variety of traditional and contemporary choreographies. **Crosslisted:** Also offered as MUS 263; credit is not given for both DAN 263 and MUS 263. **Note:** Typically offered at MC; fall and spring terms.

DAN 280-299 - Special Topics in Dance

-

A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Dental Hygiene

DHY 100 - Dental Hygiene Theory 1

2 credit hours - Two lecture hours weekly; one term.

Discuss the fundamental concepts of oral health care services, disease control, infection control practices, dental hygiene instrumentation, and assessment techniques. Identify and define concepts of client motivation, educational techniques, disease prevention strategies, and the dental hygiene process of care. **Prereq:** Acceptance into the Dental Hygiene Program. **Coreq(s):** DHY 102, DHY 104, DHY 106, DHY 108.

DHY 102 - Dental Hygiene Clinical 1

2 credit hours - Eight hours of clinic weekly; one term.

Perform clinical dental hygiene procedures, including basic instrumentation, infection control, client assessment skills, patient education, and treatment planning skills. Demonstrate dental hygiene skills and procedures on typodonts and/or

student partners under appropriate supervision. Lab fee \$250. **Prereq:** *Acceptance into the Dental Hygiene Program.*
Coreq(s): *DHY 100, DHY 104, DHY 106, DHY 108.*

DHY 104 - Oral Histology and Embryology

2 credit hours - Two hours of lecture weekly; one term.

Describe the development, eruption, function, and basic morphological characteristics of the permanent and deciduous human dentition, and the growth and development of the face and oral cavity. Identify the process of histology and embryology of the face and oral and nasal cavities, the teeth, and the various components of the teeth and surrounding tissues. **Prereq:** *Acceptance into the Dental Hygiene Program.* **Coreq(s):** *DHY 100, DHY 102, DHY 106, DHY 108*

DHY 106 - Dental Anatomy and Tooth Morphology

2 credit hours - One hour lecture weekly and two hours lab weekly; one term.

Examine the anatomy of human dentition and the surrounding structures of the head and neck. Describe the anatomy and physiology of various tissue structures, such as muscles, nerves, bones, and blood vessels of the head and neck, and their biological relationship to the oral cavity and the entire body. Explore the oral cavity and the surrounding structures and discuss tooth morphology and the applications of tooth anatomy in dentistry. Lab fee \$2,500. **Prereq:** *Acceptance into the Dental Hygiene Program.* **Coreq(s):** *DHY 100, DHY 102, DHY 104, DHY 108*

DHY 108 - Dental Hygiene Radiology

4 credit hours - Two hours lecture weekly and four hours laboratory weekly; one term.

Discuss the principles and practice of dental radiography. Examine the background of dental x-rays, clinician responsibilities, radiation safety and the biological effects of radiation. Demonstrate x-ray production, processing, mounting, intra- and extra-oral techniques, quality assurance, radiographic selection criteria, radiographic interpretation of anatomy and artifacts, infection control, and patient management. Lab fee \$250. **Prereq:** *Acceptance into the Dental Hygiene Program.* **Coreq(s):** *DHY 100, DHY 102, DHY 104, DHY 106.*

DHY 110 - Dental Hygiene Theory 2

2 credit hours - Two hours of lecture weekly; one term.

Examine the theories and practice of dental hygiene care with emphasis on advanced instrumentation techniques and supportive dental hygiene therapy, including tobacco cessation intervention, fluoridation and fluoride therapy, supplementary aids, chemotherapeutics, and desensitization. Describe the dental hygiene process of care emphasizing treatment planning. **Prereq:** *DHY 100, DHY 102, DHY 104, DHY 106, and DHY 108 with a grade of C or better in each course.* **Coreq(s):** *DHY 112, DHY 114, DHY 116, and DHY 118.*

DHY 112 - Dental Hygiene Clinical 2

3 credit hours - Twelve hours of clinic weekly; one term.

Perform dental hygiene clinical skills including client assessments, instrumentation and preventive techniques, with emphasis on providing care for the light to moderate classification clients. Demonstrate client care assessments, planning, implementation, and evaluation. Lab fee \$350. **Prereq:** *DHY 100, DHY 102, DHY 104, DHY 106, and DHY 108 with a grade of C or better in each course.* **Coreq(s):** *DHY 110, DHY 114, DHY 116, and DHY 118.*

DHY 114 - Periodontology

2 credit hours - Two hours of lecture weekly; one term.

Describe the anatomy of the periodontium and the etiology of periodontal disease. Classify patients based on periodontal criteria and identify optimal strategies to help reverse periodontitis. Describe procedures to complete periodontal evaluation for all classifications, identify best options for treatment, develop a treatment plan, review systemic health conditions, discuss prevention strategies, conduct risk assessment, and identify the use and implementation of different home care aids. Describe how to assess and consider the patient's beliefs and personal opinions on oral health, and provide patient education using clear and effective communication. **Prereq:** *DHY 100, DHY 102, DHY 104, DHY 106, and DHY 108 with a grade of C or better in each course.* **Coreq(s):** *DHY 110, DHY 112, DHY 116, and DHY 118.*

DHY 116 - Dental Materials and Procedures

2 credit hours - One hour of lecture and two hours of laboratory weekly; one term.

Examine the chemical, physical, and mechanical properties of materials used in dentistry. Demonstrate the proper application and manipulation of dental materials in accordance with the regulations of the Maryland State Board of Dentistry. Lab fee \$250. **Prereq:** *DHY 100, DHY 102, DHY 104, DHY 106, and DHY 108 with a grade of C or better in each course.* **Coreq(s):** *DHY 110, DHY 112, DHY 114, and DHY 118.*

DHY 118 - Dental Hygiene Pain Management

1 credit hour - One hour lecture weekly; one term.

Examine the application of various physical, chemical and psychological modalities to increase client comfort and control pain when providing dental hygiene therapeutic services. Emphasis is placed on dental hygiene administration of local dental anesthetics and nitrous oxide and oxygen sedation. Describe how to administer and monitor local anesthetics and nitrous oxide to patients for dental procedures as required by the Maryland State Board of Dental Examiners to obtain certification. **Prereq:** *DHY 100, DHY 102, DHY 104, DHY 106, and DHY 108 with a grade of C or better in each course.* **Coreq(s):** *DHY 110, DHY 112, DHY 114, and DHY 116.*

DHY 200 - Dental Hygiene Theory 3

2 credit hours - Two hours lecture weekly; one term.

Discuss dental hygiene theory and practice including root planing, subgingival irrigation, powered scaling, air

polishing, and case presentation. Describe the care and clinical management of clients with special needs and review the essential components and clinical procedures performed in the various dental specialties. **Prereq:** *DHY 110, DHY 112, DHY 114, DHY 116, and DHY 118 with a grade of C or better in each course.* **Coreq(s):** *DHY 202, DHY 204, and DHY 206.*

DHY 202 - Dental Hygiene Clinical 3

3 credit hours - Twelve hours clinic weekly; one term.

Demonstrate principles and clinical skills of dental hygiene practice with an emphasis on non-surgical periodontal therapy. Under appropriate supervision of a dentist, provide client care assessments, planning, implementation, and evaluation. Lab fee \$350. **Prereq:** *DHY 110, DHY 112, DHY 114, DHY 116, and DHY 118 with a grade of C or better in each course.* **Coreq(s):** *DHY 200, DHY 204, and DHY 206.*

DHY 204 - Dental Hygiene Pharmacology

2 credit hours - Two hours lecture weekly; one term.

Examine basic pharmaceutical medicine related to the practice of dental hygiene. Discuss general principles, medications that alter dental treatment, and dental hygiene considerations. Describe drugs that are commonly used in dentistry and potential adverse reactions, characteristics and mechanisms of drug actions, pharmacokinetics, clinical pharmacokinetics, and routes of administration. **Prereq:** *DHY 110, DHY 112, DHY 114, DHY 116, and DHY 118 with a grade of C or better in each course.* **Coreq(s):** *DHY 200, DHY 202, and DHY 206.*

DHY 206 - General and Oral Pathology

2 credit hours - Two hours lecture weekly; one term.

Examine general pathology with a focus on oral pathology to recognize abnormalities extra- and intraorally. Describe the connection between systemic health and oral health pertaining to pathology and risk factors that lead to higher prognosis of cancer. Define the etiology, pathogenesis, clinical and microscopic signs and symptoms, differential diagnosis, treatment, and follow-up and prognosis related to dental care. **Prereq:** *DHY 110, DHY 112, DHY 114, DHY 116, and DHY 118 with a grade of C or better in each course.* **Coreq(s):** *DHY 200, DHY 202, and DHY 204.*

DHY 220 - Dental Hygiene Theory 4

2 credit hours - Two hours lecture weekly; one term.

Apply previously acquired theoretical and clinical skills to advance to proficiency level. Demonstrate proficiency in dental practice management, the business of dentistry, resume writing, interviewing, the dental hygiene profession and modern-day workforce, and prepare for the national board examination. Discuss professional ethics and dental jurisprudence, professional organizations, and issues involving the dental hygiene profession. Describe the laws and rules governing the practice of dental hygiene in the state of Maryland. Examine practice management skills and employment preparation, including resumes and interview techniques. **Prereq:** *DHY 200, DHY 202, DHY 204, and DHY 206 with a grade of C or better in each course.* **Coreq(s):** *DHY 222, DHY 224, and DHY 226.*

DHY 222 - Dental Hygiene Clinical 4

4 credit hours - Sixteen hours clinic weekly; one term.

Demonstrate and apply new and previously learned clinical skills, techniques and responsibilities of an entry-level dental hygienist. Emphasize fine tuning clinical skills, comprehensive treatment planning, self-assessment, and independent decision making. Identify skills to assist in the transition to dental hygiene practice beyond graduation. Lab fee \$350. **Prereq:** *DHY 200, DHY 202, DHY 204, and DHY 206 with a grade of C or better in each course.* **Coreq(s):** *DHY 220, DHY 224, and DHY 226.*

DHY 224 - Dental Hygiene Public Health

2 credit hours - One hour lecture weekly and four hours clinic weekly; one term.

Describe the impact dental health care can have through community service programs and prevention programs. Explore the history of public health, program planning and evaluation, health promotion, oral health education, and epidemiology and research. Implement methods for oral health promotion and education in the clinic and a community setting. Lab fee \$250. **Prereq:** *DHY 200, DHY 202, DHY 204, and DHY 206 with a grade of C or better in each course.* **Coreq(s):** *DHY 220, DHY 222, and DHY 226.*

DHY 226 - Dental Hygiene Ethics and Jurisprudence

1 credit hour - One hour lecture weekly; one term.

Describe the ethical responsibility, regulations, and jurisprudence pertaining to dental hygiene. Define the dental hygienist's role in the recognition, documentation, and reporting of family maltreatment, abuse, and neglect. Compare and contrast how states differ in the scope of practice and how state legislation is changing to advance the practice of dental hygiene. **Prereq:** *DHY 200, DHY 202, DHY 204, and DHY 206 with a grade of C or better in each course.* **Coreq(s):** *DHY 220, DHY 222, and DHY 224.*

Drone Technologies

UAS 100 - Uncrewed Aircraft Systems Remote Pilot Ground School

1 credit hour - One hour lecture weekly; one term.

Learn the essential regulations and standards to operate a small uncrewed aircraft system (sUAS), also known as a drone, under the Federal Aviation Administration (FAA) Part 107 and other relevant regulations. Discuss topics to include federal regulations, airspace, aviation weather, aircraft loading and performance, radio communications, emergency procedures, physiological factors affecting pilot performance, Aeronautical Decision Making (ADM), Crew Resource Management (CRM), airport operations, and maintenance and inspections procedures. **Note:** *This course*

prepares students to take the FAA Remote Pilot Certificate Exam, but the cost of the exam is not included in the course fees. Typically offered OL; fall, spring, and summer terms.

UAS 111 - Introduction to Drone Technology

3 credit hours - Three hours lecture weekly; one term.

This course meets the Technology Requirement. Learn information technology concepts and skills that are fundamental to social, personal, business, and academic environments through the study of Drone Technology. Learn about the command and control networks, hardware, software, security, privacy, ethics, and emerging technologies as they apply to the workforce demands for small uncrewed aircraft systems (sUAS). Learn basic drone flying skills, the rules for recreational drone flying and the required knowledge to become a Federal Aviation Administration (FAA), Part 107 Certified Drone Pilot. Lab fee \$20. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered MC; fall term.*

Economics

ECO 116 - Inside the Global Economy

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Explore the concepts of the global economy. Discuss national differences in political economy, possible differences in culture and ethical standards, theories of why nations trade and arguments for and against trade, the role of foreign investment, trade blocs (such as NAFTA and the European Union) and other aspects of economic integration as well as exchange rates and the global monetary system. Examine how firms can compete effectively and ethically in a global marketplace and the importance of exporting, importing, countertrade, global production, marketing, and human resource management. Evaluate reasons why cross-cultural understanding and appreciation are crucial to the effective functioning of a global economy. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Appropriate for students with no prior study of economics. Typically offered at MC and OL; fall and spring terms.*

ECO 121 - Introduction to Economics

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Identify and illustrate how markets work with the use of demand and supply. Analyze consumer behavior and economic behavior of the firm under varying conditions. Discuss use of national income accounting (GDP) as a measure of the health of the economy. Examine and calculate GDP to analyze and implement fiscal and monetary policies. **Note:** *Not intended for students planning to major in economics or business. Typically offered at MC and OL; fall, spring, and summer terms.*

ECO 211 - Principles of Economics 1

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Explore macroeconomic theory and policy. Identify and illustrate how markets work with the use of demand and supply. Discuss use of national income accounting (GDP) as a measure of the health of the economy. Examine unemployment, inflation and business cycles as they relate to the economy and possible policy prescriptions. Examine and calculate GDP to analyze and implement fiscal and monetary policies. **Prereq:** *Eligibility for MAT 137.* **Crosslisted:** *Also offered as ECO 211H; credit is not given for both ECO 211 and ECO 211H.* **Note:** *It is recommended that ECO 211 be taken prior to ECO 212. Typically offered at MC, AM, and OL; all terms.*

ECO 211H - Principles of Economics 1- Honors

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Explore macroeconomic theory and policy. Identify and illustrate how markets work with the use of demand and supply. Discuss use of national income accounting (GDP) as a measure of the health of the economy. Examine unemployment, inflation and business cycles as they relate to the economy and possible policy prescriptions. Examine and calculate GDP to analyze and implement fiscal and monetary policies. **Prereq:** *Eligibility for MAT 137. Eligibility for Honors courses.* **Crosslisted:** *Also offered as ECO 211; credit will not be given for both ECO 211H and ECO 211.* **Note:** *It is recommended that ECO 211 or ECO 211H be taken prior to ECO 212 or ECO 212H.*

ECO 212 - Principles of Economics 2

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Explore microeconomic theory and international economics. Analyze consumer behavior, economic behavior of the firm under varying conditions, resource allocation, comparative advantage and balance of payments. **Prereq:** *Eligibility for MAT 137.* **Crosslisted:** *Also offered as ECO 212H; credit will not be given for ECO 212 and ECO 212H.* **Note:** *It is recommended that ECO 211 be taken prior to ECO 212. Typically offered at MC, AM, and OL; all terms.*

ECO 212H - Principles of Economics 2 - Honors

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Explore microeconomic theory and international economics. Analyze consumer behavior, economic behavior of the firm under varying conditions, resource allocation, comparative advantage and balance of payments. **Prereq:** *Eligibility for MAT 137. Eligibility for Honors courses.* **Crosslisted:** *Also offered as ECO 212; credit will not be given for ECO 212H and ECO 212.* **Note:** *It is recommended that ECO 211 or ECO 211H be taken prior to ECO 212 or ECO 212H.*

ECO 232 - Business Statistics

3 credit hours - Three hours weekly; one term.

Learn statistical analysis as an aid in business decision making through the use of descriptive statistics, probability, confidence intervals, hypothesis testing, chi square, analysis of variance, regression and correlation analysis. **Prereq:** Eligibility for any general education math course. **Note:** Credit will not be given for ECO 232 and also BPA 232.

Typically offered at MC and OL; all terms.

ECO 233 - Data, Sampling, and Analytics

3 credit hours - Three hours weekly, one term.

Apply topics from Business Statistics to business and professional situations. Perform hypothesis tests with new procedures involving Chi-square tests, multiregression with dummy variables, logistic regression, and time series. Use a software package to develop data management skills such as sorting, subsetting, and cleaning data. Propose and plan analysis projects. Apply results to improve decision making in business contexts. Lab fee \$35. **Prereq:** ECO 232 or BPA 232 or MAT 135 and eligibility for MAT 137 or higher. **Note:** Typically offered OL; fall and spring terms.

ECO 270 - Data and Analysis Project Seminar

2 credit hours - Two hours weekly, one term

Practice the steps that occur before and after a business analytics, such as proposing projects to address a concern, determining data needs, preparing reports for an appropriate audience, interpreting reports, and recommending action. Test hypotheses with data related to human resource management, productivity, and marketing. Lab fee \$35. **Prereq. or Coreq.:** ECO 233.

ECO 280-299 - Special Topics in Economics

-

In-depth study of contemporary issues in economics and topics not fully covered in traditional course offerings. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-30.

Education**EDU 002 - Preparing for Praxis Core: Reading Skills**

1 noncredit hour - Three hours weekly; five sessions.

Review the application of reading skills necessary for successful completion of Praxis Core Academic Skills for Educators Test. Reviews skills for comprehension of reading material and critical analysis of content as well as emphasize test-taking strategies. Praxis Core is a state-mandated assessment required for earning teacher certification.

EDU 003 - Preparing for Praxis Core: Math Skills

1 noncredit hour - Three hours weekly; five sessions.

Review the application of math skills necessary for successful completion of Praxis Core Academic Skills for Educators Test. Reviews key mathematics concepts, including problem solving, reasoning, estimating and interpreting quantitative information. Emphasize test-taking strategies. Praxis Core is a state-mandated assessment required for earning teacher certification.

EDU 004 - Preparing for Praxis Core: Writing Skills

1 noncredit hour - Three hours weekly; five sessions.

Review the application of writing skills necessary for successful completion of Praxis Core Academic Skills for Educators Test. Reviews the grammar and language rules in writing, including error recognition and essay writing. Emphasize test-taking strategies. Praxis Core is a state-mandated assessment required for earning teacher certification.

EDU 111 - Foundations of Education

3 credit hours - Three hours weekly; one term.

Explore the major developments in the history of American education. Includes a comprehensive overview of the historical, philosophical, sociological, political and legal foundations of education. Learn about the structure and organization of schools, influences on teaching and learning, roles of classroom teachers and contemporary policy and issues. Lab fee \$85. **Prereq:** ENG 101/ENG 101A

Note: Course requirements include 15 hours of fieldwork, which requires an additional cost and a background check. Typically offered at MC and OL; fall and spring terms.

EDU 131 - Children's Literature

3 credit hours - Three hours weekly; one term.

Examine literary trends and materials for young children. Explore specific genres, curriculum issues, authors and illustrators, literature selection and teaching strategies. **Note:** Typically offered at MC and OL; fall and spring terms.

EDU 132 - Introduction to Early Childhood Development

3 credit hours - Three hours weekly; one term.

Examine the conceptual framework for understanding the role of the early childhood professional. Gain a comprehensive overview of historical, philosophical and social influences. Explore contemporary trends, issues and practices in the early childhood education field. Lab fee \$85. **Prereq:** ENG 101/ENG 101A. **Note:** Course requirements include 15 hours of fieldwork, which requires an additional cost and a background check.

EDU 133 - Growth and Development

3 credit hours - Three hours weekly; one term.

Examine the growth and development of children from infancy through adolescence and the influence of development on the delivery of effective education programs. Learn about social, emotional, cognitive and physical development of children and the application of theories of child development and learning to education. Lab fee \$85. **Prereq:** EDU 111 or EDU 132 or permission of assistant director/department chair. **Note:** Course requirements include 15 hours of fieldwork, which requires an additional cost and a background check. Typically offered at MC and OL; fall and spring terms.

EDU 135 - Children's Health, Nutrition and Safety

3 credit hours - Three hours weekly; one term.

This course meets the Wellness Requirement. Discover the relationship of health, nutrition and safety to learning. Learn about proper health, nutrition, physical fitness and safety from infancy through adolescence. Examine a holistic view of children through exploration of topics such as brain research, environmental concerns, malnutrition, illness, family involvement, emergency preparedness and child abuse and neglect. **Prereq:** ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; all terms.

EDU 201 - Engagement Coaching Course I: Engage

3 credit hours - 45 hours lecture total; one term.

Examine the Engagement Coaching Model and its application to teaching and learning. Explore the essential coaching skills, International Coach Federation's (ICF) core competencies, ethical guidelines, and variety of tools and activities that provide access points for coaching and personal and professional development. **Prereq:** Eligibility for ENG 101 /ENG 101A. **Note:** For participants interested in becoming a certified coach, this 3-credit course fulfills the first course requirement of the 60-hour coach-specific training requirement for the Associate Certified Coach (ACC) ACSTH pathway. To become a certified coach, the participant must complete EDU 201, EDU 202 and EDU 203 and then fulfill the additional requirements stated by the International Coach Federation. Typically offered at MC and OL.

EDU 202 - Engagement Coaching Course II: Expand

3 credit hours - 45 hours lecture total; one term.

Examine new strategies to assist clients in expanding their perspectives and designing actions to move the client forward. Deepen and build on the foundational learning from Course I: Engage including essential coaching skills, International Coach Federation's (ICF) core competencies, and ethical coaching guidelines. Apply the components of the coaching agreement to design meaningful relationships with coaching clients. **Prereq:** EDU 201 with a grade of C or better or permission of department chair. **Note:** For participants interested in becoming a certified coach, this 3-credit course fulfills the second course requirement of the 60-hour coach-specific training requirement for the Associate Certified Coach (ACC) ACSTH pathway. To become a certified coach, the participant must complete EDU 201, EDU 202 and EDU 203 and then fulfill the additional requirements stated by the International Coach Federation. Typically offered at MC and OL.

EDU 203 - Engagement Coaching Course III: Experience

3 credit hours - 45 hours lecture total; one term.

Examine techniques to help clients be present to a broader range of emotions to experience all aspects of life in a more impactful, fulfilling way. Deepen and build on foundational learning from Course I: Engage and Course II: Expand, in order to integrate all of the components of the Engagement Coaching Model and create a broad coaching range. **Prereq:** EDU 202 with a C or better or permission of the department chair. **Note:** For participants interested in becoming a certified coach, this 3-credit course fulfills the third course requirement of the 60-hour coach-specific training requirement for the Associate Certified Coach (ACC) ACSTH pathway. To become a certified coach, the participant must complete EDU 201, EDU 202 and EDU 203 and then fulfill the additional requirements stated by the International Coach Federation. Typically offered at MC and OL.

EDU 204 - Engagement Coaching Course IV: Integration

3 credit hours - 45 hours lecture total; one term

Demonstrate and strengthen essential coaching skills through the integration and application of all components of the Engagement Coaching Model for clients and small groups. Implement structures that support the coach to sustain powerful action to realize goals and continue evolving as a coach. Deepen, enhance and incorporate coaching skills learned in the previous Engagement Coaching courses (EDU 201, 202 and 203). **Prereq:** EDU 203 with a grade of C or better or permission of department chair. **Note:** For participants interested in becoming a certified coach, the participant must complete EDU 201, EDU 202 and EDU 203 and then fulfill the additional requirements stated by the International Coach Federation, which includes a coaching log demonstrating 100 hours of coaching and an additional assessment fee from the International Coach Federation. Typically offered at MC and OL.

EDU 205 - Engagement Coaching Course V: Impact

3 credit hours - Three hours lecture weekly, one term

Apply new tools and activities in the coaching process. Demonstrate an elevated level of professional coaching standards and impact. Integrate a complete range of coaching skills learned in the previous Engagement Coaching courses (EDU 201, EDU 202, and EDU 203). **Prereq:** EDU 203 with a grade of C or better or permission of department chair. **Note:** For participants interested in becoming an International Coach Federation (ICF) certified coach, this 3-credit course fulfills the fifth course requirement of the 125-hour coach-specific training requirement for the ICF Associate Certified Coach (ACC) ACTP pathway. To become a certified coach, the participant must complete

EDU 201, EDU 202, EDU 203, EDU 204, and EDU 205 and pass a performance evaluation along with the additional ICF requirements stated in the ACC credentialing ACTP pathway. Typically offered at MC and OL.

EDU 209 - Online Instructional Methods

1 credit hour - One hour weekly, one term.

Examine the interactive nature of instructing a course in the online environment. Practice online instructional pedagogy, choose and evaluate resources, develop and discover multimedia options, and cultivate student assessment and feedback practices. **Note:** This course is online and can be taken for credit as EDU 209 or for noncredit as TAD 321. Typically offered OL; fall term.

EDU 210 - Teaching the Adult Learner

1 credit hour - Three hours weekly; five weeks.

Learn about theory and teaching methods related to instructing the adult learner. Focus on identifying principles of adult learning, adult learning styles and motivation. Emphasizes understanding techniques and teaching strategies that work to create an active learning community for adult learners. **Note:** Typically offered OL; fall term.

EDU 211 - Educational Psychology

3 credit hours - Three hours weekly; one term.

Discover the basic theories of learning and teaching and the application of theory to educational environments. Examine the adaptation of the concepts of behavioral, cognitive and constructivist learning theories to teaching and managing an effective learning environment. Learn about the principles of motivation, classroom management and assessment of student performance. Lab fee \$85. **Prereq:** EDU 242 or EDU 242H OR a bachelor's degree or permission from department chair. **Coreq(s):** EDU 242 or EDU 242H. **Note:** Course requirements include 15 hours of fieldwork, which requires an additional cost and a background check. Students must have a 3.0 GPA or passage of basic skills testing in order to graduate with the AAT degree. Typically offered at MC and OL; fall, spring, and summer terms.

EDU 212 - Engaging and Supporting Students

1 credit hour - Three hours weekly; five weeks.

Examine strategies that support student retention and persistence by reviewing concepts in motivation and learning. Explore and practice communication and coaching skills to engage adult learners and build a collaborative learning community. Create a toolkit of campus resources that support student learning and development and contribute to successful completion. Strategies learned in this course will apply to face-to-face, hybrid/blended, and online course formats. **Note:** Typically offered OL; fall term.

EDU 213 - Strategies for Teaching Adults with Diverse Needs

1 credit hour - Three hours weekly; five weeks.

Investigate and analyze a variety of learning styles, disabilities, backgrounds, and instructional strategies for meeting the needs of diverse learners. Examine topics such as brain research and multiple intelligences pertaining to teaching adults with diverse needs. **Note:** Typically offered OL; spring term.

EDU 214 - Introduction to Special Education

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. This course meets the Technology Requirement. Identify the categories of special education and the characteristics of special learners. Examine the diverse needs of special education students and the application of appropriate instructional adaptations. Discuss the historical overview of special education legislation and legal issues. **Prereq:** EDU 133 or a bachelor's degree. **Note:** Typically offered OL; all terms.

EDU 215 - Principles of Instructional Assessment

3 credit hours - Three hours weekly; one term.

Explore the principles and concepts of educational measurement and the application of assessment measures and processes in the learning environment. Practice using various assessment techniques, interpreting assessment data and recognizing ethical issues in the assessment of learning. Discover the uses of portfolios, development of grading and scoring procedures and construction and analysis of teacher-made tests. **Prereq:** A bachelor's degree and seeking teacher certification or permission from department chair. **Note:** Typically offered OL; fall, spring, and summer terms.

EDU 216 - Technology for Educators

1 credit hour - Three hours weekly; five weeks.

Survey technologies for educational learning environments. Examine the issues and challenges of making informed and creative decisions regarding the instructional use of technology. Learn about the integration of technologies to enhance the instructional process by increasing engagement and appealing to multiple learning styles. **Note:** Typically offered OL; spring term.

EDU 217 - Energizing Your Presentations

1 credit hour - Three hours weekly; five weeks.

Examine the principles of effective presentation design. Explore basic principles of the teaching-learning process. Discover how to optimize learning through the pedagogical process. Practice how to actively engage participants in the learning process. **Note:** Typically offered OL; spring term.

EDU 219 - Assessing the Adult Learner

1 credit hour - Three hours weekly; five weeks.

Analyze the current thinking on the practice of assessing adult learners in a comprehensive and practical fashion.

Examine the principles of assessment including planning for assessment, creating an assessment toolkit, and understanding and using assessment results. Investigate the uses of common assessment tools, including teacher-made tests, commercial materials, authentic assessment, alternative assessments and performance based assessments. **Note:** Typically offered OL; summer term.

EDU 220 - Innovation in Education

1 credit hour - Three hours weekly; five weeks.

Investigate and analyze a variety of college trends, issues, and challenges and the extent to which they impact student learning, student development, and higher education in general. Examine topics such as new instructional models, alternative educational resources, and innovations described as "disruptive" to traditional college practices. **Note:** Typically offered OL; fall term.

EDU 223 - Infant and Toddler Career and Technical Education

3 credit hours - Three hours weekly; one term.

Identify theory and teaching methods related to instructing high school students entering into the Child Development Associate (CDA), Infant and Toddler Career and Technical Education (CTE) program. Students will complete the curriculum, as well as identify and establish training practices to meet Maryland State Department of Education (MSDE)/Office of Child Care (OCC) pre-service special topics standards. Students will create an Infant and Toddler CDA aligned professional portfolio. **Prereq:** A bachelor's degree or permission from department chair.

EDU 228 - Preschool Career and Technical Education

3 credit hours - Three hours lecture weekly; one term.

Identify theory and teaching methods related to instructing high school students entering into the Child Development Associate (CDA), Preschool Career and Technical Education (CTE) program. Students will complete the curriculum, as well as identify and establish training practices to meet Maryland State Department of Education (MSDE)/Office of Child Care (OCC) pre-service special topics standards. Students will create a Preschool CDA aligned professional portfolio. **Prereq:** A bachelor's degree or permission from department chair.

EDU 229 - Observing and Assessing Young Children

1 credit hour - 3 hours weekly; 5 weeks.

Learn about the importance of observation and assessment in evaluating young children. Identify appropriate observation methods, interpret collected data and apply assessment to the children and classroom. Recognize and implement observation techniques to create teaching strategies that enhance children's development. **Prereq:** EDU 132 or permission of department chair. **Note:** Typically offered at MC and OL; fall and spring terms.

EDU 230 - Educator Portfolio Development

1 credit hour - Three hours weekly; five weeks.

Learn about setting the purpose of the portfolio, then selecting artifacts that support and enhance that purpose. Develop skills needed to identify, analyze and reflect on artifacts appropriate for inclusion in a portfolio, which documents accomplishments and talents. Examine the alignment and organization of artifacts to reflect growth and learning that have occurred as a result of the creation of each artifact. **Note:** Typically offered OL; fall and spring terms.

EDU 231 - Infant/Toddler Child Care

3 credit hours - Three hours weekly; one term.

Examine the philosophy of infant and toddler education with basic child development theory that focuses on the physical, emotional, social and cognitive development of children from birth through 3 years of age. Explore the infant/toddler curriculum, select age-appropriate materials and methods and create effective infant/toddler child care programs. **Note:** Typically offered at MC and OL; fall and spring terms.

EDU 232 - School-Age Child Care

3 credit hours - Three hours weekly; one term.

Examines the roles and responsibilities of providers of child care for children from 4 through 12 years of age. Focuses on skills in program planning, communication skills and behavior management. Emphasizes the selection and implementation of appropriate activities that promote optimum development and positive self-concept of children in the school-age setting. **Note:** Typically offered OL; fall and spring terms.

EDU 235 - Child Care Administration

3 credit hours - Three hours weekly; one term.

Examine leadership skills, management practices and supervisory functions required for effective administration of a child development center. Explore state requirements related to physical facilities, staffing, program design and budgeting and financial responsibilities. **Note:** Typically offered at MC and OL; fall and spring terms.

EDU 236 - Culturally Responsive Instruction

1 credit hour - Three hours weekly; five weeks.

Examines the philosophy of education that is multicultural and its relevance and connection to student achievement for all learners. Examines strategies to infuse education that is multicultural into curriculum, instruction, assessment, school climate and instructional materials selection. Identifies individual cultural attitudes, teaching styles, learning styles and classroom practices as preparation for better addressing the needs of students. Research from state and national resources identifying "best practices" will be explored to identify strategies, practices and principles that assist in eliminating gaps among student groups and accelerating student achievement. **Note:** Typically offered OL; fall term.

EDU 239 - Quality Family and School Partnerships

1 credit hour - Three hours weekly; five weeks.

Explore the framework of comprehensive school, family, and community partnerships. Examine strategies for communicating with families. Identify application for school and community agencies. **Note:** *Typically offered OL; spring term.*

EDU 241 - Methods of Teaching for Elementary Education

3 credit hours - Three hours weekly; one term.

Discover teaching methodology for effective instruction in elementary classrooms. Emphasis on the development of learning objectives, selection of instructional techniques and use of materials and resources appropriate for elementary content/curricula. Explore basic principles of classroom management and applies theories of learning and teaching to the organization and presentation of elementary lessons. **Prereq:** *A bachelor's degree and seeking teacher certification or permission from department chair.* **Note:** *Typically offered OL.*

EDU 242 - Foundations of Reading and Language Arts

3 credit hours - Three hours weekly; one term.

Examine the theories, processes and acquisition of reading and language arts. Identify the cognitive, linguistic, social and physiological factors involved in oral and written language development. **Prereq:** *EDU 133 and MAT 221 or MAT 222 or MAT 223; or a bachelor's degree or permission from department chair.* **Crosslisted:** *Also offered as EDU 242H; credit is not given for both EDU 242H and EDU 242.* **Note:** *EDU 242 is a Maryland State Department of Education approved reading course. Typically offered OL; all terms.*

EDU 242H - Foundations of Reading and Language Arts - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Examine the theories, processes and acquisition of reading and language arts. Identify the cognitive, linguistic, social and physiological factors involved in oral and written language development. **Prereq:** *Eligibility for Honors courses and EDU 133 and MAT 221 or MAT 222 or MAT 223; or a bachelor's degree or permission from department chair.* **Crosslisted:** *Also offered as EDU 242; credit is not given for both EDU 242H and EDU 242.* **Note:** *EDU 242 is a Maryland State Department of Education approved reading course. Typically offered OL; all terms.*

EDU 243 - Methods of Effective Reading Instruction

3 credit hours - Three hours weekly; one term.

Examine the selection and application of strategies for developing oral reading, comprehension and literacy skills. Focus on a variety of techniques for building word recognition, integrating reading and writing and enhancing understanding of text. Learn about the development of a balanced literacy program attentive to early identification of reading difficulties and meeting diverse reader needs. EDU 243 is a Maryland State Department of Education approved reading course. **Prereq:** *A bachelor's degree and seeking teacher certification or permission from department chair.* **Note:** *Typically offered OL; summer term.*

EDU 244 - Assessment for Reading Instruction

3 credit hours - Three hours weekly; one term.

Examine the techniques, processes and instruments for assessing reading performance. Learn about administration of assessment tools, interpretation of assessment data and diagnosis of reading deficiencies. Focus on the utilization of assessment data for selecting instructional methods, facilitating instructional decisions and monitoring student performance. EDU 244 is a Maryland State Department of Education approved reading course. **Prereq:** *A bachelor's degree and seeking teacher certification or permission from department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

EDU 245 - Materials for Teaching Reading

3 credit hours - Three hours weekly; one term.

Learn how to select and evaluate materials and resources for the effective teaching of reading. Explore the effective use of text and other media to best meet diverse reader needs. Examine the role of the parent and community in fulfilling the goals of the literacy program. EDU 245 is a Maryland State Department of Education approved reading course. **Prereq:** *A bachelor's degree and seeking teacher certification or permission from department chair.* **Note:** *Typically offered OL; fall and spring terms.*

EDU 247 - Early Childhood: Methods and Materials

3 credit hours - Three hours weekly; one term.

Examine methods and materials that promote the social, emotional, physical and cognitive development of young children. Learn about application of early childhood development principles to the selection of materials and methods appropriate for early childhood environments. EDU 133 and EDU 247 fulfill state educational requirements for employment in a group child care center. Lab fee \$85. **Prereq:** *EDU 214.* **Prereq. or Coreq.:** *EDU 242.* **Note:** *Course requirements include 15 hours of fieldwork, which requires an additional cost and a background check. Typically offered at MC and OL; fall and spring terms.*

EDU 248 - Instructional Strategies

1 credit hour - One hour weekly; one term.

Provides knowledge and skills specific to the use of instructional strategies and methods in the process of analyzing the teaching environment and individual student needs. Describes adaptations/accommodations or modifications of instruction that will best facilitate learning and the strategies and methods associated with learning. Designed to

provide skills for supporting students in regular and inclusive classrooms, resource rooms or self-contained settings.

Note: Typically offered at MC and OL; fall and spring terms.

EDU 251 - Behavior Management

1 credit hour - One hour weekly; one term.

Learn about the causes of human behavior and refines technical skills in dealing with the various behaviors of students with special needs. Develop awareness of the feelings that such behaviors arouse in professionals and support staff who work with these students and discover the interconnectedness of the various components that lead to a well-managed classroom. **Note:** Typically offered at MC and OL; fall term.

EDU 252 - Autism Spectrum Disorders

1 credit hour - One hour weekly; one term.

Surveys and examines autism spectrum disorders and the characteristics related to this increasingly prevalent developmental disorder. Includes functional, sensory, cognitive, communication and social/emotional skills of school age children with autism. Provides an emphasis on school and community implications related to autism and maximizing learning through various strategies and interventions. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; spring term.

EDU 253 - Inclusive Secondary Instructional Practices

3 credit hours - Three hours weekly; one term.

Learn about the requirements of special education mandates regarding the accommodation and adaptation of instruction for secondary students with special needs. Examine individual needs through appropriate adaptations to curriculum, instruction, resources and management techniques for the inclusive classroom at the designated age/grade level.

Prereq: EDU 214. **Note:** Typically offered at MC and OL; fall term.

EDU 255 - Instructional Teamwork

3 credit hours - Three hours weekly; one term.

Examine the theories and models of collaboration appropriate for developing partnerships that meet the needs of diverse student populations. Identify collaboration of special services, models of consultation, teaming in the school setting, and conflict management styles. Develop effective interpersonal problem-solving and communication skills for the professional. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; spring term.

EDU 259 - Assistive Technology for Students with Special Needs

1 credit hour - Three hours weekly; five weeks.

Focuses on the identification of assistive technology, strategies and techniques for implementation in the educational environment for the purpose of accommodating school age individuals with disabilities. Provides techniques using assistive technology to enhance learning experiences for students with special needs. **Note:** Typically offered at MC and OL; spring term.

EDU 261 - Methods of Teaching in Secondary Education

3 credit hours - Three hours weekly; one term.

Explore teaching methodology for effective instruction in secondary classrooms. Practice the development of learning objectives, selection of instructional techniques and use of resources appropriate for secondary content/curricula. Learn about basic principles of classroom management and apply theories of learning and teaching to the organization and presentation of secondary lessons. **Prereq:** A bachelor's degree and seeking teacher certification or permission from department chair. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

EDU 262 - Literacy in the Content Area Part I

3 credit hours - Three hours weekly; one term.

Examine literacy in the present day with an emphasis on the literacy development of adolescent learners. Identify the interactive nature of the reading process in the content area and examine the use of effective instructional strategies for developing content reading literacy, skills, vocabulary and concepts. Design instruction that incorporates appropriate methods and materials for developing reading proficiency in the content area with a concentration on meeting the linguistic and cultural characteristics of all students. **Prereq:** A Bachelor's degree and seeking teacher certification or permission of department chair. **Note:** EDU 262 is a Maryland State Department of Education approved reading course. Typically offered OL; fall, spring, and summer terms.

EDU 263 - Literacy in the Content Area Part II

3 credit hours - Three hours weekly; one term.

Examine literacy in the present day with an emphasis on the methods to develop literacy in adolescent learners. Examine, use, and evaluate a wide range of strategies and approaches to literacy instruction. Identify literacy tasks and assessment of those tasks to promote a better understanding of disciplinary content. Develop professional dispositions for collaboration and leadership in order to work effectively with students, families, schools, and communities of varied linguistic and cultural backgrounds. **Prereq:** A bachelor's degree and seeking teacher certification or permission from department chair. **Note:** EDU 263 is a Maryland State Department of Education approved reading course. Typically offered OL; fall, spring, and summer terms.

EDU 264 - World Language Teaching Methods

3 credit hours - Three hours weekly; one term.

Examine current world language teaching methodologies and standards. Design teaching strategies to develop student communication skills and cultural awareness. Develop assessment strategies for the K-12 world language classroom.

Prereq: A bachelor's degree and seeking teacher certification or permission from department chair. **Note:** Typically offered at MC and OL; fall term.

EDU 269 - Inclusive Early Childhood and Elementary Instructional Practices

3 credit hours - Three hours weekly, one term.

Learn about the requirements of special education mandates regarding the accommodation and adaptation of instruction for early childhood and elementary age students with special needs. Examine individual needs through appropriate adaptations to curriculum, instruction, resources and management techniques for the inclusive classroom at the designated age/grade level. **Prereq:** EDU 214. **Note:** Typically offered at MC and OL; fall term.

EDU 271 - Management Strategies in the Classroom

1 credit hour - Three hours weekly; five weeks.

Examines classroom management strategies for current teachers and paraprofessionals. Emphasizes integration of effective teaching techniques with appropriate classroom strategies. Examines classroom and lesson planning, principles of effective instruction and teacher-student relationships. **Note:** Typically offered OL; spring term.

EDU 280-299 - Special Topics in Education

-

Provides an intensive study of current or specialized themes, topics or methods in the field of education. **Prereq:** Will vary depending on course offering.

Electronic Engineering Technology

EET 118 - Electronic Hardware and Assembly Techniques

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Introduces electronic hardware including electronic components and circuit boards, electronic packaging, computers, audio and video equipment, home wiring and security systems. Teaches how to make basic electrical measurements, interconnect equipment and diagnose minor problems. Also includes schematic reading, electronic and mechanical fabrication techniques, soldering and circuit board production and individual student project. Hands-on lab supports topics. No experience in electronics necessary. Lab fee \$40. **Note:** Typically offered MC; fall and spring terms.

EET 130 - Introduction to Electronic Circuits

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Learn basic techniques for analyzing direct and alternating current circuits and reading simple schematic diagrams. Solve problems and trouble-shoot circuits involving resistance, capacitance, inductance, voltage, current, and power. Lab fee \$25. **Prereq:** Eligibility for MAT 145 or MAT 151. **Note:** Typically offered MC; fall and spring terms.

EET 140 - Introduction to Telecommunications

3 credit hours - Three hours of lecture weekly; one term.

Introduces concepts, capabilities, systems and terminology of the telecommunications industry. Topics include telecommunications electronics, standards, technology review including broadband and other emerging technologies, convergence of communications, computers and the Internet, regulation and the economic and social impact of telecommunications. This course has an optional hands-on companion lab, EET 141 Telecommunications Wiring Laboratory, which you must sign up for separately.

EET 141 - Telecommunications Wiring Laboratory

1 credit hour - One hour of lecture and one hour of laboratory weekly; one term.

Take part in hands-on exercises in fiber optic and copper cabling installation. Learn to identify types of cabling, install jacks, panels and equipment racks. This course can be taken as an optional lab in conjunction with EET 140, or as a stand-alone course. Lab fee \$30.

EET 150 - Semiconductors and Linear Circuits

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Introduces the characteristics and operation of semiconductor diodes, transistors and FETs. Learn basic amplifier concepts, along with the theory and applications of linear integrated circuits including operational amplifiers, comparators and power supply regulators. Lab fee \$25. **Prereq:** EET 130 or permission of department chair. **Note:** Typically offered MC; spring and summer terms.

EET 191 - Fiber Optics Installer 1

3 credit hours - Three hours of lecture and directed lab weekly; one term.

Learn about codes, standards, and regulatory requirements of the fiber optics industry. Understand the theory of operation of single and multimode fiber optic cables including protocols and measurements used in the telecommunications industry. Develop skills through laboratory exercises to practice in terminating, mechanical splicing, inspecting, and testing fiber optic cables.

EET 192 - Fiber Optics Installer 2

3 credit hours - Three hours of lecture and directed lab weekly; one term.

Learn about light theory and laser fundamentals including the content of the light spectrum generated by the various light sources. Learn about the equipment used to receive fiber optic signals and effect optical power has on performance. Develop skills through laboratory exercises to practice terminating, fusion splicing, inspecting, and testing of installed fiber optic systems. **Prereq:** EET 191.

EET 193 - Fiber Optics Installer 3

3 credit hours - Three hours of lecture and directed lab weekly; one term.

Learn the theory of operation and function of components found in installed fiber optic systems that include LEDs, photodiodes, and lasers. Learn about modulation and demodulation techniques, LAN architectures and protocols used in fiber optics transmission systems. Apply fiber optic systems knowledge to complete a design project in a real-world scenario. **Prereq:** EET 192.

EET 231 - Digital-Electronic Circuits

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

A study of the principles and practices of digital electronic theory, components and circuits. Digital concepts involving number systems, Boolean algebra and logic gates are studied in conjunction with flip-flops, counters, encoders, multiplexers and digital-to-analog and analog-to-digital converters (ADC). State-of-the-art programmable logic devices are integrated throughout the course. The course culminates with the construction and functioning of computer busses with random access memory (RAM). Lab fee \$25. **Prereq:** EET 130 or permission of department chair. **Note:**

Typically offered MC; fall term.

EET 240 - Fiber Optic Communications

3 credit hours - Three hours of lecture weekly; one term.

Introduces the basic concepts of fiber optic communications. Topics include fiber characteristics, light theory, connectors and splicing, wave division multiplexing, optoelectronics and practical applications in manufacturing and installation. Some topics in this course make use of basic math concepts.

EET 250 - Microprocessors and Microcontrollers

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Introduces microprocessor and microcontroller-based digital systems. The Intel 8085 microprocessor is used to develop concepts of basic computer architecture including the CPU, buses, memory and input/output. These concepts are then applied to the PIC microcontroller. Microcontrollers are small, single-chip computers often used in appliances and machines. Over five billion PIC devices are currently in use worldwide. Both hardware and software aspects are included so that you can learn how to design, analyze and program these systems to accomplish a specific task. Some previous familiarity with digital concepts would be helpful but not necessary. Lab fee \$50. **Prereq:** EET 130 or permission of department chair. **Note:** Typically offered OL; spring term.

EET 255 - Metrology and Calibration

4 credit hours - three hours lecture and three hours laboratory weekly; one term

Learn the fundamentals of metrology, the study of measurements, as it relates to calibration. Explore the processes, equipment, math, and required reporting for proper industrial electronic equipment calibration. Demonstrate the proper use of calibration tools, processes, and reporting through hands-on labs. Lab fee \$30. **Prereq:** EET 130 or permission of the engineering department chair. **Note:** Typically offered MC; summer term.

EET 260 - Electronic Communication Systems

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Learn theory and concepts of electronic communication circuits and systems. Study the basic applications of resonant LC circuits in bandpass filters, oscillators, power and tuned voltage amplifiers. Includes bandwidth allocations, AM, FM, SSB modulations plus circuits and systems that transmit and receive these signals. Covers transmission line fundamentals, antennas and satellite systems. Helps prepare students for the FCC exams for the General Radiotelephone Operator's License (GROL) and the Amateur Radio Technician License. You must register for both EET 260 and EET 260LB. Lab fee \$25. **Prereq:** EET 150. **Note:** Students may take EET 150 and EET 260 concurrently. Please contact department chair.

EET 265 - Electronics Technician Capstone

3 credit hours - Three hours of combined lecture/lab weekly; one term.

Design and build a project in an area of electricity, electronics or communications to reinforce and demonstrate practical lab and system troubleshooting skills. Work directly with a faculty mentor through the design, build and test phases. Present project at completion. Prepare for Certified Electronics Technician Associate (CETa) examination. Lab fee \$50. **Prereq:** EET 118, EET 130, EET 150, and EET 231.

EET 275 - Internship in Electronic Engineering Technology

3 credit hours - One hour seminar. 15 hours related work experience weekly; one term.

Acquire practical experience in a work environment related to the field of electronic engineering technology. You set objectives jointly with supervising employer and instructor. **Prereq:** Permission of instructor or department chair.

Note: Enrollment in internship courses requires that students hold an appropriate internship placement in order to receive course credit. Please consult with the Coordinator for Internships prior to registering unless otherwise specified by the department chair or director.

EET 280 - Special Topics -Fiber Optics Installer 1

3 credit hours - Three hours of lecture and directed lab weekly; one term.

Learn about codes, standards, and regulatory requirements of the fiber optics industry. Understand the theory of operation of single and multimode fiber optic cables including protocols and measurements used in the telecommunications industry. Develop skills through laboratory exercises to practice in terminating, mechanical splicing, inspecting, and testing fiber optic cables.

EET 280-299 - Special Topics in Electronic Engineering Technology

-
Current or specialized topics in electronic engineering are covered including power systems, electrostatics, electromagnetic field theory, solar energy applications, laser technology, bioelectric system, modeling instrumentation, microwave circuits, artificial intelligence, electro-optic devices and solid-state devices. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$14-21.

Prereq: Will vary depending on course offering.

Emergency Medical Technician

EMT 100 - Uh Oh! What do I do?

1 credit hour - 1.5 hours weekly; one term

Explore the knowledge, skills, and abilities to render basic care to a sick or injured person until trained help arrives. Learn and demonstrate CPR/AED Family and Friends standards, Stop the Bleed training, and basic first aid with what you have in your house or outside. Create basic evacuation plans for your home or business. Learn personal safety in the event of local emergencies such as hurricanes, flooding, tornadoes, and earthquakes. Lab fee \$50.

EMT 103 - Operations Level for Hazardous Materials and Weapons of Mass Destruction

2 credit hours - Three hours weekly; 10 weeks.

Provides firefighters, medical technicians, rescue and public safety personnel with the knowledge and skill to perform hazardous materials first response and preparedness against terrorist attacks from nuclear devices and biological and chemical weapons. Appropriate for those wishing to gain an overview of hazardous materials and weapons of mass destruction and an understanding of the roles of public safety personnel, this course meets the Anne Arundel County Fire Department Awareness and Operations Level of certification for Hazardous Material and Terrorist Incident.

EMT 104 - Emergency Medical Care, CPR & AED

3 credit hours - 31 hours of lecture, 23 hours of laboratory; one term.

This course meets the Wellness Requirement. Explore the knowledge, skills, and abilities for citizens, law enforcement officers, and other public safety officials to render basic care to a sick or injured person until the arrival of emergency medical technicians or paramedics. Focus on gaining access to patients, performing patient assessment, and managing life threatening situations. Recognize positive self-care for an emergency responder. Learn and demonstrate American Heart Association Basic CPR/AED standards for certification. Successful completion leads to eligibility to take the National Registry Emergency Medical Responder exam and the Maryland State exam for certification. There is a fee associated with each of these exams. Lab fee \$60. **Note:** This course is not recommended for students seeking to continue in the EMT program. Students interested in preparing for emergency medical technician (EMT) level certification and for future certification as a paramedic should enroll in EMT 105. Credit is not given for both EMT 104 and EMT 105 or both EMT 104 and HEA 150.

EMT 105 - Emergency Medical Technician (EMT)

10 - 126 hours of lecture, 52 hours of laboratory, 12 hours of field experience; one term.

Develop the knowledge, skills and abilities for personnel who will deliver emergency medical care for the sick or injured of all ages in the pre-hospital setting. Focus on how to control the emergency scene, make patient assessments, and manage patients in the field or those in an ambulance. Recognize positive self-care for an emergency responder. Successful completion leads to American Heart Association CPR and AED certification as well as eligibility to take the National Registry Emergency Medical Technician (NREMT) exams for national certification. Students who successfully obtain their national certification are eligible for State of Maryland certification. There is a fee associated with the national exam. Affiliation with an Emergency Medical Service (EMS) jurisdiction is required for state certification. Lab fee \$200. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Credit is not given for both EMT 104 and EMT 105.

EMT 106 - Human Systems for the EMT-Intermediate

2 credit hours - Two hours weekly; one term.

Study the gross anatomy and physiology for the integumentary, skeletal, muscular, nervous, circulatory, lymphatic, respiratory, digestive, endocrine, urinary and reproductive systems. **Prereq:** (1) EMT 105; (2) EMT-B certified for one year with a minimum of 100 documented ambulance calls, or less than one year and 150 documented ambulance calls and (3) three letters of recommendation; (4) eligibility for ENG 101/ENG 101A; and (5) permission of the department chair.

EMT 109 - Cardiac Algorithms for the EMT-Intermediate

2 credit hours - Two hours weekly; one term.

Learn to care for patients with cardiac dysrhythmias using pharmacological and electrical therapies. Lab fee \$75.

Prereq: (1) EMT 110; (2) EMT 111; and (3) permission of the department chair.

EMT 110 - Foundations of EMT-Intermediate Practice

5 credit hours - 60 hours of lecture, 30 hours of college laboratory; one term.

Learn the roles and responsibilities of the profession, medical terminology and drug calculation, standard precautions in infectious diseases, and theory and practice of patient assessment. Students are expected to practice selected procedures on each other during college lab. **Prereq:** (1) EMT 106 Human Systems for the EMT-Intermediate; (2) EMT 105; (3) EMT-B certified for one year with a minimum of 100 documented ambulance calls, or less than one year and 150

documented ambulance calls; (4) three letters of recommendation; (5) eligibility for ENG 101/ENG 101A; and (6) permission of the department chair.

EMT 111 - EMT-Intermediate Concepts and Practice 1

4 credit hours - 45 hours of lecture, 15 hours of college laboratory; one term.

Learn the principles of advanced airway management and ECG interpretation. Students are expected to practice selected procedures on each other during college lab. Lab fee \$100. **Prereq:** (1) EMT 106 Human Systems for the EMT-Intermediate; (2) EMT 105; (3) EMT-B certified for one year with a minimum of 100 documented ambulance calls, or less than one year and 150 documented ambulance calls; (4) three letters of recommendation; (5) eligibility for ENG 101/ENG 101A; and (6) permission of the department chair. **Coreq(s):** EMT 110

EMT 112 - EMT-Intermediate Concepts and Practice 2

3 credit hours - 30 hours of lecture, 30 hours of college lab; one term.

Introduces the student to the kinematics of trauma and pathophysiology of shock, the study of body fluid and electrolyte imbalances. Includes techniques for assessing and implementing treatment modalities for patients involved in multi-system trauma. Students are expected to practice selected procedures on each other during college lab. Lab fee \$75. **Prereq:** (1) EMT 110, EMT 111; and (2) permission of the department chair. **Coreq(s):** EMT 113.

EMT 113 - EMT-Intermediate Concepts and Practice 3

3 credit hours - Three hours weekly; one term.

Learn unique emergencies and pre-hospital management of special population groups. Includes maternal and newborn care, pediatric and geriatric patient management, chemical dependence, medical and behavioral emergencies. **Prereq:** EMT 110, EMT 111 and permission of the EMT department chair. **Coreq(s):** EMT 112

EMT 114 - EMT-Intermediate Skills Mastery and Field Internship

5 credit hours - 60 hours of college laboratory, 135 hours of hospital clinical and field experience; one term.

Gain advanced life support skills, experience and competence in college lab. Through supervised hospital clinical and field experience, prepare the EMT-Intermediate student to transition to field practice and develop in the role of pre-hospital provider. Successful completion leads to eligibility to take the Maryland State EMT Intermediate certification exam. Students are expected to practice selected procedures on each other during college lab. Lab fee \$75. Clinical fee \$25. **Prereq:** EMT 112, EMT 113 and permission of the EMT department chair.

EMT 115 - Introduction to Paramedic

2 credit hours - 24 hours of lecture; 12 hours of laboratory; one two-week term

Integrate appropriate medical language and knowledge of the emergency medical services (EMS) systems with the safety and well-being of the paramedic. Synthesize medicolegal and ethical issues intended to improve the health of EMS personnel, patients and their community. Apply medical mathematical calculations for patient medication administration. Lab fee \$100. **Prereq:** Admission into the Paramedic program.

EMT 118 - Paramedic 1

13 credit hours - 120 hours of lecture, 90 hours of college lab, 90 hours of hospital clinical and field experience; one term.

Learn the duties and responsibilities of a paramedic in utilizing advanced life support concepts and practices of infection control, patient assessment, and pharmacological intervention. Explore and apply advanced medical management techniques for behavioral, respiratory and cardiovascular emergencies. Practice selected procedures on each other during college lab. Lab fee \$350; Clinical fee \$100. **Prereq:** EMT 115 with a grade of C or better. **Note:** Mandatory attendance is required for all college lab, clinical and field rotations. Missed labs or rotations are made up at the student's expense or will result in failure of the course.

EMT 119 - Paramedic 2

13 credit hours - 120 hours of lecture, 90 hours of college lab, 90 hours of hospital clinical and field experience; one term.

Apply pathophysiological processes and treatment modalities in the pre-hospital management of injuries and illnesses. Explore treatments specific to special populations including pediatric, geriatric and varying cultures and religious beliefs. Integrate pharmacological interventions and management for emergencies in medical and trauma conditions. College lab and clinical settings provide skill performance and mastery opportunities. Practice selected procedures on each other during college lab. Lab fee \$350; Clinical fee \$100. **Prereq:** EMT 118 with a grade of C or better. **Note:** Mandatory attendance is required for all college lab, clinical and field rotations. Missed labs or rotations are made up at the student's expense or will result in failure in the course.

EMT 140 - Paramedic 1

13 credit hours - 120 hours of lecture, 90 hours of college lab, 90 hours of hospital clinical and field experience; one term.

Learn the duties and responsibilities of the EMT- Paramedic in utilizing advanced life support concepts and practices of infection control, patient assessment, pharmacological intervention, and advanced management skills for respiratory and cardiovascular emergencies. Practice selected procedures on each other during college lab. Lab fee \$150. Clinical fee \$50. **Prereq:** BIO 230 or BIO 232 or BIO 234.

EMT 142 - Paramedic 2

13 credit hours - 120 hours of lecture, 90 hours of college lab, 90 hours of hospital clinical and field experience; one term.

Analyze pathophysiological processes in the pre-hospital management of special populations including pediatric and geriatric patients. Explore pharmacological intervention and advanced management of emergency medical and trauma conditions. College lab and clinical setting provide skills performance and mastery opportunities. Practice selected procedures on each other during college lab. Lab fee \$150. Clinical fee \$50. **Prereq:** *EMT 140 and EMT 147.*

EMT 147 - ALS Unit Practicum

2 credit hours - 120 hours; one term.

Introduces the role of the advanced life support provider in the field. Students perform selected advanced life support skills in the pre-hospital environment under the direction of paramedic preceptors. **Prereq:** *Permission of EMT department chair.*

EMT 200 - EMT-Intermediate to Paramedic Bridge Skills Mastery 1

2 credit hours -

Gain supervised hospital clinical and field experience to prepare the EMT-Intermediate to transition into the role of the Paramedic. Mandatory attendance is required for all college lab, clinical and field rotations. Missed college labs or clinical/field rotations are made up at the expense of the student or will result in failure in the course. Lab fee \$150. Clinical fee \$50. **Prereq:** *EMT-Intermediate certification; BIO 230 or BIO 232 or BIO 234.* **Coreq(s):** *EMT 201 and EMT 202.*

EMT 201 - EMT-Intermediate to Paramedic Bridge 1

3 credit hours -

This course introduces the Intermediate practitioner to the duties and responsibilities of the paramedic. Emphasizes critical thinking skills in patient assessment and the use of medications in the treatment of those who are acutely ill or injured. Prepares for the role of team leader and patient advocate. **Prereq:** *EMT-Intermediate certification and BIO 230 or BIO 232 or BIO 234.* **Coreq(s):** *EMT 200 and EMT 202.*

EMT 202 - EMT-Intermediate to Paramedic Bridge 2

9 credit hours -

Emphasizes critical thinking skills in patient assessment and the use of medications in the treatment of those who are acutely ill or injured. Prepares the EMT-Intermediate for the role of team leader and patient advocate. **Prereq:** *EMT-Intermediate certification and BIO 230 or BIO 232 or BIO 234.* **Coreq(s):** *EMT 200 and EMT 201*

EMT 203 - 12 Lead ECG Interpretation for the EMT-Intermediate

2 credit hours - 30 hours of lecture; one term.

Learn the fundamentals of 12 Lead Electrocardiograph Technology and Application. This course provides the EMT-Intermediate with the technique to interpret 12 lead electrocardiograms. **Prereq:** *(1) EMT 113; (2) EMT 114; and (3) permission of the department chair.*

EMT 210 - EMT-Intermediate to Paramedic Bridge Skills Mastery 2

4 credit hours -

Gain supervised hospital clinical and field experience to prepare the EMT-Intermediate to transition into the role of the Paramedic. Preparation for the National Practical Certification Examination is provided. Mandatory attendance is required for all college lab, clinical and field rotations. Missed college labs or clinical/field rotations are made up at the expense of the student or will result in failure in the course. Lab fee \$150. Clinical fee \$50. **Prereq:** *EMT 200, EMT 201 and EMT 202.* **Coreq(s):** *EMT 213 and EMT 214.*

EMT 213 - EMT-Intermediate to Paramedic Bridge 3

3 credit hours -

Focuses on the pathophysiology in the pre-hospital management of the acutely ill or injured patients. Promotes critical thinking in the management of the patient experiencing medical emergencies and multisystem trauma. **Prereq:** *EMT 200, EMT 201 and EMT 202.* **Coreq(s):** *EMT 210 and EMT 214.*

EMT 214 - EMT-Intermediate to Paramedic Bridge 4

9 credit hours -

Focuses on pathophysiological processes in the pre-hospital management of special populations including the pediatric and geriatric. Students gain knowledge of patients experiencing psychological disorders and traumatic injuries. Cultural diversity and its effect on health care is discussed. Preparation for the National Registry Written Examination is provided. **Prereq:** *EMT 200, EMT 201 and EMT 202.* **Coreq(s):** *EMT 210 and EMT 213.*

EMT 215 - Paramedic 3

5 credit hours - 30 hours of lecture, 60 hours of college lab, 48 hours of field rotations; one term.

Synthesize advanced pathological concepts, principles, and skill mastery in caring for patients in a pre-hospital environment. Utilize critical thinking skills through scenario-based assessment to formulate and institute a clear and concise treatment and disposition plan for various diseases and injuries. Integrate team leadership, crew resource management techniques, patient advocacy, and entry-level practice as a paramedic professional. Practice selected procedures on each other during college lab. Lab fee \$250. **Prereq:** *EMT 119 with a grade of C or better or permission of the department chair.* **Note:** *Mandatory attendance is required for all college lab, clinical and field rotations. Missed labs or rotations are made up at the student's expense or will result in failure in the course.*

EMT 236 - Paramedic 3

12 credit hours - 64 hours of lecture, 126 hours of college lab, 180 hours of hospital clinical and field experience; one term.

Learn advanced pathological concepts, principles, and skill mastery in caring for patients in the pre-hospital field. Practice critical thinking skills through scenario-based assessment with development and implementation of a treatment plan for various diseases and injuries. Synthesize learned abilities for role of team leader, patient advocate, and entry-level practice as a paramedic professional in the pre-hospital environment. Practice selected procedures on each other during college lab. Lab fee \$200. Clinical fee \$50. **Prereq:** *EMT 142*.

EMT 270 - Paramedic Capstone

7 credit hours - 8 hours of lecture, 60 hours college lab, 204 hours of capstone field experience; nine week course; one term.

Utilize critical thinking skills, comprehensive history and physical assessment within their patient interactions to formulate and institute an appropriate field impression and treatment plan for various diseases and injuries. Identify factors affecting the health and health needs of a patient. Integrate team leadership, patient advocacy and entry-level practice as a paramedic professional. Demonstrate skill mastery as an entry-level paramedic provider in scenario based testing. Demonstrate effective communications in a manner that is culturally sensitive and intended to improve the patient outcome. Practice selected procedures on each other during college lab. Lab fee \$300; Clinical fee \$100.

Prereq: *EMT 215 with a grade of C or better. Note: Mandatory attendance is required for all college lab, clinical and field rotations. Missed labs or field rotations are made up at the student's expense or will result in failure in the course.*

EMT 280-299 - Special Topics: Emergency Medical Technology

-

Permits qualified emergency medical technician students to meet updated certification and competency requirements or to complete necessary course work to be eligible to take state and national EMT exams. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-50.

Prereq: *Permission of the EMT department chair.*

Engineering

EGR 120 - Introduction to Engineering Design

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

This course meets the Technology Requirement. Develop an understanding of the engineering profession and the engineering design process. Work individually and in teams to design, build and document projects. Includes engineering ethics, technical drawing, computer-aided drafting, spreadsheet tools for engineers, and an introduction to programming. Lab fee \$30. **Prereq:** *Eligibility for MAT 191 and ENG 101/ENG 101A or permission of engineering department chair. Note: Typically offered at MC and OL; fall and spring terms.*

EGR 209 - Statics

3 credit hours - Three hours of lecture weekly; one term.

Study the equilibrium of particles and rigid bodies subject to general force systems in two and three dimensions. Learn about forces, moments, couples, equilibrium, trusses, frames and machines, friction, centroids, moments of inertia and internal forces. Use vector and scalar methods to solve problems. **Prereq:** *MAT 191. Note: Typically offered MC; fall, spring and summer terms.*

EGR 211 - Mechanics of Materials

3 credit hours - Three hours of lecture weekly; one term.

Study deformation of engineering materials under stress, including topics of shear, bending moment, torsion, combined stresses, stress analysis, statically indeterminate elements, virtual work and columns. **Prereq:** *MAT 192 and EGR 209 with a grade of C or better. Note: Typically offered OL; fall and spring terms.*

EGR 222 - Dynamics

3 credit hours - Three hours of lecture weekly; one term.

Study kinematics and kinetics of particles and rigid bodies. Learn about forces, mass, acceleration, work, energy, impulse, momentum and impact. Use vector and scalar methods to solve problems. **Prereq:** *MAT 192, PHY 211 and EGR 209 with a grade of C or better. Note: Typically offered MC; fall and spring terms.*

EGR 235 - Circuit Theory

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Learn about DC and AC networks including transient analysis, sinusoidal and non-sinusoidal waveforms, resonance, frequency response, and magnetically-coupled circuits. Apply methods of analysis including Kirchhoff's equations, Thevenin's and Norton's theorems, mesh and nodal analysis, source transformations, duality and superposition. Lab fee \$25. **Prereq. or Coreq.:** *MAT 212 and PHY 212 or permission of engineering department chair. Note: Typically offered MC; fall and spring terms.*

EGR 241 - Systems and Signals

4 credit hours - Four hours of lecture/lab weekly; one term.

Apply numerical tools to systems and signals. Become familiar with aspects of numerical computation and appreciate the limitations. Master basic tools from linear algebra and calculus required for modeling real-world systems and signals. Implement digital filters for use in signal processing applications. Become proficient in a computer numerical analysis application. Lab fee \$20. **Prereq:** *MAT 192. Note: Typically offered MC; spring term.*

EGR 244 - Digital Logic Design

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Learn the mathematical basis for number systems used in Boolean algebra. Understand the properties and function of logic gates. Design combinatorial circuits using adders, subtractors, multiplexers, encoders, and decoders. Understand the properties of flip-flops. Design sequential circuits involving registers, counters, and memory. Use hardware description language (HDL) to program FPGAs. Lab fee \$25. **Prereq:** MAT 191 and either EGR 120 or CTP 150; or permission of engineering department chair. **Note:** Typically offered MC; fall and spring terms.

EGR 250 - Intermediate Programming for Engineers

3 credit hours - Two hours of lecture and two hours of lab weekly; one term.

Learn intermediate principles of software development, including high level languages, object-oriented design, documentation, data structures, graphs and dynamic memory allocation. Develop programs primarily using the C programming language for various applications including analysis of digital and analog circuits, cryptography, bio-informatics, embedded software, game programming, image processing, and wireless sensor networks. Lab fee \$30.

Prereq: Eligibility for MAT 191 and completion of EGR 120 or permission of engineering department chair. **Note:** Typically offered OL; fall and spring terms.

EGR 262 - Engineering Materials

3 credit hours - Three hours of lecture weekly; one term.

A study of the properties and behavior of materials used in engineering applications. Covers structure of materials, chemical composition, phase transformations, corrosion and mechanical properties of metals, ceramics, polymers and related materials.

EGR 268 - Thermodynamics

3 credit hours - Three hours of lecture weekly; one term.

Formerly EGR 221 – Thermodynamics. Study properties of gases and vapors. Solve problems applying the first and second laws of thermodynamics. Apply thermodynamic principles in the analysis of engineering systems such as engines, refrigeration and power cycles, and psychrometrics. **Prereq:** CHE 111, MAT 192 and PHY 212.

EGR 275 - Internship in Engineering 1

3 credit hours - One hour seminar. 20 to 40 hours of program-related work experience weekly; one term.

Students participate in academically coordinated work placement related to program of study. Work placement must be certified by the academic department chair or the adviser. Completion of 28 or more credit hours is recommended.

Prereq: Permission of instructor or department chair. **Note:** Enrollment in internship courses requires that students hold an appropriate internship placement in order to receive course credit. Please consult with the Coordinator for Internships prior to registering unless otherwise specified by the department chair or director.

EGR 276 - Internship in Engineering 2

3 credit hours - One hour seminar. 20 to 40 hours of program-related work experience weekly; one term.

A continuation of EGR 275, Practicum in Engineering 1. Students will continue to learn how principles of engineering are applied in an actual job experience. A variety of tasks are observed and experienced, utilizing occupational skills learned in the classroom. Tasks include exposure to technical writing and oral presentation. Continued work experience further integrates, supplements and reinforces academic learning under controlled, coordinated conditions. Completion of 28 or more credit hours is recommended. **Prereq:** Permission of instructor or department chair. **Note:** Enrollment in internship courses requires that students hold an appropriate internship placement in order to receive course credit. Please consult with the Coordinator for Internships prior to registering unless otherwise specified by the department chair or director.

EGR 280-299 - Special Topics in Engineering

-

Current or specialized topics of interest to engineering students and engineers are covered. Possible topics are problem-solving software, computer-aided design, boundary element method of analysis, nondestructive evaluation, robotics, engineering ethics, environment engineering, machine vision, composites tele-communications, automated systems for manufacturing and inventory management. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee varies.

Engineering Technologies**ENT 241 - Computer-Aided Drafting**

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Learn to use AutoCAD in this introductory course. Acquire the skills and practice the processes to draw mechanical parts, architectural plans and engineering diagrams. Master basic commands, file maintenance, creation of 2D drawings, isometric views and plotting. Complete an application-specific project. Previous experience in drafting fundamentals is helpful. Lab fee \$35. **Note:** Credit is not given for both ENT 241 and ACH 245. Typically offered MC; fall, spring, and summer terms.

ENT 242 - Advanced Computer-Aided Drafting and Design

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Gain proficiency in 2D concepts, assign data to blocks, create bills of materials and external references and digitize

images. Advance from simple 3D objects through more complex shapes. Apply concepts by creating practical projects, such as a four cylinder engine assembly and a propeller. Create a final 3D project. Lab fee \$35. **Prereq:** ENT 241 or ACH 245 or permission of department chair.

ENT 260 - Solid Modeling with SolidWorks

3 credit hours - Two hours of lecture and three hours of laboratory weekly; one term.

Learn to use SolidWorks, the next generation of 3D CAD software. SolidWorks is a fully editable solid-modeling CAD software used to produce 3D drawings of solid models. The course will start by first discussing 2D entities, then gradually creating 3D solid models and then finally integrating those models into an assembly. The student will also learn how to extract drawing views from 3D solid models. This course assumes a basic knowledge of orthographic drawings. Lab fee \$35. **Note:** Typically offered MC; fall, spring, and summer terms.

ENT 261 - Rapid Prototyping Techniques

4 credit hours - Four hours of lecture/lab weekly; one term.

Use the advanced features of three-dimensional solid-modeling applications. Apply CAD (computer-aided drafting) and CAM (computer-aided manufacturing) knowledge to industry applications. Model complex parts and create prototypes with current rapid prototype technologies. Apply finishing techniques to produce professional prototype models. Create a drafting portfolio. Lab fee \$50. **Prereq:** ENT 260 or permission of department chair. **Note:** Typically offered MC; spring term.

ENT 275 - Internship in Engineering Technology

3 credit hours - One hour seminar. 15 hours related work experience weekly; one term.

An opportunity to acquire practical experience in a work environment related to the field of engineering technology. Objectives set by student, student's employer and instructor. **Prereq:** Permission of department chair or adviser. **Note:** Enrollment in internship courses requires that students hold an appropriate internship placement in order to receive course credit. Please consult with the Coordinator for Internships prior to registering unless otherwise specified by the department chair or director.

ENT 280-299 - Special Topics in Engineering Technologies

-

Current or specialized topics of interest to engineering technologies students. Possible topics are industrial animation, desktop manufacturing, small boat design, computer-controlled machinery, solar power and CAD for specific technical disciplines. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$5-21.

English

ENG 099 - Support for Academic Writing and Research

2 equivalent hours - Two hours lecture weekly; one term.

Collaborate with the instructor to obtain extra support in developing critical writing, reading, and thinking strategies. Obtain extra support in specific writing skills at the sentence and essay levels with an emphasis on the research process. Develop and implement strategies and tools that promote academic success. **Prereq:** A grade of C or better in ACL 040 or appropriate placement into ENG 101A or permission of the department chair. **Coreq(s):** ENG 101A. **Note:** Students who earn a grade of C or better in ENG 101A will earn a passing grade in ENG 099 and progress to ENG 102. Students who earn a grade of D in ENG 101A will earn a passing grade in ENG 099 and will be eligible to take ENG 101 or may choose to repeat both ENG 099 and ENG 101A. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.

ENG 101 - Academic Writing and Research 1

3 credit hours - Three hours lecture weekly; one term.

This course meets the English Composition General Education Requirement. Learn critical writing, reading, and thinking strategies. Write multiple essays, culminating in an instructor-guided research paper. Analyze a variety of texts and identify their cultural, historical, and social contexts. Develop foundational information literacy, academic research, and documentation skills. **Prereq:** Appropriate placement into ENG 101. **Crosslisted:** Also offered as ENG 101H. **Note:** A grade of C or better is required to satisfy the general education requirement. Credit is not given for both ENG 101 and ENG 101H or ENG 101 and ENG 101A. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.

ENG 101A - Academic Writing and Research 1

3 credit hours - Three hours lecture weekly; one term.

This course meets the English Composition General Education Requirement. Learn critical writing, reading, and thinking strategies. Write multiple essays, culminating in an instructor-guided research paper. Analyze a variety of texts and identify their cultural, historical, and social contexts. Develop foundational information literacy, academic research, and documentation skills. **Prereq:** A grade of C or better in ACL 040 or appropriate placement into ENG 101A. **Coreq(s):** ENG 099. **Note:** A grade of C or better is required to satisfy the general education requirement. Credit is not given for both ENG 101A and ENG 101 or ENG 101A and ENG 101H. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.

ENG 101H - Academic Writing and Research 1 - Honors

3 credit hours - Three hours lecture weekly; one term.

This is an honors course. Learn critical writing, reading, and thinking strategies. Write multiple essays, culminating in an instructor-guided research paper. Analyze a variety of texts and identify their cultural, historical, and social contexts. Develop foundational information literacy, academic research, and documentation skills. **Prereq:** *Eligibility for Honors courses and appropriate placement into ENG 101.* **Crosslisted:** *Also offered as ENG 101.* **Note:** *A grade of C or better is required to satisfy the general education requirement. Complete and present an honors capstone research project that extends beyond the classroom. Credit is not given for both ENG 101H and ENG 101 or ENG 101H and ENG 101A. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.*

ENG 102 - Academic Writing and Research 2

3 credit hours - Three hours lecture weekly; one term.

This course meets the English Composition General Education Requirement. Develop advanced critical writing, reading, and thinking skills. Compose analytical and argumentative essays, culminating in the production of an independent, extensive, multiple-source, fully documented research paper. Analyze a variety of texts through close reading and explore their cultural, historical, and social contexts. Learn advanced research techniques, including formulation of research questions, identification of multiple audiences, analysis of rhetorical situations, and ethical research tactics. **Prereq:** *Successful completion of ENG 101 or ENG 101H or ENG 101A with a grade of C or better.* **Crosslisted:** *Also offered as ENG 102H; credit is not given for both ENG 102 and ENG 102H.* **Note:** *A grade of C or better is required to satisfy the general education requirement. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.*

ENG 102H - Academic Writing and Research 2 Honors

3 credit hours - Three hour of lecture weekly; one term.

This is an honors course. Develop advanced critical writing, reading, and thinking skills. Compose analytical and argumentative essays, culminating in the production of an independent, extensive, multiple-source, fully documented, research paper. Analyze a variety of texts through close reading and explore their cultural, historical, and social contexts. Learn advanced research techniques, including formulation of research questions, identification of multiple audiences, analysis of rhetorical situations, and ethical research tactics. **Prereq:** *Eligibility for Honors courses and successful completion of ENG 101 or ENG 101H or ENG 101A with a grade of C or better.* **Crosslisted:** *Also offered as ENG 102; credit is not given for both ENG 102H and ENG 102.* **Note:** *A grade of C or better is required to satisfy the general education requirement. Complete and present an honors capstone research project that extends beyond the classroom. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.*

ENG 111 - Composition and Introduction to Literature 1

3 credit hours - Three hours weekly; one term.

Learn single-paragraph and multi-paragraph writing. Gain substantial writing practice both in and out of class. Analyze short fiction and poetry. **Prereq:** *Required scores on the SAT, ACT, or the college's placement test; or a grade of C or better in ENG 002 or ENG 003 and, if necessary, in RDG 028 or RDG 029 or RDG 040.* **Note:** *This course meets requirements for students who are in the catalog year 2018-2019 or prior.*

ENG 112 - Composition and Introduction to Literature 2

3 credit hours - Three hours weekly; one term.

This course meets the English Composition General Education Requirement. Continue study of multi-paragraph writing, stressing patterns of exposition and instruction in writing research papers. Gain substantial writing practice. Read novels and plays. **Prereq:** *ENG 111.* **Note:** *This course meets requirements for students who are in the catalog year 2018-2019 or prior. This course must be completed with a C or better to satisfy the English composition general education requirement for award of a degree.*

ENG 160 - The Art and Science of Grammar

3 credit hours - Three hours of lecture weekly; one term.

Learn the grammar of the English language at an advanced level. Focus on the definitions, functions and relationships among its words. Analyze the types, styles and logic of grammatically correct sentences and use this knowledge and these skills to assess effective written communication. Assess punctuation's impact on communication. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ENG 161 - Introduction to Linguistics

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Explore the nature of language and the development of the English language. Learn about the evolution, operation and acquisition of human language and its relation to animal communication. Investigate social and cultural influences on language and the development of dialects. Analyze the relationship between language, thinking and writing, and trace the development of various writing systems. No knowledge of a foreign language is necessary. **Note:** *Typically offered at MC and OL; spring term.*

ENG 200 - Introduction to Creative Writing

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn the basic craft elements of writing poetry and short fiction. Complete weekly exercises designed to teach the fundamental aspects of reading and writing poetry and fiction. Develop collections of poems and short stories. Practice the workshop method to discuss student

writing, foster critical thinking and develop individual styles. **Prereq:** *ENG 101/ENG 101A or permission of the department.* **Note:** *Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

ENG 201 - Creative Writing: Beginning Fiction Workshop

3 credit hours - Three hours weekly; one term.

Build on the craft elements of writing fiction introduced in ENG 200. Complete weekly exercises designed to teach important aspects of structure, tone, point-of-view, imagery, metaphor, character development, plot and voice. Develop a portfolio of short stories and/or chapters for a novel. Practice the workshop method to discuss student writing, foster critical thinking and develop individual styles. **Prereq:** *ENG 200 or permission of department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ENG 202 - Creative Writing: Beginning Poetry Workshop

3 credit hours - Three hours weekly; one term.

Build on the craft elements of writing poetry introduced in ENG 200. Complete weekly exercises designed to teach important aspects of imagery, metaphor, rhythm, tone and form. Develop individual poetry portfolios. Practice the workshop method to discuss student writing, foster critical thinking and develop individual styles. **Prereq:** *ENG 200 or permission of department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ENG 203 - Creative Writing: Writing for the Stage and Screen Workshop

3 credit hours - Three hours weekly; one term.

Analyze successful stage plays and screenplays with an eye toward original composition. Discover how to tell gripping stories and learn the fundamental principles and techniques of shaping those stories for the stage and for the screen. Explore ways of building compelling characters, writing effective and memorable dialogue, and structuring dramatic and cinematic acts and scenes. Share writing during workshop sessions in order to hone drafts, develop critical thinking skills and refine individual style. **Prereq:** *ART 180 or ENG 200 or THA 125 or permission of the department chair.*

Crosslisted: *Also offered as ART 218; credit is not given for both ENG 203 and ART 218.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ENG 204 - Creative Writing: Beginning Creative Nonfiction Workshop

3 credit hours - Three hours weekly; one term.

Focus on crafting nonfiction essays that incorporate fiction techniques. Complete a series of writing and reading exercises designed to teach students further aspects of the craft of literary essay writing such as voice, scene and summary, segmented essays, authenticity, imagery and style. Develop a collection of essays including but not limited to personal essay, memoir, portrait, essay of place and literary journalism. The workshop method will be used to discuss student writing and foster critical thinking. **Prereq:** *ENG 200 or permission of department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

ENG 205 - Creative Writing: Portfolio Development

2 credit hours - Two lecture hours weekly; one term.

Prepare a representative portfolio, with the guidance of a faculty mentor, of the work completed in creative writing classes. This course is intended only for students completing the AA in Fine Arts -Creative Writing Option program. This course should be taken during the student's final semester in the program. **Prereq:** *ENG 200 and two of the following: ENG 201, ENG 202, ENG 203, ENG 204 or permission of the department chair.* **Note:** *Typically offered OL; fall and spring terms.*

ENG 207 - Writing for Professionals

3 credit hours - Three hours weekly; one term.

Study and practice problem-solving strategies for professional writing - including technical writing - using casebook studies and student writing projects. Analyze goals, purposes, audiences, and resources in professional written work. Develop strategies for planning, drafting and revising professional writing. **Prereq:** *ENG 101/ENG 101A or permission of the department.* **Note:** *Typically offered OL; fall and spring terms.*

ENG 208 - Fundamentals of Editing

-

Expand listening skills for various purposes. Communicate in a variety of more complex contexts using formal and

informal grammar and integrating new vocabulary. Deliver short presentations using technology and take notes on oral lectures. CEUs awarded.

ESL 347 - High Intermediate Grammar

-

Expand skills in using the perfect and progressive forms for the present, past and future verb tenses. Expand proper usage of all parts of speech. Begin the study of gerunds, infinitives, and phrasal verbs, as well as adjective and noun clauses. CEUs awarded.

ESL 348 - High Intermediate Reading and Vocabulary

-

Use reading and critical thinking skills to improve comprehension of academic texts, poetry, short stories and abridged novels. Develop proficiency in note-taking skills. Improve reading rate and fluency. Expand academic vocabulary. CEUs awarded.

ESL 349 - High Intermediate Writing

-

Review paragraph structure and the five elements of good writing. Produce academic paragraphs and essays, using the five-step writing process. Textbook information available at AACC Bookstore. CEUs awarded.

ESL 387 - Capstone Grammar

-

Master the complex grammatical structures used in effective college-level work. Accurately use verb forms, conditionals, passive voice, and adjective, adverb and noun clauses in academic writing. Use direct and indirect speech to report, summarize and paraphrase information. CEUs awarded.

ESL 396 - Capstone: Academic Speech and Presentations

-

Hone strategies for effective listening, note-taking, discussion and pronunciation to better communicate and prepare for college academic work. Use technology to enhance presentations. Practice various discourse styles, more advanced grammar and vocabulary. CEUs awarded.

ESL 398 - Capstone: Academic Reading and Vocabulary

-

Practice intensive and extensive reading of fiction and nonfiction academic texts. Hone skills in analyzing, problem-solving, summarizing and researching to produce a variety of writing assignments. Increase reading speed, vocabulary and oral fluency. CEUs awarded.

ESL 399 - Capstone: Academic Writing

-

Utilize the five-step writing process to produce college-level essays. Build skills in analyzing literature and writing reaction papers. Edit writing assignments for correct grammar and sentence structure. Textbook information available at AACC Bookstore. CEUs awarded.

Entrepreneurial Studies

ESI 103 - Introduction to Entrepreneurship

3 credit hours - Three hours weekly; one term.

Discover and practice the components of entrepreneurship, idea generation, creative thinking and opportunity recognition. Experiment using entrepreneurial methods and evaluate potential business ideas. Compare and analyze various strategies entrepreneurs have used to start and grow their businesses. Lab fee \$16. **Note:** *Credit will not be given for ESI 103 and also BPA 103. Typically offered at MC and OL; all terms.*

ESI 104 - Entrepreneurship: Sales & Marketing for Small Business

3 credit hours - Three hours weekly; one term.

Gain experience using tools and skills that small business owners need to market their business successfully on a small scale and small budget. Review the sales cycle, the sales process, and the importance of good customer service.

Develop a comprehensive marketing plan for a small business. **Note:** *Typically offered at MC and OL; fall and spring terms.*

ESI 231 - Introduction to Social Entrepreneurship and Nonprofit Management

3 credit hours - Three hours weekly; one term.

Provides an overview of how social entrepreneurs plan, organize, lead, manage, and market nonprofit or not-for-profit organizations. Students examine practical ways to define a community's needs in order to establish an organization's direction, work with a board of directors, and lead both volunteer and paid staff members. This course discusses how to use marketing and communications for developing and sustaining relationships with benefactors and beneficiaries. This course also provides discussion and practical applications of other critical topics including strategic planning, operations management, human resource management, learning and knowledge management, legal requirements, public relations, political action, and financial management. **Note:** *Typically offered at MC; spring term.*

ESI 270 - Entrepreneurship: New Venture Planning

3 credit hours - Three hours weekly; one term.

Learn the process of business planning in this capstone course and work on a semester-long comprehensive business plan for a new venture or existing business. Learn from guest speakers and individual meetings with the instructor with

a focus on applied learning. Explore the use of computer software to aid in planning and managing a new venture. Designed for individuals interested in starting a new venture, acquiring an existing business or working in industries that serve entrepreneurs and managers. Lab fee \$25. **Prereq:** BPA 103 or ESI 103. **Note:** Credit is not given for ESI 270 and also BPA 270. Typically offered at MC and OL; spring term.

Future

FTR 115 - The Future of Aging

3 credit hours - Three hours weekly; one term.

Explore the effects of an aging society on the future. Use futuring tools to examine the impacts of the longevity revolution on economics, health care, the environment, family life, housing, technology and transportation. Develop an understanding of the opportunities and challenges created by an aging society.

FTR 280-299 - Special Topics in Future Studies

-

A focused study of specialized themes or topics involving the Future. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Gender and Sexuality Studies

GSS 101 - Introduction to Women's Studies

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Explore issues in the lives of American women. Examine women's experiences in gender-defining social institutions including the arts, education, the labor force, law and politics, marriage and family life and religion. Analyze, from a multicultural perspective, how issues of gender, power and equity affect women's lives. Especially recommended for students who plan to transfer into a women's studies major, minor or certificate program at a four-year institution. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; all terms.

GSS 102 - Introduction to Masculinity Studies

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Explore issues in the lives of American men. Investigates the interdisciplinary field of masculinity studies by examining contemporary theories of masculinity, changes in the definitions of masculinity in different periods of American history, the sociology and psychology of men's experiences, and gender and sexuality as organizing features of men's lives. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as AMS 102 and SOC 102; credit is given for only one of the following: AMS 102, GSS 102 or SOC 102. **Note:** Typically offered OL; fall, spring, and summer terms.

GSS 113 - Women's Health

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. This course meets the Wellness Requirement. Learn the physical and mental health events that confront women in our society. Investigate disease and stress ailments particular to women in our ever-changing world. **Crosslisted:** Also offered as HEA 113; credit is not given for both GSS 113 and HEA 113

GSS 117 - Healthy Aging for Women

3 credit hours - Three hours weekly; one term.

This course meets the Wellness Requirement. Examine the health and wellness related changes of women as they age. Investigate exercise, nutrition, menopause, osteoporosis, cardiovascular disease, female cancers, mental health, and gynecological health concerns and examine how women can influence these age-associated changes to live a healthy life. **Note:** Also offered as HEA 117; credit is not given for both GSS 117 and HEA 117.

GSS 169 - Music, Power and Gender

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement.

Considers music ranging from ancient and medieval music to modern rock and alternative music, from Western music to the music of Asia, Africa, the Middle East and South America, music as a contested terrain in terms of gender, identity and power. Course uses the perspectives of gender studies and ethnomusicology as well as conventional music scholarship to examine women's contributions to world music, Western classical music and popular American music.

Crosslisted: Also offered as MUS 169; credit is not given for both GSS 169 and MUS 169.

GSS 210 - Images of Women

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Gain a multidisciplinary overview of the portrayal of women in the humanities. Emphasize the understanding of women as defined by mythological, religious, philosophical and artistic traditions. **Crosslisted:** Also offered as HUM 210; credit is not given for both GSS 210 and HUM 210.

GSS 211 - Gender and Mass Media in the United States

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Learn principles of contemporary mass media scholarship. Examine how media creates and perpetuates constructions of masculinity and femininity and how these constructions relate to race, ethnicity, class, sexuality and other variables of difference. Explore the political economy of media production, the relationship between media and ideology and audience reception. **Crosslisted:** Also offered as AMS 211; credit is not given for both GSS 211 and AMS 211. **Note:** Typically offered at MC and OL; fall and spring terms.

GSS 212 - Introduction to Lesbian, Gay, Bisexual and Transgender Studies

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Examine the diversity of lesbian, gay, bisexual and transgender (LGBT) behaviors, orientations, identities, communities, and issues from a transhistorical, cross-cultural and interdisciplinary perspective with special emphasis on LGBT culture in the United States. Study the history of human sexuality and gender identity/expression; cultural and social constructions of sexuality and gender; representations of LGBT experience in textual and visual media; legal rights and restrictions; current events and socio-political issues of current interest; methods of queer theory/queer studies; and advocacy, activism and change. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as AMS 212 and SOC 212; credit is given for only one of the following: AMS 212, GSS 212 or SOC 212. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

GSS 213 - Marriage and the Family

3 credit hours - Three hours weekly; one term.

Survey of the dynamics of life in families. A view of the family as a changing social unit and implications of these changes for the individual. Reviews social forces that influence mating and dating, marriage and divorce, and deals with topics of love, sexuality, parenting, aging and death. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as SOC 213; credit is not given for both GSS 213 and SOC 213.

GSS 215 - Psychology of Relationships

3 credit hours - Three hours weekly; one term.

Psychological view of interpersonal relationships including interpersonal influence and leadership, close relationships and friendships, psychology of the sexes, love and intimacy and relationships at the workplace. Includes different perspectives and theories of interpersonal relationships and communication. **Prereq:** PSY 111 or permission of department chair. **Crosslisted:** Also offered as PSY 215; credit is not given for both GSS 215 and PSY 215.

GSS 216 - Human Sexuality

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Learn current information concerning biological, psychological and sociological aspects of human sexual functioning and related concerns. **Prereq:** PSY 111, PSY 111H, or permission of department chair. **Crosslisted:** Also offered as PSY 216/PSY 216H/GSS 216H. **Note:** Credit is not given for PSY/GSS 216H and PSY/GSS 216.

GSS 216H - Human Sexuality - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Learn current information concerning biological, psychological and sociological aspects of human sexual functioning and related concerns. **Prereq:** Eligibility for honors courses; PSY 111 or PSY 111H or permission of department chair. **Crosslisted:** Also offered as PSY 216/PSY 216H/GSS 216. **Note:** Credit is not given for GSS 216H and also PSY 216/PSY 216H.

GSS 217 - Women of the Western World

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Study and analyze women's experiences, social roles and contributions to the development of Western society from ancient times to the 21st century. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as HIS 217; credit is not given for both GSS 217 and HIS 217.

GSS 218 - History of Women in America: 1607-Present

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Study the roles of women in America from the colonial period to the present. Explore and analyze the importance of work and family in women's lives. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as HIS 218; credit is not given for both GSS 218 and HIS 218.

GSS 220 - Gender and Culture: Gender Roles in Cross-Cultural Perspective

3 credit hours - Three hours weekly; one term.

Examination of various cultures to understand how gender and gender roles are constructed and how they structure social relationships. Course presents theoretical perspectives and empirical evidence from a variety of cultures, including pre-industrial, industrial, post-industrial societies and developing countries. **Prereq:** GSS 101, SOC 111 or ANT 121 / SOC 121. **Crosslisted:** Also offered as SOC 220; credit is not given for both GSS 220 and SOC 220.

GSS 221 - Psychology of Men

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Examines the factors that influence male behavior and masculine development. Topics include lifespan development, fathering, men's health, violence, education and relationships with

emphasis on current psychological theories and research. **Prereq:** *PSY 111 or permission of department chair.*

Crosslisted: *Also offered as PSY 221; credit is not given for both GSS 221 and PSY 221.*

GSS 222 - Psychology of Women

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Cover female development from childhood and adolescence through adulthood and old age. Study gender differences and stereotypes, sexuality, love relationships and violence against women. Develop a theoretical and practical understanding of the psychology of women. **Crosslisted:** *Also offered as PSY 222; credit is not given for both GSS 222 and PSY 222.*

GSS 223 - Philosophy and Gender

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Learn philosophical themes, issues and problems relevant to gendered experiences in Western culture. Survey major feminist theories of the last 200 years that have helped to define and develop women's (and men's) understandings of themselves. Emphasizes ways in which factors such as class, ethnicity, sexual orientation and gender play roles in the constitution of gender identities and the challenges these pose in reference to community, solidarity and social change. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as PHL 223; credit is not given for both GSS 223 and PHL 223.*

GSS 225 - Cultural Representations of Disability, Gender and Sexuality in the U.S.

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Explore the representations of disability in American popular culture. Analyze how gender and sexuality affect the representations of disability. Examine the connections between representations of oppressed groups in popular culture and the unequal distribution of economic, political and social power in the U.S. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as AMS 225 and SOC 225; credit is given for only one of the following: AMS 225, GSS 225 or SOC 225.*

GSS 228 - Literature in English by Women

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Compare and analyze multicultural literature in English, written by women of diverse regions, cultures, races, sexualities, religions and classes. Explore the relationships between gender and literary form, content, production, evaluation, and interpretation, with attention to historical, social, cultural and political contexts, as well as literary analysis. Readings include poetry, prose and drama. **Prereq:** *ENG 101/ENG 101A or permission of department chair.* **Crosslisted:** *Also offered as GSS 228H, ENG 228, and ENG 228H; credit is given for only one of the following: GSS 228, GSS 228H, ENG 228 or ENG 228H.*

GSS 228H - Literature in English by Women - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Compare and analyze multicultural literature in English, written by women of diverse regions, cultures, races, sexualities, religions and classes. Explore the relationships between gender and literary form, content, production, evaluation, and interpretation, with attention to historical, social, cultural, and political contexts, as well as literary analysis. Readings include poetry, prose and drama. **Prereq:** *Eligibility for Honors courses and ENG 101/ENG 101A or permission of department chair.* **Crosslisted:** *Also offered as GSS 228, ENG 228 and ENG 228H; credit is given for only one of the following: GSS 228, GSS 228H, ENG 228 or ENG 228H.* **Note:** *Complete and present an honors capstone research project that extends beyond the classroom.*

GSS 280-299 - Special Topics in Gender and Sexuality Studies

-

An in-depth examination of current issues related to women and to gender. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Geography

GEO 100 - Introduction to Geography

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Focus on the geographer's view of the interaction of people with their physical and human environments. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC and OL; all terms.*

GEO 101 - Physical Geography

4 credit hours - Three hours lecture; two hours lab, weekly

This course meets the Biological and Physical Sciences General Education Requirement. Learn about environmental processes and the landscape patterns they produce on Earth. Explore characteristics of Earth's weather and climate systems, interior structure, earth materials, and landforms, along with the ways these support biological organisms. Integrate a geographic perspective to evaluate the interdependency of Earth and human systems. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC and OL; all terms.*

GEO 102 - World Regional Geography

3 credit hours - Three hours weekly; one term

This course meets the Social and Behavioral Sciences General Education Requirement. Study major world regions from the viewpoints of people, natural environment, culture, and economic development in a globalized society.

Prereq: Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; all terms.

GEO 103 - Cultural Geography

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Examine the human environment by studying political, cultural, economic, urban and population patterns of human use of the earth.

Prereq: Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; all terms.

GEO 105 - Geography of the United States

3 credit hours - Three hours weekly; one term.

Learn about the physical, cultural and urban diversity of the United States by identifying and examining the patterns and processes that create regional landscapes. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

GEO 107 - Geology of Maryland

3 credit hours - Three hours of lecture weekly; one term.

Learn the formation and evolution of the bedrock and landscapes of the main physiographic provinces of Maryland. Investigate the interactions of geologic processes through time that have produced Maryland's diverse landforms, drainage patterns, soils, and water and mineral resources. Recognize the geologic hazards of Maryland's past and present, and anticipate future hazards. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as PHS 107; credit is not given for both GEO 107 and PHS 107. **Note:** This course does not satisfy the curricular requirements for a laboratory science course.

GEO 240 - Introduction to Geographic Information Systems

3 credit hours - two hours lecture, one hour of directed lab

This course meets the Technology Requirement. Utilize geospatial technology and apply foundational concepts in Geographic Information Systems (GIS) to collect, store, analyze, and display natural and social science data. Demonstrate knowledge and application of fundamental cartographic principals and analytical methods using industry standard hardware and software. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

GEO 242 - Foundations of Cartographic Design

3 credit hours - Two hours of lecture and one hour of lab weekly; one term

Produce digital and hardcopy maps through applying concepts and theories of Cartography, the art and science of map-making. Using Geographic Information Systems (GIS) and other technologies, learn how to make effective maps and data visualizations for a variety of audiences and purposes. Gain an awareness of the historical and contemporary relationship between maps and society while developing customized visualizations of human and environmental phenomena. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Students are recommended to take GEO 240 prior to or concurrently with GEO 242.

GEO 244 - Fundamentals of Remote Sensing

3 credit hours - Two hours of lecture and one hour of lab weekly; one term

Explore data collected with remote sensing technologies, such as Earth-orbiting satellites, to investigate landscapes and natural phenomena. Develop an understanding of the history of remote sensing and Earth observation while building a practical skill set for processing and analyzing remotely sensed data with Geographic Information Systems. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Students are recommended to take GEO 240 prior to or concurrently with GEO 244.

GEO 280-299 - Special Topics in Geography

-

An intensive study of current or specialized themes or topics of geographical interest. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. **Prereq:** Eligibility for ENG 101/ENG 101A.

Health

HEA 100 - Assessment and Theory of Fitness and Health

3 credit hours - Three hours weekly; one term.

This course meets the Wellness Requirement. Create a physically active, individualized exercise program with guidance from the course instructor. Use cardiovascular and weight training equipment in the college fitness center to improve and maintain health and wellness. Conduct pre and post-assessments to evaluate physical fitness. Examine the topics of physical activity, nutrition, weight management, stress, cardiovascular health and related wellness behaviors. Investigate the role of each dimension's impact on lifelong wellness and health, behavior change strategies as they relate to health promotion efforts. Lab fee \$30. Physical education fee \$6. **Note:** Credit is not given for both HEA 100 and HEA 114. HEA 100 is not open to students under the age of 16 years. Students will be required to complete an Accidental Injury Waiver Form and PAR-Q on the first day of class. Students may not participate in the course until the

Accidental Injury Waiver Form and PAR-Q have been provided to the instructor. A \$6 physical education fee per term is charged to students enrolled in HEA 100.

HEA 101 - Foundations of Health, Exercise and Sport

3 credit hours - Three hours weekly; one term.

Examine the disciplines and subdisciplines in exercise science. Discuss the scientific basis that underlies health, exercise, and sport. Collect, analyze, and interpret laboratory data related to the diverse functions of the human body. Identify career opportunities within exercise science and allied health, including requirements for advanced study and appropriate coursework for the profession. **Note:** *NOTE: This course does not fulfill the General Education Wellness requirement for AACC.*

HEA 111 - Personal and Community Health

3 credit hours - Three hours weekly; one term.

This course meets the Wellness Requirement. Identify the dimensions of wellness and the various factors that promote optimal health for individuals and their communities. Describe the current and emerging issues in health promotion and disease prevention and evaluate evidenced-based methods to control risk factors in diverse populations. Examine topics and health behavior strategies to optimize and enhance quality of life.

HEA 113 - Women's Health

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. This course meets the Wellness Requirement. Learn the physical and mental health events that confront women in our society. Investigate disease and stress ailments particular to women in our ever-changing world. **Crosslisted:** *Also offered as GSS 113; credit is not given for both HEA 113 and GSS 113.*

HEA 114 - Components of Personal Fitness and Wellness

3 credit hours - Three hours weekly; one term.

This course meets the Wellness Requirement. Examine the topics of physical activity, nutrition, weight management, stress, cardiovascular health and related wellness behaviors. Investigate the role of each dimension's impact on lifelong wellness. Identify and evaluate behavior change strategies as they relate to health promotion efforts. **Note:** *Credit is not given for both HEA 114 and HEA 100.*

HEA 115 - Health Implications of Violence

3 credit hours - Three hours weekly; one term.

Formerly Personal Safety Issues. This course meets the Wellness Requirement. Examine theories and concepts of violence and abuse and the effects on the social, emotional, physical, and cognitive development of the individual. Describe and evaluate the historical overview of legal and ethical issues regarding violence and abuse and the impact on the individual and society. Explore topics including awareness and prevention of violence around the world, neglect, gun control, exploitation, stalking, and personal safety issues.

HEA 116 - The Health Consumer in Today's World

3 credit hours - Three hours weekly; one term

This course meets the Wellness Requirement. Examine various health-related issues facing consumers including the health care system, health insurance and evidence-based assessments of health products, services and food. Apply decision-making skills to evaluate health information and resources that positively influence one's wellness.

HEA 117 - Healthy Aging For Women

3 credit hours - Three hours weekly; one term.

This course meets the Wellness Requirement. Examine the health and wellness related changes of women as they age. Investigate exercise, nutrition, menopause, osteoporosis, cardiovascular disease, female cancers, mental health, and gynecological health concerns and examine how women can influence these age-associated changes to live a healthy life. **Crosslisted:** *Also offered as GSS 117; credit is not given for both HEA 117 and GSS 117.*

HEA 118 - Health for the Aging Adult

3 credit hours - Three hours weekly; one term.

Learn the meaning and significance of all dimensions of health related to the individual and society with emphasis on older adult health concerns.

HEA 120 - Stress, Science and Well-Being

3 credit hours - Three hours lecture weekly; one term.

This course meets the Wellness Requirement. Explore an integrative (mind, body, emotions and spirit) approach to reducing stress and improving well-being. Examine the physiological and psychological effects of stress and its impact on wellness. Investigate the relationship between stress and disease. Emphasis is placed on exploring and practicing a variety of evidence-based stress reduction strategies. As a final project, students create a comprehensive personal self-care plan to increase the experience of optimal well-being.

HEA 125 - Pool/Spa Operation

1 credit hour - One hour weekly; one term.

Meets the requirements of the Anne Arundel County Health Department. Satisfactory completion of this course will enable the student to be certified as a pool/spa operator. High school students wishing to take this course for credit must meet corequisite requirements.

HEA 137 - Weight Management: Utilizing Healthy Approaches to Diet and Physical Activity

1 credit hour - One hour of lecture weekly; one term.

Introduces students to the concepts of energy balance, healthful eating patterns and physical fitness for healthy living. The course examines many of the biological and environmental theories associated with weight management and reviews current research in this area. Emphasis is also placed on physical fitness compatible with the achievement and maintenance of a healthy body weight. Popular diet programs will be reviewed and evaluated with regard to weight management and overall health impact. **Crosslisted:** Also offered as BIO 137; credit is not given for both HEA 137 and BIO 137.

HEA 138 - Nutrition for Fitness and Sport

1 credit hour - One hour of lecture weekly; one term.

Introduces the student to current dietary guidelines appropriate for a healthy and physically active lifestyle. Explores the nutritional needs of physically active individuals, including recreational as well as competitive athletes. The role of each nutrient is reviewed, with emphasis on their utilization during exercise and recovery. Dietary modifications to optimize performance during different types of physical activity also will be discussed. A brief review of scientific data regarding ergogenic aids also will be presented. **Crosslisted:** Also offered as BIO 138; credit is not given for both HEA 138 and BIO 138.

HEA 150 - Advanced First Aid, CPR and AED

3 credit hours - Three hours weekly; one term.

Formerly First Aid and Safety- CPR. This course meets the Wellness Requirement. Examine the appropriate intervention skills to respond to emergencies such as recognition, access, assessment and management until more advanced personnel arrives. Identify and successfully demonstrate the components of cardiopulmonary resuscitation (CPR) and automatic defibrillator device (AED) and advanced first aid by a first responder. Successful completion of the course prepares students to take the Red Cross certification exam. Lab fee \$35. **Note:** Credit is not given for both EMT 104 and HEA 150.

HEA 230 - Personal Trainer Fundamentals

4 credit hours - Five hours weekly; one term.

Explore the principles of exercise science and learn how the body responds to physical training. Apply knowledge of physiological adaptations and response to exercise to design training programs for clients, students or athletes to help them achieve their sports and fitness goals. Examine the physiological assessments used to evaluate the components of fitness, including posture, flexibility, balance, core function, cardiorespiratory fitness and muscular strength/endurance. Learn how to facilitate rapport, adherence, self-efficacy and behavior change in clients.

Note: Successful completion of course prepares student to sit for a nationally accredited Personal Trainer Exam. Fees for the exam will be the responsibility of the student. Lab fee \$15. **Prereq:** HEA 101 or permission of the Academic Chair. **Note:** Successful completion of course prepares student to sit for the American Council on Exercise (ACE) Personal Trainer Exam. Fees for the ACE exam will be the responsibility of the student.

HEA 231 - Health Coach

3 credit hours - Three hours weekly; one term.

Explore techniques and skills needed to motivate, encourage and inspire individuals to make healthy living an integral part of their lifestyle. Intended for fitness, wellness, health care, human resources and allied health professionals who want to make a positive impact in the way their clients/patients live. Topics include fitness, screening and assessment, program design and implementation, nutrition, behavior modification, legal/ethical responsibilities and research that reflects up-to-date information in vastly changing fields. **Note:** Successful completion of the course prepares students, in part, to sit for the American Council on Exercise (ACE) Health Coach Examination. Fees for the ACE exam will be the responsibility of the student.

HEA 260 - Lifeguard Instructor

2 credit hours - One term.

Acquire the skills to become a certified American Red Cross Lifeguard Instructor that provide certification is the following areas: Shallow Water Attendant, Lifeguard Management, and CPR/AED for the Professional Rescuer, Administering Emergency Oxygen, Blood Borne Pathogens Training, and Basic Water Rescue courses. To receive the American Red Cross Lifeguard certification, the students must demonstrate the necessary skills and pass the final written exam with a grade of 80 percent or higher. **Note:** Candidates must successfully complete the following skills within the first class: entry lifeguard requirements lifeguard aquatic, CPR/AED/PR skill, first aid skills, and final skill scenarios. Complete list of requirements can be obtained in the Department of Health and Physical Education office.

HEA 261 - Water Safety Instructor

2 credit hours - One hour of lecture and two hours of laboratory weekly; one term.

Prepares the student to teach various swimming courses in American Red Cross Swimming and Water Safety programs. Individuals successfully completing the aquatic skills and written exam with a grade of 80 percent or better will be certified as an American Red Cross Water Safety Instructor. Minimum age: 16. Lab fee \$15. **Note:**

Recommended pre-courses: PHE 258 and PHE 259.

HEA 280-299 - Special Topics in Health and Wellness

-

In-depth study of contemporary personal and community health issues to meet the ever-changing needs of students in public health and wellness. A maximum of eight credit hours earned from special topics courses may be used to satisfy

degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Health Information Technology

HIT 111 - Introduction to Health Information Technology 1

3 credit hours - Three hours weekly; one term.

Learn hospital and physician's office record keeping practices. Identify hospital and medical staff organization; patient record content; procedures in filing, numbering and retention of patient records; quantitative analysis; release of patient information; forms control and design; indexes and registers; and regulatory and accrediting agencies. Facilitate the collection and use of health data in hospitals, physician offices and government and accreditation agencies. Lab fee \$30. **Prereq:** *BIO 231 or BIO 233, BIO 232 or BIO 234, CTA 100 or CTP 103, MDA 113, MDA 114 (all prerequisites must have a grade of C or better); or permission of the program coordinator.*

HIT 112 - Healthcare Statistics and Quality/Performance Improvement

4 credit hours - Four hours weekly; one term.

Learn statistical computation at the introductory level for use in health information management departments. Learn how to use statistics to make better business decisions, track activities in the healthcare facility and analyze data. Learn how to identify quality issues in a healthcare setting and be able to implement performance improvement programs. Decrease risk exposure to the healthcare facility by learning to aggregate and analyze data specific to an issue. Identify trends that demonstrate quality, safety and effectiveness of healthcare. **Prereq:** *General education mathematics and HIT 111 (with a C or better).*

HIT 113 - Introduction to Health Information Technology 2

2 credit hours - 30 hours of lecture; one term.

Learn electronic health information systems, their design and implementation. Continue to build on knowledge of imaging technology, information security and integrity, data dictionaries, modeling and warehousing to meet health care system needs. Apply policies/procedures to facilitate electronic health records and other administrative applications. Learn leadership and compliance principles related to health information management, as well as current trends in health information management. **Prereq:** *HIT 111 with a grade of C or better.*

HIT 210 - Computerized Medical Office

3 credits - Three hours weekly; one term.

Learn the basic administrative functions and procedures performed in a medical office, including entering patient insurance and health information, health data entry, insurance billing and coding, claim submission and adjudication, scheduling appointments, basic electronic accounting functions, such as patient ledgers and generating financial reports. Class will be held in computer laboratory. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

HIT 217 - Introduction to ICD Coding

3 credit hours - Three hours weekly; one term.

Formerly HIT 217-Introduction to ICD-9-CM and ICD-10-CM Coding. Learn the basic coding guidelines using the current ICD coding classification system. Practice the application of diagnosis and procedure codes validating coding accuracy using clinical information that would be found in the health record. Apply and promote ethical coding standards while adhering to current regulations and established guidelines in code assignment. **Prereq:** *HIT 111 with a grade of C or better, or permission of the program coordinator.*

HIT 218 - Introduction to CPT/HCPCS Coding

3 credit hours - Three hours weekly; one term.

Formerly HIT 218-Introduction to CPT/HCPCS and ICD-10-PCS Coding. Learn the basic coding guidelines of the Current Procedural Terminology (CPT) nomenclature. Practice the application of CPT/HCPCS codes validating coding accuracy using clinical information found in the health record. Apply and promote ethical coding standards while adhering to current regulations and established guidelines such as the National Correct Coding Initiative. **Prereq:** *HIT 111 with a grade of C or better, or permission of the program coordinator.*

HIT 220 - Legal Aspects of Health Information Management

3 credit hours - Three hours weekly; one term.

Learn the legal issues of Health Information Management with focus on statutory and regulatory requirements, case law and practical applications. Special legal problems associated with access to patient information, disposition of records, confidentiality and privacy, reporting requirements and compliance with current state and federal legislation are emphasized. **Prereq:** *HIT 111 (With a C or better).*

HIT 221 - Advanced Coding

3 credit hours - Three hours weekly; one term.

Learn the application of ICD diagnosis and procedure coding as well as CPT/HCPCS coding to higher level case scenarios. Practice the application of diagnosis and procedure codes validating coding accuracy using clinical information that may be found in the health record. Apply and promote ethical coding standards while adhering to current regulations and established guidelines in code assignment. Learn encoder software and practice applications.

Prereq: *HIT 217 and HIT 218 with a grade of C or better.*

HIT 222 - Reimbursement Methodologies

3 credit hours - Three hours weekly; one term.

Learn healthcare reimbursement systems, reimbursement methodologies, and payment processes throughout the healthcare industry. Examine the complex financial systems within today's healthcare environment and provide an understanding of the basics of health insurance, public funding programs, managed care contracting and how services are paid. **Prereq:** *HIT 111 (with a C or better).*

HIT 275 - Medical Coding Practicum

2 credit hours - 90 hours supervised, unpaid field experience.

Perform the medical coding practicum in a clinical setting or in the Virtual Laboratory. In the clinical setting, gain 90 hours of practical experience in a variety of settings, such as medical offices, clinical, hospitals or insurance companies. Observe and perform the coding of health data, the retrieving and analyzing of medical records, abstraction and interpretation of health data and managing of health data. In the Virtual Laboratory, under instructor supervision, participate in a virtual in-house laboratory, which includes a variety of coding exercises using authentic patient charts. Utilize a logic-based encoder that has ICD-9 and ICD-10 coding choices. **Prereq:** *MDA 116, HIT 221 and HIT 222.*

HIT 276 - Health Information Technology Practicum

3 credit hours - 160 hours practicum; one term.

Participate in a supervised practicum using simulation software and in a clinical practice setting. Perform functions related to the analysis and reporting requirements for health records, release of information, coding of medical records, and data abstracting. Take a mock Registered Health Information Technician accreditation examination. **Prereq:** *Completion of all Health Information Technology degree required courses prior to practicum with a grade of C or better.*

HIT 280-299 - Special Topics in Health Information Technology

-

Focus on topics of current interest in health information technology including content designed to meet expressed needs and interests within the community. Also for health information technicians requiring additional course content to qualify for transfer credit, credit by exam, or who wish to meet updated competency requirements for the national certification exam. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-100. **Prereq:** *Will vary depending on course offering.*

History

HIS 111 - Ancient and Medieval Western Civilizations

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. Explore societal changes and continuities in structure, thought, government, economics, war and culture through readings, critical thinking and writing, from antiquity through the Renaissance. **Prereq:** *Eligibility for ENG 101/ENG 101A. Note:* *Typically offered at MC, AM, GB, and OL; all terms.*

HIS 112 - Early Modern and Modern Western Civilizations

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. Explore societal changes and continuities in structure, thought, government, economics and culture through readings, critical thinking and writing from the Renaissance to the present. **Prereq:** *Eligibility for ENG 101/ENG 101A. Note:* *HIS 111 is not a prerequisite for this course. Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

HIS 113 - World Civilizations to 1500

3 credit hours - Three hours lecture weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Explore the past and its impact on the present and the future. Examine global history from pre-history to the Renaissance and the Age of Discovery to evaluate the networks and interactions that connected Europe, Asia, and Africa. Analyze societal changes and continuities in culture, politics, economics, and diplomacy. **Prereq:** *Eligibility for ENG 101/ENG 101A. Note:* *Typically offered at MC, GB, and OL; fall, spring, and summer terms.*

HIS 114 - World Civilizations Since 1500

3 credit hours - Three hours lecture weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Explore the past and its impact on the present and the future. Examine global history from the Reformation to World War II to evaluate the networks and interactions that connected Europe, Asia, Africa, and the Americas. Analyze societal changes and continuities in culture, politics, economics, and diplomacy. **Prereq:** *Eligibility for ENG 101/ENG 101A. Note:* *Typically offered at MC and OL; fall, spring, and summer terms.*

HIS 142 - Introduction to Latin American History

3 credit hours - Three hours lecture weekly; one term.

This course meets the Arts and Humanities General Education Requirement. Examine Latin American history from the pre-Columbian period through colonization and the Age of Independence (1810-1825) to 20th-century revolutions and recent political, economic, and social trends. Analyze major political and economic events and social and intellectual

forces that affected the origins and development of the Latin American states and region. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

HIS 211 - United States History through the Civil War

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. Explore American politics, cultures, economics and the interaction of people of different classes, races and genders through reading, critical thinking and writing, from colonization through 1865. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as HIS 211H; credit is not given for both HIS 211 and HIS 211H. **Note:** Typically offered at MC, AM, and OL; all terms.

HIS 211H - United States History through the Civil War -- Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. This course meets the Social & Behavioral Sciences General Education Requirement. Explore American politics, cultures, economics and the interaction of peoples of different classes, races and genders through reading, critical thinking and writing, from colonization through 1865 in an honors seminar environment of readings and extensive discussion. **Prereq:** Eligibility for Honors courses and ENG 101/ENG 101A. **Crosslisted:** Also offered as HIS 211; credit is not given for both HIS 211H and HIS 211. **Note:** Typically offered at MC, AM, and OL; all terms.

HIS 212 - United States History Since the Civil War

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. Explore American politics, cultures, economics and the interaction of class, race and gender through reading, critical thinking and writing, from the Civil War to the present. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC, AM, and OL; all terms.

HIS 214 - African American History

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Evaluate significant contributions made by African Americans to the American past. Gain oral and visual impressions of important issues and personalities of our nation's African American heritage through media presentations. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as AFA 214; credit is not given for both HIS 214 and AFA 214. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

HIS 215 - Civil Rights Era

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Study the Civil Rights movement from 1954 to present. Explore and analyze the tactics and philosophy of non-violence and civil disobedience through the writings and actions of such leaders as Martin Luther King Jr., Malcolm X and Fanny Lou Hamer. **Prereq:** Eligibility for ENG 101/ENG 101A.

HIS 217 - Women of the Western World

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Study and analyze women's experiences, social roles and contributions to the development of Western society from ancient times to the 21st century. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as GSS 217; credit is not given for both HIS 217 and GSS 217. **Note:** Typically offered at MC; spring term.

HIS 218 - History of Women in America: 1607-Present

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Study the roles of women in America from the colonial period to the present. Explore and analyze the importance of work and family in women's lives. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as GSS 218; credit is not given for both HIS 218 and GSS 218. **Note:** Typically offered at MC; fall term.

HIS 219 - History of Maryland

3 credit hours - Three hours weekly; one term.

Study the history of Maryland from the 17th century to the present. Explore and analyze the Colonial and Civil War eras, as well as Maryland's unique role as a buffer between the urban/industrial north and the rural/agrarian south. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC; fall term.

HIS 220 - The Civil War Era

3 credit hours - Three hours weekly; one term.

Study and analyze the major issues leading to the Civil War, battles and controversies during the war, the manner of Union reconstruction after the war, as well as various political and military leaders of the period. Attend field trips to major battlefields of Gettysburg and Antietam. **Prereq:** Eligibility for ENG 101/ENG 101A.

HIS 221 - The Battles of Gettysburg and Antietam

3 credit hours - Three hours weekly; one term.

Study and analyze the two most significant battles of the Civil War. Critique strategies used, individuals involved and

the effects of these battles on the war. Attend two Saturday field trips to the respective battlefields. Lab fee \$30.

Prereq: *Eligibility for ENG 101/ENG 101A.*

HIS 223 - History of Modern Russia

3 credit hours - Three hours weekly; one term.

Study the historical development of modern Russia emphasizing the period since 1800. Explore and analyze political and diplomatic development of Russian and Soviet governments, including recent economic, social and cultural developments. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

HIS 224 - History of Modern Europe

3 credit hours - Three hours weekly; one term.

Study Europe from 1870 to the present. Explore and analyze domestic changes in European states since the Franco-Prussian War, imperialism, interior reforms, origins of World War I, peace-making at Versailles, depression, totalitarianism, background of World War II, the Cold War and detente through the revolutions in the former Soviet sphere. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

HIS 227 - History of Medieval and Renaissance England

3 credit hours - Three hours weekly; one term.

Survey England from the Roman Era to 1603 including Anglo-Saxon England; Norman Conquest through establishment of the Plantagenet Empire; economic and constitutional foundations of the monarchy, Parliament and judiciary; and the Tudor era. Taught as a travel-study course during the Winter Two-week Term. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC; winter term.*

HIS 228 - History of Modern England

3 credit hours - Three hours weekly; one term.

Survey England from 1603 to the present covering the Stuart era and the constitutional struggle of the 17th century; Hanoverian period and foundations of the first overseas empire; parliamentary reform and liberal empire; two world wars and their aftermath; through to the Blair era. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC; spring term.*

HIS 229 - The Vietnam Era in U.S. History

3 credit hours - Three hours weekly; one term.

Examine the Vietnam War and its effect on American society, politics and culture. Explore the conflicting values and political decisions that affected Americans in a time of turmoil and change. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

HIS 231 - The Holocaust

3 credit hours - Three hours weekly; one term.

Examine the history of European anti-Semitism, the development and implementation of the final solution through to the establishment of Israel. Includes a field trip to the Holocaust Museum. Lab fee \$40. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC; winter term.*

HIS 280-299 - Special Topics in History

-

An intensive study of a historical topic or theme not ordinarily emphasized in basic survey courses, or a means of earning credit for supervised travel and study. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Fees will vary. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

Histotechnology

HTC 100 - Introduction to Histology Safety and Techniques

4 credit hours - 45 lecture and 30 laboratory; one term.

Explore the safety requirements necessary in a histology laboratory including government regulations and standards for storage and disposal of biological and chemical material. Learn how to adhere to Standard Precautions at all times. Learn how to analyze quality control material and utilize the metric system when performing dilutions and solution preparation. Utilize histology laboratory equipment and perform staining procedures of histology specimens. Lab fee \$215. **Prereq:** *Acceptance into the HTC Program.*

HTC 101 - Basic Histotechnology

4 credit hours - 45 lecture and 45 laboratory; one term.

Explore the accessioning and processing of tissue specimens into the histology laboratory. Prepare basic tissue specimens for microscopic examinations, including all routine procedures. Identify tissue structures and their staining characteristics. Recognize factors that affect procedures and results and take appropriate action within predetermined limits when corrections are indicated. Perform basic staining techniques of histology specimens. Lab fee \$244. **Prereq:** *HTC 100 with a grade of C or better.*

HTC 201 - Advanced Histotechnology

4 credit hours - 45 lecture and 45 laboratory; one term.

Explore the fixation of histology specimens. Prepare specimens for embedding using microtome techniques. Continue with learning the morphology, anatomy, and histology of all tissues in the body. Continue with advanced staining

techniques used in the histology laboratory. Prepare advanced tissue specimens for microscopic examinations, including all advanced procedures. Identify tissue structures and their staining characteristics. Lab fee \$270. **Prereq:** *HTC 101 with a grade of C or better. Coreq(s): HTC 204.*

HTC 202 - Histotechnology Laboratory Clinical 1

3 credit hours - 160 hours of clinical; one term.

Perform basic histotechnology procedures in a clinical setting. Prepares students for national certification as a histotechnician. Clinical fee \$127. **Prereq:** *HTC 201 and HTC 204 with grades of C or better.*

HTC 203 - Histotechnology Laboratory Clinical 2

3 credit hours - 160 hours of clinical; one term.

Perform advanced histotechnology procedures in a clinical setting. Prepares students for national certification as a histotechnician. Clinical fee \$127. **Prereq:** *HTC 202 with a grade of C or better.*

HTC 204 - Genetics, Microbiology and Pathogenic Diseases of the Body

3 credit hours - Three hours of lecture weekly; one term.

Explore the basics of genetics and pathogenic causes of disease in the human body, beginning with basic cell structure and progressing through the role of inflammation and infection by microorganisms to the disease process. Learn the repercussions of changes to DNA on genomic expressions through tumor formation or other pathological changes. General pathology and body system approach. **Prereq:** *HTC 101 with a grade of C or better. Coreq(s): HTC 201.*

HTC 205 - Histotechnology Review

3 credit hours - Three hours of lecture weekly; one term.

Review the aspects of histotechnology learned in the didactic and clinical courses of this program. Apply knowledge and principles during this review to prepare for a histotechnician career and the certification exam. **Prereq:** *HTC 201 and HTC 204 with grades of C or better.*

Homeland Security Management

HLS 111 - Introduction to Homeland Security

3 credit hours - Three hours weekly; one term.

Introduces students to the vocabulary and important components of Homeland Security. Explores the state, national, and international laws impacting Homeland Security. Includes an examination of the most critical threats confronting Homeland Security. **Note:** *Typically offered at MC and OL; all terms.*

HLS 112 - National Security Law

3 credit hours - Three hours weekly; one term.

Examines the revolutionary age in which we live and how national security law is changing and being redefined to address that revolution. No area within the law has been more significantly affected by the September 11th terrorist attack on the United States than the law related to national security. As successive administrations wrestle with defining "jurisdiction," national security law takes on an ever increasing importance in a world that is drawn even closer together through "globalization." This course will analyze the functioning of national security laws and their impact on society. It will also balance United States Constitutional principles against the need for security. **Prereq:** *HLS 111 or permission of director. Note:* *Typically offered at MC and OL; fall, spring, and summer terms.*

HLS 113 - Drugs, Addiction, Corruption and Crime

3 credit hours - Three hours weekly; one term.

Explore the major phases in the illegal drug trade, including the growing, processing, transporting, distributing, consuming and financing of the product. Study the efforts to combat the influence of illegal drugs at each step in the process. Focus on the roles of the drug dealers, the government, the media, and society in general and the causes and consequences of illegal drugs. **Prereq:** *HLS 111 or permission of director of homeland security institute.*

HLS 114 - Maryland and Terrorism

3 credit hours - Three hours weekly; one term.

Introduces students to the potential threats that can affect the typical citizen. Provides thoughtful suggestions as to how to enhance personal security. Examines the efforts of local, state and federal governments to combat terrorism. Also explores the impact terrorist threats have on local societies. **Prereq:** *HLS 111 or permission of director. Note:* *Typically offered at MC and OL; fall and spring terms.*

HLS 125 - The Future of Homeland Security

3 credit hours - Three hours weekly; one term.

Develop an understanding of today's key Homeland Security issues and challenges. Explore the impact of current Homeland Security policies on the future. Use futuring tools to examine the implications of changes to United States policies and provide guidance to improve future United States international and domestic security. **Note:** *Credit is not given for HLS 125 and also FTR 125.*

HLS 211 - Intelligence Analysis and Security Management

3 credit hours - Three hours weekly; one term.

Examines intelligence analysis and its indispensable relationship to the security management of terrorist attacks and other threats. Explores vulnerabilities of our national defense and private sectors, as well as the threats posed to these institutions by terrorists, man-made disasters, and natural disasters. Students will discuss substantive issues regarding intelligence support of Homeland Security measures implemented by the United States and explore how the

intelligence community operates. Lab fee \$20. **Prereq:** *HLS 111 or permission of director.* **Note:** *Typically offered OL; fall and spring terms.*

HLS 212 - Survey of Weapons of Mass Destruction

3 credit hours - Three hours weekly; one term.

Surveys the primary instruments of destruction and death, known as weapons of mass destruction (WMD), used or sought to be used by terrorists. Addresses the definition, categories, characteristics, capabilities, deployment and impact of nuclear, biological, chemical, radiological, and conventional weapons of mass destruction. Focuses on the fundamentals of first responders and operational level responses to weapons of mass destruction disasters, including planning and training. **Prereq:** *HLS 111 or permission of director.* **Note:** *Typically offered OL; fall and spring terms.*

HLS 213 - Transportation and Border Security

3 credit hours - Three hours weekly; one term.

Provides an in-depth view of modern border and transportation security. Specific topics include security for seaports, ships, aircraft, trains, trucks, pipelines, buses, etc. Focuses on the technology needed to detect terrorists and their weapons as well as includes discussion on legal, economic, political, and cultural aspects of the problem. Lab fee \$20.

Prereq: *HLS 111 or BPA 235 or permission of director.* **Note:** *Typically offered OL; fall and spring terms.*

HLS 220 - Intelligence and U.S. National Security

3 credit hours - Three hours weekly; one term.

Examines the historical development of intelligence in supporting U.S. foreign and national security policy. Surveys the development of the intelligence discipline from the Revolutionary War to the 21st Century Global War on terrorism. Evaluates the legislation, executive orders and events that influence how intelligence has evolved to support U.S. policy makers and defines the intelligence process and how the intelligence disciplines and the agencies responsible for them support the policy maker and military commanders. Lab fee \$20. **Prereq:** *Eligibility for ENG 101/ENG 101A and PLS 111 or HIS 212 or permission of director.* **Note:** *Typically offered OL; fall term.*

HLS 225 - Introduction to Intelligence Analytics

3 credit hours - Three hours weekly; one term.

Learn the intelligence analytical process and review the methodical approaches used by intelligence analysts to prepare assessments for U.S. policymakers. Examine the analytical process used to assess instability/strategic warning and terrorism analysis. Analyze the factors which influence an analyst's work to include the cognitive, cultural/social and institutional biases and how politicization of intelligence influences the analytical process. Explore various tools and research methods used by analysts to process and organize information and develop and present intelligence briefings. Lab fee \$20. **Coreq(s):** *HLS 211 or HLS 220 or permission of director.* **Note:** *Typically offered OL; fall and spring terms.*

HLS 230 - Intelligence Support to the Policy Maker and Military

3 credit hours - Three hours weekly; one term.

Examine how U.S. intelligence supports the creation, implementation and evaluation of U.S. foreign and national security policy. Analyze and evaluate the role of intelligence during critical foreign policy and national security events in U.S. history. Examine the intelligence community (IC) analytical processes and the mediums used to advise decision makers and military leaders. Also examine intelligence community's relationship and support to local and state government and industry. Lab fee \$20. **Prereq:** *HLS 211 or HLS 220 or permission of director.* **Note:** *Typically offered OL; fall and spring terms.*

HLS 240 - National Security Challenges of the 21st Century

3 credit hours - Three hours weekly; one term.

Survey the major national security challenges facing the intelligence community in the 21st century: terrorism, transnational crime, cybercrime, nuclear weapons proliferation, and regional conflicts. Explore the technological and scientific principles required of analysts who follow these major intelligence challenges and how the U.S. government is addressing these challenges. **Prereq:** *HLS 211 or HLS 220 or permission of director.* **Note:** *Typically offered OL; fall and spring terms.*

HLS 245 - Intelligence Analytics Seminar

4 credit hours - Four hours weekly; one term.

Conduct practical exercises involving the development of various intelligence products and present briefings to current and former U.S. policy makers, military leaders and politicians. Practice intelligence writing to produce analytical materials used in daily intelligence support to the policy maker. Lab fee \$20. **Prereq:** *HLS 225 or permission of director.* **Note:** *Typically offered at MC; spring term.*

HLS 261 - History of the Middle East

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Gain an analytical framework to examine the history of the Middle East region, focusing on the following areas: the pre-Islamic era; the rise and expansion of Islam; medieval Muslim society and culture; the rise, decline, and collapse of the Ottoman Empire; the impact of the West on politics and society; the rise of nationalism; the Arab-Israeli conflict and peace process; and modern revolutionary movements and the resurgence of Islam. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Credit is not given for HLS 261 and also HIS 261. Typically offered OL; spring and summer terms.*

HLS 265 - Homeland Security, Emergency Management and Response Seminar

3 credit hours - Three hours weekly; one term.

Analyze historic and contemporary local, national and global catastrophic incidents and various emergency response policies, laws, and operations used to mitigate and treat human injury and structural damage. Apply knowledge and specific skills to table-top simulations and case studies; design emergency response and preparation plans; exercise NIMS (National Incident Management System); and engage in dialogue with experts in the field. **Prereq:** HLS 111 and CJS 260/HLS 260 or permission of the director. **Note:** Typically offered OL; fall, spring, and summer terms.

Honors

HON 280-299 - Special Topics in Honors

-

An honors level special topics course offering a multidisciplinary approach to various subject matter. The theme of the course will center on relevant issues with special attention given to incorporating multiple pedagogical methods, with emphasis on critical thinking and communication, in an effort to provide expansive learning opportunities to high-achieving students. Students will be challenged to develop their full potential through a variety of educational activities that will provide an in-depth analysis of a specific area of academic study. **Prereq:** Admission to the honors program.

Hotel/Restaurant Management

Students are required to wear an approved chef uniform for production classes. See course descriptions for specifics.

HRM 111 - Introduction to the Hospitality Industry

3 credit hours - 45 hours of lecture.

A survey course that reviews the scope of the hospitality industry. The course begins with a look at the history and development of the industry. Major topics include travel and tourism, lodging, food and beverage, managed services, gaming and entertainment, meetings, conventions and expositions. Management issues, marketing, human resources and technology are emphasized. Industry trends, ethics, economic impact, social and cultural impact, and political and legal impact are discussed within each topic. **Note:** Typically offered at MC and OL; all terms.

HRM 119 - Certification in Sanitation

1 credit hour - 16 hours of lecture.

Learn the causes and prevention of foodborne illness, maintenance of sanitary conditions, and how to implement a Hazard Analysis Critical Control Point (HACCP) system. Study the flow of food from receiving through storage, prep and service. Take the national food safety certification exam from the National Restaurant Association (NRA) designed for food service professionals. A ServSafe® Food Protection Manager certification from the NRA is issued to students who satisfactorily complete the course and pass the examination. **Note:** Typically offered at MC, GB, and OL; all terms.

HRM 121 - Introduction to Cooking

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Learn the fundamentals of cooking, knife skills, culinary terminology, and equipment usage. Study product identification and applied cooking techniques as well as basic fabrication, practical sanitation, culinary math, soup, stock and sauce preparation. Prepare a variety of food products in a commercial kitchen setting and review quality standards. Lab fee \$225. **Prereq. or Coreq.:** A current ServSafe® Food Protection Manager Certification, HRM 119, or permission of the Director of the HCAT Institute. **Note:** Student must provide the required uniform and knife kit. Students pursuing Hospitality Business Management degree option degree or Hospitality Management certificate are exempt from purchasing the knife kit. Typically offered at GB and OL; fall, spring, and summer terms.

HRM 123 - Cooking Techniques 1

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Develop skills and knowledge obtained in HRM 121. Main topics include soup, stock and sauce preparation. Classical cooking methods are emphasized. Basic kitchen management techniques including sanitation and organizational skills are discussed and practiced. Students will taste and critique recipes prepared in a professional kitchen environment. Lab fee \$250. **Prereq:** HRM 119 and HRM 121 or permission of the Director of the HCAT Institute. **Note:** Students must provide the required uniform and knife kit. Typically offered at GB and OL; fall and spring terms.

HRM 124 - Introduction to Baking and Pastry

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Focus on professional bread production, including yeast breads, sweet dough, and quick breads. Produce basic doughs, pies, cookies, custards and choux pastry. Basic baking principles, bakery procedures and sanitation are emphasized. Lab fee \$145. **Prereq. or Coreq.:** A current ServSafe® sanitation certification, HRM 119, or permission of the Director of the HCAT Institute. **Note:** Student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at MC and OL; fall, spring, and summer terms.

HRM 140 - Event Planning

3 credit hours - 45 hours of lecture.

Review the field of special-event planning from formal catered events to meetings and conventions. Emphasis is on learning to design cost-effective ventures. The class includes contract negotiations, layouts, presentations and final delivery. Operation of trade shows, festivals and smaller community events also is covered. **Note:** Typically offered OL; fall and spring terms.

HRM 148 - German Food and Culture 1

1 credit hour - Four hours of lecture, 16 hours of laboratory and 12 hours of field trips.

Increase knowledge of foods and menu presentation styles of Germany. Students explore the unique flavors of German recipes and one-dish menus. Through lecture and work in the kitchen, students learn how to prepare meats, vegetables, sauces and desserts in the German tradition. Course includes field trip to area German markets and brewery. Lab fee \$35. **Note:** *In addition, the student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB; summer term.*

HRM 150 - Chinese Cuisine and Culture

1 credit hour - Four hours of lecture, 16 hours of laboratory and 12 hours of field trips.

Examines the unique cultural impact of food and dietary practices on Chinese life. Students identify the major cuisines of China from both historical and contemporary perspectives. Food preparation skills will be demonstrated, taught and related to lifestyle practices. In addition to lab practice, students will travel to an Asian market to observe and discuss the market culture and foods displayed. Lab fee \$35. **Note:** *In addition, the student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB; summer term.*

HRM 151 - The Asian Kitchen and Techniques of Stir-Fry

1 credit hour - Four hours of lecture, 16 hours of laboratory and 12 hours of field trips.

Learn regional Asian cooking techniques including stir-frying. Learn cutting and sauce preparation. Specialty equipment, including Mongolian hot pots, will be used. In addition, students will take a trip to an Asian market and observe cooking, food preparation, cooking techniques and Asian food products. Lab fee \$35. **Note:** *In addition, the student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB; summer term.*

HRM 157 - Indian Food and Culture

1 credit hour - 10 hours of lecture and 10 hours of laboratory.

Explore the basics of Indian cookery and presentation. Discuss techniques and cultural practices of the subcontinent. Covers basic ingredients and terminology as well as preparation of regional specialties from Kashmir, Delhi, Bombay, Bengal and Madras. Enrollment is limited. Lab fee \$35. **Note:** *In addition, the student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB; summer term.*

HRM 158 - Use of Herbs in Food Preparation

1 credit hour - Four hours of lecture, 18 hours of laboratory and eight hours of field trips.

This travel-study course examines the use of fresh herbs in food preparation. Course includes field trips to local herb farms, including the National Herb Garden at the Washington Cathedral. Cover herbal recipes for teas, oils, vinegars and many more menu items. Review historical use of herbs as medicinal remedies as well as techniques for successfully growing a variety of culinary herbs in the area. Lab fee \$30. **Note:** *In addition, the student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB; summer term.*

HRM 161 - Introductory Ice Carving

1 credit hour - 11 hours of lecture and nine hours of laboratory. Learn basic techniques of ice carving.

Topics include tools, templates, ice tempering and design. Students design and carve basic ice sculptures. Dress warmly. Lab fee \$100. **Note:** *Typically offered at GB; summer term.*

HRM 162 - Regional Italian Cuisine

1 credit hour - Six hours of lecture and 18 hours of laboratory.

Experience and learn about the origin of many of Italy's regional cuisines. Students will prepare a variety of regional Italian menus using ingredients from the same regions. Cooking techniques with a cultural overview will be explained during the hands-on cooking activities. Lab fee \$35. **Note:** *In addition, the student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB; summer term.*

HRM 165 - Vegetarian Proteins and Diet

1 credit hour - Six hours of lecture, 14 hours of laboratory and eight hours of field trips.

Course examines the motivations and benefits of vegetarian protein food sources available in today's market. Emphasis is on understanding and dealing with nutritional concerns associated with vegetarian diets. Students will prepare and taste a number of vegetarian dishes including meat substitutes. Course offers a field trip to local health stores and a vegetarian restaurant. Lab fee \$35. **Note:** *In addition, the student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB; summer term.*

HRM 190 - Food Science and Nutritional Cooking

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Learn principles of food composition and the reactions and changes that occur during the preparation and cooking process. Learn principles of sensory evaluation of food, the scientific method, food nutrition and menu planning. Gain experience in the planning, execution and reporting of a food-based research project. Lab fee \$175. **Prereq:** *HRM 119, HRM 121, and HRM 124. Note: Students must provide the required uniform and knife kit. Typically offered at MC, GB, and OL; fall, spring, and summer terms.*

HRM 201 - Intermediate Bread Production

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Intermediate lab course focusing on the fundamentals of bread production with emphasis on specialty artisan breads. Topics of discussion include yeast, grains and flour, starters and levains, sweet doughs, flatbreads and bread production techniques. Emphasis will be placed on understanding of the different qualities of various bread doughs, shaping techniques, the production baking process. The history and role of bread in various cultures will be covered. Lab fee \$150. Lab fee \$150. **Prereq. or Coreq.:** HRM 119 or permission of the Director of the HCAT Institute. **Note:** Student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at MC; fall and spring terms.

HRM 202 - Intermediate Cake Production

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Learn cake production and decoration techniques. Discuss mixing methods, high fat and foam type cake production. Focus on preparation of quality baked goods such as creamed fat cakes, wedding cakes, special occasion cakes, butter creams and decoration techniques: modeling paste, chocolate modeling paste, royal icing, gum paste, marzipan and fondant. Lab fee \$240. **Prereq:** HRM 124 or permission of the Director of the HCAT Institute. **Note:** Students must provide the required uniform and knife kit. Typically offered at MC; fall and spring terms.

HRM 203 - European Pastry, Torte and Gateau

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Produce classic pastries, tortes, gateau and entremet. Temper chocolate and create basic chocolate and sugar decor. Buffet style pastries and desserts. Mousses, foam cakes, enrobing and finishing work. Lab fee \$220. **Prereq:** HRM 124 or permission of the Director of the HCAT Institute. **Note:** Student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at MC; fall and spring terms.

HRM 205 - Cooking Techniques 2

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Apply cooking techniques to continue to develop skills utilizing vegetables, grains, pasta, poultry, meat, game, and seafood. Study and cook traditional breakfast items. Learn principals of entrée production and plate presentation. Explore regional American cuisine and prepare classic recipes from different US regions. Lab fee \$290. **Prereq:** HRM 123 or permission of the Director of the HCAT Institute. **Note:** Student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at GB and OL; fall and spring terms.

HRM 220 - Garde Manger

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Prepare traditional cold foods including salads, sandwiches, appetizers, cheese and hors d'oeuvres. Produce charcuterie; pate, terrines, galantines, and sausages as well as use traditional preservation techniques and create decorative centerpieces. Students will also plan, prepare, and present a garde manger buffet. Lab fee \$290. **Prereq:** HRM 123 or HRM 203 or permission of the Director of the HCAT Institute. **Note:** Students must provide the required uniform and knife kit. Typically offered at GB; fall and spring terms.

HRM 223 - International Cuisine

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Explore flavors and cooking techniques from regional world cuisines. Study the roots of cooking from a cultural, geographical, religious and historical perspective. Discuss the diffusion of world cuisines in contemporary cooking as well as their cultural impact on current culinary trends. Prepare authentic recipes including meats, poultry, seafood, vegetables and desserts. Learn the elements of buffet presentation and ala carte service. Lab fee \$275. **Prereq:** HRM 123 and HRM 124 or permission of the Director of the HCAT Institute. **Note:** Students must provide the required uniform and knife kit. Typically offered at GB; fall and spring terms.

HRM 225 - Restaurant Production and Simulation

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Understand and apply a variety of theories, methods, and philosophies of food production, service, styling, composition, and presentation. Analyze and evaluate food in regards to taste, flavor, aesthetics, construction, and rheology. Demonstrate critical thinking techniques by creating unique cookery through open-ended cooking exercises. Understand and apply industry behavioral techniques through real life simulations. Lab fee \$350. **Prereq:** HRM 190 and HRM 205 or permission of the Director of the HCAT Institute. **Note:** Students must provide the required uniform and knife kit. Typically offered at GB; fall and spring terms.

HRM 226 - Advanced Pastry Production

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Prepare garnishes, sauces, mousses and classic desserts. Develop design and management skills and explore concepts of plated desserts. Menu design, management and efficiency models explored. Apply professional pastry techniques to the design, execution, and production of various advanced pastry preparations. Lab fee \$175. **Prereq:** HRM 190 and HRM 203 or permission of the Director of the HCAT Institute. **Note:** Student must provide the required uniform of white chef coat, scarf, apron, checkered kitchen pants, black closed toe shoes and a chef hat. Typically offered at MC; fall and spring terms.

HRM 227 - Chocolates, Confections, and Entremet

3 credit hours - 15 hours of lecture and 60 hours of laboratory.

Apply advanced pastry techniques to the production of chocolate and sugar confections. Design and compose entremet for capstone presentation. Learn chocolate composition and crystallization. Apply professional pastry techniques to the design, execution, and production of various advanced pastry preparations. Lab fee \$195. **Prereq:** HRM 202 and HRM 203 or permission of the Director of the HCAT Institute. **Note:** Students must provide the required uniform and knife kit. This is a capstone course. Typically offered at MC; fall and spring terms.

HRM 232 - World Culture and Cuisine: A Social Science Perspective

3 credit hours - 45 hours of lecture.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Explore the relationship between human societies and the foods they eat. Examine food history, religion and food, traditional diets, economic impact, dietary adaptations and therapeutic uses of food. This course is designed to help customer service industry professionals such as hospitality, health and business professionals, to learn to work with members of different ethnic and religious groups in a culturally sensitive manner. Cultural groups with significant populations in the United States, as well as smaller groups who maintain homogeneous cultural communities, will be examined. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

HRM 240 - Meeting and Conference Planning

3 credit hours - 45 hours of lecture.

Study conferences, conventions, expositions and meetings and their impact on tourism. Emphasizes discussion of host venues, on-site activities and legal concerns of meeting planning. **Note:** Typically offered OL; fall and spring terms.

HRM 251 - Food and Beverage Operations Management

3 credit hours - 17 hours of lecture and 36 hours of laboratory.

Explore techniques of proper dining service in hospitality establishments. Learn the organization of dining rooms and table settings, with an introduction to textiles, glassware, flatware, and china. Review the management and service of wine, beer, and spirits. Explain the importance of using proper automated procedures when processing guest checks. Train and test for national certification for the responsible service of alcoholic beverages. Lab fee \$50. **Prereq:** Prerequisite: HRM 121 or permission of the director of the HCAT Institute. **Note:** The student must provide the required uniform of white t-shirt, black slacks and black closed toed slip resistant shoes. Typically offered at GB and OL; fall and spring terms.

HRM 253 - Catering Management

3 credit hours - 45 hours of lecture.

Designed to provide students with an overview of catering operations and management. Students prepare a business plan for a small private catering firm as well as review on-premise catering, menu design and pricing, service standards and equipment purchases. **Note:** Typically offered OL; spring term.

HRM 256 - Hotel Property Management

3 credit hours - 45 hours of lecture.

Examine property management concerns for hotels. Operational areas reviewed include housekeeping, security, risk management and maintenance. Special emphasis is given to hotel front office procedures and hospitality technology. Other areas of study include an introduction to labor relations, retention, departmental budgeting, feasibility studies, supply management and business forecasting. **Note:** Typically offered OL; fall and spring terms.

HRM 260 - Purchasing and Cost Controls

3 credit hours - 45 hours of lecture; one term.

Learn principles of food and beverage purchasing and cost controls as applied to food-service operations. Study the procurement and control of food, beverage, equipment, small wares, furniture, fixtures and textiles, as well as current systems of food and labor cost controls. Discuss budgets for food service operations, and menu analysis, pricing and planning. **Prereq:** HRM 111 and either HRM 121 or HRM 124 or permission of the Director of the HCAT Institute. **Note:** Typically offered OL; fall and spring terms.

HRM 275 - Internship in Hotel/ Restaurant Management

3 credit hours - 45 contact hours, 135 internship hours

Acquire practical supervised work experience in the hospitality industry. Objectives are set jointly by the supervising employer, student and faculty member. An informal colloquium will be included during the term to integrate theory and practice. **Prereq:** HRM 251 and HRM 260. **Note:** Enrollment in internship course requires that students hold an appropriate internship placement in order to receive course credit. Please consult with the HCAT internship coordinator. Typically offered OL; fall, spring, and summer terms.

HRM 280 - Restaurant Simulation

1 credit hour - Five hours weekly, 1 hour lecture, 4 hours lab each week. 5 weeks total

This course is designed to simulate the back of the house production and procedures for restaurant service. Students will engage in real world scenarios and reinforce practical techniques including: planning, prepping, cooking, and plating. This course acts as a supplement to Hotel/Restaurant Management certificates and degrees. **Note:** Completion of HRM 121 is recommended. Typically offered at GB; summer term.

HRM 280-299 - Special Topics in Hotel/Restaurant Management

-

In-depth series of current topics affecting the hospitality industry. Emphasis is given to both national and local

hospitality trends such as federal wage guidelines, product development, anti-discrimination laws and other areas not suited to traditional scheduling. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-1,020.

Human Services

HUS 100 - Introduction to Human Services

3 credit hours - Three hours weekly, one term.

Explore Human Services as a profession. Study the evolution and history of Human Services and social welfare policy. Examine the Generalist Practice and the role of the Human Service Professional. Investigate professional ethics and values in Human Services, and the underlying philosophies, attitudes, and human service delivery models. Learn skills and intervention strategies, including case management, as well as various approaches to helping. Begin the process of self-awareness and growth in relation to helping others. **Prereq:** *Eligibility for ENG 101/ENG 101A or permission of the department chair.*

HUS 101 - Human Service and Addiction Counseling Ethics in Practice

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Explore current day analysis of the moral, cultural and ethical issues in the human services and addiction counseling fields, as well as an examination of core concepts related to ethics. Examine the consequences of ethical violations in the various areas of human services and addiction counseling. Learn the historical development of informed consent and the "codes of conduct," examining legal obligations and ethical codes, exploring ethical dilemmas and decision making, and becoming a culturally competent worker. Orients students to fieldwork and prepares students for practice in the human services and addiction counseling fields. **Prereq:** *Eligibility for ENG 101/ENG 101A or permission of the department chair.*

HUS 102 - Physiological Aspects of Chemical Dependence

3 credit hours - 45 hours of lecture; one term.

Examine the physiologic effects of recreational drug use and chemical dependence on the body systems. Classifications of abused drugs (alcohol, narcotics, depressants, stimulants and hallucinogens), basic concepts of the addiction cycle and treatment goals will be discussed. Approved by the Office of Education and Training for Addictions Services (OETAS). **Crosslisted:** *Also offered as HUS 102H; credit is not given for both HUS 102 and HUS 102H.*

HUS 102H - Physiological Aspects of Chemical Dependence - Honors

3 credit hours - 45 hours of lecture; one term.

This is an honors course. Examine the physiologic effects of recreational drug use and chemical dependence on the body systems. Classifications of abused drugs (alcohol, narcotics, depressants, stimulants and hallucinogens), basic concepts of the addiction cycle and treatment goals will be discussed. Approved by the Office of Education and Training for Addictions Services (OETAS). **Prereq:** *Eligibility for Honors courses.* **Note:** *As part of the course, students will complete a capstone research project: Students will refine their research and critical thinking skills to complete the project successfully. Also offered as HUS 102; credit is not given for both HUS 102H and HUS 102.*

HUS 114 - Counseling, Assessment and Case Management

3 credit hours - three hours weekly; one-term.

Examine professionalism in the counseling field, including professional ethics and legal duties. Identify the components of a helping relationship. Explore counseling and case management skills and techniques. Demonstrate communication skills that enhance the exchange of information including multicultural interviewing techniques. Apply assessment and the subsequent treatment planning skills associated with case management and counseling. Determine and evaluate outcome goals for intervention. **Prereq:** *HUS 101 and HUS 141.* **Coreq(s):** *HUS 115 or permission of department chair.* **Crosslisted:** *Also offered as HUS 114H; credit is not given for both HUS 114 and HUS 114H.*

HUS 114H - Counseling, Assessment and Case Management - Honors

3 credit hours - Three hours weekly; one term.

Examine professionalism in the counseling field, including professional ethics and legal duties. Identify the components of a helping relationship. Explore counseling and case management skills and techniques. Demonstrate communication skills that enhance the exchange of information including multicultural interviewing techniques. Apply assessment and the subsequent treatment planning skills associated with case management and counseling. Determine and evaluate outcome goals for intervention. **Prereq:** *Eligibility for Honors Courses and HUS 141 and HUS 101.* **Coreq(s):** *HUS 115 or permission of department chair.* **Note:** *Also offered as HUS 114; credit is not given for both HUS 114 and HUS 114H. As part of the course, students will complete a capstone research project: Students will refine their research and critical thinking skills to complete the project successfully.*

HUS 115 - Fieldwork: Counseling, Assessment and Case Management

3 credit hours - 90 minutes of lecture weekly; 125 hours of supervised fieldwork; one term.

Gain supervised fieldwork placement experience. Implement theories and techniques learned in the lecture class. Lab fee \$15. **Prereq:** *HUS 101.* **Coreq(s):** *HUS 114 or HUS 114H.*

HUS 120 - Developmental Disabilities 1

3 credit hours - One term.

Course imparts the study of mental retardation in terms of the history of mental retardation in the United States,

biological and psychosocial causes of mental retardation, and treatment and care of persons with mental retardation. Special attention is paid to definitional framework and developmental issues across the lifespan of persons with both mild and severe mental retardation. Legal and familial issues are reviewed. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

HUS 122 - Developmental Disabilities 2

3 credit hours - One term.

Course exposes students to the history, causes, identification, and prevention of developmental disabilities. Normal life span development versus developmental delays are reviewed. Genetic and chromosomal abnormalities are discussed, as well as pre- and post-natal socioenvironmental factors. Special attention is paid to autism, seizure disorders and cerebral palsy. **Prereq:** *HUS 120.*

HUS 130 - Introduction to Family Counseling

3 credit hours - three hours weekly

Examine family structure and functions in contemporary American society. Discuss professional ethics and focus on the variables that characterize healthy and unhealthy familiar relationships. Identify techniques, processes, and theoretical approaches that help facilitate change within families. Explore the impact of addiction and recovery on the family. Gain knowledge of the clinical implications of culturally competent counselors. **Prereq:** *HUS 101.*

HUS 140 - Topics in Alcohol and Drug Counseling: Co-occurring Disorders

3 credit hours - Three hours weekly; one term.

Examines how addictive disorders can mimic a variety of medical and mental health conditions; examines the potential for medical and mental health conditions to coexist with addiction and substance abuse. Recognizes assessment practices and scientifically supported models of treatment for co-occurring disorders and substance related problems. Evidence-based treatment approaches are emphasized. Special populations, such as adolescents, women and persons involved with the criminal justice system with co-occurring disorders are studied.

HUS 141 - Group Dynamics

3 credit hours - Three hours of lecture weekly; one term.

Examine the theories of group structure, function, interaction, roles and leadership. Study these topics through classroom activity, reading and group participation. Discuss process and interaction as they occur in the life of the group. Recognize various types of groups in use for training, education and treatment. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

HUS 150 - Introduction to Aging Studies

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Examine the myths, demographics, psychosocial perspectives and biomedical aspects of growing old in America. Discuss issues impacting older persons including economics, politics, religion, leisure, social/living environment, intimacy and sexuality, health care and death and dying. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

Crosslisted: *Also offered as SOC 150; credit is not given for both HUS 150 and SOC 150. Note: Typically offered at MC and OL; fall and spring terms.*

HUS 151 - Psychology of Aging

3 credit hours - Three hours weekly; one term.

Focus on later life development and the aging capabilities, physical health, cognitive development and psychological difficulties. Emphasizes ways of assisting the elderly and their families. **Crosslisted:** *Also offered as PSY 151; credit is not given for both HUS 151 and PSY 151.*

HUS 200 - Addiction Treatment Delivery

3 credit hours - Three hours weekly; one term.

Examines the systematic approach to screening and assessment of individuals thought to have a substance abuse disorder, who are being considered for admission to addiction-related services, or who are presenting in a crisis situation. Application of the use of various substance abuse, addiction, and mental health screening and assessment instruments is practiced. Collaborative treatment planning, case management, and referral skills are highlighted. Client advocacy is emphasized.

HUS 211 - Crisis Intervention and Counseling

3 credit hours - Three hours weekly; one term.

Examine underlying principles of crisis intervention including situational crisis, developmental crisis, and special populations. Learn specific crisis assessments and case management techniques, and practice skills in interviewing, individual and group crisis intervention and counseling. Determine and apply professional ethics in hypothetical case situations. **Prereq:** *Eligibility for ENG 101/ENG 101A, completion of HUS 114 or appropriate experience, e.g., employment that calls for interviewing and counseling, or permission of department chair.*

HUS 216 - Theories of Counseling

3 credit hours - Three hours weekly; one term.

Surveys the major theories of counseling and their theorists. Introduces students to the application of various counseling techniques and procedures used for behavior change. In class, students examine case studies and practice delivery of the counseling modalities. Emphasis is on professional values and ethics. **Prereq:** *HUS 115 or permission of department chair. Coreq(s): HUS 217 or permission of department chair.*

HUS 217 - Fieldwork: Theories of Counseling

3 credit hours - 125 hours of supervised fieldwork and 90 minutes of lecture weekly; one term.

Gain supervised fieldwork placement experience. Implement theories and techniques learned in the lecture class. Lab fee \$15. **Prereq:** HUS 115. **Coreq(s):** HUS 216 or permission of department chair.

HUS 230 - Family Counseling in Military and Veteran Populations

3 credit hours - Three hours weekly; one term.

Examine the diverse military family structure. Explore challenges facing military families, such as relocation, deployment and separation, injury, grief and loss, addiction and intimate partner violence. Apply family counseling techniques and processes to facilitate change within the familial relationships.

HUS 231 - Assessment of Psychological Trauma in Military and Veteran Populations

3 credit hours - Three hours weekly, one term.

Explore the etiology and assessment of trauma in the military and veteran and populations. Review assessment strategies, such as clinical interviews and tools related to screening for and diagnosing trauma-related disorders. Utilize assessment tools to screen and assess persons working in the military and veterans for trauma related disorders.

Assessment of trauma-related behavioral health issues in military personnel and veterans is emphasized.

HUS 232 - Treatment of Psychological Trauma in Military and Veteran Populations

3 credit hours - Three hours weekly; one term.

Explore clinical treatment interventions and strategies of trauma-related disorders in military and veteran populations. Treatment interventions, such as cognitive-behavior therapy, group therapy, eye movement desensitization and reprocessing (EMDR), technology-based interventions, family and couples counseling, hypnosis and psychopharmacology will be reviewed.

HUS 233 - Traumatic Brain Injury in Military and Veteran Populations

3 credit hours - Three hours weekly; one term.

Explore mechanisms of traumatic brain injury in the veteran and military populations. Identify common cognitive, affective and communication changes in brain injured patients. Learn the impact of brain injury on daily functioning. Survey current research on traumatic brain injury and the rehabilitative process. Investigate treatment, rehabilitation, and counseling strategies and interventions.

HUS 234 - Trauma Informed Care

2 credit hours - Two hours weekly, one term

Examine the concept of trauma, its prevalence among clients of human service organizations and its profound effect on client outcomes. Recognize sources of trauma such as childhood neglect, homelessness, drug addiction, mental illness, sexual abuse, frequent incarceration and other types of trauma-inducing experiences. Apply effective trauma informed care practices and strategies.

HUS 240 - Gambling Addiction

3 credit hours - Three hours weekly; one term

Examine gambling addiction from biological, psychological, and social perspectives. Gain knowledge and clinical understanding related to the etiology and prevention of this addiction, as well as identification and treatment of those with a pathological gambling disorder. Explore and apply clinical screening tools, diagnostic criteria and interventions through case studies. Investigate personal, familial and social consequences of problem gambling. **Prereq:** Eligibility for ENG 101/ENG 101A.

HUS 275 - Human Services Practicum

3 credit hours - One hour of seminar and 10-12 hours per week in the field ; one term.

Earn credit for human services-related work. Develop specific learning objective and explore career goals. **Prereq:** HUS 101 or permission of academic chair.

HUS 276 - Human Services Practicum 2

3 credit hours - One hour of seminar and 10-12 hours per week in the field; one term.

Earn credit for human services-related work. Develop specific learning objective and explore career goals. **Prereq:** HUS 101 or permission of department chair and HUS 275.

HUS 280-299 - Special Topics in Human Services

-

Courses developed to provide current or specialized information in human services, as needed. Offered are such topics as substance abuse, burnout or stress management which serve special groups or require nontraditional scheduling. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. **Prereq:** HUS 114, PSY 111 or permission of department chair.

Humanities**HUM 101 - Introduction to Fine Arts**

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Study of the nature of visual, performing and literary arts and of changing roles of art, artist and audience. Slides, videotapes, films and live performances

supplement reading. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered MC and OL; fall and spring terms.

HUM 151 - American Folk Arts

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Multidisciplinary study of American oral folk traditions (folklore, customs and music) and material culture (folk design in furniture, pottery, wood carving and textiles and the painting of the untrained artist).

HUM 210 - Images of Women

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Gain a multidisciplinary overview of the portrayal of women in the humanities. Emphasize the understanding of women as defined by mythological, religious, philosophical and artistic traditions. **Crosslisted:** Also offered as GSS 210; credit is not given for both HUM 210 and GSS 210. **Note:** Typically offered MC and OL; fall and spring terms.

Internship Experience

IEX 275 - Internship Experience 1

3 credit hours -

Gain college credit for an internship experience. This is for students whose area of study does not include an internship course; 120 hours of work-based learning cumulatively during the internship combined with one hour of faculty contact weekly during the experience. Credit is earned for area-related work experience based on specific learning objectives.

Prereq: (1) Successful completion of 3 credit hours in area of study related to the internship experience; (2) minimum grade point average of 2.5; and (3) approval of faculty advisor and department chair or academic dean prior to enrollment. **Note:** Students are strongly encouraged to consult with the Internship office to explore this opportunity.

IEX 276 - Internship Experience 2

3 credit hours -

Gain college credit for an internship experience. This is for students whose area of study does not include an internship course and who have successfully completed IEX 275; 120 hours of work-based learning cumulatively during the internship combined with one hour of faculty contact weekly during the experience. Credit is earned for area-related work experience based on specific learning objectives. **Prereq:** (1) Successful completion of 3 credit hours in area of study related to the internship experience; (2) minimum grade point average of 2.5; (3) successful completion of IEX 275; and (4) approval of faculty advisor and department chair or academic dean prior to enrollment. **Note:** Students are strongly encouraged to consult with the Internship office to explore this opportunity.

IEX 277 - Internship Experience 3

3 credit hours -

Gain college credit for an internship experience. This is for students whose area of study does not include an internship course and who have successfully completed IEX 275 and IEX 276; 120 hours of work-based learning cumulatively during the internship combined with one hour of faculty contact weekly during the experience. Credit is earned for area-related work experience based on specific learning objectives. **Prereq:** (1) Successful completion of 3 credit hours in area of study related to the internship experience; (2) minimum grade point average of 2.5; (3) successful completion of IEX 276; and (4) approval of faculty advisor and department chair or academic dean prior to enrollment. **Note:** Students are strongly encouraged to consult with the Internship office to explore this opportunity.

Interprofessional Healthcare

IPH 240 - Spanish for Medical Professionals

3 credit hours - 45 hours of lecture; one term

Learn the translation and communication needs of medical professionals with little or no experience with Spanish. Develop communication proficiency and accuracy in the use of the Spanish language in medical settings with Spanish-speaking patients. Learn pertinent information about Hispanic cultures while participating in language tasks through listening, reading, writing, and conversation. Learn to comprehend a medical history in Spanish by eliciting pertinent medical information in simple terms. **Prereq:** HEA 150, MDA 100, BIO 233, BIO 234. **Note:** Background knowledge of the language is recommended.

IPH 260 - Behavioral Health

3 credit hours - 45 hours of lecture; one term.

Study the biological, psychological, and social context of health and illness, through a comprehensive analysis of the relationship between health and behavior, with a focus on stress, addiction, nutrition, eating disorders, pain, and disease as they relate across the lifespan. Identify the psychological factors in the development of specific disease states. Use the biopsychosocial model in the examination of these topics. **Prereq:** MDA 100 and PSY 111 or PSY 211 or PSY 250.

IPH 261 - Patient-Centered Healthcare

3 credit hours - 45 hours of lecture; one term.

Explore healthcare delivery from a patient-centered perspective. Learn to account for social, ethnic, and religious sensitivities in the development, evaluation, and implementation of therapeutic goals. Weigh strategies for patient education, counseling, and preventive measures in the areas of diversity and healthcare delivery to these populations. Issues include the recognition of boundaries in personal relations within the workplace and balancing role fidelity with

personal integrity and cultural humility. **Prereq:** MDA 100 and PSY 111. **Coreq(s):** HUS 275 and IPH 240. **Note:** Take this course in conjunction with volunteer service/participation hours during HUS 275 - Human Services Practicum, in community service at underserved medical clinics and treatment facilities under direction of faculty clinicians and licensed human services professionals.

IPH 262 - Clinical Hematology and Microbiology

4 credit hours - 45 hours of lecture and 30 hours of laboratory; one term

Demonstrate understanding of the laboratory tests used to assess hemostatic and hematopoietic pathogenic disease states and conditions. Identify white blood cell morphology in healthy states and blood dyscrasias. Demonstrate knowledge of appropriate microbiological tests used to identify the characteristics of isolation and identification of pathogenic bacteria. Develop familiarity with virology, parasitology, and mycology and their associated laboratory assays. Lab fee \$200. **Prereq:** BIO 223, BIO 233, and BIO 234; CHE 112 or CHE 113. **Note:** Prepares students seeking a graduate degree as a health care provider (physicians, physician assistants, pathology assistant, etc.) with a basic background of hematology and clinical microbiology laboratory tests.

IPH 263 - Principles of Diagnostic Procedures

2 credit hours - 15 hours of lecture, 30 hours of lab; one term

Demonstrate from a health practitioner's perspective understanding of the principles of diagnostic procedures used to assess patient disease states and disorders. Learn about regulatory aspects of healthcare; phlebotomy, clinical laboratory procedures in the blood bank, hematology, chemistry, cytogenetics, microbiology, and molecular laboratories; basic interpretation of electrocardiograms; performance and interpretation of pulmonary function tests; and performance and interpretation of vital signs. Lab fee \$200. **Prereq:** IPH 262. **Note:** Prepare to seek a graduate degree as a healthcare provider (physician, physician assistant, pathology assistant, etc.) with a basic background of the diagnostic procedures utilized by healthcare providers.

IPH 264 - Legal & Ethical Issues for Healthcare Professionals

2 credit hours - 30 hours of lecture; one-term.

Learn the legal and ethical responsibilities of the healthcare worker, including laws, regulations, and industry standards. Explore the principles of moral, bioethical, and health etiquette as they apply to current healthcare delivery, such as stem cell research, refusal of treatment, living wills, and right to die issues. Study the laws related to death, dying, and organ transplantation. Focus on the legal definition of death, competency, decision making regarding life-sustaining treatment, suicide, self-determination, and procurement and allocation of organs. **Prereq:** HUS 275, IPH 260, IPH 261.

IPH 265 - Statistics and Clinical Research Methods

3 credit hours - 45 hours of lecture; one term.

Use meaningful data to explore concepts in probability and statistics including measures of central tendency and dispersion. Develop statistical literacy by studying graphical representations of data, discrete and continuous probability distributions, and sampling techniques and theory. Construct and interpret confidence intervals, find lines of best-fit, and perform hypothesis tests for means, proportions, and independence. Understand the use and appropriateness of common biostatistics methods and epidemiologic approaches employed by healthcare professions as a basis for clinical judgement. Explore empirical data regarding medicine and patient care, as well as data used in the surveillance and investigation of health-related states of events. Use required technology throughout the course for statistical analyses. **Prereq:** MAT 145 and MAT 146 or MAT 151 or higher level math.

IPH 266 - Human Genetics as the Basis of Disease

3 credit hours - 45 hours of lecture; one term.

Understand the concepts of molecular genetics and inheritance as the foundation of human genetics and disease states. Prepare for later recognition, application, and workup of dysmorphology in the context of human motor and cognitive development. Learn effective methods to discover a patient's genetic predisposition and increased risk for disease development. **Prereq:** BIO 223, BIO 233, BIO 234, MDA 100, PSY 111.

IPH 267 - Foundations of Pharmacology and Pathophysiology

3 credit hours - 45 hours of lecture; one term.

Learn principles of multisystem function and dysfunction at the cellular and molecular levels, specifically as they relate to homeostatic function. Explore the physiologic changes that occur as a result of disease processes, the clinical manifestations indicative of altered health states, and the basis of drug therapies used to treat or affect these conditions. Focus on anatomy, chemistry, microbiology, and physiology with introductory pharmacology, while focusing on their specific applications to clinical practice. **Prereq:** BIO 223, BIO 233, BIO 234; CHE 112 or CHE 113.

IPH 268 - Applied Anatomy Through Imaging Modalities

3 credit hours - 45 hours of lecture; one term.

Broaden knowledge of human anatomy through visual application using various imaging modalities. Explore body system functions, interactions, and locations of specific structures through use of plain film x-rays, CT, MRI, sonography, nuclear medicine, and angiography studies. Emphasize anatomic structure location and organ system function as related to a patient's past and current medical history with physical examination findings as the basis for providing sound clinical decision making. **Prereq:** BIO 223, BIO 234, MDA 100.

Library Information

LIB 115 - Critical and Creative Thinking in the Information Age

3 credit hours - Three hours weekly; one term.

Formerly PHL 100-Critical Thinking. This course meets the Arts & Humanities General Education Requirement. Acquire and develop skills that foster more critical and creative thinking. Learn to analyze arguments, evaluate evidence, and find and use information effectively and ethically to shape and support thinking. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as PHL 115; credit is not given for both LIB 115 and PHL 115.

Massage Therapy

MAS 100 - Introduction to Massage

1 credit hour - 15 hours of lecture.

Introduces the background, terminology, legal requirements, career opportunities and ethics of therapeutic massage for the professional or nonprofessional. Discusses introductory body mechanics. Helps students determine if they want to pursue therapeutic massage as an avocation or vocation. Prepares the student for MAS 110.

MAS 108 - The Science of Massage Therapy

4 credit hours - Four hours lecture weekly; one term.

Develop an understanding of the structure and function of the systems of the body, including basic concepts of energetic anatomy, as it relates to the safe and effective application of massage and bodywork techniques. Examine current research to identify the physiological and psychological effects of soft tissue manipulation. Discuss a holistic view of the body, while exploring the impact of touch and specific massage and bodywork techniques on the mind-body connection.

MAS 110 - Fundamentals of Massage Therapy

7 credit hours - 60 hours of lecture and 90 hours of college laboratory.

Formerly MAS 110 - Swedish Massage. Learn musculoskeletal anatomy for the massage therapist, and the basic theory and techniques necessary for administering Swedish relaxation massage. Lab fee \$60. **Prereq:** MAS 100 with a grade of C or better; admission into the Massage Therapy Program.

MAS 111 - Intermediate Massage Therapy

6 credit hours - 60 hours of lecture and 60 hours of college laboratory; one term.

Learn pathology for massage therapists. Gain intermediate training in soft tissue and movement modalities. Enhance the ability to utilize creative problem-solving skills through practical applications. Learn the techniques that are necessary for deep tissue massage therapy. Lab fee \$60. **Prereq:** A grade of C or better in MAS 108 and MAS 110.

Coreq(s): MAS 120.

MAS 113 - Advanced Massage Therapy

6 credit hours - 60 hours of lecture and 60 hours of college laboratory; one term.

Formerly MAS 113 Advanced Massage Techniques. Learn advanced techniques in soft tissue manipulation. Utilize creative, problem-solving skills through practical applications. Examine techniques necessary for myofascial release, sports and pregnancy massage. Gain exposure to a variety of additional bodywork modalities. Lab fee \$60. **Prereq:** A grade of C or better in MAS 111. **Coreq(s):** MAS 121.

MAS 117 - Kinesiology for Massage Therapists

3 credit hours - 30 hours of lecture and 30 hours of lab; one term.

Study human movement in the context of the practice of therapeutic massage. Analyze posture, gait and activities of daily living. Learn manual muscle testing as a client assessment tool. **Prereq:** MAS 110 or permission of the Academic Chair.

MAS 118 - Business for Bodyworkers

2 credit hours - 30 hours of lecture; one term.

Learn the foundation of successfully managing a bodywork business. Addresses Federal and State taxes and reporting (including Social Security and Medicare), record keeping, accounting, business structures, developing a business plan, marketing, being or hiring an independent contractor, third party billing and accepting credit cards. Students will prepare and present a financial business plan for their business. Provides 30 continuing education hours for NCBTMB and State of Maryland massage therapists.

MAS 120 - Massage Therapy Clinic 1

1 credit hour - 30 hours of college laboratory; one term.

Practice Massage Therapy techniques and gain experience providing massage therapy to clients in a clinic setting. Lab fee \$20. **Prereq:** MAS 110. **Coreq(s):** MAS 111. **Note:** Specific clinic hours will vary from week to week based on appointment schedule.

MAS 121 - Massage Therapy Clinic 2

1 credit hour - 30 hours of college laboratory; one term.

Gain additional practice and experience in massage therapy techniques and providing massage therapy to clients in a clinic setting. Lab Fee \$20. **Prereq:** MAS 111, MAS 120. **Coreq(s):** MAS 113. **Note:** Specific clinic hours will vary from week to week based on appointment schedule.

MAS 201 - Foot Reflexology

1 credit hour - 15 hours of lecture; one term.

Provides the principles of basic theory and demonstrates techniques for the massage therapist to administer foot

reflexology. May be repeated once for a total of 2 credits. Completion of this course awards 15 NCBTMB contact hours. Lab fee \$10. **Prereq:** MAS 110 with a C or better or permission of the program coordinator.

MAS 202 - Sports Massage

4 credit hours - 60 hours of lecture; one term.

Provides the foundations and skills for students to provide safe and effective sports massage for athletes in both athletic event and clinical settings. Students will learn the physiological goals and techniques for pre-event, inter-event, post-event, injury recovery and prevention and client self-help strategies. This course is designed for Certified or Registered Massage Therapists. Successful completion of this course awards 50 NCBTMB contact hours. Lab fee \$10. **Note:** *Students are to wear running type shorts.*

MAS 203 - Developing Therapeutic Presence

1 credit hour - 15 hours of lecture; one term.

Therapists and healing professionals will learn how to have healthy boundaries with clients, to avoid burnout, and to develop a strong therapeutic presence in order to maximize treatment outcomes. Develop and enhance general body energy awareness and the skills necessary to be grounded, and energetically full. The workshop will contain lecture, hands-on protocols and question and answer periods, as well as experiential guided meditation explorations, drawing and journaling. This course may be repeated for a total of 2 credits. Successful completion of this course awards 15 NCBTMB contact hours.

MAS 212 - Massage Therapy in a Healthcare Setting

4 credit hours - 45 hours of lecture and 30 hours of lab; one term.

Explore the application of massage therapy in a variety of healthcare settings. Topics include advanced pathology, roles of and communications with other healthcare professionals, medical devices, and assessment tools. Identify client's limitations of movement, set functional goals, and apply critical-thinking skills to design and implement a plan of care in a healthcare setting. Lab fee \$60. **Prereq. or Coreq.:** MAS 113 and MAS 121.

MAS 280-299 - Special Topics in Massage Therapy

-

A focused study of massage therapy topics not emphasized in introductory courses. Some offerings may be designed for specific audiences. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-100. **Prereq:** *Permission of the program coordinator.*

Mathematics

MAT 005 - Arithmetic

1 equivalent hour - Two hours weekly; one eight week session.

Develop proficiency in arithmetic topics such as whole numbers, fractions, decimals, percents, ratio and proportion, measurement and reading graphs. Lab fee \$15. **Note:** *MAT 005 is not included in the developmental sequence of courses leading to eligibility for credit level mathematics. Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

MAT 010 - Pre-Algebra

2 equivalent hours - Two hours weekly; one term.

Learn pre-algebra topics such as arithmetic of fractions, decimals, signed numbers, literal expressions, linear equations, polynomials and word problems. Attention will be given to study skills. This course prepares students for MAT 011 and is intended for students who need a review of introductory algebra skills. Lab fee \$15. **Prereq:** Achieve an appropriate score on the Mathematics Placement Test. **Note:** A grade of at least C is required in order to enroll in MAT 011.

MAT 011E - Beginning Algebra, Two-Week Extension

1 equivalent hour - Eight hours weekly; one two week term.

Continue studying a portion of the topics in MAT 011 which may include solving equations and applications, graphing, polynomial operations and factoring polynomials. **Prereq:** *Students must have successfully completed the minimum required coursework in a computer-intensive section of MAT 011. Permission of instructor required.*

MAT 012E - Intermediate Algebra, Two-Week Extension

4 credit hours - Four hours weekly; one term.

Examine two- and three-dimensional shapes, measurement, dimensional analysis, congruence and similarity, and coordinate and transformational geometry. Use computers to explore geometric concepts. Apply problem-solving techniques within each topic. **Prereq:** *Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012 or MAT 012E with a grade of at least C, or successful completion of an approved mathematics preparation course.* **Crosslisted:** *Also offered as MAT 222H; credit is not given for both MAT 222 and MAT 222H.* **Note:** *Primarily for students in the elementary education and early childhood education programs. Although MAT 221 and MAT 222 can be taken in either order, the sequential order is recommended.*

MAT 034 - Quantitative Foundations

4 equivalent hours - Four hours weekly; one term.

Study foundational algebraic and numeric topics essential in preparing students for MAT 135 or MAT 100 or MAT

133. Explore topics involving quantitative relationships, algebraic reasoning, functional reasoning, and probabilistic and statistical reasoning. Incorporate problem-solving skills, quantitative communication skills, and the use of technology. Lab fee \$15. **Prereq:** *Achieve an appropriate score on the Mathematics Placement Test, or successful completion of an approved mathematics preparation course.* **Note:** *A grade of at least C in MAT 034 is required to enroll in MAT 100, MAT 133, MAT 135 or MAT 135H. Either MAT 034 or MAT 035 serves as a prerequisite for MAT 135 or MAT 135H. Students should enroll in only one of MAT 034 or MAT 035. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.*

MAT 035 - Pre-Statistics

2 equivalent hours - Two hours weekly; one term.

Study foundational algebraic and numeric topics essential in preparing students for Statistics (MAT 135) including quantitative relationships, algebraic reasoning, functional reasoning, and probabilistic and statistical reasoning. Incorporate problem-solving skills, quantitative communication skills, and the use of technology. **Prereq:** *Achieve an appropriate score on the Mathematics Placement Test, or completion of MAT 011 with a grade of at least C, or successful completion of an approved mathematics preparation course.* **Note:** *MAT 035 and MAT 135 or MAT 135H may be taken in the same semester. A grade of at least C in MAT 035 is required to start MAT 135. Either MAT 034 or MAT 035 serves as a prerequisite for MAT 135 or MAT 135H. Students should enroll in only one of MAT 034 or MAT 035. Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

MAT 036 - Foundations of College Algebra

4 equivalent hours - Four hours weekly; one term.

Study pre-algebra and beginning algebra topics necessary to succeed in College Algebra. Topics include operations on real numbers; simplifying expressions; solving first-degree equations, inequalities and application problems; graphing linear equations; simplifying exponents; operations on polynomials; and factoring polynomials. **Prereq:** *Achieve an appropriate score on the Mathematics Placement Test, or successful completion of an approved mathematics preparation course.* **Note:** *A grade of at least C in MAT 036 is required to enroll in MAT 037. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.*

MAT 037 - Introduction to College Algebra

2 equivalent hours. - Two hours weekly; one term.

Study intermediate algebra topics supporting the problem-solving skills required for College Algebra. Topics include linear, rational, radical, quadratic, exponential and logarithmic equations and functions; systems of linear equations; graphing linear and non-linear functions; and inequalities. A brief review of Beginning Algebra topics is also included. **Prereq:** *Achieve an appropriate score on the Mathematics Placement Test, or completion of MAT 011 or MAT 036 with a grade of at least C, or successful completion of an approved mathematics preparation course.* **Note:** *MAT 037 and MAT 137 may be taken in the same semester. A grade of at least C is required in MAT 037 in order to start MAT 137. Typically offered at MC, AM, GB, and OL; all terms.*

MAT 044 - Precalculus Foundations

4 equivalent hours - Four hours weekly; one term.

Study and apply pre-algebra, beginning, and intermediate algebra topics such as operations on integers, fractions, and decimals; simplifying numerical and algebraic expressions with exponents, including rational exponents; writing and graphing linear equations in two variables; algebra of polynomial, rational, and radical expressions; factoring polynomials; solving linear and quadratic equations; solving linear inequalities; graphing linear and nonlinear functions. **Prereq:** *Appropriate score on AACC's mathematics placement measures, or successful completion of an approved mathematics preparation course.* **Note:** *A grade of at least C is required to enroll in MAT 045. Typically offered at MC, AM, GB, and OL; fall, spring, and summer terms.*

MAT 045 - Introduction to Precalculus

3 equivalent hours - Three hours weekly; one term.

Study intermediate algebra topics focused on the essential skills and applications required for MAT 145 - Precalculus 1. Topics include algebra of linear, rational, and radical expressions; algebra, composition, and inversion of functions; quadratic, rational, radical, absolute value, and systems of linear equations; linear, compound, and absolute value inequalities; and graphing linear, nonlinear, quadratic, exponential and logarithmic functions, including translations and reflections, and systems of inequalities. **Prereq:** *Appropriate score on AACC's mathematics placement measures, or completion of MAT 044 with a grade of C or higher, or successful completion of an approved mathematics preparation course.* **Note:** *MAT 045 and MAT 145 may be taken in the same semester. A grade of at least C is required in MAT 045 to start MAT 145. Typically offered at MC, AM, GB, and OL; all terms.*

MAT 100 - The Nature of Mathematics

3 credit hours - Three hours weekly; one term.

This course meets the Mathematics General Education Requirement. Encounter mathematical reasoning through an exposure to inductive methods, problem-solving techniques and the organization of information to discover patterns. Explore geometric topics and the connections between mathematics, the arts, and the social sciences. Study topics such as management science, sequences, fractals, mathematics of finance, probability and statistics. **Prereq:** *Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 034 or MAT 012 or MAT 012E or MAT 013B with a grade of at least C, or*

successful completion of an approved mathematics preparation course. **Note:** Typically offered at MC and OL; all terms.

MAT 133 - Finite Mathematics

3 credit hours - Three hours weekly; one term.

This course meets the Mathematics General Education Requirement. Learn functions and linear models, systems of linear equations and matrices, inequalities and linear programming, mathematics of finance, sets and counting, probability and data analysis. Apply these topics to economics, business and social science. **Prereq:** Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 034 or MAT 012 or MAT 012E or MAT 013B with a grade of at least C, or successful completion of an approved mathematics preparation course. **Note:** Credit is not given for both MAT 133 and MAT 233. Typically offered at MC and OL; all terms.

MAT 135 - Statistics

3 credit hours - Three hours weekly; one term.

This course meets the Mathematics General Education Requirement. Use meaningful data to explore concepts in probability and statistics including measures of central tendency and dispersion. Develop statistical literacy by studying graphical representations of data, discrete and continuous probability distributions, and sampling techniques and theory. Construct and interpret confidence intervals, find lines of best-fit, and perform hypothesis tests for means, proportions, and independence. Technology use is required throughout the course for statistical analyses. **Prereq:** Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012 or MAT 012E or MAT 013B or MAT 034 or MAT 035 or MAT 137 with a grade of at least C, or successful completion of an approved mathematics preparation course. **Crosslisted:** Also offered as MAT 135H; credit is not given for both MAT 135 and MAT 135H, or for both MAT 135 and MAT 223. **Note:** MAT 035 and MAT 135 may be taken in the same semester. A grade of at least C in MAT 035 is required to start MAT 135. Typically offered at MC, AM, GB, and OL; all terms.

MAT 135H - Statistics - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Mathematics General Education Requirement. Use meaningful data to explore concepts in probability and statistics including measures of central tendency and dispersion. Develop statistical literacy by studying graphical representations of data, discrete and continuous probability distributions, and sampling techniques and theory. Construct and interpret confidence intervals, find lines of best-fit, and perform hypothesis tests for means, proportions and independence. Technology use is required throughout the course for statistical analyses. **Prereq:** Eligibility for honors courses; achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012 or MAT 012E or MAT 013B or MAT 034 or MAT 035 or MAT 137 with a grade of at least C, or successful completion of an approved mathematics preparation course. **Crosslisted:** Also offered as MAT 135; credit is not given for both MAT 135H and MAT 135, or for both MAT 135H and MAT 223. **Note:** Extra assignments and class meeting times may be required. MAT 035 and MAT 135H may be taken in the same semester. A grade of at least C in MAT 035 is required to start MAT 135H. Typically offered at MC, AM, GB, and OL; all terms.

MAT 137 - College Algebra

3 credit hours - Three hours weekly; one term.

This course meets the Mathematics General Education Requirement. Learn algebra concepts useful in the fields of business, social science, life science and health science. Study functions and their applications including linear, quadratic, higher-degree polynomial, rational, exponential and logarithmic functions. Solve systems of linear and non-linear equations and inequalities. Explore matrices, sequences and series. **Prereq:** Achieve an appropriate score on the Mathematics Placement Test, or a grade of C or higher in MAT 037, or successful completion of an approved mathematics preparation course. **Note:** MAT 037 and MAT 137 may be taken in the same semester. A grade of at least C is required in MAT 037 in order to start MAT 137. Credit will not be given for both MAT 137 and MAT 145. Typically offered at MC, AM, GB, and OL; all terms.

MAT 145 - Precalculus 1

3 credit hours - Three hours weekly; one term.

Formerly MAT 141 - College Algebra and Trigonometry I. This course meets the Mathematics General Education Requirement. Learn college algebra and introductory trigonometry. Algebraic topics include multiple representations of polynomial, rational, exponential, and logarithmic functions, systems of equations and related graphs, equations, inequalities and applications. Trigonometric topics include an introduction to angle and radian measure, right triangle relationships, trigonometric functions of any angle, laws of sines and cosines, graphs, applications and trigonometric equations. **Prereq:** Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012, MAT 012E, or MAT 013A or MAT 045 with a grade of at least C. **Note:** MAT 045 may be taken in the same semester as MAT 145; a grade of at least C is required in MAT 045 in order to start MAT 145. Credit is not given for both MAT 145 and MAT 137 or for both MAT 145 and MAT 151. Typically offered at MC, AM, GB, and OL; all terms.

MAT 146 - Precalculus 2

3 credit hours - 3 hours weekly; one term.

Formerly MAT 142 - College Algebra and Trigonometry 2. This course meets the Mathematics General Education Requirement. Study trigonometry and advanced algebra to prepare for calculus. Trigonometric topics include angle measurement, definitions of the six trigonometric functions from the right triangle and unit circle perspectives, graphs, identities, inverses and equations. Algebraic topics include conic sections, polar coordinates, and a review of functions and graphs. **Prereq:** MAT 145 (formerly MAT 141). **Note:** Credit is not given for both MAT 146 and MAT 151. Typically offered at MC, AM, and OL; all terms.

MAT 151 - Accelerated Precalculus

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Strengthen algebra and mathematical modeling skills to prepare for further studies in mathematics, engineering, and the sciences. Study equations and graphs including polynomial, rational, exponential, logarithmic, and trigonometric functions. Use trigonometric identities to simplify expressions and solve equations. Explore plane analytic geometry. **Prereq:** Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012 or MAT 012E with a grade of at least B. **Note:** MAT 151 is open to all qualified students planning to take calculus. Credit is not given for both MAT 151 and MAT 121 or MAT 151 and MAT 145 or MAT 151 and MAT 146. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

MAT 191 - Calculus and Analytic Geometry 1

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Find limits, derivatives and integrals of functions. Apply these concepts to explicit, implicit, algebraic, trigonometric and transcendental functions, using derivatives to analyze graphs and to model real situations. **Prereq:** MAT 151 or MAT 146 or equivalent, or completion of three years of high school mathematics including trigonometry and achieving an appropriate score on the mathematics part of the ACT or SAT or the Mathematics Placement Test. **Crosslisted:** Also offered as MAT 191H; credit is not given for both MAT 191 and MAT 191H. **Note:** Credit is not given for both MAT 191 and MAT 122 or MAT 191 and MAT 230. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

MAT 191H - Calculus and Analytic Geometry 1 - Honors

4 credit hours - Four hours weekly; one term.

This is an honors course. This course meets the Mathematics General Education Requirement. Learn to find limits, derivatives and integrals of functions. Apply these concepts to explicit, implicit, algebraic, trigonometric and transcendental functions, using derivatives to analyze graphs and to model real situations. **Prereq:** Eligibility for Honors Courses and MAT 151 or MAT 146 or equivalent, or completion of three years of high school mathematics including trigonometry and achieving an appropriate score on the mathematics part of the ACT or SAT or the Mathematics Placement Test. **Crosslisted:** Also offered as MAT 191; credit is not given for both MAT 191 and MAT 191H. **Note:** Credit is not given for both MAT 191 and MAT 122 or MAT 191 and MAT 230. Extra class meeting times and assignments may be required. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

MAT 192 - Calculus and Analytic Geometry 2

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Learn numerical and analytical techniques for integration and apply these techniques to solve problems involving definite integrals. Other topics include solving separable differentiable equations, extending the concepts of calculus to polar and parametric forms, using Taylor polynomials to approximate functions, and determining the convergence or divergence of improper integrals, infinite sequences and infinite series. **Prereq:** MAT 191 or equivalent. **Crosslisted:** Also offered as MAT 192H; credit is not given for both MAT 192 and MAT 192H. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

MAT 192H - Calculus and Analytic Geometry 2 - Honors

4 credit hours - Four hours weekly; one term.

This is an honors course. This course meets the Mathematics General Education Requirement. Learn numerical and analytical techniques for integration and apply these techniques to solve problems involving definite integrals. Other topics include solving separable differentiable equations, extending the concepts of calculus to polar and parametric forms, using Taylor polynomials to approximate functions, and determining the convergence or divergence of improper integrals, infinite sequences and infinite series. **Prereq:** Eligibility for Honors courses and MAT 191 or equivalent. **Crosslisted:** Also offered as MAT 192; credit is not given for both MAT 192 and MAT 192H. Typically offered at MC, AM, and OL; fall, spring, and summer terms. **Note:** Extra class meeting times and assignments may be required.

MAT 201 - Calculus and Analytic Geometry 3

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Extend the ideas of limits, differentiation and integration to two or more dimensions. Study vectors and vector functions, partial differentiation, gradients, directional derivatives and tangent planes, optimization, Lagrange multipliers, iterated integration, line and surface integrals, and the classical theorems of Green, Gauss and Stokes. **Prereq:** MAT 192 or equivalent. **Crosslisted:** Also offered as MAT 201H; credit is not given for both MAT 201 and MAT 201H. Typically offered at MC and OL; fall, spring, and summer terms.

MAT 201H - Calculus and Analytic Geometry 3 - Honors

4 credit hours - Four hours weekly; one term.

This is an honors course. Extend the ideas of limits, differentiation and integration to two or more dimensions. Study vectors and vector functions, partial differentiation, gradients, directional derivatives and tangent planes, optimization, Lagrange multipliers, iterated integration, line and surface integrals, and the classical theorems of Green, Gauss and Stokes. **Prereq:** Eligibility for Honors Courses and MAT 192 or equivalent. **Crosslisted:** Also offered as MAT 201; credit is not given for both MAT 201 and MAT 201H. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

MAT 202 - Linear Algebra

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Study vector spaces and linear transformations on finite-dimensional vector spaces. Topics include linear systems, matrices, determinants, inner product spaces and eigenvalues. **Prereq:** MAT 191 or MAT 191H or equivalent. **Crosslisted:** Also offered as MAT 202H. Credit is not given for both MAT 202 and MAT 202H. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

MAT 202H - Linear Algebra - Honors

4 credit hours - Four hours weekly; one term.

This is an honors course. This course meets the Mathematics General Education Requirement. Study vector spaces and linear transformations on finite-dimensional vector spaces. Topics include linear systems, matrices, determinants, inner product spaces and eigenvalues. **Prereq:** Eligibility for Honors courses; MAT 191 or MAT 191H or equivalent.

Crosslisted: Also offered as MAT 202; credit is not given for both MAT 202 and MAT 202H. **Note:** Extra assignments and class meetings may be required. Typically offered at MC and OL; fall, spring, and summer terms.

MAT 212 - Differential Equations

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Analyze and solve ordinary differential equations of various types: separable, exact, linear equations of all orders and systems of linear equations. Master techniques including integrating factors, undetermined coefficients, the Wronskian, variation of parameters, reduction of order, power series, Laplace transforms and numerical approximations. Solve systems of linear equations using operator methods, numerical approximations and matrix methods. Apply these techniques to various applications including trajectories, mixing, growth, decay, vibrating springs, electric circuits and resonance. Use a mathematical software system as an integral and substantial part of the course. **Prereq:** MAT 192. **Crosslisted:** Also offered as MAT 212H; credit is not given for both MAT 212 and MAT 212H. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

MAT 212H - Differential Equations-Honors

4 credit hours - Four hours weekly; one term.

This is an honors course. This course meets the Mathematics General Education Requirement. Analyze and solve ordinary differential equations of various types: separable, exact, linear equations of all orders and systems of linear equations. Master techniques including integrating factors, undetermined coefficients, the Wronskian, variation of parameters, reduction of order, power series, Laplace transforms and numerical approximations. Solve systems of linear equations using operator methods, numerical approximations and matrix methods. Apply these techniques to various applications including trajectories, mixing, growth, decay, vibrating springs, electric circuits and resonance. Use a mathematical software system as an integral and substantial part of the course. **Prereq:** MAT 192 and eligibility for honors courses. **Crosslisted:** Also offered as MAT 212; credit is not given for both MAT 212H and MAT 212. **Note:** Extra assignments and class meeting times may be required. Typically offered at MC and OL; fall, spring, and summer terms.

MAT 221 - Fundamental Concepts of Mathematics 1

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Primarily for students in the elementary education and early childhood education programs. Demonstrate efficiency using decimal and non-decimal numeral systems, mental computations, estimation, set theory, functions, algorithms and understand their historical development, logic and number theory. Apply problem-solving techniques within each topic. Although MAT 221 and MAT 222 can be taken in either order, the sequential order is recommended. **Prereq:** Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012 or MAT 012E or MAT 013B or MAT 037 with a grade of at least C, or successful completion of an approved mathematics preparation course. **Note:** Typically offered at MC and OL; fall and spring terms.

MAT 222 - Fundamental Concepts of Mathematics 2

4 credit hours - Four hours weekly; one term.

This course meets the Mathematics General Education Requirement. Examine two- and three-dimensional shapes, measurement, dimensional analysis, congruence and similarity, and coordinate and transformational geometry. Use computers to explore geometric concepts. Learn and apply problem-solving techniques within each topic. Primarily for students in the elementary education and early childhood education programs. **Prereq:** Achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012 or MAT 012E or MAT 013B with a grade of at least C, or successful completion of an approved mathematics preparation course. **Crosslisted:** Also offered as MAT 222H; credit is not given for both MAT

222 and MAT 222H. **Note:** Although MAT 221 and MAT 222 can be taken in either order, the sequential order is recommended. Typically offered at MC and OL; fall, spring, and summer terms.

MAT 222H - Fundamental Concepts of Mathematics 2 - Honors

4 credit hours - Four hours weekly; one term.

This is an honors course. This course meets the Mathematics General Education Requirement. Examine two- and three-dimensional shapes, measurement, dimensional analysis, congruence and similarity, and coordinate and transformational geometry. Use computers to explore geometric concepts. Learn and apply problem-solving techniques within each topic. Primarily for students in the elementary education and early childhood education programs. **Prereq:** Eligibility for Honors courses; achieve an appropriate score on the mathematics part of the ACT or SAT, or score at an appropriate level on the Mathematics Placement Test, or completion of MAT 012 or MAT 012E or MAT 013B with a grade of at least C, or successful completion of an approved mathematics preparation course. **Crosslisted:** Also offered as MAT 222; credit is not given for both MAT 222H and MAT 222. **Note:** Although MAT 221 and MAT 222 can be taken in either order, the sequential order is recommended. Extra assignments and class meeting times may be required. Typically offered at MC and OL; fall, spring, and summer terms.

MAT 223 - Fundamental Concepts of Mathematics 3

4 credit hours - Three hours weekly; one term.

This course meets the Mathematics General Education Requirement. Primarily for students in the elementary education program. Topics include data collection, sampling, interpreting data, displaying data, correlation and regression, distributions, confidence intervals, probability, and the use of technology. Principles and standards of national mathematics organizations are applied to probability and statistics. **Prereq:** MAT 221 or MAT 222 or equivalent. **Note:** Credit is not given for both MAT 223 and MAT 135. Typically offered at MC and OL; fall and spring terms.

MAT 230 - Elementary Calculus (For Business and Social Sciences)

3 credit hours - 3 hours weekly; one term.

This course meets the Mathematics General Education Requirement. Study the basic concepts of calculus with applications to business and social sciences. Learn about limits, continuity, differentiation and integration of polynomial, rational, exponential and logarithmic functions. Apply calculus to problems involving maxima and minima, curve sketching, and the least-squares technique. The course includes an introduction to functions in several variables and partial derivatives. **Prereq:** MAT 137, MAT 145 (formerly MAT 141), MAT 151 or equivalent. **Note:** Credit is not given for both MAT 230 and MAT 191. Typically offered at MC, AM, and OL; all terms.

MAT 233 - Finite Mathematics for Computer Technologies

3 credit hours - Three hours weekly; one term.

This course meets the Mathematics General Education Requirement. Focus on mathematical topics that are useful in the information sciences. Learn basic linear algebra and its applications in solving a large system of linear equations; game theory; Leontief models of industrial inputs and outputs; the Simplex method; probability; combinatorics; decision theory; and Markov chains. Study topics such as random variables and distributions, Bernoulli trials, normal distribution, or difference equations. **Prereq:** MAT 191 or MAT 230. **Note:** Credit is not given for both MAT 133 and MAT 233. Typically offered at MC and OL; all terms.

MAT 235 - Introduction to Data Science

4 credit hours - 3 hours of lecture and 2 hours of lab weekly; one term.

Apply standards and practices for collecting, organizing, managing, and exploring data, combining principles and skills from statistics and computer programming with a goal of using these tools to provide information to decision makers. Topics include causality, single and multivariable data manipulation, data visualization and generation, statistical inference, statistical modeling, and machine learning. **Prereq:** A grade of C or better in any college level math course, or CTP 160 - Python, or permission from the Mathematics Assistant Dean. In addition to these course requirements, students must possess proficiency in basic computing tasks, including file storage and management and online communications.

MAT 250 - Introduction to Discrete Structures

3 credit hours - Three hours weekly; one term.

Apply fundamental mathematical concepts and algebraic structures to theoretical areas of computer science. Topics include logic, number theory, sets, relations, functions, strong and weak mathematical induction, combinatorics, probability, and algorithm efficiency. **Prereq:** MAT 146 or MAT 151 or higher level math course. **Note:** Programming experience is recommended. Typically offered at MC and OL; fall and spring terms.

MAT 270 - Introduction to Numerical Computation

3 credit hours - Three hours weekly; one term.

An introduction to numerical methods on the computer. Topics include computer arithmetic, error analysis, iterative processes, numerical differentiation, numerical integration, Gaussian elimination, approximation of functions, interpolation, curve-fitting, numerical solution of ordinary differential equations and computer-based problem solving.

Prereq: MAT 191 and one scientific programming language. **Coreq(s):** MAT 192.

MAT 281-299 - Special Topics in Mathematics

1-4 credit hours -

A focused study of mathematics topics not emphasized in introductory courses. Some offerings may be designed for specific audiences. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree

requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-30.

Mechatronics

MEC 110 - Mechanical Systems

4 credit hours - Fours hours lecture and directed laboratory weekly; one term.

Learn the principles and concepts needed to safely maintain and troubleshoot a variety of mechanical system components found in industry including bearings, conveyor belts, chain drives, and sprockets. Demonstrate comprehension of preventive maintenance, installation, repair/replacement, and safety procedures using hands-on labs. Build a mechanical systems project utilizing skills learned to complete a final course challenge. Lab fee \$30. **Note:** Typically offered MC; fall and spring terms.

MEC 120 - Pneumatics and Hydraulics

4 credit hours - Fours hours of lecture and directed laboratory weekly; one term.

Learn the basics of pneumatic, electro pneumatic and hydraulic control circuits in a complex mechatronic system. Master the functions and properties of control elements based upon physical principles, and the roles they play within the system. Use and interpret technical documentation and perform measurements on the pneumatic and hydraulic control circuits. Apply troubleshooting strategies to identify, localize and correct malfunctions and practice preventive maintenance and safety. Lab fee \$30. **Prereq:** EET 130 or permission of department chair. **Note:** Typically offered MC; fall and spring terms.

MEC 130 - Programmable Logic Controllers

4 credit hours - Four hours of lecture and directed laboratory weekly; one term.

Learn about the basic digital logic and programmable logic controllers (PLCs) in a mechatronics system using the automation system. Includes basic PLC functions and testing; identification of malfunctioning PLCs; and troubleshooting techniques and strategies to identify and localize PLC hardware generated problems. Writing small programs and problem-solving using computer simulations is emphasized. Lab fee \$30. **Prereq:** EET 130 or permission of department chair. **Note:** Typically offered MC; fall and spring terms.

MEC 140 - Introduction to Robotics

4 credit hours - Fours hours of lecture and directed laboratory weekly; one term.

Learn the basic principles of robotics, such as mechanical construction, electronics, sensors, motors and robot programming. This course uses a hands-on approach to introduce the basic concepts, focusing on the construction and programming of autonomous mobile and Industrial robots. Works in groups to build and test increasingly more complex robots, culminating in an end-of-semester robot project. Lab fee \$100. **Prereq:** EET 130 or permission of department chair. **Note:** Typically offered MC; fall and spring terms.

MEC 230 - Electric Motor Fundamentals

3 credit hours - Three hours lecture and directed lab weekly; one term.

Learn the fundamentals of AC and DC motor types commonly found in industry along with their related control technologies. Explore specifications, operation, starting, braking, overload protection, basic troubleshooting, and variable frequency drives. Demonstrate comprehension through hands-on labs while exercising proper industry safety procedures. Lab fee \$30. **Prereq:** EET 130 or permission of engineering department chair. **Note:** Typically offered MC; fall and spring terms.

MEC 266 - Mechatronic Systems Capstone

3 credit hours - Three hours of combined lecture/lab weekly; one term.

Gain real world experience in modification and control of automated mechatronic processes. Learn and review safety procedures and guidelines associated with working in an industrial setting. Complete and present a final hands-on project, which includes the design, building, programming, troubleshooting, and integration of a variety of mechatronic subsystems into a fully-functioning automated industrial process. Lab fee \$30. **Prereq:** MEC 110, MEC 120, and MEC 130 or permission of department chair. **Note:** Typically offered as Independent Study.

MEC 280-299 - Special Topics in Mechatronics Technology

-

Focuses on current or specialized topics in mechatronics engineering technology designed to meet expressed needs and interests within the community. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. **Prereq:** Will vary depending on course offering.

Medical Assisting

MDA 100 - Introduction to Medical Terminology

1 credit hour - One hour weekly; one term.

Learn basic medical terminology, including prefixes, suffixes and word roots as they relate to body systems and associated pathological conditions.

MDA 110 - Professionalism in Health Care

1 credit hours - One hour weekly; one term.

Introduces health profession students to the elements of professionalism including job commitment, accountability,

work ethic, attitude and quality of work. Students gain a fundamental understanding of the health care professional's contributions in the work environment. Teamwork, trustworthiness, communication skills, conflict resolution and customer service in the health care environment are presented. Students prepare a resume, and develop techniques for exploring employment opportunities in health care. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

MDA 111 - Laws and Ethics for Health Professionals

2 credit hours - Two hours weekly; one term.

Formerly MDA 111 - Introduction to Allied Health and Medical Ethics. Learn the legal and ethical responsibilities of the health care worker, including laws, regulations and industry standards. Explore the principles of moral, bioethical and health etiquette as they apply to current health care delivery, such as stem cell research, refusal of treatment, living wills and right to die issues.

MDA 112 - Pharmacology for Health Professions

3 credit hours - Three hours weekly, one term.

Formerly RXN 211 Pharmacology for Health Professions. Recognize the history and current principles of pharmacology pertaining to health professions. Discuss drug categories according to body system and therapeutic applications. Identify categories of analgesic and anti-infective medications and their therapeutic effects. Describe the body's immune response related to vaccine administration and disease prevention. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

MDA 113 - Medical Terminology

3 credit hours - Three hours weekly; one term.

Learn medical terminology, including prefixes, suffixes, word roots and medical abbreviations. Utilize concepts presented in a body systems approach that emphasizes key anatomical and physiological terms. Additional topics include pathology, diagnostic procedures, and treatment modalities. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as MDA 113H; credit not given for both MDA 113 and MDA 113H.*

MDA 113H - Medical Terminology

3 credit hours - Three hours weekly; one term.

This is an honors course. Learn medical terminology, including prefixes, suffixes, word roots and medical abbreviations. Utilize concepts presented in a body systems approach that emphasizes key anatomical and physiological terms. Additional topics include pathology, diagnostic procedures, and treatment modalities. **Prereq:** *Eligibility for Honors courses and eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as MDA 113; credit not given for both MDA 113 and MDA 113H.*

MDA 114 - Diseases of the Human Body

3 credit hours - Three hours weekly; one term.

Investigate disease pathology and appropriate terminology. Discuss disorders that affect the whole body, such as immune disorders and neoplasms; thereafter, diseases that primarily affect a specific body system such as cardiovascular, gastrointestinal, renal and dermatologic disorders. Focus on definition, causes when appropriate, signs and symptoms, clinical findings, treatment and aspects of patient teaching. **Prereq:** *MDA 113.*

MDA 115 - Administrative Medical Assisting 1

3 credit hours - Three hours weekly; one term.

Review the professional career responsibilities of and practice the skills performed by administrative medical assistants. Utilize competency-based exercises including simulations of skills used in the administration of the physician's office and other types of healthcare settings, such as: interpersonal communication activities, records management, patient scheduling and financial transactions. **Coreq(s):** *MDA 113.*

MDA 116 - Fundamentals of Health Care Delivery Systems

3 credit hours - 45 hours of lecture; one term.

Learn the fundamental concepts and operations of health care delivery systems. Concepts include health care entity governance, health status indicators, health manpower, health care financing and utilization, health planning and regulation and health policy. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

MDA 117 - Administrative Medical Assisting 2

3 credit hours - Three hours weekly; one term.

Perform basic coding of diagnoses, medical procedures and services. Perform financial transactions related to daily operations. Utilize medical terms specific to medical insurance claims. Perform transactions within legal and ethical guidelines for methods of claim transmission. Perform simulation activities of the daily management of the medical office. Discuss the role of the Medical Assistant in the management and supervision of the physician office practice.

Prereq: *MDA 113 and ACA 100, or permission of the department chair.*

MDA 118 - Intravenous Therapy

3 credit hours - Three hours weekly; one term.

Learn practices of intravenous therapy (IVT) in the inpatient and outpatient settings. Students are given an overview of IVT theory, techniques for insertion, monitoring, and care and maintenance of external, peripheral intravenous lines. Additional topics include care and maintenance of venous access devices, such as midline peripheral catheters, central venous catheters and internal ports. Other topics include types and purpose of IVT, mechanical and infusion pumps including patient-controlled analgesia, calculation procedures, administration sets, types of fluids related to specific condition and expected outcome and discontinuation. The course focus is on the application and understanding, as well

as presenting real-life situations that can occur during IV therapy and their necessary solutions. Lab fee \$50. **Prereq:** MDA 110, MDA 111, MDA 113, and MDA 112, or permission of the department chair.

MDA 119 - Electrocardiography and Cardiac Diagnostics

3 credit hours - Three hours weekly; one term.

Learn the didactic and associated technical skills to perform an Electrocardiogram. Additional theory includes cardiology, vascular anatomy and physiology of the heart, pathophysiology, electrocardiogram interpretation and the clinical significance related to health, pathology, and metabolic conditions. Students manipulate electrocardiogram equipment and perform tracings on other students with instructor supervision. Theory pertaining to additional cardiac testing, such as Holter monitoring and stress testing, is presented. Lab fee \$60. **Prereq:** MDA 110, MDA 111, MDA 113, and MDA 112, or permission of the academic chair.

MDA 140 - Clinical Medical Assisting 1

6 credit hours - Four hours of lecture and four hours of college laboratory weekly; one term.

Learn the theory and skills necessary to function in the medical setting as a clinical medical assistant. Focus theoretical applications on the entire life span, including health, health promotion, wellness and illness. Apply learned concepts in the college lab, including electrocardiogram, medication preparation and administration, preparing for and assisting with procedures, obtaining vital signs and the practice of aseptic technique. Students are required to practice selected skills on each other during college laboratory. Lab fee \$100. **Prereq:** MDA 113, MDA 115, MDA 117. **Coreq(s):** MDA 112.

MDA 142 - Clinical Medical Assisting 2

4 credit hours - Three hours of lecture and two and one-half hours of laboratory weekly; one term.

Learn introductory laboratory procedures and functions, including Occupational Safety and Health Administration (OSHA) regulations and Clinical Laboratory Improvement Amendments (CLIA) standards related to laboratory operations. In laboratory sessions, focus on quality control, pre-analytical accessioning and processing, performing venipuncture procedures, urinalysis, basic microbiology, point of care testing and other diagnostic procedures that are performed in the physicians' office or outpatient setting. Students are required to practice selected procedures on each other during college laboratory under instructor supervision. Lab fee \$125. **Prereq:** MDA 111, MDA 115, MDA 117 and MDA 200 with a grade of C or better. **Coreq(s):** MDA 140 and MDA 112 or permission of the department chair.

MDA 200 - Electronic Health Records

3 credit hours - three hours weekly; one term.

Formerly HIT 200. Learn the history and inception of the electronic health record and current health technology nomenclature and standards. Gain a broad perspective of current federal legislation and law governing the electronic health record. Learn to develop practical applications of the electronic health record, including types of medical software, administrative applications and functions for long-term planning, patient scheduling, tracking patient activity, e-communication within health systems, building the patient's electronic face sheet and chart, electronic ordering and scheduling for testing and diagnostics, creating health forms, electronic health imaging, building health system and medical databases, electronic patient encounter forms and electronic billing systems in the health care setting. **Prereq:** Eligibility for ENG 101/ENG 101A.

MDA 216 - Medical Coding

3 credit hours - Three hours weekly; one term.

A study of diagnostic and procedural coding using the International Classification of Disease, 9th edition, Clinical Modification (ICD) and Current Procedural Terminology (CPT) coding systems required for medical insurance claims and statistical information as needed by health care facilities. Focus is on outpatient and provider service coding.

Prereq: BIO 230 (or equivalent) and MDA 113 or permission of Medical Assisting department coordinator. **Coreq(s):** AHT 114.

MDA 274 - Professional Seminar

1 credit hour - Three hours weekly, one term.

Learn the traits and behaviors of the professional medical assistant, and the importance of credentialing. Prepares the student for the externship experience. This course also provides a comprehensive review of the American Association of Medical Assistants (AAMA) administrative, clinical and general competencies required for Certified Medical Assistant (CMA) national examination. **Prereq:** ACA 100, MDA 113, MDA 115, MDA 117, MDA 140, and MDA 142.

MDA 275 - Medical Assisting Practicum

3 credit hours - 160 hours supervised, unpaid field experience.

Concluding medical assisting course that provides practical experience in medical offices. Students receive a grade of pass or fail. **Prereq:** Completion of all courses required for the MDA certificate with a minimum of 2.0 GPA; meeting the technical standards of the Medical Assisting department. **Note:** Practicum (MDA 275) internship requires 160 hours of unpaid supervised field experience in a physician's office.

MDA 280-299 - Special Topics in Medical Assisting

-

Focuses on topics of current interest in medical assisting including courses designed to meet expressed needs and interests within the community. Also for medical assistants requiring additional course content to qualify for transfer

credit, credit by exam or who wish to meet updated competency requirements for the national certifying exam. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-125. **Prereq:** Will vary depending on course offering.

Medical Laboratory Technician

MLT 100 - Introduction to the Medical Laboratory

4 credit hours - 45 hours of lecture and 30 laboratory; one term.

Formerly MLT 100 Introduction to the Medical Laboratory I. Apply basic principles and practices of laboratory medicine in clinical hematology, immunology and microbiology. Develop familiarity with the blood bank and the study of body fluids, including urinalysis. Demonstrate laboratory activities including specimen-handling and phlebotomy procedures. Students will perform phlebotomy procedures on one another. Prepare for entry-level jobs as medical laboratory assistants in hospitals, medical laboratories and physician office laboratories. Lab fee \$170. **Prereq:** Acceptance into the Medical Laboratory Technician Program or permission of the MLT Program Coordinator.

MLT 101 - Urinalysis and Body Fluids

3 credit hours - 30 hours of lecture and 30 hours of laboratory; one term.

Recognize the anatomy and physiology of the genitourinary system and the principles and procedures of the complete urinalysis. Topics include physical, chemical, and microscopic examinations of urine as well as other body fluids such as cerebrospinal, synovial, serous, seminal, amniotic, gastric, and fecal analysis. Learn Clinical Laboratory Improvement Act of 1988 (CLIA 88) Waived and Moderate test methods, specimen collection and handling, analyses, and correlation with disease states. Lab fee \$170. **Prereq:** MLT 100 with a minimum grade of C or better or permission of the MLT Program Coordinator.

MLT 102 - Quality Assurance and Quality Control

1 credit hour - 15 hours of lecture; one term.

Identify structure and function of medical laboratories and define healthcare team member roles. Recognize how medical ethics, laboratory mathematics, quality assurance procedures, and regulations affect the clinical laboratory.

Prereq: MLT 100, with a grade of C or better, or permission of the MLT Program Coordinator.

MLT 103 - Entry Level Clinical Laboratory Testing

4 credits - 45 hours lecture; 30 hours of laboratory; one term

Learn Clinical Laboratory Improvement Amendment of 1988 (CLIA'88) Waived and Point of Care testing methods associated with outpatient drawing stations. Learn accessioning techniques such as centrifugation to prepare samples for clinical laboratory testing. Learn the quality assurance procedures that must be performed to ensure accurate testing results. Lab fee \$125. **Prereq:** MLT 100, or MLT 125 or permission of the MLT program coordinator.

MLT 125 - Phlebotomy

4 credit hours - Three hours of lecture and two hours of college laboratory weekly; one term.

Learn venipuncture theory and techniques, concepts of cardiovascular anatomy, physiology and terminology and an introduction to standard hospital laboratory tests. Lab fee \$100. **Coreq(s):** MLT 275 or permission of the program coordinator. **Note:** Laboratory practice focuses on venipuncture, capillary puncture and collection of blood samples for clinical laboratory testing. Students practice some phlebotomy skills on each other under strict supervision of the instructor. Clinical laboratory practicum of 100 hours begins midterm with assigned hours between 6:45 a.m. to 4 p.m. Monday through Friday through the MLT 275 two credit Phlebotomy Practicum course.

Final course grade is based on written tests and proficiency exams. Students who receive a final grade below C are awarded an F in the course. Special admission requirements: (1) 18 years of age or older; (2) high school graduate or equivalent; (3) eligibility for ENG 101/ENG 101A; (4) submission of a completed health form with recent physical examination and immunization history; and (5) current certification in Basic Life Support for the Health Provider (CPR) valid through the last day of the practicum. Prepares students for national phlebotomy certification. Eligibility for national certification includes a final grade of C or better in both MLT 125 and MLT 275, and payment of an additional fee to the certifying organization.

MLT 202 - Clinical Microbiology

4 credit hours - 45 lecture and 30 laboratory; one term.

Recognize pathogenic bacteria including the characteristics of isolation and identification. Develop a familiarity with virology, parasitology, and mycology. This course prepares students for the clinical practicum in a clinical microbiology laboratory. Lab fee \$235. **Prereq:** MLT 101 and BIO 223 both with a C or better, or permission of the MLT Program Coordinator.

MLT 203 - Clinical Chemistry

4 credit hours - 45 lecture; 30 laboratory

Apply concepts of spectroscopy and protein separation techniques. Review techniques and instrumentation used to analyze specimens in a clinical chemistry laboratory. Correlate clinical data with organ function and the presence of disease conditions. Lab fee \$285. **Prereq:** CHE 111 and MLT 101 both with a C or better, or permission of the MLT Program Coordinator. **Crosslisted:** Also offered as MLT 203H: credit not given for both MLT 203 and MLT 203H.

MLT 203H - Clinical Chemistry-Honors

4 credit hours - 45 lecture and 30 laboratory

This is an honors course. Apply concepts of spectroscopy and protein separation techniques. Review techniques and instrumentation used to analyze specimens in a clinical chemistry laboratory. Correlate clinical data with organ function and the presence of disease conditions. Lab fee \$285. **Prereq:** *Eligibility for Honors courses. CHE 111 and MLT 101 both with a grade of C or better, or permission of the Department Chair.* **Crosslisted:** *Also offered as MLT 203; credit not given for both MLT 203 and MLT 203H.*

MLT 204 - Clinical Immunology/Immunohematology

4 credit hours - 45 lecture and 30 laboratory; one term.

Learn principles and practices of clinical immunology and clinical immunohematology (blood banking). Topics include antibody structure and function, the complement system, and disorders of the immune system. Blood bank topics include blood group systemization, compatibility testing, donor testing, cross matching, specialized testing, and transfusion reaction. Lab fee \$235. **Prereq:** *MLT 101 with a grade of C or better or permission of the MLT Program Coordinator.* **Crosslisted:** *Also offered as MLT 204H; credit not given for both MLT 204 and MLT 204H.*

MLT 204H - Clinical Immunology/Immunohematology

4 credit hours - 45 lecture and 30 laboratory; one term.

This is an honors course. Learn principles and practices of clinical immunology and clinical immunohematology (blood banking). Topics include antibody structure and function, the complement system, and disorders of the immune system. Blood bank topics include blood group systemization, compatibility testing, donor testing, cross matching, specialized testing, and transfusion reaction. Lab fee \$235. **Prereq:** *MLT 101 with a grade of C or better and eligibility for Honors courses.* **Crosslisted:** *Also offered as MLT 204; credit not given for both MLT 204 and MLT 204H.*

MLT 205 - Clinical Hematology

4 credit hours - 45 lecture and 30 laboratory; one term.

Demonstrate understanding of hemostasis, hematopoiesis, cell morphology, cell reproduction, and pathology. Recognize correlations of morphology and cell indices as related to healthy states and to blood dyscrasias. In college laboratory, perform both differentiation and manual and automated cell count tests. Lab fee \$285. **Prereq:** *MLT 101 with a grade of C or better, or permission of the Department Chair.* **Crosslisted:** *Also offered as MLT 205H; credit not given for both MLT 205 and MLT 205H.*

MLT 205H - Clinical Hematology

4 credit hours - 45 lecture and 30 laboratory; one term.

This is an honors course. Demonstrate understanding of hemostasis, hematopoiesis, cell morphology, cell reproduction, and pathology. Recognize correlations of morphology and cell indices as related to healthy states and to blood dyscrasias. In college laboratory, perform both differentiation and manual and automated cell count tests. Lab fee \$285. **Prereq:** *Eligibility for Honors courses. MLT 101 with a grade of C or better, or permission of the Department Chair.* **Crosslisted:** *Also offered as MLT 205; credit not given for both MLT 205 and MLT 205H.*

MLT 206 - Advanced Clinical Chemistry

2 credit hours - 30 hours of lecture; one term.

Identify and discuss the specialized areas of the clinical chemistry laboratory such as endocrinology, toxicology and acid base analysis. **Prereq:** *MLT 203 or MLT 203H with a grade of C or better, or permission of the Department Chair.* **Coreq(s):** *MLT 208 and MLT 277.* **Crosslisted:** *Also offered as MLT 206H; credit not given for both MLT 206 and MLT 206H*

MLT 206H - Advanced Clinical Chemistry

2 credit hours - 30 hours of lecture; one term.

This is an honors course. Identify and discuss the specialized areas of the clinical chemistry laboratory such as endocrinology, toxicology and acid base analysis. **Prereq:** *Eligibility for Honors courses. MLT 203 or MLT 203H with a grade of C or better, or permission of the Department Chair.* **Coreq(s):** *MLT 208 and MLT 277.* **Crosslisted:** *Also offered as MLT 206; credit not given for both MLT 206 and MLT 206H.*

MLT 208 - Clinical Review

2 credit hours - 30 hours of lecture; one term.

Provides the Medical Laboratory Technician student with a comprehensive didactic review of all areas of the clinical laboratory. **Prereq:** *MLT 203 or permission of the MLT Program Coordinator.* **Coreq(s):** *MLT 206 and MLT 277, or permission of the MLT Program Coordinator.*

MLT 274 - Medical Laboratory Assistant Practicum

2 credit hours - 100 hours clinical; one term

Apply practical theory and skills learned in previous MLT courses in the clinical laboratory assistant laboratory setting under the supervision of a clinical preceptor. Rotate through the areas of a clinical laboratory with a focus on the accessioning process either through simulation or at an assigned clinical rotation laboratory or a combination of both. Clinical fee \$120. **Prereq:** *MLT 100, MLT 101, MLT 102 and MLT 103 or by permission of the department chair.* **Note:** *Students who receive a final grade below C are awarded an F in the course. Eligibility for national certification includes a final grade of C or better, or work experience as a clinical laboratory assistant, and payment of an additional fee to the certifying organization.*

MLT 275 - Phlebotomy Practicum

2 credit hours - 100 hours of clinical practicum; one-term.

Perform phlebotomy procedures in a practicum setting and gain experience drawing blood. Prepares students for national certification as a phlebotomist. Lab fee \$120. **Prereq:** MLT 100 or permission of the program coordinator.

Coreq(s): MLT 125 or permission of the program coordinator. **Note:** Special admission requirements: (1) 18 years of age or older; (2) high school graduate or equivalent; (3) eligibility for ENG 101/ENG 101A; (4) submission of a completed health form with recent physical examination and immunization history; and (5) current certification in Basic Life Support for the Health Provider (CPR) valid through the last day of the practicum. Students who receive a final grade below C are awarded an F in the course. Eligibility for national certification includes a final grade of C or better, or work experience as a phlebotomist, and payment of an additional fee to the certifying organization.

MLT 276 - Clinical Hematology Practicum

2 credit hours - 120 hours clinical; one term.

Apply practical theory and skills learned in previous MLT courses in the clinical hematology laboratory setting under the supervision of a clinical preceptor. Students will rotate through the areas of a clinical hematology laboratory either through simulation or at an assigned clinical rotation laboratory or a combination of both. Clinical fee \$60. **Prereq:** MLT 205 with a grade of C or better, or permission of the MLT Program Coordinator.

MLT 277 - Clinical Chemistry Practicum

2 credit hours - 120 hours clinical; one term.

Apply practical theory and skills learned in previous MLT courses in the clinical chemistry laboratory setting under the supervision of a clinical preceptor. Students will rotate through the areas of a clinical chemistry laboratory either through simulation or at an assigned clinical rotation laboratory or a combination of both. Clinical fee \$60. **Prereq:** MLT 203 with a grade of C or better or permission of the MLT Program Coordinator. **Coreq(s):** MLT 206 and MLT 208 or by permission of the MLT program coordinator.

MLT 278 - Clinical Microbiology Practicum

2 credit hours - 120 hours clinical; one term.

Apply practical theory and skills learned in previous MLT courses in the clinical microbiology laboratory setting under the supervision of a clinical preceptor. Students will rotate through the areas of a clinical microbiology laboratory either through simulation or at an assigned clinical rotation laboratory or a combination of both. Clinical fee \$60. **Prereq:** MLT 202 with a grade of C or better, or permission of the MLT Program Coordinator.

MLT 279 - Clinical Immunohematology Practicum

2 credit hours - 120 hours clinical; one term.

Apply practical theory and skills learned in previous MLT courses in the clinical immunohematology laboratory setting under the supervision of a clinical preceptor. Students will rotate through the areas of a clinical immunohematology laboratory either through simulation or at an assigned clinical rotation laboratory or a combination of both. Clinical fee \$60. **Prereq:** MLT 204 with a grade of C or better, or permission of the MLT Program Coordinator.

MLT 280-299 - Special Topics in Medical Laboratory Technician

-

Focuses on topics of current interest in the area of medical laboratory technology, including courses designed to meet expressed needs and interests within the community. Also for medical laboratory technician students and/or graduates requiring additional course content to qualify for transfer credit, credit by exam, or who wish to meet updated competency requirements for the national certification exam. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-180. **Prereq:** Will vary depending on course offering.

Music

MUS 100 - Music Appreciation

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. A nontechnical course for those who wish to enrich their music enjoyment by listening to performances from varying sources ranging from the classical tradition to contemporary jazz. Topics include listening techniques, basic musical forms and the social and historical context for musical creation and popular taste. No previous training in music is required. **Note:** Typically offered at MC and OL; all terms.

MUS 101 - Music Fundamentals

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Analyze and discuss rhythm, harmony and melody. Evaluate basic elements of musical notation. Apply fundamentals of analysis and transcription. This course is the foundation for further study of music theory and composition. **Note:** Typically offered at MC and OL; all terms.

MUS 103 - Music for Classroom Teachers

3 credit hours - Three hours weekly; one term.

Music for classroom teachers with emphasis on basic elements of notation, playing simple classroom instruments and developing an awareness of the child's world of music through creative and improvisatory approaches.

MUS 113 - Music Theory and Ear Training 1

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

A study of diatonic harmony through part writing and analysis of music. Sight singing, writing music from dictation, clefs, intervals and rhythms are studied. Lab fee \$3. **Prereq:** MUS 101 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

MUS 114 - Music Theory and Ear Training 2

4 credit hours - Three hours of lecture and two hours of laboratory weekly; one term.

A study of seventh chords, modulatory progressions and chromaticism using creative composition. Analysis, sight singing and music dictation are continued. Lab fee \$3. **Prereq:** MUS 113 or permission of department chair. **Note:** Typically offered at MC; spring and summer terms.

MUS 120 - Music for Child Care Providers

3 credit hours - Three hours weekly; one term.

Introduction to the use of music for working with children in day care settings, with emphasis on appropriate materials, instruments and songs for each developmental level.

MUS 141 - Class Piano 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Teaches beginning basic keyboard techniques including sight reading of early level pieces. Play and write major and minor scales. Play chord progressions, cadences and elementary to early intermediate level repertoire. Lab fee \$3.

Note: Typically offered at MC; fall and spring terms.

MUS 142 - Class Piano 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Continuation in instruction of technical studies, scales, chord progressions, and sight reading. Play early intermediate to intermediate level repertoire. Lab fee \$3. **Prereq:** MUS 141 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

MUS 146 - Techniques of Sight Reading

1 credit hour - Two hours weekly; one term.

Students learn to recognize, by eye and ear, scale and chord passages in a melody and to recognize basic harmonic structure and simple modulation within a composition. They also learn to improvise harmonic accompaniments to simple melodies. **Prereq:** MUS 141.

MUS 147 - Piano Pedagogy

3 credit hours - Three hours weekly; one term.

Designed to present a sound foundation for the beginning piano teacher and to provide enrichment for more experienced teachers through an analysis of elements involved in advancing levels of piano proficiency and a survey of current teaching materials. **Prereq:** MUS 142 or permission of department chair.

MUS 151 - Class Voice 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Basic singing techniques and principles of correct breathing, tone production, vowel formation and diction. Study material is varied and represents standard vocal literature. **Note:** Typically offered at MC; fall and spring terms.

MUS 152 - Class Voice 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

A continuation of MUS 151 with emphasis on voice production and technical proficiency. Students build a repertoire of songs in English, French, German and Italian representing various styles and periods. **Prereq:** MUS 151 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

MUS 160 - History of Popular Music

3 credit hours - Three hours weekly; one term.

Explores the various styles and genres that make up modern popular music. Focuses primarily on the pop musics of the western idiom, and analyzes these genres in terms of their historical context, stylistic content and musical impact. By emphasizing inter-relationships between sociological, cultural and musical trends, students will begin to analyze how these musics affect western popular culture in general. **Note:** Typically offered at MC and OL; fall and spring terms.

MUS 161 - Highlights of Music History: Music of the 20th Century

3 credit hours - Three hours weekly; one term.

A look at new ideas and techniques found in 20th century music from the impressionism of Claude Debussy through the minimalism of Philip Glass. A range of contemporary styles is studied.

MUS 162 - Highlights of Music History: Music and the Theater

3 credit hours - Three hours weekly; one term.

A study of opera, musical comedy and other theatrical forms. Investigates interplay between music and requirements of drama.

MUS 163 - Highlights of Music History: Keyboard Masterpieces

3 credit hours - Three hours weekly; one term.

This study of music for keyboard instruments introduces students to great music literature from early organ and harpsichord compositions to works for contemporary synthesizers.

MUS 164 - Highlights of Music History: The Symphony

3 credit hours - Three hours weekly; one term.

A study of the symphony and concerto from their origins in early baroque music through the era of the romantic virtuoso. Course includes listening to music and attending concerts.

MUS 165 - Highlights of Music History: Jazz

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Analyze the development of jazz from the early 1900s to the present. Recognize various styles and artists important to the evolution of the art form, as well as elements needed for listener appreciation. **Note:** *Typically offered at MC; fall and spring terms.*

MUS 167 - Great Composers

3 credit hours - Three hours weekly; one term.

Study of the life and works of a single great composer. Possible composers include Bach, Beethoven, Mozart, Brahms or other major figures. May be repeated once for credit.

MUS 168 - Highlights of Music History: American Music

3 credit hours - Three hours weekly; one term.

Survey of American music from 17th century Pilgrim times to the present. Readings and listening include patriotic songs of the American Revolution, music of religious sects, Civil War songs and composers, native and folk music, 20th century jazz and contemporary styles.

MUS 169 - Music, Power and Gender

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Considers music ranging from ancient and medieval music to modern rock and alternative music, from Western music to the music of Asia, Africa, the Middle East and South America, as a contested terrain in terms of gender, identity and power. Course uses the perspectives of gender studies and ethnomusicology as well as conventional music scholarship to examine women's contributions to world music, Western classical music and popular American music. **Crosslisted:** *Also offered as GSS 169; credit is not given for both MUS 169 and GSS 169. Note:* *Typically offered at MC; fall and spring terms.*

MUS 170 - Class Guitar 1

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

An introduction to music and basic techniques of the classical guitar. The course includes sight reading as well as techniques and applications to jazz and popular music. A classical guitar is required. **Note:** *Typically offered at MC; fall and spring terms.*

MUS 171 - Class Guitar 2

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Intensive study of periods of classical guitar music; development of technical and interpretive techniques and of performance ability. **Prereq:** *MUS 170 or permission of department chair. Note:* *Typically offered at MC; fall and spring terms.*

MUS 172 - Contemporary Guitar Techniques

2 credit hours - One hour of lecture and two hours of studio weekly; one term.

Introduces guitar performance skills necessary for industrial, studio and live performance. Styles covered include jazz, country, rockabilly, fusion and rock. Emphasizes the development of individual style and the essential techniques for the modern guitarist. Electric or acoustic guitar required. **Note:** *Typically offered at MC; fall and spring terms.*

MUS 180 - Orchestra

1 credit hour - Three hours of laboratory weekly; one term.

Reading and performance of orchestral works selected from the baroque to contemporary eras. Open to all qualified players; an audition may be required. Programs are prepared for college and public performance and are a regular part of the course. May be repeated for credit; a total of four credits may be earned. Lab fee \$5. **Note:** *Typically offered at MC; fall and spring terms.*

MUS 181 - Jazz Band

1 credit hour - Three hours of laboratory weekly; one term.

Reading and performance of jazz and stageband music. Open to all qualified players; an audition may be required. Programs are prepared for college and public performance and are a regular part of the course. May be repeated for credit; a total of four credits may be earned. Lab fee \$5. **Note:** *Typically offered at MC; fall and spring terms.*

MUS 182 - Concert Choir

1 credit hour - Three hours weekly; one term.

Performance of music literature from the Renaissance through contemporary periods. Programs are prepared for college and public performance and are a regular part of the course. May be repeated for credit; a total of four credits may be earned. Lab fee \$5. **Note:** *Typically offered at MC; fall and spring terms.*

MUS 184 - Concert Band

1 credit hour - Three hours of laboratory weekly; one term.

Reading and performance of concert band and wind ensemble music. Open to all qualified players; an audition may be required. Programs are prepared for college and public performance and are a regular part of the course. May be

repeated for credit; a total of four credits may be earned. Lab fee \$5. **Note:** Typically offered at MC; fall, spring, and summer terms.

MUS 188 - Chamber Singers

1 credit hour - Three hours weekly; one term.

Explore choral music compositions from antiquity to contemporary music through this small choral ensemble. Participate in performances at college and community events. Course may be repeated for credit; a total of four credits may be earned. Lab fee \$5. **Prereq:** Audition required, or approval of instructor or department chair. **Note:** Typically offered at MC; fall, spring, and summer terms.

MUS 192 - Applied Music: Acoustic Bass

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone. Typically offered at MC; fall and spring terms.

MUS 192B - Applied Music: Acoustic Bass

1 credit hour - 12 weeks of individual instruction, one-half hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Nonrefundable lab fee \$250. **Note:** Individual instructions are one-half hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone. Typically offered at MC; fall and spring terms.

MUS 193 - Applied Music: Bassoon Traditional

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone. Typically offered at MC; fall and spring terms.

MUS 193B - Applied Music: Bassoon Traditional

1 credit hour - 12 weeks of individual instruction, one-half hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Nonrefundable lab fee \$250. **Note:** Individual instructions are one-half hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone. Typically offered at MC; fall and spring terms.

MUS 194 - Applied Music: Cello Traditional

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone. Typically offered at MC; fall and spring terms.

MUS 194B - Applied Music: Cello Traditional

1 credit hour - 12 weeks of individual instruction, one-half hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master

classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Nonrefundable lab fee \$250. **Note:** *Individual instructions are one-half hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone* Typically offered at MC; fall and spring terms.

MUS 195 - Applied Music: Clarinet Traditional

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** *Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone* Typically offered at MC; fall and spring terms.

MUS 195B - Applied Music: Clarinet Traditional

1 credit hour - 12 weeks of individual instruction, one-half hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Nonrefundable lab fee \$250. **Note:** *Individual instructions are one-half hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone* Typically offered at MC; fall and spring terms.

MUS 196 - Applied Music: Electronic Synthesizer

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** *Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone* Typically offered at MC; fall and spring terms.

MUS 196B - Applied Music: Electronic Synthesizer

1 credit hour - 12 weeks of individual instruction, one-half hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Nonrefundable lab fee \$250. **Note:** *Individual instructions are one-half hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone.*

MUS 197 - Applied Music: Euphonium Traditional

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** *Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone* Typically offered at MC; fall and spring terms.

MUS 197B - Applied Music: Euphonium Traditional

1 credit hour - 12 weeks of individual instruction, one-half hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Nonrefundable lab fee \$250. **Note:** *Individual instructions are one-half hour lessons. Instruction is available for the*

following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone Typically offered at MC; fall and spring terms.

MUS 198 - Applied Music: Flute Traditional

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** *Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone*

Typically offered at MC; fall and spring terms.

MUS 198B - Applied Music: Flute Traditional

1 credit hour - 12 weeks of individual instruction, one-half hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Nonrefundable lab fee \$250. **Note:** *Individual instructions are one-half hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone*

Typically offered at MC; fall and spring terms.

MUS 199 - Applied Music: Acoustic Guitar Traditional

2 credit hours - 12 weeks of individual instruction, one hour per week; and 2 weeks of Repertoire and/or Master classes two hours per week; one term.

Receive individual instruction on an instrument or in voice training. In addition, two-hour Repertoire and/or Master classes are scheduled in lieu of individual lessons for two weeks during the term. Study is either on or off campus and practice is required. Juried exam is required at close of term. Course may be repeated for a total of eight credit hours. Lab fee \$250. **Note:** *Individual instructions are one hour lessons. Instruction is available for the following: Bass Conducting Oboe Trumpet Bassoon Electric Bass Guitar Organ Tuba Cello Euphonium Percussion Viola Clarinet Flute Piano Violin Classical or Jazz Guitar Harp Saxophone Voice Composition Horn Trombone*

Typically offered at MC; fall and spring terms.

MUS 199B - Applied Music: Acoustic Guitar Traditional

MUS 260 - History of Music 1

3 credit hours - Three hours weekly, one term.

Examine the development of music in the western world from the period of ancient Greece to the middle baroque period. Emphasis on a stylistic analysis of the music. **Prereq:** MUS 101 or permission of department. **Note:** Although MUS 260 and MUS 261 can be taken in either order, the sequential order is recommended. Typically offered at MC; fall and spring.

MUS 261 - History of Music 2

3 credit hours - Three hours weekly, one term.

Survey the development of music in the western world from the late baroque period through the nineteenth century. Emphasis is placed on stylistic analysis of the music. **Prereq:** MUS 101 or permission of department. **Note:** Although MUS 260 and MUS 261 can be taken in either order, the sequential order is recommended. Typically offered at MC; fall and spring terms.

MUS 262 - World Music: Music as Culture

3 credit hours - Three hours weekly, one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Use music as an entry into a variety of cultures, social classes and populations. The course introduces students to experiences, perspectives and values different from those found among the dominant populations of the United States and western Europe. Materials will be drawn from traditions throughout the globe to illustrate issues of historical and contemporary significance, including the impact of race, class and gender on music. **Note:** Typically offered at MC; fall and spring term.

MUS 263 - West African Music and Dance

3 credit hours - One hour of lecture and three hours of studio weekly; one term.

Study the practical and theoretical traditions of West African music and dance. Experience the rhythms, songs, movements, and languages of Ghana and other West African countries using an interdisciplinary approach that reflects the integrated nature of drumming, dancing, and singing in West Africa. Perform a range of musical styles and a variety of traditional and contemporary choreographies. **Crosslisted:** Also offered as DAN 263; credit is not given for both MUS 263 and DAN 263. **Note:** Typically offered at MC; fall and spring terms.

MUS 280-299 - Special Topics in Music

-

An in-depth study of one aspect of music or one musical composition. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Nursing

NUR 100 - Patient Care Technician/Geriatric Nursing Assistant

6 credit hours - 45 hours of lecture, 30 hours of college laboratory and 60 hours of clinical practice per course; one term.

Develop skills to function as a patient care assistant in the hospital setting. Engage in lecture, simulated practice of nursing skills in college laboratory and clinical practice in the hospital and extended-care facility. Students practice

selected procedures on each other during college laboratory. The Maryland Board of Nursing has approved this course as meeting requirements to become a Certified Nursing Assistant. The State of Maryland Department of Health and Mental Hygiene has endorsed this course as meeting requirements for the state registry exam for geriatric nursing assistants. There is a fee for the state registry exam. Lab fee \$50. **Prereq:** *Acceptance into the Patient Care Technician program or permission of the department chair.*

NUR 103 - Advanced Patient Care Technician

6 credit hours - 45 hours of lecture, 30 hours of college laboratory and 60 hours of clinical practice; one term.

Practice advanced skills and obtain the clinical experience necessary to work as an advanced-level technician in area hospitals. Lab fee \$150. **Prereq:** *Acceptance into the Advanced Patient Care Technician program.*

NUR 104 - In-Home Aide

1 credit hour - 15 hours of lecture; one term.

Learn the additional skills needed to assume the role of the in-home aide. Must be concurrently enrolled in HUS 275.

Prereq: *NUR 100, or CNA certification with permission of the Director of Nursing.* **Coreq(s):** *HUS 275.*

NUR 120 - Foundations for Nursing

7 credit hours - 4 hours lecture per week and 90 hours of directed laboratory per term; one term.

Gain acquired nursing concepts, principles, and skills to provide care that optimizes the health and wellness for one adult client with alterations in functioning of biopsychosocial systems that have predictable outcomes. Lab fee \$425.

Clinical fee \$450. **Prereq:** *BIO 231 or BIO 233 or equivalent with grade of B or better.* **Coreq(s):** *NUR 121 and NUR 122 and BIO 232 or BIO 234 or equivalent.*

NUR 121 - Basic Physical Assessment

1 credit hour - 11.25 hours of lecture and 11.25 hours of directed laboratory per term; one term.

Acquire nursing assessment skills to provide care for adult clients. **Prereq:** *BIO 231 or BIO 233 or equivalent with grade of B or better.* **Coreq(s):** *NUR 120 and NUR 122 and BIO 232 or BIO 234 or equivalent.*

NUR 122 - Nursing Perspectives 1

1 credit hour - 15 hours of lecture per term.

Acquire an introduction to nursing history and theory, ethical and legal concepts, trends in nursing practice and evidence-based practice, and principles of quality health care. **Prereq:** *BIO 231 or BIO 233 or equivalent with grade of B or better.* **Coreq(s):** *NUR 120 and NUR 121 and BIO 232 or BIO 234 or equivalent.*

NUR 130 - Nursing of Adult Clients in Health and Illness 1

5 credit hours - 45 hours of lecture and 90 hours of directed laboratory per term.

Develop nursing concepts, principles, and skills to provide care that optimizes the health and wellness of one to two adult clients with alterations in functioning of biopsychosocial systems in medical-surgical settings that have predictable outcomes. Lab fee \$250. Clinical fee \$250. **Prereq:** *NUR 120, NUR 121, and NUR 122 with a C or better.*

NUR 131 - Maternal, Newborn Nursing and Women's Health

4 credit hours - 30 hours of lecture and 90 hours of directed laboratory per term.

Develop nursing concepts, principles, and skills to provide care that optimizes the health and wellness of one to two adult clients. The focus is specific to women's health from adolescence through menopause and initial care of the newborn that have predictable outcomes to include both healthy women and newborns as well as those with alterations of functioning of biopsychosocial systems. Lab fee \$250. Clinical fee \$250. **Prereq:** *NUR 120, NUR 121 and NUR 122 with a grade of C or better.*

NUR 150 - Introduction to Perioperative Nursing

2 credit hours - 18 hours of lecture and 40 hours laboratory/clinical per term.

Provides the nursing student with the basic knowledge of the perioperative environment. This elective course provides theoretical and clinical experience to introduce the student to the role and function of the perioperative nurse. The emphasis is on the role of the nurse in the preoperative, intraoperative and postoperative phases. **Prereq:** *NUR 120, NUR 121, NUR 122, NUR 130 and NUR 131.*

NUR 151 - Introduction to Emergency Nursing

2 credits - 18 hours of lecture and 40 hours clinical; one term. Learn the basic knowledge of the emergency room nursing environment.

This elective course provides theoretical and clinical experience to introduce the student to the role and function of the emergency nurse. The emphasis is on the role of the nurse in the care of those individuals across the lifespan in need of emergency care. **Prereq:** *NUR 220 and NUR 221.*

NUR 180 - LPN, Paramedic or Veteran to RN Transition

2 credit hours - 90 hours of directed lab; one term.

Formerly NUR 180 - Veteran to RN Transition. Gain supervised and directed laboratory experiences to prepare the Licensed Practical Nurse, Paramedic, Navy Corpsman, and/or Army Medic to transition into the role of the Registered Nurse. Lab fee \$50. Clinical fee \$100. **Prereq:** *BIO 231(with a grade of B or better) and BIO 232 or BIO 233(with a grade of B or better) BIO 233 - Anatomy and Physiology 1 and BIO 234, PSY 111 and PSY 211, and ENG 101/ENG 101A and ENG 102, general education mathematics, BIO 223 with grades of C or better.* **Note:** *Requires dual enrollment with American Public University System and permission of the Director of Nursing and Healthcare Initiatives.*

NUR 220 - Nursing of Adult Clients in Health and Illness 2

5 credit hours - 45 hours lecture and 90 hours of directed laboratory per term.

Develop nursing concepts, principles, and skills to provide care that optimizes the health and wellness of two adult clients and one mental health client with alterations in functioning of biopsychosocial systems in mental health and medical-surgical settings that have predictable outcomes. Lab fee \$250. Clinical fee \$250. **Prereq:** NUR 130 with a grade of C or better.

NUR 221 - Nursing Care of Children and Families

4 credit hours - 30 hours lecture and 90 hours of directed laboratory per term.

Develop nursing concepts, principles, and skills to provide care that optimizes the health and wellness of one to two pediatric clients and their families. This includes both healthy children and those with alterations in functioning of one or more biopsychosocial systems with predictable outcomes. Lab fee \$250. Clinical fee \$250. **Prereq:** NUR 131 and PSY 211 with a grade of C or better.

NUR 230 - Nursing Management of Clients with Complex Health Problems and Transition into Nursing

9 credit hours - 60 hours of lecture and 225 hours of directed laboratory per term.

Learn to integrate nursing concepts, principles, and skills to provide care that optimizes the health and wellness of three adult clients with alterations in functioning of biopsychosocial systems in medical-surgical settings that may have unpredictable outcomes. Lab fee \$450. Clinical fee \$450. **Prereq:** NUR 220 and NUR 221 with a grade of C or better.

Coreq(s): NUR 231

NUR 231 - Nursing Perspectives 2

1 credit hour - 15 hours of lecture per term.

Learn to integrate the dimensions of wellness, ethical and legal concepts, trends in nursing practice, and integrate health concepts in preparation to transition from nursing student to graduate professional nurse. **Prereq:** NUR 220, NUR 221 with a grade of C or better. **Coreq(s):** NUR 230

NUR 240 - Advanced Pharmacology

2 credit hours - 30 hours of lecture; one term.

Learn advanced pharmacology beyond the introductory nursing courses. Apply concepts of pharmacotherapeutic actions and interactions with particular emphasis on the most currently prescribed medications, utilizing a nursing process framework. Optimize preparation for professional nursing practice. **Prereq:** NUR 130 and NUR 131.

NUR 280-299 - Special Topics in Nursing

-

For students who seek readmission to the nursing program or who are transferring nursing credits from a RN program approved by a state board of nursing. If a review of course outlines from transferred courses identifies omissions in content, students will be required to take from one to eight credits in this course. Courses also may be pursued by practicing registered nurses who wish to update nursing theory. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-400. **Prereq:** Permission of nursing department.

Paralegal Studies

LGS 100 - Introduction to the Law

3 credit hours - Three hours weekly; one term.

This course meets the Social & Behavioral Sciences General Education Requirement. Survey topics and skills related to law and jurisprudence. Analyze the history and development of the law and describe how the law affects individuals, government, and businesses in today's society. Discuss constitutional law principles, judicial decision-making, the state and federal court systems. Examine substantive criminal law, family law, contracts, torts, property, and procedural law.

Prereq: Eligibility for ENG 101/ENG 101A. **Note:** Not available to paralegal or law and jurisprudence majors to fulfill a required or elective course. Typically offered at MC and OL; fall and spring terms.

LGS 111 - Introduction to Paralegal Studies

3 credit hours - Three hours weekly; one term.

Gain a general perspective of the legal system and the role of paralegals within that system. Topics include court systems, jurisdiction, legal research and writing, civil procedure, criminal law and procedure, legal ethics, investigation and interviewing techniques, torts, contracts, family law, estates and trusts, and alternative dispute resolution. Evaluate client scenarios and understand the variety of lenses upon which the law may be viewed. Lab fee \$10. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC, AM, and OL; fall, spring, and summer terms.

LGS 112 - Law Office Practice and Technology

3 credit hours - Three hours weekly; one term.

This course meets the Technology Requirement. Explore the technology that enhances law office management processes and procedures and supports the modern-day practice of law. Gain hands-on experience with software related to case management, timekeeping and billing, docket control, electronic discovery (e-discovery), marketing via the Internet and computer--aided report preparation and presentations. Lab fee \$25. **Prereq:** Grade of C or better in LGS 111. **Note:** Typically offered at MC and OL; fall and spring terms.

LGS 113 - Maximize Your Paralegal Education

1 credit hour - 15 hours; one term.

Assists paralegal students in identifying their professional goals. Covered areas include selection of program electives and internships, self-marketing strategies and exploration of transfer options.

LGS 138 - International Law and Human Rights

3 credit hours - Three hours weekly; one term.

Introduces students to the scope and sources of international law, jurisdiction and dispute mechanism in the international community. Students will explore fundamental human rights, focusing on genocide, civil rights, and war crimes. Students will also discuss arms control and the laws of war. Lab fee \$10. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Credit is not given for LGS 138 and also CJS 138.*

LGS 141 - Electronic Legal Research

1 credit hour - 15 hours; one term.

Learn and apply computer-assisted legal research strategies to locate primary and secondary sources of law; develop research strategies; identify appropriate databases, formulate and apply diverse search techniques, and evaluate results. Identify appropriate use of print, free online, or paid online legal information sources. Enrollment is limited. Lab fee \$35. **Prereq:** *Grade of "C" or better in LGS 111.* **Prereq. or Coreq.:** *LGS 143.* **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

LGS 143 - Legal Research and Writing 1

3 credit hours - Three hours weekly; one term.

Learn techniques of legal research and writing with an emphasis on legal research. Explore topics that include issue identification, an overview of the research process and the American system of law, primary and secondary sources of law, citators, and legal citations. Learn and apply writing skills to complete memoranda and case briefs. Lab fee \$10. **Prereq:** *Grade of C or better in LGS 111 or permission of legal studies director.* **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

LGS 144 - Legal Research and Writing 2

3 credit hours - Three hours weekly; one term.

Learn techniques of advanced legal research and writing with an emphasis on the written aspect of the role of a paralegal. Prepare several written products including case briefs, correspondence, objective memoranda, persuasive memoranda, federal and state court complaints, discovery documents, and motions, including emphasis on detailed legal citation, issue identification and the FIRAC method. Learn and practice oral communication techniques. Lab fee \$45. **Prereq:** *Grade of C or better in LGS 141 and LGS 143.* **Note:** *Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

LGS 156 - Legal Issues in Aging

3 credit hours - Three hours weekly; one term.

Introduces students who are studying for careers in health professions to laws related to the elderly. Students will explore access to care, competency and decision making, euthanasia, suicide, organ procurement and allocation, guardianship, estate planning and transfer of property upon death. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies Program. However, it may be applied as a general elective in the Paralegal Studies Program as noted in the program description. Please consult with an advisor before registering for this course.*

LGS 160 - Domestic Relations

3 credit hours - Three hours weekly; one term.

Analyze legal matters relating to marriage, divorce, separation, annulment, child support, alimony, adoption, custody and related topics. Examine the practical aspects of the paralegal's role in this field. Lab fee \$10. **Prereq:** *Grade of C or better in LGS 111.* **Note:** *Typically offered OL; fall, spring, and summer terms.*

LGS 165 - Mediation and Alternative Dispute Resolution (ADR)

3 credit hours - Three hours weekly; one term.

Focuses on the application of negotiation, mediation and arbitration as methods of resolving conflicts outside the courtroom. Students will learn the nature of conflict and the specific methods and techniques for resolving conflict. Students will examine the processes and skills involved, the training required and the employment opportunities available in the fast-growing field of alternative dispute resolution (ADR). **Note:** *Credit is not given for LGS 165 and also BPA 165 and HUS 165. Typically offered at MC; spring term.*

LGS 170 - Civil Procedure

3 credit hours - Three hours weekly; one term.

Gain a basic understanding of civil litigation processes and procedures. Explore topics that include state and federal court systems, pleadings, court documents, discovery, trial, parties, judgments and attacks on judgments. Lab fee \$10. **Prereq:** *Grade of C or better in LGS 111.* **Note:** *Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

LGS 171 - Tort Law

3 credit hours - Three hours weekly; one term.

Familiarizes students with all aspects of tort law. Topics include intentional torts, negligent torts, defenses, joint tortfeasors and strict liability. Lab fee \$10. **Prereq. or Coreq.:** *LGS 111, LGS 253 or BPA 253.* **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

LGS 200 - Real Estate Law for Paralegals

3 credit hours - Three hours weekly; one term.

Learn legal concepts that form the foundation for a basic understanding of a real estate transaction. Use many of the current legal websites to supplement course materials and learn how to research the diverse legal topics covered. Explore such topics as ethics, categories of property, ownership restrictions, legal descriptions of property, real estate licensees, real estate contracts, deeds, property liens, financing, title, settlements, leases, litigation and mortgage foreclosures. **Prereq:** *Grade of C or better in LGS 111.*

LGS 205 - Cyberlaw

3 credit hours - Three hours weekly; one term.

Introduces students to emerging laws of cyberspace. Explore methods of investigating and preventing cybercrimes and infringements upon information security. Discuss laws governing e-commerce and intellectual property protections, focusing on landmark and other cases such as Napster. The class will also debate privacy rights and free speech on the Internet. **Prereq:** *CJS 111 or LGS 111 or BPA 253 or LGS 253.* **Note:** *Students with no prior computer experience are encouraged to take one of the following before taking this course: CTA 100 or CTP 103. Typically offered OL; fall term.*

LGS 210 - Legal Ethics

3 credit hours - Three hours weekly; one term.

Analyze ethical considerations in the legal field. Explore the history of the legal profession, regulation of lawyers, professional discipline, lawyer-client relationship, lawyer competence, confidentiality, conflicts of interest and the adversary system. Understand the practical aspects of the paralegal's role in the ethical practice of law and what constitutes the unauthorized practice of law. Lab fee \$10. **Prereq:** *Grade of C or better in LGS 111.* **Note:** *Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

LGS 215 - Criminal Law

3 credit hours - Three hours weekly; one term.

Examines pertinent aspects of federal and state criminal law. Includes basic elements of law and specific issues of interest to law enforcement. Discuss recent court decisions relating to crimes against the person and property. **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

LGS 216 - Criminal Evidence and Procedure

3 credit hours - Three hours weekly; one term.

Study key issues relating to criminal procedure including an examination of the Fourth, Fifth, Sixth and Eighth Amendments of the United States Constitution. Examine the rules of evidence including concepts such as relevancy, witnesses, hearsay, chain of custody and the trial process with a focus on procedure in Maryland courts. **Note:** *Typically offered at MC and OL; fall, spring, and summer terms.*

LGS 217 - Constitutional Law

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Examine the United States Constitution and Bill of Rights. Analyze cases focusing on governmental powers and limitations, due process, free speech, privacy rights and religious freedoms and apply these concepts to today's constitutional issues. **Note:** *This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies Program. However, it may be applied as a general elective in the Paralegal Studies Program as noted in the program description. Please consult with an advisor before registering for this course. Typically offered OL; fall, spring, and summer terms.*

LGS 218 - Introduction to Immigration Law

3 credit hours - Three hours weekly; one term.

Learn the history of immigration and the laws, policies, and regulations regarding citizenship. Study various visa petitions including, but not limited to, non-immigrant visas, family-based immigration, employment-based immigration, asylum/refugee applications and deportation and adoption issues. Discuss the appellate process and post 9/11 issues, including the creation of the Department of Homeland Security (DHS). Lab fee \$5. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies program. However, it may be applied as a general elective in the Paralegal Studies degree program as noted in the program description. Please consult with an adviser before registering for this course.*

LGS 220 - Administrative Law

3 credit hours - Three hours weekly; one term.

Examines the nature and function of administrative agencies at the local, state and federal levels. Students will explore the body of laws created by administrative agencies in the form of rules, regulations, orders and decisions and learn about the administrative hearing processes at all levels of government. **Prereq. or Coreq.:** *LGS 111 or LGS 253.*

LGS 225 - Environmental Law and Policy

3 credit hours - Three hours weekly; one term.

Understand the practical balance between environmental laws, policies and societal values and how environmental protections are often a dynamic fusion of these factors. Learn the differences between environmental laws and policies and discuss and debate how applicable case laws, statutes, administrative agency rules and regulations impact national, state and local issues affecting the environment. Gain insight into how core legal principles interplay with policy

considerations and case law coupled with local statutes form an interlacing framework of policies and legal protections that ultimately determine, influence and define the "environment" as we know it. Lab fee \$5. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies program. However, it may be applied as a general elective in the Paralegal Studies degree program as noted in the program description. Please consult with an adviser before registering for this course.*

LGS 230 - Employment Law

3 credit hours - Three hours weekly; one term.

Study the impact of state and federal laws upon employment relationships. Explore substantive and procedural aspects of employment law, focusing on worker's compensation, employment discrimination, pensions and health benefits, wage and hour laws, and labor relations. Lab fee \$10. **Prereq:** *BPA 172 or BPA 253 or LGS 111 or LGS 253 or permission of legal studies director.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

LGS 232 - Construction Law

3 credit hours - Three hours weekly; one term.

Learn current legal principles and practices related to the construction industry and AIA and federal government documents. Learn the legal vocabulary, laws and legal processes applicable to and necessary for work in construction litigation, construction management, architecture, and engineering fields. Understand construction law through analysis of current construction court cases. Discuss sources of law; project delivery systems; mechanics' liens; contract formation and breach; mediation and arbitration; changes, additions, delays, scope of work; surety bonds; insurance; and green building laws. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies program. However, it may be applied as a general elective in the Paralegal Studies program as noted in the program description. Please consult with an advisor before registering for this course.*

LGS 235 - Estates and Trusts

3 credit hours - Three hours weekly; one term.

Examine the laws pertaining to wills, trusts, estates and gifts. Explore the paralegal's role in the process of drafting documents, and handling administration of and filing tax returns for an estate. Lab fee \$10. **Prereq:** *Grade of C or better in LGS 111.*

LGS 236 - Intellectual Property Law

3 credit hours - Three hours weekly; one term.

Learn the legal concepts that form the foundation for a basic understanding of the four areas of intellectual property law. Students will study copyrights, trademarks, patents and trade secrets, and their applications in business and the arts. Emphasis will be placed on ethics, research and practice. Upon completion of this course, students will be able to offer valuable assistance to attorneys in this growing field. Lab fee \$10. **Prereq:** *LGS 111, LGS 253 or BPA 253.*

LGS 240 - Health Care Law

3 credit hours - Three hours weekly; one term.

Studies the application of law to the provision of health care services. Focus on the creation and maintenance of the treatment relationship; informed consent; duties of health care professionals, institutions and managed-care companies; liability of health care providers; procedure for prosecuting health care claims; reproduction law; and medical research. Lab fee \$10.

LGS 241 - Legal Issues of Death, Dying and Organ Transplantation

2 credit hours - Two hours weekly; one term.

Study and application of law related to death, dying and organ transplantation. Focus on the legal definition of death; competency; decision making regarding life-sustaining treatment; suicide; self-determination and procurement and allocation of organs. Study the judicial process relating to patient and proxy decision making and prepare living wills and durable health care powers of attorney. Lab fee \$5.

LGS 242 - Medical Insurance Law

1 credit hour - 15 hours; one term.

Studies the impact of state and federal laws upon health care, managed care and insurance. Covers eligibility for Medicare and Medicaid. Course also focuses on the Comprehensive Omnibus Budget Reconciliation Act (COBRA), portability, the scope of coverage and billing and payment under public and private insurances.

LGS 250 - Legal Issues for Business

3 credit hours - Three hours weekly; one term.

Learn legal consequences in the launch and operation of a business. Examine practical ways to minimize liability in areas such as business organization and management, obligations created by contracts and torts, and relationships between employers and employees and between creditors and debtors. Study government regulation and property interests, and intellectual property law. **Note:** *This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies program. However, it may be applied as a general elective in the Paralegal Studies program as noted in the program description. Please consult with an adviser before registering for this course. Typically offered OL; fall and spring terms.*

LGS 253 - Business Law I

3 credit hours - Three hours weekly; one term.

Study basic principles of law and their impact on common business transactions. Explore sources of law, the judicial system, a wrongdoer's liability for harm to society (crimes) and to the injured party (torts), the formation and performance of contracts, the ownership and transfer of personal and real property, principals and their agents and factors to be considered in choosing the form of a business (partnership and corporations) to be organized. **Note:** Also offered as LGS 253H; credit is not given for LGS 253 and also LGS 253H. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

LGS 253H - Business Law 1 - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Study basic principles of law and their impact on common business transactions. Explore sources of law, the judicial system, a wrongdoer's liability for harm to society (crimes) and to the injured party (torts), the formation and performance of contracts, the ownership and transfer of personal and real property, principals and their agents and factors to be considered in choosing the form of a business (partnership and corporations) to be organized. **Crosslisted:** Also offered as LGS 253; credit is not given for LGS 253H and also LGS 253.

LGS 254 - Business Law 2

3 credit hours - Three hours weekly; one term.

Examine the legal consequences of a variety of business decisions, including the form of business organization. Explore competing interests of buyers and sellers, creditors and debtors, suppliers and consumers. Study of the Uniform Commercial Code follows a sales transaction from drawing up a contract through financing. Evaluate government regulation of business, stressing antitrust laws, employer-employee relations and securities regulations. Survey estate planning and trusts. **Prereq:** LGS 253 or LGS 253H or BPA 253 or BPA 253H. **Crosslisted:** Also offered as LGS 254H; credit is not given for LGS 254 and also LGS 254H. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

LGS 254H - Business Law 2 - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Examine the legal consequences of a variety of business decisions, including the form of business organization. Explore competing interests of buyers and sellers, creditors and debtors, suppliers and consumers. Study of the Uniform Commercial Code follows a sales transaction from drawing up a contract through financing. Evaluate government regulation of business, stressing antitrust laws, employer-employee relations and securities regulations. Survey estate planning and trusts. **Prereq:** LGS 253 or LGS 253H and eligibility for Honors courses. **Crosslisted:** Also offered as LGS 254; credit is not given for LGS 254H and also LGS 254.

LGS 260 - Bankruptcy Law

3 credit hours - Three hours weekly; one term.

Provides a general perspective of bankruptcy law and practice and the roles of paralegals within that system. Topics include Chapter 7 bankruptcy, Chapter 11 bankruptcy and Chapter 13 bankruptcy; investigation and information gathering; researching bankruptcy law; preparing and filing papers and schedules; use of computer-assisted document preparation; automatic stays; turnover of property; exemptions; secured creditors; and discharge. Lab fee \$10.

LGS 270 - Gender and the Law

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Study the law as it relates to gender and sexuality. Focus on constitutional scrutiny of gender issues. Explore topics such as: the right to privacy; theories of sexuality and gender; sexual harassment and discrimination in the workplace, education, and the military; bodily integrity and consent; and legal issues of marriage, custody, adoption and assisted reproduction. Lab fee \$10. **Note:** This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies Program. However, it may be applied as a general elective in the Paralegal Studies Program as noted in the program description. Please consult with an advisor before registering for this course; credit will not be given for LGS 270 and also GSS 270.

LGS 271 - Civil Rights Law

3 credit hours - Three hours weekly; one term.

This course meets the Arts and Humanities General Education Requirement. This course meets the Diversity Requirement. Focus on the historical perspective of discrimination based on race, gender, national origin, ethnicity, disability, religion, sexual orientation, and gender identity using United States Supreme Court decisions and federal legislation as well as extrajudicial data and experiences to address and analyze civil rights issues of discrimination, exploitation, and differential treatment in the law and society. Gain perspective on the social and historical structures in place that both advance discrimination and provide remedies for resolving the effects of discrimination. Topics include local government reaction to federal civil rights legislation, voting rights, marriage and reproductive rights, contract rights, employment, education, public accommodation, and property rights. **Note:** This course is not considered a legal specialty course for the purpose of earning legal specialty credits in the Paralegal Studies Program. Credit will not be given for LGS 271 and also CJS 271. Typically offered at MC and OL; fall and spring terms.

LGS 275 - Paralegal Internship

3 credit hours - One hour seminar, 10 hours work weekly; one term.

Students gain practical experience in the functions and responsibilities of a paralegal on the job. Placement will afford lawyer-supervised opportunities to integrate and reinforce classroom principles and concepts. May be repeated once for

credit. Lab fee \$10. **Prereq:** 14 credits including LGS 111 and LGS 143 with an overall grade point average of 2.5 or better, including a C or better in all LGS courses, or permission of internship coordinator. LGS 144 and LGS 170 advisable. **Note:** Students will be provided with numerous internship opportunities and mentorship in securing placement; however, it is the student's responsibility to be interviewed and accepted by the internship agency. Typically offered at MC and OL; fall, spring, and summer terms.

LGS 280-299 - Special Topics in Paralegal Studies

-

An in-depth series of current topics affecting the legal profession. Emphasis is given to areas of the law that are currently expanding and/or developing. Examples include bankruptcy law, personal injury litigation and workers' compensation. Topics will be specialized and of interest to students as well as to practicing paralegals. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-30. **Prereq:** LGS 111 or permission of legal studies director.

Philosophy

PHL 111 - Introduction to Philosophy

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Critically read and evaluate theories regarding the nature of reality, the nature and scope of knowledge and the nature and extent of our ethical obligations to others. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; all terms.

PHL 115 - Critical and Creative Thinking in the Information Age

3 credit hours - Three hours weekly; one term.

Formerly PHL 100-Critical Thinking. This course meets the Arts & Humanities General Education Requirement. Acquire and develop skills that foster more critical and creative thinking. Learn to analyze arguments, evaluate evidence, and find and use information effectively and ethically to shape and support thinking. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as LIB 115; credit is not given for both PHL 115 and LIB 115. **Note:** Typically offered at MC; fall term.

PHL 141 - Introduction to Logic

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Analyze formal and informal systems of logic, including categorical propositions and syllogisms, propositional and natural deduction, and formal and informal fallacies. Apply methods and rules for distinguishing between sound and unsound arguments often used by writers, politicians, and scientists. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

PHL 142 - Ethics

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Evaluate ethical theories concerning good and evil, right and wrong behavior, vice and virtue, and the methods used in moral decision-making. Evaluate moral theories and apply them to current case studies. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC, AM, and OL; all terms.

PHL 146 - Contemporary Moral Problems

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Diversity Requirement. Examine some of the currently debated ethical and social issues in our culture such as reproductive rights, sexual violence, death penalty, affirmative action and censorship. Reflect critically on the ways in which factors such as race, gender, ethnicity, class, disability and sexuality operate in our culture and how those factors consequently both shape and are shaped by the terms on which these issues are (or are not) debated. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

PHL 147 - Calling Out Bullshit - The Art of Deceptive Misrepresentation

1 credit hour - 1 hour weekly; one term.

Compare and critique the deluge of information from various sources. Determine the accuracy of information (bullshit or truth) and the effects on society. **Note:** Typically offered at MC and OL; fall and spring terms.

PHL 194 - Ethics and the Information Age

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Analyze ethics and moral philosophy as a means for providing a framework for ethically grounded decision making in the information age. Lab fee \$25. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as PHL 194H, CTP 194H, and CTP 194; credit is not given for both PHL 194 and any of the following courses: PHL 194H, CTP 194H, CTP 194. **Note:** Typically offered at MC, AM, and OL; all terms.

PHL 194H - Ethics and the Information Age - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Learn ethics and

moral philosophy as a means for providing a framework for ethically grounded decision making in the information age. Lab fee \$25. **Prereq:** *Eligibility for honors courses and ENG 101/ENG 101A.* **Crosslisted:** *Also offered as PHL 194, CTP 194H, and CTP 194; credit is not given for both PHL 194H and any of the following courses: PHL 194, CTP 194H, CTP 194.* **Note:** *Typically offered at MC, AM, and OL; all terms.*

PHL 201 - Western Religions

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Identify, analyze and compare/contrast the major religious traditions of Western culture. Discuss readings from Judaism, Christianity and Islam. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

PHL 202 - Asian Religions

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn religions most important to cultures of India, China and Japan. Discuss readings from Hinduism, Buddhism, Taoism, Shintoism and other traditions.

Prereq: *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC; fall term.*

PHL 221 - Ancient Greek Philosophy

3 credit hours - Three hours weekly; one term.

Examines Greek philosophy beginning with the Presocratic period. Emphasizes the works of Plato and Aristotle and explores the Hellenic philosophical period. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered at MC; fall and spring terms.*

PHL 223 - Philosophy and Gender

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Learn philosophical themes, issues and problems relevant to gendered experiences in Western culture. Survey major feminist theories of the last 200 years that have helped to define and develop women's (and men's) understandings of themselves. Emphasizes ways in which factors such as class, ethnicity, sexual orientation and gender play roles in the constitution of gender identities and the challenges these pose in reference to community, solidarity and social change. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as GSS 223; credit is not given for both PHL 223 and GSS 223.* **Note:** *Typically offered at MC; fall and spring terms.*

PHL 280-299 - Special Topics in Philosophy

-

Study of such philosophical matters as religion, cosmology, environmental ethics and science mysticism. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Physical Education

PHE 214 - Physical Conditioning for Law Enforcement and Firefighter/Rescue Service Personnel

1 credit hour - Two hours weekly; one term.

Enables prospective law enforcement officers and firefighter/ rescue service personnel to develop physical fitness for their fields. Intensive fitness regimes prepare for the rigorous physical demands of these occupations. Emphasizes muscular strength and endurance training, cardiovascular endurance conditioning and flexibility exercises. Work on individual weight-training programs as well as participate in group conditioning activities. **Crosslisted:** *Also offered as CJS 214; credit is not given for both PHE 214 and CJS 214.*

PHE 215 - Cardio Fitness

1 credit hour - Two hours weekly; one term.

Develop and improve cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition using principles of aerobic exercises. Demonstrate a variety of exercises utilizing the FITT principle (frequency, intensity, time, and type) that can be modified for all fitness levels. Lab fee \$10.

PHE 218 - Water Aerobics

1 credit hour - Two hours weekly; one term.

Water aerobics is an exercise program designed to contribute to cardiovascular development, strength improvement, increased flexibility and proper weight maintenance. The program is designed for swimmers and nonswimmers. Lab fee \$10.

PHE 219 - Deep Water Aerobics

1 credit hour - Two hours weekly; one term.

Learn to improve cardiovascular conditioning and muscle strength without impact. Without touching the pool floor, students will exercise aerobically, assisted by flotation aides and water resistance equipment made available by the college. Lab fee \$10. **Note:** Students must be able to survival float/tread for one minute.

PHE 222 - Cardiovascular Kickboxing

1 credit hour - Two hours weekly; one term.

Improvement of cardiovascular strength and endurance through kickboxing. Lab fee \$6.

PHE 227 - Indoor/Outdoor Soccer

1 credit hour - Two hours weekly; one term.

Develop a knowledge of rules, skills and basic strategies of both indoor and outdoor soccer; then demonstrate this knowledge through physical performance to use soccer as a leisure-time activity.

PHE 228 - Martial Arts

1 credit hour - Two hours weekly; one term.

Learn knowledge and acquire skills of martial arts training techniques to enhance physical fitness, self-discipline and the ability to defend one's self using striking, grappling, controlling and throwing techniques.

PHE 229 - Martial Arts 2

1 credit hour - Two hours weekly; one term.

Gain advanced skills and knowledge in various self-defense, kickboxing and martial arts. Build on and add to skills and knowledge acquired in PHE 228. **Prereq:** PHE 228.

PHE 233 - Weight Training

1 credit hour - Two hours weekly; one term.

Physiological development through conditioning programs using various weight-training techniques. Lab fee \$15.

PHE 234 - Hatha Yoga

1 credit hour - Two hours weekly; one term.

Learn beginner Hatha yoga postures, yogic breathing practices and the foundations of meditation. Apply mindfulness-based methods including somatosensory awareness, centering and a variety of techniques for focusing the mind. Develop physical strength and flexibility while relieving stress and cultivating inner resiliency through the regular practice of Hatha yoga. Improvements in balance, coordination, and mobility are additional benefits of weekly class participation. Emphasis is placed on creating compassionate connections with body, mind, and emotion at all levels of individual practice.

PHE 235 - Bowling

1 credit hour - Two hours weekly; one term.

Development of basic skills and progressive techniques of bowling. Lab fee \$20.

PHE 236 - Golf 1

1 credit hour - Two hours weekly; one term.

Demonstrate progressive development of skills and strategies of golf. Apply the basic rules of the sport to engage in skill development activities and games. Lab fee \$50. **Note:** *Equipment is provided for the course including clubs, golf bag, balls, and tees.*

PHE 237 - Hatha Yoga 2

1 credit hour - Two hours weekly; one term.

Gradual introduction to the intermediate poses which are categorized into backward bends, forward bends, inversion, revolved standings, twists and meditations. Lab fee \$10. **Prereq:** PHE 234.

PHE 239 - Bicycling

1 credit hour - Four hours weekly; eight weeks.

Development of basic skills of cycling: techniques, safety, maintenance of bikes, trip planning and bike selection.

PHE 245 - Tennis 1

1 credit hour - Four hours weekly; eight weeks.

Development of basic skills and progressive techniques of tennis.

PHE 253 - Volleyball

1 credit hour - Two hours weekly; one term.

Progressive development of skills and strategies of volleyball.

PHE 256 - Swimming 1

1 credit hour - Two hours weekly; one term.

Techniques for both beginners and intermediate swimmers. Skills in the crawl, breast and backstrokes are developed. Lab fee \$10.

PHE 257 - Swimming 2

1 credit hour - Two hours weekly; one term.

Learn new swimming strokes and skills, refine stroke coordination, and improve swimming endurance. Students with basic stroke skills and proper breathing technique are best suited for this course. Lab fee \$10. **Prereq:** PHE 256 or permission of the department chair.

PHE 258 - Swimming 3

1 credit hour - Three hours weekly; eight weeks.

Review all fundamental strokes with emphasis on advanced techniques and endurance swimming. Lab fee \$10.

Prereq: *Must be able to swim continuously for 15 minutes using the crawl stroke or permission of department chair.*

PHE 259 - Lifesaving and Water Rescue

1 credit hour - Two hours weekly; one term.

Techniques and practice of lifesaving, CPR and water rescue for individuals interested in guarding at a swimming pool. High school students wishing to take this course for credit must meet concurrent enrollment requirements. Lab fee \$10.

Note: *Candidate must be 16 years of age, swim 500 yards continuously, using these strokes in the following order; 200 yards of front crawl using rhythmic breathing, 100 yards of breaststroke, 200 yards of either front crawl or*

breaststroke, and swim 20 yards, surface dive to a depth of 7-10 feet, retrieve a 10-pound object, return to the surface and swim 20 yards back to the starting point with the object.

PHE 265 - Fitness Through Walking

1 credit hour - Two hours weekly; one term.

Mental and physical fitness is developed through participation in, and a study of, various walking programs and their contributions to one's total health.

PHE 266 - High Intensity Interval Training

1 credit hour - Two hours weekly; one term.

Develop cardiorespiratory endurance, muscular strength, and muscular endurance using high-intensity interval training (HIIT). Demonstrate exercises using alternating bouts of brief higher intensity intervals with either rest or lower intensity workloads throughout an exercise routine. Lab fee \$10.

PHE 267 - Basketball

1 credit hour - Two hours weekly; one term

Develop a knowledge of the basic skills, strategies, and rules associated with the game of basketball. Apply the basic rules of the sport to engage in skill development activities and games while improving current level of physical fitness through a combination of aerobic and anaerobic exercise. Lab fee \$10.

PHE 271 - Scientific Scuba Diver

2 credit hours - Four hours weekly; eight weeks plus 14 hours of open-water diving.

Allows students to advance their scuba diver skills for scientific underwater research. After successfully completing the course, students will be issued a certification of Scientific Diver by Anne Arundel Community College. This course meets the dive certification prerequisite for classification as a Science Diver by the National Oceanic and Atmospheric Administration. Additional requirements to obtain dive certification by the NOAA Diving Program include cardiopulmonary resuscitation; first aid and oxygen administration training; completion of a NOAA physical exam; and employment and/or sponsorship by a NOAA unit. **Note:** *Students must be certified as a recreational scuba diver with a nationally recognized scuba training association. Students will be required to pass swimming competency and medical exams. Students are required to participate in two open-water research dives. The fees for the dives are the student's responsibility.*

PHE 272 - Emergency First Response for Scuba Divers

2 credit hours - Four hours weekly; eight weeks.

Technique and practice of emergency first response for scuba diving accidents as it applies to administration of first aid, cardio-pulmonary resuscitation and oxygen. After successful completion of this course, students will be issued a certification as an Emergency First Responder and Oxygen Provider. **Prereq:** *Students must be certified as a recreational scuba diver by a nationally recognized scuba training association.*

PHE 277 - Skills Laboratory - Physical Fitness

1 credit hour - Two hours weekly; one term.

Emphasizes skills, knowledge and teaching techniques of physical fitness for physical education majors.

PHE 285 - Skills Laboratory - Basketball

1 credit hour - Two hours weekly; one term.

Emphasizes skills, knowledge and teaching techniques of basketball for physical education majors.

PHE 292 - Skills Laboratory - Resistance and Weight Training

1 credit hour - Two hours weekly; one term.

Emphasizes skills, knowledge and teaching techniques of resistance and weight training for physical education majors.

PHE 293 - Introduction to Health, Physical Education and Recreation

3 credit hours - Three hours weekly; one term.

Development of an understanding of contributions that physical education, health and recreation make to education and to our society. Studies include aims, objectives and policies related to these areas. Students become acquainted with educational, professional and personal requirements for a career in each of these fields.

PHE 298 - Athletic Training Internship

3 credit hours - Three hours weekly; one term.

Designed for students interested in pursuing a career in sports medicine. Students gain practical experience working as student athletic trainers in the school athletic program. Gives students insight, knowledge and practical application in all areas of sports-related injuries. **Prereq:** *HEA 295 and completion of a minimum of 12 credit hours with a GPA of 2.0 or higher.*

Physical Science

PHS 100 - General Physical Science

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Explore science in the context of classroom demonstrations, laboratory activities, and the student's personal experiences. Apply the fundamental principles of physics and chemistry to observable phenomena. Develop critical thinking skills, evidence-based reasoning, and the ability to implement the scientific method. Lab fee \$40. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

Crosslisted: *Also offered as PHS 100H; credit is not given for both PHS 100 and PHS 100H. Note: Typically offered at MC and AM; fall, spring, and summer terms.*

PHS 100H - General Physical Science - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an honors course. This course meets the Biological and Physical Sciences General Education Requirement. Explore science in the context of classroom demonstrations, laboratory activities, and the student's personal experiences. Apply the fundamental principles of physics and chemistry to observable phenomena. Develop critical thinking skills, evidence-based reasoning, and the ability to implement the scientific method. **Prereq:** Eligibility for honors courses and ENG 101/ENG 101A. **Crosslisted:** Also offered as PHS 100; credit is not given for both PHS 100H and PHS 100.

PHS 107 - Geology of Maryland

3 credit hours - Three hours of lecture weekly; one term.

Learn the formation and evolution of the bedrock and landscapes of the main physiographic provinces of Maryland. Investigate the interactions of geologic processes through time that have produced Maryland's diverse landforms, drainage patterns, soils, and water and mineral resources. Recognize the geologic hazards of Maryland's past and present, and anticipate future hazards. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as GEO 107; credit is not given for both PHS 107 and GEO 107. **Note:** This course does not satisfy the curricular requirements for a laboratory science course.

PHS 109 - General Oceanography

3 credit hours - Three hours weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Survey the physical, chemical, meteorological, biological, and geological aspects of the oceans. Topics include waves, currents, tides and the chemistry of seawater, ecosystems and life in oceans and estuaries, plate tectonics, and marine sediments. Discuss environmental trends and problems. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as PHS 109H. Credit is not given for both PHS 109 and PHS 109H. **Note:** This course does not satisfy the curricular requirements for a laboratory science course. Typically offered at MC and OL; fall, spring, and summer terms.

PHS 109H - General Oceanography - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Survey the physical, chemical, meteorological, biological, and geological aspects of the oceans. Topics include waves, currents, tides and the chemistry of seawater, ecosystems and life in oceans and estuaries, plate tectonics, and marine sediments. Discuss environmental trends and problems. **Prereq:** Eligibility for honors courses, ENG 101/ENG 101A. **Crosslisted:** Also offered as PHS 109; credit is not given for both PHS 109H and PHS 109. **Note:** This course does not satisfy the curricular requirements for a laboratory science course.

PHS 111 - History of Science

3 credit hours - Three hours weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Study the development of science and technology, from ancient times to the present, and discuss the effects of scientific developments on political and social affairs. The application of the scientific method in the development of the basic concepts of modern science is stressed, as are the crucial observations and experiments which led to those concepts. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** This course does not satisfy the curricular requirements for a laboratory science course. Typically offered at MC and OL; fall, spring, and summer terms.

PHS 113 - Physical Geology

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Investigate the Earth's dynamic system of interconnected processes. Discuss the unifying theme of plate tectonics in context with minerals and rocks, volcanoes, geologic time, crustal deformation and mountain building, earthquakes, Earth's interior, evolution of ocean floors and continents, mass movement, streams and floods, groundwater and other surface processes. An optional field trip is available. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC; fall and spring terms.

PHS 119 - Fundamentals of Weather

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Explore basic principles of atmospheric science and investigate types of interesting weather phenomena. Learn about atmospheric warming mechanisms, development of clouds, global and regional wind patterns and all categories of severe weather developments. Analyze and interpret weather maps, satellite images and atmospheric thermodynamic diagrams. Develop informed conclusions about Earth's weather and climate changes. Lab fee \$30. **Prereq:** Eligibility for MAT 137 or MAT 145 or MAT 151 and ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms; OL, summer term.

PHS 120 - Global Climate Change

3 credit hours - Three hours lecture weekly; one term

This course meets the Biological and Physical Sciences General Education Requirement. Investigate the causes and consequences of global climate change. Learn the science behind our changing climate and how atmospheric carbon dioxide affects the air, land, and water. Research the effects of climate change on plants, animals, and the oceans. Determine the health, economic, and social impacts of climate change on humans. Interpret climate science data,

discuss international climate agreements, and learn about mitigation efforts that help fight climate change. **Prereq:** *Eligibility for ENG 101/ ENG 101A and any general education mathematics.* **Note:** *Typically offered at MC and OL; fall and spring terms; OL, summer term.*

PHS 200 - Earth and Space Science

4 credit hours - Three hours of lecture and two hours of lab weekly, one term.

This course meets the Biological and Physical Sciences General Education Requirement. Explore the Earth and its dynamic processes in the context of its location in our solar system and universe. Discover how our model of the solar system changed from ancient times to the present. Compare the Earth to other planets, and our solar system to exoplanetary systems. Emphasis is placed on the nature of science and student exploration. Primarily for students who plan to teach preschool through grade eight. Lab fee \$30. **Prereq:** PHS 100. **Note:** *Typically offered at MC; fall and spring terms.*

PHS 280-299 - Special Topics in Physical Science

-

Provides a means for students to enrich their backgrounds in a particular area of interest with a framework for independent study and research. Topics may not include a laboratory, unless the course carries four credits. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. **Prereq:** *Eligibility for ENG 101/ENG 101A and any general education math.*

Physical Therapist Assistant

PTA 101 - Introduction to Physical Therapist Assistant

3 credit hours - 30 hours of lecture and 30 hours of college laboratory; one term.

Introduces the profession of physical therapy including the purpose, history and practice structures. Includes the scope of practice, ethics and roles of the health care provider. Teaches basic patient care procedures and documentation. Lab fee \$100. **Prereq:** *Acceptance into the PTA program.*

PTA 102 - Physical Therapist Assistant 1

6 credit hours - 45 hours of lecture and 90 hours of college laboratory; one term.

Introduces theory and skill development in body mechanics, gait training and data collection techniques. Emphasizes competence in postural measurements, transfers, range of motion, manual muscle testing, basic therapeutic exercise, assistive devices and massage. Covers disease processes and specific medical conditions seen in physical therapy. Lab fee \$300. **Prereq:** *PTA 101, BIO 231 or BIO 233, MAT 137, ENG 101 or ENG 101A, and PSY 111.* **Coreq(s):** *PTA 106.*

PTA 104 - Physical Therapist Assistant 2

6 credit hours - 45 hours of lecture and 90 hours of college laboratory over nine week term.

Introduces theory regarding the concepts of pain, peripheral vascular disease and wound care. Includes theory and skill development in modalities and relaxation techniques with expected competency in specific units. Lab fee \$300.

Prereq: *PTA 102, PTA 106 and BIO 232 or BIO 234.* **Coreq(s):** *PTA 105.*

PTA 105 - Clinical Practice 1

2 credit hours - 30 hours of lab , 15 hours of lecture and assessment of PTA skills; one term.

Preparation and performance of a concentrated introductory clinical experience using a variety of learning methods and environments (simulation, hands on, and observation) for supervised application of clinical skills. PTA skills are assessed by clinical and academic faculty. Clinical fee \$25. **Prereq:** *PTA 102, PTA 106 and BIO 232 or BIO 234.*

Coreq(s): *PTA 104.*

PTA 106 - Kinesiology

6 credit hours - 70 hours of lecture and 45 hours of college laboratory; one term.

Study of biomechanical principles of human movement. Includes structure and functions of joint and muscle groups and characteristics of normal posture and gait. Reviews pathologies basic to each specific joint. Lab fee \$100. **Prereq:** *PTA 101, BIO 231 or BIO 233, MAT 145 (formerly MAT 131), ENG 101 or ENG 101A, and PSY 111.* **Coreq(s):** *PTA 102.*

PTA 150 - Functional Anatomy for the Physical Therapist Assistant

1 credit hour - Two hours lecture and 28 hours of college laboratory; one term.

Bridge content and learning from human anatomy & physiology coursework to kinesiology coursework. Students will participate in both hands-on learning activities and interactive Internet links to promote basic knowledge of bone, muscle, and joint anatomy and physiology. From that knowledge, students will develop an understanding of how anatomy and physiology relate to function. Lab fee \$25. **Coreq(s):** *PTA 101.*

PTA 201 - Physical Therapist Assistant 3

4 credit hours - 45 hours of lecture and 30 hours of college laboratory; one term.

Theory of orthopedic conditions and their underlying pathology. Skill development includes integrated rehabilitation techniques of these conditions. Lab fee \$100. **Prereq:** *PTA 104, PTA 105 and PSY 211.* **Coreq(s):** *PTA 202 and PTA 203.*

PTA 202 - Physical Therapist Assistant 4

4 credit hours - 45 hours of lecture and 30 hours of college laboratory; one term.

Theory and pathology of conditions which may require long-term rehabilitation techniques. Skill development focuses on techniques which enhance the level of function. Lab fee \$100. **Prereq:** PTA 104, PTA 105 and PSY 211. **Coreq(s):** PTA 201 and PTA 203.

PTA 203 - Clinical Practice 2

4 credit hours - 192 hours of clinical practice; one term.

A supervised clinical experience in a selected physical therapy setting for application of new and previously learned skills and theoretical integration. Clinical fee \$135. **Prereq:** PTA 104, PTA 105 and PSY 211. **Coreq(s):** PTA 201 and PTA 202.

PTA 204 - Physical Therapist Assistant 5

3 credit hours - 30 hours of lecture and 30 hours of college laboratory; one term.

Theory and pathology of the neurologically involved patient. Special emphasis on skill development in neurodevelopmental techniques. Lab fee \$100. **Prereq:** PTA 201, PTA 202 and PTA 203. **Coreq(s):** PTA 205 and PTA 206.

PTA 205 - Current Issues and Trends Affecting the Physical Therapist Assistant

1 credit hour - 15 hours of lecture; one term.

A seminar course which addresses current issues specific to the profession of physical therapy including health care reform, reimbursement, licensure and medical ethics. **Prereq:** PTA 201, PTA 202 and PTA 203. **Coreq(s):** PTA 204, PTA 206 and PTA 207.

PTA 206 - Clinical Practice 3

4 credit hours - 144 hours of clinical practice; one term.

A supervised clinical experience in a selected physical therapy setting for application of new and previously learned skills and procedures. Includes implementation of management skills and teaching techniques. Clinical fee \$135.

Prereq: PTA 201, PTA 202 and PTA 203. **Coreq(s):** PTA 204 and PTA 205.

PTA 207 - Clinical Practice 4

4 credit hours - 280 hours of clinical practice; one term.

A supervised full-time clinical experience in a selected physical therapy setting for application of new and previously learned clinical skills and procedures. Includes implementation of management skills and teaching techniques. Clinical fee \$135. **Prereq:** PTA 204 and PTA 206. **Coreq(s):** PTA 205. **Note:** A grade of C or better in each physical therapist assistant course is required to progress in PTA 207.

PTA 280-299 - Special Topics in Physical Therapist Assistant

-

For students seeking readmission to the Physical Therapist Assistant Program or transfer from an accredited program. If a review of course outlines from transfer courses identifies omissions in content, you will be required to take from one to eight credits in this course. Courses may be pursued by practicing physical therapist assistants who wish to update theory. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, check with your transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-94.

Physician Assistant

PHA 105 - Foundation of Physician Assistant Practice

5 credit hours - 60 hours of lecture, 32 hours of laboratory and 2 hours of clinical practice; one term.

Learn medical interviewing techniques and physical examination skills by performing physical exams on simulated patients in the laboratory. Gain an understanding of the Physician Assistant profession by covering professional issues in ethics, government and law. Acquire basic electrocardiogram reading and interpretation skills. Lab fee \$600. Clinical fee \$400. **Prereq:** Admission to the physician assistant program. **Coreq(s):** PHA 110

PHA 110 - Applied Medical Sciences

7 credit hours - 100 hours of lecture and 5 hours of laboratory; one term.

Integrate foundational concepts of human anatomy and physiology utilizing a medical focus in applying scientific principles as related to the clinical-based curriculum. Includes directed laboratory activity. Lab fee \$200. **Prereq:** Admission to the physician assistant program. **Coreq(s):** PHA 105.

PHA 112 - Clinical Medicine 1

8 credit hours - 105 hours of lecture and 30 hours of laboratory; one term.

Introduces the theory of medicine using a body system approach including clinical presentation, differential diagnosis, laboratory findings and treatment modalities. Introduces the study of gerontology. The laboratory component focuses on the practice of skills and use of equipment encountered in health care settings. Lab fee \$150. **Prereq:** PHA 105 and PHA 110. **Coreq(s):** PHA 114, PHA 115 and PHA 120.

PHA 114 - Pediatric Medicine 1

2 credit hours - 30 hours of lecture; one term.

Introduces an operational understanding of diseases of the pediatric population with an emphasis on prevention, presentation, differential diagnosis and treatment modalities. Includes illnesses specific to the newborn and adolescent.

Prereq: PHA 105 and PHA 110. **Coreq(s):** PHA 112, PHA 115 and PHA 120.

PHA 115 - Psychiatric Medicine

3 credit hours - 45 hours of lecture; one term.

Covers the treatment and management of common psychiatric disorders encountered in primary care. Introduces the students to the DSM IV Classification System. **Prereq:** PHA 105 and PHA 110. **Coreq(s):** PHA 112, PHA 114 and PHA 120.

PHA 118 - Clinical Medicine 2

8 credit hours - 100 hours of lecture, 30 hours of laboratory and 15 hours of clinical; one term.

Apply theory of medicine using a case management and body system approach. Develop clinical critical thinking and decision-making skills while interpreting patient histories, physical exams, X-rays and laboratory exercises. Lab fee \$300. **Prereq:** PHA 112, PHA 114, PHA 115 and PHA 120. **Coreq(s):** PHA 119, PHA 121, PHA 122, PHA 123 and PHA 211.

PHA 119 - Pediatric Medicine 2

2 credit hours - 30 hours of lecture; one term.

Integrate an understanding of diseases of the pediatric population with an emphasis on prevention, presentation, differential diagnosis and treatment modalities. Investigate diseases specific to the newborn through adolescence.

Prereq: PHA 112, PHA 114, PHA 115 and PHA 120. **Coreq(s):** PHA 118, PHA 121, PHA 122, PHA 123 and PHA 211.

PHA 120 - Pathophysiological Approach to Pharmacotherapeutics 1

3 credit hours - 45 hours of lecture; one term.

Examine drug actions within the framework of human physiology, biochemistry and pathophysiology. In this course, the therapeutic and adverse actions of drugs are understood in the framework of the drug's mechanism of action. Utilize clinical vignettes to analyze pathologic processes that integrate the actions of drugs from the level of an individual molecular target to the level of the human patient. Learn about drug delivery methods and the drug approval process.

Prereq: PHA 105 and PHA 110. **Coreq(s):** PHA 112, PHA 114, PHA 115.

PHA 121 - Emergency Medicine

4 credit hours - 45 hours of lecture and 30 hours of laboratory, one term.

Learn the essentials of assessment, diagnosis and management of patients from infancy to geriatric age. Review potentially life-threatening illnesses and injuries commonly encountered in emergency medicine. Use simulation to practice assessment, interdisciplinary teamwork and problem solving skills in a laboratory setting. Participate in demonstrations of advanced procedures. Imaging and laboratory indications and interpretation skills will be emphasized. Lab fee \$550. **Prereq:** PHA 112, PHA 114, PHA 115 and PHA 120. **Coreq(s):** PHA 118, PHA 119 , PHA 122, PHA 123 and PHA 211.

PHA 122 - Patient Evaluation Lab

1 credit hour - 60 clinical hours maximum; one term.

Develop the principles of basic medical practice through supervised clinical instruction. Gain experience in patient interviewing and physical examination skills through simulation and/or clinical placement. Clinical fee \$500. **Prereq:** PHA 112, PHA 114, PHA 115 and PHA 120. **Coreq(s):** PHA 118, PHA 119, PHA 122, PHA 123 and PHA 211.

PHA 123 - Pathophysiological Approach to Pharmacotherapeutics 2

3 credit hours - 45 hours of lecture, one term.

Examine drug actions within the framework of human physiology, biochemistry and pathophysiology. Therapeutic and adverse actions of drugs are understood in the framework of the drug's mechanism of action. Utilize clinical vignettes to analyze pathologic processes that integrate the actions of drugs from the level of an individual molecular target to the level of the human patient. Students will learn about drug delivery methods and the drug approval process. **Prereq:** PHA 112, PHA 114, PHA 115 and PHA 120. **Coreq(s):** PHA 118, PHA 119, PHA 121, PHA 122, and PHA 211.

PHA 211 - Clerkship Boot Camp

1 credit hour - 15 hours of lecture; one term.

Explore program clinical policies, time management, and self-care practices. Practice EKG and radiology interpretation skills. Apply interdisciplinary communication strategies. Produce electronic medical records for medical coding and billing practice to improve patient care. **Prereq:** PHA 112, PHA 114, PHA 115, PHA 120. **Coreq(s):** PHA 118, PHA 119, PHA 121, PHA 122, PHA 123.

PHA 216 - Issues and Trends in Health Care

3 credit hours - 45 hours of lecture; one term.

Assess the role of the physician assistant in contemporary medical practice. Study current professional issues and the effects of law, ethics and government on the health care system. Appraise research and issues of preventive medicine and the role of the physician assistant as educator. Perform critical analysis of assigned readings. **Prereq:** PHA 221, PHA 222 and PHA 223.

PHA 219 - Clerkship 1

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, and formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial

sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 118, PHA 119, PHA 121 and PHA 123 and PHA 211.

PHA 220 - Clerkship 2

4 credit hours - 180 clinical hours minimum; one term.

Participate in supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 219.

PHA 221 - Clerkship 3

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 220.

PHA 222 - Clerkship 4

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 221.

PHA 223 - Clerkship 5

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 222.

PHA 224 - Clerkship 6

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 223.

PHA 225 - Clerkship 7

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 224.

PHA 226 - Clerkship 8

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in one of the required specialties such as internal medicine or an elective sub-specialty such as cardiology. Engage in tutorial sessions and on-site evaluation by faculty. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 225.

PHA 227 - Clerkship 9

4 credit hours - 180 clinical hours minimum; one term.

Participate in a supervised clinical experience designed to provide the student with an opportunity to obtain medical data, formulate and implement a medical diagnosis and treatment plan. The clinical experience will be in a specialty of the student's own choosing, such as internal medicine. Students must demonstrate clinical competence and pass an examination to complete the course. Clinical fee \$1500. **Prereq:** PHA 226.

PHA 280-299 - Special Topics in Physician Assistant

-

For students who seek readmission to the Physician Assistant program or who transfer physician assistant credits from another accredited physician assistant program. If a review of course outlines from transferred courses identifies omissions in content, you will be required to take from one to eight credits in this course. Board-certified or board-

eligible physician assistants also may pursue courses to update physician assistant theory. Because special topics courses may present transfer problems, check with the transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab/clinical fee \$0-1,950.

Physics

PHY 011 - Introduction to Physics

2 equivalent hours - Four hours of lecture weekly; seven and one-half weeks; or two hours of lecture weekly; one term, 13 weeks.

Designed to present the basic concepts necessary for a student to enroll in a first-year, algebra- or calculus-based college physics course. Topics include problem-solving techniques, application of basic mathematics, dimensional analysis, graphical analysis, vectors and Newton's laws.

PHY 105 - How Things Work

3 credit hours - Three hours of lecture weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Explore the physical principles involved in everyday objects with a focus on their designs, principles of operation, histories and relationships to one another. Apply concepts to everyday technology involving mechanical and thermal processes, electromagnetism, light and radiation, and both atomic and nuclear physics. **Prereq:** *Eligibility for ENG 101/ENG 101A and any general education math.* **Note:** *This course does not satisfy curricular requirements for a laboratory science course. Typically offered at MC; fall and spring terms.*

PHY 111 - Fundamentals of Physics 1

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Discover the fundamental concepts and methods of physics. Study the classical principles and their application to algebra-based mathematical analysis of physical problems. Analyze topics including mechanics (kinematics, laws of motion, force, momentum, and energy), fluids, and heat. Meets the requirements of career programs and transfer programs in liberal arts, secondary education and health-related fields that require algebra-based general physics. **Prereq:** *MAT 137 or MAT 145 with a grade of C or better or eligibility for MAT 151 and eligibility for ENG 101/ENG 101A.* **Note:** *Credit is not given for both PHY 111 and PHY 211. Typically offered at MC and OL; fall, spring, and summer terms.*

PHY 112 - Fundamentals of Physics 2

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Discover the fundamental concepts and methods of physics, as a continuation of PHY 111. Study physical principles and their application to algebra and trigonometry based mathematical analysis of physical problems. Analyze topics including electricity and magnetism, electric circuits, optics, quantum mechanics, and special relativity. Meets the requirements of career programs and transfer programs in liberal arts, secondary education, and health-related fields that require algebra-based general physics. **Prereq:** *PHY 111 and MAT 137 or MAT 145 with a grade of C or better, or eligibility for MAT 151.* **Note:** *Typically offered at MC; fall and spring terms.*

PHY 120 - Sound and Light - An Interdisciplinary Approach

3 credit hours - Three hours of lecture weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Discover the fundamental concepts and methods of the physics of sound and light. Study physical concepts and principles of sound and light from a conceptual perspective, and apply these concepts to the analysis of various physical problems and natural phenomenon. Integrate scientific, technological, and artistic perspectives to understand the sources, behaviors, and control of sound and light. Analyze topics including waves and oscillations, light and optics, and sound and acoustics. Meets the requirements of career programs and transfer programs in liberal arts, interior design, fine arts, and programs requiring a non-lab science. **Prereq:** *Eligibility for ENG 101/ENG 101A and any general education math.* **Note:** *This course does not satisfy curricular requirements for a laboratory science course. Typically offered at MC; spring term.*

PHY 211 - General Physics 1

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Discover the fundamental concepts and methods of physics as a basis for further study in science and engineering. Study the classical principles and their application to calculus-based mathematical analysis of physical problems. Analyze topics including mechanics (kinematics, laws of motion, force, momentum, and energy) and basic fluid theory. Lab fee \$25. **Prereq:** *Eligibility for ENG 101/ENG 101A; completion of MAT 191.* **Crosslisted:** *Also offered as PHY 211H; credit is not given for both PHY 211 and PHY 211H.* **Note:** *Credit is given for only one of PHY 211, PHY 211H, or PHY 111 . Typically offered at MC; fall, spring, and summer terms.*

PHY 211H - General Physics 1 - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an honors course. This course meets the Biological and Physical Sciences General Education Requirement. Discover the fundamental concepts and methods of physics as a basis for further study in science and engineering. Study the classical principles and their application to calculus-based mathematical analysis of physical problems. Analyze topics including mechanics (kinematics, laws of motion, force, momentum, and energy) and basic fluid theory.

Lab fee \$25. **Prereq:** Eligibility for honors courses; eligibility for ENG 101/ENG 101A; completion of MAT 191. **Crosslisted:** Also offered as PHY 211; credit is not given for both PHY 211H and PHY 211. **Note:** Credit is given for only one of PHY 211, PHY 211H, or PHY 111.

PHY 212 - General Physics 2

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This course meets the Biological and Physical Sciences General Education Requirement. Examine the topics of thermodynamics, electrostatics, and direct current circuit theory while expanding on the theory from PHY 211 demonstrating these topics application to the calculus-based mathematical analysis of physical problems. **Prereq:** PHY 211 and MAT 192. **Crosslisted:** Also offered as PHY 212H; credit is not given for both PHY 212 and PHY 212H. **Note:** Typically offered at MC; fall and spring terms.

PHY 212H - General Physics 2 - Honors

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

This is an honors course. This course meets the Biological and Physical Sciences General Education Requirement. Examine the topics of thermodynamics, electrostatics, and direct current circuit theory while expanding on the theory from PHY 211 demonstrating these topics application to the calculus-based mathematical analysis of physical problems. **Prereq:** Eligibility for Honors courses and PHY 211H and MAT 192H. **Crosslisted:** Also offered as PHY 212; credit is not given for both PHY 212H and PHY 212.

PHY 213 - General Physics 3

4 credit hours - Three hours of lecture and three hours of laboratory weekly; one term.

Continue the study of physics and its application to the calculus-based mathematical analysis of physical problems. Analyze topics including magnetism, electrostatics and Maxwell's equations, alternating current circuit theory and applications, optics, quantum mechanics, and special relativity. **Prereq:** PHY 212 and either MAT 201 or MAT 212. **Note:** Typically offered at MC; fall and spring terms.

PHY 280-299 - Special Topics in Physics

-

Intended to provide a means for students to enrich their backgrounds in a particular area of interest. Provides a framework for independent study and research. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-40. **Prereq:** 28 or more credit hours and permission of department chair.

Political Science

PLS 111 - American Government

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. An introduction to American politics. Focuses upon such topics as ideology, public opinion, political behavior and voting dynamics, political parties, the presidency, Congress, Supreme Court, foreign policy and national defense. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; all terms.

PLS 113 - State and Local Government

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. An intensive study of operations and roles of state and local governments in the U.S. federal system. The interrelationship between national and state governments is studied from a historical as well as from a contemporary perspective. Particular emphasis placed on problems of Maryland state and local governments. A brief review of recent studies in this field is conducted. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

PLS 115 - Introduction to Political Science

3 credit hours - Three hours lecture weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Examine key concepts and methodologies of political science, investigate the origins of our political values, and explore various fields within the discipline, including American politics, comparative politics, international relations, and political philosophy. Analyze political ideas, theories, ideologies, systems, and policies in order to investigate political problems on a national and global level. **Note:** This course should be taken by students interested in majoring in political science in anticipation of other courses such as PLS 111 (American Government), PLS 113 (State and Local Government), or PLS 200 (International Relations). However, it offers a broad introduction to national and international political arrangements, policy orientations, and social outcomes that would benefit any student. Typically offered at MC and OL; fall and spring terms.

PLS 121 - Introductory Political Theory

3 credit hours - Three hours weekly; one term.

A survey that deals with political ideas and political problems such as political domination by ruling classes, the right to revolt, relation of the individual to state, and totalitarian and authoritarian systems. Emphasis on the writings of such political thinkers as Plato, Aquinas, Machiavelli, Hobbes, Marx, de Tocqueville, Nietzsche and Gandhi. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC; fall and spring terms.

PLS 122 - American Political Thought

3 credit hours - Three hours weekly; one term.

Survey of development of American political thought from the Puritan era to the present. Trends in political theory are related to social, economic and political changes and conditions. **Prereq:** Eligibility for ENG 101/ENG 101A.

PLS 125 - Political Issues and Conflicts in Contemporary America

3 credit hours - Three hours weekly; one term.

Focus on contemporary economic, political and social issues that are the subjects of conflict in contemporary American politics. Examine the impact of these issues on American governance, formation and execution of public policy and opinion. Topics include multiculturalism, race relations, abortion and gender/sexual politics. **Prereq:** PLS 111 or permission of department chair.

PLS 131 - Comparative Government and Politics

3 credit hours - Three hours weekly; one term.

Introduction to theories of comparative politics and to data used in comparing political systems. Major attention is given to the systems of Great Britain, France, Germany and Japan. Focuses on political culture and political crises; political parties, including communist, anarchist and fascist; and contemporary political institutions and policymaking.

Prereq: Eligibility for ENG 101/ENG 101A.

PLS 151 - Political Behavior and Analysis

3 credit hours - Three hours weekly; one term.

A dual focus on conceptual approaches and methodologies of behavioral political studies with principal emphasis on theories derived from small-group, personality, role, power and socialization analysis. Special attention given to contemporary voting behavior, leadership character, ideology and political violence. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC; fall and spring terms.

PLS 155 - Ethnic Conflict

3 credit hours - Three hours weekly; one term.

Gain an overview of historical, theoretical and empirical analysis of ethnic conflict around the world. Examine representative theories and evidence on the causes, dynamics and outcomes of ethno-political conflicts and their impact on international politics. **Prereq:** Eligibility for ENG 101/ENG 101A.

PLS 200 - International Relations

3 credit hours - Three hours weekly; one term.

This course meets the Social & Behavioral Sciences General Education Requirement. Examines fundamental concepts of international relations: nation-state, sovereignty, balance of power, diplomacy, foreign policy, war and peace, disarmament, international law and international organizations. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

PLS 275 - Legislative Internship: Orientation

3 credit hours -

An orientation course to prepare those planning to participate in the legislative internship program (PLS 276) during spring term. Not a prerequisite for PLS 276, but recommended. **Note:** Typically offered at MC; fall term.

PLS 276 - Legislative Internship: Practicum

3 credit hours -

Selected students are assigned to members of the Maryland General Assembly, committees, lobbyists or associations during the legislative session (January-April). Furthermore, students performing internships in any political legislature (local, state or federal) may earn academic credit for their service. Students perform duties as assigned including drafting of legislation, constituent service and research. Before the beginning of the proposed internship, students must contact the political science department chair. It is recommended that interns take PLS 275 during the second eight weeks of classes of the fall term before they enroll in PLS 276. **Prereq:** Eligibility for ENG 101/ENG 101A and permission of the department chair. **Note:** Typically offered at MC; spring term.

PLS 280-299 - Special Topics in Political Science

-

Focus on topics relevant to political science. Courses offered in response to emerging critical issues, students' interest or the disciplinary strength of faculty members. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Practical Nursing**LPN 180 - Fundamentals of Practical Nursing**

8 credit hours - 75 hours of lecture and 90 hours of laboratory/clinical per term; one term.

Learn the role of the practical nurse as provider, manager and member within the discipline of nursing in a team relationship. Focus on the concepts, principles and skills used in assessing and providing basic care for patients. Opportunities to practice skills and demonstrate competencies are provided. Lab fee \$400. Clinical fee \$300. **Prereq:** BIO 231, BIO 232 or equivalent, PSY 111 and Math General Education with grades of C or better. Acceptance into the Practical Nursing (LPN) program.

LPN 193 - Adult and Child Health Concepts in Practical Nursing

10 credit hours - 90 hours of lecture, 42 hours of directed lab and 138 hours of clinical per term; one term.

Learn essential principles, concepts and skills necessary for the care of adults and children with acute alterations in body systems. Apply theoretical concepts and perform nursing skills specific to adult and child clients in acute care settings. Lab fee \$300. Clinical fee \$275. **Prereq:** LPN 180.

LPN 194 - Women, Newborns, Mental Health and Integration of Concepts in Practical Nursing

9 credit hours - 90 hours of lecture, 30 hours of directed lab and 105 hours of clinical per term; one term.

Learn essential principles, concepts and skills for providing care for the childbearing family, the mentally ill, and adults with emergent needs. Explore the roles of leadership and delegation. Integrate the role of the Practical Nurse through opportunities to provide client care in acute, community, and/or long-term settings. Lab fee \$350. Clinical fee \$275.

Prereq: LPN 193.

Psychology

PSY 100 - Career Development and Assessment

3 credit hours - Three hours weekly; one term.

Apply psychological content and skills while using a systematic and strategic approach toward professional and personal development. Topics include understanding psychological theories of career development, exploring social cognitive factors influencing career choice and satisfaction, identifying and developing non-cognitive factors influencing academic and vocational success, and recognizing the necessary skills to engage in successful life and career planning. Lab fee \$5. **Note:** This course is intended to utilize psychological concepts and knowledge in the application of career development. It is appropriate for psychology majors and non-psychology majors. Completion of or concurrent registration in PSY 111 is recommended. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

PSY 102 - Psychology of African Americans

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Explore basic theoretical and philosophical perspectives in the field of African-American psychology. Review history of African Americans and impact of historical events on the psychological well-being of African Americans. Discuss racism and discrimination and its impact on the African-American family, the education and achievement of African Americans, African-American identity development and other pertinent issues relevant to the lifestyles of African Americans. **Crosslisted:** Also offered as AFA 102; credit is not given for both PSY 102 and AFA 102. **Note:** Typically offered at MC and OL; spring term.

PSY 111 - Introduction to Psychology

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Explore the science of psychology and how psychological research applies to aspects of everyday life. Topics include biological basis of behavior, cognition, memory, development, learning, mental health, and our interactions with others. **Crosslisted:** Also offered as PSY 111H; credit is not given for both PSY 111 and PSY 111H. **Note:** Typically offered at MC, AM, GB, and OL; all terms.

PSY 111H - Introduction to Psychology - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Social & Behavioral Sciences General Education Requirement. Explore the science of psychology and how psychological research applies to aspects of everyday life. Topics include biological basis of behavior, cognition, memory, development, learning, mental health, and our interactions with others. **Prereq:** Eligibility for Honors courses. **Crosslisted:** Also offered as PSY 111; credit is not given for both PSY 111 and PSY 111H. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

PSY 120 - Psychology of Parenthood

3 credit hours - Three hours weekly; one term.

Presents an overview of the Psychology of Parenthood, focusing on the parent-child relationship and the crucial role that parents play in the development of children. Included are the various types of parenting in contemporary America, family systems research, child behavior management and interpersonal communication with the family. Current parenting issues such as nutrition, child care, sex education, substance abuse and childhood stress are covered. **Note:** Typically offered OL; fall term.

PSY 151 - Psychology of Aging

3 credit hours - Three hours weekly; one term.

Focus on later life development and the aging capabilities, physical health, cognitive development and psychological difficulties. Emphasizes ways of assisting the elderly and their families. **Crosslisted:** Also offered as HUS 151; credit is not given for both PSY 151 and HUS 151. **Note:** Typically offered OL; fall term.

PSY 205 - Child Psychology

3 credit hours - Three hours weekly; one term.

Learn about cognitive, physical, social and emotional development from infancy through pre-adolescence. Study theories of child development and research methods used to study it. Learn about conception and the prenatal period and its influence on later development. **Prereq:** PSY 111 or PSY 111H or permission of department chair. **Note:** Also offered as PSY 205H; credit is not given for both PSY 205 and PSY 205H. Typically offered at MC and OL; fall, spring, and summer terms.

PSY 205H - Child Psychology - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Learn about cognitive, physical, social and emotional development from infancy through pre-adolescence. Study theories of child development and research methods used to study it. Learn about conception and the prenatal period and its influence on later development. **Prereq:** PSY 111 or PSY 111H or permission of department chair and eligibility for Honors courses. **Note:** Also offered as PSY 205; credit is not given for both PSY 205H and PSY 205. Typically offered OL; fall term.

PSY 208 - Adolescent Psychology

3 credit hours - Three hours weekly; one term.

Focuses on the scientific study of the biological, psychological, cognitive, emotional, personality and social changes that occur during adolescence and includes the effects of heredity and culture, major theories, moral development, gender role issues, sexuality and family relationship issues. **Prereq:** PSY 111 or permission of department chair. **Note:** Typically offered OL; fall, spring, and summer terms.

PSY 211 - Developmental Psychology

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Examine current research and principles and theories of human growth and development. Provides an overview of the development of thinking, language, personality, motor behavior and social behavior from infancy through maturity. **Prereq:** PSY 111 or PSY 111H or permission of department chair. **Crosslisted:** Also offered as PSY 211H; credit is not given for both PSY 211 and PSY 211H. **Note:** Typically offered at MC, AM, GB, and OL; all terms.

PSY 211H - Developmental Psychology - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Social & Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Examine current research and principles and theories of human growth and development. Provides an overview of the development of thinking, language, personality, motor behavior and social behavior from infancy through maturity. **Prereq:** Eligibility for Honors courses and PSY 111 or PSY 111H or permission of department chair. **Crosslisted:** Also offered as PSY 211; credit is not given for both PSY 211H and PSY 211. **Note:** Typically offered at MC, AM, and OL; fall, spring, and summer terms.

PSY 212 - Personality Psychology

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Study models of the personality in psychological science, including trait, humanistic, and learning models of personality. Learn how personality is measured and how personality is related to life outcomes such as health and relationship quality. **Prereq:** PSY 111 or permission of department chair. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

PSY 214 - Abnormal Psychology

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Learn about mental disorders, including an examination of causes, symptoms, treatment and management. Study anxiety disorders, mood disorders, personality disorders and schizophrenia. Explore problems in the field of abnormal psychology and discuss current attempts to solve them. **Prereq:** PSY 111 or PSY 111H or permission of department chair. **Crosslisted:** Also offered as PSY 214H; credit is not given for both PSY 214 and PSY 214H. **Note:** Typically offered at MC, AM, GB, and OL; all terms.

PSY 214H - Abnormal Psychology - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Social & Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Learn about mental disorders, including an examination of causes, symptoms, treatment and management. Study anxiety disorders, mood disorders, personality disorders and schizophrenia. Explore problems in the field of abnormal psychology and discuss current attempts to solve them. **Prereq:** Eligibility for Honors courses and PSY 111 or PSY 111H or permission of department chair. **Crosslisted:** Also offered as PSY 214; credit is not given for both PSY 214H and PSY 214. **Note:** Typically offered at MC and OL; fall, spring, and summer terms.

PSY 215 - Psychology of Relationships

3 credit hours - Three hours weekly; one term.

Psychological view of interpersonal relationships including interpersonal influence and leadership, close relationships and friendships, psychology of the sexes, love and intimacy and relationships at the workplace. Includes different perspectives and theories of interpersonal relationships and communication. **Prereq:** PSY 111 or permission of department chair. **Crosslisted:** Also offered as GSS 215; credit is not given for both PSY 215 and GSS 215. **Note:** Typically offered at MC and OL; spring term.

PSY 216 - Human Sexuality

3 credit hours - Three hours weekly; one term.

Learn current information concerning biological, psychological and sociological aspects of human sexual functioning and related concerns. **Prereq:** PSY 111 or PSY111H or permission of department chair. **Crosslisted:** Also offered as

PSY 216H/GSS 216/GSS 216H. Note: Credit is not given for PSY/GSS 216H and PSY/GSS 216. Typically offered at MC and OL; fall, spring, and summer terms.

PSY 216H - Human Sexuality - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. Learn current information concerning biological, psychological and sociological aspects of human sexual functioning and related concerns. **Prereq:** *Eligibility for honors courses; PSY 111 or PSY 111H or permission of department chair.* **Crosslisted:** *Also offered as PSY 216/GSS 216/GSS 216H. Note: Credit is not given for PSY 216H and also GSS 216/GSS 216H.*

PSY 221 - Psychology of Men

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Examines the factors that influence male behavior and masculine development. Topics include lifespan development, fathering, men's health, violence, education and relationships with emphasis on current psychological theories and research. **Prereq:** *PSY 111 or permission of department chair.*

Crosslisted: *Also offered as GSS 221; credit is not given for both PSY 221 and GSS 221. Note: Typically offered at MC; fall and spring terms.*

PSY 222 - Psychology of Women

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Cover female development from childhood and adolescence through adulthood and old age. Study gender differences and stereotypes, sexuality, love relationships and violence against women. Develop a theoretical and practical understanding of the psychology of women. **Crosslisted:** *Also offered as GSS 222; credit is not given for both PSY 222 and GSS 222. Note: Typically offered at MC and OL; fall, spring, and summer terms.*

PSY 223 - Social Psychology

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Examine the theoretical orientations and research on social perception, impression management, interpersonal relations, attitude change, conformity and leadership. **Prereq:** *PSY 111 or PSY 111H or permission of department chair. Note: Typically offered at MC and OL; fall, spring, and summer terms.*

PSY 224 - Multicultural Psychology

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Examine the role of culture in the psychological development of individuals and groups. Explore topics such as privilege, sexuality and gender, abnormal psychology, motivation, development, violence and social interaction. **Prereq:** *PSY 111 or PSY 111H or permission of department chair. Note: Typically offered at MC, AM, and OL; fall and spring terms.*

PSY 250 - Statistics in Social and Behavioral Sciences

3 credit hours - Three hours weekly; one term.

Study basic statistics used in social and behavioral sciences. Covers standard topics in parametric statistics through a two-way analysis of variance. Also covers correlation, linear regression and non-parametric statistics. Meets the statistical requirement for most upper-level programs at four-year institutions in the area. **Prereq:** *MAT 135 or MAT 137 and either PSY 111 or SOC 111. Crosslisted:* *Also offered as SOC 250; credit is not given for both PSY 250 and SOC 250. Note: Typically offered OL; spring term.*

PSY 280-299 - Special Topics in Psychology

-

Focuses on topics of psychological significance. Uses diverse psychological perspectives to provide theoretical, methodological and/or practical frameworks for a particular topic of interest. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Public Health Professions

PBH 101 - Introduction to Public Health

3 credit hours - Three hours weekly; one term.

Gain an overview of the principles of population health. Learn what determines disease and disability, how evidence is used to quantify the burden of disease, and how health professionals, the public health system and governmental structures contribute to the development of strategies for protecting health and reducing disease and disability. **Prereq:** *Eligibility for ENG 101/ENG 101A.*

PBH 102 - Introduction to Epidemiology

3 credit hours - Three hours weekly; one term.

Gain introductory background to the concepts that embody epidemiology and learn how health data is gathered, analyzed and applied to understanding health issues, and learn methods to measure outcomes. Apply basic skills in quantifying health variables and epidemiological applications. **Prereq:** *MAT 135 and eligibility for ENG 101/ENG 101A.*

PBH 105 - Essentials of Health Behavior

3 credit hours - Three hours weekly; one term.

Learn social and behavioral theories that guide understanding of health related behavior from the foundations of our health promotion and prevention efforts. Explore ways in which these theories and approaches are used in applied health promotion efforts. **Prereq:** Eligibility for ENG 101/ENG 101A.

PBH 201 - Global Health

3 credit hours - Three hours weekly; one term.

Gain an introductory background to the concepts that embody global health. Learn the principles and goals of global health, apply knowledge of health determinants and epidemiologic trends, discuss the impact of economics while exploring ethical issues related to human rights and barriers to health. **Prereq:** Eligibility for ENG 101/ENG 101A.

Prereq. or Coreq.: MAT 135.

PBH 202 - Emerging Public Health Issues

3 credit hours - Three hours weekly; one term.

Learn the historical context of the Healthy People initiatives and explore the data and process that was used to define the current objectives that will direct public health policy for the next decade. **Prereq:** PBH 101.

PBH 203 - Health Education Promotion

3 credit hours - Three hours weekly; one term.

Gain an introduction to the profession of health education, including historical overview, terminology and discussions regarding locations and agencies where health education theory is being practiced. Focus on the potential impact of healthcare reform and how prevention research and health promotion will be integrated into the future of the US and global healthcare systems. **Prereq:** PBH 101, PBH 102, PBH 105 or permission of the department chair. **Note:** This course has a service learning requirement.

PBH 280-299 - Special Topics in Public Health

-
Focus on topics of current interest in health, health education, and health management, including courses designed to meet expressed needs and interest within the community. Also for current graduates requiring additional course content to qualify for transfer credit, credit by examination, or who wish to update knowledge and skills. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Prereq: Will vary depending on course offering.

Radiologic Technology

RAD 101 - Introduction to Radiography

2 credit hours - 15 hours of lecture and 35 hours of college laboratory; four-week term.

Orientation to radiography and the health care system. Includes basic medical terminology, medical and legal ethics, history of radiography, infection control and radiation protection. Supervised instruction in the lab includes body mechanics, universal precautions, vital signs, medical emergencies and management of the patient with special needs. Lab fee \$250. **Prereq:** Completion of ENG 101/ENG 101A and ENG 102, MAT 137, SOC 111, BIO 231-BIO 232 or BIO 233-BIO 234, COM 111 or COM 116 and permission of radiologic technology department chair.

RAD 111 - Radiographic Procedures 1

3 credit hours - Two hours of lecture and three hours of college laboratory weekly; one term.

Continues concepts of medical terminology, ethics, history and techniques necessary to produce radiographs. Includes appropriate patient care procedures, basic exposure, positioning techniques, principles of equipment use and radiation protection. Lab fee \$250. **Prereq:** RAD 101. **Coreq(s):** RAD 112.

RAD 112 - Clinical Radiography 1

5 credit hours - 15 hours of clinical laboratory weekly; one term.

Supervised use of energized equipment in the college laboratory and clinical laboratory centers to produce quality radiographic images of upper and lower extremities, chest and abdomen. Clinical fee \$175. **Prereq:** RAD 101.

Coreq(s): RAD 111.

RAD 121 - Radiographic Procedures 2

3 credit hours - Two hours of lecture and three hours of college laboratory weekly; one term.

Continued study of radiographic procedures in greater depth with the addition of radiographic examinations focusing on the vertebral column, thoracic cage, pelvic girdle, skull and body systems requiring the administration of contrast materials. Lab fee \$250. **Prereq:** RAD 111 and RAD 112 with grades of C or better. **Coreq(s):** RAD 122 and RAD 123.

RAD 122 - Clinical Radiography 2

5 credit hours - 15 hours of clinical laboratory weekly; one term.

Companion course to Radiographic Procedures 2 (RAD 121). Students take assigned clinical rotations in clinical laboratory centers and use energized equipment under supervision to develop competency in positioning, producing and processing radiographic images. Clinical fee \$175. **Prereq:** RAD 111 and RAD 112 with grades of C or better.

Coreq(s): RAD 121 and RAD 123.

RAD 123 - Imaging Equipment Maintenance and Operation

3 credit hours - Three hours of lecture weekly; one term.

Introduces X-ray physics, circuitry and all types of radiographic equipment. X-ray production, interaction of X-rays

with matter, beam characteristics, image intensification and radiographic accessories are covered in detail. A review of image quality and the evaluation of radiographic equipment and accessories is emphasized. **Prereq:** RAD 111 and RAD 112 with grades of C or better. **Coreq(s):** RAD 121 and RAD 122.

RAD 211 - Radiographic Procedures 3

1 credit hour - One hour of lecture weekly; one term.

Continues study of more advanced radiographic procedures with the addition of special procedures and radiographic imaging. Studies include venography, myelography, arthrography, atypical orthopedic studies, and other special procedures. Corollary topics focus on anatomy, special technique, positioning, equipment image evaluation, quality assurance activities and computed tomography. **Prereq:** RAD 121, RAD 122 and RAD 123. **Coreq(s):** RAD 212.

RAD 212 - Clinical Radiography 3

6 credit hours - 270 clinical hours; one term.

Gain additional experience in routine radiographic procedures while developing skills in more advanced procedures such as specialized contrast procedures and atypical orthopedic procedures. Study the theory and applications on advanced patient management techniques that include ECG analysis, vital signs, oxygen and venipuncture skills to enhance the student radiographers' patient care management skills in the clinical setting. Clinical fee \$175. **Prereq:** RAD 121, RAD 122 and RAD 123 with grades of C or better. **Coreq(s):** RAD 211.

RAD 231 - Radiographic Procedures 4

3 credit hours - Two hours of lecture and three hours of college laboratory weekly; one term.

Study of computed tomography, digital radiography, ultrasonography, magnetic resonance imaging, interventional radiography and computer applications in radiology. Includes study of pathologic disorders and their respective impact on radiography. Lab fee \$250. **Prereq:** RAD 211 and RAD 212 with grades of C or better. **Coreq(s):** RAD 232.

RAD 232 - Clinical Radiography 4

6 credit hours - 24 hours of clinical laboratory weekly; one term.

Companion course to Radiographic Procedures 4 (RAD 231). A clinical practicum enhances the knowledge and skill acquired in previous radiography courses. Students also learn more complicated special procedures performed on central nervous, vascular and other body systems using ultrasound and computerized tomography. Clinical fee \$175. **Prereq:** RAD 211 and RAD 212 with grades of C or better. **Coreq(s):** RAD 231.

RAD 251 - Radiation Biology and Protection

3 credit hours - Three hours of lecture weekly; one term.

Presents principles of cell radiation and the responsibility of the radiographer to protect patients, personnel and the public from the effects of radiation. Additional topics include calculations of permissible radiation dosage and the effect of federal/state laws and regulations on radiation protection. Emphasis will also be placed on preparing students for the national certification examination. **Prereq:** RAD 231 and RAD 232 with grades of C or better. **Coreq(s):** RAD 252.

RAD 252 - Clinical Radiography 5

6 credit hours - 24 hours of clinical laboratory weekly; one term.

An advanced clinical practicum provides supervised experience in a clinical agency site. Comprehensive application of skills taught in all preceding courses preparatory to entering the field for radiography. Clinical fee \$175. **Prereq:** RAD 231 and RAD 232 with grades of C or better. **Coreq(s):** RAD 251.

RAD 280-299 - Special Topics in Radiologic Technology

-

For students seeking readmission to the radiologic technology program or transfer from an accredited program. If a review of course outlines from transfer courses identifies omissions in content, students will be required to take from one to eight credits in this course. Courses may be pursued by practicing radiologic technologists who wish to update theory. Courses focus on advanced levels of care or topics of interest. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings. Lab fee \$0-50. **Prereq:** *Permission of radiologic technology department chair.*

Reading and Writing for Success

RWS 300 - Reading and Writing for Success

12 equivalent credit hours - Twelve hours weekly, one term.

Expand basic vocabulary, develop basic sentence and paragraph writing strategies and build reading comprehension through text, class and online activities. Intensive instruction in reading and writing skills with individualized learning plans. This course is offered at no cost to Anne Arundel County residents. Placement scores determine eligibility.

Sociology

SOC 102 - Introduction to Masculinity Studies

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Explore issues in the lives of American men. Investigates the interdisciplinary field of masculinity studies by examining contemporary theories of masculinity, changes in the definitions of masculinity in different periods of American history, the sociology

and psychology of men's experiences, and gender and sexuality as organizing features of men's lives. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as AMS 102 and GSS 102; credit is given for only one of the following: AMS 102, GSS 102 or SOC 102. **Note:** Typically offered OL; fall and spring terms.

SOC 105 - Exploring the Future

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Investigate the future in a changing world. Using tools and perspectives across fields of study and cultures, students expand foresight and build the future. Acquire an appreciation for the complexity of our global society and its diversity. **Crosslisted:** Also offered as BPA 105; credit is not given for SOC 105 and BPA 105. **Note:** Typically offered at MC and OL; all terms.

SOC 111 - Introduction to Sociology

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Learn sociological principles and perspectives as a way of understanding everyday social life. Study meanings and functions of various roles in historical and contemporary societies. Evaluate causes, consequences and comparisons of social hierarchies. Also offered as an honors course, SOC 111H. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as SOC 111H; credit is not given for both SOC 111 and SOC 111H. **Note:** Typically offered at MC, AM, GB, and OL; all terms.

SOC 111H - Introduction to Sociology - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Social & Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Learn sociological principles and perspectives as a way of understanding everyday social life. Study meanings and functions of various roles in historical and contemporary societies. Evaluate causes, consequences and comparisons of social hierarchies. **Prereq:** Eligibility for Honors courses and ENG 101/ENG 101A. **Crosslisted:** Also offered as SOC 111; credit is not given for both SOC 111H and SOC 111. **Note:** Complete and present an honors capstone research project that extends beyond the classroom. Typically offered at MC, AM, GB, and OL; all terms.

SOC 122 - Social Problems

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. Identify and analyze problems in communities and in society. Employ sociological skills and perspectives to formulate creative solutions to relevant problems. Social problems explored may vary from class to class depending on historical and contemporary relevance. **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered OL; fall, spring, and summer terms.

SOC 124 - Substance Abuse in America

3 credit hours - Three hours weekly; one term.

Examine the impact of drugs and alcohol on American society. Review the history of drug and alcohol use and focus on social impact and societal response. Study individual, community and political efforts to control, regulate and treat drug abuse problems. Discuss addiction theories and effects of commonly abused drugs. Approved by the Office of Education and Training for Addictions Services (OETAS). **Prereq:** Eligibility for ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall and spring terms.

SOC 132 - Juvenile Delinquency

3 credit hours - Three hours weekly; one term.

Analyze how society labels, processes, controls and treats juvenile offenders. Review theories of causality; methods of classification; rates, types and trends of juvenile delinquency; and evolving legal approaches. Discuss special areas including violence, drug use and gang behavior. **Prereq:** SOC 111 or PSY 111 and eligibility for ENG 101 or ENG 101A. **Crosslisted:** Also offered as CJS 132; credit will be not given for both SOC 132 and CJS 132. **Note:** Typically offered at MC and OL; fall and spring terms.

SOC 150 - Introduction to Aging Studies

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Examine the myths, demographics, psychosocial perspectives and biomedical aspects of growing old in America. Discuss issues impacting older persons including economics, politics, religion, leisure, social/living environment, intimacy and sexuality, health care and death and dying. **Prereq:** Eligibility for ENG 101/ENG 101A. **Crosslisted:** Also offered as HUS 150; credit is not given for both SOC 150 and HUS 150. **Note:** Typically offered at MC and OL; fall and spring terms.

SOC 210 - Sociology of Deviance

3 credit hours - Three hours weekly; one term.

Determine the role, function and meaning of deviation in society. Focus on the theories of deviance, regulation of behavior, deviant subcultures and the management of deviant identity. Topics include deviant lifestyles, violent groups and criminals, human sexuality, hustlers, drug users and others who might be viewed as outsiders by the eye of the beholder. **Prereq:** SOC 111. **Note:** Typically offered at MC and OL; fall and spring terms.

SOC 212 - Introduction to Lesbian, Gay, Bisexual and Transgender Studies

3 credit hours - Three hours weekly; one term.

This course meets the Social and Behavioral Sciences General Education Requirement. This course meets the Diversity Requirement. Examine the diversity of lesbian, gay, bisexual and transgender (LGBT) behaviors, orientations, identities, communities, and issues from a trans-historical, cross-cultural and interdisciplinary perspective with special emphasis on LGBT culture in the United States. Study the history of human sexuality and gender identity/expression; cultural and social constructions of sexuality and gender; representations of LGBT experience in textual and visual media; legal rights and restrictions; current events and socio-political issues of current interest; methods of queer theory/queer studies; and advocacy, activism and change. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as AMS 212 and GSS 212; credit is given for only one of the following: AMS 212, GSS 212 or SOC 212.* **Note:** *Typically offered at MC and OL; winter and spring terms.*

SOC 213 - Marriage and the Family

3 credit hours - Three hours weekly; one term.

Survey of the dynamics of life in families. A view of the family as a changing social unit and implications of these changes for the individual. Reviews social forces that influence mating and dating, marriage and divorce, and deals with topics of love, sexuality, parenting, aging and death. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as GSS 213; credit is not given for both SOC 213 and GSS 213.* **Note:** *Typically offered OL; all terms.*

SOC 220 - Gender and Culture: Gender Roles in Cross-Cultural Perspective

3 credit hours - Three hours weekly; one term.

Examination of various cultures to understand how gender and gender roles are constructed and how they structure social relationships. Course presents theoretical perspectives and empirical evidence from a variety of cultures, including pre-industrial, industrial, post-industrial societies and developing countries. **Prereq:** *GSS 101, SOC 111 or ANT 121 /SOC 121.* **Crosslisted:** *Also offered as GSS 220; credit is not given for both SOC 220 and GSS 220.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

SOC 224 - Criminology

3 credit hours - Three hours weekly; one term.

Study the cultural and historical influence of crime. Explore topics relating to the definition and meaning of crime and criminality; problems of official data; theoretic approach to causes of crime; and social and legal aspects of the criminal justice system with emphasis on roles of police, lawyers, judges, public and victims. Examine evolving theories and approaches to punishment, ranging from probation to capital punishment. **Prereq:** *SOC 111 or PSY 111 and eligibility for ENG 101 or ENG 101A.* **Crosslisted:** *Also offered as CJS 224; credit will not be given for both SOC 224 and CJS 224.* **Note:** *Typically offered at MC and OL; all terms.*

SOC 225 - Cultural Representations of Disability, Gender and Sexuality in the U.S.

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Explore the representations of disability in American popular culture. Analyze how gender and sexuality affect the representations of disability. Examine the connections between representations of oppressed groups in popular culture and the unequal distribution of economic, political and social power in the U.S. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Crosslisted:** *Also offered as AMS 225 and GSS 225; credit is given for only one of the following: AMS 225, GSS 225 or SOC 225.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

SOC 230 - Introduction to Applied Sociology

3 credit hours - Three hours weekly; one term.

This hands-on introduction uses sociology concepts, skills and tools to actively analyze and engage problems facing a variety of clients and organizations including business, government, religion and other community agencies and groups. Employ sociological perspective and tools to identify, investigate and actively seek solutions to issues of structure, process and social change. **Prereq:** *SOC 111 or permission of instructor.*

SOC 250 - Statistics in Social and Behavioral Sciences

3 credit hours - Three hours weekly; one term.

Study basic statistics used in social and behavioral sciences. Covers standard topics in parametric statistics through a two-way analysis of variance. Also covers correlation, linear regression and nonparametric statistics. Meets the statistical requirement for most upper-level programs at four-year institutions in the area. **Prereq:** *MAT 135 or MAT 137 and either PSY 111 or SOC 111.* **Crosslisted:** *Also offered as PSY 250; credit is not given for both SOC 250 and PSY 250.* **Note:** *Typically offered OL; fall and spring terms.*

SOC 265 - Social Research Methods

3 credit hours - Three hours weekly; one term.

Explore research methods common to all social and behavioral sciences used in business, government, medicine and education. Learn to write questionnaires, select a sample, employ basic experimental design while reviewing the association between research and theory. Also offered as an honors course SOC 265H. **Prereq:** *Eligibility for ENG 101/ENG 101A.* **Note:** *Typically offered OL; fall and spring terms.*

SOC 275 - Practicum in Sociology

3 credit hours - One hour of seminar and 10 hours of related work weekly; one term.

Continue to learn, through greater levels of responsibility and academic assignments, how classroom principles and concepts in sociology are applied on the job. The continued work experience will result in further integration and

reinforcement of academic learning under coordinated job experiences. **Prereq:** SOC 111 or permission of department chair. **Note:** Typically offered at MC and OL; fall and spring terms.

SOC 276 - Practicum in Applied Social Research

3 credit hours - One hour of seminar and 10-15 hours of related work weekly; one term.

Selected students continue to learn and apply, at increased levels of competency, the principles learned in SOC 265, Social Research Methods. Participate in a variety of tasks which may include exposure to applied research problems and written and oral presentations. The work experience requires creation of an applied research project in collaboration with an employer. **Prereq:** SOC 265 and approval of department chair. **Note:** Typically offered at MC and OL; fall and spring terms.

SOC 280-299 - Special Topics in Sociology

-

Focuses on topics of social relevance. Uses a sociological perspective to provide a theoretical and methodological framework for a particular topic of interest. Allows a merger of students' interests and the disciplinary strengths of faculty members. A maximum of eight credit hours earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Refer to current schedule of classes for term offerings.

Sport Studies

SPT 123 - Sports in America

3 credit hours - Three hours weekly; one term.

Examine the role, function and significance of sports and their impact on the hearts and minds of Americans. Research topics such as myth and legends, rituals and ceremonies, women and sports, amateurs and professionals, the business of sports and sports as a secular religion.

SPT 200 - Sociology of Sports

3 credit hours - Three hours weekly; one term.

Examine the intersection of sports within broader society, assessing the implication of sports within the culture, its impact on economic inequality and social mobility, and its overall influence on the media, politics, economics, religion, race, gender, age and sexual orientation. Address sports as a modern social science in need of academic inquiry.

Prereq: Eligibility for ENG 101/ENG 101A.

SPT 210 - Sports Geography

3 credit hours - Three hours of lecture weekly; one term.

Apply a geographic perspective to worldwide sports, with an emphasis on the United States. Analyze the spatial distribution and interaction of sports. Assess the impact of regional differences, economics and geography along with fan and player demographics. **Prereq:** Eligibility for ENG 101/ENG 101A.

SPT 213 - Sports Philosophy

3 credit hours - Three hours weekly; one term.

Examine, within a psychological, sociological and historical context, the origins of values within a sports context. Learn ethical theories such as rule utilitarianism and Kantian moral theory, using that framework as a means by which to assess such issues as sports identification, exploitation of athletes, gender, race and class issues in sports and sports violence. **Prereq:** Eligibility for ENG 101/ENG 101A.

SPT 232 - Sport Psychology

3 credit hours - Three hours weekly; one term.

Explore the field of sport and exercise psychology. Topics include the psychological aspects of competitive and recreational sports with emphasis on current psychological theories and field research. **Prereq:** PSY 111 or permission of department chair.

SPT 244 - Sports and Diversity

3 credit hours - Three hours weekly; one term.

Explore the historical and modern-day status of diversity in sports. Assess opportunities available in sports for diverse groups and potential issues that occur during actual involvement. Discuss race, ethnicity, gender, sexual orientation and disability as they relate to sports.

STEM: Science, Technology, Engineering, Mathematics

STM 213 - Professional Skills for STEM

1 credit hour - Ten hours lecture and five hours directed lab; one term.

Formerly STM 103 - Core Skills for STEM 3. Develop or refresh skills and knowledge required for technical positions within Science, Technology, Engineering, Mathematics (STEM) fields. Focus upon professionalism and critical thinking skills essential to academic and workplace success. **Prereq:** Successful completion of 12 credit hours of MEC, EET or CTS courses or permission of engineering department chair. **Note:** Typically offered OL; fall, spring, summer terms.

Surgical Technology

SGT 100 - Principles of Surgical Technology 1

4 credit hours - 45 lecture hours and 30 lab hours; one term.

Explore concepts in pharmacology and pathophysiology. Demonstrate basic pre-operative procedures relevant to the surgical setting. Lab fee \$60. **Prereq:** *Acceptance into the Surgical Technology Program*. **Coreq(s):** *BIO 223*.

SGT 102 - Principles of Surgical Technology 2

6 credit hours - 45 hours of lecture and 90 hours of laboratory; one term.

Explore and discuss the role of the surgical technologist. Demonstrate the skills necessary to perform their duties as part of the surgical team. Lab fee \$500. **Prereq:** *SGT 100 with a grade of C or better*.

SGT 108 - Surgical Procedures 1

4 credit hours - 60 hours of lecture per term.

Learn the basic format and procedures used in the operating room. Includes a step-by-step process to provide the student with a broad knowledge base and the skills needed to perform as a Surgical Technologist. **Prereq:** *SGT 100 and SGT 102 with a grade of C or better*. **Coreq(s):** *SGT 200*.

SGT 200 - Surgical Technology Clinical 1

7 credit hours - 260 hours of clinical laboratory per term.

Formerly *SGT 200 Surgical Technology Practicum 1*. Learn the basic format and procedures used in the operating room. Includes step by step experience to provide the student with broad knowledge base and to perform the skills needed to perform as a surgical technologist. Lab fee \$300. Clinical fee \$200. **Prereq:** *SGT 100, and SGT 102 with a grade of C or better*. **Coreq(s):** *SGT 108*.

SGT 201 - Surgical Technology Clinical

5 credit hours - 240 hours of clinical laboratory per term.

Perform procedures with the surgical team in an operating room environment using a preceptor-based model. Apply the theories and skills learned in previous surgical technology courses to the care of the surgical patient and begin to develop a portfolio of surgical procedures across the specialties. Lab fee \$200. **Prereq:** *SGT 100 and SGT 102 with grades of C or better*. **Coreq(s):** *SGT 108*.

SGT 202 - Surgical Procedures 2

4 credit hours - 60 hours of lecture.

Expand skills and knowledge related to procedures in the operating room. **Prereq:** *SGT 108 and SGT 200 with a grade of C or better*.

SGT 205 - Surgical Technology Clinical 2

5 credit hours - 188 hours of clinical laboratory per term; 8 weeks.

Formerly *SGT 205 Practicum 2 for Surgical Technology*. Apply the theories and content learned in previous surgical technology courses. Continue to build on the knowledge base and the skills needed to perform as a surgical technologist in all areas of the surgical setting. Lab fee \$300. Clinical fee \$150. **Prereq:** *SGT 108 and SGT 200 with a grade of C or better*. **Coreq(s):** *SGT 202*.

SGT 206 - Surgical Technology Clinical 3

5 credit hours - 188 hours of clinical laboratory per term; 8 weeks.

Formerly *SGT 206 Practicum 3 for Surgical Technology*. Continuation of SGT 205. Apply the theories and content learned in previous surgical technology courses. Continue to build on the knowledge base and the skills needed to perform as a surgical technologist in all areas of the surgical setting. Lab fee \$300. Clinical fee \$150. **Prereq:** *SGT 205 with a grade of C or better*. **Coreq(s):** *SGT 202 and SGT 209*.

SGT 208 - Perspectives of Surgical Technology

2 credits - 30 hours of lecture; eight weeks

Prepare for entry into the workforce as surgical technologists. Prepare for and take the national Certified Surgical Technologist (CST) exam. **Prereq:** *SGT 108 and SGT 201 with grades of C or better*. **Coreq(s):** *SGT 202 and SGT 206*.

SGT 209 - Surgical Technology Perspectives

1 credit hour - 15 hours of lecture; eight weeks.

Analyze current issues and trends that impact the profession of surgical technology. **Prereq:** *SGT 108 and SGT 200*.

Theater Arts

THA 111 - Introduction to Theater

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Explore various forms of modern theater in Western culture from expansive Broadway-style productions to low-budget, high-demand local community theater. Identify the fundamental traits of theatrical performance, including those of serious drama, comedy, musical theater, and other genres. Explore professional acting, directing, design, and other theatrical careers by viewing and discussing a combination of live and prerecorded performances. **Note:** *Students must attend two live performances outside class time. Typically offered at MC and OL; fall, spring, and summer terms.*

THA 115 - Introduction to Children's Theater

3 credit hours - Three hours weekly; one term.

Introduction to the special world of children's theater where adults perform plays for children. Explore various performance and production techniques. Opportunity to participate in presentation of a play for an audience of children. Whenever possible, field trips take students to see examples of children's theater.

THA 116 - Movement for Actors

3 credit hours - Three hours weekly; one term.

Practical study of movement fundamentals, body awareness, physical intention and nonverbal communication related to the beginning acting process. Principles of the use of time, weight, space and energy and their application are explored along with an introduction to somatics, Laban effort/shape theory and contact improvisation. This course is cross-listed and identical in both Dance and Theater. **Prereq:** THA 132 or permission of department chair or coordinator of dance. **Crosslisted:** Also offered as DAN 116; credit is not given for both THA 116 and DAN 116. **Note:** Typically offered at MC; spring term.

THA 121 - Stagecraft

3 credit hours - Two hours of lecture and two hours of laboratory weekly; one term.

Explore the aspects of backstage theatrical work in a lecture/laboratory setting. Exercise modern theatrical construction and electrical standards. Implement operational procedures, protocols, and techniques for running theatrical production crews in scenery, lighting, audio, projections, props, and paints. Complete individual execution assignments from each of the various backstage disciplines. Engage in group research and presentation assignments on traditional theatrical conventions. Lab fee \$60. **Note:** Typically offered at MC; fall term.

THA 122 - Introduction to Stage Design and Lighting

3 credit hours - Three hours weekly; one term.

Study of basic drawing and drafting techniques needed to create stage designs and an introduction to design of stage scenery. Students also study stage lighting, including kinds of stage fixtures, use of color and planning of stage lighting. Stagecraft (THA 121) is not a prerequisite for this course. **Note:** Typically offered at MC; spring term.

THA 125 - Script Analysis

3 credit hours - Three hours weekly; one term.

Gain an introduction students to the skills and techniques required to read and analyze a play text. Focuses on the critical information that the text provides to inform the work of directors, designers, performers and technicians. This course provides a foundation for further study of the art form. **Prereq:** ENG 101/ENG 101A. **Note:** Typically offered at MC and OL; fall term.

THA 132 - Acting 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Study the acting process through exercises, theatre games and performance. Explore and gain proficiency in the Stanislavski method of acting. Learn character analysis and rehearsal techniques in preparation for required in-class presentation of short scenes from modern play scripts. Lab fee \$15. **Note:** Typically offered at MC; fall and spring terms.

THA 133 - Acting 2

3 credit hours - Three hours weekly; one term.

Build upon the knowledge and skills acquired in THA 132; progress to advanced scene study. Prepare character analysis and present multiple monologues and scenes from modern and experimental plays in order to gain increased actor control. Encounter and investigate Shakespearean technique for the actor. Lab fee \$15. **Prereq:** THA 132 or permission of department chair. **Note:** THA 133 may be repeated once for credit with permission of department chair and will appear on student records as THA 134. (Repeat credit may not transfer.) Typically offered at MC; fall and spring terms.

THA 134 - Acting 3

3 credit hours - Three hours weekly; one term.

Build upon the knowledge and skills acquired in THA 132; progress to advanced scene study. Prepare character analysis and present multiple monologues and scenes from modern and experimental plays in order to gain increased actor control. Encounter and investigate Shakespearean technique for the actor. Lab fee \$15. **Prereq:** THA 132 or permission of department chair. **Note:** THA 133 may be repeated once for credit with permission of department chair and will appear on student records as THA 134. (Repeat credit may not transfer.) Typically offered at MC; fall and spring terms.

THA 135 - Applied Theater

1 credit hour - One hour of individual instruction weekly; one term.

Receive individualized instruction in theater for either the actor, designer or technician. Course may be repeated for a total of 3 credits. Lab fee \$100. **Prereq:** THA 121 or THA 122 or THA 132 or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

THA 180 - Play Production

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Participate on one of the crews of a fully realized theatrical production and explore a non-profit theatre company's production process. Ascertain a production's needs, generate a plan to complete your crew's requirements, and operate the technical aspects of the performances in a safe, feasible, and punctual time line prior to the opening performance. The course may be repeated up to three times with different content. (Repeat credits may not transfer.) Permission of department chair needed to repeat this course. Repeated course will appear on student records as THA 181, THA 182 and THA 183 and will not be considered a general education humanities course. **Note:** Industry and four-year university standards require students to work on

different tasks such as management, scenery, lighting, sound, costumes, projections, and other potential professional disciplines. In accordance with those standards, each semester's production will focus on a variety of these tasks. Students must commit to time outside of class for rehearsals, build calls, production meetings, and performances outside of regular class time. Students are encouraged to meet with the instructor prior to enrolling to identify scheduling conflicts. Typically offered at MC; fall and spring terms.

THA 181 - Play Production

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Participate on one of the crews of a fully realized theatrical production and explore a non-profit theatre company's production process. Ascertain a production's needs, generate a plan to complete your crew's requirements, and operate the technical aspects of the performances in a safe, feasible, and punctual time line prior to the opening performance. Course may be repeated up to three times with different content (repeat credits may not transfer). Permission of department chair needed to repeat this course. Repeated course will appear on student records as THA 181, THA 182 and THA 183 and will not be considered a general education humanities course. **Note:** *Industry and four-year university standards require students to work on different tasks such as management, scenery, lighting, sound, costumes, projections, and other potential professional disciplines. In accordance with those standards, each semester's production will focus on a variety of these tasks.*

Students must commit to time outside of class for rehearsals, build calls, production meetings, and performances outside of regular class time. Students are encouraged to meet with the instructor prior to enrolling to identify scheduling conflicts. Typically offered at MC; fall and spring terms.

THA 182 - Play Production

3 credit hours - One hour of lecture and four hours of laboratory weekly; one term.

Participate on one of the crews of a fully realized theatrical production and explore a non-profit theatre company's production process. Ascertain a production's needs, generate a plan to complete your crew's requirements, and operate the technical aspects of the performances in a safe, feasible, and punctual time line prior to the opening performance. Course may be repeated up to three times with different content (repeat credits may not transfer). Permission of department chair needed to repeat this course. Repeated course will appear on student records as THA 181, THA 182 and THA 183 and will not be considered a general education humanities course. **Note:** *Industry and four-year university standards require students to work on different tasks such as management, scenery, lighting, sound, costumes, projections, and other potential professional disciplines. THA 185 - Children's Theater Ensemble

1 credit hour - Three hours weekly; one term.

Rehearsal and performance of dramatic literature aimed at youth audiences. Programs are prepared for both on and off-campus presentations. Students must audition or interview for slots in class during the first week of the term in which they desire to enroll. Course may be repeated a total of two credit hours.

THA 240 - Stage Makeup for Live Entertainment

3 credit hours - Three hours lecture weekly; one term.

Delve into the art of makeup for the stage by exploring the fundamental concepts of manipulating the contours of facial anatomy for live entertainment. Compare techniques for creating highlight and shadow, as well as various methods of modeling the face using a variety of 2D and 3D materials. Prepare new and exciting designs for characters born from the pages of a script, and execute those designs in custom-built makeup facilities, including historical figures, stylized characters, fantasy characters, animals, and characters of all ages. Lab fee \$100. **Note:** *Lab fee of \$100 covers the cost of a makeup starter kit, as well as other consumable course supplies.*

THA 260 - Theater Live and Alive in Great Britain

3 credit hours -

A travel-study course that provides first-hand experience in the British theatrical scene, including London commercial and fringe theaters, subsidized Royal National Theatre and the Royal Shakespeare Company and regional professional theater. An 18-day visit to England will include appropriate tours and seminars with theater professionals as well as theater tickets to performances in London, Stratford-on-Avon and Chichester. Lecture attendance, research paper, final exam and tour fee are required.

THA 280-299 - Special Topics in Theater

-

An in-depth examination of one aspect of theater or theatrical production. A maximum of eight credits earned from special topics courses may be used to satisfy degree requirements. Because special topics courses may present transfer problems, students should check with their transfer institution or the Anne Arundel Community College transfer coordinator before enrolling. Some special topics may have a course prerequisite and/or additional lab fees. Refer to the current schedule of classes for term offerings. Lab fees \$5-\$250.

Veterinary Science Technology

VST 111 - Introduction to Veterinary Science Technology

3 credit hours - Three hours weekly; one term.

Survey of basic practices and principles of veterinary science.

VST 115 - Animal Diseases

3 credit hours - Three hours weekly; one term.

Introduction to disease and the pathological state in animals. Major types of diseases are classified, and diseases that relate to each type of animal are outlined.

World Languages: American Sign Language

ASL 111 - American Sign Language 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Survey current systems of manual communications with an emphasis on American Sign Language. Focus on the manual alphabet, fingerspelling and vocabulary acquisition as well as on syntactical and grammatical structures that govern the language. Upon completion, students will have studied approximately 500 lexical sign items and be able to communicate in a rudimentary manner with deaf and hard-of-hearing children and adults. **Note:** Typically offered at MC; fall and spring terms.

ASL 112 - American Sign Language 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon vocabulary and sign skills acquired in American Sign Language 1. Provide videotaped sessions with feedback and fluency in the language. Become acquainted with some of the more complex grammatical structures in American Sign Language and increase vocabulary size to approximately 1,000 signs. **Prereq:** ASL 111 with a grade of C or better or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

ASL 113 - American Sign Language 3

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build on skills learned in American Sign Language 2, adding more complex ASL grammatical features and vocabulary, short stories, narratives and dialogues. Learn discourse skills including description of general surroundings, appropriate sequencing, temporal aspects and conditionals. Learn about the deaf community and deaf culture. **Prereq:** ASL 112 with a grade of C or better or permission of department chair. **Note:** Typically offered at MC; fall and spring terms.

ASL 114 - Fingerspelling and Numbers

3 credit hours - Three hours weekly; one term.

Develop expressive and receptive fingerspelling as well as usage of numbers in ASL. Use receptive skills focusing on whole words, phrase recognition, and identification of finger-spelled words in context. Develop speed, clarity, and fluency. Study number usage focusing on cardinal and ordinal systems, incorporating systems, and other independent classes of signs. **Prereq:** ASL 113 with a grade of C or better or permission of department. **Note:** May be taken concurrently with ASL 113 with permission of department chair.

ASL 120 - Introduction to the American Deaf Community

3 credit hours - Three hours weekly; one term.

This course meets the Diversity Requirement. Learn about deaf culture, history, heritage, American Sign Language and the deaf community in the United States and abroad. **Note:** Typically offered OL; fall and spring terms.

ASL 121 - Deaf Culture

3 credit hours - Three hours weekly; one term.

Discuss historical and contemporary perspectives of the American deaf culture using a socio-cultural model. Analyze evolving cultural definitions and discuss the intersection of American and deaf cultures. **Note:** Typically offered OL; fall and spring terms.

ASL 140 - Introduction to Interpreting

3 credit hours - Three hours weekly; one term.

Learn basic principles, practices and history of interpreting for the Deaf. Discuss the logistics and theories of

interpreting environments and settings, regulatory and legislative issues, resources, the RID Code of Professional Conduct tenets and certification exams. **Note:** *Typically offered OL; fall and spring terms.*

ASL 150 - Intralingual Interpreting

3 credit hours - Three hours weekly; one term.

Develop intralingual skills (English to English) in preparation for developing interlingual skills (English to ASL/ASL to English) by focusing on cognitive development in abstracting, summarizing, paraphrasing, memorizing and multi-tasking. Focus on semantics and restructuring that are suitable for ASL or English as the target language. **Prereq:** *ASL 114 and ASL 140 with a grade of C or better or permission of department chair.*

ASL 211 - American Sign Language 4

3 credit hours - Three hours weekly; one term.

Build upon the skills learned from ASL 113 American Sign Language 3, utilizing two to three role shifts, anecdotes, information sharing and rules explanation. Define and describe settings, and the function of objects, processes, and cause and effect. Discuss cultural norms and values of the deaf community. **Prereq:** *ASL 114 with a grade of C or better.* **Note:** *Students may enroll in ASL 114 and ASL 211 concurrently with permission of academic chair and completion of ASL 113 with a grade of C or better. Typically offered at MC; fall and spring terms.*

ASL 212 - American Sign Language 5

3 credit hours - Three hours weekly; one term.

Evaluate skills learned from American Sign Language 4 and utilize complex constructs, processes and settings. Construct dialogues about finances, health, multiple role shifts, longer stories and narratives, and hypotheticals. Examine cultural attitudes in the deaf community. **Prereq:** *ASL 211 with a grade of C or better or permission of department chair.*

ASL 213 - Comparative Linguistics: American Sign Language and English

3 credit hours - Three hours weekly; one term.

Explore the basic concepts of American Sign Language linguistics in phonology, morphology, syntax, semantics and discourse structures as compared to English. Develop sign variations as a result of gender, race, geography, social class and language acquisition. **Prereq:** *ASL 212 with a grade of C or better or permission of department chair.* **Note:** *Typically offered at MC; fall and spring terms.*

World Languages: Arabic

ARB 111 - Elementary Arabic 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Focuses on the fundamentals of the Modern Standard Arabic language including verb conjugation; writing Arabic script; basic sentence structure, grammar and the use of Arabic measures; basic vocabulary; past, present and future negation; use of prepositions. The course places equal emphasis on speaking, writing and reading Modern Standard Arabic; will place strong emphasis on pronunciation and fluency and will include a brief introduction to Arabic customs and culture. This course is not designed for persons who have experience with the Arabic language. **Note:** *Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

ARB 112 - Elementary Arabic 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Focuses on intermediate level Modern Standard Arabic vocabulary, translation, transcription, grammar and sentence structure. The course places equal emphasis on speaking, writing and reading and will place a strong emphasis on conversation, and the defining of vocabulary in context through the translation and discussion of Arabic newspaper articles, radio and television broadcasts and contemporary Arabic literature. **Prereq:** *ARB 111 or one year of high school Arabic or permission of department chair.* *Typically offered at MC and OL; fall and spring terms.* **Note:** *Not for native speakers.*

ARB 211 - Intermediate Arabic 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge acquired in ARB 112. Enhance understanding of basic pronunciation and grammar necessary for reading, writing and conversing in Arabic. **Prereq:** *ARB 112 or two years of high school Arabic or permission of department chair.* **Note:** *Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

ARB 212 - Intermediate Arabic 2

3 credit hours - Three hours of lecture weekly; one term.

Build upon knowledge acquired in ARB 211. Learn vocabulary and grammar for the purpose of reading, writing and discussing aspects of Arabic-speaking cultures. **Prereq:** *ARB 112 or three years of high school Arabic or permission of department chair.* **Note:** *Typically offered at MC and OL; fall and spring terms.*

World Languages: Chinese

CHI 111 - Elementary Chinese 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Introduction to spoken Mandarin Chinese and to the written Chinese language. Emphasis will be on spoken Chinese pronunciation and tones, mastery of Pinyin

romanization, elementary sentence structure and everyday vocabulary. Approximately 150 Chinese characters are covered. **Note:** *Not for native speakers.*

CHI 112 - Elementary Chinese 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Practice speaking Mandarin Chinese and reading the written Chinese language, building on skills gained in CHI 111. Master Pinyin romanization, the four tones, and a basic vocabulary. Identify and write approximately 320 Chinese characters. Read simple sentences composed of these characters. **Prereq:** *CHI 111 or one year of high school Chinese or permission of department chair.*

Note: *Not for native speakers.*

CHI 211 - Intermediate Chinese 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Study vocabulary and grammar to develop speaking, listening, reading and writing skills in Mandarin Chinese. Master tones and the recognition and writing of approximately 500 Chinese characters. Discuss Chinese culture and civilization. **Prereq:** *CHI 112 or two years of high school Chinese or permission of department chair.* **Note:** *Not for native speakers.*

World Languages: French

FRE 111 - Elementary French 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn basic pronunciation and grammar necessary for reading, writing and conversing in French. Not for those who have experience with the French language.

Crosslisted: *Also offered as FRE 111H; credit not given for both FRE 111 and FRE 111H.* **Note:** *Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

FRE 111H - Elementary French 1 - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Learn basic pronunciation and grammar necessary for reading, writing and conversing in French. Not for those who have experience with the French language. **Crosslisted:** *Also offered as FRE 111; credit not given for both FRE 111 and FRE 111H.* **Note:** *Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

FRE 112 - Elementary French 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in FRE 111 with emphasis on speaking, reading and writing. **Prereq:** *FRE 111 or one year of high school French or permission of department chair.* **Crosslisted:** *Also offered as FRE 112H; credit not given for both FRE 112 and FRE 112H.* **Note:** *Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

FRE 112H - Elementary French 2 - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in FRE 111 with emphasis on speaking, reading and writing. **Prereq:** *FRE 111 or one year of high school French or permission of department chair.* **Crosslisted:** *Also offered as FRE 112; credit not given for both FRE 112 and FRE 112H.* **Note:** *Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

FRE 121 - French Conversation

2 credit hours - Two hours weekly; one term.

Develops skill and practice with spoken French. Conducted entirely in French. For students who have some background in the language. May be repeated once on an audit basis. **Prereq:** *FRE 112 or two years of high school French or permission of department chair.* **Note:** *Not for native speakers.*

FRE 125 - French Composition

2 credit hours - Two hours weekly; one term.

Develops skill and practice with written French. Focuses on readings and writing assignments on aspects of French culture and contemporary life. For students who have some background in the language. **Prereq:** *FRE 111 or one year of high school French or permission of department chair.* **Note:** *Not for native speakers.*

FRE 211 - Intermediate French 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build vocabulary and grammar skills for the purpose of reading, writing, listening and speaking. Discuss aspects of French culture. **Prereq:** *FRE 112 or two years of high school French or permission of department chair.* **Crosslisted:** *Also offered as FRE 211H; credit not given for both FRE 211 and FRE 211H.* **Note:** *Not for native speakers. Typically offered at MC; fall and spring terms.*

FRE 211H - Intermediate French 1 – Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Build vocabulary and grammar skills for the purpose of reading, writing, listening and speaking. Discuss aspects of French culture.

Prereq: *FRE 112 or two years of high school French or permission of department chair.* **Crosslisted:** *Also offered as*

FRE 211; credit not given for both *FRE 211* and *FRE 211H*. **Note:** Not for native speakers. Typically offered at MC and OL; fall and spring terms.

FRE 212 - Intermediate French 2

3 credit hours - Three hours weekly; one term.

Master intermediate vocabulary and grammar structures. Read short poetry and short fiction in French. Discuss French and Francophone culture. **Prereq:** *FRE 211* or three years of high school French or permission of department chair.

Crosslisted: Also offered as *FRE 212H*; credit is not given for both *FRE 212* and *FRE 212H*. **Note:** Not for native speakers. Typically offered at MC and OL; fall and spring terms.

FRE 212H - Intermediate French 2 - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Master intermediate vocabulary and grammar structures. Read short poetry and short fiction in French. Discuss French and Francophone culture. **Prereq:** *FRE 211* or three years of high school French or permission of department chair.

Crosslisted: Also offered as *FRE 212*; credit not given for both *FRE 212* and *FRE 212H*. **Note:** Not for native speakers. Typically offered at MC and OL; fall and spring terms.

FRE 213 - Intermediate French Grammar Review and Composition

3 credit hours - Three hours weekly; one term.

Reviews grammatical usage of French, including present, past, imperfect, past perfect and future verb tenses, prepositions, articles, negation, interrogation, comparative and superlative forms of adjectives and adverbs, personal subject and object pronouns. Training in guided composition is a significant component in the course. **Prereq:** *FRE 212* or four years of high school French or permission of the department chair. **Note:** Not for native speakers.

FRE 221 - Intermediate French Conversation

3 credit hours - Three hours lecture weekly; one term.

Develop interpersonal communication, presentational speaking, and interpretive listening skills in French at the intermediate level. Enhance listening skills, pronunciation, and intonation. Discuss current events and popular culture in the Francophone world. Taught in French. **Prereq:** *FRE 212* or four years of high school French or permission of department chair. **Note:** Not for native speakers.

FRE 225 - Intermediate French Civilization and Culture 1

3 credits - Three credit hours weekly; one term.

3 credit hours - Three hours lecture weekly; one term.

Study the culture and civilization of German-speaking Europe from the Enlightenment to the early twentieth century. Develop reading, writing, speaking, and listening skills. Taught in German. **Prereq:** GER 212 or four years of high school German or permission of department chair. **Note:** Not for native speakers.

GER 226 - Modern German Civilization and Culture 2

3 Credit Hours - Three hours lecture weekly; one term

Study the culture and civilization of German-speaking Europe in the twentieth and twenty-first centuries. Develop reading, writing, speaking, and listening skills. Taught in German. **Note:** Not for native speakers.

World Languages: Greek

GRK 111 - Elementary Greek 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Develop vocabulary and grammar skills for reading and writing classical Greek. Learn about classical Greek culture and civilization.

GRK 112 - Elementary Greek 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in GRK 111. Read and translate short selections from a wide variety of Greek authors and the New Testament. **Prereq:** *GRK 111 or permission of the department chair.*

World Languages: Hebrew

HEB 111 - Elementary Hebrew 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Introduction to basics of pronunciation and grammar necessary for reading, writing and conversing in Hebrew. This course is not designed for persons who have experience with the Hebrew language. **Note:** *Not for native speakers.*

HEB 112 - Elementary Hebrew 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Continuation of HEB 111 with emphasis on speaking, reading and writing. **Prereq:** *HEB 111 or one year of high school Hebrew or permission of department chair.* **Note:** Not for native speakers.

HEB 113 - Elementary Biblical Hebrew 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Develop vocabulary and grammar skills for

reading and writing Biblical Hebrew. **Note:** This course is not designed to teach spoken modern Hebrew. It focuses solely on reading, writing, and translating biblical (ancient) Hebrew.

HEB 114 - Elementary Biblical Hebrew 2

3 credit hours - Three hours lecture weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Develop vocabulary and grammar skills for reading and writing Biblical Hebrew. Gain experience in translating texts written in Biblical Hebrew. **Note:** *This course is not designed to teach spoken modern Hebrew. It focuses solely on reading, writing, and translating biblical (ancient) Hebrew.*

World Languages: Italian

ITA 111 - Elementary Italian 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn basic pronunciation, vocabulary and grammar necessary for reading, writing and conversing in the Italian language. Begin to explore the Italian culture. Not for those who have experience with the Italian language. **Note:** *Not for native speakers. Typically offered MC and OL; fall and spring terms.*

ITA 112 - Elementary Italian 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in ITA 111 with emphasis now on speaking, reading and writing. **Prereq:** *ITA 111 or one year of high school Italian or permission of department chair. Note: Not for native speakers. Typically offered MC and OL; fall and spring terms.*

ITA 121 - Italian Conversation

2 credit hours - Two hours weekly; one term.

Develop skill and practice with spoken Italian. Conducted entirely in Italian. For students who have studied elementary Italian grammar. May be repeated once on an audit basis. **Prereq:** *ITA 112 or two years of high school Italian or permission of department chair. Note: Not for native speakers.*

ITA 211 - Intermediate Italian 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build vocabulary and grammar skills for the purpose of reading, writing, listening, and speaking. Discuss aspects of Italian culture. **Prereq:** *ITA 112 or two years of high school Italian or permission of department chair. Note: Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

ITA 212 - Intermediate Italian 2

3 credit hours - Three hours weekly; one term.

Master intermediate vocabulary and grammar structures. Read short poetry and short fiction in Italian. Discuss Italian culture. **Prereq:** *ITA 212 or three years of high school Italian or permission of department chair. Note: Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

ITA 221 - Intermediate Italian Conversation

3 credit hours - Three hours weekly; one term.

Emphasizes skills required to deal well in Italian with everyday speaking situations. Enhance listening skills, pronunciation and intonation. **Prereq:** *ITA 212 or four years of high school Italian or permission of department chair. Note: Not for native speakers. JPN 112 - Elementary Japanese 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge acquired in JPN 111 with emphasis on grammatical structures. Continue to practice the hiragana and katakana writing systems including expanding knowledge of kanji characters. **Prereq:** *JPN 111 or one year of high school Japanese or permission of department chair. Note: Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

JPN 113 - Elementary Japanese 3

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Continue study of spoken Japanese with an emphasis on the structures and vocabulary needed to satisfy survival, travel and simple social needs. Develop skills in producing complex sentence patterns and employing all four systems of written Japanese. **Prereq:** *JPN 112 or two years of high school Japanese or permission of department chair.* **Note:** *Not for native speakers.*

JPN 114 - Elementary Japanese 4

3 credit hours - Three hours weekly, one term.

This course meets the Arts & Humanities General Education Requirement. Building on what the student has learned from the three previous courses in Japanese, a continuation of spoken Japanese with an emphasis on more complex structures and an expanded vocabulary needed to satisfy survival, travel and basic social needs. Emphasis is on more complex sentence patterns and writing in Hiragana and Katakana syllabaries with an expanded usage of kanji characters. **Prereq:** *JPN 113, three years of high school Japanese or permission of department chair.* **Note:** *Not for native speakers.*

JPN 211 - Intermediate Japanese 1

3 credit hours - Three hours weekly; one term.

A continuation of speaking, reading, and writing Japanese. This course builds on what the student has learned from the four previous courses in Japanese. Emphasis is on more complex sentence patterns, dealing with abstract ideas and an expanded usage of kanji characters. **Prereq:** *JPN 114, four years high school Japanese or permission of department chair.* **Note:** *Not for native speakers. Typically offered at MC and OL; fall and spring terms.*

World Languages: Korean

KOR 111 - Elementary Korean 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn basic pronunciation and grammar necessary for reading, writing and conversing in Korean. Not for those who have experience with the Korean language. **Note:** *Not for native speakers. Typically offered OL; fall and spring terms.*

KOR 112 - Elementary Korean 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in KOR 111 with emphasis on speaking, reading and writing. **Note:** *Not for native speakers. Typically offered OL; fall and spring terms.*

KOR 211 - Intermediate Korean 1

3 credit hours - Three hours lecture weekly; one term.

Build vocabulary and grammar skills for the purpose of reading, writing, listening and speaking. Discuss aspects of Korean culture. **Prereq:** *KOR 112 or two years of high school Korean or permission of department chair.* **Note:** *Not for native speakers.*

KOR 212 - Intermediate Korean 2

3 credit hours - Three hours lecture weekly; one term.

Master intermediate vocabulary and grammar structures. Read short poetry and short fiction in Korean. Discuss Korean culture. **Prereq:** *KOR 211 or three years of high school Korean or permission of department chair.* **Note:** *Not for native speakers.*

World Languages: Latin

LAT 111 - Elementary Latin 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Develop vocabulary and grammar skills for reading and writing Latin. Learn about classical Roman culture and civilization.

LAT 112 - Elementary Latin 2

3 credit hours - Three hours of lecture weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in LAT 111. Read and translate short selections from a wide variety of Latin authors. **Prereq:** *LAT 111 or one year of high school Latin or permission of department chair.*

World Languages: Portuguese

PRT 111 - Elementary Portuguese 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Introduction to basics of pronunciation and grammar necessary for reading, writing and conversing in Portuguese. This course is not designed for persons who have experience with the Portuguese language. **Note:** *Not for native speakers.*

PRT 112 - Elementary Portuguese 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Continuation of PRT 111 with emphasis on speaking, reading and writing. **Prereq:** *PRT 111 or one year of high school Portuguese or permission of department chair.*

PRT 119 - Accelerated Beginning Portuguese

3 credit hours - Three hours weekly; one term.

Develop an understanding of basic pronunciation and grammar necessary for reading, writing and speaking in Portuguese. **Note:** *Designed for students who have studied Indo-European language.*

Credit is not given for both PRT 119 and PRT 111, or PRT 119 and PRT 112. Not for native speakers.

PRT 211 - Intermediate Portuguese 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build vocabulary and grammar skills for the purpose of speaking, listening, reading, and writing. Discuss the culture and civilization of Brazil, Portugal, and Lusophone Africa and Asia. **Prereq:** *PRT 112 or PRT 119 or two years of high school Portuguese or permission of department chair.* **Note:** *Not for native speakers.*

World Languages: Russian

RUS 111 - Elementary Russian 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Learn basic pronunciation and grammar necessary for reading, writing and conversing in Russian. Not for those who have experience with the Russian language. **Note:** *Not for native speakers. Typically offered at OL; fall and spring terms.*

RUS 112 - Elementary Russian 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in RUS 111 with emphasis on reading, writing, speaking and translating. **Prereq:** *RUS 111 or one year of high school Russian or permission of department chair.* **Note:** *Not for native speakers. Typically offered OL; fall and spring terms.*

RUS 211 - Intermediate Russian 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge acquired in RUS 112. Continue to advance students understanding of basic pronunciation and grammar necessary for reading, writing and conversing in Russian. **Prereq:** *RUS 112 or two years of high school Russian or permission of department chair.* **Note:** *Not for native speakers. Typically offered OL; fall and spring terms.*

RUS 212 - Intermediate Russian 2

3 credit hours - Three hours lecture weekly; one term.

Master intermediate vocabulary and grammar structures. Read short poetry, fiction, and/or non-fiction in Russian. Discuss Russian culture. **Prereq:** *RUS 211 or three years of high school Russian or permission of department chair.* **Note:** *Not for native speakers. Typically offered OL; fall and spring terms.*

RUS 221 - Intermediate Russian Conversation

3 credit hours - Three hours weekly; one term.

Develop spoken fluency in intermediate Russian by engaging in everyday speaking situations. Enhance listening skills, pronunciation, and intonation. **Prereq:** *RUS 212 or four years of high school Russian or permission of department chair.* **Note:** *Not for native speakers. In some cases, heritage speakers of Russian may enroll with permission of department chair.*

World Languages: Spanish

SPA 100 - Review of Spanish Grammar for Native Speakers

3 credit hours - Three hours weekly; one term.

A review of the essentials of Spanish grammar for students who speak Spanish as their primary language. Designed for students who have not studied Spanish in a school setting.

SPA 111 - Elementary Spanish 1

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Develop an understanding of basic pronunciation and grammar necessary for reading, writing and speaking in Spanish. Not for those who have experience with the Spanish language. **Crosslisted:** *Also offered as SPA 111H; credit is not given for both SPA 111 and SPA 111H.* **Note:** *Not for native speakers. Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

SPA 111H - Elementary Spanish - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Develop an understanding of basic pronunciation and grammar necessary for reading, writing and speaking in Spanish. Not for those who have experience with the Spanish language. **Prereq:** *Eligibility for Honors courses.* **Crosslisted:** *Also offered as SPA 111; credit will not be given for both SPA 111 and SPA 111H.* **Note:** *Not for native speakers. Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

SPA 112 - Elementary Spanish 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in SPA 111 with emphasis on speaking, reading and writing. **Prereq:** *SPA 111 or one year of high school Spanish or permission of department chair.* **Crosslisted:** *Also offered as SPA 112H; credit not given for both SPA 112 and SPA 112H.* **Note:** *Not for native speakers. Typically offered at MC, AM, and OL; fall, spring, and summer terms.*

SPA 112H - Elementary Spanish 2 - Honors

3 credit hours - Three hours weekly; one term.

This is an honors course. This course meets the Arts & Humanities General Education Requirement. Build upon knowledge learned in SPA 111 with emphasis on speaking, reading and writing. **Prereq:** SPA 111 or one year of high school Spanish or permission of department chair. **Crosslisted:** Also offered as SPA 112; credit not given for both SPA 112 and SPA 112H. **Note:** Not for native speakers. Typically offered at MC, AM, and OL; fall, spring, and summer terms.

SPA 119 - Review of Elementary Spanish 1 and 2

3 credit hours - Three hours weekly; one term.

This course meets the Arts & Humanities General Education Requirement. Review elementary Spanish for reading, writing, listening and speaking. This course is for students who have previous experience with the language. **Note:** Credit is not given for both SPA 119 and SPA 111, or SPA 119 and SPA 112. Not for native speakers.

SPA 121 - Spanish Conversation

2 credit hours - Two hours weekly; one term.

Develops skill in and practice with spoken Spanish. Conducted entirely in Spanish. For students who have studied elementary Spanish grammar or by permission of department chair. May be repeated once on an audit basis. **Prereq:** SPA 112 or two years of high school Spanish or permission of department chair. **Note:** Not for native speakers.

SPA 125 - Spanish Composition

2 credit hours - Two hours weekly; one term.

Develops skill and practice with written Spanish. Focuses on readings and writing assignments on aspects of Spanish culture and contemporary life. For students who have some background in the language. **Prereq:** SPA 111 or one year of high school Spanish or permission of department chair. **Note:** Not for native speakers.

WELLNESS REQUIREMENT (non-General Education) Courses and Sequences

Courses and course sequences below will not satisfy a general education requirement. Following each sequence allows students to meet the Wellness Requirement in the corresponding degree.

ACH 242 - Environmental Systems for Design 3 cr.
EDU 135 - Children's Health, Nutrition and Safety 3 cr.

Completing the Following Hotel/Restaurant Management (Culinary Arts, Baking and Pastry, Hospitality Management) (AAS) Sequence Satisfies the Wellness Requirement:

HRM 119 - Certificate in Sanitation 1 cr.
HRM 190 - Food Science and Nutritional Cooking 3 cr.
HRM 232 - World Culture and Cuisine: A Social Science Perspective 3 cr.

Completing the Following Medical Assisting (AAS) Sequence Satisfies the Wellness Requirement:

MDA 112 - Pharmacology for Health Professions 3 cr.

Courses and course sequences below will not satisfy a general education requirement. Following each sequence allows students to meet the Technology Requirement in the corresponding degree.

ART 106 - Digital Design 3 cr.
EDU 214 - Introduction to Special Education 3 cr.
LGS 112 - Law Office Practice and Technology 3 cr.

MLT 205 - Clinical Hematology 4 cr.
MLT 206 - Advanced Clinical Chemistry 2 cr.
MLT 276 - Clinical Hematology Practicum 2 cr.
MLT 277 - Clinical Chemistry Practicum 2 cr.
MLT 278 - Clinical Microbiology Practicum 2 cr.
MLT 279 - Clinical Immunohematology Practicum 2 cr.

Completing the Following Nursing (AS) Sequence Satisfies the Requirement:

NUR 230 - Nursing Management of Clients with Complex Health Problems and Transition into Nursing 9 cr.
NUR 231 - Nursing Perspectives 1 cr.

Completing the Following Physical Therapist Assistant (AAS) Sequence Satisfies the Wellness Requirement:

PTA 101 - Introduction to Physical Therapist Assistant 3 cr.
PTA 102 - Physical Therapist Assistant 1 6 cr.
PTA 104 - Physical Therapist Assistant 2 6 cr.
PTA 105 - Clinical Practice 1 2 cr.

PTA 202 - Physical Therapist Assistant 4 4 cr.
PTA 203 - Clinical Practice 2 4 cr.
PTA 204 - Physical Therapist Assistant 5 3 cr.
PTA 206 - Clinical Practice 3 4 cr.
PTA 207 - Clinical Practice 3 4 cr.

Completing the Following Radiologic Technology (AAS) Sequence Satisfies the Wellness Requirement:

RAD 101 - Introduction to Radiography 2 cr.
RAD 231 - Radiographic Procedures 4 3 cr.
RAD 251 - Radiation Biology and Protection 3 cr.
RAD 252 - Clinical Radiography 5 6 cr.

Completing the Following Surgical Technology (AAS) Sequence Satisfies the Requirement:

Completion of the Surgical Technology (A.A.S.) satisfies the college's Wellness Requirement.

Wellness Requirement Exemptions:

Due to a special wellness requirement exemption, students are permitted to graduate with the following degrees without satisfying a Wellness Requirement: Secondary Education - Physics (A.A.T.)

Diversity Requirement

We live in a society and world characterized by diversity, and Anne Arundel Community College believes that the study of diversity is an essential part of contemporary education.

Diversity courses share common characteristics.

They focus on one or more of the elements of diversity: race, ethnicity, gender, disability, class, sexual orientation, age, and culture.

They look at how ideas about diversity are shaped by culture and affect the way people think and live; they link diversity to larger questions of power and privilege; and they help students develop the knowledge and understanding needed to participate effectively in our diverse global, national, and local communities. While the college encourages all students to complete a diversity course, each student pursuing an associate degree must fulfill the college's diversity requirement in one of the following ways: (1) Successfully complete one course from the list below; (2) Successfully complete one program diversity sequence from the list below; or (3) Transfer credit awarded for an equivalent course successfully completed at another

Anne Arundel Community College 2022-2023 Catalog

About Anne Arundel Community College (AACC)

Anne Arundel Community College Mission

With learning as its central mission, Anne Arundel Community College responds to the needs of our diverse community by offering high quality, affordable, accessible and innovative lifelong learning opportunities.

College Vision

Anne Arundel Community College is a premier learning community that transforms lives to create an engaged and inclusive society.

Values

Community and Relationships

Opportunity

Positivity

Innovation and Creativity

Equity and Inclusion

Philosophy

Anne Arundel Community College strives to embody the basic convictions of our country's democratic ideal: that individuals be given full opportunity to discover and develop their talents and interests; to pursue their unique potentials; and to achieve an intellectually, culturally and economically satisfying relationship with society.

Strategic Plan

Goals

- **Entry and Engagement** - Increase engagement with students, employees, and community.
- **Progress and Growth** - Increase progress, growth, and connection of students and employees.
- **Retention and Completion** - Increase retention and completion of all students.

Objectives

- **Excellence** - Ensure that every interaction contributes to a high-quality education.
- **Innovation** - Innovate to ensure equity in college systems and practices to provide positive student and employee experiences.
- **Engagement** - Create an equitable culture of engagement where each member of the college community is committed to providing high-quality student and employee experiences.
- **Resources** - Allocate resources in support of the college mission in responsible, sustainable, and equitable ways.

For more information on AACC's strategic plan, visit <https://www.aacc.edu/about/mission-and-vision/strategic-plan/>.

Accreditation

Anne Arundel Community College is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, Pa. 19104 (215-662-5606 or <http://www.msche.org>) and approved by the Maryland Higher Education Commission.

The Emergency Medical Technician-Paramedic (A.A.S.) program is accredited nationally by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and in the state by the Maryland Institute for Emergency Medical Services Systems (MIEMSS). The Hotel/Restaurant Management, A.A.S. (Hospitality Management Concentration) degree is accredited by the Accrediting Commission for Programs in Hospitality Administration (ACPHA). The Hotel/Restaurant Management, A.A.S. (Culinary Arts Concentration) degree is accredited by the American Culinary Federation Education Foundation Accrediting Commission (ACFEFAC). The Human Services (A.A.S.) program is accredited by the Council for Standards in Human Service Education (CSHSE).

The Medical Assisting (certificate) program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Medical Assisting Education Review Board. The National Accrediting Agency for Clinical Laboratory Sciences has accredited the Medical Laboratory Technician (A.A.S.) program through April 2022. The Nursing (A.S.) program is accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326 (404-975-5000 or www.acenursing.org/) and approved by the State of Maryland Board of Nursing. For information about accreditation of the Physical Therapist Assistant program, see the Physical Therapist Assistant (A.A.S.) section of this catalog. The Radiologic Technology (A.A.S.) program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The Surgical Technology (A.A.S.) program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP).

The Architecture and Interior Design (A.A.S.) degree option is approved by the American Institute of Architects. The paralegal studies associate of applied science (Paralegal Studies (A.A.S.)) and certificate (Paralegal Studies - (certificate)) programs are approved by the American Bar Association. The AACC Testing Center received accreditation from the National College Testing Association.

History

On Jan. 2, 1961, the county Board of Education established Anne Arundel Community College, a comprehensive community center of higher learning. The college opened in September that year for 270 students in late-afternoon and evening classes in temporary quarters at Severna Park High School. Dr. Andrew G. Truxal became our first president. The college moved to its own 165-acre Arnold campus in September 1967. The Middle States Association of Colleges and Secondary Schools, now known as the Middle States Commission on Higher Education, awarded the college full accreditation in April 1968.

Dr. Robert P. Ludlum became the second college president upon the retirement of Dr. Truxal Aug. 1, 1968. He oversaw the expansion of the college on the Arnold campus and started the practice of offering credit and noncredit classes in locations around the county. Ludlum began the collaboration with Fort Meade so transient soldiers could continue their studies and granted tuition waivers to those older than 60, both of which continue today. He retired June 30, 1976.

Dr. Justus D. Sundermann served as the third president, July 1, 1976 to June 30, 1979, during which he established several programs ongoing today, including Weekend College, tutoring and contractual training with agencies and businesses. He opened the college's first location in Glen Burnie and the Child Development Center.

Dr. Thomas E. Florestano became the fourth president July 1, 1979 until his retirement June 30, 1994. During his tenure, the campus expanded in size to 230 acres and grew in enrollment, programs and services as a comprehensive community college. He collaborated with the county government and established two centers still active today, the Center for Environmental Studies and the Center for Study of Local Issues. The Glen Burnie Town Center, the college's current Glen Burnie location, opened during his term.

Dr. Martha A. Smith served as the college's fifth president from Aug. 1, 1994-Aug. 1, 2012. With a mantra of students first, she shared a vision that the college would meet the call for higher expectations, respond to the challenges of a global economy and educate its students to be among the best-prepared citizens and workers of the world. During her term, AACC continued expansion, adding the Hotel, Culinary Arts and Tourism Institute in Glen Burnie, the AACC at Arundel Mills Regional Higher Education Center, Center for Cyber and Professional Training and Sales and Service Training, all at Arundel Mills in Hanover and several new or renovated classroom buildings and a Student Services Center to the Arnold campus. In December 2009, AACC launched Student Success 2020, a 10-year commitment to help more students succeed that includes a goal of doubling the number of degrees, certificates and workforce credentials earned by the year 2020.

The college's sixth president, Dawn Lindsay, Ed.D., began her presidency Aug. 1, 2012. A Maryland native, Dr. Lindsay came to the college after serving as president of Glendale Community College in California. Her vision is to create a synergy on campus that stimulates innovation and collaboration, building on a foundation of transparency, honesty and trust that are hallmarks of the philosophy of servitude leadership, a style she has embraced. She aims to

make sure the college's programs are sustainable over time, AACC is accountable to its stakeholders, the college delivers value and it remains true to its mission with commitment to learning at its core.

Schools of Study

Anne Arundel Community College has five Schools of Study with programs that lead to a variety of associates degrees, certificates and letters of recognition.

- School of Business and Law
- School of Health Sciences
- School of Liberal Arts
- School of Science, Technology & Education
- School of Continuing Education and Workforce Development

Antiracism, Diversity, Equity and Inclusion

The vision of Anne Arundel Community College ("College") is to "transform lives to create an engaged and inclusive society." As a product of and a contributor to Anne Arundel County's workforce, culture, and general demographics, the College values the uniqueness of every individual, including differences in life experiences, knowledge, viewpoints, innovation, self-expression, capabilities, and talents.

Antiracism is the practice of identifying, challenging, and changing the values, structures and behaviors that perpetuate systemic racism.

Diversity includes all the ways in which people differ, and it encompasses all the different characteristics that make one individual or group different from another, including but not limited to race, color, ethnicity, gender, sex, gender identity, age, national origin, religion, disability, sexual orientation, socioeconomic status, education, marital status, language, genetic information, military or veteran status, and physical appearance. It also involves different ideas, perspectives, and values.

Equity is providing everyone with access to the same opportunities and potential for success. Equity ensures fairness by adjusting for differences in advantages and barriers.

Inclusion is authentically bringing traditionally excluded individuals and/or groups into processes, activities, and decision and policy making in a way that shares power.

The College embraces and promotes antiracism, diversity, equity, and inclusion and fosters, cultivates, and sustains antiracism, diversity, equity and inclusion in its activities, admissions, community involvement, curriculum, employment, policies, and programs.

College-Wide Core Competencies

Consistent with the institutional mission and vision, Anne Arundel Community College expects students to gain and demonstrate appropriate proficiency in core competencies which encompass general education and essential life skills. The college is committed to offering experiences that allow students to acquire, develop and demonstrate growth in these competencies. The attainment of these competencies provides the foundation for lifelong learning.

Communication:

Using listening, speaking, reading, writing and visual communication skills effectively.

Technology Fluency:

Utilizing technology to enhance productivity in one's academic, professional and personal life.

Information Literacy:

Recognizing when information is needed and locating, evaluating, and using information appropriately.

Personal Wellness:

Demonstrating the use of strategies that promote holistic health and wellness.

Self Management:

Displaying accountability and adaptability as a learner.

Scientific Reasoning:

Applying logic and the scientific method to interpret observable evidence.

Quantitative Reasoning:

Applying mathematical concepts appropriately to analyze and interpret quantitative information.

Social and Civic Responsibility:

Participating in communities as an informed, committed and productive individual.

Global Perspective:

Awareness and understanding of the diversity and interdependence among cultures, communities and the environment.

Innovative and Critical Thinking:

Integrating knowledge to analyze problems using different modes of thinking (critical, creative and innovative).

Learning Outcomes Assessment and Accountability

Anne Arundel Community College is committed to ensuring that its students and graduates are among the best-prepared citizens and workers of the world by offering high quality, affordable, and accessible learning opportunities while also continuing the institution's excellence, accountability, and continuous learning. To this end, practices and procedures are established to ensure faculty, staff, and administrators systematically access student learning outcomes at the course, program and institution levels.

The assessment activities may take diverse forms including, but not limited to, standardized assessments, placement tests, faculty-developed evaluations, focus sessions, surveys, and evaluation of student work. The college believes that such input is vital to its responsibility to maintain quality instruction. Therefore, class time may be used at times for these activities and it is expected that students will participate in the processes when asked. Confidentiality of responses is ensured.

Engaged Learning

In 2008 and again in 2015, Anne Arundel Community College received the Community Engagement Classification from the Carnegie Foundation. The selection recognizes the college's excellent alignment among mission, culture, leadership, resources, and practices that support dynamic and noteworthy community engagement.

Spirit of Community

The college discussed, developed and adopted this statement in light of continuing national discussions on civility in American society. We work hard to promote the spirit of community here at AACC. Our **Spirit of Community** statement follows.

- **Anne Arundel Community College is built on our commitment to excellence, engagement in the learning process and mutual respect and courtesy.**
- **As a member of the Anne Arundel Community College community, I have the obligation to accept responsibility for my conduct. I will:**
 - *respect the rights and property of all members of the campus community*
 - *uphold personal and academic integrity*
 - *practice honesty in communication*
 - *listen to others' viewpoints*
 - *recognize the strength of diversity*
 - *oppose bigotry*
 - *work with others to uphold these standards*

(Approved by the Committee Advisory to the President on March 4, 1998)

Commitment to International Education

Recognizing the new opportunities and challenges facing residents of our community who are increasingly affected by worldwide social, economic and political systems, the college affirms a commitment to providing our students with the education and experience they need to understand and deal with issues that transcend national boundaries. The college recognizes that increased immigration to Anne Arundel County, increased employment of county residents abroad and increased local employment of county residents by foreign companies require that students develop a new set of basic skills in order to participate in the rapidly emerging global economy.

The international education mission of the college includes providing our students with opportunities to participate in study abroad programs as well as internationalizing the curriculum, providing English as a second language, offering courses in international business and culture studies and initiating short-term programs on campus for students, scholars and business and government leaders from abroad.

College Events and Services

The college sponsors special events, lectures, clinics, workshops, topical seminars and a variety of other services to benefit the community. We share college facilities and services to enrich business symposiums, conferences, government, professional and avocational interests. Each year, thousands of community citizens participate in and attend campus events ranging from dramatic productions to athletic contests.

Student and faculty groups present a variety of concerts, lectures, art exhibits, plays and other campus events for community benefit. Faculty and staff share knowledge and expertise with numerous community groups through the Speakers Bureau. Website: www.aacc.edu/campus-life/

Locations

Classes are held at many locations throughout the county.

Admissions

Apply to Anne Arundel Community College

AACC is happy to help you get started as a credit or noncredit student. If you want to take credit courses that lead toward a degree or certificate, you first need to apply to the college. It's free and online! The links (right) will guide you through the steps to begin.

- Apply
- Important Dates
- International Students
- High School/Dual-Enrolled Students
- Military Admissions
- Transferring In
- Noncredit Registration

Obtain Credit for Previous Learning

We recognize that learning occurs in a variety of settings and formats. AACC reviews credit for previous learning from traditional college coursework and from nontraditional sources such as military experience.

*Planning ahead to your Junior year?
Refer to transferring from AACC*

General Entrance Statement

Applicants who may benefit from postsecondary education are admitted to Anne Arundel Community College by the Director of Admissions. The Director of Admissions is authorized to refuse or revoke admission to the college if the applicant poses a present or future threat to himself/herself or others, is disruptive to the college community, or poses an adverse impact on the operation or safety of the college.

A student's academic credentials, appropriate test scores from the Scholastic Assessment Test (SAT), American College Test (ACT), International Baccalaureate (IB), Advanced Placement (AP), College-Level Examination Program (CLEP), and General Educational Development (GED), Anne Arundel Community College assessment tests

and/or successful completion of equivalent college courses may determine eligibility for registration in a class and/or admission to a program of study.

State Authorization

Various state regulations require legal authorization for postsecondary institutions to offer distance education classes/programs, internships and clinical placements, to students who live outside the institution's home state. As a consequence, AACC may have limited operations in some states. Therefore, if you are not a resident of Maryland, please visit AACC's State Authorization webpage for detailed information on any limitations.

General Admission Procedures

Degree- and Certificate-seeking Students (must be age 16 or older)

1. Submit an admission application as early as possible and before the term when admission is desired.
2. Submit all applicable documents to the Records and Registration office:
 - a. High school and GED graduates: submit an official copy of your high school transcript or GED test results.
 - b. Submit copies of your ACT or SAT scores.
 - c. Submit official AP, CLEP, or IB scores.
 - d. Students who have attended other colleges: submit an official transcript from each college attended.
 - e. Students who have military training or experience: submit an official transcript from your military branch.
3. Determine your Assessment and Placement Requirements.

a. English Placement

To be exempt from the college's English placement test, students must have graduated from high school within the last five years with a 3.00 GPA or higher, or have sufficient scores on the SAT, ACT, AP, or GED, or have college English credit from another college. Students who wish to test for a higher placement may take the college's placement test. Refer to the Determine Placement page to determine your English and math placement.

b. Math Placement

To be exempt from the college's Math placement test, students must have graduated from high school within the last five years with a 3.00 GPA or higher and have sufficient grades in specified high school math classes, or have sufficient scores on the SAT, ACT, AP, or GED, or have college math credit from another college. Students who wish to test for a higher placement may take the college's placement test. Refer to the Determine Placement page to determine your English and math placement.

Nondegree-seeking Students (must be age 16 or older)

Non-degree seeking students are students who wish to take credit courses without pursuing a degree or certificate at AACC. Non-degree seeking students are often dually enrolled high school students, those taking courses for personal enrichment, and visiting students from other colleges. Non-degree seeking students must meet the prerequisite(s) for any course(s) that the student seeks to take at AACC. Visiting students earn credits at AACC in order to transfer those credits to their home institution. Visiting students are responsible for consulting with their home institution to ensure a smooth transfer of credits. Non-degree seeking students are not eligible for federally funded financial aid.

Steps to become a non-degree seeking student:

1. Submit an admission application as early as possible and before the term when admission is desired.
2. All students, including non-degree seeking students, must demonstrate completion of course prerequisites. High school transcripts, ACT, SAT scores, or transcripts from other colleges may be needed and should be submitted to the Records and Registration office. Students who have not taken the SAT, ACT, AP exam, or have college credit for English and math from another college, or those who have and wish to test for a higher placement, must take the college's placement test. (Refer to Determine your Assessment and Placement Requirements above.)

Placement Status

Upon admission, students are assigned a placement status, which determines the maximum number of credits in which a student can enroll each term, as stated in the chart below. This status may change as placement documents are received.

AACC's placement statuses:

English Composition Eligible means a student who has demonstrated eligibility to enroll in English composition (ENG-101 or ENG-101A) based on high school GPA and coursework taken; ACT, SAT, AP, or CLEP examination results; previous college transcripts; or AACC's placement test.

Provisional means a student who has not demonstrated eligibility for English composition (ENG-101 or ENG-101A) based on high school GPA and coursework taken; ACT, SAT, AP, or CLEP examination results; previous college transcripts; or AACC's placement test. Students who are not eligible for English composition will be required to take English Language Learning (ELL) or Academic Literacies (ACL-040) course(s) and should begin these courses in their first term.

The chart below documents the maximum number of credits for which a student may be concurrently enrolled based on their placement status and the length of the session in which the course(s) is scheduled.

Placement Status Maximum Concurrent Credit Hours Limits by Session Length

Status/Standing	13-15 Week Session	5-12 Week Session	4 Weeks or Less Session
English Composition Eligible	18	10	6
Provisional	13	10	4

Note: Academic standing also impacts the maximum credit hours per term.

An exception to the limitation on credit hours may be granted by an academic advisor for a student with English Composition Eligible status if the student has an adjusted cumulative grade point average (GPA) of 3.00 or higher that includes at least one full-time term of courses for which a GPA of 3.00 has been earned.

Credit and equivalent hours are noted near course titles in the Courses section of this catalog. Limitations on credit hours are calculated as the sum of all the credit hours and equivalent hours for which a student registers for a given term.

Credit for Previous Learning

Learning occurs in a variety of settings and formats. AACC reviews

- About Transfer Credit
- AP/CLEP/IB/DSST/Dept. Exam

credit for previous learning from traditional college coursework and from nontraditional sources such as military experience.

- High School Credit
- Life/Work Experience
- Military Experience
- How to Get Started

Planning ahead to graduation? Refer to transferring from AACC

Apply to AACC
(get credit for previous coursework and learning experiences)

Students who wish to be familiar with AACC's general statements for Admissions for students with transfer credit or prior learning experience from work, life, military or other sources, may refer to the information listed below. Should you have a question about Admissions, our Admissions Advisors are happy to help.

Transfer Credit Criteria

The college adheres to the transfer credit mandates of the Maryland Higher Education Commission. Students must complete all admission procedures before AACC will evaluate requests to transfer credits from other institutions. Students should submit official transcripts from all previous institutions attended. Official transcripts must be received by AACC in a sealed envelope that is signed or stamped across the seal by the sending institution. Official transcripts may also be received electronically via a third-party transcript service directly from the sending institution. Transcripts must be received within one year of the date the transcript was issued to be considered for transfer credit. All transcripts should be sent to the Records and Registration office, which reviews courses on an individual basis. All transfer credit award determinations are made by the Records and Registration office in conjunction with the academic departments. Some academic departments may limit the courses that can be accepted for transfer credit at AACC based on professional accreditation or licensure requirements. Transfer credit will not be awarded if credit has already been earned at AACC.

Credit may be awarded if one of the following criteria is met:

1. The institution is accredited by a commission on higher education approved by the United States Department of Education. To verify accreditation, AACC uses the Council for Higher Education Accreditation (CHEA) Database of Institutions and Programs Accredited by Recognized United States Accrediting Organizations.

a. AACC recognizes the following regional accreditation associations:

- Middle States Association of Colleges and Schools
- North Central Association of Colleges and Schools
- New England Association of Colleges and Schools
- Northwest Association of Colleges and Schools
- Southern Association of Colleges and Schools

b. The institution is legally authorized to grant standard college degrees and is accredited by an accrediting agency recognized by the United States Department of Education. The college may award transfer credit based upon course equivalencies, expected learning outcomes and applicability to the college's curricula, standards, and course offerings. Applicants seeking transfer of credit should contact the Records and Registration office at time of application to the college if they are unsure as to which documents are necessary.

- c. Credit may not be accepted from schools that are candidates for regional accreditation and not fully accredited, or for coursework completed while an institution was not accredited by a commission on higher education approved by the United States Department of Education.
2. AACC has an approved articulation agreement with a high school, business, or industry. Articulation agreements specify award of credit for meeting certain criteria and presenting appropriate documentation. Refer also to Transfer Agreements.
3. AACC may accept credit if the American Council on Education (ACE) or National College Credit Recommendation Service (CCRS) has reviewed the training or military occupation and recommended award of college credit. AACC uses ACE and National CCRS recommendations as credit award guidelines with final determination of award of credit made in conjunction with the academic departments. Refer to the section that follows on Transfer Credit from Nontraditional Sources for more information.
4. Coursework completed at a postsecondary institution outside of the U.S., which is not regionally accredited by one of the aforementioned associations, must be evaluated by a professional transcript evaluation service before AACC will review courses for transfer credit. AACC requires the course-by-course evaluation for transfer credit review and accepts evaluations only from these approved evaluation services: World Education Services (WES), Educational Credential Evaluators (ECE), and SpanTran: The Evaluation Company.
5. If the student's cumulative grade point average from a previous institution is less than a 2.00 on a 4.00 scale, AACC will review only courses with a grade of C or better for transfer credit. Exception: If a student has less than a 2.00 GPA from a regionally accredited Maryland public institution and then transfers to AACC, AACC will accept credits for general education courses in which the student earned a grade of D (a C- or higher is required for ENG 101, ENG 112, ENG 116, or ENG 121 equivalent).

Transfer Credit from Other Institutions

In review of transfer credit from other institutions, the college considers the institution where the course was taken, the date completed, course description, and grade in deciding whether credit will transfer to AACC and if the course will be designated as a specific AACC course equivalency or elective. In some cases, AACC will need to review the syllabus or additional documentation. Upon request, students must supply this information from the sending institution. AACC will convert courses taken at institutions operating on the quarter system to semester hours if the credit transfers. Quarter hours are multiplied by $\frac{2}{3}$ to equal semester credit hours.

Current AACC students who wish to take a course at another institution and transfer the credit back to AACC must file a Permission to Study at Another Institution form with the Records and Registration office to ensure the coursework will transfer back and meet AACC requirements.

Transfer Credit from Nontraditional Sources

The college may give credit for demonstrated proficiency in areas related to college level courses. Sources used to determine such proficiency are College-Level Examination Program (CLEP); Advanced Placement Examination (AP); International Baccalaureate (IB); Program Pathways Articulation; DANTES Standardized Subject Test (DSST); Office of Education Credit and Credentials of the American Council on Education (ACE); and National College Credit Recommendation Service (CCRS). In assigning credits of this nature, the recommendations of the American Council on Education (ACE) or National College Credit Recommendation Service (CCRS) are used as guidelines with final determination of award of credit made in conjunction with the academic departments. Applicants who seek credit from nontraditional sources should contact the Records and Registration office at the time of application to the college if they are unsure as to which documents are necessary. A maximum of 30 credit hours may be earned in this nontraditional manner.

Each institution sets its own policy on acceptance of nontraditional credit. When planning their choice of classes, students need to consult with their proposed transfer institution.

Military - Students wishing to earn college credit for their military experience must submit the official Joint Services transcript (Army, Navy, Coast Guard or Marines), Community College of the Air Force transcript or a photocopy of the DD-214. The official Joint Services Transcript transcript can be ordered at <https://jst.doded.mil/smart/signIn.do>. Basic Training is used to satisfy the general education health/fitness/wellness requirement and credit is awarded for other military training and occupations using the American Council on Education credit recommendations when a similar discipline is offered at AACC. For more information about military transfer credit contact the Records Office at 410-777-2572 or email transfercredit@aacc.edu.

Program Pathways - Program Pathways is an initiative between Anne Arundel Community College (AACC) and Anne Arundel County Public Schools (AACPS) to support successful transition of students from high school to college and careers. Plans of study have been created to visually demonstrate how high school programs can move into college degree and certificate programs.

High school students have the opportunity to earn AACC credit for successfully completing specific high school pathways in areas including business, engineering, information technologies and health. To view plans of study and details on receiving college credit, contact the Office of Instructional Pathways and Partnerships. Students enrolled in Program Pathways should arrange to meet with an academic or department advisor prior to attending AACC. Questions or requests for additional information should be directed to the Office of Instructional Pathways and Partnerships at 410-777-2891.

Proficiency Assessment Credit - Anne Arundel Community College (AACC) will award Anne Arundel County Public school (AACPS) students credit for completing high school course work that is aligned with AACC courses when the student completes a proficiency assessment with a C or higher. The proficiency assessment is developed, administered, and graded by AACC faculty according to AACC department standards. College credit is not granted when achievement is below a C. The grade a student receives on the proficiency assessment, if C or better, is recorded on the student's official AACC transcript as "proficiency credit" in the transfer credit section. The maximum number of credits that can be awarded through a combination of proficiency assessment credit, credit by departmental examination, and credit through portfolio review is 15 credits. In accordance with the college's academic regulations, only credit courses taken at Anne Arundel Community College will be calculated as part of the student's grade point average and therefore will not include the proficiency assessment grades or any quality points as a result of proficiency assessment credit. A student who has received college credit through proficiency may request and receive an official transcript of these grades regardless of having completed coursework at AACC. For additional information about proficiency courses or assessment details, please contact Sara Eger, Director, Instructional Pathways and Partnerships, at sbeger@aacc.edu or 410-777-2891 or visit the Proficiency Credit webpage: <http://www.aacc.edu/earn-college-credits-while-in-high-school/proficiency-credit/>.

Advanced Placement (AP) - These exams are usually taken in high school, concluding a specially designed advanced placement course. Students must have official Advanced Placement score reports sent to the Records and Registration office directly from the College Board. Student grade reports are not accepted for credit, but may be used for placement or waiver of course prerequisites at time of registration. To request an official AP score report be sent to AACC visit the AP score website.

Because each college sets its own policy on required AP scores and credits awarded, students planning to transfer need to consult with their transfer institution. AACC will award credit based on the AP exams and minimum scores listed.

College-Level Examination Program (CLEP) - The College-Level Examination Program (CLEP) is a nationally recognized credit by exam program. The exams allow students to earn college credit for knowledge gained through experience or independent learning. Students interested in learning more about CLEP should visit the AACC Testing website or contact the Testing office at **410-777-2375**. Upon receipt of an official CLEP score report, the Records and Registration office will review the exam results for award of credit. It is the student's responsibility to have official CLEP score reports sent to AACC. To request an official CLEP score report visit the CLEP score website.

Each college sets its own policy on required scores and credits awarded. When planning their choice of classes, students need to consult with their proposed transfer institution. AACC will award credit for the CLEP exams listed below provided the passing score, also noted below, has been met.

DSST (Formerly DANTES) Exams - DSST are college subject exams that you can take to earn college credit for knowledge you acquired outside of a traditional classroom, similar to CLEP. AACC is not a testing location, but you can go to www.getcollegetcredit.com to find several locations in Maryland at which you can take the exam, resources to help you prepare, and directions on having your scores sent to AACC. Each college sets its own policy on required scores and credits awarded. When planning their choice of classes, students need to consult with their proposed transfer institution. AACC will award credit for the DSST exams listed below provided the passing score, also noted below, has been met.

DSST Exam Title	Passing Score	AACC Equivalent	Credit Awarded
Advanced English Composition, Principles of		No credit awarded	
Anthropology, General	400	ANT 120	3
Art of the Western World	400	ART 209	3

*Students taking this exam must meet with the TEACH advisor to discuss the mandatory fieldwork that accompanies this class.

International Baccalaureate - AACC will award credit for International Baccalaureate (IB) subject examinations with scores of 5, 6, or 7. To receive credit for IB exams, students must have official results sent to the Records and Registration office. Credit earned through IB subject area examinations may be used to satisfy general education requirements, course equivalencies, prerequisite requirements or elective credit. Students may be awarded up to 30 credits toward the associate degree.

Because each college sets its own policy on required scores and credits awarded, students planning to transfer need to consult with their proposed transfer institution.

To request an official candidate score report be sent to AACC, visit the International Baccalaureate website.

Credit by Departmental Examination - In the subjects which college-level examinations (CLEP) are not available, department chairs may arrange to give examinations to qualified applicants. A maximum of 15 credits may be earned through combination of proficiency assessment credit, credit by departmental examination, and portfolio assessment. Applicants must:

1. Complete an application for admission.
2. Obtain a form for Request for Credit by Departmental Exam from the department chair.
3. Have the completed form approved by the appropriate department chair.
4. Take the completed and approved form to the Cashier's office and pay application and exam fees.
5. Return the form to the department chair and arrange a time to take the exam.

Credit by exam is graded on a pass/fail basis. Courses for which passing grades are earned will be listed on the student's academic record as transfer of credit. The student's grade point average (refer to Academic Regulations) will not be affected. Students who fail may not repeat credit by exam, but may take the course.

Portfolio Assessment - A portfolio is a device in which you collect artifacts and provide documentation demonstrating that you have acquired college-level learning for an identified AACC course. You reflect and write about past experiences and how you met the learning outcomes for the course(s) through study, work and other life experiences which have occurred outside the classroom. A subject matter expert will determine if you have demonstrated that you have the college-level learning equivalent to the course through an examination of the material in your portfolio.

The portfolio assessment advisor will guide you through the process which will consist of an explanation of your knowledge in specific fields and the connection between that knowledge and stated learning outcomes for specific courses offered at AACC. Documentation must be provided relating to the learning claimed. In some cases, a demonstration of skills, a writing exercise, using a computer application, or an oral presentation etc., can serve as documentation. This requirement can be flexible depending on the subject area and learning outcomes. Other supporting materials such as reference letters, transcripts, recognitions and certificates may be required. Portfolio credits do not affect a student's grade point average. A maximum of 15 credits may be earned through combination of proficiency assessment credit, credit by departmental examination, and portfolio assessment. The following are the eligibility requirements for participation in the portfolio assessment program:

1. Students are enrolled in a degree or certificate program at AACC
2. Students have ENG 111/ENG 115/ENG 101/ENG 101A eligibility
3. No CLEP examination is available for the targeted course

To determine eligibility and for a description of policies, procedures and fees, call 410-777-2340.

High School/Dual-Enrolled Students

How to Apply (special instructions)

Students who wish to be familiar with AACC's general statements for High School/Dual-Enrolled Student Admissions may refer to the information listed below. Should you have a question about International Admissions, our Admissions Advisors are happy to help.

General Statements for Admissions of High School/Dual-Enrolled Students

Individuals may benefit from a college experience prior to completing high school graduation requirements. Five distinct programs are available to accommodate these individuals: Concurrent Enrollment, Dual Credit, Early College Access, Early Admission and Gifted and Talented.

Although applications to the college are accepted on an ongoing basis, students should begin the application process early to ensure appropriate documents, testing and course selection are completed. Students should complete the application process at least 30 days prior to the start of classes each term. See the Admissions Procedures that follow for information on how to apply for any Early College Access program.

Concurrent Enrollment - Concurrent Enrollment allows qualified students (age 16 or older) to enroll in a limited number of courses at the college while completing high school graduation requirements.

Dual Credit - Dual Credit is a program jointly sponsored by Anne Arundel Community College and the Anne Arundel County Public High Schools. This program allows students to take a college course and earn both college and high school credit. With permission from an Anne Arundel County Public Schools (AACPS) and approval of a parent or guardian of a current Anne Arundel County Public High School student, who is 16 years of age by the first day of Anne Arundel Community College (AACC) classes, may enroll in dual-credit courses offered by AACC from the list of courses approved by AACPS. To qualify for equated high school credit, at the time of registration a student must submit to AACPS a dual-credit permission form that specifies both the course for which enrollment is requested and identifies the equated high school credit. Upon successful course completion the student will earn college credit and AACPS will be provided an official grade report.

Early College Access - Early College Access is a program jointly sponsored by Anne Arundel Community College and the Anne Arundel County Public High Schools. This program allows students 16 years of age or older to begin exploring college-level courses and programs while they are still in high school. Early College Access participants may qualify to receive a discount for up to 50 percent of their tuition costs. Please refer to Tuition Waivers and Reductions section of this catalog. Eligible students may take regular college classes that will complement their high school schedules. Visit the Early College Access Program website for more information.

Early Admission - High school students with a 3.0 grade point average at the end of their junior year may apply for early admission to Anne Arundel Community College with permission from their high school. Requirements for high school graduation may be completed at the college during the summer term following the junior year or may be fulfilled by successfully completing the first year of college. Students seeking early admission should follow the procedures listed in this section and consult with their high school counselors to ensure their planned college program will satisfy the requirements for a high school diploma.

Gifted and Talented Program - The college Gifted and Talented program is the only program in which students under age 16 may be eligible to take college credit courses. This program is for students who have been identified as having exceptional academic or fine arts talent. Students under 16 years of age who have completed seventh grade or the equivalent may be allowed to take college-level classes in academic or fine arts subjects not available at their schools through the college's Gifted and Talented program. Students admitted to the Gifted and Talented program shall not be allowed to enroll in physical education courses and/or HEA 100.

Admissions Procedures - Students interested in Early College Access programs are required to meet with an advisor and submit the following to the Admissions and Enrollment Development office:

- an application for admission;
- an official high school transcript or grade report;
- SAT, ACT or Anne Arundel Community College assessment test scores (*note: required for any college course*); and
- a completed Early College Access Application form.

This form gives permission by signature for release time and lists courses from the college catalog approved by the parent(s), school official (high school guidance counselor or principal or in the case of home school, the director of the sponsoring home school program) and the college. This form is available at high school guidance offices, the college Admissions and Enrollment Development office and the Early College Access website.

Recommendations for the Gifted and Talented program are screened by representatives of the Admissions and Enrollment Development office and related academic department(s). Then an interview with the nominee will be arranged. If a student is nominated for courses in fine arts (art, music and theater), the student may be asked to audition or to present a portfolio of work. The final decision to admit a student is made by the Gifted and Talented Team.

For information and copies of the policies and procedures, call the Admissions and Enrollment Development office at **410-777-2246**.

Noncredit Gifted and Talented Courses

The college and the Anne Arundel County Board of Education co-sponsor noncredit gifted and talented courses, EXPLORE and Middle School Scholars, specifically designed for students, grades K-8. For information visit www.aacc.edu/kic/gifted.

International Students

How to Apply (special instructions)

Students who wish to be familiar with AACC's general statements for International Admissions may refer to the information listed below. Should you have a question about International Admissions, our Admissions Officers are happy to help.

General Statement for Admissions of International Students/Non-U.S. Citizens

Anne Arundel Community College welcomes students regardless of their immigration status, and is committed to responding to the educational needs of its community, including those whose native language is not English. These students include United States citizens, permanent immigrants to the United States and citizens of other countries temporarily visiting, working or studying in Anne Arundel County. Undocumented students who have graduated from a Maryland high school, may be eligible for a special tuition rate in accordance with the Maryland DREAM Act. Tuition rates vary for noncitizens based on immigration and residency status and federal and state laws. All noncitizen applicants must submit copies of their immigration status to the Admissions Office prior to registration. Please refer to the Tuition, Fees and Payments section of this catalog.

In all cases, the college requires students whose native language is not English to be tested for English language ability using the English as a Second Language Assessment test called the ACCUPLACER LOEP. Scores on this test are used to determine if classes are needed to improve English language skills for a successful college experience.

For students whose level of English proficiency is not yet sufficient to succeed in college credit courses, the college provides comprehensive preparatory course work in English Language Learning (ELL) through Continuing Education. For ELL course descriptions see the Courses section of this catalog.

Permanent Resident Status - A student with an Alien Registration Receipt Card has been given permanent residence in the United States as an immigrant may enroll at any college location for full- or part-time study. Tuition costs are determined by location of residence. Verification of permanent residence status is required at the time of application. Any student without appropriate identification as a permanent resident may be required to pay out-of-state rates.

To apply as a student with permanent residence status, submit:

- an online or paper application for admission signed by the student;
- SAT or ACT scores if available (the college's assessment tests may be required for enrollment in certain courses);
- transcripts from secondary and postsecondary schools attended (translated into English); and
- proof of permanent resident status: temporary evidence or actual Alien Registration Receipt Card (I-551 or I-151).

Admission of International Students With a Student Visa (F-1) - Nonimmigrant international students who apply to Anne Arundel Community College must meet special admission requirements.

The college admits students from abroad into its ELL area of study and associate degree programs. Requirements for admission of F-1 students into either ELL sequence or associate degree programs are the same except that a higher level of English proficiency is required for admission into an associate degree program.

Students enrolled in English for Academic Purposes courses are eligible to take credit courses that do not have any ENG-101 requirement under the following conditions. They have:

- Tested out of, or completed ELL-318 (Advanced Listening & Note Taking) with a grade of PA.
- Tested out of, or completed ELL-319 (Capstone Grammar & Editing) with a grade of PA.
- Registered for ELL-320 (Capstone Reading & Writing). Withdrawing from ELL-320 at any time during the semester makes the student immediately ineligible for concurrently registered credit courses. Students who earn a CO in ELL-320 are not eligible for subsequent credit courses until earning a grade PA.

Students who apply to come to the United States for the purpose of studying at Anne Arundel Community College may be issued an I-20 Certificate of Eligibility For Nonimmigrant (F-1) Student Status form by the college after submitting the following documents:

- an online or paper application for admission signed by the student;
- official or certified copy of transcripts and diploma or certificate from secondary and postsecondary schools attended (translated into English);
- evaluation from one of the approved evaluation agencies: Educational Credential Evaluators (ECE), World Education Service (WES), and SpanTran: The Evaluation Company (SpanTran) is required for students transferring college credits from foreign transcripts to Anne Arundel Community College; or seeking admissions from Health Professions programs. *Note: The use of NASBA Evaluation Services is only for students in the Financial Accounting Certificate program leading to the CPA examination.*
- evidence of proficiency in English based on one of the following: (1) an official Test of English as a Foreign Language (TOEFL) score no more than two years old; or (2) SAT or ACT scores; or (3) completion of the Anne Arundel Community College Assessment Test; and
- official bank statements or bank letter and a completed Statement of Financial Resources signed by the student and sponsor or family (if applicable) guaranteeing that the student has financial support for one year.

The form must also indicate how the student will be supported for the remaining years in the program.

The TOEFL score determines the student's initial level of English proficiency. Students with a satisfactory score (TOEFL - Paper Test score minimum of 450 or TOEFL - Computerized Test score minimum of 133 or TOEFL - Internet Based Test score minimum of 46) may be admitted to the ESL course sequence. Students with a satisfactory score (TOEFL - Paper Test score minimum of 550 or TOEFL - Computerized Test score minimum of 213 or TOEFL -

Internet Based Test score minimum of 79) may be admitted to an associate degree or certificate program (AACC TOEFL code: 5019). The Admissions and Enrollment Development office verifies that applicants have met all of the requirements before admitting students for a program. After arriving at the college, students must take the college's ELL or English, reading, and mathematics assessment tests as required before registering for courses. Final placement into courses is determined by performance on the college's assessment tests.

Application for a Student Visa - The college issues an I-20 Certificate of Eligibility For Nonimmigrant (F-1) Student Status form to students who qualify for admission. Students present this form with other documentation to a U.S. Consular Office in the country where they are applying for a student (F-1) visa. Final decision on admission into the United States and permitted length of stay is made by the Department of Homeland Security.

Change of Status to F-1 - Most non-immigrants are eligible to request a change to F-1 (student) status if they have maintained their current, lawful status. Individuals in J-1 status who are subject to the two-year home residence requirement (Section 212e) are not eligible for a change of status unless a waiver is granted by the United States Citizenship & Immigration Services (USCIS). Students must apply and submit required documentations for admission to AACC by the deadline in order to get the I-20 form or Certificate of Eligibility for Non-immigrant (F-1) Student Visa Status, pay SEVIS fee, then mail the original I-20, acceptance letter, documentation of financial support with an I-901, (SEVIS processing fee form) *or* SEVIS payment receipt, I-539 form with filing fees and other required documents to the USCIS to file for change of status. Students must maintain their current status while their I-539 change of status application is pending. The approval of a change of status can take up to 15-18 months or more for USCIS to process. Students must check USCIS website for current special instructions and appropriate filing fees prior to mailing their change of status applications. AACC is unable to assist students with filing the I-539 with USCIS. Please consult an immigration attorney if you require assistance with these filings.

F-1 Visa Students Enrolled Full-Time At Other Colleges or Universities (Concurrently) - F-1 students are eligible for simultaneous enrollment with a combination of courses at AACC and another college or university, only if approved by the Designated School Official (DSO) at the authorized school. (The authorized school is the one that issued the I-20 and maintains the SEVIS record.) Students must submit a college's standard application, copy of F-1 visa or status, I-94, transcript from current school and permission letter from current DSO to enroll at AACC.

F-1 Transfer Students - Students with an F-1 visa seeking to transfer to Anne Arundel Community College from another U.S. institution must submit the following documents and meet the following criteria:

- a copy of the I-20 from the previous institution;
- a complete Transfer Eligibility form signed by the Designated School Officer (DSO) from the previous institution;
- official or certified copies of transcripts and school diploma or certificate from secondary and postsecondary schools attended (translated into English); evaluation from one of the approved evaluation agencies: Educational Credential Evaluators (ECE) - www.ece.org, World Education Services (WES) - www.wes.org, and SpanTran: The Evaluation Company (SpanTran) - www.spantran.com is required for students transferring college credits from foreign transcripts to Anne Arundel Community College, or seeking admissions from Health Professions programs.
- official transcripts from all previous schools attended in the U.S.
- evidence of proficiency in English based on one of the following: (1) an official TOEFL score report no more than two years old; SAT or ACT scores; (3) completion of the Anne Arundel Community College Assessment Test; (4) or college level English courses completed at a U.S. institution; and
- official bank statements or bank letter and a completed Statement of Financial Resources signed by the student and sponsor or family (if applicable) guaranteeing that the student has financial support for one year (the form must also indicate how the student will be supported for the remaining years in the program);

SEVIS School Code for AACC = BAL214F00081000

Application Deadlines - To meet federal requirements and allow adequate processing of applications for international students with F-1 visas, students must submit appropriate documents by the following dates:

	<u>Fall Term</u>	<u>Spring Term</u>
Students outside the U.S.	May 1	Oct. 1
Students changing from Nonimmigrant to F-1 Status	April 1	Sept. 1
Students with F-1 Visa transferring to AACC	July 15	Dec. 15

Students With Other Types of Visas or Statuses (Not F-1 Status) - Non-U.S. Citizen Students with Other Types of Visas or Statuses wishing to enroll in credit courses or non-credit English for Academic Purposes courses as part of the ELL Department must submit:

- an online or paper standard application for admission signed by the student.
- SAT or ACT or TOEFL scores if available (the college assessment tests may be required for enrollment in certain courses) or college placement tests in English and/or Math.
- final transcript(s) from secondary and post-secondary schools. These transcripts must be translated into English if written in your native language. Evaluation from one of the approved evaluation agencies: Educational Credential Evaluators (ECE) - www.ece.org, World Education Services (WES) - www.wes.org, and SpanTran: The Evaluation Company (SpanTran) - www.spantran.com is required for students transferring college credits from foreign transcripts to Anne Arundel Community College, or applying for Financial Aid, or seeking admissions from Health Professions programs.
- proof of legal immigration status (i.e. valid permanent resident card or green card, valid work authorization permit, valid visa stamp and I-94, letters from USCIS as proof of legal presence in the United States, etc.) If you have been approved for Permanent Residency status but have not yet received your card, submit a photocopy of your passport and a copy of the page containing the I-551 stamp.

Prospective students with a temporary visa status such as B or Waiver (visitors, business, etc.) should contact the Admissions and Enrollment Development office to have their applications approved before registering for classes. Nonimmigrant students other than F-1 international student visa holders may take as many credit courses as their college admission status permits, as long as the term begins and ends within the duration of stay indicated on the I-94 in their passport. They are subject to the out-of-state tuition rates. Refunds will not be issued after the term's scheduled drop dates.

Students with Undocumented Citizenship Status - Information obtained in this process is strictly confidential and will not be disclosed unless required by law.

Students with undocumented citizenship status are subject to the out-of-state tuition rates and are not eligible for federal or state financial aid unless they have received approval for special tuition rate through the Maryland Dream Act.

Maryland Dream Act law provides the opportunity for some undocumented immigrants who graduated from a high school in Maryland to be charged tuition at either the in-county or out-of-county rate. In order to qualify for this special tuition rate, students must provide documentation that they meet the following requirements:

1. Attended a public or nonpublic high school in Maryland and;
2. Graduated from a public or nonpublic high school in Maryland or received the equivalent of a high school diploma from the State; and
3. Enrolling at a Maryland public college or university no later than 6 years after graduating from high school or receiving a GED;

4. Provided documentation that student, or their parent or legal guardian, have filed Maryland income tax returns:
 - i. annually for the three-year period before the academic year in which the tuition rate exemption would apply; and
 - ii. an address in the county is used on the Maryland income tax return of the student's parent or legal guardian of the calendar year prior to the academic year in which the rate would apply; and
 - iii. will continue to submit proof of tax filings each year student is enrolled at Anne Arundel Community College.
5. Provide a signed affidavit attesting to become a permanent resident within 30 days of becoming eligible to do so; and
6. Registered with the Selective Service System if required to do so. *(This applies to all males 18 and older. You must submit a copy of proof of selective service registration. This can be obtained online at www.sss.gov or from your local post office.)*

The college reserves the right to request additional information and documentation as necessary.

Additional Information - Students with an F-1 visa must enroll for a full-time course of study, which is a minimum of 12 credits/billable hours each term. Students should consult their Academic Advisor or ELL Advisor for course selection. Courses in the college's ELL core program may be included as all or part of the 12 hours. Students with B1, B2 and F2 dependents must consult with the International Student Advisor prior to registration, to discuss registration limitations.

Questions pertaining to the most current regulations regarding the admission of international students should be directed to the Admissions and Enrollment Development office in the Student Services Center, **410-777-2677**.

Non U.S. citizens wishing to enroll full-time at AACC must apply. For more information visit:
<http://www.aacc.edu/apply-and-register/credit-application/international-students/>.

Continuing Education and Workforce Development

- Apprenticeship and Applied Learning
- Childcare and Parent/Family Life Education
- Continuing Education and Workforce Training Certificates
- Corporate Training Group
- Credit/Noncredit Share Classes
- English Language Learning and Adult Education
- Hotel, Culinary Arts and Tourism Institute (HCAT)
- Lifelong Learning
- Correctional Education and Special Populations
- Noncredit Scholarships
- Clauson Center for Skilled Trades

The School of Continuing Education and Workforce Development (CEWD) offers an extensive array of year round learning opportunities. Exciting, high quality courses and programs allow students of all ages and backgrounds to seek career training; earn academic credit towards a degree in Hotel/Restaurant Management; boost basic skills or learn English as a Second Language as well as enrich their lives through the pursuit of new interests. Many of these program areas receive grant support allowing tuition to remain highly affordable and in some cases classes are offered at no charge to qualifying students. CEWD also offers scholarship opportunities to eligible students enrolled in approved Workforce Training Certificate programs.

At AACC, noncredit courses are offered in several formats; online, hybrid, and face-to-face. Online courses instruction will be provided through a learning management platform and may use other online tools, resources and activities. Although this format is flexible, it is not self-paced. Courses meet online at specific dates and times. Learning activities are to be completed throughout the remainder of the week. Hybrid courses blend on-site meetings with an online component. A significant amount of class activity takes place online, so students spend less time in a traditional classroom.

Award winning career training is always being added to the college schedules. Check out our Casino Dealer School which prepares students for AACC Continuing Education and Workforce Development Certificates in blackjack, craps, mini baccarat, roulette, carnival games, poker and pai gow poker, and employment as a table games dealer at any casino. Classes are available mornings, afternoons and evenings. Learn more at: Casino Dealer School.

To address the ever-changing training needs of individuals, from those new to using technology to experienced professionals including those in IT and cybersecurity, Apprenticeship and Applied Learning offers a dynamic lineup of courses, spanning from computer fundamentals, and 3D printing to advanced computer programming or cybersecurity certification preparation. Courses are offered in response to the rapidly developing workplace and regional workforce demands.

There are also over 100 Workforce Training Certificate programs which prepare students for work in a range of occupations including certified nursing assistant, dental assistant, welding, truck driver, HVAC, casino games dealer, yoga instructor, web design, and various other trades. Licensure and certification classes in areas such as childcare, real estate and allied health are also available. Click Workforce Training Certificate if you are interested in pursuing one or reviewing the complete list of program codes. CEWD scholarship opportunities may be available for students enrolling in Workforce Training Certificate programs.

Anne Arundel Community College issues digital badges in various areas of study from Casino and Gaming to ESL programs. Similar to scouting or military merit badges which indicate levels of achievement, honor, status or recognition, a digital badge provides documented evidence of skill in a content area. These badges can be easily shared with future employers, community organizations and supervisors by hyperlink via email, electronic resumes or on social media profiles to verify necessary workforce skills. Visit digital badges for a complete list of badges offered through AACC programs.

With courses for both the career changer as well as for personal growth and enrichment, the college has one of the largest and most varied programs just for adults ages 50 and up in the state. Classes are offered online, at local Senior Centers, as well as at the Arnold campus. Individuals age 60 and older may be eligible for free tuition. Information is available through Lifelong Learning.

The college also has year round classes for children through Kids in College. Classes range from science and technology to theater and sports for the student seeking either enrichment or advancement in a subject area. In addition, programming is offered each summer in a camp format both online and in limited face to face full and half-day formats. Refer to Kids in College.

All CEWD courses serve the diverse learning needs and interests of county adults and children of all ages and backgrounds. For a current listing of classes and registration information, refer to the most recent schedule of noncredit classes or visit the School of Continuing Education & Workforce Development website. Refer to School of Continuing Education and Workforce Development for more information or contact the Instructional Support Center at 410-777-2325 or email iscenter@aacc.edu.

Apprenticeship and Applied Learning

Apprenticeship and Applied Learning provides licensure, certification, professional development, and entry-level career programming designed to meet regional workforce needs. Courses are offered in a variety of areas including allied health fields such as dental assisting, certified nursing/geriatric nursing, patient care technician, central sterile processing and in a variety of other topics such as professional yoga instructor, real estate, human resources, truck driver training (CDL A and B), welding, carpentry, electrical, and home inspection. In addition, technology training courses prepare students for in-demand certifications such as A+ and Security+. Courses are offered in a variety of formats including online, face-to-face, and hybrid at AACC's many locations around the County including the Glen Burnie Town Center as well as on the Arnold campus. For information, call 410-777-2325.

Apprenticeship Training

AACC provides the related instruction for Registered Apprenticeship Programs offered in partnership with Associated Builders and Contractors Inc., Chesapeake Chapter (ABC), Independent Electrical Contractors Chesapeake (IEC) and Maryland Plumbing and Heating Cooling Contractors (MDPHCC). For information call 410-777-2325.

Workforce Development Scholarship for approved Apprenticeship and Applied Learning Programs

The Maryland Higher Education Commission Workforce Development Sequence Scholarship will fund up to \$2,000 of tuition and fee expenses for awarded students in approved programs. To learn what programs are currently approved and how to apply, contact Financial Aid or refer to our Noncredit Scholarship information.

Childcare and Parent/Family Life Education

AACC offers noncredit courses in childcare, family provider, and CDA (Child Development Associate) credentialing as well as parent and family life education, teacher professional development, and coaching. For more information, please call 410-777-2325 or visit our website.

Clauson Center for Innovation and Skilled Trades

Clauson Center for Innovation and Skilled Trades will become the first building on AACC's campus funded solely by donors and will open for classes in late January 2022. Through programming at the Clauson Center for Innovation and Skilled Trades students will have access to:

- Hands-on learning in state-of-the art labs;
- Fast-track training that targets shortages in key skilled trades; and
- "Real world" apprenticeships and coaching to transition students successfully into jobs with local employers.

Programming in the building will consist of six inaugural programs that are needed in our community-including welding, framing and finish carpentry, plumbing, electric, HVAC, and forklift operation-and is expected to serve over 950 students by its third year of operation.

Correctional Education and Special Populations

Correctional Education and Special Populations offers job training programs for students entering the workforce or changing careers. With a focus on students entering the workforce or changing careers, all training programs have a clear career pathway and prepare students via hands-on training aligning with industry standards. Training is available in the following areas:

Job Corps: (pre-apprenticeship electrical, advanced culinary arts).

AACC provides career technical training programs administered by the U.S. Department of Labor that helps young people ages 16 to 24 improve the quality of their lives and prepare them for the workforce through Pre-Apprenticeship Electrical and Advanced Culinary Arts programs.

Correctional Education: AACC in partnership with the Maryland Department of Labor, provides high-quality education in adult basic literacy, GED, and vocational training to incarcerated individuals. These programs help the individuals to build the skills they need to successfully transition out of prison and back in to the classroom or the workforce and to become productive citizens.

Ordnance Road Correctional Center: AACC in partnership with Anne Arundel County and the Department of Detention Facilities provides high-quality training for men and women incarcerated for 18 months or less. The training includes Adult Basic Skills, GED, computer literacy, and computer training that prepares individuals for industry certification which is critical for re-entry success.

AACC is the sponsor of Registered Apprenticeship Programs in Landscape Management Technician, Security Guard and Table Games Supervisor.

For information call 410-777-2325.

Corporate Training Group

The Corporate Training Group (CTG) provides state of the art training and business services to companies, organizations, entrepreneurs, and government agencies. Critical business skills such as leadership, supervision and strategic planning as well as customized classes to meet individual employer needs are available. Training and services can be brought to an employer's location or conducted online.

In addition to consultative and business services, CTG offers training in the following areas:

- Coaching (Engagement, Executive, Management, Mentoring)
- Command Spanish®
- Computer technology
- Critical business skills (such as communication, customer service, diversity, leadership, time management, sexual harassment prevention, etc.)
- Cybersecurity and Digital Forensics
- E-learning
- Health care and first responders
- Hotel, culinary arts and tourism
- Manufacturing
- Project management
- Sales

Training is also available upon request in many other instructional areas not listed above.

Training may be as short as a few hours or span several months depending on organizational goals and workforce development needs. Classes can be delivered at the client's place of business, online or at one of AACC's convenient

locations in Arnold, Glen Burnie or Hanover. Instructional formats vary to best match employees' learning styles. Instructors are content experts and excellent learning facilitators who combine outstanding academic credentials and teaching experiences with practical industry-based knowledge.

The Corporate Training Group maintains relationships with a network of organizations to augment funding and expertise, including the Maryland Department of Commerce, the Anne Arundel Economic Development Corporation, the Maryland Tech Council and the Anne Arundel Workforce Development Corporation. To arrange for a consultative meeting or to obtain information about the full array of business services and training opportunities, call 410-777-2325 or visit the CTG website.

Credit/Noncredit Share Classes

Credit/noncredit share classes at AACC allow students the opportunity to enroll in selected credit classes as a noncredit student. Credit/noncredit share classes are designated in the schedule of classes by a symbol --. If you enroll as a noncredit student, you do not earn academic credit but may receive Continuing Education Units (CEUs) in designated courses. CEUs are a nationally recognized measure of skills or work-related training. Courses in the arts, language and history are popular credit/noncredit share options. For more information on credit/noncredit share course offerings call 410-777-2325.

English Language Learning and Adult Education

Adult Basic Education (ABE)

Through funding provided by the Maryland Department of Labor, AACC is able to offer a robust program in adult basic skills (ABS) and GED test preparation at no cost to students at multiple locations around the County. Offerings include instruction in basic reading, writing and math and GED test preparation. For more information call, 410-777-2325 or e-mail gedprogram@aacc.edu.

English as a Second Language (ESL)

AACC offers two types of ESL programs designed to meet ESL learners at all levels: English Basic Skills (EBS) and English for Academic Purposes (EAP). Through funding provided by the Maryland Higher Education Commission, AACC is able to offer a robust EBS program for those in need of basic English instruction in reading, writing, grammar and conversation. Courses are offered at many locations around the County, as well as online, and there is no cost to students to participate. For non-native speakers interested in pursuing a traditional college path, AACC offers the EAP program. In the tuition-based EAP courses students take intermediate and advanced level ESL courses designed to prepare them for the rigor of college courses. For more information about ESL courses, call 410-777-2325.

Hotel, Culinary Arts and Tourism Institute

The Hotel, Culinary Arts and Tourism Institute (HCAT) offers an array of education and training to meet the hospitality, culinary and tourism needs of students and industry. In addition to American Culinary Federation Education Foundation (ACF) and the Accreditation Commission for Programs in Hospitality Administration (ACPHA) accredited Associate of Applied Science degree programs, HCAT offers credit certificates, noncredit cooking classes for beginner and accomplished home cooks, workforce development training, industry education/certification classes and customized business contract training. Classes are offered at the HCAT culinary center located at the Glen Burnie Town Center in commercial kitchen labs and technology-smart classrooms and additionally on the Arnold campus in the baking/pastry kitchen lab, culinary kitchen lab and wine demonstration café. HCAT credit degree and certificate programs are designated as statewide programs; therefore, students who live in Maryland counties where there is no public community college hotel/restaurant program may apply for a waiver of the out-of-county tuition differential for courses included in these programs. For additional information about the world-class hospitality programming, call

410-777-2325 or the toll-free hotline 1-866-456-HCAT (4228) or visit our HCAT website or on Facebook at www.facebook.com/AACCHCAT.

Casino Dealer School

Dealer School prepares students to become casino table games dealers in their state-of-the-art casino labs at the Arundel Mills location. Gaming is one of the fastest growing industries on the East Coast with six casinos in Maryland alone. Students can earn a Workforce Training Certificate in any of the seven different table games: Blackjack, poker, mini baccarat, carnival games, roulette, craps and pai gow poker, in preparation for employment as a casino dealer.

Apprenticeship training consists of systematic instruction and experience in all the practical aspects of work in a skilled vocation to persons entering or who are currently in the workplace. AACC is pleased to offer one-year apprenticeship training in casino gaming with a focus on the following courses: Pai Gow, Mini Baccarat, Roulette, Craps and Advanced Craps. The Maryland Apprenticeship and Training Council has dedicated its efforts to developing an efficient program of apprenticeship so that the apprentices of today, through a proven systematic program of schooling and on-the-job training, may become the qualified, all-around casino dealers of tomorrow. Approved by the Maryland Apprenticeship Training Council, apprentices receive a minimum of 190 hours of classroom training as well as a minimum of 2,000 hours of on-the-job training. Classes are offered mornings, afternoons and evenings, Monday through Friday. For information, call 410-777-2325 or visit our Dealer School website.

Lifelong Learning

Lifelong Learning offers individuals across the age spectrum the opportunity to improve personal well-being through short, non-credit classes, many of which are offered online. Students ages 16 and older can take classes in world languages, personal finance, fitness, history, writing and more. There is something for everyone and many classes offer CEU's. For more information, visit <http://www.aacc.edu/programs-and-courses/personal-enrichment>

Kids in College

Kids in College offers courses to children up to age 18. Courses include science, mathematics, culinary arts, computers, culture, dance, music, writing, history and sports. Summer camp offerings expand learning opportunities with courses offered both online and in limited face to face half-day and full-day formats. Topics include space exploration, computers, dance, theater, environment, games, and various sports.

EXPLORE for Youth in Grades K-5

Since the mid-1980s, EXPLORE has offered enrichment courses to gifted and talented elementary school students in partnership with Anne Arundel County Public Schools. Summer courses focus on STEAM topics, computers, writing and art.

Middle School Scholars for Youth in Grades 6-8

In partnership with Anne Arundel County Public Schools, Middle School Scholars offers gifted middle school students, STEAM classes, sciences, mathematics, environmental studies and theater arts courses. Classes are held in limited face to face format during the summer at the Arnold campus.

For information on all youth education offerings, call 410-777-2325 or visit the Kids in College website.

Classes for Older Adults

The college has one of the nation's largest and most varied programs for adults ages 55 and older. Courses focus on personal growth, life and work challenges, and personal enrichment. Classes are offered online, at local Senior Centers,

as well as at the Arnold campus. Individuals age 60 and older may be eligible for free tuition. Information is available through the LifeLong Learning office at 410-777-2325 or at the LifeStages website.

LifeStages

LifeStages is a program for middle-aged and older adults. Courses focus on topics such as career transitions, caring for aging parents, retirement planning, and challenges and opportunities unique to older adults. For more information call 410-777-2325 or visit LifeStages.

Seniors

AACC offers noncredit courses in health and wellness, art, history, technology, languages, literature and more. Classes are held online, at area senior centers and the Arnold campus. Quarterly registration fee is required and the tuition portion of course cost is waived for those 60 and over. For information call 410-777-2325 or visit the Seniors website.

Peer Learning Partnership

A community of peers organized to develop opportunities for intellectual development, cultural stimulation, personal growth and social interaction in a college setting. Members lead the program and volunteer their time, skills, and talents to gain and share knowledge. Using a collaborative format for learning, the PLP provides an interactive setting in which members can volunteer as course facilitators. For more information call 410-777-2325 or visit the Peer Learning Partnership website.

Guild for LIFE

The Guild for LIFE (Learning is for Everyone) sponsors a series of lectures and tours. Lectures on selected topics are held followed by a trip to a related location the following week. Meetings and class sessions are held online, in west Anne Arundel County, and on the Arnold campus. Transportation is provided and entrance fees and meals are additional. For more information, call 410-777-2325 or visit the Guild for LIFE website.

Academic Regulations

Academic Integrity Policy

Anne Arundel Community College, with a central mission of producing learning and a belief that individuals be given the opportunity to fully develop their potential, is committed to upholding rigorous and fair standards of student learning and achievement. Achieving successful student learning is dependent upon a dedication to academic integrity on the part of all members of the college community. Without academic integrity, students gain unfair advantage over others and impede their own development. In support of this aim, Anne Arundel Community College requires all students to exhibit academic integrity in all their academic work.

A culture of academic integrity, a unifying principle in this and all academic communities, is built upon respect for others' work, commitment to doing one's own work, and intolerance for academic dishonesty in all its forms.

Acts of academic dishonesty include, but are not limited to:

- A. Cheating, which is the use or attempted use of unauthorized material, information, electronic device, implement or study aid in an academic exercise or assignment without the instructor's permission;
- B. Plagiarizing, which is the unacknowledged or improperly cited adoption or reproduction of the ideas, words, data or statements of others, including fellow students and internet sources;
- C. Fabricating or falsifying, which is the unauthorized falsification or invention of any data, information or citation in an academic exercise;
- D. Impersonating, which is assuming another student's identity or allowing another student to do so for the purpose of fulfilling an academic requirement;
- E. Facilitating, which is helping or attempting to help another commit an act of academic dishonesty.

The Board of Trustees hereby authorizes the President, or his/her designee, to develop and establish appropriate procedures to implement and enforce this policy. Anne Arundel Community College periodically reviews and updates its policies and procedures. Please see Academic Integrity Procedures for investigative adjudication and resolution of an alleged academic dishonesty.

Academic Integrity Procedures

ACADEMIC INTEGRITY PROCEDURES

3.1 CONFERENCE

When academic dishonesty is alleged, the student involved shall have an opportunity to admit or deny the allegation. In a timely manner, the instructor shall confer with the student, explaining the reasons why he or she believes that the student has committed the act of academic dishonesty and what academic sanction could be imposed by the instructor. In online courses only, a conference may be conducted using the learning management system. The instructor has the right and obligation to impose a reasonable academic sanction including, but not limited to, the following:

- A. Assign a grade of failing for the assignment;
- B. Assign a grade reduction for the course;
- C. Assign a failing grade for the course; or
- D. Assign an alternative learning experience or activity which shall be completed by the student as specified by the instructor. If the instructor believes that there is sufficient evidence of academic dishonesty, he/she shall then proceed

as outlined in

Section 3.2.

3.2 NOTICE OF ACADEMIC DISHONESTY REPORT

A. In all incidents of academic dishonesty, the instructor shall record the incident on the "Notice of Academic Dishonesty" report and note on the report any recommended academic sanction(s).

B. If the student admits academic dishonesty and accepts the academic sanction imposed by the instructor, it shall be so noted on the "Notice of Academic Dishonesty" report and the matter shall be closed after compliance with Section 3.2(D) and Section 3.3(B)(1).

C. In cases in which the student denies the allegations of academic dishonesty or admits academic dishonesty but challenges the academic sanction imposed by the instructor, the instructor shall record a grade status "NG" (meaning No Grade) on the "Notice of Academic Dishonesty" report and after compliance with Section 3.2(D), the matter shall proceed in accordance with the procedures hereafter.

D. In cases under 3.2(B) and 3.2(C), the "Notice of Academic Dishonesty" report shall be completed, dated and signed by both the instructor and the student at the completion of the conference required by Section 3.1. The instructor and the student shall each retain a copy of the report. Should the student refuse to sign the report, the instructor shall so indicate on the report. Within three (3) working days from the date of the report having been signed, the instructor shall forward copies of the report to the academic department chair and the college representative (Section 3.3).

E. In the event the student suspected of academic dishonesty is unavailable for the conference, in accordance with Section 3.1, the instructor shall record a grade status of "NG" and forward copies of the report to the academic department chair and the college representative. The "NG" status shall be assigned as the term grade pending the outcome of a hearing by the Student Review Committee (Section

3.4; 3.5) or a resolution in accordance with Section 3.2(B).

F. If within twenty (20) working days of the notice being sent to the student, in accordance with Section 3.3(B) (3), a resolution under 3.2(B) is not reached or a hearing is not conducted due to either nonavailability of the student or lack of response from the student, the NG status shall be changed to an F grade no later than one month after the start of the next regular term.

G. If a student withdraws from a course under a pending charge of academic dishonesty, the resulting grade of "W" may be changed to an "F" by the instructor at the end of the current term unless the student chooses to contest the charge, pursuant to the procedures governing academic dishonesty, and is successful in his/her defense. A withdrawal from a course under a pending charge of academic dishonesty shall serve as a de facto admission of the guilt absent a successful contest of the charge. From the moment an alleged incident of academic dishonesty occurs, a charge is considered pending. Additionally, a student cannot evade a sanction by withdrawing from a course after admitting guilt and accepting the sanction on the Notice of Academic Dishonesty.

3.3 COLLEGE REPRESENTATIVE

A. The vice president for learning shall designate as the college representative a dean who holds membership in the Council of Deans. He/she shall not be a member of the Student Review Committee.

B. Duties of the College Representative:

1. In cases under 3.2(B):

a. To receive and file the "Notice of Academic Dishonesty" report(s). If there are no prior "Notice of Academic Dishonesty" report(s) filed on the student, the matter shall be closed.

b. If the student's file contains a prior "Notice of Academic Dishonesty" report(s) evidencing that the student committed a prior act(s) of academic dishonesty, or if the current offense is determined to be very serious, the college representative shall review the "Notice of Academic Dishonesty" report(s) to determine the appropriateness of a hearing to consider imposition of a disciplinary sanction(s). The college representative also shall investigate a student's academic background, additionally considering what a student knew or should have known regarding the offense. If the college representative determines that a hearing is not appropriate, he/she shall write a report indicating that a review has been conducted, setting forth the reasons to support his/her decision. This report shall be placed in the student's file, and the matter shall be closed. If the college representative determines that a disciplinary sanction may be appropriate, the matter will be decided by the Student Review Committee in a hearing procedure.

c. If the college representative determines, based on his/her review, that a hearing to consider disciplinary sanctions is appropriate, the college representative shall notify the student by mail that a hearing will be held before the Student Review Committee. The college representative shall forward a written request to the chair of the Student Review Committee, with a copy to the student, and request a hearing date. Thereafter, the college representative shall handle the matter in accordance with the procedures under 3.3, the only difference being that the issue to be presented to and decided by the Student Review Committee shall be limited to whether or not, based on the present act of academic dishonesty noted in the "Notice of Academic Dishonesty" report under 3.2(B), and the reports of prior proven act(s) of academic dishonesty contained in the student's file, imposition of a disciplinary sanction is warranted. All other procedures regarding hearings and appeals shall be applicable to this situation.

2. In cases under 3.2(C) to:

a. Receive and file the "Notice of Academic Dishonesty" report(s).

b. Within seven (7) working days of receipt of the report, forward a copy of same to the chair of the Student Review Committee and request, in writing, a hearing date.

c. Contact the instructor, meet witnesses and collect any relevant evidence pertaining to the case.

d. Act as the college advocate, prepare the case for hearing and present the case at the hearing before the Student Review Committee.

e. Within three (3) working days of receipt of the notice of hearing from the Student Review Committee, notify the student, by mail, of the hearing. The notice shall include the time, date, and place of the hearing. It shall also include the copy of the "Notice of Academic Dishonesty" report along with a copy of this policy and procedures. Notice of hearing shall also be forwarded to the instructor and academic department chair. A student must respond to the notice of hearing within twenty (20) working days of the notice being sent. If the student does not respond to the notice of hearing, or responds yet chooses not to attend the hearing, the hearing will proceed without the student's participation. In the case of online courses only, official notice of hearing may be sent via the learning management system.

3. In cases under Section 3.2(E) receive and file the "Notice of Academic Dishonesty" report. Within three (3) working days of receipt of such report, forward a copy of same to the student by regular mail. If the unavailable student, upon notification and within the time limits as expressed in Section 3.2(F), admits academic dishonesty and accepts the academic sanction imposed by the instructor in accordance with 3.2(B), the college representative shall file the "Notice of Academic Dishonesty" report. The report must be completed by the instructor and the matter shall be handled in accordance with Section 3.3(B) (1) (b). If the student requests a hearing, the college representative shall follow the same procedures as in 3.3(B) (2).

4. Within three (3) working days from date of receipt of the decision of the Student Review Committee [Section 3.5(I)], forward a copy of same to the student by mail. A copy shall also be forwarded to the instructor and academic department chair.

5. In all cases of appeal to the vice president for learning, forward all relevant materials to the vice president for learning in accordance with Section 3.6(B).
6. Place copies of all materials and decisions relating to academic dishonesty matters in the student's file. Student files relating to academic dishonesty shall be retained for five (5) years, after which they shall be destroyed.
7. Maintain the confidentiality of student academic dishonesty files except for use as provided by this policy and procedures.

3.4 THE STUDENT REVIEW COMMITTEE

The Student Review Committee, an established committee at the college, shall act as a hearing board to hear all academic dishonesty cases in which a hearing is required under these procedures (see Academic Forum charter regarding the composition of the committee).

3.5 HEARINGS

A. Within seven (7) working days of receipt of the "Notice of Academic Dishonesty" and request for hearing forwarded by the college representative [Section 3.3(B) (2) (b)], the chair of the Student Review Committee shall notify the college representative, in writing, of the date, time and place of the hearing. Said hearing shall not be scheduled earlier than ten (10), nor later than twenty (20), working days from the date of notice of hearing.

B. Once begun, hearings shall be conducted on consecutive working days until completed, except in cases of health or personal emergency. The hearing shall be completed as expeditiously as possible.

C. Hearings shall be closed to all except the parties and their advisers, if any, and witnesses. The student and the committee may each have an individual in an advisory role present at the hearing; that individual may be an attorney. The adviser(s) shall not function as an advocate at the hearing. The student must present his/her own case and question all witnesses.

D. The chair of the Student Review Committee shall govern all proceedings at the hearing. At the hearing, the college representative, on behalf of the college administration, shall have the burden of proof to establish by a preponderance of the evidence that an offense of academic dishonesty has occurred. The instructor shall have the right to participate with the college representative in the presentation of the evidence.

E. At the hearing, the Student Review Committee shall not be bound by strict rules of legal evidence and may admit any evidence or testimony it considers to be of value in determining the issues involved. Every effort shall be made to obtain the most reliable evidence available.

F. The hearing shall be recorded. The college representative shall arrange and the college shall pay for such recording. If the student requests a copy of the recording, it shall be provided.

G. No later than seven (7) working days after conclusion of the hearing, the Student Review Committee shall determine, based solely on the evidence presented at the hearing, whether or not the college representative has established by a preponderance of the evidence that an offense of academic dishonesty has occurred. If the student is found to have committed an act of academic dishonesty, the Student Review Committee shall adopt the academic sanction recommended by the instructor, unless the committee determines that the academic sanction recommended by the instructor is unreasonable. In this event, the committee shall consult with the instructor in an attempt to arrive at a more reasonable academic sanction. If the instructor and Student Review Committee cannot come to a consensus on the academic sanction, then the committee shall impose the academic sanction it believes to be reasonable. The committee may not make the sanction more severe. The "NG" status on the "Notice of Academic Dishonesty" shall then be changed to a grade consistent with the academic sanction imposed by the Student Review Committee. If the student is found not to have committed the act of academic dishonesty, the "NG" status shall be replaced by the grade the student had for the assignment(s) in question, if a grade had been assigned prior to the allegation of academic dishonesty. If no grade had been assigned earlier, the instructor shall review the material and assign a suitable grade based solely on the quality of work by the student.

H. In addition to academic sanction(s), when deemed appropriate by the Student Review Committee, a disciplinary sanction (Student Conduct Code) may be imposed on the student found to have committed an act of academic dishonesty. In determining whether a disciplinary sanction is appropriate, the Student Review Committee shall have the right to review any other "Notices of Academic Dishonesty" filed with the college representative.

I. The Student Review Committee shall record its specific findings of fact and decision in a written memorandum, which shall be forwarded to the college representative no later than seven (7) working days after conclusion of the hearing.

3.6 APPEAL FROM DECISION OF THE STUDENT REVIEW COMMITTEE

A. The student shall have the right to appeal to the vice president for learning. The appeal shall be made within ten (10) working days from the date that the decision was forwarded to the student by the college representative in accordance with Section 3.3(B) (4). The appeal shall be in writing setting forth the basis for the appeal. The appeal must be received by the vice president for learning within the time limit established herein.

B. Upon receipt of the written appeal, the vice president for learning, or his/her designee(s), shall forward a copy to the college representative and request copies of the decision of the Student Review Committee and all material provided to the Student Review Committee at the hearing.

C. The vice president for learning, or his/her designee(s), shall review the written decision of the Student Review Committee and the written appeal of the student. The vice president for learning, or his/her designee(s), shall have the right, but not the obligation, to review only the material, including the taped testimony, provided to the Student Review Committee at the hearing.

D. The vice president for learning, or his/her designee(s), shall complete the review and issue a written decision within twenty (20) working days of receipt of the student's appeal.

E. The vice president for learning, or his/her designee(s), shall forward a copy of the written decision to the student by mail within three (3) working days from the date of the decision. A copy shall also be forwarded to the college representative, instructor and the academic department chair.

F. The written decision of the vice president for learning, or his/her designee(s), shall be final.

Academic Regulations on Admissions

Assessment Testing

All students who wish to pursue a degree or certificate must be assessed. Students may retest for English and/or reading one time. Retesting in English/reading is not allowed after attending or starting English or reading classes. Students seeking a retest in mathematics must first successfully complete the appropriate noncredit review course. Retesting in mathematics is not allowed after enrollment in mathematics classes. Attempting to take an assessment test more than the approved policy allows violates the college's Academic Integrity Policy. Any assessment test score which is found to be the result of unauthorized repeat testing will be discarded.

Class Standing (Freshman vs. Sophomore)

Students who have been admitted to the college are classified as follows: 0 to 27 credit hours earned - first-year student (freshman); 28 or more credit hours earned - second-year student (sophomore).

Hours Attempted and Earned

Hours attempted means the total number of credit hours in all the credit courses (numbered 100-299) for which students receive one of the letter grades listed under Grades and Quality Points.

Hours earned means the total number of credit hours in all the credit courses (numbered 100-299) for which students receive a letter grade of D or higher. No credit hours are earned with a grade of F or FX or a grade designator of W, WP or WF.

Each grade report shows the credit hours attempted and earned for the term. Grade reports can be accessed through the student's MyAACC page under Self Services.

Equivalent Hours (for developmental courses)

The college offers developmental courses and some courses for which academic credit is not granted. These are known as equivalent hour courses. Hours spent in equivalent courses are not included in hours attempted, hours earned or in computation of the grade point average. They are counted in computing total course load and tuition. This means that students who are limited to a maximum number of credits may take only that total of combined credit and equivalent hours.

Placement Status Maximum Concurrent Credit Hours Limits by Session Length

The chart below documents the maximum number of credits for which a student may be concurrently enrolled based on their placement status and the length of the session in which the course(s) is scheduled.

Status/Standing	13-15 Week Session	5-12 Week Session	4 Week or Less Session
English Composition Eligible	18	10	6
Provisional	13	10	4

Note: Academic standing also impacts the maximum credit hours per term.

An exception to the limitation on credit hours may be granted by an academic advisor for a student with English Composition Eligible status if the student has an adjusted cumulative grade point average (GPA) of 3.00 or higher that includes at least one full-time term of courses for which a GPA of 3.00 has been earned.

Credit and equivalent hours are noted near course titles in the Courses section of this catalog. Limitations on credit hours are calculated as the sum of all the credit hours and equivalent hours, for which a student registers for a given term.

Re-Enrollment/ Forgiveness of Courses/ Academic Clemency

Academic Clemency is designed to provide former Anne Arundel Community College credit students, who have not been enrolled at the college for a minimum of five years, an opportunity to return to Anne Arundel Community College without the burden of previous poor academic performance (i.e., grades of D, F or FX). Upon re-enrollment at Anne Arundel Community College after at least a 5 year absence, students who have demonstrated academic progress by completion of a minimum of 12 credits with a minimum grade of "C" in all courses attempted, may petition the Committee on Academic Standards for Academic Clemency. If the Committee on Academic Standards approves the request for Academic Clemency, the student may choose a maximum of 15 credits be forgiven based on Academic Clemency. The 15-credit clemency is intended as a one time use regulation per student. The courses will still appear on the student's transcript, but are marked as forgiven based on Academic Clemency and not included in the adjusted grade point average. Courses that are forgiven for Academic Clemency cannot be applied towards a degree or certificate. Academic Clemency may only be granted to courses taken at Anne Arundel Community College and only to students currently enrolled at the college. The request for Academic Clemency must be approved prior to the student being awarded a degree or certificate and may be granted one time only. Developmental courses will not be considered for Academic Clemency.

Regardless of whether classes and grades are forgiven by AACC, all attempted classes and grades will be included in the calculation of Satisfactory Academic Progress and used to confirm eligibility for Financial Aid. The calculation

utilizing all grades for required courses is consistent with the U.S. Department of Education Regulations. Students should consult with the Financial Aid Office regarding individual circumstances.

Academic Regulations on Education Records, FERPA & Transcripts

- Confidentiality
- Education Records
- Enrollment Verification/Full-Time, Part-Time Student Status
- Directory Information
- FERPA: Family Educational Rights and Privacy Act
- Law Enforcement Unit Records
- Transcripts
- Transfer Credit for Students Transferring In

FERPA: Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, is a federal law which concerns the confidentiality of student education records.

AACC Policy

The policy of the college is to protect and distribute a student's educational records, including, but not limited to, any personally identifiable information, in accordance with the federal Family Educational Rights and Privacy Act.

The Board of Trustees hereby authorizes the President, or his/her designee, to develop and establish appropriate procedures to implement and enforce this policy. A student's FERPA rights begin on the first day the student begins attending classes at AACC.

Attendance Records

- Attendance will be taken and recorded in all classes.
- The registrar reserves the right to deny certification of attendance or withdraw such certification due to unacceptable absences in classes and/or lack of substantive participation in distance education courses.

Change of Name, Address and Phone

Students are required to notify the Records and Registration office of changes including name, address or telephone number. Students should complete the demographic information change form or use MyAACC. The college uses United States Postal Service standard address abbreviations and spellings.

Requests for name changes must be accompanied by supporting documentation consistent with the U.S. Department of Education Regulations. In order to change a first name, students must submit an official court document, marriage certificate, or certificate of naturalization. Changes to last name require an official court document, marriage certificate, or driver's license.

Please note: Post office boxes may be used as mailing addresses, but cannot be used as a legal address for residency purposes. Students who wish to receive college mail at a post office box must submit proof of legal residence before the post office box can be used.

Change of Program/Major

Students are admitted to the college in an academic program specified in their original application. Students are encouraged to meet with an academic advisor prior to changing their program of study. Those who wish to change their program must submit a program of study change form to the Records and Registration office. Those students who are admitted in Exploration programs of study are required to change their area of study before earning 20 credits.

Enrollment Verification/Full-Time, Part-Time Student Status

Request official verification of enrollment at the Records and Registration office. Anne Arundel Community College designates a full-time student as one enrolled for the equivalent of 12 credit hours. Students enrolled for fewer than 12 credit/equivalent hours are classified as part-time. Some health professions students registered in a clinical sequence course are considered full-time when enrolled in fewer than 12 credit hours.

Education Records

Education records include any record maintained by the college directly related to a student or students. These records include admission, academic, billing, financial aid, advising, and placement testing. In accordance with State Law COMAR 13B.01.01.11 Anne Arundel Community College permanently maintains adequate and accurate student records within the student information system. FERPA gives students the right to inspect and review information contained in their own education record, to challenge the content of the records, and allows for a formal hearing if resolution is not met. The registrar coordinates the inspection and review process for student education records.

Confidentiality

The college does not disclose information from a student's education record without the student's written consent. Exceptions may include: to college officials with a legitimate educational interest; when providing directory information; in compliance with the Solomon Amendment; to those who, in an emergency, must protect the health or safety of students or others; and as authorized in the federal regulation.

Directory Information

FERPA allows the registrar to release student directory information. This information may include name, address, AACC ID#, AACC email address, telephone numbers, program of study, full-time or part-time enrollment status, terms enrolled, degrees and honors earned, and participation in officially recognized college activities or sports. The college typically releases only name, terms enrolled, full-time or part-time enrollment status, and degrees earned as directory information. To have directory information withheld, notify the registrar in writing. Anne Arundel Community College does not generally provide student directory information when it is requested for solicitation and/or commercial purposes.

Law Enforcement Unit Records

The college may disclose law enforcement unit record to anyone, including federal, State, or local law enforcement authorities, without the consent of student or parent. A law enforcement record is defined as a record that is: created by the law enforcement unit; created for a law enforcement purpose; and maintained by the law enforcement unit.

Transcripts

Request copies of official academic transcripts online at <https://www.aacc.edu/resources/student-records/request-a-transcript/>. Official academic transcripts are only issued for students who have taken coursework at Anne Arundel Community College.

The college reserves the right to withhold official transcripts and other services from students in debt to the college. Students may discuss these actions with the vice president for learner support services or the vice president's designee.

Consistent with Title 13B of the Annotated Code of Maryland (13B.06.01.04.), transfer credit accepted by AACC shall be considered equivalent in all aspects as native credit earned at AACC.

Academic Regulations on Grades & GPA

Credit Hours

A credit hour is the unit by which academic work is measured. Each course is assigned a number of credit hours and these are specified in the section of this catalog titled Courses. A student enrolled in a face-to-face course should expect approximately 15 hours of instruction for each credit hour.

See also, Hours Attempted and Earned & Equivalent Hours.

Hours Attempted and Earned

Hours attempted means the total number of credit hours in all the credit courses (numbered 100-299) for which students receive one of the letter grades listed under Grades and Quality Points (see Grades and Quality Points).

Hours earned means the total number of credit hours in all the credit courses (numbered 100-299) for which students receive a letter grade of D or higher. No credit hours are earned with a grade of F or FX or a grade designator of W, WP or WF.

Each grade report shows the credit hours attempted and earned for the term. Grade reports can be accessed in MyAACC Self Services.

Equivalent Hours

The college offers developmental courses and some courses for which academic credit is not granted. These are known as equivalent hour courses. Hours spent in equivalent courses are not included in hours attempted, hours earned or in computation of the grade point average. They are counted in computing total course load and tuition. This means that students who are limited to a maximum number of credits may take only that total of combined credit and equivalent hours.

GPA and Good Academic Standing

Students who have an adjusted cumulative GPA below a 2.0 are placed on academic probation. Students on academic probation may enroll in up to 13 credit hours during a 13-15-week session, up to 7 credit hours during a 5-12-week session, and up to 4 credit hours during a 4-week or less session.

Students who have an adjusted grade point average (GPA) of 2.0 or higher are in good standing. Students' academic standing cannot be changed until 12 credit hours of credit courses have been attempted. Thereafter, students are governed by the academic standing table which follows.

After any change in academic standing, no further change can be made until at least 12 more credit hours have been attempted. However, students may be removed from academic probation at the end of any term during which their overall grade point average is a 2.0. Students on probation who achieve a term GPA of 3.0 or better, while earning at least nine hours of credit during one term, will be in good standing for the following term.

The academic standing of students whose grade point average is below 2.0 is determined by the following table.

Academic Standing Table

Adjusted Cumulative Credit Hours Attempted	Adjusted GPA for Probation	Adjusted GPA for Dismissal
0-11	0-1.99	
12-14	1.00-1.99	.99 or less
15-17	1.15-1.99	1.14 or less
18-20	1.34-1.99	1.33 or less
21-23	1.40-1.99	1.39 or less
24-26	1.50-1.99	1.49 or less
27-29	1.56-1.99	1.55 or less
30-32	1.60-1.99	1.59 or less
33-35	1.64-1.99	1.63 or less
36-38	1.67-1.99	1.66 or less
39-41	1.69-1.99	1.68 or less
42-44	1.76-1.99	1.75 or less
45-47	1.80-1.99	1.79 or less
48-50	1.81-1.99	1.80 or less
51-53	1.82-1.99	1.81 or less
54-56	1.85-1.99	1.84 or less
57-59	1.89-1.99	1.88 or less
60 or above	1.90-1.99	1.89 or less

Note: Students who earned a term GPA of at least 2.0 will not be dismissed, regardless of their position in the academic standing table.

An adjusted cumulative grade point average of at least 2.0 is required for graduation.

These Academic Standing, Probation, Dismissal and Reinstatement policies apply to all AACC students, but students who receive financial aid are also subject to the more stringent "Financial Aid Satisfactory Academic Progress (SAP) Policy" on the Financial Aid webpage.

Grades and Quality Points

A letter grade is assigned for each course in which students are enrolled at the end of the term. A grade submitted by the faculty member can be viewed in a student's MyAACC account. The MyAACC term grade report page is printable or a student may request a mailed paper copy of all grades for the term. A quality point value per credit hour in the course is assigned to each letter grade. These are summarized below.

Letter Grade	Meaning	Quality Point Value per Credit Hour in Credit Courses
A	Excellent	4
B	Good	3
C	Average	2
D	Poor	1
F	Failing	0
FX	Failure due to never having attended or ceasing to attend class at or before the midpoint of the course. In the case of students in distance learning courses, an FX grade may be awarded to students who have never participated or ceased to participate in the course.	0

The number of quality points earned for each credit course is the product of the credit hour rating of the course multiplied by the quality point value of the letter grade assigned. For example, students who complete a three-hour credit course with a C grade earn three times two, or six quality points; those who complete a four-hour credit course with a B earn four times three, or 12 quality points. The calculation of a student's adjusted GPA does not include the grade designations as listed below). See an academic advisor with any questions.

Anne Arundel Community College recommends that students read grade requirements for all AACC courses and majors. Some courses and majors have grade requirements for students to receive credit for achieving State of Maryland general education standards, to advance to a subsequent course, to be admitted to a particular major and/or to graduate from a particular major.

Students seeking credit for transferring in courses should refer to Credit for Previous Learning catalog page.

Grade designations not included in the calculation of the GPA.

AU	Audit
CO	Continue

I	Incomplete
NG	No Grade
PA	Pass (equivalent to a grade of C or better)
Q	Academic Clemency
R	Repeat
S	Satisfactory progress
TR	Course accepted in transfer
U	Unsatisfactory progress
UX	Unsatisfactory due to lack of attendance
W	Withdraw
WP	Withdraw Passing
WF	Withdraw Failing
Y	Course forgiveness

Pass/Fail Grades

The PA grade represents a grade of C or better in courses designated Pass/Fail (PA/F).

Students with a PA grade earn the stated number of credit hours, but a PA grade has no quality point value and is not computed in the grade point average (GPA).

Change of Grades

The instructor of a course is the only individual authorized to assign a grade or to change a grade. Once a grade has been assigned and entered into a student's record, an instructor may request the registrar to make a grade change only if there has been an error in the determination of the grade. Otherwise, a grade once entered is final and shall not be changed except when it can be unequivocally demonstrated that it was physically or emotionally impossible for the student to file a withdrawal form because of incapacity or sudden, forced departure from the area. In such a case, the student may petition the Committee on Academic Standards to authorize the instructor to change a grade of F to WP (withdraw passing) or WF (withdraw failing).

Should a student have a grievance about an assigned grade or evaluation rating, the student should follow the grievance about academic assessment procedure.

Incomplete Work

The grade designator of I (incomplete) is assigned only in exceptional circumstances and is a temporary grade indicator. An incomplete must be requested by the student and may be taken only with permission and cooperation of the instructor. A grade indicator of I will be given only to students who cannot complete the work of a course on schedule because of illness or other circumstances beyond their control. Unless the work is completed by the date

approved by the instructor in the course, but not later than 30 days after the beginning of the next 15-week term, a grade of F will be recorded for the course.

Interim Grades

Faculty submit interim grades for every student on the current class roster for sessions of 10 weeks or longer. Interim grades are due after one third of the session has been completed.

Student progress to date will be indicated by the following grade indicators:

- S Satisfactory progress (current grade C or better)
- U Unsatisfactory progress (current grade less than C)
- UX Unsatisfactory due to lack of attendance

Grade Point Average (GPA) and Quality Point Total

The grade point average and credit calculations on the Anne Arundel Community College transcript include only credit courses taken at Anne Arundel Community College.

- *Quality point total* is the number of quality points a student earns. Each grade report shows the student's quality point total for the term and the cumulative quality point total since admission.
- *Grade point average (GPA)* is calculated by dividing the total quality points by the total credit hours attempted.
- *Total cumulative grade point average* includes all attempts in all credit courses for which students receive letter grades of A, B, C, D, F or FX.
- *Adjusted cumulative grade point average* does not include the previous grade(s) earned in a course when the course has been repeated (R), forgiven (Y), or which has been granted academic clemency (Q). See grade calculations not included in the GPA above.

Forgiveness of Courses

Students who have demonstrated academic progress in a new program of study may petition the Committee on Academic Standards to request academic forgiveness of courses that cannot be applied to meet a program requirement in their new program of study. If the Committee on Academic Standards approves the request for academic forgiveness, the courses will still appear on the student's transcript, but are marked as forgiven and are not included in the adjusted grade point average. It is important to note that all courses not applicable to the new program of study will be forgiven, regardless of grade earned. In some cases, this procedure will have a negative effect on the student's adjusted grade point average. All requests must be carefully reviewed with an academic advisor before submitting a petition.

Some courses restrict award of credit based on overlap of content as noted in the course description. Students who take two courses for which they cannot receive credit for both will have one of the courses marked as forgiven. However, both grades remain on the student's record and transcript.

Courses cannot be forgiven after a degree or certificate has been awarded. However, a student who has demonstrated progress toward a new program of study may request course forgiveness for courses that could not be applied to a previously awarded degree or certificate.

Please note: Having courses forgiven will usually not resolve any Financial Aid Satisfactory Academic Progress (SAP) violations caused by the forgiven courses. If courses are forgiven, the Financial Aid SAP Policy will use the

new adjusted grade point average, but the forgiven course credits will still be counted as attempted credits. See Financial Aid webpage for more information.

See also: Re-Enrollment/Forgiveness of Courses/Academic Clemency due to meeting Academic Committee Standards guidelines.

Academic Clemency

Academic Clemency is designed to provide former Anne Arundel Community College credit students, who have not been enrolled at the college for a minimum of five years, an opportunity to return to Anne Arundel Community College without the burden of previous poor academic performance (i.e., grades of D, F or FX). Upon re-enrollment at Anne Arundel Community College after at least a 5 year absence, students who have demonstrated academic progress by completion of a minimum of 12 credits with a minimum grade of "C" in all courses attempted, may petition the Committee on Academic Standards for Academic Clemency. If the Committee on Academic Standards approves the request for Academic Clemency, the student may choose a maximum of 15 credits be forgiven based on Academic Clemency. The 15-credit clemency is intended as a one time use regulation per student. The courses will still appear on the student's transcript, but are marked as forgiven based on Academic Clemency and not included in the adjusted grade point average. Courses that are forgiven for Academic Clemency cannot be applied towards a degree or certificate. Academic Clemency may only be granted to courses taken at Anne Arundel Community College and only to students currently enrolled at the college. The request for Academic Clemency must be approved prior to the student being awarded a degree or certificate and may be granted one time only. Developmental courses will not be considered for Academic Clemency.

Regardless of whether classes and grades are forgiven by AACC, all attempted classes and grades will be included in the calculation of Satisfactory Academic Progress and used to confirm eligibility for Financial Aid. The calculation utilizing all grades for required courses is consistent with the U.S. Department of Education Regulations. Students should consult with the Financial Aid Office regarding individual circumstances.

Repetition of Courses

Students may repeat a class one time only, regardless of the grade earned, unless otherwise stated in the course description. When a student repeats a course at Anne Arundel Community College, the most recent grade from Anne Arundel Community College is used to compute the adjusted GPA. However, grades for each attempt remain on the student record and transcript. Students who wish to repeat a course must repeat the course at Anne Arundel Community College for the repeat policy to apply. Grades earned at other institutions in courses for which grades were earned at Anne Arundel Community College do not adjust the grades earned at Anne Arundel Community College, nor do they alter the grade point average. To request to repeat a class more than one time, a student must meet with an academic advisor to petition the Committee on Academic Standards. Students may repeat developmental ENG and ACL courses until successful completion, with no limitation on the number of attempts and without filing a petition. Students should be aware that federal financial aid regulations limit the number of times a student can receive federal financial aid for a graded class.

Dean's List/Honors List

The dean's list includes full-time students taking 12 credits with a GPA of 3.4 or higher for the previous term. The honors list includes part-time students carrying at least six credit hours with a GPA of 3.4 or higher for the previous term.

Military Deployment (accommodations, withdrawals & incompletes)

Reasonable accommodation will be granted to students showing satisfactory academic progress who are called to military service (appropriate documentation is required). All active duty and reserve military students should check with instructors on or before the first day of class to determine course policy with regard to short term deployment (e.g. the attendance policy for the course). Most courses are structured such that a single deployment of one to two weeks during a term allow for the student to complete the work missed upon return or take an incomplete. Incompletes may be taken only with permission and cooperation of the instructor and must be requested by the student. It is the responsibility of the student to complete all work missed whether taking an incomplete or completing the work in a timely manner within the term enrolled. Students taking an incomplete should refer to the Incomplete Work section. Student communication with the instructor is key.

However, a few courses have internal or external requirements such that make-up work cannot be accommodated. Students deployed while taking such a course must withdraw (see below). Students showing satisfactory academic progress and having to leave a program due to military service requirements must withdraw from the course(s) and will be allowed to re-enter the program by retaking the course or courses from which they had to withdraw. There are courses in some programs in which the student may be able to take an "incomplete" and finish the course in cooperation with the instructor, even with deployments that extend beyond one to two weeks of time. Military students suspending studies in courses with required lab components, clinical components, and/or competency requirements will be allowed re-entry provided the student meets standard departmental and/or program entry requirements. The student will be re-entered into an open seat in the next available class cycle.

Academic Regulations on Graduation Requirements

Graduation Procedures

If a student and their advisor have determined that the student has fulfilled or will fulfill all graduation requirements by the last day of finals for the requested term, the student must submit an application for graduation according to the following schedule in order to be reviewed for graduation for the specified term. Students must complete and submit a graduation application regardless if they will attend the commencement ceremony. The college will not award a degree or certificate for a past semester or term. Students must submit a graduation application through MyAACC.

For **Spring** graduation: By March 1

For **Summer** graduation: By July 1

For **Fall** graduation: By Nov. 1

Applications are good for only one term. Students who do not qualify in the term for which they apply are required to reapply by the deadline for the term in which they will meet all the graduation requirements and wish to graduate.

Summer graduates, fall graduates and spring graduation candidates are invited to attend the spring commencement ceremony.

Students must be in good financial standing with the College, all accounts paid in full, to receive their diploma/transcripts and to attend the commencement ceremony.

Graduation Honors: Latin honors of cum laude, magna cum laude and summa cum laude indicate the level of academic distinction attained by the members of the graduating class who have completed an associate degree. These Graduation Honors are designated on a student's academic record based on all grades earned from Anne Arundel Community College at the time of award of degree. Graduation Honors are awarded to associate degree recipients whose adjusted cumulative grade point average (GPA) are:

- (a) 3.400 to 3.599 - cum laude;

(b) 3.600 to 3.799 - magna cum laude; and

(c) 3.800 to 4.000 - summa cum laude.

Courses Cancelled in Students' Final Term

Students, who in their last term before graduation, have a required course cancelled should immediately contact their department chair to request substitution of another course for graduation.

Associate Degree Requirements

To qualify for any associate degree, students must fulfill the following requirements:

1. Completion of a minimum of 60 credit hours, 15 of which must be earned at Anne Arundel Community College. A minimum of 30 of the required 60 credit hours must be earned through direct classroom instruction (including distance learning classes).
2. Achievement of an adjusted cumulative grade point average of 2.0 or higher.
3. Completion of the course and general education requirements of a program or curriculum as described in the college catalog. Any catalog may be used provided that it is for the current year or one of the four preceding academic years, and is for a year in which the student completed at least one credit or developmental class. On a student's application for graduation he/she will declare the catalog year to be used.
4. Submission of a graduation application through MyAACC by the deadline.

Additional Associate Degree

To earn more than one associate degree at Anne Arundel Community College, students must:

1. Fulfill all program requirements for each degree in accordance with college requirements as stated above.
2. Submit a graduation application through MyAACC by the deadline.

Similar Degrees (Registrar's Guidelines)

In cases where a similar degree, as determined by the Registrar, has been renamed from a previous catalog year, students can only receive that degree from one catalog.

Posthumous Degrees or Certificates

Anne Arundel Community College has authority to award posthumous degrees or certificates. Upon request of a family member the review and determination to award a posthumous degree or certificate will be conducted by the Registrar on a case-by-case basis.

Certificate Requirements

To qualify for a certificate, students must meet the following requirements:

1. Completion of the course requirements of a program as described in the college catalog. At least 25 percent of the total credit hours in the program must be earned at Anne Arundel Community College. Any catalog may be used provided that it is for the current year or one of the four preceding academic years, and is for a year in which the student completed at least one credit or developmental class. On a student's application for graduation he/she will declare the catalog year to be used.
2. Demonstrated eligibility for ENG 101/ENG 101A.
3. Achievement of an adjusted cumulative GPA of 2.0 or higher.
4. Submission of a graduation application through MyAACC by the deadline.

Students who qualify for graduation for a degree that has a stackable certificate may also be awarded the certificate.

Letter of Recognition

To qualify for a Letter of Recognition, students must complete the courses for the letter as stated under areas of study in the catalog. At least 50 percent of the total credit hours in the letter of recognition must be earned at Anne Arundel Community College. Students must apply for the letter of recognition at the Records and Registration office. (There is no fee for a letter of recognition.) Letters of recognition are not a formal award and therefore not noted on the official transcript.

Fast Track Option

For programs that have been identified as having a Fast Track Option, general education, diversity, technology and wellness requirements are considered satisfied for those students who have earned an associate, baccalaureate, or master's degree from a U.S. regionally accredited college or university and whose program of study included at least 20 credit hours of general education courses (excluding physical education activity courses). Students must fulfill all other graduation requirements. Official transcripts from all previous institutions attended must be submitted to the Records and Registration office.

Reverse Transfer Award of the Associate Degree

Reverse transfer award of the associate degree (reverse transfer) allows a student who transferred to a four-year institution prior to earning an associate degree to transfer credits back to Anne Arundel Community College to fulfill the remaining requirements for the associate degree while continuing to work toward a bachelor degree. The Records and Registration office reviews coursework from Anne Arundel Community College and the four-year institution to determine if the remaining course requirements have been completed at the four-year institution for the award of an associate degree. College transfer credit criteria and graduation requirements apply to reverse transfer students. Students should complete the reverse transfer degree application form found on the reverse transfer website and send all official transcripts to initiate the review.

Academic Regulations on Probation and Dismissal

Dismissal for Academic Reasons and Reinstatement

Students who have attempted 12 or more credit hours of credit courses and whose adjusted cumulative grade point average falls in the dismissal zone specified in the academic standing table will be dismissed. Students will not be subject to academic dismissal, however, until they have attempted at least 12 additional credit hours since their most recent change in academic standing (dismissal or probation).

First Dismissal - Students who have been dismissed one time from the college for academic reasons and who wish to be reinstated must:

1. Meet with an academic advisor to develop a suitable academic plan. The academic advisor will help the student identify strategies to assure academic success. The student will be directed to use college academic support services and encouraged to develop realistic goals.
2. After meeting with an academic advisor, the student will be permitted to register for courses. For the initial term returning after a first dismissal, readmitted students may register with the following restrictions:
 - Readmitted students may only register for two courses which must be repeats of courses in which they earned D or F grades. Both courses may be taken concurrently in terms of 13 weeks or longer. A course taken in a term of less than 13 weeks must be taken with no other concurrent courses.
 - The Student Success course (ACA 100) is strongly recommended and may be added as a third course.

Second Dismissal - Students who have been dismissed twice from the college for academic reasons and who wish to be reinstated must:

1. Sit out one 15-week term before being eligible for reinstatement.
2. Meet with an academic advisor to develop a suitable academic plan. The academic advisor will help the student identify strategies to assure academic success. The student will be directed to use college academic support services and encouraged to develop realistic goals.
3. After meeting with an academic advisor, the student will be permitted to register for courses in accordance with the restrictions for a First Dismissal.

Further Dismissals - Students who have been dismissed more than twice from the college for academic reasons and who wish to be reinstated must:

1. Sit out one 15-week term prior to meeting with an academic advisor.
2. Make a substantial case for reinstatement by meeting with an academic advisor. During this meeting, an advisor will help you access your academic standing, offer suggestions on the best presentation of your written appeal to the Committee on Academic Standards, assist you in creating a detailed educational plan, and help you develop an alternative plan in case you are not reinstated to the college. Any supporting documentation of serious circumstances that have affected your academic performance should be included in your appeal. The Committee will consider your circumstances prior to rendering a decision.

See also AACC Code of Student Conduct.

Academic Standing

Students who have an adjusted cumulative GPA below a 2.00 are placed on academic probation. Students on academic probation may enroll in up to 14 credit hours during a 13-15-week session, up to 7 credit hours during a 5-12-week session, and up to 4 credit hours during a 4-week or less session.

Students who have an adjusted grade point average (GPA) of 2.0 or higher are in good standing. Students' academic standing cannot be changed until 12 credit hours of credit courses have been attempted. Thereafter, students are governed by the academic standing table which follows.

After any change in academic standing, no further change can be made until at least 12 more credit hours have been attempted. However, students may be removed from academic probation at the end of any term during which their

overall grade point average is a 2.0. Students on probation who achieve a term GPA of 3.0 or better, while earning at least nine hours of credit during one term, will be in good standing for the following term.

The academic standing of students whose grade point average is below 2.0 is determined by the following table.

Academic Standing Table

Adjusted Cumulative Credit Hours Attempted	Adjusted GPA for Probation	Adjusted GPA for Dismissal
0-11	0-1.99	
12-14	1.00-1.99	.99 or less
15-17	1.15-1.99	1.14 or less
18-20	1.34-1.99	1.33 or less
21-23	1.40-1.99	1.39 or less
24-26	1.50-1.99	1.49 or less
27-29	1.56-1.99	1.55 or less
30-32	1.60-1.99	1.59 or less
33-35	1.64-1.99	1.63 or less
36-38	1.67-1.99	1.68 or less
39-41	1.69-1.99	1.68 or less
42-44	1.76-1.99	1.75 or less
45-47	1.80-1.99	1.79 or less
48-50	1.81-1.99	1.80 or less
51-53	1.82-1.99	1.81 or less
54-56	1.85-1.99	1.84 or less
57-59	1.89-1.99	1.88 or less
60 or above	1.90-1.99	1.89 or less

Academic Regulations on Registration & Attendance

Student Classification

Students who have been admitted to the college are classified as follows: 0 to 27 credit hours earned - first-year student (freshman); 28 or more credit hours earned - second-year student (sophomore).

Placement Status Maximum Concurrent Credit Hours Limits by Session Length

The chart below documents the maximum number of credits for which a student may be concurrently enrolled based on their placement status and the length of session in which the course(s) is scheduled.

<i>Status/Standing</i>	<i>13-15 Week Session</i>	<i>5-12 Week Session</i>	<i>4 Weeks or Less Session</i>
English Composition Eligible	18	10	6
Provisional	13	10	4

Note: Academic standing also impacts the maximum credit hours per term.

An exception to the limitation on credit hours may be granted by an academic advisor for a student with English Composition Eligible status if the student has an adjusted cumulative grade point average (GPA) of 3.00 or higher that includes at least one full-time term of courses for which a GPA of 3.00 has been earned.

Credit and equivalent hours are noted near course titles in the Courses section of this catalog. Limitations on credit hours are calculated as the sum of all the credit hours and equivalent hours for which a student registers for a given term.

Assessment Testing

All students who wish to earn a degree or certificate must be assessed. Prior to assessment, students are placed in a provisional status and may enroll in courses that do not require English and/or math eligibility. Students may retest for English one time. Retesting in English is not allowed after attending or starting English or Academic Literacies classes. Students must take a refresher course or seek permission from the math department prior to retesting. Retesting in mathematics is not allowed after enrollment in mathematics classes. Attempting to take an assessment test more than the approved policy allows violates the college's Academic Integrity Policy. Any assessment test score which is found to be the result of unauthorized repeat testing will be discarded.

Audit of Courses

Students who wish to be under no obligation for regular attendance, preparation, recitation or examination, and who do not wish to receive any credit, may register for a course for audit (AU). In a 15-week term, students may change registration status between credit and audit during the first three weeks of classes. For terms shorter than 15 weeks, the audit period will be defined proportionately.

Since no credit hours are attempted or earned and no quality points are given for an audited class, the course will not be included in calculation of the student's grade point average. Audited courses are not eligible for graduation requirements, calculation toward students' full-time or part-time enrollment status or toward financial aid. The designator AU will be entered on the student's academic record. Regular tuition and fees apply to audited courses. A student may not receive credit for a course that is audited.

Enrollment/Changing a Schedule

Change between Noncredit and Credit

Some courses are offered as both credit and continuing education noncredit. Students who register may wish to change from one status to the other. In a regular term, students who wish to make this change must do so during the

first three weeks of a 15-week term. For terms shorter than 15 weeks, the change period will be defined proportionately.

Register/ Add/ Adding Classes/ Class Enrollment

Students must register for a course before they enter or participate in the class and may not enroll after the established last day to add a class. Students must switch class sections of a course or add a course during the add period. Visit <https://www.aacc.edu/apply-and-register/credit-application/register-for-credit-classes/> for details.

Drop/ Dropping Courses

On or before the drop deadline (see chart), students may drop a course, which means that all entries for the course are dropped completely from students' transcripts. To accomplish this, students must submit a Credit Registration • Add • Drop Form at the Records and Registration office, e-mail the form to records@aacc.edu, or drop the course through MyAACC. The last day upon which courses may be dropped, is available on the students' MyAACC page under My Classes. All courses in which a student is enrolled after the final drop date will be entered permanently into their academic record.

When students stop attending and do not drop or withdraw from a class, they will receive a failing grade and they will continue to be financially responsible for all tuition and fees.

Withdraw/ Withdrawal from Courses

A student may withdraw from a class after the final drop date through the 12th week of a 15 week session or the equivalent date in a shorter session. When a student withdraws an entry of W signifying withdrawal is entered into their record. Students must withdraw from courses using MyAACC. For additional information, contact the Records and Registration office at records@aacc.edu.

Late Withdraw

After the final withdrawal date and through the last day of classes, as specified in the academic calendar, students may make a request to withdraw from the college or from individual courses by consulting with an academic advisor in the Advising & Transfer Advising office, obtaining an advisor's signature on a late withdrawal form, and filing the late withdrawal form at the Records and Registration office. Students who are passing on the date of the withdrawal will be assigned a grade indicator of WP (withdraw passing) on their permanent record. Students who are failing on the date of the withdrawal will receive a grade of F.

Students who have withdrawn and received a grade of F may petition the Committee on Academic Standards (see Petitions to Committee on Academic Standards) to authorize the instructor to change the grade of F to WF (withdraw failing). Such students must provide verification to the committee that they could not complete the course for one of the following reasons:

1. Death in immediate family.
2. Student incapacitated due to serious illness.
3. Change in hours or location of employment.
4. Uncontrollable circumstances of a serious nature.

Students who have more than 10 entries of W, WP and WF may be required to meet with an academic advisor to review their educational plan before their next registration.

Students receiving financial aid should consult the Satisfactory Academic Progress (SAP) Policy before withdrawing from any courses.

Drop/ Withdraw/ Refund Deadlines

Note: The last day upon which courses may be dropped is also listed on the students' MyAACC page under My Class

Schedule. After the final drop date, a student may withdraw from a class through the 12th week of the 15th week session. For terms shorter than 15 weeks, the withdraw period will be defined proportionately.

FOR CLASSES SCHEDULED EIGHT WEEKS OR MORE	FOR CLASSES SCHEDULED SEVEN WEEKS OR FEWER
<ul style="list-style-type: none"> • Students may drop the class for five calendar days after the date of the first scheduled class meeting and receive a full refund. 	<ul style="list-style-type: none"> • Students may drop the class for two calendar days after the date of the first scheduled class meeting and receive a full refund. No refunds will be given after that date.
<ul style="list-style-type: none"> • Students have five additional calendar days to withdraw from the class and receive a 60% reduction of the tuition, general student fees and lab fees charged for the class. 	<ul style="list-style-type: none"> • For hybrid and online classes, the first day of the session is considered the first scheduled class meeting.
<ul style="list-style-type: none"> • If a student withdraws more than 10 calendar days after the date of the first scheduled class meeting, no refunds will be issued. 	
<ul style="list-style-type: none"> • For hybrid and online classes, the first day of the session is considered the first scheduled class meeting. 	

Honors Versions of Classes (Registrar's Guidelines)

AACC offers qualified students the opportunity to participate in an Honors Program. Honors versions of courses are identified by the letter H at the end of the course prefix. For example, SPA-111H, Elementary Spanish is the honors version of SPA 111. The prerequisites, lab fees, and other characteristics for the non-honors version of a course also pertain to the honors version. The honors version of the course has additional requirements as described in the course listing of the College catalog. Furthermore, if the non-honors version of the course serves as a prerequisite, corequisite or requirement for a major or program, the honors version of the course will also meet the same requirements. Credit cannot be awarded for both the non-honors and honors version of the same course.

Registration Policy

Students at Anne Arundel Community College must register for class before the first scheduled class meeting. In the case of online or hybrid classes, a student must register the day before the first day of the session. Detailed information is provided within our Registration webpage.

Developmental Courses

Students required to take developmental courses in English/reading or math must pass those courses to be eligible to register for a credit English or math course. Developmental courses do not carry college credit and may not be used toward graduation.

Class Attendance

A. Attendance

- Regular attendance is expected of students who are registered in face-to-face courses and in distance education classroom environments.
- For hybrid courses, attendance is defined as regular and substantive student participation in virtual learning activities as well as attendance at required face-to-face meetings.

- For online courses, attendance is defined as regular and substantive student participation in virtual learning activities.
 - Attendance requirements and policies specific to each course are stated in the course syllabus. Students should be aware that lack of regular attendance and/or lack of substantive student participation as appropriate for the course format will adversely affect their grades in those classes in which attendance is a stated requirement. For courses in which attendance is not a stated requirement, student grades may be adversely affected by failure to satisfactorily complete assignments and course work.
 - Regular attendance and active participation promote student success.
- B. Visitors (Guests)**
- Only students officially registered for a course may attend.
 - No visitors (including children, family members or substitutes) shall be allowed to attend or participate in any course without the permission of the faculty member.

Short and Long-term Military Deployment

Reasonable accommodation will be granted to students showing satisfactory academic progress who are called to military service (appropriate documentation is required). All active duty and reserve military students should check with instructors on or before the first day of class to determine course policy with regard to short term deployment (e.g. the attendance policy for the course). Most courses are structured such that a single deployment of one to two weeks during a term allow for the student to complete the work missed upon return or take an incomplete. Incompletes may be taken only with permission and cooperation of the instructor and must be requested by the student. It is the responsibility of the student to complete all work missed whether taking an incomplete or completing the work in a timely manner within the term enrolled. Students taking an incomplete should refer to the Incomplete Work section. Student communication with the instructor is key.

However, a few courses have internal or external requirements such that make-up work cannot be accommodated. Students deployed while taking such a course must withdraw (see above). Students showing satisfactory academic progress and having to leave a program due to military service requirements must withdraw from the course(s) and will be allowed to re-enter the program by retaking the course or courses from which they had to withdraw. There are courses in some programs in which the student may be able to take an "incomplete" and finish the course in cooperation with the instructor, even with deployments that extend beyond one to two weeks of time. Military students suspending studies in courses with required lab components, clinical components, and/or competency requirements will be allowed re-entry provided the student meets standard departmental and/or program entry requirements. The student will be re-entered into an open seat in the next available class cycle.

Academic Regulations on Student Athlete Eligibility

Student Athlete Eligibility

Upon recommendation of the Director of Athletics the Registrar confirms that each student entered on the National Junior College Athletic Association (NJCAA) eligibility form meets the eligibility requirements established by the NJCAA prior to the student's participation in an official game.

Title 13B Maryland Higher Education Commission

3B.06.01.00

Title 13B MARYLAND HIGHER EDUCATION COMMISSION

Subtitle 06 GENERAL EDUCATION AND TRANSFER

Chapter 01 Public Institutions of Higher Education

Authority: Education Article, §§11-105(u), 11-207 and Title 11, Subtitle 2, Annotated Code of Maryland

Sec. 13b.06.01.02. Definitions

A. In this chapter, the following terms have the meanings indicated.

B. Terms Defined.

- (1) "A.A. degree" means the Associate of Arts degree.
- (2) "A.A.S. degree" means the Associate of Applied Sciences degree.
- (3) "A.A.T. degree" means the Associate of Arts in Teaching degree.
- (4) "A.F.A. degree" means the Associate of Fine Arts degree.
- (5) "Arts" means courses that examine aesthetics and the development of the aesthetic form and explore the relationship between theory and practice.
- (6) "A.S. degree" means the Associate of Sciences degree.
- (7) "A.S.E. degree" means the Associate of Science in Engineering degree.
- (8) "Associate's degree" includes an:
 - (a) A.A. degree;
 - (b) A.S. degree;
 - (c) A.A.S. degree;
 - (d) A.A.T. degree;
 - (e) A.F.A. degree; and
 - (f) A.S.E. degree.
- (9) "Biological and physical sciences" means courses that examine living systems and the physical universe. They introduce students to the variety of methods used to collect, interpret, and apply scientific data, and to an understanding of the relationship between scientific theory and application.
- (10) "Cumulative grade point average" means the average of grades received for completed coursework at all institutions attended.

- (11) "English composition courses" means courses that provide students with communication knowledge and skills appropriate to various writing situations, including intellectual inquiry and academic research.
- (12) "General education" means the foundation of the higher education curriculum providing a coherent intellectual experience for all students.
- (13) "General education program" means a program that is designed to:
- (a) Introduce undergraduates to the fundamental knowledge, skills, and values that are essential to the study of academic disciplines;
 - (b) Encourage the pursuit of life-long learning; and
 - (c) Foster the development of educated members of the community and the world.
- (14) "Humanities" means courses that examine the values and cultural heritage that establish the framework for inquiry into the meaning of life.
- (15) "Mathematics" means courses that provide students with numerical, analytical, statistical, and problem-solving skills.
- (16) "Native student" means a student whose initial college enrollment was at a given institution of higher education and who has not transferred to another institution of higher education since that initial enrollment.
- (17) "Parallel program" means the program of study or courses at one institution of higher education that has parallel courses and comparable objectives as those at another higher education institution, for example, a transfer program in psychology in a community college is definable as a parallel program to a baccalaureate psychology program at a 4-year institution of higher education.
- (18) "Receiving institution" means the institution of higher education at which a transfer student currently desires to enroll.
- (19) "Recommended transfer program" means a planned program of courses, both general education and courses in the major, taken at a community college, which is applicable to a baccalaureate program at a receiving institution, and ordinarily the first half of the baccalaureate degree.
- (20) "Reverse transfer" means a process whereby credits that a student earns at any public senior higher education institution in the State toward a bachelor's degree are transferrable to any community college in the State for credit toward an associate's degree.
- (21) "Sending institution" means the institution of higher education of most recent previous enrollment by a transfer student at which transferable academic credit was earned.
- (22) "Social and behavioral sciences" means courses that are concerned with the examination of society and the relationships among individuals within a society.
- (23) "Transfer student" means a student entering an institution for the first time having successfully completed a minimum of 12 semester hours at another institution that are applicable for credit at the institution the student is entering.

Sec. 13b.06.01.02-1. Admission of Transfer Students to Public Institutions

A. Admission to Institutions.

- (1) Subject to §B of this regulation, a student attending a public institution who has completed an associate's degree or who has completed 60 or more semester hours of credit, may not be denied direct transfer to another public institution

if the student attained a cumulative grade point average of at least 2.0 on a 4.0 scale or its equivalent at the sending institution, except as provided in §A(4) of this regulation.

(2) Subject to §B of this regulation, a student attending a public institution who has not completed an associate's degree or who has completed fewer than 60 semester hours of credit, is eligible to transfer to a public institution regardless of the number of credit hours earned if the student:

(a) Satisfied the admission criteria of the receiving public institution as a high school senior; and

(b) Attained at least a cumulative grade point average of 2.0 on a 4.0 scale or its equivalent at the sending institution.

(3) Subject to §B of this regulation, a student attending a public institution who did not satisfy the admission criteria of a receiving public institution as a high school senior, but who has earned sufficient credits at a public institution to be classified by the receiving public institution as a sophomore, shall meet the stated admission criteria developed and published by the receiving public institution for transfer.

(4) If the number of students seeking admission exceeds the number that can be accommodated at a receiving public institution, admission decisions shall be:

(a) Based on criteria developed and published by the receiving public institution on the institution's website; and

(b) Made to provide fair and equal treatment for native and transfer students.

B. Admission to Programs.

(1) A receiving public institution may require additional program admission requirements to some programs if the standards and criteria for admission to the program:

(a) Are developed and published by the receiving public institution; and

(b) Maintain fair and equal treatment for native and transfer students.

(2) Courses taken at a public institution as part of a recommended transfer program leading toward a baccalaureate degree shall be applicable to related programs at a receiving public institution granting the baccalaureate degree.

C. Receiving Institution Program Responsibility.

(1) The faculty of a receiving public institution is responsible for development and determination of the program requirements in major fields of study for a baccalaureate degree, including courses in the major field of study taken in the lower division.

(2) A receiving public institution may set program requirements in major fields of study which simultaneously fulfill general education requirements.

(3) A receiving public institution, in developing lower division course work, shall exchange information with other public institutions to facilitate the transfer of credits into its programs.

(4) A receiving public institution shall ensure that any changes to program standards and criteria for admission and the transfer of credits maintain the fair and equal treatment of native and transfer students, and are communicated in a timely manner.

Sec. 13b.06.01.03. General Education Requirements for Public Institutions

A. While public institutions have the autonomy to design their general education program to meet their unique needs and mission, that program shall conform to the definitions and common standards in this chapter, and incorporate the general education knowledge and skills required by the Middle States Commission on Higher Education Standards for Accreditation. No later than August 1, 2017, a public institution shall satisfy the general education requirement by:

(1) Requiring each program leading to the A.A. or A.S. degree to include not less than 28 and not more than 36 semester hours, and each baccalaureate degree program to include not less than 38 and not more than 46 semester hours of required core courses, with the core requiring, at a minimum, course work in each of the following five areas:

- (a) Arts and humanities,
- (b) Social and behavioral sciences,
- (c) Biological and physical sciences,
- (d) Mathematics, and
- (e) English composition; or

(2) Conforming with COMAR 13B.02.02.16D(2)(b)-(c).

B. Each core course used to satisfy the distribution requirements of §A(1) of this regulation shall carry at least 3 semester hours.

C. General education programs of public institutions shall require at least:

- (1) Two courses in arts and humanities;
- (2) Two courses in social and behavioral sciences;
- (3) Two science courses, at least one of which shall be a laboratory course;
- (4) One course in mathematics, having performance expectations demonstrating a level of mathematical maturity beyond the Maryland College and Career Ready Standards in Mathematics (including problem-solving skills, and mathematical concepts and techniques that can be applied in the student's program of study); and
- (5) One course in English composition, completed with a grade of C- or better.

D. Institution-Specific Requirements.

(1) In addition to the five required areas in §A of this regulation, a public institution may include up to 8 semester hours in course work outside the five areas. These courses may be integrated into other general education courses or may be presented as separate courses. Examples include, but are not limited to, Health, Diversity, and Computer Literacy.

(2) Public institutions may not include the courses in this section in a general education program unless they provide academic content and rigor equivalent to the areas in §A(1) of this regulation.

E. General education programs leading to the A.A.S. degree shall include at least 18 semester hours from the same course list designated by the sending institution for the A.A. and A.S. degrees. The A.A.S. degree shall include at least one 3-semester-hour course from each of the five areas listed in §A(1) of this regulation.

F. A course in a discipline listed in more than one of the areas of general education may be applied only to one area of general education.

G. A public institution may allow a speech communication or foreign language course to be part of the arts and humanities category.

H. Composition and literature courses may be placed in the arts and humanities area if literature is included as part of the content of the course.

I. Public institutions may not include physical education skills courses as part of the general education requirements.

J. General education courses shall reflect current scholarship in the discipline and provide reference to theoretical frameworks and methods of inquiry appropriate to academic disciplines.

K. Courses that are theoretical may include applications, but all applications courses shall include theoretical components if they are to be included as meeting general education requirements.

L. Notwithstanding §A(1) of this regulation, a public 4-year institution may require 48 semester hours of required core courses if courses upon which the institution's curriculum is based carry 4 semester hours.

M. Public institutions shall develop systems to ensure that courses approved for inclusion on the list of general education courses are designed and assessed to comply with the requirements of this chapter.

Sec. 13b.06.01.04. Transfer of Education Program Credit

A. Transfer of Credit to Another Public Institution.

(1) Credit earned at any public institution in the State is transferable to any other public institution if the:

(a) Credit is from a college or university parallel course or program;

(b) Grades in the block of courses transferred average 2.0 or higher; and

(c) Acceptance of the credit is consistent with the policies of the receiving institution governing native students following the same program.

(2) If a native student's "D" grade in a specific course is acceptable in a program, then a "D" earned by a transfer student in the same course at a sending institution is also acceptable in the program. Conversely, if a native student is required to earn a grade of "C" or better in a required course, the transfer student shall also be required to earn a grade of "C" or better to meet the same requirement.

B. Credit Earned in or Transferred From a Community College.

(1) Except as provided in §B(5) of this regulation, at least 60 credits but not more than 70 credits of general education, elective, and major courses that a student earns at any community college in the State toward an associate's of art or an associate's of science degree shall be transferrable to any public senior higher education institution in the State for credit toward a bachelor's degree.

(2) To be transferrable, a credit shall have been earned in accordance with the student's degree plan.

(3) Courses taken at a public institution as part of a recommended transfer program leading toward a baccalaureate degree shall be applicable to related programs at the receiving public institution granting the degree if successfully completed in accordance with the receiving institution's policies governing native students in the same program.

(4) Students earning an A.A.S. or A.F.A. degree shall have their credits evaluated in a manner that maximizes the transfer of articulated and elective credit.

(5) A community college and a public senior higher education institution may provide in an articulation agreement for the transfer of credits in addition to credits transferred under §B(1) of this regulation.

C. Nontraditional Credit.

(1) The assignment of credit for AP, CLEP, or other nationally recognized standardized examination scores presented by transfer students is determined according to the same standards that apply to native students in the receiving institution, and the assignment shall be consistent with the State minimum requirements.

(2) Transfer of credit from the following areas shall be consistent with COMAR 13B.02.02. and shall be evaluated by the receiving institution on a course-by-course basis according to the same standards that apply to native students at the receiving institution:

(a) Technical courses from career programs;

(b) Course credit awarded through articulation agreements with other segments or agencies, which should be developed in collaboration with all public institutions, including course credit awarded by articulation with Maryland public secondary schools;

(c) Credit awarded for clinical practice or cooperative education experiences;

(d) Credit awarded for life and work experiences; and

(e) Credit awarded for training, coursework, or education through the military.

(3) The basis for the awarding of the credit shall be indicated on the student's transcript by the receiving institution.

(4) The receiving institution shall inform a transfer student of the procedures for validation of course work for which there is no clear equivalency. Examples of validation procedures include ACE recommendations, portfolio assessment, credit through challenge, examinations, and satisfactory completion of the next course in sequence in the academic area.

(5) The receiving baccalaureate degree-granting institution shall use validation procedures when a transferring student successfully completes a course at the lower-division level that the receiving institution offers at the upper-division level. The validated credits earned for the course shall be substituted for the upper-division course.

D. Program Articulation.

(1) Recommended transfer programs shall be developed through collaboration between the sending and receiving institutions. A recommended transfer program represents an agreement between the two institutions that allows students aspiring to the baccalaureate degree to plan for seamless transfer. These programs constitute freshman/sophomore level course work to be taken at the community college in fulfillment of the receiving institution's lower division course work requirement.

(2) Recommended transfer programs in effect at the time that this regulation takes effect, which conform to this chapter, may be retained.

E. Reverse Transfer of Credit

(1) Subject to §E(2) of this regulation, a community college shall accept for reverse transfer any credits that an individual earned at a public senior institution up to 45 credits. Credits in excess of 45 credits may be accepted in accordance with the community college's policy.

(2) To be eligible for the transfer of credit under §E(1) of this regulation, a student shall have completed at least 15 credits at the community college to which the credits are transferred.

(3) Community colleges and public senior institutions shall develop a process to identify students eligible for reverse transfer at no cost to the student.

F. Transfer of General Education Credit

(1) A student transferring to one public institution from another public institution shall receive general education credit for work completed at the student's sending institution as provided by this chapter.

(2) A completed general education program shall transfer without further review or approval by the receiving institution and without the need for a course-by-course match.

(3) Courses that are defined as general education by one institution shall transfer as general education even if the receiving institution does not have that specific course or has not designated that course as general education.

(4) A Maryland community college shall accept 28-36 credits of general education as specified in Regulation .03(C) of this chapter as completion of the general education requirements at the community college, without further review or the need for a course-by-course match.

(5) The receiving institution shall give lower-division general education credits to a transferring student who has taken any part of the lower-division general education credits described in Regulation .03 of this chapter at a public institution for any general education courses successfully completed at the sending institution.

(6) Except as provided in Regulation .03M of this chapter, a receiving institution may not require a transfer student who has completed the requisite number of general education credits at any public college or university to take, as a condition of graduation, more than 10-18 additional semester hours of general education and specific courses required of all students at the receiving institution, with the total number not to exceed 46 semester hours. This provision does not relieve students of the obligation to complete specific academic program requirements or course prerequisites required by a receiving institution.

(7) Each public institution shall designate on or with the student transcript those courses that have met its general education requirements, as well as indicate whether the student has completed the general education program.

(8) Associate's Degrees.

(a) While there may be variance in the numbers of hours of general education required for associate's degrees at a given institution, the courses identified as meeting general education requirements for all degrees shall come from the same general education course list and exclude technical or career courses.

(b) A student possessing an associate's degree who transfers into a receiving institution with fewer than the total number of general education credits designated by the receiving institution shall complete the difference in credits according to the distribution as designated by the receiving institution. Except as provided in Regulation .03M of this chapter, the total general education credits for baccalaureate degree-granting public receiving institutions may not exceed 46 credits.

(9) Student Responsibilities. A student is held:

(a) Accountable for the loss of credits that:

(i) Result from changes in the student's selection of the major program of study;

(ii) Were earned for remedial course work; or

(iii) Exceed the total course credits accepted in transfer as allowed by this chapter; and

(b) Responsible for meeting all requirements of the academic program of the receiving institution.

Sec. 13b.06.01.05. Academic Success and General Well-Being of Transfer Students

A. Sending Institutions.

(1) Community colleges shall encourage their students to complete the associate degree in a recommended transfer program that includes both general education courses and courses applicable toward the program at the receiving institution.

(2) Community college students are encouraged to choose as early as possible the institution and program into which they expect to transfer.

(3) The sending institution shall:

(a) Provide to community college students information about the specific transferability of courses and programs to 4-year colleges;

(b) Transmit information about transfer students who are capable of honors work or independent study to the receiving institution; and

(c) Promptly supply the receiving institution with all the required documents if the student has met all financial and other obligations of the sending institution for transfer.

B. Receiving Institutions.

(1) Admission requirements and curriculum prerequisites shall be stated explicitly in institutional publications.

(2) A receiving institution shall admit transfer students from newly established public colleges that are functioning with the approval of the Maryland Higher Education Commission on the same basis as applicants from regionally accredited colleges.

(3) A receiving institution shall evaluate the transcript or transcripts of a degree-seeking transfer student as expeditiously as possible, and notify the student of the results within 20 working days of the receipt of all official transcripts. The receiving institution shall inform a student of the courses that are acceptable for transfer credit and the courses that are applicable to the student's intended program of study.

(4) A transfer student shall be provided the same opportunity as a native student to pursue the program and degree requirements that were in effect at the time that the student enrolled at the sending institution provided they have been continuously enrolled and otherwise meet the same requirements of the native student.

Sec. 13b.06.01.06. Programmatic Currency

A. Maryland public institutions shall collaborate to develop and provide to students current and accurate information on transferable programs and courses.

B. Upon approval of new baccalaureate programs, recommended transfer programs shall be developed with each community college.

C. When considering curricular changes, institutions shall notify each other of the proposed changes that might affect transfer students. An appropriate mechanism shall be created to ensure that both 2-year and 4-year public colleges provide input or comments to the institution proposing the change. Sufficient lead time shall be provided to effect the change with minimum disruption. Transfer students are not required to repeat equivalent course work successfully completed at a community college

Sec. 13b.06.01.07. Transfer Mediation Committee

A. Sending and receiving institutions that disagree on the transferability of general education courses as defined by this chapter shall submit their disagreements to the Secretary, who shall appoint a Transfer Mediation Committee to adjudicate the disagreement. Members appointed to the Transfer Mediation Committee shall be representative of the public 4-year colleges and universities and the community colleges.

B. The Transfer Mediation Committee shall address general education issues at the course or curricular level, not individual student cases. As appropriate, the Committee shall consult with faculty on curricular issues.

C. The findings of the Transfer Mediation Committee are considered binding on both parties.

Sec. 13b.06.01.08. Appeal Process

A. Notice of Denial of Transfer Credit by a Receiving Institution.

(1) Except as provided in §A(2) of this regulation, a receiving institution shall inform a transfer student in writing of the denial of transfer credit not later than mid-semester of the transfer student's first semester, if all official transcripts have been received at least 15 working days before mid-semester.

(2) If transcripts are submitted after 15 working days before mid-semester of a student's first semester, the receiving institution shall inform the student of credit denied within 20 working days of receipt of the official transcript.

(3) A receiving institution shall include in the notice of denial of transfer credit:

(a) A statement of the student's right to appeal; and

(b) A notification that the appeal process is available in the institution's catalog.

(4) The statement of the student's right to appeal the denial shall include notice of the time limitations in §B of this regulation.

B. A student believing that the receiving institution has denied the student transfer credits in violation of this chapter may initiate an appeal by contacting the receiving institution's transfer coordinator or other responsible official of the receiving institution within 20 working days of receiving notice of the denial of credit.

C. Response by Receiving Institution.

(1) A receiving institution shall:

(a) Establish expeditious and simplified procedures governing the appeal of a denial of transfer of credit; and

(b) Respond to a student's appeal within 10 working days.

(2) An institution may either grant or deny an appeal. The institution's reasons for denying the appeal shall be consistent with this chapter and conveyed to the student in written form.

(3) Unless a student appeals to the sending institution, the written decision in §C(2) of this regulation constitutes the receiving institution's final decision and is not subject to appeal.

D. Appeal to Sending Institution.

(1) If a student has been denied transfer credit after an appeal to the receiving institution, the student may request the sending institution to intercede on the student's behalf by contacting the transfer coordinator of the sending institution.

(2) A student shall make an appeal to the sending institution within 10 working days of having received the decision of the receiving institution.

E. Consultation Between Sending and Receiving Institutions.

(1) Representatives of the two institutions shall have 15 working days to resolve the issues involved in an appeal.

(2) As a result of a consultation in this section, the receiving institution may affirm, modify, or reverse its earlier decision.

(3) The receiving institution shall inform a student in writing of the result of the consultation.

(4) The decision arising out of a consultation constitutes the final decision of the receiving institution and is not subject to appeal.

Sec. 13b.06.01.09. Periodic Review

A. Report by Receiving Institution.

(1) A receiving institution shall report annually the progress of students who transfer from 2-year and 4-year institutions within the State to each community college and to the Secretary of the Maryland Higher Education Commission.

(2) An annual report shall include ongoing reports on the subsequent academic success of enrolled transfer students, including graduation rates, by major subject areas.

(3) A receiving institution shall include in the reports comparable information on the progress of native students.

B. Transfer Coordinator. A public institution of higher education shall designate a transfer coordinator, who serves as a resource person to transfer students at either the sending or receiving campus. The transfer coordinator is responsible for overseeing the application of the policies and procedures outlined in this chapter and interpreting transfer policies to the individual student and to the institution.

C. The Maryland Higher Education Commission shall establish a permanent Student Transfer Advisory Committee that meets regularly to review transfer issues and recommend policy changes as needed. The Student Transfer Advisory Committee shall address issues of interpretation and implementation of this chapter.

Sec. 13b.06.01.9999. Administrative History

Effective date: December 4, 1995 (22:24 Md. R. 1901)

LAWRENCE W. ULVILA, JR. (July 1, 2016 - June 30, 2026)
VICE CHAIR

LT JORDAN J. FOLEY, USN, J.D. (July 1, 2021 - June 30, 2022)
STUDENT MEMBER

JAMES H. JOHNSON JR., Ph.D. (July 1, 2018 - June 30, 2024)

A. JOYCE PRICE JONES (April 2, 2021 - June 30, 2023)

BRIG. GEN. IRENE M. ZOPPI RODRIGUEZ, Ph.D. (July 1, 2020 - June 30, 2024)

JACINA N. STANTON-BUTTROM, J.D. (July 1, 2021 - June 30, 2025)

Trustees Emeriti

ROBERT J. DIAISO (1998)

ARTHUR D. EBERSBERGER (2017)

GENE E. FLOYD (2009)

T. SUE GLADHILL (2008)

WALTER J. HALL (2021)

IRENE E. NEWHOUSE (1991)

DONALD C. ROANE, M.D. (2006)

President and College Officers

DAWN LINDSAY

President

B.A., B.S.W., M.Ed., Western Maryland (now McDaniel) College
Ed.D., Pepperdine University

TANYA C. MILLNER

Provost/Vice President for Learning

B.A., Georgetown University; M.A., Northeastern University
Ed.D., The George Washington University

FELICIA L. PATTERSON

Vice President for Learner Support Services

B.B.A., Howard University; M.A., University of Denver
D.MGT., University of Maryland University College

MELISSA A. BEARDMORE

Vice President for Learning Resources Management
B.B.A. Loyola University Maryland, C.P.A.

RICHARD C. KRALEVICH

Vice President of Information and Instructional Technology
B.A., Pennsylvania State University; M.S., Bloomsburg University
Ed.D., University of Delaware

NANCI A. BEIER

Registrar
B.S., M.A., Bowie State University

College Officer Emeritus

ANDREW L. MEYER

Vice President for Learning

Administrative Staff

ELIZABETH H. APPEL

Dean of the school of health sciences
B.A., University of Kansas; M.S.W., University of Maryland Baltimore

THIHA T. AYE

Director of eLearning and instructional technology
M.S., Western Illinois University

DAN BAUM

Executive director of strategic communications
B.A., Hampshire College

ALLISON E. BAUMBUSCH

Creative director of strategic communications
B.A., M.A., University of Baltimore

JILL S. BENNETT

Director of marketing strategy & public relations
B.S., Oklahoma State University

KATHLEEN E. BOLTON

Special assistant to the vice president of learning
B.S., Nazareth College
M.P.A., SUNY College at Brockport

LANCE D. BOWEN

Dean of the school of science, technology, and education
B.S., University of Nevada; M.S. University of Nevada
Ph.D., University of Nevada

SUZANNE L. BOYER

Executive director of human resources
B.A., University of Maryland Baltimore County;
M.A., College of Notre Dame of Maryland; SPHR

TIFFANY F. BOYKIN

Dean of student engagement; Federal compliance officer

B.A., University of Maryland; M.S., Towson University;

Ph.D., Morgan State University

PATRICIA BRADY

Director of physical therapist assistant program

B.S., Towson State University; B.S., University of Maryland Eastern Shore;

M.S., The Johns Hopkins University; D.Sc.P.T. University of Maryland School of Medicine

TIFFIN BUMPASS

Assistant dean of health and wellness

B.S., Texas A&M University; M.S., Ph.D., American University

SUSAN M. CALLAHAN

Director of budget

B.S. University of Buffalo; C.P.A.

KATHY J. CAMPBELL

Director of technology support services

B.S., Ohio State University; M.B.A., Case Western Reserve University, PMP

TARA CAREW

Director of financial aid

B.S., M.B.A., M.Ed., University of Florida

KIRSTEN A. CASEY

Assistant dean of science

B.A., University of California; M.S., Ph.D., Purdue University

MAURICE L. CHAPUT JR.

Executive director of administrative services

B.F.A., Catholic University of America

ARTHUR E. CIMILUCA, JR.

Assistant Dean of mathematics

B.S., United States Naval Academy; M.S., Naval Postgraduate School

CLAUDIA L. CLARK (Tina)

Director, Emergency Medical Services

B.A., M.A., American Public University; N.R.P.

RILEY E. CLARK

Assistant dean of continuing education and workforce development operations

B.S., Boston University; M.S., Towson University

KAREN L. COOK

Dean of the school of business & law

B.A., Montclair State University; J.D., California Western School of Law

DENEEN R. DANGERFIELD

Dean, student development

B.A., Coppin State College; M.A., Coppin State College

DEIDRA L. DENNIE

Chief diversity officer

B.S., University of Louisville; M.A., Webster University;
D.P.A., Valdosta State University

CATHLEEN H. DOYLE

Director, Sarbanes center for career & civic engagement
B.S., University of Richmond; M.B.A., Loyola College

SARA B. EGER

Director of instructional pathways and partnerships, secondary
B.A., Kenyon College; M.S., Walden University

COLLEEN K. EISENBEISER

Dean of IDEA Lab
B.A., St. Joseph College; M.S., Southern Connecticut State University;
Ph.D., Northcentral University

ERIN D. GABLE

Director, Legal Studies Institute
J.D., University of Baltimore

SUSAN L. GALLAGHER

Director of sponsored programs
B.A., College of Notre Dame of Maryland; GMCP

BONNIE J. GARRETT

Dean of student success
B.S., University of Maryland College Park;
M.S., University of Maryland University College

SHANNON M. GILKEY

Director of operations, health sciences
M.S.W., University of Maryland Baltimore

SONJA R. GLADWIN

Director of corporate training group
A.A., Anne Arundel Community College; B.S., University of Baltimore;
M.S., Johns Hopkins University

JOHN F. GRABOWSKI

Dean of enrollment services
B.S., University of Maryland; M.S., Johns Hopkins University;
Ph.D., University of Maryland

LARRY GREGORY

Director of facilities
B.A., Towson University

DUANE P. HERR

Director of intercollegiate athletics
B.S., Towson University

MATTHEW T. HERRON

Director of hotel, culinary arts and tourism institute
B.A., The Pennsylvania State University, B.S., Johnson & Wales University, M.Ed., Purdue University

ERIK HUNTER

Director of community standards and deputy Title IX coordinator

B.S., Ramapo College of New Jersey; M.A., Montclair State University

SANDRA J. JONES

Assistant dean of continuing education and workforce development programs

A.A., Anne Arundel Community College; B.A., University of Maryland Baltimore County;

M.A., University of Maryland University College

SEAN R. KAPFHAMMER

Chief of police/director of public safety

B.S., Johns Hopkins University

STACY L. KORBELAK

Assistant dean of the school of business and law

B.A., The University of Michigan; M.A.S., The Johns Hopkins University

KIP A. KUNSMAN

Dean of continuing education and workforce development

B.S., University of Maryland Baltimore County; M.S., Towson University

BONNIE LASHER-KIMMEL

Director, academic advising

B.A., University at Stony Brook; M.A.E.D., Touro University International

ANDREW P. LITTLE

Associate vice president for learning resources management

B.S., B.A., University of Maryland College Park; C.P.A.

SHUANG LIU

Associate vice president for continuous improvement and innovation analytics

B.A., Changchun Teacher's College, Jilin China; M.S., The College of Saint Rose;

Ph.D. Notre Dame of Maryland University

DANA S. MARRON

Director of English language learning and adult education

B.A., Loyola University Maryland; M.A. University of Maryland Baltimore County

ALYCIA MARSHALL

Associate vice president for learning

B.A., University of Maryland Baltimore County; M.A., Bowie State University;

Ph.D., University of Maryland

KELLIE MCCANTS-PRICE

Chief diversity, equity, and inclusion officer

B.A., University of Maryland Baltimore County; M.A., The Ohio State University;

Ph.D., The Ohio State University

MARYLOU MCQUAIDE

Director of apprenticeship & applied learning

B.A., M.A., Stony Brook University

VOLLIE MELSON

Executive director of institutional advancement/foundation

B.S., George Washington University; M.A., George Washington University

KEVIN B. MILLER

Director of document services
B.A., George Mason University

CASSANDRA MOORE

Director of admissions and enrollment development
B.A., University of Arkansas Fayetteville; M.P.A., University of Arkansas Little Rock

ALICIA M. MORSE

Dean of the school of liberal arts and professor, mathematics
B.A., University of Maine; M.S., University of Central Florida
Ph.D., University of Maryland

SCOTT OLDEN

Assistant dean of nursing
EdD, Community College Leadership Program, Morgan State University, MD; MA, Nursing Administration, University of Maryland; BS, Nursing, State University of NY, Binghamton

DOROTHY PARRISH-HARRIS

Director, disability support services
B.A., M.A., University of Buffalo;
J.D., University of Baltimore

CANDACE E. PLACE

Director, TEACH Institute and Parenting Center
B.S., University of Nebraska; M.S., Capella University

ANNELEZE Z. PHILLIPS (Lisa)

Director of enterprise applications services
B.S., California University of PA
M.B.A., Waynesburg University

TERRY D. PORTIS

Director of lifelong learning
B.S., Covenant College; M.S., North Carolina A&T State University; Ed.D., Argosy University

TYRONE POWERS

Director of collaboration and special initiatives learning
B.S., Coppin State University; M.P.A., University of Cincinnati;
Ph.D. American University

MARJORIE A. RAWHOUSER

Assistant dean of transfer studies and achieving college & career success
B.S., United States Naval Academy; M.S., Ph.D., Penn State University

ERIN K. REEDER

Director of enrollment services integration
A.A., Anne Arundel Community College; B.S., University of Maryland;
M.S., Kaplan University

MICHAEL A. REES

Director of infrastructure services
B.S., University of Maryland University College

KADIJAT RICHMOND

Director, transfer advising

B.S., M.Ed., Loyola University Maryland;
Ed.D., Morgan State University

MARTHA D. ROTHSCHILD

Controller

B.S., Bryan College

LISA A. SANFORD

Director of human resources operations

B.S., Penn State University; M.A., Saint Francis University

IDA-MAE M. SASS

Director of continuing education and workforce development operations

B.S., M.S., M.B.A., University of Maryland University College

MICHELE SAVAGE

Director of correctional and continuing education

B.S., M.Ed., University of Maryland University College

MELANIE L. SCHERER

Director of purchasing and contracting

B.A., DePaul University

CYNTHIA K. STEINHOFF

Director and professor of library

B.S., Edinboro State College; M.S.L.S., Clarion State College;

M.B.A., University of Baltimore

JAMES M. TAYLOR

Director of facilities, planning & construction

A.A., Essex Community College; B.S., University of Maryland Baltimore County

PHILIP B. TERRY-SMITH

Assistant dean of social sciences, philosophy and interdisciplinary studies and associate professor, sociology

M.H.S., Lincoln University; Ph.D., Walden University

ANGELO THALASSINIDIS

Assistant dean of technology and acting academic chair for computer information systems

B.S., University of La Verne; M.S., New York Institute of Technology

Ph.D. Stevens Institute of Technology

DAVID THOMAS

Assistant dean of health sciences & strategic initiatives

B.S., Williams College; M.A., University of Maryland University College; D.P.T., University of Montana

WENDY C. THOMAS

Director of development

B.A., University of Maryland University College

KAREN L. TOBAT

Director of management advisory services

B.S., University of Maryland University College; M.S., University of Maryland University College, CPA

KRISTEN B. VICKERY

Director of testing

B.S., University of Maryland; M.Ed., University of Maryland University College
Ed.D., The George Washington University

JANICE D. WATLEY

Director of student achievement and success program

B.A., Colorado State University; M.Ed., Colorado State University

JOHN W. WILLIAMS

Director of information security

BSME, US Naval Academy; MSEE, US Naval Postgraduate School

MARCUS WRIGHT

Director of transfer, articulation, and career alignment

B.S., Towson University; M.A., University of Maryland College Park

ANDREA C. ZAMORA

Director of the center for faculty and staff development

B.A., Washington College; M.Ed., Towson University;

M.S., Johns Hopkins

Distinguished Senior Lecturers

Note: The date following each person's position is the year in which they began employment at the college.

Fadel H. Arafat

Distinguished Senior Lecturer

Associate professor, economics, 1990

D.L., Damascus University; M.A., University of Maryland; Ph.D., American University

Michael Armstrong

Distinguished Senior Lecturer

Associate Professor, mathematics, 2007

B.A., The Monmouth College; M.A., The Pennsylvania State University

Louis L. Aymard

Distinguished Senior Lecturer

Professor, psychology, 1972

B.A., Mount St. Mary's College; Ph.D., Catholic University of America

E. Ferol Benavides

Distinguished Senior Lecturer

Associate professor, English, 1982

B.A., University of Texas; M.A., St. Mary's University

June K. Bronfenbrenner

Distinguished Senior Lecturer

Professor, Chemistry, 1994

B.S., New College, Sarasota, FL.; M.A., Ph.D., Johns Hopkins University

Robyn S. Brown

Distinguished Senior Lecturer

Professor, legal studies, 2001

B.A., Widener University; J.D., University of Baltimore School of Law

Ellen C. Bungay-Posten

Emeritus, Distinguished Senior Lecturer
Professor, humanities and visual arts, 1969
B.A., Wagner College; M.A., University of Maryland

Roy D. Carson

Distinguished Senior Lecturer
Professor, business administration, 2003
B.S., State University of New York; M.S., Johns Hopkins University; C.P.A.

Carlene M. Cassidy

Distinguished Senior Lecturer
Professor, entrepreneurial studies, 2002
B.S., Providence College; M.S., Johns Hopkins University

Daniel S. Chesley

Distinguished Senior Lecturer
Professor, mathematics, 1969
B.S., Mount St. Mary's College; M.S., Virginia Polytechnic Institute and State University

Charles Davis

Emeritus, Distinguished Senior Lecturer
Professor, mathematics, 1970
B.S., M.S., University of South Carolina; Ph.D., Catholic University of America

Ronald A. DeAbreu

Distinguished Senior Lecturer
Associate professor, English and communications, 1977
B.A., Towson University; M.A., Boston University

Paul R. Derdul

Distinguished Senior Lecturer
Professor, cybersecurity, networking and digital forensics, 1993
B.S., M.S., John Carroll University; C.C.N.A., C.C.A.I., C.I.S.S.P., Security+, C.E.H.

Ragwinder K. Dhindsa

Distinguished Senior Lecturer
Professor, sociology, 1978
B. Ed., Punjab University; B.A., M.A., Agra University, India; M.Ed., M.S., Montana State University; Ph.D., University of Illinois

Joan B. Doolittle

Distinguished Senior Lecturer
Professor, Psychology, 1970
B.A., Seton Hill College; M.A. University of Rhode Island

Henry L. Dragun

Emeritus, Distinguished Senior Lecturer
Professor, chemistry, 1965
A.B., University of Pennsylvania; Ph.D., Rutgers University

C. Wayne Ehler

Distinguished Senior Lecturer
Professor, mathematics, 1969
B.S., University of Missouri; M.S., U.S. Naval Postgraduate School

Richard L. Faircloth

Emeritus, Distinguished Senior Lecturer

Professor, biology, 1973

B.S., M.S., Ph.D., University of Maryland

A. Lawrie Gardner

Distinguished Senior Lecturer

Professor and academic chair, business administration, 2003

B.A., Towson University; M.B.A., Loyola College in Maryland, C.P.A.

Hugo G. Gemignani

Distinguished Senior Lecturer

Professor, biology, 1968

A.A., Anne Arundel Community College; B.S., M.Ed., Towson University

Ajaipal S. Gill

Emeritus, Distinguished Senior Lecturer

Professor, psychology, 1975

B.A., B.T., Panjab University, India; Diploma in Ed., University of Singapore; M.Ed., Ph.D., American University

Rajwant K. Gill

Distinguished Senior Lecturer

Professor, computer science, 1982

B.S., B.S. honors, M.S., Panjab University, India; M.A., American University; D.A., George Mason University

Marion K. Glasby

Emeritus, Distinguished Senior Lecturer

Professor, mathematics, 1973

B.A., Millersville State College; M.A., University of Massachusetts; Ph.D., University of Maryland

Patricia A. Gregory

Distinguished Senior Lecturer

Professor, computer science, 1991

B.S., University of Maryland; M.S., Bowie State University

Sally J. Gresty

Distinguished Senior Lecturer

Associate professor, emergency medical technician program, 1983

B.S., University of Pittsburgh; M.S., University of Maryland; R.N., NREMT-P

Cheryl A. Hack

Emeritus, Distinguished Senior Lecturer

Professor, biology, 1968

B.S., Carnegie Mellon University; M.A.T., Johns Hopkins University; Ph.D., University of Maryland

Constance S. Hammond

Distinguished Senior Lecturer

Professor, computer technologies, 1994

B.S., M.Ed., University of Maryland

Patricia S. Hanzook

Distinguished Senior Lecturer

Associate professor, health, fitness and exercise studies, 1975

B.S., Salisbury University, M.Ed., Towson University; A.C.E.-C.P.T.

Marie A. Hardink

Distinguished Senior Lecturer

Professor, business administration, 1970

B.B.A., Bryant College; B.S., M.S., University of Rhode Island, C.P.A.

Kathy E. Hays

Distinguished Senior Lecturer

Associate professor, mathematics, 1998

B.S., Purdue University; M.A., Ball State University

H. Joseph Heffelfinger

Distinguished Senior Lecturer

Associate professor, mathematics, 1969

B.A., Anderson College; M.S., Michigan State University

Marlow A. Henderson

Distinguished Senior Lecturer

Associate professor, business administration, 2006

A.A., Community College of Baltimore; B.S., University of Baltimore; M.S. Bowie State University; C.P.A

Catherine A. Hess

Distinguished Senior Lecturer

Professor, mathematics, 1991

B.A., University of Virginia; M.Ed., Pennsylvania State University

Joanne M. Hilton

Distinguished Senior Lecturer

Associate professor, English, 1971

B.A., Trenton State College; M.A., Montclair State College; C.A.S.L.A., Johns Hopkins University

Sally G. Hornor

Emeritus, Distinguished Senior Lecturer

Professor, biology, 1993

B.A., Goucher College; M.S., Ph.D., University of Connecticut

Gail A. Huff

Distinguished Senior Lecturer

Associate professor, world languages, 1988

B.A., Hanover College; M.A., University of Oregon

Brenda L. Hurbanis

Distinguished Senior Lecturer

Professor, teacher education, 2003

B.S., Frostburg State College; M.Ed., McDaniel College (formerly Western Maryland College); Ed.D., University of Maryland

Sylvia Ingram

Distinguished Senior Lecturer

Professor, psychology, 1982

B.S., Eastern Michigan University; M.A., Ph.D., University of Michigan

John Paul Jendrek

Distinguished Senior Lecturer

Associate professor, chemistry, 1998

B.S., Johns Hopkins University; Ph.D., Tulane University

Steven Z. Kahn

Distinguished Senior Lecturer

Professor, mathematics, 1970

A.B., M.A., Ph.D., George Washington University

Rebecca A. Kajs

Distinguished Senior Lecturer

Professor, English, 1989

B.A., University of North Texas; M.A., Ph.D., Texas Woman's University

Joseph Rea Keech

Distinguished Senior Lecturer

Professor, English, 1977

A.B., Loyola College; M.A., Ph.D., University of South Carolina

Mara Kent-Skruch

Distinguished Senior Lecturer

Professor, sociology, 1993

B.A., M.A., Ph.D., University of Maryland Baltimore County; R.N.

Elizabeth A. Kessel

Distinguished Senior Lecturer

Professor, history, 1988

B.A., University of Maryland; M.A., University of Wisconsin; M.A., West Virginia University; Ph.D., Rice University

Carol F. Keydel

Emeritus, Distinguished Senior Lecturer

Professor, human services, 1972

B.A., M.S.W., University of Michigan; L.C.S.W.-C., Ph.D., University of Maryland

Christopher T. Kilian

Distinguished Senior Lecturer

Professor, engineering technologies, 1973

A.A., Pasadena City College; B.S., M.S., University of California at Los Angeles; P.E.

Frederick A. Klappenberger

Emeritus, Distinguished Senior Lecturer

Professor, computer information systems, 1985

B.S., Loyola College; Ph.D., University of Maryland

Kelly A. Koermer

Distinguished Senior Lecturer

Professor, legal studies institute, 1998

A.A., B.S., Stevenson University (formerly Villa Julie College); J.D., University of Baltimore School of Law

Richard W. Kopka

Distinguished Senior Lecturer

Associate professor, computer information systems, 1991

B.S.E.E., M.S.E.E., University of Pittsburgh

Paul Kreiss

Distinguished Senior Lecturer

Professor, chemistry, 1982

B.A., Swarthmore College; M.A., University of California Berkeley; Ph.D., University of Georgia

W. Daniel Kuhne

Distinguished Senior Lecturer

Professor, art, 1975

B.A., M.A., University of Maryland

E. Joseph Lamp

Distinguished Senior Lecturer

Professor, communications, 1972

A.A., Anne Arundel Community College; B.A., M.A., University of Maryland; C.A.S., Johns Hopkins University;

Ph.D., University of Maryland

Martha L. Links

Emeritus, Distinguished Senior Lecturer

Professor, business administration, 1976

B.A., Bernard College; M.B.A., College of William and Mary; C.P.A.

Darlene Schmidt Mallick

Distinguished Senior Lecturer

Professor, homeland security and Criminal Justice Institute, 1974

B.A., College of Notre Dame of Maryland; J.D., LL.M., University of Baltimore School of Law

Barbara H. Marder

Distinguished Senior Lecturer

Associate professor, performing arts, 1978

B.A., University of Illinois; M.A., George Washington University

Joseph M. McQuighan

Distinguished Senior Lecturer

Associate professor, cybersecurity, networking, and digital forensics, 2004

B.S., University of Notre Dame; M.S., University of Southern California; D.Sc., Towson University; P.M.P.

Richard A. Niewerth

Emeritus, Distinguished Senior Lecturer

Professor, visual arts, 1970

B.F.A., Maryland Institute College of Art; M.A., University of Maryland

Donald P. Orso

Distinguished Senior Lecturer

Professor, psychology, 1973

B.A., Susquehanna University; M.Ed., University of Virginia; Ph.D., American University

Wayne E. Page

Distinguished Senior Lecturer

Associate professor, communications, 1970

B.A., M.A., University of Maryland; C.R.L.T., Russian Language Institute, Syracuse University; M.L.A., Johns Hopkins University

Shirley C. Parry

Emeritus, Distinguished Senior Lecturer

Professor, English and women's studies, 1973

B.A., Colby College; M.A., University of Wisconsin; Ph.D., University of Maryland

Jean Turner Schreier

Emeritus, Distinguished Senior Lecturer

Professor, English, 1970

B.A., M.A., University of Oklahoma; Ph.D., University of Wisconsin

Richard H. Seabrook

Emeritus, Distinguished Senior Lecturer
Professor, computer technologies, 1982
B.S., M.S., University of Maryland

Gregory J. Segreti

Distinguished Senior Lecturer
Professor, American studies, 1975
B.A., Catholic University of America; M.A., University of Maryland; M.L.A., Johns Hopkins University

Kelly K. Sell

Distinguished Senior Lecturer
Professor, computer technologies, 1999
B.S., University of Maryland College Park; M.Ed., Towson University; MOS 2010 Master

Alicia W. Siegrist

Distinguished Senior Lecturer
Professor, physical science, 2003
B.S., University of Maryland; M.S., Pennsylvania State University

Henry E. Sloss Jr.

Distinguished Senior Lecturer
Associate professor, English, 1989
B.A., University of California at Berkeley; M.A., University of Minnesota

Vivian G. Spencer

Distinguished Senior Lecturer
Professor, English, 1987
B.A., M.A., University of Illinois at Chicago Ph.D., University of Maryland College Park

Stephen F. Steele

Distinguished Senior Lecturer
Professor, sociology and futures studies, 1972
B.A., M.A., Eastern Michigan University; Ph.D., Catholic University of America

Daniel F. Symancyk

Distinguished Senior Lecturer
Professor, mathematics, 1976
B.S., M.A., Ph.D., University of Massachusetts

Carol L. Taylor

Distinguished Senior Lecturer
Associate professor, health and physical education, 1978
B.S., University of Maryland; M.Ed., Towson University

Gary W. Thomas

Distinguished Senior Lecturer
Professor, business management, 1972
B.A., Lycoming College; M.Ed., Shippensburg University; Ph.D., University of Maryland

Raymond F. Turner

Emeritus, Distinguished Senior Lecturer
Professor, economics, 1972
B.B. A., M.B.A., University of Cincinnati; M.A., Ph.D., Catholic University of America

Gary L. Van Velsir

Distinguished Senior Lecturer

Professor, mathematics, 1971

B.A., Pomona College; M.A., Ph.D., University of Maryland

Carol B. Veil

Emeritus, Distinguished Senior Lecturer

Professor, biology, 1980

B.A., Gettysburg College; M.S., University of Maryland

Jill Voran

Distinguished Senior Lecturer

Professor, communications, 1974

B.A., Kansas State University; M.A., Purdue University; D.A., Catholic University of America

Rayner C. Wharton

Emeritus, Distinguished Senior Lecturer

Associate professor, sociology, 1987

B.A., University of Maryland Baltimore County; M.S. Towson University

John L. Wisthoff

Emeritus, Distinguished Senior Lecturer

Professor, mathematics, 1965

B.S., Towson University; M.A.T., Harvard University; Ph.D., University of Maryland

Faculty Emeriti

Note: The date following each person's name is the year in which the Board of Trustees awarded their emeritus designation.

M. STEPHEN AILSTOCK, Ph.D., 2021

Professor, biology emeritus

GWEN V. ATWELL, M.S., 1989 (deceased)

Professor, office administration and technology emeritus

JAMES S. ATWELL, D.A., 1992

Vice president and dean, academic affairs emeritus

LOUIS L. AYMARD, Ph.D., 2013

Professor, psychology emeritus

HELEN C. BASIL-BOSWELL, M.S., R.N., 2000

Professor, nursing emeritus

PAUL BEADLE, M.A., 1980 (deceased)

Professor, modern languages emeritus

RICHARD H. BOWERS, M.S.M.R., 1978 (deceased)

Dean, careers emeritus

JAMES F. BREWER, Ph.D., 1982 (deceased)

Professor, history emeritus

WILLIAM H. BUFFUM, M.A., 1977 (deceased)

Director, community relations emeritus

ELLEN C. BUNGAY-POSTEN, 2007

Professor, humanities and visual arts emeritus

JOSEPH CALDERON, J.D., 1978 (deceased)

Professor, social science emeritus

THOMAS P. CARPENTER, Ph.D., 1984 (deceased)

Professor, English emeritus

DANIEL S. CHESLEY, Ph.D., 2013

Professor, mathematics emeritus

ALBERT J. CRULL, M.A., 1985 (deceased)

Professor, art emeritus

HAROLD J. COUNIHAN, Ph.D., 1973

Professor, history emeritus

CHARLES S. DAVIS, Ph.D., 1970

Professor, mathematics emeritus

JAMES L. DOLLAR, M.A., 2001 (deceased)

Dean of arts and sciences and professor, philosophy emeritus

HENRY L. DRAGUN, Ph.D., 1997

Professor, science emeritus

ELDRIDGE B. DUFFEE JR., Ph.D., 1993 (deceased)

Professor, political science emeritus

JOHN P. EDWARDS JR., Ph.D., 2000

Professor, mathematics emeritus

C. WAYNE EHLER, M.S., 1969

Professor, mathematics emeritus

LINDA J. EPSTEIN, M.S., R.N., 2002

Professor, nursing emeritus

WILLIAM W. EVANS, M.A., 1977 (deceased)

Dean of the college emeritus

RICHARD L. FAIRCLOTH, Ph.D., 2010

Professor, biology emeritus

THOMAS E. FLORESTANO, Ed.D., 1994 (deceased)

President emeritus

HARRY E. FOSTER, M.S.L.S., 1993 (deceased)

Professor and head librarian emeritus

AJAIPAL S. GILL, Ph.D., 2000

Professor, psychology emeritus

MARION GLASBY, Ph.D., 2005

Professor, mathematics emeritus

CHERYL A. HACK, Ph.D., 2005

Professor, biology emeritus

NORMA L. HAMILTON, 2010

Professor, nursing emeritus

ALDEN R. HEFLER, Ph.D., 1973 (deceased)

Visiting lecturer emeritus

SALLY G. HORNOR, Ph.D., 1993

Professor, biology emeritus

SYLVIA H. INGRAM, Ph.D., 2022

Professor, psychology emeritus

RUSSEL E. KACHER, Ph.D., 2000 (deceased)

Professor, English emeritus

ROBERT E. KAUFFMAN, M.A., 2004 (deceased)

Professor, performing arts emeritus

ELIZABETH A. KESSEL, Ph.D., 2012

Professor, history emeritus

CAROL F. KEYDEL, Ph.D., 1999

Professor, human services emeritus

FREDERICK A. KLAPPENBERGER, Ph.D., 2008

Professor, computer information systems emeritus

WILLIAM E. LAMB, M.A.T., 1979 (deceased)

Professor, mathematics emeritus

E. JOSEPH LAMP, Ph.D., 2013

Professor, communications emeritus

MARTHA L. LINKSZ, M.B.A., C.P.A., 2011

Professor, business administration emeritus

ENNO K. LOHRMANN, Ph.D., 1989 (deceased)

Professor, psychology and human services emeritus

JILL A. LOUKIDES, Ph.D., 2004 (deceased)

Professor, biology

ROBERT P. LUDLUM, Ph.D., 1976 (deceased)

President emeritus

DORIS D. MAGUIRE, M.S.L.S., 1982 (deceased)

Professor and assistant librarian emeritus

VERA A. MARTIN, M.S., 1989

Professor, nursing emeritus

ROCCI S. MASTROBERTI, M.S., 1993 (deceased)

Dean, administration emeritus

ELIZABETH A. MATHIAS, Ed.D., 1996

Professor, nursing emeritus

GEORGE T. MCGUCKIAN, M.S., 1990 (deceased)

Professor, electronic data processing emeritus

BARRETT L. MCKOWN, M.S.S.T., 1994

Professor, biology emeritus

JAVANIKA H. MODY, D.D.S., 2022

Professor, biology emeritus

RICHARD A. NIEWERTH, 2010

Professor, visual arts emeritus

DOROTHY L. NOBLE, Ph.D., 1972 (deceased)

Professor, history and political science emeritus

JULIET B. OFFUTT, B.S., 1983 (deceased)

Professor and assistant librarian emerita

DONALD P. ORSO, Ph.D., 2022

Professor, psychology emeritus

JOHN D. PALMER, 1997 (deceased)

Dean of business and professor, business and technical and career education emeritus

SHIRLEY C. PARRY, Ph.D., 2008

Professor, English and women's studies emeritus

JOHN F. PARR, Ph.D., 1977 (deceased)

Dean, liberal arts emeritus

MICHAEL J. PHILP, Ph.D., 2000

Professor, philosophy emeritus

HARRY C. RHODES, Ed.D., 1979

Dean, faculty emeritus

SUE A. RICCIARDI, Ph.D., 2000

Professor, mathematics emeritus

FOLGER M. RIDOUT, M.Ed., 1987 (deceased)

Professor, biology emeritus

ROSALIND T. RIVERA, Ed.D., 1996

Assistant dean, allied health technologies emeritus

LEON F. SAGAN, Ph.D., 1998 (deceased)

Professor, mathematics emeritus

JEAN TURNER SCHREIER, Ph.D., 2008

Dean of arts and sciences and professor, English emeritus

RICHARD H. SEABROOK, M.S., 2011

Professor, computer technologies emeritus

JOHN W. SEAGER, M.S.T., 1973 (*deceased*)
Associate professor, chemistry emeritus

HAROLD G. SHIRK, Ph.D., 1974 (*deceased*)
Professor, mathematics emeritus

D. HARRISON SMITH, Ph.D., 1977 (*deceased*)
Visiting lecturer, history and political science emeritus

STEPHEN F. STEELE
Professor, sociology and future studies emeritus

ETHEL M. STINCHCOMB, Ed.D., 1980 (*deceased*)
Professor, nursing emeritus

DANIEL F. SYMANCYK
Dean of of arts and sciences and professor, mathematics emeritus

DAVID L. TENGWALL, Ph.D., 2022
Professor, history emeritus

BILLY H. THOMPSON, M.Ed., C.A.S., 2000
Professor, law enforcement emeritus

JUDITH F. THOMPSON, M.A., C.A.S., 2001
Professor, English emeritus

DANIEL D. TOWNSEND, Ph.D., 1984
Professor, English emeritus

RAYMOND F. TURNER, M.A., Ph.D., 1973
Professor, economics emeritus

ANDREW G. TRUXAL, Ph.D., L.L.D., 1968 (*deceased*)
President emeritus

CAROL B. VEIL, 1980
Professor, biology emeritus

JAMES M. WARNOCK, M.A., 1978 (*deceased*)
Business manager emeritus

JOHN L. WISTHOFF, Ph.D., 2001
Professor, mathematics emeritus

WILLIAM H. YANCEY, M.A., 1978 (*deceased*)
Dean, admissions and records emeritus

Full-Time Faculty

Note: The date following each person's position is the year in which they began employment at the college.

Arnold K. Adkins Jr.
Associate professor, homeland security and criminal justice institute, 2014
B.S., Niagara University; M.S., Jersey City College; M.S., Temple University

Frank W. Alduino

Professor, history and political science, 1989

A.A., Brevard Community College; B.S., M.S., Ph.D., Florida State University

Amy M. Allen-Chabot

Professor, nutrition and biology, 2000

B.S., Virginia Polytechnic Institute and State University; M.S., Ph.D., University of Maryland College Park

Brandi L. Angel

Assistant professor, business management, 2012

B.S., University of Maryland; M.A., Johns Hopkins University

Elizabeth H. Appel

Professor and dean, school of health sciences, 1999

B.A., University of Kansas; M.S.W., University of Maryland at Baltimore; L.C.S.W.-C.

Ellen Asbury

Associate professor, nursing, 2016

B.S.N. University of Colorado; M.S.N., University of Maryland

Bradley Austin

Associate professor, geography, 2018

M.S., Shippensburg University of Pennsylvania; Ph.D., Kent State University

Mary Bachkosky

Associate professor, legal studies institute, 2017

B.A., University of Maryland; J.D., American University, Washington College of Law

Anthony E. Baker

Assistant professor, entrepreneurial studies, 2018

A.A., Community College of Rhode Island; B.S., New England Institute of Technology; M.B.S., Johnson and Wales University; Ph.D., Walden University

Elizabeth A. Baran

Associate professor and academic chair, engineering, 2007

B.S.M.E., University of Vermont; M.S.M.E., Stanford University

Jason P. Barbour

Professor and academic chair, physical science, 2006

B.S., University of Maryland; M.S., Colorado State University; Ph.D., University of Virginia

Debra M. Bartlett

Professor and academic chair, biology, 2010

A.A., Anne Arundel Community College; B.S., D.C., National University of Health Sciences

Robert E. Beatty

Associate professor and academic chair, business administration, 2016

B.A., M.B.A., Loyola University Maryland, C.P.A.; C.F.E.; C.G.M.A.

Shelly Bentley

Associate professor, education, 2017

B.S., Edinboro University of PA; M.Ed., University of Maryland; E.D., University of Pittsburgh

Marilyn Berchie

Assistant professor, nursing, 2021

B.S., Towson University; M.S., Drexel University, CRNP, NP-C

Lyndele C. Bernard

Professor, nursing, 2001

B.S.N., University of Virginia; M.S., University of Maryland

Anna Binneweg

Associate professor, performing arts, 2007

B.A., California Polytechnic State University; M.M., Southern Methodist University; D.M., Northwestern University

Jennifer L. Birdsell

Assistant professor, mathematics, 2012

B.A., Eastern University; M.S., Towson University

Walter R. Bixby

Assistant professor, health, fitness, and exercise studies, 2018

B.S., Bridgewater State College; M.A., & Ph.D., University of Maryland

Margaret A. Boas

Associate professor, English, 2000

B.A., Pomona College; M.A., Arizona State University

Dawn C. Bond

Professor, visual arts, 2005

B.A. in Studio Art, University of Wisconsin-Parkside; M.F.A. in Studio Art/Inter-Related Media; Towson University

Ewell D. Bowers

Associate professor, English, 2013

B.A., University of Texas at Austin; M.A., Texas State University; Ph.D., Texas Tech University

Abigail M. Brackins

Associate professor, mathematics, 2015

B.A., Hood College; M.A., Ph.D., University of Nebraska-Lincoln

Garrett J. Brown

Professor, English, 2011

B.A., St. Mary's College of Maryland; M.F.A., The School of the Art Institute of Chicago; Ph.D., University of Illinois at Chicago

Alan W. Brownlie

Associate professor, English, 1997

M.A., Ph.D., University of Massachusetts

Lynne A. Brummitt

Associate professor and academic chair, massage therapy, 2008

B.S., Virginia Polytechnic Institute and State University; M.A., University of Maryland; B.C.T.M.B., Baltimore School of Massage; L.M.T.

Clinton J. Buhler

Assistant dean of performing arts, visual arts, and world languages, 2021

B.A., University of Utah; M.A., Ph.D., The Ohio State University

Jody Bullock

Instructor, Emergency Medical Services, 2018

B.H.S., Campbell University; N.R.P.

Tiffin L. Bumpass

Associate professor and assistant dean, health and wellness, 2012

B.S., Texas A&M University; M.S., American University; Ph.D., American University; ACSM-C.E.P., ACE-C.P.T.

Paul J. Bushmann

Professor, biology, 1998

B.S., College of William and Mary; M.S., George Washington University; Ph.D., Boston University

Audra Butler

Associate professor and director of assessment and instructional innovation, 2011

B.S., Towson University; M.Ed., Goucher College; Ed.S., George Washington University; Ed.D., Morgan State University

Douglas B. Byerly

Associate professor, music, 2000

B.M., Western Michigan University; M.M., Peabody Conservatory of Johns Hopkins University

Tim M. Callinan

Associate professor, engineering, 2008

B.Eng., M.Eng., Dublin City University

Steven B. Canaday

Professor, English, 2003

B.A., University of Virginia; M.A., Ph.D., University of Maryland

Amy Carattini

Assistant professor, anthropology, 2021

B.A., Marycrest International University; M.A., Shippensburg University; M.A.A., Ph.D., University of Maryland, College Park

Robert Carp

Associate professor, chemistry, 2014

B.A., McDaniel College; M.A., University of California

Kirsten A. L. Casey

Professor and assistant dean, astronomy, chemistry, physics, and physical science, 2002

B.A. University of California San Diego; M.S., Ph.D., Purdue University

David M. Caskey

Associate professor, academic literacies, 2016

B.A., Syracuse University; M.A., Western Carolina University

Cameron T. Caswell

Associate professor, library, 2016

B.A., St. John's College; M.S.I.S., Simmons College

Lisa M. Chamberlain

Assistant professor, nursing, 2018

B.S.N., University of Maryland; M.S.N., Notre Dame of Maryland University

Frederick D. Chapple Jr.

Assistant professor, mathematics, 2014

B.S., M.A., Coppin State University

Wendy L. Chasser

Associate professor, computer science, 2014

B.S., Pennsylvania State University; M.S., Robert Morris University

Nancy L. Chell

Associate professor, mathematics, 1999

A.A., Anne Arundel Community College; B.S., University of Maryland College Park; M.S., University of Maryland Baltimore County

Arthur E. Cimiluca Jr.

Associate professor and assistant dean, mathematics, 2011

B.S., United States Naval Academy; M.S., Naval Postgraduate School

Claudia L. Clark (Tina)

Assistant professor and Director, Emergency Medical Services, 2013

B.A., M.A., American Public University; N.R.P.

Patricia M. Clarke

Assistant professor and academic chair, surgical technology, 2013

B.S., University of Baltimore; M.Ed., Strayer University; CST

Sybille Clayton

Assistant professor, mathematics, 2004

M.S., Technical University Darmstadt, Germany; M.Ed., Studienseminar Bendheim, Germany

Susan A. Cohen

Professor, English and coordinator of creative writing, 1994

B.A., State University of New York at Albany; M.A., Ph.D., University of Maryland

Karen L. Cook

Professor and dean, School of Business and Law, 1999

B.A., Montclair State University; J.D., California Western School of Law

Scott A. Cooper

Professor, world languages, 2006

B.A., Heidelberg College; M.A., University of Louisiana, Lafayette; M.A., St. Mary's Ecumenical Institute

Shana R. Cooperstein

Assistant professor, English, 2021

B.A., University of Pittsburgh; M.A., Temple University; Ph.D., McGill University

April E. Copes

Professor, communications, 2012

B.S., Syracuse University; M.Ed., Ph.D., Howard University

Darius M. Cureton

Assistant professor, English, 2021

B.A., Winston-Salem State University; M.A., North Carolina Agricultural and Technical State University; Ph.D., University of Maryland, College Park

Katy D'Angelo

Assistant professor, English, 2016

B.A., George Washington University; M.A., Binghamton University; Ph.D., University of Maryland, College Park

Shelley DeBlasis

Assistant professor, English, 2019

A.A., Pasco-Hernando Community College; dual B.A., Florida State University; M.A. University of South Florida; Ph.D., Illinois State University

Bryan R. Deehring

Assistant professor, cybersecurity, networking and digital forensics, 2015

B.S., Virginia Tech; M.B.A., Western Governors University; CISSP

A. Mickey Dehn

Associate professor, biology, 2015

B. A., University of Delaware; M.S., Towson University

Myra G. Dennis

Professor and sim coordinator, nursing, 2004

B.S.N., East Carolina University; M.S.N., University of North Carolina at Chapel Hill

Angela V. Desai

Associate professor, mathematics, 2008

B.A., Carleton College; Ph.D., University of Maryland College Park

Jennifer A. Dix

Associate professor, English, 2008

B.A., Indiana University of Pennsylvania; M.A., Ph.D., University of Maryland, College Park

Tammy L. Domanski

Professor, biology, 2008

B.S., SUNY Fredonia; Ph.D., University of Maryland, Baltimore County

Cory E. Doubek

Assistant professor and academic chair, health, fitness, and exercise studies, 2019

B.A., Rice University; M.S., University of Colorado, Boulder; M.A.T., University of Maryland, Baltimore County, ACE-CPT

Haley Draper

Associate professor, communications, 2013

B.A., M.A., Texas Tech University

Erik Dunham

Associate professor, visual arts, 2015

B.A., Coker College; M.F.A., Maryland Institute, College of Art

LaTanya K. Eggleston

Assistant professor, communications, 2008

B.A., Tennessee State University; M.A., Washington State University

Colleen Eisenbeiser

Professor and dean, learning advancement and the virtual campus, 2003

B.A., St. Joseph College; M.L.S. Southern Connecticut State University; Ph.D., Northcentral University

Reynaldo A. Evangelista

Professor, homeland security and criminal justice, 2007

B.S., Frostburg State University; M.A., University of Phoenix; Ph.D., Morgan State University

Shad B. Ewart

Assistant professor, business management, 1996

B.S., University of Arizona; M.B.A., University of Maryland

Mark A. Farinha

Professor, biology, 2008

B.S., Ph.D., Queen's University at Kingston

Damacene V. Fernandez

Professor, physical science, 2000

B.S., U.S. Naval Academy; M.S., U.S. Naval Postgraduate School; M.S.Ed., Johns Hopkins University; C.A.G.S., Northcentral University

Jeffrey J. Feuer

Associate professor, mathematics, 2017

B.A., Colgate University; M.S., University of Massachusetts-Amherst; Ph.D. University of Rhode Island

Susan Ficken

Associate professor, mathematics, 2018

B.S., University of Wisconsin, River Falls; M.S., Northern Illinois University; Ph.D., Northern Illinois University

Gina M. Finelli

Professor, sociology, anthropology, and geography, 2012

A.B., Elon University; M.A., University of South Carolina; Ph.D., American University

Eric W. Fons

Associate professor, physics, 2002

B.A., University of California Berkeley; M.S., University of Florida

Sandra M. Fox-Moon

Assistant Professor, biology, 2021

B.S., University of Maryland College Park, M.S., Old Dominion University, Ph.D., University of Maryland Baltimore School of Medicine

Luke V. Fredericks

Assistant professor, legal studies institute, 2019

B.A., University of Maryland Baltimore County; J.D., New York University School of Law

Zoe Friedman

Assistant Professor and time-based media coordinator, visual arts, 2019

B.A., Eckerd College; M.F.A., Mt. Royal School of Art, MI

Paul D. Gabriel-Tucci

Associate professor, English, 1992

A.A., Broward Community College; B.A., M.A., Florida Atlantic University

Jaelyn D. Gambone

Professor, education, 2009

B.A., West Chester University; M.Ed., Wilmington University; Ph.D., Capella University

Lorraine H. Girandola

Assistant professor and student success coach, nursing, 2014

B.S.N., M.H.A., St. Joseph College

Stephanie Goldenberg

Associate professor and academic chair, entrepreneurial studies, 2016

B.A., Salisbury University; M.S., Johns Hopkins University

Rita Victoria A. Gomez

Professor, history, 1990

B.A., Pace University; M.A., California State University at Sacramento; Ph.D., George Washington University

Lawrence L. Gray

Professor, american sign language, 2008

B.A., M.A., Gallaudet University; Ed.D., Argosy University

Julie L. Grignon

Associate professor, psychology, 2017

B.S., M.A., University at Albany; C.A.S., The College of St. Rose; Ph.D., Capella University

Krysten B. Hall

Associate professor, computer science, 1999

B.S., Central Michigan University; M.A. University of Maryland Baltimore County

David M. Hammel

Assistant professor, homeland security and criminal justice institute, commander and coordinator, AACC Police Academy, 2003

B.S., University of Maryland University College; M.B.A., University of Baltimore

Deborah L. Hammond

Associate professor, health, fitness and exercise studies, 2015

B.A., University of Maryland; M.P.H., Temple University; C.H.E.S.

Christopher L. Harmon

Assistant professor and academic chair, medical laboratory sciences, 2020

B.S., University of Maryland, Baltimore; M.S., John Hopkins University

Cedric R. Harris

Associate professor, computer information systems, 2017

B.S., Alcorn State University; M.S., Bowie State University

Brendan J. Hart

Assistant professor, economics, 2021

B.A., Dartmouth College; M.B.A., University of Virginia

Cheryl R. Heemstra

Professor, computer science, 2000

B.S., California State University Sacramento; M.B.A., University of Hawaii Manoa; Associate Certified Coach, International Coaching Federation

Candice Hill

Professor, English, 2013

B.A., Goucher College; M.A., Ph.D., The Catholic University of America

Jodie Hogan

Associate professor, world languages, 2014

B.S., California University of Pennsylvania; M.A., University of Maryland, Baltimore County; M.A., Gratz College

Mary Ellen Holden-Musser

Assistant professor, biology, 2021

B.A. City University of New York; Ph.D., University of California at Berkeley; Research Associate, AMNH; SME, IUCN.

Ruimin Hu

Professor, computer science, 2011

M.S., Purdue University; D.Sc., Towson University

Robert R. Hurd

Professor, English, 2005

B.A., Virginia Military Institute; M.A., East Carolina University; Ph.D., University of Maryland

Anika T. Ingram

Professor, homeland security and criminal justice institute, 2007

B.A., University of Maryland (UMD); J.D., University of Baltimore

Karen E. Israel

Professor, nutrition/biology, 2001

B.S., University of Texas San Antonio; Ph.D., R.D., University of Texas at Austin

Alice Carrie Jackson

Associate professor, nursing, 2017

B.S.N., University of Maryland; M.S.N., Walden University

Kymerly Smith Jackson

Associate professor, legal studies institute, 2018

B.S., Georgetown University (Schools of Business Administration); J.D., Georgetown University Law Center

Kenneth J. Jarvis

Professor, hotel/restaurant management, 1994

A.O.S., Culinary Institute of America; B.A., Rochester Institute of Technology; M.B.A., Strayer University; C.C.E., C.E.C., C.H.E.

Jarred R. Jenkins

Associate professor, psychology, 2018

B.S., Lebanon Valley College; M.S., Ph.D., University of Oklahoma

Joseph H. Johnson

Associate professor, homeland security and criminal justice institute, 2009

B.A., M.S., University of Maryland; Cert.HE, Johns Hopkins University

Theodore Johnson

Associate professor, visual arts, 2014

B.F.A., University of Maryland; M.F.A., University of Georgia

MaryEllen O. Kassebaum

Professor, mathematics, 2007

B.S., Truman State University; M.S., University of Utah; Ph.D., Montana State University

Katherine Keough

Assistant professor, physical science, 2018

B.A., Mount Holyoke College; M.S., University of Florida

Susan C. Kilgard

Professor, communications, 2003

B.A., University of California Santa Barbara; M.M.C., Ph.D., Arizona State University

Andrew Kim

Instructor, Emergency Medical Services, 2013

B.S., American Public University; N.R.P.

Maureen McGonigle Kinsella

Professor, nursing, 2009

B.S., M.S., Towson University; R.N., I.B.C.L.C., C.C.E., C.C.I.T.

Robert Kleinendorst

Assistant professor and coordinator, dance, director of AACC dance company, 2021

B.A., Luther College; M.F.A., George Mason University

Matthew Klos

Professor, visual arts, 2007

B.F.A., Columbus College of Art and Design; M.F.A., University of Maryland

Wayne Kobylinski

Professor and academic chair, English, 2011

B.A., University of Richmond; M.A., Ph.D., University of North Carolina at Chapel Hill

Theresa I. Kotkiewicz

Associate professor and academic chair, business management, 2017

B.S., Fordham University; M.B.A., Fordham University, C.I.A.

Xi Kramer

Instructor, computer science, 2018

M.S.; Towson University

Kathleen E. Krueger

Associate professor and academic chair, sociology, anthropology, and geography, 2013

B.A., Indiana University; M.A., University of Missouri St. Louis; Ph.D., University of Missouri Columbia

Susan R. Lamont

Professor, biology, 2006

B.S., Wake Forest University; Ph.D., Miami University

Heather L. Langley

Professor, massage therapy, 2013

B.S., Washington College; Certificate, Therapeutic Massage, Anne Arundel Community College; P.T., University of Maryland School of Medicine; B.C.T.M.B., L.M.T.

Jennifer G. Lara

Professor, education, 2000

B.A., Michigan State University; M.A., University of Colorado; M.S., Johns Hopkins University; PCC, Professional Certified Coach, International Coach Federation

Kimberly P. Law

Assistant professor, computer information systems, 2018

B.S., University of Virginia; M.B.A., Boston University

Carrie Leary

Professor, cybersecurity, networking, and digital forensics, 2009

B.S., Lehigh University; M.B.A., American University; Sec+

Monica Leid

Associate professor, mathematics, 2000

B.S., M.S., Civil Engineering Institute, Bucharest, Romania; M.S., Boston University; M.S., University of Maryland Baltimore County

Petal Lemessy

Assistant professor and academic chair, radiologic technology, 2021

B.H.S., University of Medicine and Dentistry of New Jersey; M.H.S., Rutgers University; D.H.S., Nova Southeastern University; R.T.(R)

Deborah A. Levine

Associate professor, astronomy, 2017

B.S., University of North Carolina at Chapel Hill, M.S., University of Washington, Ph.D., University of California Los Angeles

Johnny Lew

Associate professor, English, 2013

B.A., Vassar College; Ph.D., Boston University

Carrie E. Long

Associate professor, biology, 2017

B.S. Mount Saint Mary's University; M.S., University of Maryland College Park

Robert R. Lowe III

Professor, architecture and interior design, 2004

A.A., Anne Arundel Community College; B.S., Catholic University of America; M.A., Morgan State University; LEED Green Associate

Thao-Nhi Luu

Associate professor, mathematics, 2017

B.S., University of California, Santa Barbara; M.S., University of California, Riverside

Jaquelyn S. Lyman-Thomas

Professor, English, 2003

B.A., M.A., West Virginia University

Denise Lyons

Associate professor, nursing, 2014

B.S.N., M.S.N., Notre Dame of Maryland University

Sangeeta Maheshwari

Professor, computer science, 1997

M.S., University of Maryland; M.S., University of Delhi

Susanne R. Markowski

Professor, computer information systems, 2001

B.A., Goucher College; M.S., University of Maryland University College

Alycia A. Marshall

Professor, mathematics and associate vice president of learning and academic affairs, 1999

B.A., University of Maryland Baltimore County; M.A.T., Bowie State University; Ph.D., University of Maryland College Park

Jessica Mattingly

Associate professor and academic chair, communications, 2017

B.S., Towson University; M.A., College of Notre Dame of Maryland

Timothy May

Assistant professor, English, 2015

B.A., Washington College, M.A., University of York, UK

Kellie M. McCants-Price

Associate professor, psychology, 2014

B.S., University of Maryland Baltimore County; M.A., Ph.D., The Ohio State University

Lindsay McCulloch

Associate professor, visual arts, 2010

B.A., M.A., University of Virginia; M.F.A., Boston University

Tanesha Meade

Assistant professor, nursing, 2020

BSN, College of Notre Dame; MSN, Towson University

Sara E. Meinsler

Associate professor, human services, 2014

B.A., Washington College; M.S.W., University of Maryland at Baltimore; L.C.S.W.-C.

Dawn M. Meissner

Associate professor and academic chair, world languages, 1999

B.A., University of Dubuque; M.A., University of Wisconsin-Madison

David P. Meng

Associate professor, English, 1994

B.A., St. John's College; M.A., University of Maryland

James P. Messenger

Associate professor, mathematics, 2006

B.S., University of Notre Dame; M.S., Florida State University

Gretchen S. Mester

Professor and academic chair, economics, 2003

B.S., University of Puget Sound; M.S., Ph.D., University of Oregon

Seth H. Miller

Assistant professor, biology, 2021

B.S. Georgetown University; Ph.D., University of California, Davis

Christopher P. Mona

Professor, humanities and visual arts, 1996

B.A., University of Virginia; M.F.A., Pratt Institute

Shaunte L. Montgomery

Assistant professor, English, 2021

B.A., University of Central Missouri; M.A., Kansas State University; Ph.D., Howard University

Matthew Moore

Associate professor, humanities and visual arts, 2010

B.F.A., College for Creative Studies; M.F.A., Georgia State University

Alicia M. Morse

Professor, mathematics and dean of the school of liberal arts, 1994

B.A., University of Maine; M.S., University of Central Florida; Ph.D., University of Maryland

Kevin Murphy

Assistant professor, and academic chair, history, philosophy and political science, 2007

A.A.S., Anne Arundel Community College; B.S., M.L.A., Towson University

Daniel D. Nataf

Professor, political science and director, center for the study of local issues, 1995
B.A., University of California Berkeley; M.A., Ph.D., University of California Los Angeles

Stacey O. Nicholls

Associate professor, mathematics, 2006
B.S., Spelman College; M.S., Ph.D., University of Maryland, College Park

Amy Nudell

Assistant professor, nursing, 2019
B.S.N., University of Jamestown; M.S.N., Walden University

Jessica O'Leary

Instructor, mathematics, 2018
B.S., College of Charleston; M.S., College of Charleston

Sharon O'Malley

Assistant professor, journalism, 2017
B.A., University of Maryland University College; M.A., University of Maryland, College Park

Takamitsu Ono

Associate professor, sociology, 2015
M.A., Georgia State University; Ph.D., University of Illinois, Urbana-Champaign

Beth Anne O'Reilly

Professor, mathematics, 2010
B.S., University of Scranton; M.A., Stony Brook University

Caree Oslislo-Wizenberg

Associate professor, health, fitness and exercise studies, 2002
B.S., University of Maryland; M.S., Marymount University; C.H.E.S

Marjorie J. Paoletti

Associate professor, English, 2003
B.A., Loyola College in Maryland; M.A., Johns Hopkins University

Matthew M. Patton

Professor, psychology, 2012
B.S., University of Florida; M.A., Ph.D., University of Chicago

Carol Simms Pearce

Assistant professor, architecture and interior design, 2018
B.S., University of Delaware; M. Arch., Catholic University of America; ASID, Maryland Certified Interior Designer, LEED Green Associate

Lori K. Perez

Professor, psychology, 2006
B.S., Towson State University; M.Ed., Ed.S., Valdosta State University; Ed.D., Indiana University of Pennsylvania

Karen K. Phelan

Associate professor and academic chair, education, 2014
B.S., SUNY Geneseo; M.Ed., Loyola College of Baltimore; Ed.D., Northcentral University

Tyrone Powers

Professor, homeland security, and, director, collaboration and special initiatives, 1994
B.S., Coppin State College; M.P.A., University of Cincinnati; Ph.D., American University

Sara Prigodich

Assistant professor, and academic chair, ceramics, 2019

B.F.A., University of Hartford; M.F.A., University of Massachusetts, Dartmouth

Adrian Pringle

Associate professor, cybersecurity, networking, and digital forensics, 2013

B.S., Cheyney University; M.S., Towson University

Adil Qaiyumi

Associate professor, homeland security and criminal justice institute, 2014

B.S., University of Maryland College Park; J.D., University of Baltimore

Uzma Qureshi

Professor, economics, 2012

B.S., Georgetown University; M.Ph., Oxford University; Ph.D., University of Chicago

Jessica G. Rabin

Professor, English and director of writing tutoring, 2001

B.A., Drew University; Ph.D., Emory University

Marjorie A. Rawhouser

Associate professor, engineering, assistant dean, transfer studies/ACA, 2010

B.S., U.S. Naval Academy; M.S., Ph.D., Pennsylvania State University

Heidi Rayner

Associate professor, nursing, 2014

B.A., Delaware State University; M.A., Stevenson University

Nicole Reed

Assistant professor, health, fitness and exercise studies, 2017

B.S., Towson University; M.Ed., Loyola University Maryland, ACE-CPT

Heather E. Rellihan

Professor and academic chair of African American studies, American studies and gender and sexuality studies, 2006

B.A., Mount Saint Mary's University; M.A., Ph.D., University of Maryland

Sophie Reverdy

Assistant professor, library, 2015

B.A., Goucher College; M.L.S., University of Maryland College Park

Brian P. Riley

Professor, English, 2007

B.A., University of California, Los Angeles; M.A., California State University, Los Angeles; Ph.D., University of Notre Dame

Heather Riordan

Associate professor, mathematics, 2005

B.S., Muhlenberg College; M.A., University of Maryland College Park

Michelle M. Robertson

Associate professor, library, 2001

B.A., Old Dominion University; M.S.L.S., University of North Carolina

Jennifer M. Roelecke

Instructor, radiologic technology, 2006

A.A., A.A.S., Anne Arundel Community College; B.A., Loyola College

Dawn M. Ryan

Associate professor, cybersecurity, networking, and digital forensics, 2011

B.S., Wilmington University; M.S., University of Maryland, University College

Courtney Sabol

Assistant professor, education, 2015

B.S., Penn State University; M.A., Notre Dame of Maryland University

Anthony Santorelli

Associate professor, physical science, 2014

B.S., Cornell University; M.S., Ph.D., University of Maryland

Khaled Sayed

Associate professor, world languages, 2007

B.A., Cairo University; M.A., Pontificia Universidad Javeriana University; M.A., LaSalle University, 2018

Gregory R. Schrader

Professor, biology, 2006

B.S., Ph.D., Temple University

Jennifer M. Schuster

Assistant professor, visual arts, 2016

B.A., James Madison University; M.A., Maryland Institute, College of Art

William D. Seabrook

Assistant professor, cybersecurity, networking and digital forensics, 2019

B.S., University of Maryland College Park; M.S., Johns Hopkins University

Darian Senn-Carter

Professor and interim director, homeland security and criminal justice institute, 2013

B.A., University of Maryland College Park; M.S., Towson University; Ed.D. Edgewood College

Brandi R. Shepard

Associate professor, architecture and interior design, 2001

A.A., Anne Arundel Community College; B.S., Catholic University of America; M.B.A., Marylhurst University; CDT, LEED Green Associate

Maureen A. Sherer

Professor, chemistry, 1992

B.S., Purdue University; M.S., Ohio State University; M.S., Johns Hopkins University

James J. Sherman, Jr.

Assistant professor, engineering, 2018

B.S., Purdue University; M.S., University of Maryland

Tracetta (Tracey) Short

Assistant professor, nursing, 2019

B.S., University of MD Baltimore County; ASN, Community College of Baltimore County

BSN, University of Maryland School of Nursing; MS; University of Maryland School of Nursing

Grace Sikorski

Professor, English, 2003

B.A., City University of New York Queens College; M.A., Ph.D., Pennsylvania State University

Shyamala Sivalingam

Associate professor, chemistry, 2016

B.S., M.S., Seethalakshmi Ramaswami College; B.Ed., Annamalai University; Ph.D., Bharathidasan University

Kentina Smith

Associate professor and academic chair, psychology, 2014

B.A., University of Maryland College Park; M.S., Ph.D., Walden University

Stephanie E. Smith-Baker

Assistant professor, medical assisting, 2002

B.S., Morgan State University; C.Ph.T, A.H.I..

Drew M. Snyder

Associate professor, visual arts, 2006

B.F.A., Carnegie Mellon University; M.S., New York University

Tracy M. Sorrells

Assistant professor, mathematics, 2006

A.A., Laney College; B.A., Holy Names College; M.A., San Francisco State University

Suzanne J. Spoor

Professor, English, and gender and sexuality studies, 1999

B.A., College of Wooster; M.A., Ph.D., University of Maryland College Park

Melissa B. Spurlock

Associate professor, mathematics, 1987

B.S., Tougaloo College; M.S., Atlanta University

Johnelka W. Stafford

Assistant professor, business management, 2017

B.S., University of Baltimore; M.B.A., University of Phoenix

Cynthia K. Steinhoff

Professor, library, 1983

B.S., Edinboro State College; M.S.L.S., Clarion State College; M.B.A., University of Baltimore

Alice Pallavicini Stephens

Professor, nursing, 1984

B.S.N., M.S.N., University of Virginia; R.N., P.N.P.

Julie Takacs

Associate professor, biology, 2018

B.A., Franklin and Marshall College; Ph.D., Johns Hopkins School of Medicine

Rachelle E. Tannenbaum

Professor, psychology, 2000

B.A., Rutgers University; M.A., University of Maryland Baltimore County; C.A.G.S., Johns Hopkins University; Ph.D., Capella University

Wendy Tarbalouti

Assistant professor, nursing, 2021

B.S.N., M.S.N., Chamberlain University

Kasia J. Taylor

Professor, cybersecurity, networking, and digital forensics, 2007

B.A., Pennsylvania State University; M.B.A., University of Maryland College Park

Kerry Taylor

Associate professor and academic chair, academic literacies, 2001

B.A., George Washington University; M.Ed., George Washington University; Ed.D., George Washington University

Philip B. Terry-Smith

Associate professor and assistant dean, social sciences, philosophy and interdisciplinary studies, 2013

M.H.S., Lincoln University; Ph.D., Walden University

Rebecca J. Tolley

Associate professor, nursing, 2007

B.A., North Carolina Wesleyan College; M.S.N., University of Phoenix

Deborah Tolliver

Professor and coordinator, nursing, 2004

A.A.S., Anne Arundel Community College; B.S., Bowie State University; M.S.N., University of Maryland

Robyn A. Toman

Professor, mathematics, 1999

B.A., Roanoke College; M.Ed., University of Maryland College Park

Antione D. Tomlin

Associate professor, academic literacies, 2018

B.S., Stevenson University; M.A., Morgan State University; Ph.D., University of Maryland Baltimore

Lynn J. Tracey

Professor, chemistry, 1996

B.S., University of Maryland; Ph.D., University of Delaware

Vanessa Trebelhorn

Assistant professor, nursing, 2021

B.S.N., M.S.N., DNP, University of Maryland, Baltimore

Sean J. Urbantke

Assistant professor, theatre, 2014

B.F.A., Texas Christian University; M.F.A., University of Maryland College Park

Wilfredo Valladares Lara

Professor and academic chair, visual arts, 2006

B.F.A., Maryland Institute College of Art; M.F.A., University of Maryland

Christine J. Vasica

Assistant professor, library, 2018

B.A., Chapman University; M.L.I.S., University of California, Los Angeles

Mary Venters

Assistant professor, nursing, 2019

B.S., Charleston Southern University; ADN, Anne Arundel Community College; MSN, Walden University

Mary E. Wallingsford

Associate professor, cybersecurity, networking, and digital forensics, 2012

B.S., University of Maryland; M.S., University of Maryland University College; CCNA

Simon Ward

Assistant professor, English, 2018

M.A., MLitt; University of Glasgow

Ian A. Wardenski

Associate professor, music, and academic chair, performing arts, 2010

B.A., Notre Dame de Namur University; M.M., Duquesne University; Ph.D., The Catholic University of America

G. Harold Waterman

Professor, computer information systems, 2003

B.A., Wagner College; M.P.A., New York University

Brian Mark Weber

Instructor, English, 2015

B.A., Vermont College of Norwich University; M.A., Washington College; M.A. Norwich University

Kristin Weedn

Assistant professor, nursing, 2019

BSN and MSN, Notre Dame of Maryland University

Benjamin J. Weibell

Professor, biology, 2005

B.S., Brigham Young University; Ph.D., The University of Alabama

Elizabeth Westman

Instructor, radiologic technology, 2013

B.S., University of Baltimore; R.T.R.

Krista Y. White

Associate professor, biology, 2017

B.S., University of North Carolina at Wilmington; Ph.D., Eastern Virginia Medical School

Steven H. White

Assistant professor, computer information systems, 1999

B.S., M.G.A., M.I.S., University of Maryland University College

Brandy M. Whitlock

Professor, library, 2005

B.S., Virginia Polytechnic Institute and State University; M.A., Miami University; M.F.A., M.L.I.S., University of Alabama

Nicole R. Williams

Professor and academic chair, human services, 2005

B.A., Bowie State University; M.S., Ph.D., Howard University

Peter M. Wirig

Professor and program coordinator, Legal Studies Institute, 2007

B.S., Towson University; J.D., University of Baltimore School of Law

Cynthia L. Woods

Associate professor, computer science, 2013

B.S., University of North Texas; M.S., University of Maryland; M.Ed., Grand Canyon University

Ellyn Woodzelle

Assistant professor, nursing, 2015

B.S.N., College of Notre Dame of Maryland; M.S.N., Walden University

Michael F. Wright

Assistant professor, mathematics, 2005

Margaret L. Wyatt

Associate professor, nursing, 2014

A.D.N., Anne Arundel Community College; B.S.N., University of Notre Dame; M.S.N., Walden University

Jaeyoung Yang

Assistant professor, Emergency Medical Services, 2021

B.S., M.S., University of Maryland, Baltimore County; N.R.P.

Erica Owens Yeager

Professor, sociology, 2010

B.A., M.A., Ph.D., University of Florida

Tuition, Fees and Payments

Tuition per credit hour*

Residents of Anne Arundel County	\$122
Residents of other Maryland counties	\$264
Residents of other states and foreign students	\$415

Tuition reduction*

Some students enrolled in specific programs and/or courses may be eligible for waiver of some tuition charges. See tuition waivers and reductions.

Registration fee per term*	\$25
-----------------------------------	------

General student fees*

Athletic	\$1 per credit hour
Educational services	\$22 per credit hour
Student activity	\$2 per credit hour

Individual course fees*

Lab/clinical fees	<i>vary per course</i>
Physical Education fee (per term if enrolled in a PHE course)	\$6

Penalty fees*

Late payment	\$10
Returned check	\$25

Testing fees*

Testing and Assessment Services information can be found at <https://www.aacc.edu/resources/academic-services/testing/>

Credit by exam*

Per credit hour	\$7
plus application fee	\$5

Parking/Traffic Violations*

See fees listed on page: www.aacc.edu/campus-safety/services/traffic-and-parking-regulation/

*Tuition and fees are subject to change without notice. For current rates: www.aacc.edu/costs-and-paying/credit-costs-and-payment/credit-tuition-and-fees/

Course Fees

Payment of Tuition and Fees

For specific payment information on tuition and fees, visit www.aacc.edu/costs-and-paying/credit-costs-and-payment/paying-your-bill/

Fee Explanations

Athletic fee funds athletic facilities, membership on intercollegiate athletic teams and admission to sporting events.

Clinical fees offset the cost of clinical placements and supervision. Request a complete explanation of clinical fee expenditures from the appropriate academic department.

Educational Services fees fund information literacy initiatives and instructional support services including online access to research information, maintenance and upgrade of the library automation system, peer tutoring, online tutoring and open access computer labs.

Lab fees pay for materials and supplies for science experiments, computer supplies, equipment maintenance and special materials. Request a complete explanation of lab fee expenditures from the appropriate academic department.

Late Payment fee is assessed for each tuition and fee payment made after the scheduled due date. Due dates are listed in the class schedule and on the student's bill.

Parking and Traffic Violation fees are charged to all students who violate any of the parking or traffic violations.

Physical Education fees charged to all students enrolled in PHE courses for maintenance of instructional equipment.

Registration fees cover costs of the student identification card and registration.

Returned Check fee is assessed when a student's check is returned from the bank for any reason.

Student Activity fees offset the cost of co-curricular educational, cultural and recreational activities, publications and programs including the campus newspaper, drama performances and speakers.

Financial Aid

It is the philosophy of the college that no qualified student should be restricted from attempting college because of limited financial resources. Grants, scholarships, loans and employment programs are available to eligible students who are enrolled in eligible degree or certificate programs of study. For more information visit Financial Aid & Scholarships.

Third Party Payments

Anne Arundel Community College accepts third party payments for tuition assistance from students' employers, college tuition trust funds, external scholarships or from other organizations or individuals. For students receiving third party assistance (payments), supporting documentation from the sponsoring agency must be sent to the Cashier's office prior to or at the time of registration. If payment or third party documentation is not submitted, registration may be

canceled for non-payment. For more information, please contact the Cashier's office at cashiersoffice@aacc.edu. Students are responsible for any charges not covered by third party assistance and are subject to late fines.

In compliance with the Veterans Benefits and Transition Act of 2018 (Title 38 USC 3679(e) Compliance), "the College will not impose any penalty, including the assessment of any late fee, precluding registration or otherwise denying access to classes, libraries or other College facilities, or requiring the student to borrow additional funds, on any student using U.S. Department of Veterans Affairs (VA) Vocational Rehabilitation and Employment (Chapter 31) or Post 9/11 GI Bill (Chapter 33) benefits who has unpaid financial obligations due to any delay in payment or disbursement of funding by the VA."

Educational Tax Credits

The Taxpayer Relief Act of 1997 provides educational tax credit programs. Students should consult with tax professionals regarding the educational tax credits. AACC will send a 1098T Tuition Statement to all students who have paid within the calendar year for qualified tuition and related expenses. More information can be found on the IRS Tax Benefits for Education: Information Center website.

Refunds

Drop/Withdraw with a Refund: To be eligible for a refund, you must file a drop/add form with the Records and Registration office, or at MyAACC to officially drop a class by the deadline. Refund Deadlines are published in the schedule of classes and are also listed below.

If you stop attending a class but do not officially drop the class, you continue to be financially responsible for all tuition and fees and receive a failing grade.

Classes dropped prior to the Refund Deadline are eligible for a full refund.

Students are provided a full refund when the college cancels a class.

<p>DROP/WITHDRAW/REFUND DEADLINES <i>Note: The last day upon which courses may be dropped is also listed on the students' MyAACC page under My Classes. After the final drop date, a student may withdraw from a class through the 12th week of the 15th week session. For terms shorter than 15 weeks, the withdraw period will be defined proportionately.</i></p>	
<p>FOR CLASSES SCHEDULED EIGHT WEEKS OR MORE</p>	<p>FOR CLASSES SCHEDULED SEVEN WEEKS OR FEWER</p>
<ul style="list-style-type: none"> Students may drop the class for five calendar days after the date of the first scheduled class meeting and receive a full refund. 	<ul style="list-style-type: none"> Students may drop the class for two calendar days after the date of the first scheduled class meeting and receive a full refund. No refunds will be given after that date.
<ul style="list-style-type: none"> Students have five additional calendar days to withdraw from the class and receive a 60% reduction of the tuition, general student fees and lab fees charged for the class. 	<ul style="list-style-type: none"> For hybrid, hybrid synchronous, online and online synchronous classes, the first day of the session is considered the first scheduled class meeting.
<ul style="list-style-type: none"> If a student withdraws more than 10 calendar days after the date of the first scheduled class meeting, no refunds will be issued. 	

- | | |
|--|--|
| <ul style="list-style-type: none">• For hybrid, hybrid synchronous, online and online synchronous classes, the first day of the session is considered the first scheduled class meeting. | |
|--|--|

Students who are enrolled in noncredit classes, no refund will be given after the first scheduled class meeting.

All students receiving federal student aid should be aware that withdrawing from a class/classes might affect the amount of financial aid they will receive.

Financial Aid Refunds

Students who officially withdraw from a course may jeopardize their financial aid eligibility or have their award reduced but are still responsible for their tuition and fees minus any refunds outlined above.

If your total semester financial aid exceeds the total of your tuition, mandatory fees, bookstore charges and any unpaid balance, the Cashier's office will mail you a refund check within 14 days after your aid payments create a credit balance.

Note that federal regulations require you to cash a federally funded refund check (Title IV funds) within a timely manner, and all refund checks expire 180 days from the issue date of the check.

If you do not cash your refund check within 180 days of the original refund issue date, AACC will cancel the check and the funds will be returned to the loan or grant fund that created the credit balance.

Residency and Tuition Procedures

As authorized by college policy, students at Anne Arundel Community College are charged tuition for credit classes according to their residence as established on the first day of the class session and are classified to be one of the following:

1. Residents of Anne Arundel County - in county
2. Residents of the State of Maryland but outside of Anne Arundel County - out of county
3. Residents of other states, including students who are not U.S. citizens or permanent U.S. residents not holding an Alien Registration Receipt card - out of state
 - A. Regardless of a student's residency, students must sign by appropriate means, an application and registration form attesting to their residency. At prescribed intervals during a student's enrollment at the college, the students may be asked to verify that their residence is the same as originally obtained or officially changed. If their residence has changed since submitting the written application and/or registration form, students shall notify the Records and Registration Office, in writing, and attest to their new residence. The college reserves the right to request additional information and documentation if necessary.
 - B. Legal domicile shall be defined as a person's permanent place of abode, where physical presence and possessions are maintained and where he/she intends to remain indefinitely.

OR

The permanent place of abode of any person or persons contributing more than one-half of the student's financial support during the most recent completed year.
 - C. Students shall be considered residents of a county of state if they maintain their legal domicile there and have done so for a period of not less than three months before the starting date of the class session in which the class is scheduled.
 - D. When students change residence, they must report the new residence to the registrar within 30 days. Students shall complete a written statement and may be required to provide documentation of the new residence and the date when the change was effective.

- E. Determination of student residency is made by the registrar based on the documents provided. The college shall consider any or all of the following factors in determining residency and may request evidence for substantiation:
1. Ownership or rental of local living quarters;
 2. Substantially uninterrupted physical presence, including the months when the student is not in attendance at the college;
 3. Maintenance in Maryland and in the county of all, or substantially all, of the student's possessions;
 4. Payment of state and local income taxes on all taxable income-earned;
 5. The student's Visa status;
 6. Registration to vote in the state and county;
 7. Registration of a motor vehicle in the state, with a local address specified;
- AND**
8. Possession of a valid Maryland driver's license or identification card issued by the Maryland Motor Vehicle Administration.
- F. An individual's immigration status may not preclude award of Maryland residency under this policy if the individual has a legal capacity to establish domicile in Maryland.

Students who are Anne Arundel County public school teachers who enroll in a course required for employment are classified as "in-county residents" for tuition purposes even if residing outside of Anne Arundel County.

Tuition for Military Personnel and Their Dependents

In addition to the general requirements above, the following provisions apply to the specific categories of students indicated.

1. An active duty member of the United States Armed Forces will be in-county for tuition purposes.
2. The spouse or child of an active duty member of the United States Armed Forces is exempt from being charged the out-of-state tuition differential if the active duty member of the United States Armed Forces is stationed in Maryland, resides in Maryland or is domiciled (residents of record) in Maryland. Such an individual will be considered either the in-county or the out-of-county for tuition purposes based on where he/she resides, as demonstrated by supporting documentation.
3. The spouse or child of a qualified member of the United States Armed Forces whose domicile or permanent duty station is in Maryland and is continuously enrolled at the college when the permanent duty station is changed to a location outside the state shall be considered out-of-county (in-state) for tuition purposes.
4. A qualified member of the Maryland National Guard will be considered out-of-county for tuition purposes unless they are a resident of the county. Those members of the Maryland National Guard who are residents of the county will be considered in-county rate.
5. An honorably discharged veteran of the United States Armed Forces who registers as an entering student at Anne Arundel Community College is exempt from paying out-of-state tuition differential if the veteran presents the registrar with documentation evidencing that the veteran attended a public or private secondary school in Maryland and the veteran graduated from a public or private secondary school in Maryland or received the equivalent of a high school diploma in Maryland. Such an individual will be considered at either the in-county or the out-of-county tuition rate based on where he/she resides, as demonstrated by supporting documentation.
6. Students who are a qualified, honorably discharged United States Armed Forces veterans will be classified as "out-of-county, in-state" residents for tuition purposes even if residing outside the state of Maryland.

Tuition for Dual-enrolled high school students (Early College Access Program)

High school students who attend a public high school located in the state of Maryland, Anne Arundel County home schooled students, as well as, some Anne Arundel County private schools may qualify for a special tuition rate equivalent to 50 percent of their tuition for credit courses. To qualify, the student must complete the Early College Access Program (ECAP) application form. All remaining tuition and fees must be paid on or before the due date or risk being dropped from your classes. The Home-Private Schools ECAP application form and information on how to access

the Anne Arundel County Public Schools ECAP application form are available online at www.aacc.edu/earn-college-credits-while-in-high-school/ and must be submitted with the required signatures to the Cashier's office each semester. For more information, please call the admissions office at **410-777-2246**.

Tuition for International Students/Non-U.S. Citizens

For a non-U.S. citizen to be considered a Maryland resident for the purposes of this policy, the student shall possess the legal capacity under state and federal law to establish Maryland domicile. Students with an F, B or J visa status pay out-of-state tuition. Undocumented immigrants who attended high school in Maryland can apply for a special tuition rate equivalent to either the in-county or out-of-county rate through the Maryland Dream Act. In order to qualify for the Maryland Dream Act tuition rate, students must provide documentation that they meet the requirements. To apply, complete the Maryland Dream Act application available at www.aacc.edu/costs-and-paying/credit-costs-and-payment/paying-your-bill/maryland-dream-act/ and submit it to the Admissions Office admissions@aacc.edu. For more information call **410-777-2152** or Espanol **410-777-1999**.

Tuition Waivers and Reductions

Students must apply for waivers or tuition reductions each term before the first day of classes. Waivers or reductions are not applied until payment has been received unless the student has approved financial aid or tuition assistance. Direct questions to the Cashier's office at cashiersoffice@aacc.edu.

In compliance with the Code of Maryland Regulations and the Education Article of the Maryland Annotated Code, the Board of Trustees of Anne Arundel Community College authorizes full or partial waivers of tuition for qualifying individuals in the categories listed below.

Maryland Foster Care and Maryland Unaccompanied Homeless Youth Recipients

A Maryland Foster Care and Maryland Unaccompanied Homeless Youth recipient is exempt from paying tuition and mandatory fees if the recipient:

- Is enrolled at the institution by the date the recipient reaches the age of 25; and
- Continues to be exempt from paying tuition and fees until 10 years after first enrolling and pursuing an associate's degree; or is awarded a bachelor's degree; and
- Is enrolled full or part time for an associate, bachelor's, or a vocational certificate at a Maryland public institution of high education; and
- Has filed for federal and state financial aid by March 1 each year; and
- Meets all other financial aid eligibility criteria.

For more information call financial aid at **410-777-2203**.

Tuition Waivers

Waivers to Tuition Policy supports tuition waivers for the following:

Maryland residents who are age 60 years or older

The college waives tuition charges for credit and eligible continuing education courses for Maryland residents who are age 60 years and older by the first day of the term. All other fees must be paid on or before the due date.

Maryland residents receiving SSI or SSDI

In accordance with Maryland law § 16-106c and the procedures set by the Maryland Higher Education Commission, Anne Arundel Community College waives tuition charges for Maryland residents enrolled in credit and certain

qualified noncredit continuing education courses who are certified as retired or disabled by the Social Security Administration.

The waiver is available for tuition charges for up to 6 credits designed to lead to employment, including life skills per semester without declaring a degree or certificate program. The tuition waiver is available for up to 12 credits per semester for students who have declared a degree or certificate program that leads to employment.

Eligibility Requirements

1. A resident of Maryland who is receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) benefits and out of the workforce because of a permanent disability as defined by the Social Security Act, the Railroad Retirement Act, or in the case of former federal employees, the Office of Personnel Management. Individuals receiving SSI or SSDI benefits as a dependent or survivor of a disabled beneficiary do not qualify for this waiver.
2. In accordance with state regulations, students enrolled in a degree or certificate program who are requesting the Social Security Tuition Waiver must annually file and complete the Free Application for Federal Student Aid (FAFSA) no later than March 1st of the award year.
3. Prior to the first scheduled day of class, students must provide a current **Benefit Verification Letter** from the Social Security Administration (or Railroad Retirement board or former federal employer) to the Cashiers office at cashiersoffice@aacc.edu. Benefit Verification Letters are valid for one year from the date of the letter.
4. Fees (not covered under the Social Security Tuition Waiver) and any remaining tuition charges must be paid on or before the due date. Call the Cashiers office at 410-777-2236 to make this payment. Only payment prevents students from being dropped from courses.
5. Awarded grants and scholarships will be applied first to pay tuition. The waiver will only be applied if grants and scholarships do not cover the full semester tuition charge. Student loans or Federal Work Study funds are not a grant or scholarship and therefore not considered.
6. Colleges reserve the right to discontinue the tuition waiver for a student enrolling in a course with less than 10 regularly enrolled students.

Members of the Maryland National Guard

Students who are members of the Maryland National Guard are eligible for a waiver of 50 percent of their tuition for credit courses at Anne Arundel Community College. To qualify for this waiver, members of the Maryland National Guard must submit their State Tuition Waiver (STW) Letter signed by their unit commander to the Cashier's office each term. The remaining tuition and fees must be paid on or before the due date. Students must be enrolled in regularly scheduled credit courses with sufficient tuition paying students to warrant the college's offering the classes. Direct questions to the Cashier's office at cashiersoffice@aacc.edu.

Maryland Dream Act

The Maryland Dream Act qualifies certain undocumented immigrants for a tuition rate equivalent to the in-state rate. A complete application requesting approval must be submitted before the start of the term. Application and details are available at www.aacc.edu/costs-and-paying/credit-costs-and-payment/paying-your-bill/maryland-dream-act/.

Tuition Reductions

College policy supports tuition reductions for the following:

Health Manpower Shortage Tuition Reduction Program

Maryland residents who by the first day of the term are enrolled in a program of study designated by the state as a Health Manpower Shortage Program may be eligible for in-county tuition rates for courses required for program

completion. It is the students' responsibility to confirm that a program is designated as a Health Manpower Shortage Program before applying for a tuition reduction. To apply for this tuition reduction program, students must notify the Cashier's office that they are enrolled in a Health Manpower Shortage Program prior to making their first payment of tuition and fees and when they add a class. Written appeals of eligibility for tuition reduction received by the Accounts Receivable Manager will be determined within 10 days of receipt. Health Manpower Shortage Programs are subject to change. A current listing is available on MHEC's website. For information on a specific program, contact the Cashier's office, at **410-777-2236** or cashiersoffice@aacc.edu. The following AACC programs are designated as Health Manpower Shortage Programs as of Jan. 1, 2011:

EMT/Paramedic Associate of Applied Science	Degree or Certificate
Human Services/Associate of Applied Science	Degree or Certificate
Human Services/Veterans Counseling	Certificate
Massage Therapy/Associate of Applied Science	Degree or Certificate
Medical Assisting/Associate of Applied Science	Degree or Certificate
Medical Coding	Certificate

Radiologic Technology Associate of Applied Science	Degree

Health Manpower Shortage Program Tuition Reduction for Nonresident Nursing Students

This program is available to out-of-state residents who are enrolled, have been accepted in an eligible nursing program and are pursuing a program leading to a nursing degree. Students may apply for a reduction of the out-of-state tuition differential for courses required for program completion. In return, students must sign a promissory note stating that upon completion of the nursing program, they will sit for the nursing licensure exam and work for at least two years on a full-time basis in a Maryland hospital or related institution. Obtain further information at the financial aid office. Health Manpower Shortage Programs are subject to change. A current listing is available www.mhec.state.md.us. For information, contact the Cashier's office at **410-777-2236** or cashiersoffice@aacc.edu.

Statewide Tuition Reduction Program

Maryland residents who by the first day of the term are enrolled in a program of study designated by the state as a Statewide Program may be eligible for in-county tuition rates for courses required for program completion. It is the students' responsibility to confirm that a program is designated as a Statewide Program of Study before applying for a tuition reduction. To apply for this tuition reduction program, students must notify the Cashier's office that they are enrolled in a Statewide Program of Study prior to making their first payment of tuition and fees and when they add a class. Written appeals of eligibility for tuition reduction received by the Accounts Receivable Manager will be determined within 10 days of receipt. Statewide Programs are subject to change. A current listing is available on MHEC's website. For information on a specific program, contact the Cashier's office, at **410-777-2236** or cashiersoffice@aacc.edu. The following AACC programs are designated as statewide programs as of Jan. 1, 2011:

Homeland Security	Degree or Certificate
Hotel/Restaurant Management	Degree or Certificate
Life and Engagement Coach	Certificate
Paralegal Studies	Degree or Certificate
Skilled Professional Trades Management	Degree
Special Education Support	Certificate
Transportation, Logistics and Cargo Security	Certificate

Workforce Innovation and Opportunity Act (WIOA)

Many of our areas of study provide career enhancement that may meet guidelines set forth by the federal Workforce Innovation and Opportunity Act (WIOA). The Anne Arundel Workforce Development Corporation, Anne Arundel County's WIOA services provider, assists job seekers by delivering career services and workforce training funds. An individual qualifies for short-term workforce training or career development if he or she has been laid off from a job and/or meets WIOA income eligibility guidelines. Determining funding eligibility requires a meeting with an AAWDC staff person prior to course enrollment to establish a training plan. For information, call **410-987-3890** to be directed to an AAWDC location convenient to you. After meeting with an AAWDC staff person, students wishing to inquire about the WIOA-approved AACC areas of study can call the Admissions and Enrollment Development office at **410-777-2246**.

Tuition for Parent of a deaf or hard of hearing child

In compliance with the Code of Maryland Regulations starting October 1, 2019 a parent of a deaf or hard of hearing child may take one course that teaches a language or communication mode at AACC and is exempt from paying tuition at AACC for that course. Eligible individuals must make arrangement with the Cashier's Office prior to the first payment due date.

Course Fees (A)

Courses	Fees
Allied Health	
AHT 280 - Special Topics in Allied Health Technology	\$10-50
AHT 280-299	\$10-50
Architecture	
ACH 100 - Introduction to Interior Design	\$20
ACH 101 - Kitchen and Bath Fundamentals	20
ACH 104 - Interior Finishes and Applications	40
ACH 105 - Textiles and Textile Applications	40
ACH 106 - Interior Design Studio	40
ACH 111 - Graphic Communication 1: Composition and Delineation	40
ACH 112 - Graphic Communication 2: Design and Representation	40
ACH 113 - Analysis of the Built Environment	40
ACH 114 - History of Contemporary Landscape Design	40
ACH 115 - Introduction to Landscape Architecture	40
ACH 116 - Landscape Architecture: System and Design	40
ACH 117 - Landscape Architecture: Plant Identification	40

Electronic Engineering Technology

EET 118 - Electronic Hardware and Assembly Techniques	\$40
EET 130 - Introduction to Electronic Circuits	25
EET 141 - Telecommunications Wiring Laboratory	30
EET 150 - Semiconductors and Linear Circuits	25
EET 231 - Digital-Electronic Circuits	25
EET 250 - Microprocessors and Microcontrollers	50
EET 255 - Metrology and Calibration	30
EET 260 - Electronic Communication Systems	25
EET 265 - Electronics Technician Capstone	50
EET 280-299 - Special Topics in Electronic Engineering Technology	14-21

Emergency Medical Technician

EMT 100 - Uh Oh! What do I do?	\$50
EMT 104 - Emergency Medical Care, CPR & AED lab	60
EMT 105 - Emergency Medical Technician (EMT) lab	200
EMT 109 - Cardiac Algorithms for the EMT-Intermediate lab	75
EMT 111 - EMT-Intermediate Concepts and Practice 1 lab	100
EMT 112 - EMT-Intermediate Concepts and Practice 2 lab	75
EMT 114 - EMT-Intermediate Skills Mastery and Field Internship lab	75
EMT 114 - EMT-Intermediate Skills Mastery and Field Internship clinical	25
EMT 115 - Introduction to Paramedic	100
EMT 118 - Paramedic 1 lab	350
EMT 118 - Paramedic 1 clinical	100

EMT 119 - Paramedic 2 lab	350
EMT 119 - Paramedic 2 clinical	100
EMT 140 - Paramedic 1 lab	150
EMT 140 - Paramedic 1 clinical	50
EMT 142 - Paramedic 2 lab	150
EMT 142 - Paramedic 2 clinical	50
EMT 200 - EMT-Intermediate to Paramedic Bridge Skills Mastery 1 lab	150
EMT 200 - EMT-Intermediate to Paramedic Bridge Skills Mastery 1 clinical	50
EMT 210 - EMT-Intermediate to Paramedic Bridge Skills Mastery 2 lab	150
EMT 210 - EMT-Intermediate to Paramedic Bridge Skills Mastery 2 clinical	50
EMT 215 - Paramedic 3	250
EMT 236 - Paramedic 3 lab	200
EMT 236 - Paramedic 3 clinical	50
EMT 270 - Paramedic Capstone lab	300
EMT 270 - Paramedic Capstone clinical	100
EMT 280-299 - Special Topics: Emergency Medical Technology	0-50

Engineering

EGR 120 - Introduction to Engineering Design	\$30
EGR 235 - Circuit Theory	25
EGR 241 - Systems and Signals	20
EGR 244 - Digital Logic Design	25
EGR 250 - Intermediate Programming for Engineers	30
EGR 280-299 - Special Topics in Engineering	Fees will vary

Engineering Technologies

ENT 241 - Computer-Aided Drafting	\$35
ENT 242 - Advanced Computer-Aided Drafting and Design	35

ENT 260 - Solid Modeling with SolidWorks	35
ENT 261 - Rapid Prototyping Techniques	50
ENT 280-299 - Special Topics in Engineering Technologies	5-21

Entrepreneurial Studies

ESI 103 - Introduction to Entrepreneurship	\$16
ESI 270 - Entrepreneurship: New Venture Planning	25

Gender and Sexuality Studies

Course Fees (H - L)

Health

HEA 100 - Assessment and Theory of Fitness and Health	\$30
HEA 100 - Assessment and Theory of Fitness and Health physical education fee	6
HEA 150 - Advanced First Aid, CPR and AED	35
HEA 230 - Personal Trainer Fundamentals	15
HEA 295 - Care and Prevention of Athletic Injuries	15

Health Information Technology

HIT 111 - Introduction to Health Information Technology 1	\$30
---	------

History

HIS 221 - The Battles of Gettysburg and Antietam	\$30
HIS 231 - The Holocaust	40
HIS 280-299 - Special Topics in History	Fees will vary

Histotechnology

HTC 100 - Introduction to Histology Safety and Techniques	\$215
HTC 101 - Basic Histotechnology	244
HTC 201 - Advanced Histotechnology	270
HTC 202 - Histotechnology Laboratory Clinical 1	127

HTC 203 - Histotechnology Laboratory Clinical 2 127

Homeland Security Management

HLS 211 - Intelligence Analysis and Security Management \$20

HLS 213 - Transportation and Border Security 20

HLS 220 - Intelligence and U.S. National Security 20

HLS 225 - Introduction to Intelligence Analytics 20

HLS 230 - Intelligence Support to the Policy Maker and Military 20

HLS 245 - Intelligence Analytics Seminar 20

Hotel/Restaurant Management

HRM 121 - Introduction to Cooking \$225

HRM 123 - Cooking Techniques 1 250

HRM 124 - Introduction to Baking and Pastry 145

HRM 148 - German Food and Culture 1 35

HRM 150 - Chinese Cuisine and Culture 35

HRM 151 - The Asian Kitchen and Techniques of Stir-Fry 35

HRM 157 - Indian Food and Culture 35

HRM 158 - Use of Herbs in Food Preparation 30

HRM 161 - Introductory Ice Carving 100

HRM 162 - Regional Italian Cuisine 35

HRM 165 - Vegetarian Proteins and Diet 35

HRM 190 - Food Science and Nutritional Cooking 175

HRM 201 - Intermediate Bread Production 150

HRM 202 - Intermediate Cake Production 240

HRM 203 - European Pastry, Torte and Gateau 220

HRM 205 - Cooking Techniques 2 290

HRM 220 - Garde Manger 290

HRM 223 - International Cuisine	275
HRM 225 - Restaurant Production and Simulation	350
HRM 226 - Advanced Pastry Production	175
HRM 227 - Chocolates, Confections, and Entremet	195
HRM 251 - Food and Beverage Operations Management	50
HRM 280-299 - Special Topics in Hotel /Restaurant Management	0-1,020

Human Services

HUS 115 - Fieldwork: Counseling, Assessment and Case Management	\$15
HUS 217 - Fieldwork: Theories of Counseling	15

Interprofessional Health

IPH 262 - Clinical Hematology and Microbiology	\$200
IPH 263 - Principles of Diagnostic Procedures	200

Course Fees (M - PA)

Massage Therapy

MAS 110 - Fundamentals of Massage Therapy	\$60
MAS 111 - Intermediate Massage Therapy	60
MAS 113 - Advanced Massage Therapy	60
MAS 120 - Massage Therapy Clinic 1	20
MAS 121 - Massage Therapy Clinic 2	20
MAS 201 - Foot Reflexology	10
MAS 202 - Sports Massage	10
MAS 212 - Massage Therapy in a Healthcare Setting	60
MAS 280-299 - Special Topics in Massage Therapy	0-100

Mathematics

MAT 005 - Arithmetic	\$15
----------------------	------

MAT 010 - Pre-Algebra	15
MAT 034 - Quantitative Foundations	15
MAT 281-299 - Special Topics in Mathematics	0-30

Mechatronics

MEC 110 - Mechanical Systems	\$30
MEC 120 - Pneumatics and Hydraulics	30
MEC 130 - Programmable Logic Controllers	30
MEC 140 - Introduction to Robotics	100
MEC 230 - Electric Motor Fundamentals	30
MEC 266 - Mechatronic Systems Capstone	30

Medical Assisting

MDA 118 - Intravenous Therapy	\$50
MDA 119 - Electrocardiography and Cardiac Diagnostics	60
MDA 140 - Clinical Medical Assisting 1	100
MDA 142 - Clinical Medical Assisting 2	125
MDA 280-299 - Special Topics in Medical Assisting	0-125

Medical Laboratory Technician

MLT 100 - Introduction to the Medical Laboratory	\$170
MLT 101 - Urinalysis and Body Fluids	170
MLT 103 - Entry Level Clinical Laboratory Testing	125
MLT 125 - Phlebotomy	100
MLT 202 - Clinical Microbiology	235
MLT 203 - Clinical Chemistry	285
MLT 204 - Clinical Immunology/Immunohematology	235
MLT 205 - Clinical Hematology	285
MLT 274 - Medical Laboratory Assistant Practicum clinical	120

MLT 275 - Phlebotomy Practicum lab	120
MLT 276 - Clinical Hematology Practicum clinical	60
MLT 277 - Clinical Chemistry Practicum clinical	60
MLT 278 - Clinical Microbiology Practicum clinical	60
MLT 279 - Clinical Immunohematology Practicum clinical	60
MLT 280-299 - Special Topics in Medical Laboratory Technician	0-180

Music

MUS 113 - Music Theory and Ear Training 1	\$3
MUS 114 - Music Theory and Ear Training 2	3
MUS 141 - Class Piano 1	3
MUS 142 - Class Piano 2	3
MUS 180 - Orchestra	5
MUS 181 - Jazz Band	5
MUS 182 - Concert Choir	5
MUS 184 - Concert Band	5
MUS 188 - Chamber Singers	5
MUS 191 (192-212, 215-219, 221, 222)	250
MUS 191B (192-212, 215-219, 221, 222)	250
MUS 213 - Music Theory and Ear Training 3	3
MUS 214 - Music Theory and Ear Training 4	3

Nursing

NUR 100 - Patient Care Technician/Geriatric Nursing Assistant lab	\$50
NUR 103 - Advanced Patient Care Technician lab	150
NUR 120 - Foundations for Nursing lab	425
NUR 120 - Foundations for Nursing clinical	450
NUR 130 - Nursing of Adult Clients in Health and Illness 1 lab	250

NUR 130 - Nursing of Adult Clients in Health and Illness 1 clinical	250
NUR 131 - Maternal, Newborn Nursing and Women's Health lab	250
NUR 131 - Maternal, Newborn Nursing and Women's Health clinical	250
NUR 180 - LPN, Paramedic or Veteran to RN Transition lab	50
NUR 180 - LPN, Paramedic or Veteran to RN Transition clinical	100
NUR 220 - Nursing of Adult Clients in Health and Illness 2 lab	250
NUR 220 - Nursing of Adult Clients in Health and Illness 2 clinical	250
NUR 221 - Nursing Care of Children and Families lab	250
NUR 221 - Nursing Care of Children and Families clinical	250
NUR 230 - Nursing Management of Clients with Complex Health Problems and Transition into Nursing lab	450
NUR 230 - Nursing Management of Clients with Complex Health Problems and Transition into Nursing clinical	450
NUR 280-299 - Special Topics in Nursing lab	0-400

Paralegal Studies

LGS 111 - Introduction to Paralegal Studies	10
LGS 112 - Law Office Practice and Technology	25
LGS 138 - International Law and Human Rights	10
LGS 141 - Electronic Legal Research	35
LGS 143 - Legal Research and Writing 1	10
LGS 144 - Legal Research and Writing 2	45
LGS 160 - Domestic Relations	10
LGS 170 - Civil Procedure	10
LGS 171 - Tort Law	10
LGS 210 - Legal Ethics	10
LGS 218 - Introduction to Immigration Law	5
LGS 225 - Environmental Law and Policy	5
LGS 230 - Employment Law	10

LGS 235 - Estates and Trusts	10
LGS 236 - Intellectual Property Law	10
LGS 240 - Health Care Law	10
LGS 241 - Legal Issues of Death, Dying and Organ Transplantation	5
LGS 260 - Bankruptcy Law	10
LGS 270 - Gender and the Law	10
LGS 275 - Paralegal Internship	10
LGS 280-299 - Special Topics in Paralegal Studies	0-30

Course Fees (PH - R)

Philosophy

PHL 194 - Ethics and the Information Age	\$25
--	------

Physical Education

PHE Physical Education Fee	\$6
PHE 215 - Cardio Fitness	10
PHE 218 - Water Aerobics	10
PHE 219 - Deep Water Aerobics	10
PHE 222 - Cardiovascular Kickboxing	6
PHE 233 - Weight Training	15
PHE 235 - Bowling	20
PHE 236 - Golf 1	50
PHE 237 - Hatha Yoga 2	10
PHE 256 - Swimming 1	10
PHE 257 - Swimming 2	10
PHE 258 - Swimming 3	10
PHE 259 - Lifesaving and Water Rescue	10

PHE 266 - High Intensity Interval Training 10

PHE 267 - Basketball 10

Physical Science

PHS 100 - General Physical Science \$40

PHS 119 - Fundamentals of Weather 30

PHS 200 - Earth and Space Science 30

Physical Therapist Assistant

PTA 101 - Introduction to Physical Therapist Assistant lab \$100

PTA 102 - Physical Therapist Assistant 1 lab 300

PTA 104 - Physical Therapist Assistant 2 lab 300

PTA 105 - Clinical Practice 1 25

PTA 106 - Kinesiology lab 100

PTA 150 - Functional Anatomy for the Physical Therapist Assistant lab 25

PTA 201 - Physical Therapist Assistant 3 lab 100

PTA 202 - Physical Therapist Assistant 4 lab 100

PTA 203 - Clinical Practice 2 clinical 135

PTA 204 - Physical Therapist Assistant 5 lab 100

PTA 206 - Clinical Practice 3 clinical 135

PTA 207 - Clinical Practice 4 clinical 135

PTA 280-299 - Special Topics in Physical Therapist Assistant lab 0-94

Physician Assistant

PHA 105 - Foundation of Physician Assistant Practice lab \$600

PHA 105 - Foundation of Physician Assistant Practice clinical 400

PHA 110 - Applied Medical Sciences lab 200

PHA 112 - Clinical Medicine 1 lab 150

PHA 118 - Clinical Medicine 2 lab 300

PHA 121 - Emergency Medicine lab	550
PHA 122 - Patient Evaluation Lab clinical	500
PHA 219 - Clerkship 1 clinical	1500
PHA 220 - Clerkship 2 clinical	1500
PHA 221 - Clerkship 3 clinical	1500
PHA 222 - Clerkship 4 clinical	1500
PHA 223 - Clerkship 5 clinical	1500
PHA 224 - Clerkship 6 clinical	1500
PHA 225 - Clerkship 7 clinical	1500
PHA 226 - Clerkship 8 clinical	1500
PHA 227 - Clerkship 9 clinical	1500

Physics

PHY 211 - General Physics 1	\$25
PHY 280-299 - Special Topics in Physics	0-40

Practical Nursing

LPN 180 - Fundamentals of Practical Nursing lab	\$400
LPN 180 - Fundamentals of Practical Nursing clinical	300
LPN 193 - Adult and Child Health Concepts in Practical Nursing lab	300
LPN 193 - Adult and Child Health Concepts in Practical Nursing clinical	275
LPN 194 - Women, Newborns, Mental Health and Integration of Concepts in Practical Nursing lab	350
LPN 194 - Women, Newborns, Mental Health and Integration of Concepts in Practical Nursing clinical	275

Psychology

PSY 100 - Career Development and Assessment	\$5
---	-----

Radiologic Technology

RAD 101 - Introduction to Radiography lab	\$250
RAD 111 - Radiographic Procedures 1 lab	250

RAD 112 - Clinical Radiography 1 clinical	175
RAD 121 - Radiographic Procedures 2 lab	250
RAD 122 - Clinical Radiography 2 clinical	175
RAD 212 - Clinical Radiography 3 clinical	175
RAD 231 - Radiographic Procedures 4 lab	250
RAD 232 - Clinical Radiography 4 clinical	175
RAD 252 - Clinical Radiography 5 clinical	175
RAD 280-299 - Special Topics in Radiologic Technology lab	0-50

Course Fees (S - Z)

Surgical Technology

SGT 100 - Principles of Surgical Technology 1	\$60
SGT 102 - Principles of Surgical Technology 2 lab	500
SGT 200 - Surgical Technology Clinical 1 lab	300
SGT 200 - Surgical Technology Clinical 1 clinical	200
SGT 201 - Surgical Technology Clinical	200
SGT 205 - Surgical Technology Clinical 2 lab	300
SGT 205 - Surgical Technology Clinical 2 clinical	150
SGT 206 - Surgical Technology Clinical 3 lab	300
SGT 206 - Surgical Technology Clinical 3 clinical	150

Theater Arts

THA 121 - Stagecraft	\$60
THA 132 - Acting 1	15
THA 133 - Acting 2	15
THA 134 - Acting 3	15
THA 135 - Applied Theater	100

THA 240 - Stage Makeup for Live Entertainment	100
THA 280-299 - Special Topics in Theater	5-250

Uncrewed Aerial Systems

UAS 111 - Introduction to Drone Technology	\$20
--	------

Military and Veteran Education

Index of Programs by Page Number

• Addiction Counseling (A.A.S.)	1
• Addiction Counseling (certificate)	4
• Administrative Medical Assistant (lor)	6
• Advanced Digital Forensics (certificate)	7
• Advanced Network Security (certificate)	8
• American Sign Language (A.A.)	10
• American Sign Language (lor)	12
• Architecture and Interior Design - Landscape Design (A.A.S.)	13
• Architecture and Interior Design (A.A.S.)	16
• Architecture and Interior Design - Advanced Interior Design (certificate)	21
• Architecture and Interior Design - Architectural CAD (certificate)	23
• Architecture and Interior Design - Architectural Illustration (certificate)	24
• Architecture and Interior Design - Construction Management (certificate)	26
• Architecture and Interior Design - Construction Management Entrepreneurship (certificate)	27
• Architecture and Interior Design - Interior Design (certificate)	29
• Architecture and Interior Design - Landscape Design (certificate)	30
• Art History and Museum Studies -Visual Arts Transfer (A.A.)	32
• Astronomy - Arts and Sciences Transfer (A.S.)	35
• Baking and Pastry Arts (certificate)	38
• Biology - Arts and Sciences Transfer (A.S.)	39
• Business Administration Transfer (A.S.)	42
• Business Management - Advertising/Marketing (A.A.S.)	45
• Business Management - Advertising/Marketing (certificate)	48
• Business Management - Business Communications (A.A.S.)	49
• Business Management - Business Communications (certificate)	53
• Business Management - Healthcare Professionals (A.A.S.)	54
• Business Management - Healthcare Professionals (certificate)	57
• Business Management - Human Resources (A.A.S.)	58
• Business Management - Human Resources (certificate)	62
• Business Management - Leadership (A.A.S.)	63
• Business Management - Leadership (certificate)	66
• Business Management - Office Management (A.A.S.)	68
• Business Management - Office Management (certificate)	71
• Business Management - Small Business Management (A.A.S.)	73
• Business Management - Small Business Management (certificate)	76
• Business Management - Supply Chain Management (A.A.S.)	78
• Business Management - Supply Chain Management (certificate)	81
• Chemistry - Arts and Sciences Transfer (A.S.)	82
• Cisco Certified Network Associate (CCNA) Preparation (certificate)	85
• Cisco Certified Network Professional (CCNP) Preparation (certificate)	86
• Communications - Arts and Sciences Transfer (A.A.)	87
• Computer Information Systems - Database Administration (certificate)	91
• Computer Information Systems - Information Systems Technology (A.A.S.)	92
• Computer Information Systems - Microsoft Office Specialist (certificate)	95
• Computer Information Systems - Personal Computer Specialist, Help Desk Specialist Option (certificate)	97
• Computer Information Systems - Scientific Programming Option (certificate)	98
• Computer Network Management - UNIX/LINUX System Administrator (certificate)	99
• Computer Science - Computer Science Transfer (A.S.)	101
• Computer Science - Database Development (certificate)	103
• Construction Management (A.A.S.)	105
• Creative Writing (lor)	107
• Creative Writing - Arts and Sciences Transfer (A.A.)	108

• Culinary Arts (certificate)	113
• Cyber Technology (certificate)	114
• Cybercrime (A.A.S.)	116
• Cybercrime (certificate)	119
• Dance - Arts and Sciences Transfer (A.A.)	120
• Data Literacy (certificate)	123
• Database Administration (lor)	125
• Database Administration - Database Management Systems (A.A.S.)	126
• Database Development - Database Management Systems (A.A.S.)	129
• Digital Forensics (certificate)	132
• Digital Marketing (certificate)	133
• Early Childhood Development (A.A.S.)	135
• Early Childhood Education/Early Childhood Special Education (A.A.T.)	138
• Earth Science - Arts and Sciences Transfer (A.S.)	141
• Ecosystem Restoration (certificate)	144
• Ecosystem Restoration (lor)	145
• Electrical Engineering (A.S.E.)	146
• Electrocardiogram and Intravenous Therapy (lor)	148
• Electrocardiogram and Intravenous Therapy Technician (certificate)	149
• Electronics Engineering Technology (A.A.S.)	151
• Electronics Technology (certificate)	154
• Elementary Education/Elementary Special Education (A.A.T.)	155
• Emergency Medical Technician-Paramedic (A.A.S.)	158
• Engineering Transfer (A.S.)	162
• English - Arts and Sciences Transfer (A.A.)	165
• Entrepreneurship (A.A.S.)	169
• Entrepreneurship (certificate)	172
• Entrepreneurship for Licensed Professions (certificate)	174
• Environmental Monitoring and Assessment (certificate)	175
• Environmental Monitoring and Assessment (lor)	176
• Environmental Science - Arts and Sciences Transfer (A.S.)	177
• Event Planning and Catering (certificate)	180
• Film Studies - Arts and Sciences Transfer (A.A.)	181
• Financial Accounting (A.A.S.)	185
• Financial Accounting (certificate)	188
• Forensic Studies - Forensic Police Science (A.A.S.)	189
• Forensic Studies - Forensic Scientist (A.A.S.)	193
• Full Stack Web Development (certificate)	196
• Fundamentals of Cooking and Baking Option (certificate)	197
• Game Art and Design - Visual Arts Transfer (A.A.)	199
• Game Development (certificate)	202
• Game Development - Visual Arts Professional (A.A.S.)	203
• Gender and Sexuality Studies (certificate)	207
• Gender and Sexuality Studies (lor)	208
• Gender and Sexuality Studies - Arts and Sciences Transfer (A.A.)	209
• Graphic and Web Design - Visual Arts Transfer (A.A.)	212
• Graphic Design (certificate)	216
• Graphic Design - Visual Arts Professional (A.A.S.)	217
• Histotechnician (A.A.S.)	220
• Homeland Security Management - Homeland Security Management (A.A.S.)	224
• Homeland Security Management - Intelligence Analytics (A.A.S.)	227
• Homeland Security Management - Transportation and Border Security (A.A.S.)	230
• Hospitality Management (certificate)	233
• Hotel/Restaurant Management - Culinary Arts, Baking & Pastry, Hospitality Management (A.A.S.)	234

• Human Services (A.A.S.)	239
• Human Services (certificate)	244
• Information Assurance and Cybersecurity (A.A.S.)	245
• Information Systems - Computer Science Transfer (A.S.)	250
• Intelligence Analytics (certificate)	253
• Juvenile Justice (A.A.S.)	254
• Kinesiology (A.S.)	257
• Law and Jurisprudence (A.A.)	260
• Law Enforcement and Criminal Justice (certificate)	263
• Law Enforcement and Criminal Justice - Law Enforcement and Criminal Justice (A.A.S.)	264
• Law Enforcement and Criminal Justice - Police Academy (A.A.S.)	267
• Law Enforcement and Criminal Justice - Police Academy (certificate)	271
• Law Enforcement and Criminal Justice - Social Justice (A.A.S.)	274
• Liberal Arts - Arts and Sciences Transfer (A.A.)	277
• Life and Engagement Coach (certificate)	282
• Massage Therapy (A.A.S.)	283
• Massage Therapy (certificate)	286
• Mathematics (A.S.)	289
• Mechatronics Engineering Technology (A.A.S.)	292
• Mechatronics Technology (certificate)	295
• Media Production (certificate)	297
• Media Production - Visual Arts Professional (A.A.S.)	298
• Medical Assisting (A.A.S.)	301
• Medical Assisting (certificate)	304
• Medical Coding (certificate)	307
• Medical Laboratory Assistant (certificate)	309
• Medical Laboratory Technician (A.A.S.)	311
• Mobile Device Application Development (certificate)	314
• Music - Arts and Sciences Transfer (A.A.)	315
• Network Security (certificate)	320
• Nursing (A.S.)	321
• Nursing Transfer - Arts and Sciences Transfer (A.S.)	327
• Nutrition - Arts and Sciences Transfer (A.S.)	331
• Office Applications Specialist (lor)	333
• Paralegal Studies (A.A.S.)	334
• Paralegal Studies - (certificate)	338
• Paramedic (certificate)	340
• Pathway to Teaching Adults (lor)	343
• PC Maintenance (lor)	344
• Personal Trainer (certificate)	345
• Personal Trainer (lor)	346
• Phlebotomy Technician (lor)	347
• Photography (certificate)	349
• Photography - Visual Arts Transfer (A.A.)	350
• Physical Therapist Assistant (A.A.S.)	354
• Physics - Arts and Sciences Transfer (A.S.)	357
• Plant Science - Arts and Sciences Transfer (A.S.)	360
• Practical Nursing (certificate)	363
• Premedical Professional - Arts and Sciences Transfer (A.S.)	366
• Production Design (certificate)	369
• Professional Bookkeeper (certificate)	370
• Psychology - Arts and Sciences Transfer (A.A.)	371
• Public Health Professions - Public Health (A.S.)	375
• Radiologic Technology (A.A.S.)	378

• Retail Management (certificate)	382
• Secondary Education - Chemistry (A.A.T.)	383
• Secondary Education - English (A.A.T.)	387
• Secondary Education - Mathematics (A.A.T.)	391
• Secondary Education - Physics (A.A.T.)	395
• Secondary Education - Spanish (A.A.T.)	399
• Server Administration and Security (certificate)	403
• Skilled Professional Trades Management (A.A.S.)	404
• Solid Modeling and Rapid Prototyping (lor)	408
• Spanish (certificate)	409
• Special Education Support (certificate)	412
• Studio Arts - Visual Arts Transfer (A.A.)	412
• Surgical Technology (A.A.S.)	416
• Teacher Education (A.A.)	419
• Theater - Arts and Sciences Transfer (A.A.)	421
• Transfer Studies (A.A.)	425
• Transportation, Logistics, and Cargo Security (certificate)	427
• Visual Arts, Painting (lor)	428
• Web and Mobile Application Development (A.A.S.)	429
• Web Design (certificate)	432
• Web Design - Visual Arts Professional (A.A.S.)	434
• Wiring Technician (lor)	437
